**DIVISION E—SBIR AND STTR  
REAUTHORIZATION**

**TITLE I—SHORT TITLE; DEFINITIONS**

**SEC. 5001. SHORT TITLE.**

*This division may be cited as the “SBIR/STTR Reauthorization Act of 2011”.*

**SEC. 5002. DEFINITIONS.**

*In this division—*

*(1) the terms “Administration” and “Administrator” mean the Small Business Administration and the Administrator thereof, respectively;*

*(2) the terms “extramural budget”, “Federal agency”, “Small Business Innovation Research Program”, “SBIR”, “Small Business Technology Transfer Program”, and “STTR” have the meanings given such terms in section 9 of the Small Business Act (15 U.S.C. 638); and*

*(3) the term “small business concern” has the meaning given that term under section 3 of the Small Business Act (15 U.S.C. 632).*

**TITLE II—SBIR AND STTR  
REAUTHORIZATION**

**Subtitle A—Reauthorization of the SBIR and STTR Programs**

Sec. 5101. Extension of termination dates.

Sec. 5102. SBIR and STTR allocation increase.

Sec. 5103. SBIR and STTR award levels.

Sec. 5104. Agency and program flexibility.

Sec. 5105. Elimination of Phase II invitations.

Sec. 5106. Pilot to allow phase flexibility.

Sec. 5107. Participation by firms with substantial investment from multiple venture capital operating companies, hedge funds, or private equity firms in a portion of the SBIR program.

Sec. 5108. SBIR and STTR special acquisition preference.

Sec. 5109. Collaborating with Federal laboratories and research and development centers.

Sec. 5110. Notice requirement.

Sec. 5111. Additional SBIR and STTR awards.

**Subtitle B—Outreach and Commercialization Initiatives**

Sec. 5121. Technical assistance for awardees.

Sec. 5122. Commercialization Readiness Program at Department of Defense.

Sec. 5123. Commercialization Readiness Pilot Program for civilian agencies.

Sec. 5124. Interagency Policy Committee.

Sec. 5125. Clarifying the definition of “Phase III”.

Sec. 5126. Shortened period for final decisions on proposals and applications.

Sec. 5127. Phase 0 Proof of Concept Partnership pilot program.

**Subtitle C—Oversight and Evaluation**

Sec. 5131. Streamlining annual evaluation requirements.

Sec. 5132. Data collection from agencies for SBIR.

Sec. 5133. Data collection from agencies for STTR.

Sec. 5134. Public database.

Sec. 5135. Government database.

Sec. 5136. Accuracy in funding base calculations.

Sec. 5137. Continued evaluation by the National Academy of Sciences.

Sec. 5138. Technology insertion reporting requirements.

Sec. 5139. Intellectual property protections.

Sec. 5140. Obtaining consent from SBIR and STTR applicants to release contact information to economic development organizations.

Sec. 5141. Pilot to allow funding for administrative, oversight, and contract processing costs.

Sec. 5142. GAO study with respect to venture capital operating company, hedge fund, and private equity firm involvement.

Sec. 5143. Reducing vulnerability of SBIR and STTR programs to fraud, waste, and abuse.

Sec. 5144. Simplified paperwork requirements.

**Subtitle D—Policy Directives**

Sec. 5151. Conforming amendments to the SBIR and the STTR Policy Directives.

**Subtitle E—Other Provisions**

Sec. 5161. Report on SBIR and STTR program goals.

Sec. 5162. Competitive selection procedures for SBIR and STTR programs.

Sec. 5163. Loan restrictions.

Sec. 5164. Limitation on pilot programs.

Sec. 5165. Commercialization success.

Sec. 5166. Publication of certain information.

Sec. 5167. Report on enhancement of manufacturing activities.

Sec. 5168. Coordination of the SBIR program and the Experimental Program to Stimulate Competitive Research.

**Subtitle A—Reauthorization of the SBIR and STTR Programs**

**SEC. 5101. EXTENSION OF TERMINATION DATES.**

(a) SBIR.—Section 9(m) of the Small Business Act (15 U.S.C. 638(m)) is amended by striking “2011” and inserting “2017”.

(b) STTR.—Section 9(n)(1)(A) of the Small Business Act (15 U.S.C. 638(n)(1)(A)) is amended by striking “2011” and inserting “2017”.

**SEC. 5102. SBIR AND STTR ALLOCATION INCREASE.**

(a) SBIR.—Section 9(f) of the Small Business Act (15 U.S.C. 638(f)) is amended—

(1) in paragraph (1)—

(A) in the matter preceding subparagraph (A), by striking “Each” and inserting “Except as provided in paragraph (2)(B), each”;

(B) in subparagraph (B), by striking “and” at the end; and

(C) by striking subparagraph (C) and inserting the following:

“(C) not less than 2.5 percent of such budget in each of fiscal years 1997 through 2011;

“(D) not less than 2.6 percent of such budget in fiscal year 2012;

“(E) not less than 2.7 percent of such budget in fiscal year 2013;

“(F) not less than 2.8 percent of such budget in fiscal year 2014;

“(G) not less than 2.9 percent of such budget in fiscal year 2015;

“(H) not less than 3.0 percent of such budget in fiscal year 2016; and

“(I) not less than 3.2 percent of such budget in fiscal year 2017 and each fiscal year thereafter.”; and

(2) by adding at the end the following:

“(4) **RULE OF CONSTRUCTION.**—Nothing in this subsection may be construed to prohibit a Federal agency from expending with small

business concerns an amount of the extramural budget for research or research and development of the agency that exceeds the amount required under paragraph (1).”

(b) STTR.—Section 9(n)(1)(B) of the Small Business Act (15 U.S.C. 638(n)(1)(B)) is amended—

(1) in clause (i) by striking “and” at the end; and

(2) by striking clause (ii) and inserting the following:

“(i) 0.3 percent for each of fiscal years 2004 through 2011;

“(iii) 0.35 percent for each of fiscal years 2012 and 2013;

“(iv) 0.40 percent for each of fiscal years 2014 and 2015; and

“(v) 0.45 percent for fiscal year 2016 and each fiscal year thereafter.”

#### SEC. 5103. SBIR AND STTR AWARD LEVELS.

(a) SBIR ADJUSTMENTS.—Section 9(j)(2)(D) of the Small Business Act (15 U.S.C. 638(j)(2)(D)) is amended—

(1) by striking “\$100,000” and inserting “\$150,000”; and

(2) by striking “\$750,000” and inserting “\$1,000,000”.

(b) STTR ADJUSTMENTS.—Section 9(p)(2)(B)(ix) of the Small Business Act (15 U.S.C. 638(p)(2)(B)(ix)) is amended—

(1) by striking “\$100,000” and inserting “\$150,000”; and

(2) by striking “\$750,000” and inserting “\$1,000,000”.

(c) ANNUAL ADJUSTMENTS.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended—

(1) in subsection (j)(2)(D), by striking “once every 5 years to reflect economic adjustments and programmatic considerations” and inserting “every year for inflation”; and

(2) in subsection (p)(2)(B)(ix), as amended by subsection (b) of this section, by inserting “(each of which the Administrator shall adjust for inflation annually)” after “\$1,000,000”.

(d) LIMITATION ON SIZE OF AWARDS.—Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(aa) LIMITATION ON SIZE OF AWARDS.—

“(1) LIMITATION.—No Federal agency may issue an award under the SBIR program or the STTR program if the size of the award exceeds the award guidelines established under this section by more than 50 percent.

“(2) MAINTENANCE OF INFORMATION.—Participating agencies shall maintain information on awards exceeding the guidelines established under this section, including—

“(A) the amount of each award;

“(B) a justification for exceeding the guidelines for each award;

“(C) the identity and location of each award recipient; and

“(D) whether an award recipient has received any venture capital, hedge fund, or private equity firm investment and, if so, whether the recipient is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms.

“(3) REPORTS.—The Administrator shall include the information described in paragraph (2) in the annual report of the Administrator to Congress.

“(4) WAIVER FOR SPECIFIC TOPIC.—Upon the receipt of an application from a Federal agency, the Administrator may grant a waiver from the requirement under paragraph (1) with respect to a specific topic (but not for the agency as a whole) for a fiscal year if the Administrator determines, based on the information contained in the application from the agency, that—

“(A) the requirement under paragraph (1) will interfere with the ability of the agency to fulfill its research mission through the SBIR program or the STTR program; and

“(B) the agency will minimize, to the maximum extent possible, the number of awards that do not satisfy the requirement under paragraph (1) to preserve the nature and intent of the SBIR program and the STTR program.

“(5) RULE OF CONSTRUCTION.—Nothing in this subsection shall be construed to prevent a Federal agency from supplementing an award under the SBIR program or the STTR program using funds of the Federal agency that are not part of the SBIR program or the STTR program of the Federal agency.”

#### SEC. 5104. AGENCY AND PROGRAM FLEXIBILITY.

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(bb) SUBSEQUENT PHASE II AWARDS.—

“(1) AGENCY FLEXIBILITY.—A small business concern that received a Phase I award from a Federal agency under this section shall be eligible to receive a subsequent Phase II award from another Federal agency, if the head of each relevant Federal agency or the relevant component of the Federal agency makes a written determination that the topics of the relevant awards are the same and both agencies report the awards to the Administrator for inclusion in the public database under subsection (k).

“(2) SBIR AND STTR PROGRAM FLEXIBILITY.—A small business concern that received a Phase I award under this section under the SBIR program or the STTR program may receive a subsequent Phase II award in either the SBIR program or the STTR program and the participating agency or agencies shall report the awards to the Administrator for inclusion in the public database under subsection (k).

“(3) PREVENTING DUPLICATIVE AWARDS.—The head of a Federal agency shall verify that any activity to be performed with respect to a project with a Phase I or Phase II SBIR or STTR award has not been funded under the SBIR program or STTR program of another Federal agency.”

#### SEC. 5105. ELIMINATION OF PHASE II INVITATIONS.

Section 9(e) of the Small Business Act (15 U.S.C. 638(e)) is amended—

(1) in paragraph (4)(B), by striking “to further” and inserting “which shall not include any invitation, pre-screening, or pre-selection process for eligibility for Phase II, that will further”; and

(2) in paragraph (6)(B), by striking “to further develop proposed ideas to” and inserting “which shall not include any invitation, pre-screening, or pre-selection process for eligibility for Phase II, that will further develop proposals that”.

#### SEC. 5106. PILOT TO ALLOW PHASE FLEXIBILITY.

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(cc) PHASE FLEXIBILITY.—During fiscal years 2012 through 2017, the National Institutes of Health, the Department of Defense, and the Department of Education may each provide to a small business concern an award under Phase II of the SBIR program with respect to a project, without regard to whether the small business concern was provided an award under Phase I of an SBIR program with respect to such project, if the head of the applicable agency determines that the small business concern has completed the de-

terminations described in subsection (e)(4)(A) with respect to such project despite not having been provided a Phase I award.”

#### SEC. 5107. PARTICIPATION BY FIRMS WITH SUBSTANTIAL INVESTMENT FROM MULTIPLE VENTURE CAPITAL OPERATING COMPANIES, HEDGE FUNDS, OR PRIVATE EQUITY FIRMS IN A PORTION OF THE SBIR PROGRAM.

(a) IN GENERAL.—Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(dd) PARTICIPATION OF SMALL BUSINESS CONCERNS MAJORITY-OWNED BY VENTURE CAPITAL OPERATING COMPANIES, HEDGE FUNDS, OR PRIVATE EQUITY FIRMS IN THE SBIR PROGRAM.—

“(1) AUTHORITY.—Upon providing a written determination described in paragraph (2) to the Administrator, the Committee on Small Business and Entrepreneurship of the Senate, and the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives, not later than 30 days before the date on which any such award is made—

“(A) the Director of the National Institutes of Health, the Secretary of Energy, and the Director of the National Science Foundation may award not more than 25 percent of the funds allocated for the SBIR program of the applicable Federal agency to small business concerns that are owned in majority part by multiple venture capital operating companies, hedge funds, or private equity firms through competitive, merit-based procedures that are open to all eligible small business concerns; and

“(B) the head of a Federal agency other than a Federal agency described in subparagraph (A) that participates in the SBIR program may award not more than 15 percent of the funds allocated for the SBIR program of the Federal agency to small business concerns that are owned in majority part by multiple venture capital operating companies, hedge funds, or private equity firms through competitive, merit-based procedures that are open to all eligible small business concerns.

“(2) DETERMINATION.—A written determination described in this paragraph is a written determination by the head of a Federal agency that explains how the use of the authority under paragraph (1) will—

“(A) induce additional venture capital, hedge fund, or private equity firm funding of small business innovations;

“(B) substantially contribute to the mission of the Federal agency;

“(C) demonstrate a need for public research; and

“(D) otherwise fulfill the capital needs of small business concerns for additional financing for SBIR projects.

“(3) REGISTRATION.—A small business concern that is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms and qualified for participation in the program authorized under paragraph (1) shall—

“(A) register with the Administrator on the date that the small business concern submits an application for an award under the SBIR program; and

“(B) indicate in any SBIR proposal that the small business concern is registered under subparagraph (A) as majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms.

“(4) COMPLIANCE.—

“(A) IN GENERAL.—The head of a Federal agency that makes an award under this subsection during a fiscal year shall collect and

submit to the Administrator data relating to the number and dollar amount of Phase I awards, Phase II awards, and any other category of awards by the Federal agency under the SBIR program during that fiscal year.

“(B) ANNUAL REPORTING.—The Administrator shall include as part of each annual report by the Administration under subsection (b)(7) any data submitted under subparagraph (A) and a discussion of the compliance of each Federal agency that makes an award under this subsection during the fiscal year with the maximum percentages under paragraph (1).

“(5) ENFORCEMENT.—If a Federal agency awards more than the percent of the funds allocated for the SBIR program of the Federal agency authorized under paragraph (1) for a purpose described in paragraph (1), the head of the Federal agency shall transfer an amount equal to the amount awarded in excess of the amount authorized under paragraph (1) to the funds for general SBIR programs from the non-SBIR and non-STTR research and development funds of the Federal agency not later than 180 days after the date on which the Federal agency made the award that caused the total awarded under paragraph (1) to be more than the amount authorized under paragraph (1) for a purpose described in paragraph (1).

“(6) FINAL DECISIONS ON APPLICATIONS UNDER THE SBIR PROGRAM.—

“(A) DEFINITION.—In this paragraph, the term ‘covered small business concern’ means a small business concern that—

“(i) was not majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms on the date on which the small business concern submitted an application in response to a solicitation under the SBIR programs; and

“(ii) on the date of the award under the SBIR program is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms.

“(B) IN GENERAL.—If a Federal agency does not make an award under a solicitation under the SBIR program before the date that is 9 months after the date on which the period for submitting applications under the solicitation ends—

“(i) a covered small business concern is eligible to receive the award, without regard to whether the covered small business concern meets the requirements for receiving an award under the SBIR program for a small business concern that is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms, if the covered small business concern meets all other requirements for such an award; and

“(ii) the head of the Federal agency shall transfer an amount equal to any amount awarded to a covered small business concern under the solicitation to the funds for general SBIR programs from the non-SBIR and non-STTR research and development funds of the Federal agency, not later than 90 days after the date on which the Federal agency makes the award.

“(7) EVALUATION CRITERIA.—A Federal agency may not use investment of venture capital or investment from hedge funds or private equity firms as a criterion for the award of contracts under the SBIR program or STTR program.”.

(b) DEFINITIONS.—Section 3 of the Small Business Act (15 U.S.C. 632) is amended by adding at the end the following:

“(aa) VENTURE CAPITAL OPERATING COMPANY.—In this Act, the term ‘venture capital operating company’ means an entity described in clause (i), (v), or (vi) of section

121.103(b)(5) of title 13, Code of Federal Regulations (or any successor thereto).

“(bb) HEDGE FUND.—In this Act, the term ‘hedge fund’ has the meaning given that term in section 13(h)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1851(h)(2)).

“(cc) PRIVATE EQUITY FIRM.—In this Act, the term ‘private equity firm’ has the meaning given the term ‘private equity fund’ in section 13(h)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1851(h)(2)).”.

(c) RULEMAKING TO ENSURE THAT FIRMS THAT ARE MAJORITY-OWNED BY MULTIPLE VENTURE CAPITAL OPERATING COMPANIES, HEDGE FUNDS, OR PRIVATE EQUITY FIRMS ARE ABLE TO PARTICIPATE IN A PORTION OF THE SBIR PROGRAM.—

(1) STATEMENT OF CONGRESSIONAL INTENT.—It is the stated intent of Congress that the Administrator should promulgate regulations to carry out the authority under section 9(dd) of the Small Business Act, as added by this section, that—

(A) permit small business concerns that are majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms to participate in the SBIR program in accordance with section 9(dd) of the Small Business Act;

(B) provide specific guidance for small business concerns that are majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms with regard to eligibility, participation, and affiliation rules; and

(C) preserve and maintain the integrity of the SBIR program as a program for small business concerns in the United States by prohibiting large businesses or large entities or foreign-owned businesses or foreign-owned entities from participation in the program established under section 9 of the Small Business Act.

(2) RULEMAKING REQUIRED.—

(A) PROPOSED REGULATIONS.—Not later than 120 days after the date of enactment of this Act, the Administrator shall issue proposed regulations to amend section 121.103 (relating to determinations of affiliation applicable to the SBIR program) and section 121.702 (relating to ownership and control standards and size standards applicable to the SBIR program) of title 13, Code of Federal Regulations, for firms that are majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms and participating in the SBIR program solely under the authority under section 9(dd) of the Small Business Act, as added by this section.

(B) FINAL REGULATIONS.—Not later than 1 year after the date of enactment of this Act, and after providing notice of and opportunity for comment on the proposed regulations issued under subparagraph (A), the Administrator shall issue final or interim final regulations under this subsection.

(3) CONTENTS.—

(A) IN GENERAL.—The regulations issued under this subsection shall permit the participation of applicants majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms in the SBIR program in accordance with section 9(dd) of the Small Business Act, as added by this section, unless the Administrator determines—

(i) in accordance with the size standards established under subparagraph (B), that the applicant is—

(I) a large business or large entity; or

(II) majority-owned or controlled by a large business or large entity; or

(ii) in accordance with the criteria established under subparagraph (C), that the applicant—

(I) is a foreign-owned business or a foreign entity or is not a citizen of the United States or alien lawfully admitted for permanent residence; or

(II) is majority-owned or controlled by a foreign-owned business, foreign entity, or person who is not a citizen of the United States or alien lawfully admitted for permanent residence.

(B) SIZE STANDARDS.—Under the authority to establish size standards under paragraphs (2) and (3) of section 3(a) of the Small Business Act (15 U.S.C. 632(a)), the Administrator shall, in accordance with paragraph (1) of this subsection, establish size standards for applicants seeking to participate in the SBIR program solely under the authority under section 9(dd) of the Small Business Act, as added by this section.

(C) CRITERIA FOR DETERMINING FOREIGN OWNERSHIP.—The Administrator shall establish criteria for determining whether an applicant meets the requirements under subparagraph (A)(ii), and, in establishing the criteria, shall consider whether the criteria should include—

(i) whether the applicant is at least 51 percent owned or controlled by citizens of the United States or domestic venture capital operating companies, hedge funds, or private equity firms;

(ii) whether the applicant is domiciled in the United States; and

(iii) whether the applicant is a direct or indirect subsidiary of a foreign-owned firm, including whether the criteria should include that an applicant is a direct or indirect subsidiary of a foreign-owned entity if—

(I) any venture capital operating company, hedge fund, or private equity firm that owns more than 20 percent of the applicant is a direct or indirect subsidiary of a foreign-owned entity; or

(II) in the aggregate, entities that are direct or indirect subsidiaries of foreign-owned entities own more than 49 percent of the applicant.

(D) CRITERIA FOR DETERMINING AFFILIATION.—The Administrator shall establish criteria, in accordance with paragraph (1), for determining whether an applicant is affiliated with a venture capital operating company, hedge fund, private equity firm, or any other business that the venture capital operating company, hedge fund, or private equity firm has financed and, in establishing the criteria, shall specify that—

(i) if a venture capital operating company, hedge fund, or private equity firm that is determined to be affiliated with an applicant is a minority investor in the applicant, the portfolio companies of the venture capital operating company, hedge fund, or private equity firm shall not be determined to be affiliated with the applicant, unless—

(I) the venture capital operating company, hedge fund, or private equity firm owns a majority of the portfolio company; or

(II) the venture capital operating company, hedge fund, or private equity firm holds a majority of the seats on the board of directors of the portfolio company;

(ii) subject to clause (i), the Administrator retains the authority to determine whether a venture capital operating company, hedge fund, or private equity firm is affiliated with an applicant, including establishing other criteria;

(iii) the Administrator may not determine that a portfolio company of a venture capital operating company, hedge fund, or private

equity firm is affiliated with an applicant based solely on 1 or more shared investors; and

(iv) subject to clauses (i), (ii), and (iii), the Administrator retains the authority to determine whether a portfolio company of a venture capital operating company, hedge fund, or private equity firm is affiliated with an applicant based on factors independent of whether there is a shared investor, such as whether there are contractual obligations between the portfolio company and the applicant.

(4) **ENFORCEMENT.**—If the Administrator does not issue final or interim final regulations under this subsection on or before the date that is 1 year after the date of enactment of this Act, the Administrator may not carry out or establish any pilot program until the date on which the Administrator issues the final or interim final regulations under this subsection.

(5) **DEFINITION.**—In this subsection, the terms “venture capital operating company”, “hedge fund”, and “private equity firm” have the same meaning as in section 3 of the Small Business Act (15 U.S.C. 632), as amended by this section.

(d) **ASSISTANCE FOR DETERMINING AFFILIATES.**—

(1) **CLEAR EXPLANATION REQUIRED.**—Not later than 30 days after the date of enactment of this Act, the Administrator shall post on the Web site of the Administration (with a direct link displayed on the homepage of the Web site of the Administration or the SBIR and STTR Web sites of the Administration)—

(A) a clear explanation of the SBIR and STTR affiliation rules under part 121 of title 13, Code of Federal Regulations; and

(B) contact information for officers or employees of the Administration who—

(i) upon request, shall review an issue relating to the rules described in subparagraph (A); and

(ii) shall respond to a request under clause (i) not later than 20 business days after the date on which the request is received.

(2) **INCLUSION OF AFFILIATION RULES FOR CERTAIN SMALL BUSINESS CONCERNS.**—On and after the date on which the final regulations under subsection (c) are issued, the Administrator shall post on the Web site of the Administration information relating to the regulations, in accordance with paragraph (1).

#### **SEC. 5108. SBIR AND STTR SPECIAL ACQUISITION PREFERENCE.**

Section 9(r) of the Small Business Act (15 U.S.C. 638(r)) is amended by adding at the end the following:

“(4) **PHASE III AWARDS.**—To the greatest extent practicable, Federal agencies and Federal prime contractors shall issue Phase III awards relating to technology, including sole source awards, to the SBIR and STTR award recipients that developed the technology.”.

#### **SEC. 5109. COLLABORATING WITH FEDERAL LABORATORIES AND RESEARCH AND DEVELOPMENT CENTERS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(ee) **COLLABORATING WITH FEDERAL LABORATORIES AND RESEARCH AND DEVELOPMENT CENTERS.**—

“(1) **AUTHORIZATION.**—Subject to the limitations under this section, the head of each participating Federal agency may make SBIR and STTR awards to any eligible small business concern that—

“(A) intends to enter into an agreement with a Federal laboratory or federally funded

research and development center for portions of the activities to be performed under that award; or

“(B) has entered into a cooperative research and development agreement (as defined in section 12(d) of the Stevenson-Wylder Technology Innovation Act of 1980 (15 U.S.C. 3710a(d))) with a Federal laboratory.

“(2) **PROHIBITION.**—No Federal agency shall—

“(A) condition an SBIR or STTR award upon entering into agreement with any Federal laboratory or any federally funded laboratory or research and development center for any portion of the activities to be performed under that award;

“(B) approve an agreement between a small business concern receiving an SBIR or STTR award and a Federal laboratory or federally funded laboratory or research and development center, if the small business concern performs a lesser portion of the activities to be performed under that award than required by this section and by the SBIR Policy Directive and the STTR Policy Directive of the Administrator; or

“(C) approve an agreement that violates any provision, including any data rights protections provision, of this section or the SBIR and the STTR Policy Directives.

“(3) **IMPLEMENTATION.**—Not later than 180 days after the date of enactment of this subsection, the Administrator shall modify the SBIR Policy Directive and the STTR Policy Directive issued under this section to ensure that small business concerns—

“(A) have the flexibility to use the resources of the Federal laboratories or federally funded research and development centers; and

“(B) are not mandated to enter into agreement with any Federal laboratory or any federally funded laboratory or research and development center as a condition of an award.

“(4) **ADVANCE PAYMENT.**—If a small business concern receiving an award under this section enters into an agreement with a Federal laboratory or federally funded research and development center for portions of the activities to be performed under that award, the Federal laboratory or federally funded research and development center may not require advance payment from the small business concern in an amount greater than the amount necessary to pay for 30 days of such activities.”.

#### **SEC. 5110. NOTICE REQUIREMENT.**

(a) **SBIR PROGRAM.**—Section 9(g) of the Small Business Act (15 U.S.C. 638(g)) is amended—

(1) in paragraph (10), by striking “and” at the end;

(2) in paragraph (11), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(12) provide timely notice to the Administrator of any case or controversy before any Federal judicial or administrative tribunal concerning the SBIR program of the Federal agency.”.

(b) **STTR PROGRAM.**—Section 9(o) of the Small Business Act (15 U.S.C. 638(o)) is amended—

(1) by striking paragraph (15);

(2) in paragraph (16), by striking the period at the end and inserting “; and”; and

(3) by redesignating paragraph (16) as paragraph (15); and

(4) by adding at the end the following:

“(16) provide timely notice to the Administrator of any case or controversy before any Federal judicial or administrative tribunal concerning the STTR program of the Federal agency.”.

#### **SEC. 5111. ADDITIONAL SBIR AND STTR AWARDS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(ff) **ADDITIONAL SBIR AND STTR AWARDS.**—

“(1) **EXPRESS AUTHORITY FOR AWARDING A SEQUENTIAL PHASE II AWARD.**—A small business concern that receives a Phase II SBIR award or a Phase II STTR award for a project remains eligible to receive 1 additional Phase II SBIR award or Phase II STTR award for continued work on that project.

“(2) **PREVENTING DUPLICATIVE AWARDS.**—The head of a Federal agency shall verify that any activity to be performed with respect to a project with a Phase I or Phase II SBIR or STTR award has not been funded under the SBIR program or STTR program of another Federal agency.”.

#### **Subtitle B—Outreach and Commercialization Initiatives**

#### **SEC. 5121. TECHNICAL ASSISTANCE FOR AWARD EES.**

Section 9(q) of the Small Business Act (15 U.S.C. 638(q)) is amended—

(1) in paragraph (1)—

(A) by inserting “or STTR program” after “SBIR program”; and

(B) by striking “SBIR projects” and inserting “SBIR or STTR projects”; and

(2) in paragraph (2), by striking “3 years” and inserting “5 years”; and

(3) in paragraph (3)—

(A) by striking subparagraph (A) and inserting the following:

“(A) **PHASE I.**—A Federal agency described in paragraph (1) may—

“(i) provide to the recipient of a Phase I SBIR or STTR award, through a vendor selected under paragraph (2), the services described in paragraph (1), in an amount equal to not more than \$5,000 per year; or

“(ii) authorize the recipient of a Phase I SBIR or STTR award to purchase the services described in paragraph (1), in an amount equal to not more than \$5,000 per year, which shall be in addition to the amount of the recipient's award.”;

(B) by striking subparagraph (B) and inserting the following:

“(B) **PHASE II.**—A Federal agency described in paragraph (1) may—

“(i) provide to the recipient of a Phase II SBIR or STTR award, through a vendor selected under paragraph (2), the services described in paragraph (1), in an amount equal to not more than \$5,000 per year; or

“(ii) authorize the recipient of a Phase II SBIR or STTR award to purchase the services described in paragraph (1), in an amount equal to not more than \$5,000 per year, which shall be in addition to the amount of the recipient's award.”; and

(C) by adding at the end the following:

“(C) **FLEXIBILITY.**—In carrying out subparagraphs (A) and (B), each Federal agency shall provide the allowable amounts to a recipient that meets the eligibility requirements under the applicable subparagraph, if the recipient requests to seek technical assistance from an individual or entity other than the vendor selected under paragraph (2) by the Federal agency.

“(D) **LIMITATION.**—A Federal agency may not—

“(i) use the amounts authorized under subparagraph (A) or (B) unless the vendor selected under paragraph (2) provides the technical assistance to the recipient; or

“(ii) enter a contract with a vendor under paragraph (2) under which the amount provided for technical assistance is based on total number of Phase I or Phase II awards.”.

**SEC. 5122. COMMERCIALIZATION READINESS PROGRAM AT DEPARTMENT OF DEFENSE.**

(a) IN GENERAL.—Section 9(y) of the Small Business Act (15 U.S.C. 638(y)) is amended—

(1) in the subsection heading, by striking “PILOT” and inserting “READINESS”;

(2) by striking “Pilot” each place that term appears and inserting “Readiness”;

(3) in paragraph (1)—

(A) by inserting “or Small Business Technology Transfer Program” after “Small Business Innovation Research Program”; and

(B) by adding at the end the following: “The authority to create and administer a Commercialization Readiness Program under this subsection may not be construed to eliminate or replace any other SBIR program or STTR program that enhances the insertion or transition of SBIR or STTR technologies, including any such program in effect on the date of enactment of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163; 119 Stat. 3136).”;

(4) in paragraph (2), by inserting “or Small Business Technology Transfer Program” after “Small Business Innovation Research Program”;

(5) by striking paragraph (5);

(6) by striking paragraph (6); and

(7) by inserting after paragraph (4) the following:

“(5) INSERTION INCENTIVES.—For any contract with a value of not less than \$100,000,000, the Secretary of Defense is authorized to—

“(A) establish goals for the transition of Phase III technologies in subcontracting plans; and

“(B) require a prime contractor on such a contract to report the number and dollar amount of contracts entered into by that prime contractor for Phase III SBIR or STTR projects.

“(6) GOAL FOR SBIR AND STTR TECHNOLOGY INSERTION.—The Secretary of Defense shall—

“(A) set a goal to increase the number of Phase II SBIR contracts and the number of Phase II STTR contracts awarded by the Secretary that lead to technology transition into programs of record or fielded systems;

“(B) use incentives in effect on the date of enactment of the SBIR/STTR Reauthorization Act of 2011, or create new incentives, to encourage agency program managers and prime contractors to meet the goal under subparagraph (A); and

“(C) submit to the Administrator for inclusion in the annual report under subsection (b)(7)—

“(i) the number and percentage of Phase II SBIR and STTR contracts awarded by the Secretary that led to technology transition into programs of record or fielded systems;

“(ii) information on the status of each project that received funding through the Commercialization Readiness Program and efforts to transition those projects into programs of record or fielded systems; and

“(iii) a description of each incentive that has been used by the Secretary under subparagraph (B) and the effectiveness of that incentive with respect to meeting the goal under subparagraph (A).”.

(b) TECHNICAL AND CONFORMING AMENDMENT.—Section 9(i)(1) of the Small Business Act (15 U.S.C. 638(i)(1)) is amended by inserting “(including awards under subsection (y))” after “the number of awards”.

**SEC. 5123. COMMERCIALIZATION READINESS PILOT PROGRAM FOR CIVILIAN AGENCIES.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(gg) PILOT PROGRAM.—

“(1) AUTHORIZATION.—The head of each covered Federal agency may allocate not more than 10 percent of the funds allocated to the SBIR program and the STTR program of the covered Federal agency—

“(A) for awards for technology development, testing, evaluation, and commercialization assistance for SBIR and STTR Phase II technologies; or

“(B) to support the progress of research, research and development, and commercialization conducted under the SBIR or STTR programs to Phase III.

“(2) APPLICATION BY FEDERAL AGENCY.—

“(A) IN GENERAL.—A covered Federal agency may not establish a pilot program unless the covered Federal agency makes a written application to the Administrator, not later than 90 days before the first day of the fiscal year in which the pilot program is to be established, that describes a compelling reason that additional investment in SBIR or STTR technologies is necessary, including unusually high regulatory, systems integration, or other costs relating to development or manufacturing of identifiable, highly promising small business technologies or a class of such technologies expected to substantially advance the mission of the agency.

“(B) DETERMINATION.—The Administrator shall—

“(i) make a determination regarding an application submitted under subparagraph (A) not later than 30 days before the first day of the fiscal year for which the application is submitted;

“(ii) publish the determination in the Federal Register; and

“(iii) make a copy of the determination and any related materials available to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives.

“(3) MAXIMUM AMOUNT OF AWARD.—The head of a covered Federal agency may not make an award under a pilot program in excess of 3 times the dollar amounts generally established for Phase II awards under subsection (j)(2)(D) or (p)(2)(B)(ix).

“(4) REGISTRATION.—Any applicant that receives an award under a pilot program shall register with the Administrator in a registry that is available to the public.

“(5) AWARD CRITERIA OR CONSIDERATION.—When making an award under this section, the head of a covered Federal agency shall give consideration to whether the technology to be supported by the award is likely to be manufactured in the United States.

“(6) REPORT.—The head of each covered Federal agency shall include in the annual report of the covered Federal agency to the Administrator an analysis of the various activities considered for inclusion in the pilot program of the covered Federal agency and a statement of the reasons why each activity considered was included or not included, as the case may be.

“(7) TERMINATION.—The authority to establish a pilot program under this section expires at the end of fiscal year 2017.

“(8) DEFINITIONS.—In this subsection—

“(A) the term ‘covered Federal agency’—

“(i) means a Federal agency participating in the SBIR program or the STTR program; and

“(ii) does not include the Department of Defense; and

“(B) the term ‘pilot program’ means each program established under paragraph (1).”.

**SEC. 5124. INTERAGENCY POLICY COMMITTEE.**

(a) ESTABLISHMENT.—The Director of the Office of Science and Technology Policy shall establish an Interagency SBIR/STTR Policy Committee.

(b) MEMBERSHIP.—The Interagency SBIR/STTR Policy Committee shall include representatives from Federal agencies with an SBIR or an STTR program and the Small Business Administration.

(c) DUTIES.—The Interagency SBIR/STTR Policy Committee shall review the following issues and make policy recommendations on ways to improve program effectiveness and efficiency:

(1) The public and Government databases described in section 9(k) of the Small Business Act (15 U.S.C. 638(k)).

(2) Federal agency flexibility in establishing Phase I and II award sizes, including appropriate criteria for exercising such flexibility.

(3) Commercialization assistance best practices of Federal agencies with significant potential to be employed by other agencies and the appropriate steps to achieve that leverage, as well as proposals for new initiatives to address funding gaps that business concerns face after Phase II but before commercialization.

(4) Developing and incorporating a standard evaluation framework to enable systematic assessment of SBIR and STTR, including through improved tracking of awards and outcomes and development of performance measures for the SBIR program and STTR program of each Federal agency.

(5) Outreach and technical assistance activities that increase the participation of small businesses underrepresented in the SBIR and STTR programs, including the identification and sharing of best practices and the leveraging of resources in support of such activities across agencies.

(d) REPORTS.—The Interagency SBIR/STTR Policy Committee shall transmit to the Committee on Science, Space, and Technology and the Committee on Small Business of the House of Representatives and to the Committee on Small Business and Entrepreneurship of the Senate—

(1) a report on its review and recommendations under subsection (c)(1) not later than 1 year after the date of enactment of this Act;

(2) a report on its review and recommendations under subsection (c)(2) not later than 18 months after the date of enactment of this Act;

(3) a report on its review and recommendations under subsection (c)(3) not later than 2 years after the date of enactment of this Act;

(4) a report on its review and recommendations under subsection (c)(4) not later than 2 years after the date of enactment of this Act; and

(5) a report on its review and recommendations under subsection (c)(5) not later than 2 years after the date of enactment of this Act.

**SEC. 5125. CLARIFYING THE DEFINITION OF “PHASE III”.**

(a) PHASE III AWARDS.—Section 9(e) of the Small Business Act (15 U.S.C. 638(e)), as amended by this title, is further amended—

(1) in paragraph (4)(C), in the matter preceding clause (i), by inserting “for work that

derives from, extends, or completes efforts made under prior funding agreements under the SBIR program" after "phase";

(2) in paragraph (6)(C), in the matter preceding clause (i), by inserting "for work that derives from, extends, or completes efforts made under prior funding agreements under the STTR program" after "phase";

(3) in paragraph (8), by striking "and" at the end;

(4) in paragraph (9), by striking the period at the end and inserting a semicolon; and

(5) by adding at the end the following:

"(10) the term 'commercialization' means—

"(A) the process of developing products, processes, technologies, or services; and

"(B) the production and delivery (whether by the originating party or by others) of products, processes, technologies, or services for sale to or use by the Federal Government or commercial markets;".

(b) **TECHNICAL AND CONFORMING AMENDMENTS.**—Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended—

(1) in subsection (e)—

(A) in paragraph (4)(C)(ii), by striking "scientific review criteria" and inserting "merit-based selection procedures";

(B) in paragraph (9), by striking "the second or the third phase" and inserting "Phase II or Phase III"; and

(C) by adding at the end the following:

"(11) the term 'Phase I' means—

"(A) with respect to the SBIR program, the first phase described in paragraph (4)(A); and

"(B) with respect to the STTR program, the first phase described in paragraph (6)(A);

"(12) the term 'Phase II' means—

"(A) with respect to the SBIR program, the second phase described in paragraph (4)(B); and

"(B) with respect to the STTR program, the second phase described in paragraph (6)(B); and

"(13) the term 'Phase III' means—

"(A) with respect to the SBIR program, the third phase described in paragraph (4)(C); and

"(B) with respect to the STTR program, the third phase described in paragraph (6)(C).";

(2) in subsection (j)—

(A) in paragraph (1)(B), by striking "phase two" and inserting "Phase II";

(B) in paragraph (2)—

(i) in subparagraph (B)—

(I) by striking "the third phase" each place it appears and inserting "Phase III"; and

(II) by striking "the second phase" and inserting "Phase II";

(ii) in subparagraph (D)—

(I) by striking "the first phase" and inserting "Phase I"; and

(II) by striking "the second phase" and inserting "Phase II";

(iii) in subparagraph (F), by striking "the third phase" and inserting "Phase III";

(iv) in subparagraph (G)—

(I) by striking "the first phase" and inserting "Phase I"; and

(II) by striking "the second phase" and inserting "Phase II"; and

(v) in subparagraph (H)—

(I) by striking "the first phase" and inserting "Phase I";

(II) by striking "second phase" each place it appears and inserting "Phase II"; and

(III) by striking "third phase" and inserting "Phase III"; and

(C) in paragraph (3)—

(i) in subparagraph (A)—

(I) by striking "the first phase (as described in subsection (e)(4)(A))" and inserting "Phase I";

(II) by striking "the second phase (as described in subsection (e)(4)(B))" and inserting "Phase II"; and

(III) by striking "the third phase (as described in subsection (e)(4)(C))" and inserting "Phase III"; and

(ii) in subparagraph (B), by striking "second phase" and inserting "Phase II";

(3) in subsection (k)—

(A) by striking "first phase" each place it appears and inserting "Phase I"; and

(B) by striking "second phase" each place it appears and inserting "Phase II";

(4) in subsection (l)(2)—

(A) by striking "the first phase" and inserting "Phase I"; and

(B) by striking "the second phase" and inserting "Phase II";

(5) in subsection (o)(13)—

(A) in subparagraph (B), by striking "second phase" and inserting "Phase II"; and

(B) in subparagraph (C), by striking "third phase" and inserting "Phase III";

(6) in subsection (p)—

(A) in paragraph (2)(B)—

(i) in clause (vi)—

(I) by striking "the second phase" and inserting "Phase II"; and

(II) by striking "the third phase" and inserting "Phase III"; and

(ii) in clause (ix)—

(I) by striking "the first phase" and inserting "Phase I"; and

(II) by striking "the second phase" and inserting "Phase II"; and

(B) in paragraph (3)—

(i) by striking "the first phase (as described in subsection (e)(6)(A))" and inserting "Phase I";

(ii) by striking "the second phase (as described in subsection (e)(6)(B))" and inserting "Phase II"; and

(iii) by striking "the third phase (as described in subsection (e)(6)(C))" and inserting "Phase III";

(7) in subsection (r)—

(A) in the subsection heading, by striking "THIRD PHASE" and inserting "PHASE III";

(B) in paragraph (1)—

(i) in the first sentence—

(I) by striking "for the second phase" and inserting "for Phase II";

(II) by striking "third phase" and inserting "Phase III"; and

(III) by striking "second phase period" and inserting "Phase II period"; and

(ii) in the second sentence—

(I) by striking "second phase" and inserting "Phase II"; and

(II) by striking "third phase" and inserting "Phase III"; and

(C) in paragraph (2), by striking "third phase" and inserting "Phase III"; and

(8) in subsection (u)(2)(B), by striking "the first phase" and inserting "Phase I".

**SEC. 5126. SHORTENED PERIOD FOR FINAL DECISIONS ON PROPOSALS AND APPLICATIONS.**

(a) **IN GENERAL.**—Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended—

(1) in subsection (g)(4)—

(A) by inserting "(A)" after "(4)";

(B) by adding "and" after the semicolon at the end; and

(C) by adding at the end the following:

"(B) make a final decision on each proposal submitted under the SBIR program—

"(i) not later than 1 year after the date on which the applicable solicitation closes, if with respect to the National Institutes of Health or the National Science Foundation, or 90 days after the date on which the applicable solicitation closes, if with respect to any other participating agency; or

"(ii) if the Administrator authorizes an extension with respect to a solicitation, not later than 90 days after the date that would otherwise be applicable to the agency under clause (i);"; and

(2) in subsection (o)(4)—

(A) by inserting "(A)" after "(4)";

(B) by adding "and" after the semicolon at the end; and

(C) by adding at the end the following:

"(B) make a final decision on each proposal submitted under the STTR program—

"(i) not later than 1 year after the date on which the applicable solicitation closes, if with respect to the National Institutes of Health or the National Science Foundation, or 90 days after the date on which the applicable solicitation closes, if with respect to any other participating agency; or

"(ii) if the Administrator authorizes an extension for a solicitation, not later than 90 days after the date that would be applicable to the agency under clause (i);".

(b) **OTHER TIMING PROVISIONS.**—Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

"(hh) **TIMING OF RELEASE OF FUNDING.**—Federal agencies participating in the SBIR program or STTR program shall, to the extent possible, attempt to shorten the amount of time between the provision of notice of an award under the SBIR program or STTR program and the subsequent release of funding with respect to the award.

"(ii) **REPORTING ON TIMING.**—Federal agencies participating in the SBIR program or STTR program shall provide to the Administrator, for the annual report on the SBIR and STTR program under subsection (b)(7), the average amount of time the agency takes to make a final decision on proposals submitted under such programs, the average amount of time the agency takes to release funding with respect to an award under such programs, and the goals established to reduce such amounts.".

**SEC. 5127. PHASE 0 PROOF OF CONCEPT PARTNERSHIP PILOT PROGRAM.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

"(jj) **PHASE 0 PROOF OF CONCEPT PARTNERSHIP PILOT PROGRAM.**—

"(1) **IN GENERAL.**—The Director of the National Institutes of Health may use \$5,000,000 of the funds allocated under subsection (n)(1) for a Proof of Concept Partnership pilot program to accelerate the creation of small businesses and the commercialization of research innovations from qualifying institutions. To implement this program, the Director shall award, through a competitive, merit-based process, grants to qualifying institutions. These grants shall only be used to administer Proof of Concept Partnership awards in conformity with this subsection.

"(2) **DEFINITIONS.**—In this subsection—

"(A) the term 'Director' means the Director of the National Institutes of Health;

"(B) the term 'pilot program' refers to the Proof of Concept Partnership pilot program; and

"(C) the terms 'qualifying institution' and 'institution' mean a university or other research institution that participates in the National Institutes of Health's STTR program.

"(3) **PROOF OF CONCEPT PARTNERSHIPS.**—

"(A) **IN GENERAL.**—A Proof of Concept Partnership shall be set up by a qualifying institution to award grants to individual researchers. These grants should provide researchers with the initial investment and

the resources to support the proof of concept work and commercialization mentoring needed to translate promising research projects and technologies into a viable company. This work may include technical validations, market research, clarifying intellectual property rights position and strategy, and investigating commercial or business opportunities.

“(B) AWARD GUIDELINES.—The administrator of a Proof of Concept Partnership program shall award grants in accordance with the following guidelines:

“(i) The Proof of Concept Partnership shall use a market-focused project management oversight process, including—

“(I) a rigorous, diverse review board comprised of local experts in translational and proof of concept research, including industry, start-up, venture capital, technical, financial, and business experts and university technology transfer officials;

“(II) technology validation milestones focused on market feasibility;

“(III) simple reporting effective at redirecting projects; and

“(IV) the willingness to reallocate funding from failing projects to those with more potential.

“(ii) Not more than \$100,000 shall be awarded towards an individual proposal.

“(C) EDUCATIONAL RESOURCES AND GUIDANCE.—The administrator of a Proof of Concept Partnership program shall make educational resources and guidance available to researchers attempting to commercialize their innovations.

“(4) AWARDS.—

“(A) SIZE OF AWARD.—The Director may make awards to a qualifying institution for up to \$1,000,000 per year for up to 3 years.

“(B) AWARD CRITERIA.—In determining which qualifying institutions receive pilot program grants, the Director shall consider, in addition to any other criteria the Director determines necessary, the extent to which qualifying institutions—

“(i) have an established and proven technology transfer or commercialization office and have a plan for engaging that office in the program's implementation;

“(ii) have demonstrated a commitment to local and regional economic development;

“(iii) are located in diverse geographies and are of diverse sizes;

“(iv) can assemble project management boards comprised of industry, start-up, venture capital, technical, financial, and business experts;

“(v) have an intellectual property rights strategy or office; and

“(vi) demonstrate a plan for sustainability beyond the duration of the funding award.

“(5) LIMITATIONS.—The funds for the pilot program shall not be used—

“(A) for basic research, but to evaluate the commercial potential of existing discoveries, including—

“(i) proof of concept research or prototype development; and

“(ii) activities that contribute to determining a project's commercialization path, to include technical validations, market research, clarifying intellectual property rights, and investigating commercial and business opportunities; or

“(B) to fund the acquisition of research equipment or supplies unrelated to commercialization activities.

“(6) EVALUATIVE REPORT.—The Director shall submit to the Committee on Science, Space, and Technology and the Committee on Small Business of the House of Representatives and the Committee on Small Business

and Entrepreneurship of the Senate an evaluative report regarding the activities of the pilot program. The report shall include—

“(A) a detailed description of the institutional and proposal selection process;

“(B) an accounting of the funds used in the pilot program;

“(C) a detailed description of the pilot program, including incentives and activities undertaken by review board experts;

“(D) a detailed compilation of results achieved by the pilot program, including the number of small business concerns included and the number of business packages developed, and the number of projects that progressed into subsequent STTR phases; and

“(E) an analysis of the program's effectiveness with supporting data.

“(7) SUNSET.—The pilot program under this subsection shall terminate at the end of fiscal year 2017.”

#### Subtitle C—Oversight and Evaluation

#### SEC. 5131. STREAMLINING ANNUAL EVALUATION REQUIREMENTS.

Section 9(b) of the Small Business Act (15 U.S.C. 638(b)) is amended—

(1) in paragraph (7)—

(A) by striking “STTR programs, including the data” and inserting the following:

“STTR programs, including—

“(A) the data”;

(B) by striking “(g)(10), (o)(9), and (o)(15), the number” and all that follows through “under each of the SBIR and STTR programs, and a description” and inserting the following: “(g)(8) and (o)(9);

“(B) the number of proposals received from, and the number and total amount of awards to, HUBZone small business concerns and firms with venture capital, hedge fund, or private equity firm investment (including those majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms) under each of the SBIR and STTR programs;

“(C) a description of the extent to which each Federal agency is increasing outreach and awards to firms owned and controlled by women or by socially or economically disadvantaged individuals under each of the SBIR and STTR programs;

“(D) general information about the implementation of, and compliance with the allocation of funds required under, subsection (dd) for firms owned in majority part by venture capital operating companies, hedge funds, or private equity firms and participating in the SBIR program;

“(E) a detailed description of appeals of Phase III awards and notices of noncompliance with the SBIR Policy Directive and the STTR Policy Directive filed by the Administrator with Federal agencies;

“(F) an accounting of funds, initiatives, and outcomes under the Commercialization Readiness Program; and

“(G) a description”; and

(C) by striking “and” at the end;

(2) in paragraph (8), by striking the period at the end and inserting “; and”; and

(3) by inserting after paragraph (8) the following:

“(9) to coordinate the implementation of electronic databases at each of the Federal agencies participating in the SBIR program or the STTR program, including the technical ability of the participating agencies to electronically share data.”

#### SEC. 5132. DATA COLLECTION FROM AGENCIES FOR SBIR.

Section 9(g) of the Small Business Act (15 U.S.C. 638(g)), as amended by this title, is further amended—

(1) by striking paragraph (10);

(2) by redesignating paragraphs (8) and (9) as paragraphs (9) and (10), respectively; and

(3) by inserting after paragraph (7) the following:

“(8) collect annually, and maintain in a common format in accordance with the simplified reporting requirements under subsection (v), such information from awardees as is necessary to assess the SBIR program, including information necessary to maintain the database described in subsection (k), including—

“(A) whether an awardee—

“(i) has venture capital, hedge fund, or private equity firm investment or is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms and, if so—

“(I) the amount of venture capital, hedge fund, or private equity firm investment that the awardee has received as of the date of the award; and

“(II) the amount of additional capital that the awardee has invested in the SBIR technology;

“(ii) has an investor that—

“(I) is an individual who is not a citizen of the United States or a lawful permanent resident of the United States and, if so, the name of any such individual; or

“(II) is a person that is not an individual and is not organized under the laws of a State or the United States and, if so, the name of any such person;

“(iii) is owned by a woman or has a woman as a principal investigator;

“(iv) is owned by a socially or economically disadvantaged individual or has a socially or economically disadvantaged individual as a principal investigator;

“(v) is a faculty member or a student of an institution of higher education, as that term is defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001); or

“(vi) is located in a State described in subsection (u)(3);

“(B) a justification statement from the agency, if an awardee receives an award in an amount that is more than the award guidelines under this section; and

“(C) data with respect to the Federal and State Technology Partnership Program (FAST Program).”

#### SEC. 5133. DATA COLLECTION FROM AGENCIES FOR STTR.

Section 9(o) of the Small Business Act (15 U.S.C. 638(o)), as amended by this title, is further amended by striking paragraph (9) and inserting the following:

“(9) collect annually, and maintain in a common format in accordance with the simplified reporting requirements under subsection (v), such information from applicants and awardees as is necessary to assess the STTR program outputs and outcomes, including information necessary to maintain the database described in subsection (k), including—

“(A) whether an applicant or awardee—

“(i) has venture capital, hedge fund, or private equity firm investment or is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms and, if so—

“(I) the amount of venture capital, hedge fund, or private equity firm investment that the applicant or awardee has received as of the date of the application or award, as applicable; and

“(II) the amount of additional capital that the applicant or awardee has invested in the STTR technology;

“(ii) has an investor that—

“(I) is an individual who is not a citizen of the United States or a lawful permanent

resident of the United States and, if so, the name of any such individual; or

“(II) is a person that is not an individual and is not organized under the laws of a State or the United States and, if so, the name of any such person;

“(iii) is owned by a woman or has a woman as a principal investigator;

“(iv) is owned by a socially or economically disadvantaged individual or has a socially or economically disadvantaged individual as a principal investigator;

“(v) is a faculty member or a student of an institution of higher education, as that term is defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001); or

“(vi) is located in a State in which the total value of contracts awarded to small business concerns under all STTR programs is less than the total value of contracts awarded to small business concerns in a majority of other States, as determined by the Administrator in biennial fiscal years, beginning with fiscal year 2008, based on the most recent statistics compiled by the Administrator;

“(B) if an awardee receives an award in an amount that is more than the award guidelines under this section, a statement from the agency that justifies the award amount; and

“(C) data with respect to the Federal and State Technology Partnership Program (FAST Program);”.

#### SEC. 5134. PUBLIC DATABASE.

Section 9(k)(1) of the Small Business Act (15 U.S.C. 638(k)(1)) is amended—

(1) in subparagraph (D), by striking “and” at the end;

(2) in subparagraph (E), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(F) for each small business concern that has received a Phase I or Phase II SBIR or STTR award from a Federal agency, whether the small business concern—

“(i) has venture capital, hedge fund, or private equity firm investment and, if so, whether the small business concern is registered as majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms as required under subsection (dd)(3);

“(ii) is owned by a woman or has a woman as a principal investigator;

“(iii) is owned by a socially or economically disadvantaged individual or has a socially or economically disadvantaged individual as a principal investigator;

“(iv) is owned by a faculty member or a student of an institution of higher education, as that term is defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001); or

“(v) received assistance under the Federal and State Technology Partnership Program (FAST Program).”.

#### SEC. 5135. GOVERNMENT DATABASE.

Section 9(k) of the Small Business Act (15 U.S.C. 638(k)) is amended—

(1) in paragraph (2)—

(A) in the matter preceding subparagraph (A), by striking “Not later” and all that follows through “Act of 2000” and inserting “Not later than 90 days after the date of enactment of the SBIR/STTR Reauthorization Act of 2011”; and

(B) by striking subparagraph (C);

(C) by redesignating subparagraphs (A) and (B) as subparagraphs (B) and (C), respectively;

(D) by inserting before subparagraph (B), as so redesignated, the following:

“(A) contains for each small business concern that applies for, submits a proposal for, or receives an award under Phase I or Phase II of the SBIR program or the STTR program—

“(i) the name, size, and location of, and the identifying number assigned by the Administrator to, the small business concern;

“(ii) an abstract of the applicable project;

“(iii) the specific aims of the project;

“(iv) the number of employees of the small business concern;

“(v) the names and titles of the key individuals that will carry out the project, the position each key individual holds in the small business concern, and contact information for each key individual;

“(vi) the percentage of effort each individual described in clause (v) will contribute to the project;

“(vii) whether the small business concern is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms; and

“(viii) the Federal agency to which the application is made and contact information for the person or office within the Federal agency that is responsible for reviewing applications and making awards under the SBIR program or the STTR program;”;

(E) by redesignating subparagraphs (D) and (E) as subparagraphs (E) and (F), respectively;

(F) by inserting after subparagraph (C), as so redesignated, the following:

“(D) includes, for each awardee—

“(i) the name, size, and location of, and any identifying number assigned by the Administrator to, the awardee;

“(ii) whether the awardee has venture capital, hedge fund, or private equity firm investment and, if so—

“(I) the amount of venture capital, hedge fund, or private equity firm investment as of the date of the award;

“(II) the percentage of ownership of the awardee held by a venture capital operating company, hedge fund, or private equity firm, including whether the awardee is majority-owned by multiple venture capital operating companies, hedge funds, or private equity firms; and

“(III) the amount of additional capital that the awardee has invested in the SBIR or STTR technology, which information shall be collected on an annual basis;

“(iii) the names and locations of any affiliates of the awardee;

“(iv) the number of employees of the awardee;

“(v) the number of employees of the affiliates of the awardee; and

“(vi) the names of, and the percentage of ownership of the awardee held by—

“(I) any individual who is not a citizen of the United States or a lawful permanent resident of the United States; or

“(II) any person that is not an individual and is not organized under the laws of a State or the United States;”;

(G) in subparagraph (E), as so redesignated, by striking “and” at the end;

(H) in subparagraph (F), as so redesignated, by striking the period at the end and inserting “; and”; and

(I) by adding at the end the following:

“(G) includes a timely and accurate list of any individual or small business concern that has participated in the SBIR program or STTR program that has been—

“(i) convicted of a fraud-related crime involving funding received under the SBIR program or STTR program; or

“(ii) found civilly liable for a fraud-related violation involving funding received under the SBIR program or STTR program.”; and

(2) in paragraph (3), by adding at the end the following:

“(C) GOVERNMENT DATABASE.—Not later than 60 days after the date established by a Federal agency for submitting applications or proposals for a Phase I or Phase II award under the SBIR program or STTR program, the head of the Federal agency shall submit to the Administrator the data required under paragraph (2) with respect to each small business concern that applies or submits a proposal for the Phase I or Phase II award.”.

#### SEC. 5136. ACCURACY IN FUNDING BASE CALCULATIONS.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, and every year thereafter until the date that is 5 years after the date of enactment of this Act, the Comptroller General of the United States shall—

(1) conduct a fiscal and management audit of the SBIR program and the STTR program for the applicable period to—

(A) determine whether Federal agencies comply with the expenditure amount requirements under subsections (f)(1) and (n)(1) of section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title;

(B) assess the extent of compliance with the requirements of section 9(i)(2) of the Small Business Act (15 U.S.C. 638(i)(2)) by Federal agencies participating in the SBIR program or the STTR program and the Administration;

(C) assess whether it would be more consistent and effective to base the amount of the allocations under the SBIR program and the STTR program on a percentage of the research and development budget of a Federal agency, rather than the extramural budget of the Federal agency; and

(D) determine the portion of the extramural research or research and development budget of a Federal agency that each Federal agency spends for administrative purposes relating to the SBIR program or STTR program, and for what specific purposes it is used, including the portion, if any, of such budget the Federal agency spends for salaries and expenses, travel to visit applicants, outreach events, marketing, and technical assistance; and

(2) submit a report to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives regarding the audit conducted under paragraph (1), including the assessments required under subparagraph (B) and the determinations made under subparagraph (D) of paragraph (1).

(b) DEFINITION OF APPLICABLE PERIOD.—In this section, the term “applicable period” means—

(1) for the first report submitted under this section, the period beginning on October 1, 2005, and ending on September 30 of the last full fiscal year before the date of enactment of this Act for which information is available; and

(2) for the second and each subsequent report submitted under this section, the period—

(A) beginning on October 1 of the first fiscal year after the end of the most recent full fiscal year relating to which a report under this section was submitted; and

(B) ending on September 30 of the last full fiscal year before the date of the report.

**SEC. 5137. CONTINUED EVALUATION BY THE NATIONAL ACADEMY OF SCIENCES.**

Section 108 of the Small Business Reauthorization Act of 2000 (15 U.S.C. 638 note) is amended by adding at the end the following:

“(e) EXTENSIONS AND ENHANCEMENTS OF AUTHORITY.—

“(1) IN GENERAL.—Not later than 6 months after the date of enactment of the SBIR/STTR Reauthorization Act of 2011, the head of each agency described in subsection (a), in consultation with the Small Business Administration, shall cooperatively enter into an agreement with the National Academy of Sciences for the National Research Council to, not later than 4 years after the date of enactment of the SBIR/STTR Reauthorization Act of 2011, and every 4 years thereafter—

“(A) continue the most recent study under this section relating to the issues described in subparagraphs (A), (B), (C), and (E) of subsection (a)(1);

“(B) conduct a comprehensive study of how the STTR program has stimulated technological innovation and technology transfer, including—

“(i) a review of the collaborations created between small businesses and research institutions, including an evaluation of the effectiveness of the program in stimulating new collaborations and any obstacles that may prevent or inhibit the creation of such collaborations;

“(ii) an evaluation of the effectiveness of the program at transferring technology and capabilities developed through Federal funding;

“(iii) to the extent practicable, an evaluation of the economic benefits achieved by the STTR program, including the economic rate of return;

“(iv) an analysis of how Federal agencies are using small businesses that have completed Phase II under the STTR program to fulfill their procurement needs;

“(v) an analysis of whether additional funds could be employed effectively by the STTR program; and

“(vi) an assessment of the systems and minimum performance standards relating to commercialization success established under section 9(qq) of the Small Business Act;

“(C) make recommendations with respect to the issues described in subparagraphs (A), (D), and (E) of subsection (a)(2) and subparagraph (B) of this paragraph; and

“(D) estimate, to the extent practicable, the number of jobs created by the SBIR program or STTR program of the agency.

“(2) CONSULTATION.—An agreement under paragraph (1) shall require the National Research Council to ensure that there is participation by and consultation with the small business community, the Administration, and other interested parties as described in subsection (b).

“(3) REPORTING.—An agreement under paragraph (1) shall require that not later than 4 years after the date of enactment of the SBIR/STTR Reauthorization Act of 2011, and every 4 years thereafter, the National Research Council shall submit to the head of the agency entering into the agreement, the Committee on Small Business and Entrepreneurship of the Senate, and the Committee on Small Business and Technology of the House of Representatives, a report regarding the study conducted under paragraph (1) and containing the recommendations described in paragraph (1).”.

**SEC. 5138. TECHNOLOGY INSERTION REPORTING REQUIREMENTS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(kk) PHASE III REPORTING.—The annual SBIR or STTR report to Congress by the Administration under subsection (b)(7) shall include, for each Phase III award—

“(1) the name of the agency or component of the agency or the non-Federal source of capital making the Phase III award;

“(2) the name of the small business concern or individual receiving the Phase III award; and

“(3) the dollar amount of the Phase III award.”.

**SEC. 5139. INTELLECTUAL PROPERTY PROTECTIONS.**

(a) STUDY.—The Comptroller General of the United States shall conduct a study of the SBIR program to assess whether—

(1) Federal agencies comply with the data rights protections for SBIR awardees and the technologies of SBIR awardees under section 9 of the Small Business Act (15 U.S.C. 638);

(2) the laws and policy directives intended to clarify the scope of data rights, including in prototypes, mentor-protégé relationships, and agreements with Federal laboratories, are sufficient to protect SBIR awardees; and

(3) there is an effective grievance tracking process for SBIR awardees who have grievances against a Federal agency regarding data rights and a process for resolving those grievances.

(b) REPORT.—Not later than 18 months after the date of enactment of this Act, the Comptroller General shall submit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives a report regarding the study conducted under subsection (a).

**SEC. 5140. OBTAINING CONSENT FROM SBIR AND STTR APPLICANTS TO RELEASE CONTACT INFORMATION TO ECONOMIC DEVELOPMENT ORGANIZATIONS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(1) CONSENT TO RELEASE CONTACT INFORMATION TO ORGANIZATIONS.—

“(1) ENABLING CONCERN TO GIVE CONSENT.—Each Federal agency required by this section to conduct an SBIR program or an STTR program shall enable a small business concern that is an SBIR applicant or an STTR applicant to indicate to the Federal agency whether the Federal agency has the consent of the concern to—

“(A) identify the concern to appropriate local and State-level economic development organizations as an SBIR applicant or an STTR applicant; and

“(B) release the contact information of the concern to such organizations.

“(2) RULES.—The Administrator shall establish rules to implement this subsection. The rules shall include a requirement that a Federal agency include in the SBIR and STTR application a provision through which the applicant can indicate consent for purposes of paragraph (1).”.

**SEC. 5141. PILOT TO ALLOW FUNDING FOR ADMINISTRATIVE, OVERSIGHT, AND CONTRACT PROCESSING COSTS.**

(a) IN GENERAL.—Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(mm) ASSISTANCE FOR ADMINISTRATIVE, OVERSIGHT, AND CONTRACT PROCESSING COSTS.—

“(1) IN GENERAL.—Subject to paragraph (3), for the 3 fiscal years beginning after the date of enactment of this subsection, the Administrator shall allow each Federal agency required to conduct an SBIR program to use not more than 3 percent of the funds allocated to the SBIR program of the Federal agency for—

“(A) the administration of the SBIR program or the STTR program of the Federal agency;

“(B) the provision of outreach and technical assistance relating to the SBIR program or STTR program of the Federal agency, including technical assistance site visits, personnel interviews, and national conferences;

“(C) the implementation of commercialization and outreach initiatives that were not in effect on the date of enactment of this subsection;

“(D) carrying out the program under subsection (y);

“(E) activities relating to oversight and congressional reporting, including waste, fraud, and abuse prevention activities;

“(F) targeted reviews of recipients of awards under the SBIR program or STTR program of the Federal agency that the head of the Federal agency determines are at high risk for fraud, waste, or abuse to ensure compliance with requirements of the SBIR program or STTR program, respectively;

“(G) the implementation of oversight and quality control measures, including verification of reports and invoices and cost reviews;

“(H) carrying out subsection (dd);

“(I) contract processing costs relating to the SBIR program or STTR program of the Federal agency; and

“(J) funding for additional personnel and assistance with application reviews.

“(2) OUTREACH AND TECHNICAL ASSISTANCE.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), a Federal agency participating in the program under this subsection shall use a portion of the funds authorized for uses under paragraph (1) to carry out the policy directive required under subsection (j)(2)(F) and to increase the participation of States with respect to which a low level of SBIR awards have historically been awarded.

“(B) WAIVER.—A Federal agency may request the Administrator to waive the requirement contained in subparagraph (A). Such request shall include an explanation of why the waiver is necessary. The Administrator may grant the waiver based on a determination that the agency has demonstrated a sufficient need for the waiver, that the outreach objectives of the agency are being met, and that there is increased participation by States with respect to which a low level of SBIR awards have historically been awarded.

“(3) PERFORMANCE CRITERIA.—A Federal agency may not use funds as authorized under paragraph (1) until after the effective date of performance criteria, which the Administrator shall establish, to measure any benefits of using funds as authorized under paragraph (1) and to assess continuation of the authority under paragraph (1).

“(4) RULES.—Not later than 180 days after the date of enactment of this subsection, the Administrator shall issue rules to carry out this subsection.

“(5) COORDINATION WITH IG.—Each Federal agency shall coordinate the activities funded

under subparagraph (E), (F), or (G) of paragraph (1) with their respective Inspectors General, when appropriate, and each Federal agency that allocates more than \$50,000,000 to the SBIR program of the Federal agency for a fiscal year may share such funding with its Inspector General when the Inspector General performs such activities.

“(6) REPORTING.—The Administrator shall collect data and provide to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business, the Committee on Science, Space, and Technology, and the Committee on Appropriations of the House of Representatives a report on the use of funds under this subsection, including funds used to achieve the objectives of paragraph (2)(A) and any use of the waiver authority under paragraph (2)(B).”.

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) IN GENERAL.—Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended—

(A) in subsection (f)(2), by striking “shall not” and all that follows through “make available for the purpose” and inserting “shall not make available for the purpose”; and

(B) in subsection (y)—

(i) by striking paragraph (4); and

(ii) by redesignating paragraphs (5) and (6) as paragraphs (4) and (5), respectively.

(2) TRANSITIONAL RULE.—Notwithstanding the amendments made by paragraph (1), subsections (f)(2) and (y)(4) of section 9 of the Small Business Act (15 U.S.C. 638), as in effect on the day before the date of enactment of this Act, shall continue to apply to each Federal agency until the effective date of the performance criteria established by the Administrator under subsection (mm)(3) of section 9 of the Small Business Act, as added by subsection (a).

(3) PROSPECTIVE REPEAL.—Effective on the first day of the fourth full fiscal year following the date of enactment of this Act, section 9 of the Small Business Act (15 U.S.C. 638), as amended by paragraph (1) of this section, is amended—

(A) in subsection (f)(2), by striking “shall not make available for the purpose” and inserting the following: “shall not—

“(A) use any of its SBIR budget established pursuant to paragraph (1) for the purpose of funding administrative costs of the program, including costs associated with salaries and expenses; or

“(B) make available for the purpose”; and

(B) in subsection (y)—

(i) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(ii) by inserting after paragraph (3) the following:

“(4) FUNDING.—

“(A) IN GENERAL.—The Secretary of Defense and each Secretary of a military department may use not more than an amount equal to 1 percent of the funds available to the Department of Defense or the military department pursuant to the Small Business Innovation Research Program for payment of expenses incurred to administer the Commercialization Readiness Program under this subsection.

“(B) LIMITATIONS.—The funds described in subparagraph (A)—

“(i) shall not be subject to the limitations on the use of funds in subsection (f)(2); and

“(ii) shall not be used to make Phase III awards.”.

#### SEC. 5142. GAO STUDY WITH RESPECT TO VENTURE CAPITAL OPERATING COMPANY, HEDGE FUND, AND PRIVATE EQUITY FIRM INVOLVEMENT.

Not later than 3 years after the date of enactment of this Act, and every 3 years thereafter, the Comptroller General of the United States shall—

(1) conduct a study of the impact of requirements relating to venture capital operating company, hedge fund, and private equity firm involvement under section 9 of the Small Business Act; and

(2) submit to Congress a report regarding the study conducted under paragraph (1).

#### SEC. 5143. REDUCING VULNERABILITY OF SBIR AND STTR PROGRAMS TO FRAUD, WASTE, AND ABUSE.

(a) FRAUD, WASTE, AND ABUSE PREVENTION.—

(1) AMENDMENTS REQUIRED FOR FRAUD, WASTE, AND ABUSE PREVENTION.—Not later than 90 days after the date of enactment of this Act, the Administrator shall amend the SBIR Policy Directive and the STTR Policy Directive to include measures to prevent fraud, waste, and abuse in the SBIR program and the STTR program.

(2) CONTENT OF AMENDMENTS.—The amendments required under paragraph (1) shall include—

(A) definitions or descriptions of fraud, waste, and abuse;

(B) guidelines for the monitoring and oversight of applicants to and recipients of awards under the SBIR program or the STTR program;

(C) a requirement that each Federal agency that participates in the SBIR program or STTR program include information concerning the method established by the Inspector General of the Federal agency to report fraud, waste, and abuse (including any telephone hotline or Web-based platform)—

(i) on the Web site of the Federal agency; and

(ii) in any solicitation or notice of funding opportunity issued by the Federal agency for the SBIR program or the STTR program; and

(D) a requirement that each applicant for and small business concern that receives funding under the SBIR program or the STTR program shall certify whether the applicant or small business concern is in compliance with the laws relating to the SBIR program and the STTR program and the conduct guidelines established under the SBIR Policy Directive and the STTR Policy Directive.

(3) CONSULTATION.—The Administrator shall develop, in consultation with the Council of Inspectors General on Integrity and Efficiency, the procedures and requirements for the certification set forth under paragraph (2)(D) after providing notice of and an opportunity for public comment on such procedures and requirements.

(4) CERTIFICATION.—The certification developed under paragraph (3) may—

(A) cover the lifecycle of an award to require certifications at the application, funding, reporting, and closeout phases of every SBIR and STTR award;

(B) require the small business concern to certify compliance with the “principal investigator primary employment” requirement, the “small business concern” definition requirement, and the “performance of work” requirements as set forth in the Directive applicable to the award;

(C) require the small business concern to disclose whether it has applied for, plans to apply for, or received an SBIR or STTR award for identical or essentially equivalent work (as defined under the SBIR Policy Di-

rective and the STTR Policy Directive), and require the concern to certify that the award that it is applying for or obtaining funding for is not identical or essentially equivalent to work it has performed, or will perform, in connection with any other SBIR or STTR award that the concern has applied for or received from any other agency except as fully disclosed to all funding agencies; and

(D) require that the small business concern certify that it will or did perform the work on the award at its facilities with its employees, unless otherwise indicated.

(5) INSPECTORS GENERAL.—The Inspector General of each Federal agency that participates in the SBIR program or STTR program shall cooperate to prevent fraud, waste, and abuse in the SBIR program and the STTR program by—

(A) establishing fraud detection indicators;

(B) reviewing regulations and operating procedures of the Federal agency;

(C) coordinating information sharing between Federal agencies, to the extent otherwise permitted under Federal law; and

(D) improving the education and training of and outreach to—

(i) administrators of the SBIR program and the STTR program of the Federal agency;

(ii) applicants to the SBIR program or the STTR program; and

(iii) recipients of awards under the SBIR program or the STTR program.

(b) STUDY AND REPORT.—Not later than 1 year after the date of enactment of this Act to establish a baseline of changes made to the program to fight fraud, waste, and abuse, and every 4 years thereafter to evaluate the effectiveness of the agency strategies, the Comptroller General of the United States shall—

(1) conduct a study that evaluates—

(A) the implementation by each Federal agency that participates in the SBIR program or the STTR program of the amendments to the SBIR Policy Directive and the STTR Policy Directive made pursuant to subsection (a);

(B) the effectiveness of the management information system of each Federal agency that participates in the SBIR program or STTR program in identifying duplicative SBIR and STTR projects;

(C) the effectiveness of the risk management strategies of each Federal agency that participates in the SBIR program or STTR program in identifying areas of the SBIR program or the STTR program that are at high risk for fraud;

(D) technological tools that may be used to detect patterns of behavior that may indicate fraud by applicants to the SBIR program or the STTR program;

(E) the success of each Federal agency that participates in the SBIR program or STTR program in reducing fraud, waste, and abuse in the SBIR program or the STTR program of the Federal agency;

(F) the extent to which the Inspector General of each Federal agency that participates in the SBIR and STTR program effectively conducts investigations, audits, inspections, and outreach relating to the SBIR and STTR programs of the Federal agency; and

(G) the effectiveness of the Government and public databases described in section 9(k) of the Small Business Act (15 U.S.C. 638(k)) in reducing vulnerabilities of the SBIR program and the STTR program to fraud, waste, and abuse, particularly with respect to Federal agencies funding duplicative proposals and business concerns falsifying information in proposals; and

(2) submit to the Committee on Small Business and Entrepreneurship of the Senate, the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives, and the head of each Federal agency that participates in the SBIR program or STTR program a report on the results of the study conducted under paragraph (1).

(c) **INSPECTOR GENERAL REPORTS.**—Not later than October 1 of each year, the Inspector General of each Federal agency that participates in the SBIR program or STTR program shall submit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives a report describing—

(1) the number of cases referred to the Inspector General in the preceding year that related to fraud, waste, or abuse with respect to the SBIR program or STTR program;

(2) the actions taken in each case described in paragraph (1) if fraud, waste, or abuse was determined to have occurred;

(3) if no action was taken in a case described in paragraph (1) and fraud, waste, or abuse was determined to have occurred, the justification for action not being taken; and

(4) an accounting of the funds used to address fraud, waste, and abuse, including a description of personnel and resources funded and funds that were recovered or saved.

#### **SEC. 5144. SIMPLIFIED PAPERWORK REQUIREMENTS.**

Section 9(v) of the Small Business Act (15 U.S.C. 638(v)) is amended—

(1) in the subsection heading, by striking “SIMPLIFIED REPORTING REQUIREMENTS” and inserting “REDUCING PAPERWORK AND COMPLIANCE BURDEN”;

(2) by striking “The Administrator” and inserting the following:

“(1) STANDARDIZATION OF REPORTING REQUIREMENTS.—The Administrator”; and

(3) by adding at the end the following:

“(2) **SIMPLIFICATION OF APPLICATION AND AWARD PROCESS.**—Not later than 1 year after the date of enactment of this paragraph, and after a period of public comment, the Administrator shall issue regulations or guidelines, taking into consideration the unique needs of each Federal agency, to ensure that each Federal agency required to carry out an SBIR program or STTR program simplifies and standardizes the program proposal, selection, contracting, compliance, and audit procedures for the SBIR program or STTR program of the Federal agency (including procedures relating to overhead rates for applicants and documentation requirements) to reduce the paperwork and regulatory compliance burden on small business concerns applying to and participating in the SBIR program or STTR program.”.

#### **Subtitle D—Policy Directives**

#### **SEC. 5151. CONFORMING AMENDMENTS TO THE SBIR AND THE STTR POLICY DIRECTIVES.**

(a) **IN GENERAL.**—Not later than 180 days after the date of enactment of this Act, the Administrator shall promulgate amendments to the SBIR Policy Directive and the STTR Policy Directive to conform such directives to this title and the amendments made by this title.

(b) **PUBLISHING SBIR POLICY DIRECTIVE AND THE STTR POLICY DIRECTIVE IN THE FEDERAL REGISTER.**—Not later than 180 days after the date of enactment of this Act, the Administrator shall publish the amended SBIR Policy Directive and the amended STTR Policy Directive in the Federal Register.

#### **Subtitle E—Other Provisions**

#### **SEC. 5161. REPORT ON SBIR AND STTR PROGRAM GOALS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(nn) **ANNUAL REPORT ON SBIR AND STTR PROGRAM GOALS.**—

“(1) **DEVELOPMENT OF METRICS.**—The head of each Federal agency required to participate in the SBIR program or the STTR program shall develop metrics to evaluate the effectiveness and the benefit to the people of the United States of the SBIR program and the STTR program of the Federal agency that—

“(A) are science-based and statistically driven;

“(B) reflect the mission of the Federal agency; and

“(C) include factors relating to the economic impact of the programs.

“(2) **EVALUATION.**—The head of each Federal agency described in paragraph (1) shall conduct an annual evaluation using the metrics developed under paragraph (1) of—

“(A) the SBIR program and the STTR program of the Federal agency; and

“(B) the benefits to the people of the United States of the SBIR program and the STTR program of the Federal agency.

“(3) **REPORT.**—

“(A) **IN GENERAL.**—The head of each Federal agency described in paragraph (1) shall submit to the appropriate committees of Congress and the Administrator an annual report describing in detail the results of an evaluation conducted under paragraph (2).

“(B) **PUBLIC AVAILABILITY OF REPORT.**—The head of each Federal agency described in paragraph (1) shall make each report submitted under subparagraph (A) available to the public online.

“(C) **DEFINITION.**—In this paragraph, the term ‘appropriate committees of Congress’ means—

“(i) the Committee on Small Business and Entrepreneurship of the Senate; and

“(ii) the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives.”.

#### **SEC. 5162. COMPETITIVE SELECTION PROCEDURES FOR SBIR AND STTR PROGRAMS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(oo) **COMPETITIVE SELECTION PROCEDURES FOR SBIR AND STTR PROGRAMS.**—All funds awarded, appropriated, or otherwise made available in accordance with subsection (f) or (n) must be awarded pursuant to competitive and merit-based selection procedures.”.

#### **SEC. 5163. LOAN RESTRICTIONS.**

Not later than 180 days after the date of enactment of this Act, the Administrator shall submit to the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives and the Committee on Small Business and Entrepreneurship of the Senate a report analyzing what restrictions, conditions, or covenants contained in a note, bond, debenture, other evidence of indebtedness, or preferred stock should constitute affiliation under section 121.103(a) of title 13, Code of Federal Regulations, for purposes of section 9 of the Small Business Act (15 U.S.C. 638).

#### **SEC. 5164. LIMITATION ON PILOT PROGRAMS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is fur-

ther amended by adding at the end the following:

“(pp) **LIMITATION ON PILOT PROGRAMS.**—

“(1) **EXISTING PILOT PROGRAMS.**—The Administrator may only carry out a covered pilot program that is in operation on the date of enactment of this subsection during the 3-year period beginning on such date of enactment.

“(2) **NEW PILOT PROGRAMS.**—The Administrator may only carry out a covered pilot program established after the date of enactment of this subsection—

“(A) during the 3-year period beginning on the date on which such program is established; and

“(B) if such program does not continue and is not based on, in any manner, a previously established covered pilot program.

“(3) **COVERED PILOT PROGRAM DEFINED.**—In this subsection, the term ‘covered pilot program’ means any initiative, project, innovation, or other activity—

“(A) established by the Administrator;

“(B) relating to an SBIR or STTR program; and

“(C) not specifically authorized by law.”.

#### **SEC. 5165. COMMERCIALIZATION SUCCESS.**

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(qq) **MINIMUM STANDARDS FOR PARTICIPATION.**—

“(1) **PROGRESS TO PHASE II SUCCESS.**—

“(A) **ESTABLISHMENT OF SYSTEM AND MINIMUM COMMERCIALIZATION RATE.**—Not later than 1 year after the date of enactment of this subsection, the head of each Federal agency participating in the SBIR or STTR program shall—

“(i) establish a system to measure, where appropriate, the success of small business concerns with respect to the receipt of Phase II SBIR or STTR awards for projects that have received Phase I SBIR or STTR awards;

“(ii) establish a minimum performance standard for small business concerns with respect to the receipt of Phase II SBIR or STTR awards for projects that have received Phase I SBIR or STTR awards; and

“(iii) begin evaluating, each fiscal year, whether each small business concern that received a Phase I SBIR or STTR award from the agency meets the minimum performance standard established under clause (ii).

“(B) **CONSEQUENCE OF FAILURE TO MEET MINIMUM COMMERCIALIZATION RATE.**—If the head of a Federal agency determines that a small business concern that received a Phase I SBIR or STTR award from the agency is not meeting the minimum performance standard established under subparagraph (A)(ii), such concern may not participate in Phase I (or Phase II if under the authority of subsection (cc)) of the SBIR or STTR program of that agency during the 1-year period beginning on the date on which such determination is made.

“(2) **PROGRESS TO PHASE III SUCCESS.**—

“(A) **ESTABLISHMENT OF SYSTEM AND MINIMUM COMMERCIALIZATION RATE.**—Not later than 2 years after the date of enactment of this subsection, the head of each Federal agency participating in the SBIR or STTR program shall—

“(i) establish a system to measure, where appropriate, the success of small business concerns with respect to the receipt of Phase III SBIR or STTR awards for projects that have received Phase I SBIR or STTR awards;

“(ii) establish a minimum performance standard for small business concerns with respect to the receipt of Phase III SBIR or

STTR awards for projects that have received Phase I SBIR or STTR awards; and

“(iii) begin evaluating, each fiscal year, whether each small business concern that received a Phase I SBIR or STTR award from the agency meets the minimum performance standard established under clause (ii).

“(B) CONSEQUENCE OF FAILURE TO MEET MINIMUM COMMERCIALIZATION RATE.—If the head of a Federal agency determines that a small business concern that received a Phase I SBIR or STTR award from the agency is not meeting the minimum performance standard established under subparagraph (A)(ii), such concern may not participate in Phase I (or Phase II if under the authority of subsection (cc)) of the SBIR or STTR program of that agency during the 1-year period beginning on the date on which such determination is made.

“(3) ADMINISTRATION OVERSIGHT.—

“(A) APPROVAL AND PUBLICATION OF SYSTEMS AND MINIMUM PERFORMANCE STANDARDS.—Each system and minimum performance standard established under paragraph (1) or paragraph (2) shall be submitted by the head of the applicable Federal agency to the Administrator and shall be subject to the approval of the Administrator. In making a determination with respect to approval, the Administrator shall ensure that the minimum performance standard exceeds a de minimis level. The Administrator shall publish on the Internet Web site of the Administration the systems and minimum performance standards approved.

“(B) SUBMISSION OF EVALUATION RESULTS BY AGENCY.—The head of each covered Federal agency shall submit to the Administrator the results of each evaluation conducted under paragraph (1) or paragraph (2).

“(4) REQUIREMENT OF NOTICE AND COMMENT.—Each system and minimum performance standard established under paragraph (1) or paragraph (2) and each approval provided by the Administrator under paragraph (3)(A), at least 60 days before becoming effective, shall be preceded by the provision of notice of and an opportunity for public comment on such system, standard, or approval.”.

#### SEC. 5166. PUBLICATION OF CERTAIN INFORMATION.

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(rr) PUBLICATION OF CERTAIN INFORMATION.—In order to increase the number of small businesses receiving awards under the SBIR or STTR programs of participating agencies, and to simplify the application process for such awards, the Administrator shall establish and maintain a public Internet Web site on which the Administrator shall publish such information relating to notice of and application for awards under the SBIR program and STTR program of each participating Federal agency as the Administrator determines appropriate.”.

#### SEC. 5167. REPORT ON ENHANCEMENT OF MANUFACTURING ACTIVITIES.

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this title, is further amended by adding at the end the following:

“(ss) REPORT ON ENHANCEMENT OF MANUFACTURING ACTIVITIES.—Not later than October 1, 2013, and annually thereafter, the head of each Federal agency that makes more than \$50,000,000 in awards under the SBIR and STTR programs of the agency combined shall submit to the Administrator, for inclusion in the annual report required under subsection (b)(7), information that includes—

“(1) a description of efforts undertaken by the head of the Federal agency to enhance United States manufacturing activities;

“(2) a comprehensive description of the actions undertaken each year by the head of the Federal agency in carrying out the SBIR or STTR program of the agency in support of Executive Order 13329 (69 Fed. Reg. 9181; relating to encouraging innovation in manufacturing);

“(3) an assessment of the effectiveness of the actions described in paragraph (2) at enhancing the research and development of United States manufacturing technologies and processes;

“(4) a description of efforts by vendors selected to provide discretionary technical assistance under subsection (q)(1) to help SBIR and STTR concerns manufacture in the United States; and

“(5) recommendations that the program managers of the SBIR or STTR program of the agency consider appropriate for additional actions to increase the effectiveness of enhancing manufacturing activities.”.

#### SEC. 5168. COORDINATION OF THE SBIR PROGRAM AND THE EXPERIMENTAL PROGRAM TO STIMULATE COMPETITIVE RESEARCH.

(a) COORDINATION REQUIRED.—The head of a Federal agency that participates in the SBIR program and the Experimental Program to Stimulate Competitive Research or the Institutional Development Award Program shall coordinate, to the extent possible, the initiatives of the agency with respect to such programs.

(b) COORDINATION REPORT.—Not later than 1 year after the date of enactment of this Act, the head of each Federal agency that participates in the SBIR program and the Experimental Program to Stimulate Competitive Research or the Institutional Development Award Program shall submit to the Administrator, the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Small Business and Entrepreneurship of the Senate a report describing the actions taken during the preceding 1-year period to increase coordination between such programs to maximize existing resources.

(c) PARTICIPATION REPORT.—Not later than 3 years after the date of enactment of this Act, the head of each Federal agency that participates in the SBIR program and the Experimental Program to Stimulate Competitive Research or the Institutional Development Award Program shall submit to the Administrator, the Committee on Small Business and the Committee on Science, Space, and Technology of the House of Representatives, and the Committee on Small Business and Entrepreneurship of the Senate a report analyzing whether actions taken to increase the coordination of such programs have been successful in attracting entrepreneurs into the SBIR program and increasing the participation of States with respect to which a low level of SBIR awards have historically been awarded.

And the Senate agree to the same.

From the Committee on Armed Services, for consideration of the House bill and the Senate amendment, and modifications committed to conference:

C. A. DUTCH  
RUPPERSBERGER,

From the Committee on Education and the Workforce, for consideration of secs. 548 and 572 of the House bill, and secs. 572 and 573 of the Senate amendment, and modifications committed to conference:

THOMAS E. PETRI,  
JOSEPH J. HECK,

From the Committee on Energy and Commerce, for consideration of secs. 911, 1099A, 2852 and 3114 of the House bill, and sec. 1089 of the Senate amendment, and modifications committed to conference:

From the Committee on Financial Services, for consideration of sec. 645 of the House bill, and sec. 1245 of the Senate amendment, and modifications committed to conference:

SPENCER BACHUS,  
SHELLEY MOORE CAPITO,  
GARY L. ACKERMAN,

From the Committee on Foreign Affairs, for consideration of secs. 1013, 1014, 1055, 1056, 1086, 1092, 1202, 1204, 1205, 1211, 1214, 1216, 1218, 1219, 1226, 1228-1230, 1237, 1301, 1303, 1532, 1533 and 3112 of the House bill, and secs. 159, 1012, 1031, 1033, 1046, 1201, 1203, 1204, 1206-1209, 1221-1225, 1228, 1230, 1245, title XIII and sec. 1609 of the Senate amendment, and modifications committed to conference:

ILEANA ROS-LEHTINEN,  
STEVE CHABOT,

From the Committee on Homeland Security, for consideration of sec. 1099H of the House bill, and sec. 1092 of the Senate amendment, and modifications committed to conference:

BENNIE G. THOMPSON of  
Mississippi,

From the Committee on the Judiciary, for consideration of secs. 531 of subtitle D of title V, 573, 843 and 2804 of the House Bill, and secs. 553 and 848 of the Senate amendment, and modifications committed to conference:

LAMAR SMITH of Texas,

From the Committee on Natural Resources, for consideration of secs. 313, 601 and 1997 of the House bill, and modifications committed to conference:

DOC HASTINGS of

Washington,  
ROB BISHOP of Utah.  
EDWARD J. MARKEY,

From the Committee on Oversight and Government Reform, for consideration of secs. 598, 662, 803, 813, 844, 847, 849, 937-939, 1081, 1091, 1101-1111, 1116 and 2813 of the House bill, and secs. 827, 845, 1044, 1102-1107 and 2812 of the Senate amendment, and modifications committed to conference:

DENNIS A. ROSS of Florida,  
JAMES LANKFORD,  
ELIJAH E. CUMMINGS,

From the Committee on Science, Space, and Technology, for consideration of secs. 911 and 1098 of the House bill, and secs 885, 911, 912 and Division E of the Senate amendment, and modifications committed to conference:

RALPH M. HALL,  
BENJAMIN QUAYLE,  
EDDIE BERNICE JOHNSON of  
Texas,

From the Committee on Small Business, for consideration of sec. 804 of the House bill, and secs. 885-887 and Division E of the Senate amendment, and modifications committed to conference:

RENEE L. ELLMERS,

From the Committee on Transportation and Infrastructure, for consideration of secs. 314, 366, 601, 1098 and 2814 of the House bill, and secs. 262, 313, 315, 1045, 1088 and 3301 of the Senate amendment, and modifications committed to conference:

JOHN L. MICA,  
CHIP CRAVAACK,

From the Committee on Veterans' Affairs, for consideration of secs. 551, 573, 705, 731 and 1099C of the House bill, and secs. 631 and 1093 of the Senate amendment, and modifications committed to conference:

GUS M. BILIRAKIS,  
ANN MARIE BUERKLE,

From the Committee on Ways and Means, for consideration of secs. 704, 1099 and 1225 of the House bill, and sec. 848 of the Senate amendment, and modifications committed to conference:

DAVE CAMP,  
WALLY HERGER,  
SANDER M. LEVIN,

*Managers on the part of the HOUSE.*

CARL LEVIN,  
JOSEPH I. LIEBERMAN,  
JACK REED,  
DANIEL K. AKAKA,  
BEN NELSON of Nebraska,  
JIM WEBB,  
CLAIRE MCCASKILL,  
MARK UDALL of Colorado.

*(Except for secs. 1021  
and 1022 in Subtitle  
D)*

KAY R. HAGAN,  
MARK BEGICH,  
JOE MANCHIN, III  
JEANNE SHAHEEN,  
KIRSTEN E. GILLIBRAND,  
RICHARD BLUMENTHAL,  
JOHN MCCAIN,  
JAMES M. INHOFE,  
JEFF SESSIONS,  
SAXBY CHAMBLISS,  
ROGER F. WICKER,  
SCOTT P. BROWN of  
Massachusetts,  
ROB PORTMAN,  
KELLY AYOTTE,  
SUSAN M. COLLINS,  
LINDSEY GRAHAM,  
JOHN CORNYN,  
DAVID VITTER,

*Managers on the part of the SENATE.*

#### JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1540), to authorize appropriations for fiscal year 2012 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment. The differences between the House bill, the Senate amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

*Compliance with rules of the House of Representatives and Senate regarding earmarks and congressionally directed spending items*

Pursuant to clause 9 of rule XXI of the Rules of the House of Representatives and Rule XLIV(3) of the Standing Rules of the Senate, neither this conference report nor the accompanying joint statement of managers contains any congressional earmarks, congressionally directed spending items, limited tax benefits, or limited tariff benefits, as defined in such rules.

#### *Explanation of funding summary*

The administration's budget request for national defense discretionary programs within the jurisdiction of the Committees on Armed Services of the Senate and the House of Representatives for fiscal year 2012 was \$689.0 billion. Of this amount \$553.0 billion was requested for the base budget programs of the Department of Defense, \$117.8 billion for overseas contingency operations, and \$18.1 billion for national security programs in the Department of Energy and the Defense Nuclear Facilities Safety Board.

The agreement authorizes \$662.4 billion national defense discretionary programs and includes \$530.0 billion for the base budget of the Department of Defense, \$115.5 billion for overseas contingency operations, and \$16.9 billion for national security programs in the Department of Energy and the Defense Nuclear Facilities Safety Board.

The following two tables summarize the discretionary authorizations in the agreement and the equivalent budget authority levels for fiscal year 2012 defense programs.

DIVISION A—DEPARTMENT OF DEFENSE  
AUTHORIZATIONS

## TITLE I—PROCUREMENT

Subtitle A—Authorization of Appropriations  
*Authorization of appropriations (sec. 101)*

The House bill contained a provision (sec. 101) that would authorize the recommended fiscal year 2012 funding levels for procurement for the Army, Navy, Marine Corps, Air Force, and Defense-wide activities as specified in funding tables in section 4101.

The Senate amendment contained an identical provision (sec. 101).

The conferees agree to include a provision that would authorize the recommended fiscal year 2012 funding levels for procurement for the Army, Navy, Marine Corps, Air Force, and Defense-wide activities.

## Subtitle B—Army Programs

*Limitation on procurement of Stryker combat vehicles (sec. 111)*

The House bill contained a provision (sec. 112) that would limit the procurement of Stryker combat vehicles to not more than 100 until the Secretary of the Army submits written certification that the program has stable requirements and cost estimates.

The Senate amendment contained no similar provision.

The Senate recedes.

*Limitation on retirement of C-23 aircraft (sec. 112)*

The House bill contained a provision (sec. 111) that would: (1) require the Secretary of the Army to maintain at least 42 C-23 Sherpa aircraft in inventory; and (2) prevent the Secretary from retiring any C-23 aircraft until the Director of the National Guard Bureau had conducted a study to determine the number of fixed-wing and rotary-wing aircraft required to support a number of missions at low, medium, moderate, high, and very-high levels of operational risk, including Homeland defense and disaster response.

The Senate amendment contained a provision (sec. 137) that would require that, if the Secretary of Army were to retire any C-23 Sherpa aircraft, the Secretary would have to offer those aircraft to the governors of the states within whose jurisdiction the C-23s had been operating at no cost to the Federal Government. It would also allow, notwithstanding the transfer of title to an aircraft to a State, the National Guard of the State to fly the aircraft using National Guard crews in a State status.

The House recedes with an amendment that would: (1) delete the authority for the National Guard crews in State status to operate the aircraft; and (2) add a requirement that the Secretary of the Air Force conduct a study to determine the number of fixed-wing and rotary-wing aircraft required to support a number of missions at low, medium, moderate, high, and very-high levels of operational risk, including Homeland defense and disaster response.

*Multiyear procurement authority for airframes for Army UH-60M/HH-60M helicopters and Navy MH-60R/MH-60S helicopters (sec. 113)*

The House bill contained a provision (sec. 113) that would authorize the Secretary of the Army to enter a multiyear procurement contract in accordance with section 2306b of title 10, United States Code, for up to 5 years for UH-60M/HH-60M and MH-60R/MH-60S helicopter airframes.

The Senate amendment contained an identical provision (sec. 154).

The conference agreement includes this provision.

## Subtitle C—Navy Programs

*Multiyear procurement authority for mission avionics and common cockpits for Navy MH-60R/S helicopters (sec. 121)*

The House bill contained a provision (sec. 123) that would authorize the Secretary of the Navy to enter into a multiyear contract to purchase mission avionics and common cockpits for Navy MH-60R/S helicopters, subject to the Secretary providing a certification that all of the criteria in section 2306b of title 10, United States Code, have been met.

The Senate amendment contained an identical provision (sec. 121).

The conference agreement includes the provision.

*Separate procurement line item for certain Littoral Combat Ship mission modules (sec. 122)*

The House bill contained a provision (sec. 124) that would require the Secretary of Defense ensure that the Navy budget includes a separate procurement line item for the three primary mission defense modules for the Littoral Combat Ship program: (1) surface warfare modules; (2) mine countermeasures modules; and (3) anti-submarine warfare modules.

The Senate amendment contained no similar provision.

The Senate recedes.

*Life-cycle cost-benefit analysis on alternative maintenance and sustainability plans for the Littoral Combat Ship program (sec. 123)*

The House bill contained a provision (sec. 125) that would require that the Secretary of the Navy to conduct a life cycle cost-benefit analysis, in accordance with the Office of Management and Budget Circular A-94, comparing alternative maintenance and sustainability plans for the Littoral Combat Ship program. The Secretary would be required to submit a report on that analysis to the congressional defense committees with the fiscal year 2013 budget request.

The Senate amendment contained no similar provision.

The Senate recedes.

*Extension of Ford-class aircraft carrier construction authority (sec. 124)*

The House bill contained a provision (sec. 127) that would: (1) authorize the Secretary of the Navy to enter into a multiyear contract for the Ford-class aircraft carriers designated CVN-79 and CVN-80 and for the construction of major components, modules, or other structures related to such carriers; and (2) amend section 121(a) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) to allow the Secretary to fund these aircraft carriers over a 5 year period. Section 121(a) now provides the authority for the Secretary to fund the ships over a 4 year period ("...in the fiscal year of the contract and the three succeeding fiscal years.").

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize the Secretary of the Navy to fund these aircraft carriers over a 5 year period.

## Subtitle D—Air Force Programs

*Strategic airlift aircraft force structure (sec. 131)*

The Senate amendment contained a provision (sec. 136) that would amend section 8062(g)(1) of title 10, United States Code, to reduce the number of strategic airlift aircraft the Air Force must maintain from 316 aircraft to 301 aircraft.

The House bill contained no similar provision.

The House recedes.

*Limitations on the use of funds to retire B-1 bomber aircraft (sec. 132)*

The House bill contained a provision (sec. 131) that would prohibit the Secretary of the Air Force from retiring six B-1 bomber aircraft until January 1, 2018, and would identify minimum inventory levels for combat coded, primary, back-up and attrition reserve aircraft.

The Senate bill contained a provision (sec. 134) that would prevent the Secretary of the Air Force from retiring any B-1 bomber aircraft until the Secretary submitted a modernization plan to the congressional defense committees.

The House recedes with an amendment that would require the Secretary to submit a B-1 modernization plan and would authorize the retirement of six B-1 bomber aircraft as follows: three training aircraft in fiscal year 2012, one combat-coded aircraft in fiscal year 2014, one combat-coded aircraft in fiscal year 2015, and one combat-coded aircraft in fiscal year 2016.

The conferees expect the Secretary of the Air Force to maintain non-retired B-1 aircraft in a condition that addresses Congressional intent of having a remaining fleet of 60 B-1 aircraft prepared to meet warfighting plans of the combatant commanders.

*Limitation on retirement of U-2 aircraft (sec. 133)*

The Senate amendment contained a provision (sec. 135) that would prohibit the retirement of the U-2 aircraft until the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD(AT&L)) certifies that the operating and sustainment (O&S) costs for the Global Hawk are less than the O&S costs for the U-2 on a comparable flight-hour cost basis.

The House bill contained no similar provision.

The House recedes with an amendment that would add an additional limitation, requiring that the Chairman of the Joint Requirements Oversight Council certify that the capability to be fielded at the same time or before the U-2 aircraft retirement would result in equal or greater capability available to the combatant commanders.

The USD (AT&L) certification in June, 2011, pursuant to the Global Hawk Nunn-McCurdy cost breach (section 2433a of title 10, United States Code), noted that the U-2 is less expensive to operate on a flight hour basis, but pointed out that, because the Global Hawk has greater endurance than the U-2, fewer sorties are required to fulfill requirements, such that the Global Hawk is less expensive in terms of a full mission profile. The conferees acknowledge this advantage, but believe that flight hour cost is a relevant metric that should favor the more modern, unmanned platform.

The conferees are concerned about Department of Defense (DOD) transition plans in U.S. Pacific Command (PACOM). The U-2 has been operated basically as a dedicated asset to support U.S. Forces Korea and Combined Forces Command, but the Global Hawks that are slated to replace them will be operated as a PACOM-wide asset, substantially reducing collection on the Korean Peninsula.

Global Hawk's imaging sensors also have substantially less range than the Senior Year Electro-optical Reconnaissance System (SYERS) and the Advanced Synthetic Aperture Radar System II carried by the U-2. In the high-threat Korean Peninsula, this range disadvantage equates to reduced coverage

and/or increased risk from operating at reduced standoff ranges. The conferees are informed that the Air Force is considering development of a SYERS-like electro-optical imaging system that would fit in the Global Hawk. While this initiative is welcome, it may be years before it is available, and does not address the gap in radar performance.

DOD hoped that a Foreign Military Sale to South Korea of a number of Global Hawks would mitigate the gap in coverage created by DOD's Global Hawk transition plan in PACOM. This sale appears to have stalled, however. The conferees intend to assess whether the risk of a gap in intelligence collection in Korea is significant and to examine alternatives.

*Availability of fiscal year 2011 funds for research and development relating to the B-2 bomber aircraft (sec. 134)*

The Senate amendment contained a provision (sec. 132) that would authorize the Secretary of the Air Force to use up to \$20.0 million in prior year balances available in the B-2 bomber program in Aircraft Procurement and not needed for low observable signature and supportability modifications and trainer system upgrades, to continue the modifications necessary to allow the B-2 to carry a mix of conventional rotary launcher assembly and smart bomb rack assembly conventional weapons from a single aircraft. This effort was started in fiscal year 2011, is funded in the future-years defense program, but is not funded in the fiscal year 2012 budget request. This provision would authorize the Secretary of the Air Force to use funds already in the B-2 program budget to continue the mixed load modifications.

The House bill contained no similar provision.

The House recedes with an amendment that would change "shall be available" to "may be available".

*Availability of fiscal year 2011 funds to support alternative options for extremely high frequency terminal Increment 1 program of record (sec. 135)*

The Senate amendment contained a provision (sec. 133) that would authorize the Secretary of the Air Force to use up to \$15.0 million in prior year balances available in the B-2 bomber program in Aircraft Procurement, Air Force (APAF), and not needed for low observable signature and supportability modifications and trainer system upgrades, to continue to explore alternatives to the Increment 1 Extremely High Frequency (EHF) terminal program of record. The provision would authorize the Secretary to use these funds as part of the EHF terminal program which is funded in APAF line 76. The EHF terminal will be used in the B-2 and other aircraft.

The House bill contained no similar provision.

The House recedes with an amendment that would change "\$15,000,000 shall be available" to "\$15,000,000 may be available".

*Procurement of advanced extremely high frequency satellites (sec. 136)*

The House bill contained a provision (sec. 132) that would authorize the Secretary of the Air Force to enter into a fixed price contract to procure two Advanced Extremely High Frequency (AEHF) satellites, authorize incremental funding of the two AEHF satellites over a period not to exceed 5 years, and establish a limitation on the total funds to be obligated and expended for the procurement. This section would also require the Secretary of the Air Force to submit a report to the congressional defense commit-

tees on contract details, cost savings, and plans for reinvesting the cost savings into capability improvements for future blocks of AEHF satellites.

The Senate amendment contained a similar provision (sec. 131).

The Senate recedes with an amendment that would authorize a 6 year period and a sense of Congress that the Secretary should not enter into a fixed-price contract under subsection (a) for the procurement of two advanced extremely high frequency satellites unless the Secretary determines that entering into such a contract will save the Air Force not less than 20 percent over the cost of procuring two such satellites separately.

The conferees do not support the request for advanced appropriations authority and note that such authority has not been provided to the Department in the past and would limit the oversight ability of future Congresses.

*Subtitle E—Joint and Multiservice Matters  
Limitation on availability of funds for acquisition of joint tactical radio system (sec. 141)*

The House bill contained a provision (sec. 143) that would limit the obligation of funds of the Joint Tactical Radio System to not more than 70 percent of the requested amount until the Secretary of the Army submits written certification that full rate production includes full and open competition.

The Senate amendment contained no similar provision.

The Senate recedes.

*Limitation on availability of funds for aviation foreign internal defense program (sec. 142)*

The House bill contained a provision (sec. 144) that would prohibit more than 50 percent of the funds available in fiscal year 2012 for the procurement of fixed-wing non-standard aviation aircraft in support of the aviation foreign internal defense program from being obligated or expended until 30 days after the Commander of U.S. Special Operations Command submits a required report on the aviation foreign internal defense program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would clarify the elements of the required report.

*F-35 Joint Strike Fighter aircraft (sec. 143)*

The Senate amendment contained a provision (sec. 152) that would require the Secretary of Defense to ensure that, in entering into a contract for the fifth low-rate initial production (LRIP) contract lot for the F-35 Lightning II Joint Strike Fighter (JSF) aircraft: (1) the contract is a fixed price contract; and (2) the contract requires the contractor to assume full responsibility for costs under the contract above the target cost specified in the contract.

The House bill contained no similar provision.

The House recedes with an amendment that would modify the provision to make the requirement apply to the sixth and all subsequent low-rate initial production contracts.

*Additional oversight requirements for the undersea mobility acquisition program of the United States Special Operations Command (sec. 144)*

The Senate amendment contained a provision (sec. 155) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics to designate the undersea mobility acquisition program of the United States Special Operations Command as a major defense acquisition program.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics to make an assessment and determination, prior to any milestone B acquisition decision, on whether to treat the Dry Combat Submersible-Light, Dry Combat Submersible-Medium, Next-Generation Submarine Shelter, and any other future dry combat submersible programs of the United States Special Operations Command, as major defense acquisition programs. The Under Secretary of Defense for Acquisition, Technology, and Logistics will include in his assessment a requirements validation by the Joint Requirements Oversight Council, an independent cost estimate prepared by the Director of Cost Assessment and Program Evaluation, a test and evaluation master plan reviewed by the Director of Operational Test and Evaluation, and a technology readiness assessment reviewed by the Assistant Secretary of Defense for Research and Engineering. At least 30 days prior to any milestone B acquisition decision on the programs listed above, the Under Secretary of Defense for Acquisition, Technology, and Logistics shall provide to the congressional defense committees his determination of the appropriate acquisition category for these programs, including the validated requirements, independent cost estimate, test and evaluation master plan, and technology readiness assessment.

*Inclusion of information on approved Combat Mission Requirements in quarterly reports on use of Combat Mission Requirement Funds (sec. 145)*

The Senate amendment contained a provision (sec. 151) that would clarify the quarterly reporting requirements related to the use of Combat Mission Requirement Funds.

The House bill contained no similar provision.

The House recedes.

*Joint Surveillance Target Attack Radar System aircraft re-engining program (sec. 146)*

The Senate amendment contained a provision (sec. 157) that would require: (1) the Air Force Audit Agency to submit to the congressional defense committees the results of a financial audit of the funds previously authorized and appropriated for the Joint Surveillance/Target Attack Radar System (JSTARS) aircraft re-engining program; and (2) the Secretary of the Air Force to ensure that any funds described authorized and appropriated for the JSTARS re-engining program are obligated and expended for the purpose for which originally authorized and appropriated, including, but not limited to, the installation of two engine ship sets on two operational JSTARS aircraft and the purchase of two spare engines.

The House bill contained no similar provision.

The House recedes with an amendment that would change the requirement to install one engine ship set to be installed on one operational JSTARS aircraft.

*Authority for exchange with United Kingdom of specified F-35 Lightning II Joint Strike Fighter aircraft (sec. 147)*

The Senate amendment contained a provision (sec. 159) that would authorize the Secretary of Defense to exchange an F-35B short take-off and vertical landing aircraft to the United Kingdom in exchange for an F-35C carrier variant aircraft. This exchange became desirable when the United Kingdom announced that they were not intending to

continue any participation in the F-35B program, but had decided instead to pursue the F-35C variant. The provision would place certain terms and conditions on the exchange to ensure that the each government gets fair value in the transaction.

The House bill contained no similar provision.

The House recedes.

*Report on probationary period in development of short take-off, vertical landing variant of the Joint Strike Fighter (sec. 148)*

The Senate amendment contained a provision (sec. 158) that would require the Secretary of Defense to submit a report to the congressional defense committees about the criteria that the Secretary determines must be satisfied before the F-35B Joint Strike Fighter can be removed from the 2 year probationary status imposed by the Secretary on or about January 6, 2011, and several other matters.

The House bill contained no similar provision.

The House recedes.

*Report on plan to implement Weapon Systems Acquisition Reform Act of 2009 measures within the Joint Strike Fighter aircraft program (sec. 149)*

The Senate amendment contained a provision (sec. 153) that would require the Under Secretary of Defense for Acquisition, Technology, and Logistics to submit a report on the plans of the Department of Defense to implement the requirements of the Weapon Systems Acquisition Reform Act of 2009 (Public Law 111-23), and the amendments made by that Act, within the Joint Strike Fighter aircraft program. The provision would require that the Under Secretary submit a report with the budget request for fiscal year 2013.

The House bill contained no similar provision.

The House recedes.

#### Legislative Provisions Not Adopted

*Multiyear funding for detail design and construction of LHA replacement ship designated LHA-7*

The House bill contained a provision (sec. 121) that would amend section 111(a) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) to allow the Navy to fund detail design and construction for LHA-7 in fiscal year 2013, in addition to fiscal years 2011 and 2012, as was originally authorized by section 111(a).

The Senate amendment contained no similar provision.

The House recedes.

*Multiyear funding for procurement of Arleigh Burke-class destroyers*

The House bill contained a provision (sec. 122) that would authorize the Secretary of the Navy to enter into a multiyear contract for the DDG-51 Arleigh Burke-class destroyers and government-furnished equipment associated with such destroyers.

The Senate amendment contained no similar provision.

The House recedes.

*Limitation on availability of funds for F/A-18 service life extension program*

The House bill contained a provision (sec. 126) that would prevent the Secretary of the Navy from spending any funds on a program to extend the service life beyond 8,600 hours pending submission of that required report. The Navy submitted the required report after the House of Representatives passed the National Defense Authorization Act for Fiscal Year 2012 (H.R. 1540).

The Senate amendment contained no similar provision.

The House recedes.

*Contracts for commercial imaging satellite capabilities*

The House bill contained a provision (sec. 142) that would repeal section 127 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The Senate amendment contained no similar provision.

The House recedes.

The conferees agree that commercial imaging satellites are a key part of the overhead imagery architecture, and the related legislation should not be overly prescriptive. The executive agencies should reach consensus on capability requirements and allow commercial imagery service providers to offer the best value solutions that meet the needs of the government. The conferees look forward to the executive agencies further identification of the role(s) and requirements of commercial imagery, specifically in the context of a broader intelligence, surveillance, and reconnaissance strategy. The conferees plan to actively monitor this important area and consider the need for additional legislation and existing statute.

*Limitation on availability of funds for commercial satellite procurement*

The House bill contained a provision (sec. 145) that would prohibit the Defense Information Systems Agency and the Air Force from obligating more than 20 percent of the funds available for fiscal year 2012 for commercial satellite procurement until the Secretary of Defense provides an independent assessment of the acquisition strategy.

The Senate amendment contained no similar provision.

The House recedes.

*Separate procurement line item for non-lethal weapons funding*

The House bill contained a provision (sec. 147) that would require future budget requests to include a separate procurement line item for each military department for non-lethal weapons.

The Senate amendment contained no similar provision.

The House recedes.

*Study on domestic capacity for manufacture of ship shafts and other forged components*

The House bill contained a provision (sec. 148) that would require the Secretary of Defense to measure the domestic capacity to manufacture ship shafts and other forged components used by Navy combatants.

The Senate amendment contained no similar provision.

The House recedes.

The conferees understand that the Department is already conducting a review that will produce such a measurement of industry capacity.

*Transfer of Air Force C-12 Liberty Intelligence, Surveillance, and Reconnaissance Aircraft to the Army*

The Senate amendment contained a provision (sec. 156) that would require the Secretary of Defense to develop and implement a plan for the orderly transfer of the Air Force MC-12 Liberty intelligence, surveillance, and reconnaissance (ISR) aircraft to the Army.

The House bill contained no similar provision.

The House recedes.

The Senate based this position on the view that: (1) the Department of Defense (DOD) does not need two fleets of C-12-based ISR

aircraft equipped with full-motion video and tactical signals intelligence sensors supporting ground forces (the MC-12 Liberty in the Air Force and the Enhanced Medium Altitude Reconnaissance and Surveillance System (EMARSS) in the Army); (2) the Army is more likely than the Air Force to maintain a commitment to this type of platform and mission; (3) the Army has an existing and available pool of C-12 pilots and infrastructure; and (4) the Air Force has a shortage of pilots for its rapidly growing unmanned aerial vehicle fleet.

The DOD leadership, including the Deputy Secretary of Defense, the Vice Chairman of the Joint Chiefs of Staff, the Under Secretary of Defense for Intelligence (USD(I)), and the Secretaries of the Air Force and Army, informed the conferees that they all believe that the Air Force should continue to operate and manage the MC-12 Liberty fleet and assured the conferees that the Air Force is committed to the mission.

The conferees accept DOD's judgment, but note that other actions within the Department send mixed signals about the conclusions these officials have reached.

The conferees understand that the Air Force has already proposed to transfer the Liberty aircraft to the Air National Guard, despite assurances to the conferees from the USD(I) that this would not be allowed to happen. The conferees have concerns about the ability of the Air National Guard to sustain the levels of forward deployment and operational tempo required to meet the needs of Army, Marine Corps, and special forces ground units. The conferees are not opposed to having the Air National Guard contribute to this mission by operating at least a portion of these assets as the demand for high levels of forward deployment recedes. However, that level of participation should be consistent with meeting the demands of the combatant commanders, when considering the strains in operating tempo that would be placed on the Air National Guard force. The conferees urge the Department, in making any decision on transfers of this mission and aircraft to the Guard, to consider requirements for aircraft of this type to assist in border control and counter-narcotics operations.

The conferees expect that the decision to keep the Liberty aircraft in the Air Force as a theater-level asset would be reflected in a commitment by the combatant commanders to follow established allocation procedures through the Joint Forces Air Component Commander process in supporting deployed joint forces, obviating the need for a second fleet of EMARSS aircraft in the Army.

#### TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION BUDGET ITEM

##### *Armored multipurpose vehicle program*

The budget request included \$53.3 million in PE 23735A for combat vehicle improvement. Of this amount, \$31.4 million was requested for the Armored Multipurpose Vehicle (AMPV) program.

The House bill would authorize \$78.3 million in PE 23735A, an increase of \$25.0 million.

The Senate amendment would authorize \$53.3 million in PE 23735A for combat vehicle improvement.

The House recedes. The conferees strongly support the AMPV program moving forward as quickly as possible. The conferees note that in 2007 the Army identified the M-113 Armored Personnel Carrier for replacement due to its inadequate survivability and force

protection. As currently planned, the AMPV's low-rate initial production will not occur until 2016. The conferees believe that this timeline is too long and that numerous options exist to accelerate the replacement of M-113s such as modified versions of existing Army tracked or wheeled vehicle systems. The conferees are concerned, however, that production of many of the Army's current tracked and wheeled combat vehicles will end before 2016. Therefore, the conferees urge the Army to carefully consider competitive selection from modified existing armored vehicle systems to control costs and avoid delay in development, testing, production, and fielding of an M-113 replacement vehicle. As part of this competitive selection, the conferees encourage the Army to consider the use of existing acquisition authorities to begin this M-113 replacement effort as an engineering change proposal or upgrade program, if that approach reduces cost, and shortens the development and testing timelines.

**Subtitle A—Authorization of Appropriations**  
*Authorization of appropriations (sec. 201)*

The House bill contained a provision (sec. 201) that would authorize appropriations for fiscal year 2012 for the use of the Department of Defense for research, development, test, and evaluation.

The Senate bill contained an identical provision (sec. 201).

The conference agreement includes this provision.

**Subtitle B—Program Requirements, Restrictions, and Limitations**

*Limitation on availability of funds for the ground combat vehicle program (sec. 211)*

The House bill contained a provision (sec. 211) that would limit obligation or expenditure of funds to not more than 70 percent for the Ground Combat Vehicle (GCV) program until the Army provides a report containing an updated analysis of alternatives.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the obligation or expenditure of funds to not more than 80 percent for the program until submission of a report containing the Army's plans to carry out a dynamic analysis of alternatives and a description of the resources needed to conduct a separate assessment of selected non-developmental vehicles in accordance with the acquisition decision memorandum dated August 17, 2011.

The conferees continue to support the Army's goal of pursuing a modernized combat vehicle. However, before the Army starts another major development program that could cost \$30.0 to \$40.0 billion, the conferees want assurances that the GCV will be significantly more capable than a potentially less expensive upgraded version of currently fielded platforms. The conferees agree with the Under Secretary of Defense for Acquisition, Technology and Logistics directive for the Army to conduct a dynamic analysis of alternatives and separate assessment of selected non-developmental vehicles. The conferees are concerned about the differences between the Army's and the Director of Cost Assessment and Program Evaluation's unit cost estimates and expect these differences to be resolved during the technology development phase of the program.

*Limitation on the individual carbine program (sec. 212)*

The House bill contained a provision (sec. 212) that would require the Army to conduct

an analysis of alternatives (AOA) for the Individual Carbine program and prohibit the approval of a full rate production decision until the AOA has been reported. The provision would also give the Secretary of Defense waiver authority.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require a business case analysis instead of an AOA and modify the Secretary of Defense's waiver authority.

*Limitation on availability of funds for future unmanned carrier-based strike system (sec. 213)*

The House bill contained a provision (sec. 223) that would prevent the Secretary of Defense from obligating more than 15 percent of the fiscal year 2012 program funds for the unmanned carrier launched airborne surveillance and strike (UCLASS) program until the Department made certain certifications and established acquisition baselines for the program. The provision would also require the Comptroller General to assess the acquisition strategy defined by the Department as part of that effort, and to report to the congressional defense committees on that assessment.

The Senate amendment contained a provision (sec. 213) that that would prevent the Secretary of Defense from obligating more than 50 percent of the UCLASS program funds until Under Secretary of Defense for Acquisition, Technology, and Logistics certifies to the congressional defense committees that the acquisition strategy he approved at Milestone A requires implementation of open architecture standards for the program.

The conferees agree to a provision that would prevent the Navy from obligating more than 75 percent of the funds available to the program until 60 days after the date on which: (1) the Chairman of the Joint Requirements Oversight Council makes certain certifications about requirements; (2) the Assistant Secretary of the Navy for Research, Development, and Acquisition submits a report describing certain acquisition program attributes; and (3) the Under Secretary of Defense for Acquisition, Technology, and Logistics certifies certain aspects of the program plan.

*Limitation on availability of funds for amphibious assault vehicles of the Marine Corps (sec. 214)*

The House bill contained a provision (sec. 214) that would prohibit the obligation of funds made available after the enactment of the National Defense Authorization Act for Fiscal Year 2012 for Marine Corps amphibious assault vehicles until the Secretary of the Navy provided Congress a report on requirements and an analysis of alternatives (AOA) for amphibious assault vehicles.

The Senate amendment contained a similar provision (sec. 214) that would prohibit Milestone B approval of the Marine Personnel Carrier (MPC) until the AOA is submitted to Congress; allow the Marine Corps to obligate funds for amphibious assault vehicle research and development, and testing, necessary to support the AOA and the development of requirements for the Amphibious Combat Vehicle (ACV); and require the Director, Cost Assessment and Program Evaluation, to conduct life cycle cost assessments of the portfolio of Marine Corps ground vehicles prior to Milestone B approval.

The Senate recedes with an amendment that would (1) allow the Marine Corps to ob-

ligate funds for amphibious assault vehicle activities to support survivability or other operational issues, to support the AOA, or to support the development of requirements for the ACV; (2) allow the Marine Corps to obligate funds for amphibious vehicles for other purposes after submitting a report to Congress on combatant commanders' requirements for amphibious assault vehicles; (3) prohibit Milestone B approval for the MPC until the requirements report is submitted to Congress; and (4) require a habitability assessment report based on ongoing Marine Corps evaluations.

*Limitation on obligation of funds for the F-35 Lightning II aircraft program (sec. 215)*

The House bill contained a provision (sec. 215) that would prohibit obligation or expenditure of any funds for performance improvements to the F-35 propulsion system unless the Secretary of Defense ensures competitive development and production of the F-35 propulsion system.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would prevent the obligation of more than 80 percent of the research and development funding for the F-35 program until the Secretary of Defense certifies to the congressional defense committees that the acquisition strategy for the F-35 program includes a plan for achieving competition throughout operation and sustainment, in accordance with section 202(d) of the Weapon Systems Acquisition Reform Act of 2009 (Public Law 111-23).

*Limitation on use of funds for Increment 2 of B-2 bomber aircraft extremely high frequency satellite communications program (sec. 216)*

The Senate amendment contained a provision (sec. 212) that would prohibit the Secretary from obligating or expending funds for Increment 2 of the B-2 Bomber aircraft Extremely High Frequency (EHF) Satellite Communications program, until the Secretary of the Air Force makes a series of certifications and a report with respect to the acquisition plan for Increment 2, which consists of the integration of an EHF terminal and low observable antenna for secure strategic communications. The required certifications would be that the U.S. Government owns the data rights for the antennas, and that the antenna technology selected is the most cost effective and lowest risk option for the B-2. The report would include a detailed plan setting forth the projected cost and schedule for the research, development, and testing of the antenna.

The House bill contained no similar provision.

The House recedes with an amendment that would prohibit spending 60 percent of funds available until the Secretary of the Air Force makes the above certification.

*Limitation on availability of funds for the Joint Space Operations Center management system (sec. 217)*

The House bill contained a provision (sec. 217) that would limit the obligation or expenditure of funds authorized to be appropriated or otherwise made available for fiscal year 2012 for Release 1 of the Joint Space Operations Center Management System (JMS) until the Under Secretary of Defense for Acquisition, Technology, and Logistics and the Secretary of the Air Force jointly provide to the congressional defense committees the acquisition strategy for JMS, to include a description of the acquisition policies and procedures applicable to JMS and any additional acquisition authorities that may be necessary.

This section would also express a sense of Congress that improvements to U.S. space situational awareness and space command and control capabilities are necessary, and the traditional defense acquisition process is not optimal for developing the services oriented architecture and net-centric environment planned for JMS.

The Senate amendment contained no similar provision.

The Senate recedes.

*Limitation on availability of funds for wireless innovation fund (sec. 218)*

The House bill contained a provision (sec. 218) that would limit the Defense Advanced Research Projects Agency to obligating or expending not more than 10 percent of funds authorized to be appropriated for the wireless innovation fund until 30 days after the date on which the Under Secretary of Defense for Acquisition, Technology, and Logistics submits a report on how such funds will be managed and executed.

The Senate amendment contained no similar provision.

The Senate recedes.

*Prohibition on delegation of budgeting authority for certain research and educational programs (sec. 219)*

The House bill contained a provision (sec. 222) that would prohibit the Secretary of Defense from delegating authority for the Historically Black Colleges and Universities (HBCU) program to any individual outside of the Office of the Secretary of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees direct that any amounts appropriated for the HBCU/Minority Institutions program, in a program element other than PE 0602228087, shall be transferred to this program element for execution consistent with the requirements of this section.

*Designation of main propulsion turbomachinery of the next-generation long-range strike bomber aircraft as major subprogram (sec. 220)*

The House bill contained a provision (sec. 220) that would require the Secretary of Defense to designate the main propulsion system of the next-generation long-range strike bomber aircraft as a major subprogram and would require the Secretary of the Air Force to develop a competitive acquisition strategy for the propulsion system.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that changes "system" to "turbomachinery" and the designation date to "30 days after Milestone A".

*Designation of electromagnetic aircraft launch system development and procurement program as major subprogram (sec. 221)*

The House bill contained a provision (sec. 221) that would require that the Secretary of Defense designate the electromagnetic aircraft launch system (EMALS) development and procurement program as a major subprogram of the CVN-78 Ford-class aircraft carrier major defense acquisition program, in accordance with section 2430a of title 10, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would provide that the requirement to maintain this major subprogram designation for EMALS would expire upon successful completion of operation testing.

*Advanced rotorcraft flight research and development (sec. 222)*

The House bill contained a provision (sec. 219) that would authorize the Secretary of

the Army to conduct a program for flight research and demonstration of advanced helicopter technology.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would direct the Army, if they chose to award a contract, to use full and open competition as defined in section 2302(3)(D) of title 10, United States Code.

*Preservation and storage of certain property related to F136 propulsion system (sec. 223)*

The House bill contained a provision (sec. 252) that would require the Secretary of Defense develop and implement a plan to store and preserve property owned by the Federal Government that was acquired under the F136 propulsion system development contract that would, with the aim of ensuring that the option of allowing the contractor to fund continued development of the F136 from within contractor funds would not be precluded by actions that the Defense Department might take in implementing the announced contract termination.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that the Secretary of Defense develop a plan that would provide for the long-term sustainment and repair of such property pending a determination of whether such property: (1) can be used within the F-35 Lightning II aircraft program, in other government development programs, or in other contractor-funded development activities; (2) should be stored for use in future government development programs; or (3) should be disposed. The provision would also require the Secretary to identify how he intends to obtain maximum benefit to the U.S. Government from the investment already made in developing the F136.

#### Subtitle C—Missile Defense Programs

*Acquisition accountability reports on the ballistic missile defense system (sec. 231)*

The House bill contained a provision (sec. 231) that would amend chapter 9 of title 10, United States Code, to require acquisition baselines and annual acquisition accountability reports on the ballistic missile defense system.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

*Comptroller General review and assessment of missile defense acquisition programs (sec. 232)*

The Senate amendment contained a provision (sec. 231) that would amend section 225 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) to require the Comptroller General to review and assess the annual baseline acquisition reports of the Missile Defense Agency for fiscal years 2012 through 2015, and provide annual reports to Congress on those assessments.

The House bill contained no similar provision.

The House recedes with an amendment that would make this a separate provision of law, since section 225 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 is repealed elsewhere in this Act.

*Homeland defense hedging policy and strategy (sec. 233)*

The House bill contained a provision (sec. 233) that would establish policy for a hedging strategy for homeland missile defense of the United States, and would require the Depart-

ment of Defense to develop and submit such a hedging strategy to the congressional defense committees.

The Senate amendment contained a similar provision (sec. 234).

The Senate recedes with an amendment that would require the Department of Defense to submit a report on the homeland missile defense hedging strategy.

*Ground-based Midcourse Defense program (sec. 234)*

The House bill contained a provision (sec. 234) that would express the sense of Congress regarding the need to take steps to correct the cause of two flight test failures of the Ground-based Midcourse Defense system, and would require the Department of Defense to establish and submit to Congress a plan to address the flight test failures.

The Senate amendment contained a similar provision (sec. 232).

The House recedes with an amendment that would require the Department of Defense to report to Congress on the details and status of the plan to correct the cause of the flight test failures.

*Limitation on availability of funds for the Medium Extended Air Defense System (Sec. 235)*

The House bill contained a provision (sec. 232) that would limit the availability of any funds authorized to be appropriated by this Act or otherwise made available for fiscal year 2012 for the Medium Extended Air Defense System (MEADS) until the Secretary of Defense either (1) negotiates a multilateral termination of the contract covering the program, or (2) restructures the program to ensure that specific deliverables under the contract are transitioned to United States programs of record by not later than September 30, 2013. The provision would also require the Secretary to submit notification of the details of the plan to meet either of the options permitted.

The Senate amendment contained no similar provision. However, the Senate amendment did include a provision (sec. 807) that would require the Department of Defense to conduct risk assessments of future international weapon development programs, to avoid problems such as the current MEADS situation. Furthermore, the Senate amendment would authorize no fiscal year 2012 funds for the MEADS program.

The Senate recedes with an amendment that would limit the availability of more than 25 percent of fiscal year 2012 funds for MEADS until the Secretary of Defense submits a plan to use such funds as final obligations under the MEADS program for either (1) implementing a restructured MEADS program of reduced scope, or (2) contract termination liability costs with respect to the contracts covering the program. The provision would also require the Secretary to submit the plan for using fiscal year 2012 funds for the purposes permitted, with details of such plan. The provision would also require the Secretary to submit a report, not later than 180 days after the date of enactment of this Act, describing the efforts the Secretary has made with Germany and Italy, including involvement by the Secretary of State, to agree on ways to minimize the costs to each nation of implementing a restructured program or of unilateral or multilateral contract termination.

The conferees are extremely disappointed that in 2004 the Department of Defense negotiated and signed a Memorandum of Understanding on the Medium Extended Air Defense System with Germany and Italy that

effectively created an unacceptable situation for the United States in the event of poor program execution, significant schedule delays, or significantly increased cost estimates, such as have taken place. It is the conferees' understanding that none of the partner nations—the United States, Germany, or Italy—intend to procure and field the MEADS system. Yet, Congress has been told that the United States still must face an obligation of more than \$800.0 million for contract completion or for contract termination liability in the context of our fiscal crisis.

The conferees believe the Department of Defense failed the American taxpayer by signing the Memorandum in question, and believe that it is the Department's urgent responsibility, at the highest levels, to engage with Germany and Italy to minimize possible further costs to the United States of implementing a restructured program or multilateral contract termination.

*Sense of Congress regarding ballistic missile defense training (sec. 236)*

The House bill contained a provision (sec. 333) that would express the sense of Congress concerning the importance of improving the integration of ballistic missile defense training across and between the combatant commands.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

#### Subtitle D—Reports

*Extension of requirements for biennial roadmap and annual review and certification on funding for development of hypersonics (sec. 241)*

The Senate amendment contained a provision (sec. 251) that would extend the biennial reporting requirement from the Department of Defense on hypersonic weapons development from 2012 to 2020.

The House bill contained no similar provision.

The House recedes with an amendment that would extend the reporting requirement from 2012 to 2016.

*Report and cost assessment of options for Ohio-class replacement ballistic missile submarine (sec. 242)*

The House bill contained a provision (sec. 213) that contained a series of findings and expressed a sense of Congress on the program to replace the Ohio-class ballistic missile submarine. The House provision would also limit, to not more than 90 percent, the obligation or expenditure of fiscal year 2012 funds authorized or otherwise made available for such program until the Secretary of Defense submits a report to the congressional defense committees on the program including, among other matters, the analysis and cost estimates that supported the Department of Defense decision to reduce the planned number of missile tubes per submarine to 16.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of the Navy and the Commander of U.S. Strategic Command to jointly submit a report, not later than 180 days after the date of enactment of this Act, assessing several options for the number of submarines and the number of missile tubes per submarine for the Ohio-class replacement program. The report would be required to assess the procurement cost and total life cycle cost of each option, the ability for each option to meet Strategic

Command's at-sea requirements that are in place as of the date of enactment of this Act and any expected changes to such requirements, and the ability for each option to meet nuclear employment and planning guidance in place as of the date of enactment of this Act and any expected changes to such guidance. The report would also be required to include a description of the postulated threat and strategic environment used to inform selection of a final option, as well as how each option provides flexibility for responding to changes in the threat and strategic environment.

*Report on the electromagnetic rail gun system (sec. 243)*

The House bill contained a provision (sec. 243) that would require the Secretary of Defense to submit a report on the feasibility of developing and deploying the electromagnetic rail gun system.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the reporting authority to the Secretary of the Navy, focusing on development, future deployment, and operational challenges within the Navy program. The Secretary of the Navy would be required to brief the congressional defense committees with an interim update within 90 days of enactment of this Act, and a full report within 180 days.

*Annual Comptroller General report on the KC-46A aircraft acquisition program (sec. 244)*

The House bill contained a provision (sec. 241) that would require the Comptroller General to submit an annual report on the KC-46A program, beginning in fiscal year 2012 and concluding in fiscal year 2017. The reports would include assessment of various aspects of the program, including whether the Air Force was making any changes to the program's requirements or documentation.

The Senate amendment contained no similar provision.

The Senate recedes.

*Independent review and assessment of cryptographic modernization program (sec. 245)*

The House bill contained a provision (sec. 242) that would require the Secretary of Defense to conduct an independent review through an appropriate entity outside of the Department of Defense (DOD) of the DOD cryptographic modernization program.

The Senate amendment contained no similar provision.

The Senate recedes.

*Report on increased budget items (sec. 246)*

The House bill contained a provision (sec. 1699F-1) that would require reports on increased budget items authorized to be appropriated by section 201 of this Act.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would require a one-time report. The conferees intend the Secretary of Defense to describe the justification for awarding a contract using other than full and open competition, in the case of contracts against which funds will be obligated that were not included in the President's fiscal year 2012 budget request.

#### Subtitle E—Other Matters

*Repeal of requirement for Technology Transition Initiative (sec. 251)*

The House bill contained a provision (sec. 251) that would repeal the requirement for the Technology Transition Initiative.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would make the repeal effective on October 1, 2013.

Further, the conferees note that the repeal of the Technology Transition Initiative is incumbent upon the receipt, no later than March 31, 2012, of the report directed in section 253 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417). The Under Secretary of Defense for Acquisition, Technology, and Logistics has failed to comply with this statutory requirement, which was required no later than October 1, 2009.

*Contractor cost-sharing in pilot program to include technology protection features during research and development of certain defense systems (sec. 252)*

The Senate amendment contained a provision (sec. 261) that would require the contractor of certain research and development programs to bear at least one half of the cost of such activities.

The House bill contained no similar provision.

The House recedes.

*Extension of authority for mechanisms to provide funds for defense laboratories for research and development of technologies for military missions (sec. 253)*

The House bill contained a provision (sec. 253) that would extend the authority for funding mechanisms from October 1, 2013, till September 30, 2016.

The Senate amendment contained a similar provision (sec. 905(b)) that would make the authority permanent.

The Senate recedes.

However, conferees remain concerned about the Department of Defense's execution of section 219 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417). The statute requires the establishment of mechanisms under which the director of a defense laboratory may use an amount of funds equal to not more than 3 percent of all funds available to the defense laboratory for specified purposes. Current implementation varies from service to service and the conferees expect the Department and the services to establish consistent mechanisms that clearly follow the provisions of this statute. Furthermore, the conferees direct the service secretaries, in coordination with the Director of the Assistant Secretary of Defense for Research and Engineering Laboratories Office, to report to the Committees on Armed Services of the Senate and the House of Representatives by March 31, 2012, on all barriers or impediments to fully implementing the statute.

*National defense education program (sec. 254)*

The House bill contained a provision (sec. 257) that would prohibit the Secretary of Defense from using K-12 education funds within the National Defense Education Program (NDEP) to make up the difference should the amount authorized to be appropriated for fiscal year 2012 be less than the amount requested by the President.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees strongly encourage the Department that however it allocates non-K-12 funding within NDEP, existing Science, Mathematics and Research for Transformation scholarships and internships should not be impacted.

*Laboratory facilities, Hanover, New Hampshire (sec. 255)*

The Senate amendment contained a provision (sec. 262) that would allow the Secretary

of the Army to acquire property in the vicinity of Hanover, New Hampshire, as may be needed for the Engineer Research and Development Center laboratory at the Cold Regions Research and Engineering Laboratory.

The House bill contained no similar provision.

The House recedes.

*Sense of Congress on active matrix organic light emitting diode technology (sec. 256)*

The House bill contained a provision (sec. 255) that would establish a sense of Congress on the importance of organic light emitting diode (OLED) technology. The provision urges the Secretary of Defense to utilize existing programs to support the reduction of costs and risks related to the technology.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment that would change this provision from being directive to permissive.

#### Legislative Provisions Not Adopted

*Study on space-based interceptor technology*

The House bill contained a provision (sec. 235) that would require the Department of Defense to conduct of study of space-based interceptor technology.

The Senate amendment contained no similar provision.

The House recedes.

*Application of RNA biological and functional science and technology*

The House bill contained a provision (sec. 254) that would require the Secretary of Defense to ensure that RNA technology would be used, when applicable, in research.

The Senate amendment contained no similar provision.

The House recedes.

*Prohibition on use of funds for newly designed flight suit*

The House bill contained a provision (sec. 256) that would prohibit the Department from using any funds to research, develop, manufacture, or procure a newly designed flight suit for members of the armed forces.

The Senate amendment contained no similar provision.

The House recedes.

*Prohibitions relating to use of funds for research, development, test, and evaluation on the F136 engine*

The Senate amendment contained a provision (sec. 211) that would prohibit: (1) the obligation of any funds in this Act for research, development, test, or evaluation on the F136 engine; and (2) the consideration of any research, development, testing and evaluation of the F136 engine conducted and funded by the contractor as an allowable charge on any future government contract, either as a direct or an indirect cost.

The House bill contained no similar provision.

The Senate recedes.

#### TITLE III—OPERATION AND MAINTENANCE

Subtitle A—Authorization of Appropriations  
*Operation and maintenance funding (sec. 301)*

The House bill contained a provision (sec. 301) that would authorize fiscal year 2012 funding levels for all operation and maintenance accounts.

The Senate amendment contained an identical provision (sec. 301).

The conference agreement includes this provision.

#### Subtitle B—Energy and Environmental Provisions

*Designation of senior official of Joint Chiefs of Staff for operational energy plans and programs and operational energy budget certification (sec. 311)*

The House bill contained a provision (sec. 311) that would require the Chairman of the Joint Chiefs of Staff to designate a senior official to be responsible for operational energy plans and programs for the Joint Chiefs of Staff, the Joint Staff, and for coordinating with the Assistant Secretary of Defense for Operational Energy, Plans, and Programs and implementing initiatives pursuant to the operational energy strategy established by the Assistant Secretary of Defense for Operational Energy, Plans, and Programs. The provision would also modify the date of the report requirement accompanying the President's budget certification.

The Senate amendment contained no similar provision.

The Senate recedes.

*Improved Sikes Act coverage of State-owned facilities used for the national defense (sec. 312)*

The House bill contained a provision (sec. 313) that would improve the coverage of State-owned National Guard facilities under the Sikes Act (16 U.S.C. 670 et seq.) and would make certain technical modifications.

The Senate amendment contained no similar provision.

The Senate recedes.

*Discharge of wastes at sea generated by ships of the armed forces (sec. 313)*

The House bill contained a provision (sec. 314) that would amend section 1902 of title 33, United States Code, by codifying discharge standards at sea for ships of the armed forces.

The Senate amendment contained a similar provision (sec. 315).

The Senate recedes with an amendment that eliminates the 270 day deadline for the reporting of a discharge necessary for purposes of securing the safety of the ship, the health of the ship's personnel, or saving life at sea.

*Modification to the responsibilities of the Assistant Secretary of Defense for Operational Energy, Plans, and Programs (sec. 314)*

The House bill contained a provision (sec. 315) that would designate one of the military departments to serve as the executive agent for alternative fuel development for the Department of Defense (DOD).

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would modify the responsibilities of the Assistant Secretary of Defense for Operational Energy, Plans, and Programs, in consultation with the military departments and the Assistant Secretary of Defense for Research and Engineering, to include development and oversight of alternative fuels activities and the streamlining of alternative fuel investments.

The conferees note that the amendment would also include a modification to the reporting requirement set forth in section 2925(b)(2) of title 10, United States Code.

*Energy-efficient technologies in contracts for logistics support of contingency operations (sec. 315)*

The House bill contained a provision (sec. 316) that would require the Secretary of Defense to give favorable consideration in the award of logistics support contracts for contingency operations to offers that include

energy-efficient or energy reduction technologies or processes.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the energy performance master plan for the Department of Defense to include goals, metrics, and incentives for achieving energy efficiency in such contracts.

*Health assessment reports required when waste is disposed of in open-air burn pits (sec. 316)*

The House bill contained a provision (sec. 317) that would require the Secretary of Defense to submit a health assessment report to the Committees on Armed Services of the Senate and the House of Representatives when certain waste is disposed of in open-air burn pits during contingency operations.

The Senate amendment contained no similar provision.

The Senate recedes.

*Streamlined annual report on defense environmental programs (sec. 317)*

The Senate amendment contained a provision (sec. 312) that would streamline the Defense Department's Annual Report to Congress on Defense Environmental Programs.

The House bill contained no similar provision.

The House recedes with a clarifying amendment that the report would cover fiscal years vice calendar years, and to reference the "environmental restoration program" instead of the "installation restoration program."

The conferees note that the Office of the Secretary of Defense and the military departments present their environmental account information to the defense committees in varying formats. It is the intention of the conferees that this streamlined report will include the total funds expended by account by the Department of Defense and by each military department. It is also the intention that the Defense Department use consistent nomenclature and metrics when reporting its environmental data to ensure that the defense committees can exercise proper oversight of the environmental program funding.

*Payment to Environmental Protection Agency of stipulated penalties in connection with Jackson Park Housing Complex, Washington (sec. 318)*

The Senate amendment contained a provision (sec. 313) that would authorize the Secretary of the Navy to pay a stipulated penalty to the Environmental Protection Agency.

The House bill contained no similar provision.

The House recedes.

*Requirements relating to Agency for Toxic Substances and Disease Registry investigation of exposure to drinking water contamination at Camp Lejeune, North Carolina (sec. 319)*

The Senate amendment contained a provision (sec. 314) that would establish certain requirements relating to actions associated with the ongoing investigation and study of exposures to contaminated drinking water at Camp Lejeune, North Carolina.

The House bill contained no similar provision.

The House recedes.

*Fire suppression agents (sec. 320)*

The House bill contained a provision (sec. 318) that would amend section 7671d(a) of title 42, United States Code, to allow the use of certain fire suppression agents under certain circumstances.

The Senate amendment contained a similar provision (sec. 1089).

The House recedes.

#### Subtitle C—Logistics and Sustainment

##### *Definition of depot-level maintenance and repair (sec. 321)*

The House bill contained a provision (sec. 321) that would modify and clarify the definition of depot-level maintenance and repair.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees note that the study on the future capability of the Department of Defense maintenance depots directed by section 322 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417) found that the existing statutory definition was ambiguous and subject to interpretation. The conferees are concerned that these ambiguities are directly affecting the development of core depot maintenance capabilities and allocation of sustaining workloads. To resolve these ambiguities, the conferees specifically addressed in the provision the depot-level maintenance of software and the installation of modifications or upgrades. The conferees have removed exceptions from the definition and have addressed that issue more appropriately in the core depot-maintenance capability provision provided for elsewhere in this Act.

##### *Designation of military arsenal facilities as Centers of Industrial and Technical Excellence (sec. 322)*

The House bill contained a provision (sec. 323) that would amend 10 U.S.C. 2474 by allowing military industrial facilities to be designated as Centers of Industrial and Technical Excellence (CITE).

The Senate amendment contained a similar provision (sec. 323).

The Senate recedes with a clarifying amendment that would ensure that Army arsenals are designated as CITE.

##### *Permanent and expanded authority for Army industrial facilities to enter into certain cooperative arrangements with non-Army entities (sec. 323)*

The House bill contained a provision (sec. 325) that would give permanent and expanded authority to the Secretary of the Army to enter into certain cooperative arrangements with non-Army entities.

The Senate amendment contained a similar provision (sec. 341) that would increase the limit of cooperative arrangements and expand the expiration clause.

The Senate recedes.

The conferees note that 10 U.S.C. 4544 is the appropriate partnering authority for cooperative arrangements with non-Army entities. The conferees further note that the Secretary of the Army shall evaluate all cooperative arrangements previously entered into under the Arsenal Support Program Initiative to determine which, if any, cooperative arrangements should be continued and transferred under the appropriate authority of 10 U.S.C. 4544.

##### *Implementation of corrective actions resulting from corrosion study of the F-22 and F-35 aircraft (sec. 324)*

The House bill contained a provision (sec. 327) that would require the Department of Defense (DOD) to implement the recommendations of the Government Accountability Office (GAO) study of the F-22 Raptor and F-35 Joint Strike Fighter aircraft or submit to Congress a written justification for any decision not to do so.

The Senate amendment contained a similar provision (sec. 825).

The Senate recedes.

The conferees note that language from the Senate provision requiring DOD to address corrosion issues at the time of milestone decisions is addressed in a separate provision of the bill.

The GAO study found that the DOD had not adequately addressed the problem of corrosion and resulting material degradation in the design, development, and testing of these weapon systems. The conferees agree that renewed focus in the area of corrosion prevention and mitigation, with the active participation of the Director of Corrosion Policy and Oversight, is needed to address material degradation issues that can significantly impact the affordability and sustainability of a major weapon systems over its entire service life.

In addressing the recommendations of the GAO report, the conferees expect the Department to specifically address the following issues: (1) with regard to the F-22 Raptor program, the need for a plan to manage cumulative corrosion damage in order to mitigate long-term structure risk to the aircraft; and (2) with regard to the F-35 Joint Strike Fighter program, the need for an update to the F-35 Corrosion Prevention and Control plan with lessons learned from the F-22 program, a plan for full climatic testing early in the program to robustly address the effects of severe wet weather, temperature extremes, and high humidity, an appropriate corrosion risk mitigation follow-on plan (including management of the corrosion risk of parts qualified by similarity), expanded involvement of the Naval Air Systems Command corrosion testing capability and Air Force Research Laboratory low-observable testing capability, reconsideration of the selection of materials and coating, and responsibility for management of the Autonomic Logistics Information System link with the Aircraft Structural Integrity Program.

##### *Modification of requirements relating to minimum capital investment for certain depots (sec. 325)*

The House bill contained a provision (sec. 328) that would modify the requirements relating to minimum capital investment for certain depots.

The Senate amendment contained a similar provision (sec. 321).

The Senate recedes with an amendment that would ensure that capital investment funds are spent solely to modernize or improve the efficiency of depot facilities, equipment, work environment, or processes in direct support of depot operations.

The conferees note that sustainment operation and maintenance funding does not count towards the 6 percent minimum capital investment requirement, but restoration and modernization operation and maintenance funding does.

##### *Reports on depot-related activities (sec. 326)*

The Senate amendment contained a provision (sec. 324) that would require a report from the Secretary of Defense on the status of the drawdown, retrograde, and reset program for the equipment used in support of operations in Iraq and Afghanistan. The provision would also require a report on the alignment, organizational reporting, and performance rating of Air Force system program managers, product support managers at Air Logistics Centers or Air Logistics Complexes, and a review of the civilian and military command structure associated with the Air Force Materiel Command realignment.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

##### *Core depot-level maintenance and repair capabilities (sec. 327)*

The House bill contained a provision (sec. 322) that would modify core logistics capabilities requirements (10 U.S.C. 2464) and require an annual report.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees note that the study on the future capability of the Department of Defense (DOD) maintenance depots directed by section 322 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417) found that the existing core determination process should be revised to ensure that it is visible and readily understood. Through this conference agreement, the conferees confirm the criticality of a government-controlled source of repair to support warfighter requirements. The conferees believe a streamlined core policy that eliminates exclusions and exemptions and instead provides for conditional waivers of government performance is in keeping with the section 322 study's recommendations. To provide greater transparency of the core determination process, the conference agreement includes an annual core report that should align capital investment to support current and emerging core requirements and better align sustainment planning with acquisition and development.

#### Subtitle D—Readiness

##### *Modification of Department of Defense authority to accept voluntary contributions of funds (sec. 331)*

The House bill contained a provision (sec. 331) that would make a technical amendment to section 358(g) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) to clarify that voluntary contributions received from developers to offset the cost of mitigating adverse impacts on military operations and readiness and may be used for the purpose of conducting studies and will remain available until expended.

The Senate amendment contained a similar provision (sec. 344).

The Senate recedes.

##### *Review of proposed structures affecting navigable airspace (sec. 332)*

The House bill contained a provision (sec. 332) that would require the Administrator of the Federal Aviation Administration to develop procedures to allow the Department of Defense and the Department of Homeland Security to review and comment on aeronautical studies prior to completion of such studies.

The Senate amendment no similar provision.

The Senate recedes.

#### Subtitle E—Reports

##### *Annual certification and modifications of annual report on prepositioned materiel and equipment (sec. 341)*

The House bill contained a provision (sec. 341) that would, upon the arrival of the President's budget request for a fiscal year under section 1105 of title 31, require the Secretary of Defense to certify in writing that the prepositioned stocks of each of the military departments meet all operational plans, in both rate of fill and readiness. The provision also would require the Secretary of Defense to report on the inclusion of non-standard items selected for inclusion in

prepositioned stocks and the long-term sustainment plan beyond current operations.

The Senate amendment contained no similar provision.

The Senate recedes.

*Additional matters for inclusion in and modified deadline for the annual report on operational energy (sec. 342)*

The House bill contained a provision (sec. 346) that would increase the reporting requirements for the annual report on operational energy.

The Senate amendment contained a similar provision (sec. 334) that would modify the deadline for the annual report on operational energy.

The Senate recedes.

*Study on Air Force test and training range infrastructure (sec. 343)*

The Senate amendment contained a provision (sec. 331) that would require the Secretary of the Air Force to conduct a study on the ability of the major air test and training range infrastructure to support the full spectrum of Air Force operations.

The House bill contained no similar provision.

The House recedes.

*Study on training range infrastructure for special operations forces (sec. 344)*

The Senate amendment contained a provision (sec. 332) that would require the Commander of U.S. Special Operations Command to conduct a study on existing training ranges used by special operations forces.

The House bill contained no similar provision.

The House recedes.

*Guidance to establish non-tactical wheeled vehicle and equipment service life extension programs to achieve costs savings (sec. 345)*

The Senate amendment contained a provision (sec. 333) that would require the Secretary of Defense to conduct a survey and determine the advisability for establishing a service life extension program for non-tactical wheeled vehicles and base-level commercial equipment in the fleets of the military departments.

The House bill contained no similar provision.

The House recedes.

*Study on United States force posture in the United States Pacific Command area of responsibility (sec. 346)*

The House bill contained a provision (sec. 345) that would require the Secretary of Defense to study training requirements in the United States Pacific Command area of responsibility.

The Senate amendment contained a similar provision (sec. 1079) that would require an independent assessment of the United States force posture in East Asia and the Pacific.

The House recedes with an amendment that would require an independent assessment of the United States military force posture throughout the Pacific Command area of responsibility.

The conferees note that over recent years, the United States has embarked on a number of initiatives in the Pacific Command area of responsibility that are intended to realign our military force structure to respond to regional interests and, in this regard, U.S. bilateral security arrangements, especially with Japan and the Republic of Korea. Our continued strong alliance and cooperation with these two countries maintain a significant part of the foundation that supports our force posture and military activities in the region. Accordingly, the conferees direct

that the assessment required by this provision include a particular focus on the current posture and plans for United States force realignments in Korea, Okinawa, and Guam.

The amendment also includes a requirement for an independent study of the overseas basing presence of United States forces, as codified in section 347.

*Study on overseas basing presence of United States forces (sec. 347)*

The conferees agreed to a study on overseas basing presence of United States Forces. Inclusion of assessment of joint military training and force allocations in Quadrennial Defense Review and National Military Strategy (sec. 348)

The House bill contained a provision (sec. 344) that would require the Secretary of Defense to conduct an assessment of joint military training and the effectiveness of the Joint Staff in carrying out the missions of planning and experimentation formerly accomplished by United States Joint Forces Command.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would include the assessment of joint military training and force allocations in the Quadrennial Defense Review and National Military Strategy.

*Modification of report on procurement of military working dogs (sec. 349)*

The House bill contained a provision (sec. 343) that would amend section 358 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417), which is codified at section 2302 (note) of title 10, United States Code, to require the Secretary of Defense to provide additional information on the use of military working dogs on a contracted basis, the status of the Department's breeding programs, and the future military working dog force structure.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would retain the data elements currently required in the report and change the reporting interval to biennial vice annual.

Subtitle F—Limitations and Extension of Authority

*Adoption of military working dog by family of deceased or seriously wounded member of the armed forces who was the dog's handler (sec. 351)*

The House bill contained a provision (sec. 351) that would amend section 2583(c) of title 10, United States Code, to clarify the circumstances justifying the adoption of a military working dog prior to the end of its useful life and to authorize the adoption of a military working dog by certain family members of a deceased or seriously wounded member of the armed forces who was the handler of the dog.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

*Prohibition on expansion of the Air Force food transformation initiative (sec. 352)*

The House bill contained a provision (sec. 352) that would prohibit the expansion of the Air Force food transformation initiative until 270 days after the Secretary of the Air Force reports to the congressional defense committees on the implementation and impact of the initiative.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would prohibit the expansion of the initiative until the Secretary submits the report, and simplifying the reporting requirement.

*Designation and limitation on obligation and expenditure of funds for the migration of Army enterprise email services (sec. 353)*

The House bill contained a provision (sec. 353) that would limit the obligation or expenditure of funds for the migration of Army enterprise email services until the Secretary of the Army delivers a report comparing the service provided by the Defense Information Systems Agency and the Army Knowledge Online system.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would designate the Army enterprise email services program a formal acquisition program under the oversight of the Army acquisition executive, and change the limitation from 2 percent of the funds to no funds. It also adds additional provisions to the report required to lift the limitation.

The conferees note their concern about the execution of the migration of Army enterprise email services, but also recognize that currently many Army users have already migrated to the new Defense Information Systems Agency-provided solution. The conferees interpret the existing legislative language to be a limitation only on funds for the continued migration of users and not for the sustainment and maintenance of those users already migrated.

*One-year extension of pilot program for availability of working-capital funds to Army for certain product improvements (sec. 354)*

The House bill contained a provision (sec. 354) that would extend section 330(f) of the National Defense Authorization Act for Fiscal Year 2008 (P.L. 110-181) by 1 year.

The Senate amendment contained no similar provision.

The Senate recedes.

Subtitle G—Other Matters

*Commercial sale of small arms ammunition and small arms ammunition components in excess of military requirements, and fired cartridge cases (sec. 361)*

The Senate amendment contained a similar provision (sec. 343) that would amend section 346 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) by making available for sale any small arms ammunition and small ammunition components which are in excess of military requirements.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees note that the intent of section 346 of Public Law 111-383, as amended, is to clarify that the only fired cartridge cases (referred to as expended small arms cartridge cases) subject to the provision are intact expended small arms cartridge cases and that the provision does not apply outside the continental United States or overrides established Department of Defense (DOD) trade security controls or explosives safety controls. The conferees note that the DOD would be permitted to demilitarize and recycle expended small arms cartridge cases covered by the provision so long as there is not a significant decrease in intact expended small arms cartridge cases being made available for sale and there is no evidence that commercial demands are not generally being met. The conferees note that based on its

current force structure and training requirements, the DOD currently makes approximately 6-8 million pounds of intact (non-demilitarized) expended small arms cartridge cases available each year for commercial sales. The conferees recognize that the amount made available may change as the DOD's force structure or training requirements change. The conferees note that the DOD would be responsible for assessing commercial demands for the purpose of implementing this requirement; the conferees understand that the DOD may choose to conduct market surveys or studies to assess commercial demands for this purpose.

*Comptroller General review on space-available travel on military aircraft (sec. 362)*

The Senate amendment contained a provision (sec. 346) that would add a new section 2641c to title 10, United States Code, that would codify the authority of the Secretary of Defense to establish a program to provide transportation to active and reserve members, retirees, dependents, and non-remarried widows of service members on Department of Defense aircraft on a space available basis and in a budget-neutral manner. The provision would also require a Comptroller General study on the Department's space-available travel program, including a review of the cost and capacity of the system and a discussion of logistical and management issues.

The House bill contained no similar provision.

The House recedes with an amendment that would strike the provisions concerning codification of the space available program, and would require the Comptroller General in his review to assess the effect on the cost and capacity of the program if the program were extended to un-remarried widows of active and reserve component members, and expanded for gray area retirees to include overseas travel.

*Authority to provide information for maritime safety of forces and hydrographic support (sec. 363)*

The House bill contained a provision (sec. 362) that would amend part IV of subtitle C of title 10, United States Code, to authorize the Secretary of the Navy to collect and share certain marine data and hydrographic information.

The Senate amendment contained an identical provision (sec. 1023).

The agreement includes this provision.

*Deposit of reimbursed funds under reciprocal fire protection agreements (sec. 364)*

The House bill contained a provision (sec. 363) that would, as requested by the Department of Defense (DOD), amend section 1856d(b) of title 42, United States Code, to ensure that reimbursements to the DOD under the Reciprocal Fire Protection Agreements (42 U.S.C. chapter 15A) do not expire and that the command which provides fire protection services in the event of an emergency is able to merge the reimbursed funds with those in the current appropriation, fund, or account, which is used for DOD fire protection services.

The Senate amendment contained an identical provision (sec. 1004).

The conference agreement includes this provision.

*Clarification of the airlift service definitions relative to the Civil Reserve Air Fleet (sec. 365)*

The House bill contained a provision (sec. 366) that would refine the definition of Civil Reserve Air Fleet aircraft.

The Senate amendment contained a similar provision (sec. 1045).

The Senate recedes.

*Ratemaking procedures for Civil Reserve Air Fleet contracts (sec. 366)*

The House bill contained a provision (sec. 367) that would clarify that contracts establishing rates for services provided by air carriers who are participants in the Civil Reserve Air Fleet (CRAF) program are not subject to the Truth in Negotiations Act (section 2306a of title 10, United States Code) or the Cost Accounting Standards (section 1502 of title 41, United States Code).

The Senate amendment contained a similar provision (sec. 883).

The Senate recedes.

*Policy on active shooter training for certain law enforcement personnel (sec. 367)*

The House bill contained a provision (sec. 369) that would require the Secretary of Defense to establish a policy and promulgate guidelines to ensure that civilian and military law enforcement personnel charged with security functions on military installations shall receive active shooter training as described in finding 4.3 of the document entitled, "Protecting the Force: Lessons from Fort Hood."

The Senate amendment contained no similar provision.

The Senate recedes.

*Procurement of tents or other temporary structures (sec. 368)*

The House bill contained a provision (sec. 146) that would require the Secretary of Defense to consider the total life cycle costs of tents or structures, including the costs associated with any equipment or fuel needed to heat or cool such tents or structures, when procuring tents or other temporary structures, and award contracts that provide best value to the United States.

The Senate amendment contained no similar provision.

The Senate recedes.

*Legislative Provisions Not Adopted*

*Consideration of energy security and reliability in development and implementation of energy performance goals*

The Senate amendment contained a provision (sec. 316) that would consider energy security and reliability in the development and implementation of energy performance goals.

The House bill contained no similar provision.

The Senate recedes.

*Limitation on revising the definition of depot-level maintenance*

The Senate amendment contained a provision (sec. 322) that would limit the Secretary of Defense on revising the definition, guidance, regulations, policy, and revisions of depot-level maintenance until receipt of a report prepared by the Defense Business Board.

The House bill contained no similar provision.

The Senate recedes.

*Redesignation of core competencies as core depot maintenance capabilities for Centers of Industrial and Technical Excellence*

The House bill contained a provision (sec. 324) that would amend section 2474 of title 10, United States Code, by modifying core competencies to core logistics capabilities.

The Senate amendment contained no similar provision.

The House recedes.

*Modification of report on maintenance and repair of vessels in foreign shipyards*

The House bill contained a provision (sec. 342) that would modify section 7310(c) of title

10, United States Code, to include reporting on vessels that are operated pursuant to a contract entered into by the Military Sealift Command, the Maritime Administration, or the U.S. Transportation Command.

The Senate amendment contained no similar provision.

The House recedes.

*Working-capital fund accounting*

The Senate amendment contained a provision (sec. 342) that would amend section 2208(k) of title 10, United States Code, to align the two separate dollar thresholds for procurement of capital assets.

The House bill contained no similar provision.

The Senate recedes.

The conferees continue to be concerned with an apparent disconnect in thresholds for capital assets between auditing standards and financial management regulations. The conferees note that while section 342 of the Senate amendment could resolve internal disconnects amongst financial enterprise systems, it would not comply with auditing standards.

Regardless, the conferees strongly urge the Department of Defense to continue to work to resolve this apparent disconnect.

*Modification of report on SEAD/DEAD mission requirements of the Air Force*

The House contained a provision (sec. 355) that would amend section 334 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383). Section 334 required a report on the suppression of enemy air defenses/destruction of enemy air defenses (SEAD/DEAD) mission requirements for the Air Force. Section 355 would have modified the due date for the report, and made other technical corrections.

The Senate contained no similar provision.

The House recedes.

The conferees received the SEAD/DEAD report, including a classified annex, in August, 2011, as would have been required by the modifications in section 355. The report addressed the feasibility and desirability of expanding the role of the Air National Guard in conducting the SEAD/DEAD mission and incorporated the suggested changes proposed in section 355.

*Limitation on obligation and expenditure of funds for migration of management of Air Force Enterprise Logistics Systems Program Executive Office pending cost-benefit analysis*

The House bill contained a provision (sec. 356) that would limit Air Force funds for the migration of the Air Force Enterprise Logistics Systems Program Executive Office subject to a cost-benefit analysis.

The Senate bill contained no similar provision.

The House recedes.

*Consideration of foreclosure circumstances in adjudication of security clearances*

The House bill contained a provision (sec. 361) that would require the Secretary of Defense to give special consideration during security clearance adjudications to service members with a foreclosure on the member's credit report.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that protections are already included in the December 29, 2005, Revised Adjudicative Guidelines for Determining Eligibility for Access to Classified Information. Guideline F of the Adjudicative Guidelines specifically addresses procedures

for financial considerations, to include foreclosures, as part of the security clearance review process. The conferees further note that this should help ensure that clearances are reviewed individually and personnel security clearances are not denied solely on financial circumstances that are beyond the individual's control.

*Reduction in amounts otherwise authorized to be appropriated to the Department of Defense for printing and reproduction*

The House bill contained a provision (sec. 364) that would decrease the operation and maintenance accounts of the military departments by 10 percent for printing and reproduction.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that the operation and maintenance accounts for printing and reproduction for the military departments were decreased by 10 percent in the section 4301 budget tables.

*Reduction in amounts otherwise authorized to be appropriated to the Department of Defense for studies, analysis, and evaluations*

The House bill contained a provision (sec. 365) that would decrease the operation and maintenance accounts of the military departments by 10 percent for studies, analysis, and evaluations.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that the operation and maintenance accounts for the military departments were decreased for studies, analysis, and evaluations by 10 percent in the section 4301 budget tables.

*Sense of Congress on proposed Federal Aviation Administration changes to flight crew member duty and rest requirements*

The House bill contained a provision (sec. 368) that would express the sense of Congress that, among other things, the Administrator of the Federal Aviation Administration (FAA), in consultation with the Commander of the United States Transportation Command (TRANSCOM), should develop guidelines that address not only crew fatigue, but also enhance safety while minimizing the impact on the mission of TRANSCOM and the Department of Defense.

The Senate amendment contained no similar provision. The Senate report (S. Rept. 112-26) accompanying the National Defense Authorization Act for Fiscal Year 2012 (S. 1253) would direct the Commander of TRANSCOM to provide a report to the appropriate committees of Congress assessing, among other things, the potential effects of the proposed rulemaking by the FAA on TRANSCOM operations and what steps are available to TRANSCOM and other government agencies who rely on Civil Reserve Air Fleet support to mitigate the effects of a potential FAA rule making.

The House recedes.

The conferees agree that the Department of Defense should conduct an assessment as

outlined in the Senate report, but that the Secretary should decide on how to produce the report, including perhaps relying on an independent analysis group to lead that effort.

*Assistance for homeland defense mission training*

The House bill contained a provision (sec. 370) that would authorize the Department of Defense to provide funding assistance for the operation and maintenance of training facilities capable of providing emergency response training.

The Senate amendment contained no similar provision.

The House recedes.

TITLE IV—MILITARY PERSONNEL  
AUTHORIZATIONS

Subtitle A—Active Forces

*End strengths for active forces (sec. 401)*

The House bill contained a provision (sec. 401) that would authorize the following end strengths for active-duty personnel of the armed forces as of September 30, 2012: Army, 562,000; Navy, 325,739; Marine Corps, 202,100; and Air Force, 332,800.

The Senate amendment contained a similar provision (sec. 401) that would authorize active-duty end strength for the Navy of 325,700.

The House recedes.

End strength levels for the active forces for fiscal year 2012 are set forth in the following table:

Service	FY 2011 authorized	FY 2012		Change from	
		Request	Recommendation	FY 2012 request	FY 2011 authorized
Army .....	569,400	562,000	562,000	0	–7,400
Navy .....	328,700	325,700	325,700	0	–3,000
Marine Corps .....	202,100	202,100	202,100	0	0
Air Force .....	332,200	332,800	332,800	0	600
DOD Total .....	1,432,400	1,422,600	1,422,600	0	–9,800

*Revision in permanent active duty end strength minimum levels (sec. 402)*

The House bill contained a provision (sec. 402) that would establish the following minimum end strengths for active-duty personnel as of September 30, 2012: Army, 562,000; Navy, 325,739; Marine Corps, 202,100; and Air Force 332,800.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would establish minimum active-duty end strengths for the Army of 547,400 and for the Navy of 325,700.

Minimum end strength levels for active-duty personnel for fiscal year 2012 are set forth in the following table:

Service	FY 2011 authorized	FY 2012		Change from FY 2011
		Recommendation		
Army .....	547,400	547,400		0
Navy .....	324,300	325,700		1,400
Marine Corps .....	202,100	202,100		0
Air Force .....	332,200	332,800		600
DOD Total .....	1,406,000	1,408,000		2,000

Subtitle B—Reserve Forces

*End strengths for Selected Reserve (sec. 411)*

The House bill contained a provision (sec. 411) that would authorize the following end strengths for Selected Reserve personnel, including the end strengths for reserves on ac-

tive duty in support of the reserves, as of September 30, 2012: the Army National Guard of the United States, 358,200; the Army Reserve, 205,000; the Navy Reserve, 66,200; the Marine Corps Reserve, 39,600; the Air National Guard of the United States, 106,700; the Air Force Reserve, 71,400; and the Coast Guard Reserve, 10,000.

The Senate amendment contained an identical provision (sec. 411).

The conference agreement includes this provision.

End strength levels for the Selected Reserve for fiscal year 2012 are set forth in the following table:

Service	FY 2011 authorized	FY 2012		Change from	
		Request	Recommendation	FY 2012 request	FY 2011 authorized
Army National Guard .....	358,200	358,200	358,200	0	0
Army Reserve .....	205,000	205,000	205,000	0	0
Navy Reserve .....	65,500	66,200	66,200	0	700
Marine Corps Reserve .....	39,600	39,600	39,600	0	0
Air National Guard .....	106,700	106,700	106,700	0	0
Air Force Reserve .....	71,200	71,400	71,400	0	200
DOD Total .....	846,200	847,100	847,100	0	900
Coast Guard Reserve .....	10,000	10,000	10,000	0	0

*End strengths for reserves on active duty in support of the reserves (sec. 412)*

The House bill contained a provision (sec. 412) that would authorize the following end strengths for reserves on active duty in sup-

port of the reserve components as of September 30, 2012: the Army National Guard of the United States, 32,060; the Army Reserve, 16,261; the Navy Reserve, 10,337; the Marine Corps Reserve, 2,261; the Air National Guard

of the United States, 14,833; and the Air Force Reserve, 2,662.

The Senate amendment contained a similar provision (sec. 412) that would authorize end strengths for the Navy Reserve of 10,688;

the Air National Guard of the United States of 14,584; and the Air Force Reserve of 2,992. The Senate recedes.

End strength levels for reserves on active duty in support of the reserves for fiscal year 2012 are set forth in the following table:

Service	FY 2011 authorized	FY 2012		Change from	
		Request	Recommendation	FY 2012 request	FY 2011 authorized
Army National Guard .....	32,060	32,060	32,060	0	0
Army Reserve .....	16,261	16,261	16,261	0	0
Navy Reserve .....	10,688	10,337	10,337	0	-351
Marine Corps Reserve .....	2,261	2,261	2,261	0	0
Air National Guard .....	14,584	14,833	14,833	0	249
Air Force Reserve .....	2,992	2,662	2,662	0	-330
DOD Total .....	78,846	78,414	78,414	0	-432

*End strengths for military technicians (dual status) (sec. 413)*

The House bill contained a provision (sec. 413) that would authorize the following end strengths for military technicians (dual status) as of September 30, 2012: the Army Reserve, 8,395; the Army National Guard of the

United States, 27,210; the Air Force Reserve, 10,777; and the Air National Guard of the United States, 22,509.

The Senate amendment contained a similar provision (sec. 413) that would authorize end strengths for military technicians (dual status) for the Air Force Reserve of 10,720

and for the Air National Guard of the United States of 22,394.

The Senate recedes.

End strength levels for military technicians (dual status) for fiscal year 2012 are set forth in the following table:

Service	FY 2011 authorized	FY 2012		Change from	
		Request	Recommendation	FY 2012 request	FY 2011 authorized
Army Reserve .....	8,395	8,395	8,395	0	0
Army National Guard .....	27,210	27,210	27,210	0	0
Air Force Reserve .....	10,720	10,777	10,777	0	57
Air National Guard .....	22,394	22,509	22,509	0	115
DOD Total .....	68,719	68,891	68,891	0	172

*Fiscal year 2012 limitation on number of non-dual status technicians (sec. 414)*

The House bill contained a provision (sec. 414) that would establish the following personnel limits for the reserve components of the Army and Air Force for non-dual status

technicians as of September 30, 2012: the Army National Guard of the United States, 1,600; the Air National Guard of the United States, 350; the Army Reserve, 595; and the Air Force Reserve, 90.

The Senate amendment contained an identical provision (sec. 414).

The conference agreement includes this provision.

Personnel limitations for non-dual status technicians for fiscal year 2012 are set forth in the following table:

Service	FY 2011 authorized	FY 2012		Change from	
		Request	Recommendation	FY 2012 request	FY 2011 authorized
Army National Guard .....	1,600	1,600	1,600	0	0
Air National Guard .....	350	350	350	0	0
Army Reserve .....	595	595	595	0	0
Air Force Reserve .....	90	90	90	0	0
DOD Total .....	2,635	2,635	2,635	0	0

*Maximum number of reserve personnel authorized to be on active duty for operational support (sec. 415)*

The House bill contained a provision (sec. 415) that would authorize the maximum number of reserve component personnel who may be on active duty or full-time National

Guard duty under section 115(b) of title 10, United States Code, during fiscal year 2012 to provide operational support.

The Senate amendment contained an identical provision (sec. 415).

The conference agreement includes the provision.

The maximum number of reserve component personnel who may be on active duty or full-time National Guard duty under section 115(b) of title 10, United States Code, during fiscal year 2012 is set forth in the following table:

Service	FY 2011 authorized	FY 2012		Change from	
		Request	Recommendation	FY 2012 request	FY 2011 authorized
Army National Guard .....	17,000	17,000	17,000	0	0
Army Reserve .....	13,000	13,000	13,000	0	0
Navy Reserve .....	6,200	6,200	6,200	0	0
Marine Corps Reserve .....	3,000	3,000	3,000	0	0
Air National Guard .....	16,000	16,000	16,000	0	0
Air Force Reserve .....	14,000	14,000	14,000	0	0
DOD Total .....	69,200	69,200	69,200	0	0

#### Subtitle C—Authorization of Appropriations

##### Military personnel (sec. 421)

The House bill contained a provision (sec. 421) that would authorize appropriations for military personnel.

The Senate amendment contained a similar provision (sec. 421).

The Senate recedes.

#### TITLE V—MILITARY PERSONNEL POLICY

##### Subtitle A—Officer Personnel Policy

*Increase in authorized strengths for Marine Corps officers on active duty in grades of major, lieutenant colonel, and colonel (sec. 501)*

The House bill contained a provision (sec. 501) that would amend section 523(a)(1) of

title 10, United States Code, to increase the grade strength limitations for active-duty Marine Corps officers in the grade of major, lieutenant colonel, and colonel to enable the Marine Corps to shape its force to meet current and future manpower requirements.

The Senate amendment contained a similar provision (sec. 501).

The Senate recedes.

*General officer and flag officer reform (sec. 502)*

The House bill contained a provision (sec. 502) that would eliminate 14 authorizations for general and flag officers in joint duty assignments, add up to 7 officers serving in intelligence positions to count against the joint duty assignment limit, eliminate 11 Air Force general officer authorizations, and require that the superintendents of the service academies be counted against their respective service's general and flag officer limits.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would amend sections 525 and 526 of title 10, United States Code, to increase the numbers of general and flag officers on active duty to include the additional general and flag officers that will now be counted against their respective service's general and flag officer limits.

*National Defense University outplacement waiver (sec. 503)*

The Senate amendment contained a provision (sec. 503) that would amend section 663 of title 10, United States Code, to authorize the Secretary of Defense, in an individual case, to assign a graduate of the National Defense University who is not designated as a joint qualified officer to a joint assignment other than a joint duty assignment. The provision would also exclude from the requirement to be assigned to a joint duty assignment after graduation those joint qualified officers and other officers who graduate from a school within the National Defense University following pursuit of a program on an other-than-in-residence basis.

The House bill contained no similar provision.

The House recedes.

*Voluntary retirement incentive matters (sec. 504)*

The Senate amendment contained a provision (sec. 502) that would amend chapter 36 of title 10, United States Code, to authorize a voluntary retirement incentive payment of up to 12 times an officer's monthly basic pay to certain officers with between 20 and 29 years of active-duty service. This authority, which was requested by the Department of Defense, would expire not later than December 31, 2018, and would be used to reduce end strength in a responsible manner during the planned force drawdown.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the voluntary retirement incentive to no more than 675 members through the expiration of the authority on December 31, 2018. The amendment would also reinstate temporary early retirement authority contained in section 4403 of the National Defense Authorization Act for Fiscal Year 1993 (Public Law 102-484) for the military services, effective until December 31, 2018.

Subtitle B—Reserve Component  
Management

*Leadership of National Guard Bureau (sec. 511)*

The House bill contained a provision (sec. 511) that would amend section 10502 of title 10, United States Code, to require the Secretary of Defense to designate the positions of the Chief of the National Guard Bureau and the Vice Chief of the National Guard Bureau as positions to be excluded from the limitation on the number of general and flag officers on active duty and from general officer distribution limits under sections 525 and 526 of title 10, United States Code; establish an order of succession for a vacancy in the office of the Chief of the National Guard Bu-

reau; and redesignate the position of the Director of the Joint Staff of the National Guard Bureau as Vice Chief of the National Guard Bureau.

The Senate amendment contained a provision (sec. 1602) that would redesignate the position of the Director of the Joint Staff of the National Guard Bureau as Vice Chief of the National Guard Bureau.

The Senate recedes with a clarifying amendment.

*Membership of the Chief of the National Guard Bureau on the Joint Chiefs of Staff (sec. 512)*

The House bill contained a provision (sec. 515) that would amend section 10502 of title 10, United States Code, to require the Chief of the National Guard Bureau to serve as an advocate and liaison for state National Guards, and would amend section 151 of title 10, United States Code, to include the Chief of the National Guard Bureau as a member of the Joint Chiefs of Staff.

The Senate amendment contained a provision that would amend section 151 of title 10, United States Code, to include the Chief of the National Guard Bureau as a member of the Joint Chiefs of Staff.

The House recedes with an amendment that would amend section 10502 of title 10, United States Code, to provide that, as a member of the Joint Chiefs of Staff, the Chief of the National Guard Bureau has the specific responsibility of addressing matters involving non-Federalized National Guard forces in support of homeland defense and civil support missions.

*Modification of time in which prepreparation counseling must be provided to reserve component members being demobilized (sec. 513)*

The House bill contained a provision (sec. 512) that would amend section 1142 of title 10, United States Code, to require that individual prepreparation counseling be made available to members of the reserve component and to authorize commencement of prepreparation counseling for demobilizing members of a reserve component less than 90 days before the projected date of discharge or release from active duty when operational requirements make it unfeasible to do so at an earlier date.

The Senate amendment contained a similar provision (sec. 513).

The House recedes.

The conferees believe the existing authority in 1142(a)(1) of title 10, United States Code, includes members of the reserve component who have an anticipated separation date and does not need to be further modified. The committee recommends that the Secretary of Defense clarify in policy the availability of prepreparation counseling to members of the reserve component.

*Clarification of applicability of authority for deferral of mandatory separation of military technicians (dual status) until age 60 (sec. 514)*

The House bill contained a provision (sec. 513) that would amend section 10216(f) of title 10, United States Code, to clarify that the Secretary of the Army and the Secretary of the Air Force may allow a military technician (dual status) to continue serving beyond their mandatory separation date until the technician reaches the age of 60 and becomes eligible for an unreduced civilian annuity, if they otherwise continue to meet the requirements for dual status. Under current law, the Secretaries are required to allow such continued service. The provision would also amend section 10216(f) to clarify that it applies to both officers and enlisted technicians.

The Senate amendment contained no similar provision.

The Senate recedes.

*Authority to order Army Reserve, Navy Reserve, Marine Corps Reserve, and Air Force Reserve to active duty to provide assistance in response to a major disaster or emergency (sec. 515)*

The Senate amendment contained a provision (sec. 515) that would amend chapter 1209 of title 10, United States Code, to authorize the Secretary of Defense, without the consent of the member affected, to order any unit, and any member not assigned to a unit organized to serve as a unit, of the Army Reserve, Navy Reserve, Marine Corps Reserve, and Air Force Reserve to active duty for a continuous period of not more than 120 days in response to a Governor's request for Federal assistance in responding to a major disaster or emergency.

The House bill contained no similar provision.

The House recedes.

*Authority for order to active duty of units of the Selected Reserve for preplanned missions in support of the combatant commands (sec. 516)*

The Senate amendment contained a provision (sec. 511) that would amend chapter 1209 of title 10, United States Code, to authorize the secretary of a military department to order units, and certain members of the Selected Reserve or the Individual Ready Reserve, without the consent of the members concerned, to active duty for not more than 365 consecutive days for preplanned missions. The service secretaries would be authorized to exercise this authority only if the manpower and associated costs of the active duty and a description of the mission are included in the budget materials covering the fiscal year or years in which the units or members are anticipated to be ordered to active duty. No more than 60,000 reserve component members may be on active duty under this authority at any one time.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the secretary of a military department to order units, and certain members of the Selected Reserve or the Individual Ready Reserve, without the consent of the members concerned, to active duty for not more than 365 consecutive days for preplanned missions in support of a combatant command.

*Modification of eligibility for consideration for promotion for reserve officers employed as military technicians (dual status) (sec. 517)*

The House bill contained a provision (sec. 514) that would amend section 14301 of title 10, United States Code, to clarify that reserve officers employed as military technicians (dual status) who have been retained beyond their mandatory removal date for years of service under either section 10216(f) or 14702(a)(2) of title 10, United States Code, are not eligible for consideration for promotion by a mandatory promotion board convened under section 14101(a) of title 10, United States Code.

The Senate amendment contained a similar provision (sec. 512).

The Senate recedes.

*Consideration of reserve component officers in appointments to certain command positions (sec. 518)*

The Senate amendment contained a provision (sec. 1608) that would require the officer serving in the position of Commander, Army

North Command shall be an officer in the Army National Guard and the officer serving in the position of Commander, Air Force North Command shall be an officer in the Air National Guard.

The House bill contained no similar provision.

The House recedes with an amendment that would require that whenever officers of the Armed Forces are considered for appointment to the position of Commander, Army North Command or Commander, Air Force North Command, fully qualified officers of the National Guard and the Reserves shall be considered for appointment to such position.

*Report on termination of military technician as a distinct personnel management category (sec. 519)*

The Senate amendment contained a provision (sec. 514) that would direct the Secretary of Defense to conduct an independent study of the feasibility and advisability of terminating the military technician program as a personnel management category and to report to the congressional defense committees on this study, including any recommendations for statutory or administrative change, no later than 1 year after the date of enactment of this Act.

The House bill contained no similar amendment.

The House recedes.

Subtitle C—General Service Authorities

*Sense of Congress on the unique nature, demands, and hardships of military service (sec. 521)*

The House bill contained a provision (sec. 521) that would amend chapter 37 of title 10, United States Code, to codify findings regarding the unique nature, demands, and hardships of military service.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express the sense of Congress regarding the unique nature, demands, and hardships of military service.

*Policy addressing dwell time and measurement and data collection regarding unit operating tempo and personnel tempo (sec. 522)*

The House bill contained a provision (sec. 522) that would amend section 991 of title 10, United States Code, to require the Secretary of Defense to prescribe a policy addressing dwell time for members of the armed forces. The provision would also require the Secretary to establish a system for tracking and recording the number of days each service member is deployed, prescribe policies and procedures for measuring operations tempo and personnel tempo, and maintain a central data collection repository to provide information for research, analysis, interagency reporting, and evaluation of programs and policies.

The Senate amendment contained no similar provision.

The House recedes.

*Protected communications by members of the armed forces and prohibition of retaliatory personnel actions (sec. 523)*

The House bill contained a provision (sec. 530) that would extend whistleblower protection to certain communications to a member of Congress, an inspector general, a member of a Department of Defense audit, inspection, investigation, or law enforcement organization of ideologically based threats or actions.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would extend this protection against re-

taliatory personnel actions to a member of the armed force who complains of, or discloses information that the member reasonably believes constitutes evidence of a threat by a member of the armed forces or employee of the Federal Government that indicates a determination or intent to kill or cause serious bodily injury to members of the armed forces or civilians or damage to military, federal, or civilian property.

*Notification requirement for determination made in response to review of proposal for award of Medal of Honor not previously submitted in timely fashion (sec. 524)*

The House bill contained a provision (sec. 532) that would amend section 1130 of title 10, United States Code, to require that the Secretary of Defense submit the rationale regarding a favorable recommendation on a request for a review of a proposal for the award of the Medal of Honor to the Committees on Armed Services of the Senate and the House of Representatives and to the Member of Congress who requested the review.

The Senate amendment contained no similar provision.

The Senate recedes.

*Expansion of regular enlisted members covered by early discharge authority (sec. 525)*

The Senate amendment contained a provision (sec. 523) that would amend section 1171 of title 10, United States Code, to expand from 3 months to 1 year the period prior to the expiration of an enlistment term during which a service member may be discharged without loss of benefits. The member would not be entitled to pay and allowances for the period not served. This authority, which was requested by the Department of Defense, would be used to reduce end strength in a responsible manner during the planned force drawdown.

The House bill contained no similar provision.

The House recedes.

*Extension of voluntary separation pay and benefits authority (sec. 526)*

The Senate amendment contained a provision (sec. 524) that would amend section 1175a of title 10, United States Code, to extend until December 31, 2018, the authority to provide voluntary separation pay and benefits to eligible members of the armed forces who are voluntarily separated from active duty. This authority, which was requested by the Department of Defense, would be used to reduce end strength in a responsible manner during the planned force drawdown.

The House bill contained no similar provision.

The House recedes with a technical amendment.

*Prohibition on denial of reenlistment of members for unsuitability based on the same medical condition for which they were determined to be fit for duty (sec. 527)*

The Senate amendment contained a provision (sec. 522) that would amend section 1214a of title 10, United States Code, to prohibit the denial of reenlistment of a service member who has been determined by a Physical Evaluation Board (PEB) to be fit for duty based on a subsequent administrative determination that the member is unsuitable for deployment or worldwide assignment based on the same medical condition that was considered by the PEB.

The House bill contained no similar provision.

The House recedes.

*Designation of persons authorized to direct disposition of remains of members of the armed forces (sec. 528)*

The House bill contained a provision (sec. 529) that would include among the individuals authorized to direct the disposition of remains of a deceased service member the individual identified by the decedent on the record of emergency data maintained by the service secretary, regardless of the relationship of the designee to the decedent.

The Senate amendment contained no similar provision.

The Senate recedes.

*Matters covered by preseparation counseling for members of the Armed Forces and their spouses (sec. 529)*

The House bill contained a provision (sec. 578) that would amend section 1142(b) of title 10, United States Code, to authorize inclusion of a service member's spouse during certain segments of preseparation counseling and require that additional topics be included in preseparation counseling.

The Senate amendment contained no similar provision.

The Senate recedes.

*Conversion of high-deployment allowance from mandatory to authorized (sec. 530)*

The Senate amendment contained a provision (sec. 521) that would repeal the authority and requirement to pay the high-deployment allowance under section 436 of title 37, United States Code.

The House bill contained no similar provision.

The House recedes with an amendment that would retain the statutory authority regarding the high-deployment allowance, but would make it permissive rather than mandatory.

*Extension of authority to conduct programs on career flexibility to enhance retention of members of the armed forces (sec. 531)*

The House bill contained a provision (sec. 524) that would extend for 3 years the authority to conduct programs on career flexibility to enhance retention of service members under section 533 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417).

The Senate amendment contained no similar provision.

The Senate recedes.

*Policy on military recruitment and enlistment of graduates of secondary schools (sec. 532)*

The House bill contained a provision (sec. 525) that would require service secretaries to treat graduates who receive diplomas from secondary schools that are legally operating or who otherwise complete a program of secondary education in compliance with the laws of the State in which the graduates reside in the same manner as graduates of secondary schools as defined by section 9101(38) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801(38)) for purposes of recruitment and enlistment in the armed forces.

The Senate amendment contained a similar provision (sec. 526).

The House recedes.

*Department of Defense Suicide Prevention Program (sec. 533)*

The House bill contained a provision (sec. 528) that would require the Secretary of Defense to take appropriate actions to enhance the suicide prevention program of the Department of Defense through the provision of suicide prevention information and resources to members of the armed forces from their initial enlistment or appointment through

their final retirement or separation and develop suicide prevention information in cooperation with public and private entities. The provision also prescribed elements of suicide prevention training during recruit basic training for each military service.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would delete basic recruit training elements and amend section 1142 of title 10, United States Code, to include in pre-separation counseling the availability to the member and dependents of suicide prevention resources following separation from the armed forces.

#### Subtitle D—Military Justice and Legal Matters

##### *Reform of offenses relating to rape, sexual assault, and other sexual misconduct under the Uniform Code of Military Justice (sec. 541)*

The Senate amendment contained a provision (sec. 551) that would amend section 920 of title 10, United States Code (Article 120 of the Uniform Code of Military Justice (UCMJ)), to separate Article 120, UCMJ, into three separate articles applying to the offenses of rape and sexual assault, sexual offenses against children; and other non-consensual sexual misconduct offenses. The provision would also repeal section 125 of title 10, United States Code (Article 125 of the UCMJ), the offense of sodomy.

The House bill contained no similar provision.

The House recedes with an amendment that would delete the repeal of section 125 of title 10, United States Code (Article 125 of the UCMJ).

##### *Authority to compel production of documentary evidence (sec. 542)*

The Senate amendment contained a provision (sec. 552) that would amend section 847 of title 10, United States Code, to authorize subpoenas duces tecum to compel production of documents and other tangible evidence for an investigation, including an investigation pursuant to article 32(b) of the Uniform Code of Military Justice (10 U.S.C. 832(b)), consistent with other federal criminal court practice.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize subpoenas duces tecum to compel production of documents and other tangible evidence for an investigation pursuant to article 32(b) of the Uniform Code of Military Justice (10 U.S.C. 832(b)), require that individuals who receive a subpoena must be provided a means for reimbursement for fees and mileage, and authorize military convening authorities to certify facts to United States attorneys under the provision. *Clarification of application and extent of direct acceptance of gifts authority (sec. 543)*

The House bill contained a provision (sec. 532) that would expand eligibility to accept gifts to members of the armed forces who incur an injury or illness on or after September 11, 2001, in an operation or area designated as a combat operation or a combat zone.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would authorize the acceptance of gifts received after the date of enactment of the National Defense Authorization Act for Fiscal Year 2012 for injuries or illnesses incurred on or after September 11, 2001.

##### *Freedom of conscience of military chaplains with respect to the performance of marriages (sec. 544)*

The Senate amendment contained a provision (sec. 527) that would provide that a military chaplain who, as a matter of conscience or moral principle, does not wish to perform a marriage may not be required to do so.

The House bill contained no similar provision.

The House recedes.

#### Subtitle E—Member Education and Training Opportunities and Administration

##### *Employment skills training for members of the armed forces on active duty who are transitioning to civilian life (sec. 551)*

The House bill contained a provision (sec. 541) that would amend section 1143 of title 10, United States Code, to allow the secretary concerned to permit a member of the armed forces to participate in an apprenticeship program that provides employment skills training and assists them in transitioning into new careers in civilian life.

The Senate amendment contained a similar provision (sec. 525).

The House recedes with a clarifying amendment.

##### *Enhancement of authorities on joint professional military education (sec. 552)*

The Senate amendment contained a provision (sec. 541) that would amend sections 2151 and 2154 of title 10, United States Code, to authorize graduates of the National Defense Intelligence College to receive credit for completion of joint professional military education Phase I. The provision would also eliminate the requirement that the curriculum for Phase II instruction at the Joint Forces Staff College be taught only in residence.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the Secretary of Defense to carry out a pilot program to assess the feasibility and advisability of offering a program of instruction for Phase II joint professional military education on an other than in-residence basis.

##### *Temporary authority to waive maximum age limitation on admission to the military service academies (sec. 553)*

The House bill contained a provision (sec. 545) that would authorize the secretary of a military department to waive the maximum age limitation for admission to a military service academy from age 23 to age 26 for an otherwise qualified enlisted service member who was prevented from being admitted before reaching the maximum age as a result of service in a theater of operation for Operation Iraqi Freedom, Operation Enduring Freedom, or Operation New Dawn; and for candidates with an exceptional record that sets them apart from other candidates.

The Senate amendment contained a similar provision (sec. 546) that applied only to enlisted service members who otherwise meet the eligibility requirements for admission to an academy, and who were prevented from being admitted before reaching the maximum age as a result of service on active duty in a theater of operations for Operation Iraqi Freedom, Operation Enduring Freedom, or Operation New Dawn.

The House recedes.

##### *Enhancement of administration of the United States Air Force Institute of Technology (sec. 554)*

The House bill contained a provision (sec. 543) that would amend chapter 901 of title 10,

United States Code, by adding a new section establishing a position of Commandant of the United States Air Force Institute of Technology who is either an active-duty officer of the Air Force in a grade not below the grade of colonel or a civilian who was retired from the Air Force in the grade not below the grade of brigadier general. This section would also establish a position of Provost and Academic Dean at the United States Air Force Institute of Technology.

The Senate amendment contained a similar provision (sec. 904) that would require that the Commandant either be an active-duty Air Force officer not below the grade of colonel, a member of the Senior Executive Service, or a civilian individual, including an Air Force officer who retired in a grade not below brigadier general, selected by the Secretary of the Air Force.

The House recedes.

##### *Enrollment of certain seriously wounded, ill, or injured former or retired enlisted members of the armed forces in associate degree programs of the Community College of the Air Force in order to complete degree program (sec. 555)*

The Senate amendment contained a provision (sec. 544) that would amend section 9315 of title 10, United States Code, to authorize the Secretary of the Air Force to allow continued participation in associate degree programs of the Community College of the Air Force (CCAF) by former or retired enlisted service members who had commenced but not completed a program of higher education at the CCAF at the time of their separation from active duty, and who have been categorized as seriously wounded, ill, or injured, by their service secretary.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

##### *Reserve component mental health stipend (sec. 556)*

The House bill contained a provision (sec. 542) that would amend section 16201 of title 10, United States Code, to authorize the secretaries of the military departments to pay a stipend to qualified individuals who agree to be appointed as an officer in a reserve component, and who are pursuing or will pursue a course of study leading to a degree in clinical psychology or social work in exchange for a service commitment of 1 year for every 6 months or portion thereof of stipend received.

The Senate amendment contained a similar provision (sec. 543).

The House recedes with an amendment that would require recipients of the stipend under this authority to agree to serve in the Selected Reserve.

##### *Fiscal year 2012 administration and report on the Troops-to-Teachers Program (sec. 557)*

The House bill contained a provision (sec. 548) that would transfer the responsibility and authority for operation and administration of the Troops-to-Teachers Program from the Secretary of Education to the Secretary of Defense.

The Senate amendment contained a provision (sec. 1048) that would authorize the Secretary of Defense to administer and fund the Troops-to-Teachers Program during fiscal year 2012 and require the Secretary of Defense and the Secretary of Education to report to Congress no later than April 1, 2012, on the funding of the program; the number of past participants who have fulfilled, and who have not fulfilled, their service obligation under the program; the impact of state and

local budget shortfalls on employing program participants; the program's effectiveness as a transition assistance program; its success in placing teachers in qualified schools and rationale for expanding the program to additional school districts, and an assessment of the advisability of the administration of the program by the Department of Education in consultation with the Department of Defense.

The House recedes.

*Pilot program on receipt of civilian credentialing for skills required for military occupational specialties (sec. 558)*

The Senate amendment contained a provision (sec. 547) that would require the Secretary of Defense to carry out a pilot program to assess the feasibility and advisability of permitting enlisted members of the armed forces to obtain civilian credentialing or licensing for skills required for military occupational specialties or qualification for duty specialty codes.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary to complete the pilot program not later than 5 years after the date of the commencement of the pilot program.

The conferees encourage the Secretary to include an assessment of the feasibility of obtaining a commercial driver's license as an element of the pilot program.

*Report on certain education assistance programs (sec. 559)*

The House bill contained a provision (sec. 547) that would require the Secretary of Defense to submit to the Committees on Armed Services of the Senate and House of Representatives a report on methods to increase the efficiency of the tuition assistance program under section 2007 of title 10, United States Code, including a description of the effect of the program on recruiting and retention; an analysis of other programs that provide similar benefits, particularly the programs under chapters 30 and 33 of title 38, United States Code; and a description of the impact of modifying the tuition assistance program to require service members to pay a portion of their educational costs.

The Senate amendment contained no similar provision.

The House recedes with an amendment that would expand the report to include the program of education assistance for spouses of service members under section 1784a of title 10, United States Code. The amendment would also require a description of the costs of these programs, including certain information from institutions receiving funds under these programs in fiscal years 2009, 2010, and 2011. Finally, the amendment would require the report to include an assessment of the feasibility and desirability of requiring institutions of higher learning to make available to the Department of Defense and prospective beneficiaries certain information concerning their programs as a requirement to participation in the Department's education assistance programs.

*Subtitle F—Armed Forces Retirement Home Control and administration by Secretary of Defense (sec. 561)*

The House bill contained a provision (sec. 561) that would establish that the administration of the Armed Forces Retirement Home, to include the provision of health care and medical care for the residents, is a responsibility of the Secretary of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

*Senior Medical Advisor oversight of health care provided to residents of Armed Forces Retirement Home (sec. 562)*

The House bill contained a provision (sec. 562) that would clarify the oversight responsibilities and reporting requirements of the Senior Medical Advisor with regard to the health care provided to the residents of the Armed Forces Retirement Home.

The Senate amendment contained a similar provision (sec. 1424).

The Senate recedes.

*Establishment of Armed Forces Retirement Home Advisory Council and Resident Advisory Committees (sec. 563)*

The House bill contained a provision (sec. 563) that would establish one Armed Forces Retirement Home Advisory Council, replacing the local boards established for each of the two facilities of the Armed Forces Retirement Home.

The Senate amendment contained a similar provision (sec. 1425).

The Senate recedes with a clarifying amendment.

*Administrators, ombudsmen, and staff of facilities (sec. 564)*

The House bill contained a provision (sec. 564) that would establish the positions of administrators and ombudsmen in each facility of the Armed Forces Retirement Home.

The Senate amendment contained a similar provision (sec. 1426).

The Senate recedes.

*Revision of fee requirements (sec. 565)*

The House bill contained a provision (sec. 565) that would repeal the obsolete transitional fee requirements for the Armed Forces Retirement Home and establish permanent fee requirements.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Chief Operating Officer with the approval of the Secretary of Defense, to prescribe monthly fees.

*Revision of inspection requirements (sec. 566)*

The House bill contained a provision (sec. 566) that would require the Inspector General of the Department of Defense to conduct a comprehensive inspection of each facility of the Armed Forces Retirement Home not less often than every 3 years. This section also would require that the Inspector General report to Congress and the Secretary of Defense include a plan by the Chief Operating Officer to address recommendations contained in the report.

The Senate amendment contained a similar provision (sec. 1427).

The Senate recedes.

*Repeal of obsolete transitional provisions and technical conforming, and clerical amendments (sec. 567)*

The House bill contained a provision (sec. 567) that would make technical corrections and repeal obsolete transitional provisions in the Armed Forces Retirement Home Act of 1991 (title XV of Public Law 101-510).

The Senate amendment contained similar provisions (sec. 1428 and 1429).

The Senate recedes.

*Subtitle G—Defense Dependents' Education and Military Family Readiness Matters  
Impact aid for children with disabilities (sec. 571)*

The Senate amendment contained a provision (sec. 572) that would authorize \$5.0 million in Operation and Maintenance, Defense-wide, for impact aid payments for children

with disabilities under section 8003(d) of the Elementary and Secondary Education Act of 1965 (20 USC 7703(d)), using the formula set forth in section 363 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106-398), for continuation of the Department of Defense's assistance to local educational agencies that benefit dependents with severe disabilities.

The House bill contained no similar provision.

The House recedes.

*Continuation of authority to assist local educational agencies that benefit dependents of member of the armed forces and Department of Defense civilian employees (sec. 572)*

The House bill contained a provision (sec. 572) that would authorize \$30.0 million for continuation of the Department of Defense (DOD) assistance program to local educational agencies that are impacted by the enrollment of dependent children of military members and DOD civilian employees. The provision would also authorize \$10.0 million for assistance to local educational agencies with significant changes in enrollment of school-aged dependents of military members and civilian employees due to base closures, force structure changes, or force relocations.

The Senate amendment contained a provision (sec. 571) that would authorize \$25.0 million for the assistance program to local educational agencies impacted by the enrollment of dependent children of military members and civilian employees.

The Senate recedes.

*Three-year extension and enhancement of authorities on transition of military dependent students among local educational agencies (sec. 573)*

The Senate amendment contained a provision (sec. 573) that would amend paragraph (2)(B) of section 574(d) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) to modify the authority for the Secretary of Defense to provide grant assistance to local educational agencies to ease the transition of military dependent students from Department of Defense schools to other schools and among schools of local educational agencies. The provision would also extend this authority until September 30, 2016.

The House bill contained no similar provision.

The House recedes.

*Revision to membership of Department of Defense Military Family Readiness Council (sec. 574)*

The House bill contained a provision (sec. 571) that would amend section 1781a of title 10, United States Code, to revise the membership of the Department of Defense Military Family Readiness Council to include family members, including parents, of members of the military services and members of the reserve component.

The Senate amendment contained a similar provision (sec. 576).

The Senate recedes.

The conferees are disappointed that as of December 9, 2011, the Department of Defense Military Family Readiness Council has not met in nearly a year. Congress required establishment of the council in the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181) for the purpose of assessing the effectiveness of military family programs and making recommendations to the Secretary on family policies and programs of the Department. The conferees expect the council to meet not less often than twice each year, as required by law, and that

not more than one of these meetings will be in the National Capitol Region.

*Reemployment rights following certain National Guard duty (sec. 575)*

The Senate amendment contained a provision (sec. 1093) that would provide rights under the Uniformed Services Employment and Reemployment Rights Act (Public Law 103-353) to National Guard service under section 502(f) of title 32, United States Code, when such service was authorized by the President or Secretary of Defense for the purpose of responding to a national emergency declared by the President and supported by federal funds.

The House bill contained no similar provision.

The House recedes with a technical amendment.

*Expansion of Operation Hero Miles (sec. 576)*

The Senate amendment contained a provision (sec. 1049) that would amend section 2613 of title 10, United States Code, to include points or awards for free or reduced accommodations at hotels or other commercial facilities as a benefit in the Operation Hero Miles program.

The House bill contained no similar amendment.

The House recedes.

*Report on Department of Defense autism pilot and demonstration projects (sec. 577)*

The House bill contained a provision (sec. 576) that would require the Secretary of Defense to submit a report to the Committees on Armed Services of the Senate and the House of Representatives on any pilot projects that the Department of Defense is conducting on autism services.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to include in the report all other efforts being conducted by the Department of Defense on autism services in the required report.

*Comptroller General of the United States report on Department of Defense military spouse employment programs (sec. 578)*

The Senate amendment contained a provision (sec. 577) that would require the Comptroller General of the United States to carry out a review of all current Department of Defense military spouse employment programs.

The House bill contained no similar provision.

The House recedes with an amendment to include in the review the total funding available for each military spouse employment program, the amount obligated for each program, and the number of military spouses who have obtained employment following participation in a Department of Defense spouse employment program.

*Subtitle H—Improved Sexual Assault Prevention and Response in the Armed Forces Access of sexual assault victims to legal assistance and services of sexual assault response coordinators and sexual assault victim advocates (sec. 581)*

The House bill contained a provision (sec. 583) that would amend chapter 53 of title 10, United States Code, to entitle members of the armed forces and dependents of members of the armed forces who are victims of a sexual assault to legal assistance, assistance provided by a qualified Sexual Assault Response Coordinator and assistance provided by a qualified Sexual Assault Victim Advocate. The provision would also authorize members of the armed forces who are victims of a sexual assault to confidentially dis-

close the details of the assault to military legal assistance counsel, Sexual Assault Response Coordinators, Sexual Assault Victim Advocates, personnel staffing the Department of Defense Safe Helpline, healthcare personnel, and chaplains.

The Senate amendment contained a similar provision (sec. 563).

The House recedes with an amendment that would require the service secretaries to prescribe regulations not later than 180 days after date of enactment of this Act on the provision of legal assistance to military personnel and dependents of military personnel who are victims of sexual assault and would provide that restricted reports of sexual assaults may be reported to a Sexual Assault Response Coordinator, a Sexual Assault Victim Advocate, and healthcare personnel specifically identified in regulations prescribed by the Secretary of Defense.

*Consideration of application for permanent change of station or unit transfer based on humanitarian conditions for victim of sexual assault or related offense (sec. 582)*

The House bill contained a provision (sec. 586) that would require the secretary concerned to expedite the consideration and approval of an application for a permanent change of station or unit transfer submitted by a member of the Armed Forces who is a victim of sexual assault.

The Senate amendment contained a similar provision (sec. 565).

The Senate recedes with an amendment that would require service secretaries to issue regulations that provide that an application by a victim of sexual assault for a permanent change of station or unit transfer must be approved or disapproved by the member's commanding officer within 72 hours, and if the application is disapproved, the member must be given the opportunity to request review by the first general or flag officer in the chain of command, and that decision must be made within 72 hours.

*Director of Sexual Assault Prevention and Response Office (sec. 583)*

The House bill contained a provision (sec. 581) that would require that the Director of the Sexual Assault Prevention and Response Office be a general or flag officer or an employee of the Department of Defense in a comparable senior executive service position.

The Senate amendment contained an identical provision (sec. 561).

The conference agreement includes this provision.

*Sexual assault response coordinators and sexual assault victim advocates (sec. 584)*

The House bill contained a provision (sec. 582) that would require a full time Sexual Assault Response Coordinator and a full time Sexual Assault Victim Advocate be assigned to each brigade or equivalent unit level of the armed forces and would require the Secretary of Defense to establish a training and certification program for Sexual Assault Response Coordinators and Sexual Assault Victim Advocates.

The Senate amendment contained a similar provision (sec. 562).

The Senate recedes with a clarifying amendment.

*Training and education programs for sexual assault prevention and response program (sec. 585)*

The House bill contained a provision (sec. 587) that would require the Secretary of each military department to provide sexual assault training and education for members of

the armed forces at each level of professional military education and for civilian employees of the military department.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

*Department of Defense policy and procedures on retention and access to evidence and records relating to sexual assaults involving members for the armed forces (sec. 586)*

The House bill contained a provision (sec. 585) that would amend chapter 50 of title 10, United States Code, to require the Department of Defense to maintain records relating to sexual assault involving members of the armed forces or their dependents for not less than 100 years, provide the victim permanent access to the records maintained by the Department, and require that the victim be provided a copy of the court-martial proceedings in certain circumstances.

The Senate amendment contained a provision (sec. 566) that would require the Secretary of Defense, in consultation with the Secretary of Veterans Affairs, to develop a comprehensive policy for the Department of Defense on the retention of and access to evidence and records relating to sexual assaults involving service members.

The House recedes with an amendment that would require the comprehensive policy be developed not later than October 1, 2012; that Defense Forms 2910 and 2911 be included in the records that must be retained; require that documentary evidence be retained for not less than the length of time investigative records are retained; and require that victims of sexual assault be provided with a copy of all prepared records of the proceedings of a court-martial if the victim testified during the proceedings.

*Subtitle I—Other Matters*

*Department of Defense authority to carry out personnel recovery reintegration and post-isolation support activities (sec. 588)*

The Senate amendment contained a provision (sec. 1043) that would authorize the Secretary of Defense to carry out reintegration and post-isolation support activities for certain persons returned to the control of United States authorities following detention in isolation or captivity by a hostile enemy while participating in or associated with a United States-sponsored military activity or mission.

The House bill contained no similar provision.

The House recedes.

*Military adaptive sports program (sec. 589)*

The House bill contained a provision (sec. 593) that would authorize the Secretary of Defense to establish a military adaptive sports program to provide adaptive sports programs to eligible wounded and injured members of the armed forces.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to consult with the Secretary of Veterans Affairs and avoid duplicating programs conducted by the Secretary and United States Paralympics, Inc., under section 521A of title 38, United States Code.

*Enhancement and improvement of Yellow Ribbon Reintegration Program (sec. 590)*

The Senate amendment contained a provision (sec. 582) that would enhance the Yellow Ribbon Reintegration Program to improve processes for determining best practices for information dispersal and outreach services,

as well as improve collaboration with state programs.

The House bill contained no similar provision.

The House recesses.

*Army National Military Cemeteries (sec. 591)*

The House bill contained a provision (sec. 551) that would establish the general authority of the Secretary of the Army to develop, operate, manage, administer, oversee, and fund the Army National Military Cemeteries.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

The conferees have not required that future superintendents of Army National Cemeteries be military veterans but believe that prior honorable military service is an important factor to be considered in their selection. An individual with military service who possesses the qualifications mandated by section 4725(a) would possess experience that the conferees view as invaluable. The conferees also acknowledge that the Army National Cemeteries Advisory Commission recently was established, fulfilling the requirement set forth in section 4723 of title 10, United States Code, as added by this provision, and that the Commission has conducted its first meeting.

*Inspection of military cemeteries under jurisdiction of the military departments (sec. 592)*

The House bill contained a provision (sec. 552) that would require the Inspector General of the Department of Defense to inspect the cemeteries at the Armed Forces Retirement Home, the United States Military Academy, the United States Naval Academy, and the United States Air Force Academy, and, based on the findings of those inspections, make recommendations for the regulation, management, oversight, and operation of the military cemeteries.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment that would require the Inspector General of each military department to conduct an inspection of each military cemetery under the jurisdiction of that military department.

*Authorization for award of the Distinguished Service Cross for Captain Frederick L. Spaulding for acts of valor during the Vietnam War (sec. 593)*

The Senate amendment contained a provision (sec. 587) that would authorize the award of the Distinguished Service Cross to Captain Frederick L. Spaulding for acts of valor during the Vietnam War.

The House bill contained no similar provision.

The House recesses.

*Authorization and request for award of Medal of Honor to Emil Kapaun for acts of valor during the Korean War (sec. 594)*

The House bill contained a provision (sec. 599D) that would authorize the award of the Medal of Honor to Emil Kapaun for acts of valor during the Korean War.

The Senate amendment contained an identical provision (sec. 586).

The conference agreement includes this provision.

*Review regarding award of Medal of Honor to Jewish American World War I veterans (sec. 595)*

The House bill contained a provision (sec. 599B) that would require the Secretary of the Army and the Secretary of the Navy to re-

view the service records of each Jewish American World War I veteran who was awarded the Distinguished Service Cross, the Navy Cross, or other military decoration during World War I, or whose name is submitted by the Jewish War Veterans of the United States of America, to determine whether that veteran should be posthumously awarded the Medal of Honor.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require the Secretary of the Army and the Secretary of the Navy to review the service records of any Jewish American World War I veteran awarded the Distinguished Service Cross or the Navy Cross for heroism during World War I and whose name and supporting material for upgrade of the award to the Medal of Honor are submitted to the service secretary before the end of the 1 year period beginning on the date of enactment of this Act.

*Report on process for expedited determination of disability of members of the armed forces with certain disabling conditions (sec. 596)*

The Senate amendment contained a provision (sec. 583) that would require the Secretary of Defense to submit a report to Congress not later than September 1, 2012, on the feasibility and advisability of a process to expedite the determination of disability for service members with certain disabling diseases or conditions, including an evaluation of programs for expedited determinations of disability used by other departments and agencies of the Federal Government.

The House bill contained no similar provision.

The House recesses with a technical amendment.

*Comptroller General study of military necessity of Selective Service System and alternatives (sec. 597)*

The House bill contained a provision (sec. 595) that would require the Comptroller General of the United States to assess the criticality of the Selective Service System to the Department of Defense in meeting future manpower needs of the armed forces that are in excess of the ability of an all-volunteer force to provide and to determine the fiscal and national security impacts of disestablishing the Selective Service System. In addition, the provision would require the study to assess alternatives to disestablishing the Selective Service System, as well as alternatives to registration for Selective Service.

The Senate amendment contained no similar provision.

The Senate recesses with a clarifying amendment.

*Evaluation of issues affecting the disposition of remains of American sailors killed in the explosion of the Ketch U.S.S. Intrepid in Tripoli Harbor on September 4, 1804 (sec. 598)*

The House bill contained a provision (sec. 1099C) that would require the Secretary of Defense to exhume the remains of any deceased service member buried in certain mass burial sites in Tripoli, Libya; transfer the remains to a forensics laboratory for identification; transfer identified remains for burial in a veterans cemetery; and transfer unidentified remains to Arlington National Cemetery for burial in the Tomb of the Unknowns.

The Senate amendment contained no similar provision.

The Senate recesses with an amendment that would require the Secretary of Defense and Secretary of the Navy to determine within 270 days after the date of enactment

of this Act the feasibility of recovering the remains of American sailors killed in Tripoli Harbor on September 4, 1804, the ability to make identifications of remains within a 2 year period, and the diplomatic and intergovernmental issues that would have to be addressed in order to exhume and repatriate the remains. The provision would require the Secretary of Defense and Secretary of State to subsequently provide the Committees on Armed Services of the Senate and House of Representatives with their recommendation regarding the identification, exhumation, and relocation of the remains and their reasons supporting that recommendation.

**LEGISLATIVE PROVISIONS NOT ADOPTED**

*Modification of definition of "joint duty assignment" to include all instructor assignments for joint training and education*

The Senate amendment contained a provision (sec. 504) that would amend section 668(b)(1)(B) of title 10, United States Code, to change the definition of joint duty assignment to include instructor positions that provide significant experience in joint matters.

The House bill contained no similar provision.

The Senate recesses.

*Authorized leave available for members of the armed forces upon birth or adoption of a child*

The House bill contained a provision (sec. 523) that would increase the number of days of non-chargeable leave from 21 to 42 that a service member would be granted following the adoption of a child, if the service member will be the primary caretaker of the child. The provision would also require that in the case of an adoption by a dual military couple that the service member who will not be the primary caretaker be granted 10 days of non-chargeable leave following the adoption.

The Senate amendment contained no similar provision.

The House recesses.

*Navy recruiting and advertising*

The House bill contained a provision (sec. 526) that would increase funding for the Navy Sea Cadet program by \$983,000.

The Senate amendment contained no similar amendment.

The House recesses.

*Limitation on simultaneous deployment to combat zones of dual-military couples who have minor dependents*

The House bill contained a provision (sec. 527) that would require service secretaries to approve requests for deferment from deployment of service members with minor dependents who have a service member spouse who is deployed in an area for which imminent danger pay is authorized.

The Senate amendment contained no similar provision.

The House recesses.

*Procedures for judicial review of military personnel decisions relating to correction of military records*

The House bill contained a provision (sec. 531) that would amend chapter 79 of, title 10, United States Code, to establish guidelines for judicial review of decisions by the boards for correction of military records operated by the secretaries of the military departments.

The Senate amendment contained a similar provision (sec. 553).

The House and the Senate recede. This provision is not included in the conference agreement.

*Retroactive award of Army Combat Action Badge*

The House bill contained a provision (sec. 531) that would authorize the retroactive award of the Army Combat Action Badge to eligible persons for participation in combat during the period beginning on December 7, 1941, and ending on September 18, 2001.

The Senate amendment contained no similar provision.

The House recedes.

*Additional condition on repeal of Don't Ask, Don't Tell policy*

The House bill contained a provision (sec. 533) that would amend the Don't Ask, Don't Tell Repeal Act of 2010 (Public Law 111-321) to require the Chief of Staff of the Army, the Chief of Naval Operations, the Commandant of the Marine Corps, and the Chief of Staff of the Air Force to submit to the congressional defense committees their written certification that repeal of the Don't Ask, Don't Tell law specified in section 654 of title 10, United States Code, will not degrade the readiness, effectiveness, cohesion, and morale of combat arms units and personnel of their respective armed force that are engaged in combat, deployed to a combat theater, or preparing for deployment to a combat theater.

The Senate amendment contained no similar provision.

The House recedes.

*Military regulations regarding marriage*

The House bill contained a provision (sec. 534) that would reaffirm the policy of section 3 of the Defense of Marriage Act, codified at section 7 of title 1, United States Code.

The Senate amendment contained no similar provision.

The House recedes.

*Use of military installations as site for marriage ceremonies and participation of chaplains and other military and civilian personnel in their official capacity*

The House bill contained a provision (sec. 535) that would place certain limitations on the use of military installations for marriage ceremonies and the participation of chaplains in such ceremonies.

The Senate amendment contained no similar provision.

The House recedes.

*Grade of commissioned officers in uniformed medical accession programs*

The Senate amendment contained a provision (sec. 542) that would amend sections 2114(b) and 2121(c) of title 10, United States Code, to authorize medical students attending the Uniformed Services University of the Health Sciences and students participating in the Armed Forces Health Professions Scholarship and Financial Assistance Programs, while on active duty, to serve in pay grade O-1, or in pay grade O-2 if they meet specified promotion criteria prescribed by the service secretary. The provision would also amend section 2004a of title 10, United States Code, to provide that an officer detailed as a student at a medical school would serve on active duty in the same grade with the same entitlement to pay as specified in section 2114(b) of title 10, United States Code.

The House bill contained no similar provision.

The Senate recedes.

The conferees recognize the value of the Health Professions Scholarship Program (HPSP), authorized in subchapter 1 of chapter 105 of title 10, United States Code, which helps the military departments recruit and

retain needed health care professionals in peacetime and in war. Since 2001, many wounded and ill service members returning from combat in Iraq and Afghanistan have required treatment from highly trained physical and occupational therapists in their long and difficult road to recovery. Also, because of the physical demands of war, physical therapists may be required to deploy in support of military forces. The conferees have learned that gaps appear to exist within several military components for qualified physical therapists and occupational therapists to fill available military authorizations for these specialties.

The conferees strongly urge the Department of Defense to use all available educational assistance tools, including HPSP, to alleviate any potential shortages in health care personnel, to include an assessment of current or projected shortfalls in qualified physical and occupational therapy personnel within the military departments and at major military medical treatment facilities specializing in the rehabilitation of wounded, ill, and injured members of the armed forces.

*Appointments to military service academies from nominations made by the governor of Puerto Rico*

The House bill contained a provision (sec. 544) that would amend sections 4342, 6954 and 9342 of title 10, United States Code, to increase the number of nominations to each of the military service academies by the Governor of Puerto Rico from 1 to 3.

The Senate amendment contained no similar provision.

The House recedes.

*Consolidation of military department authority to issue arms, tentage, and equipment to educational institutions not maintaining units of Junior ROTC*

The Senate amendment contained a provision (sec. 545) that would amend chapter 152 of title 10, United States Code, to consolidate in one section of law the existing authority contained in three separate sections of law for military departments to issue arms, tentage, and equipment to educational institutions not maintaining units of the Junior Reserve Officer Training Corps.

The House bill contained no similar provision.

The Senate recedes.

*Education and employment advocacy program for wounded members of the armed forces*

The House bill contained a provision (sec. 546) that would require the Secretary of Defense to obligate an additional \$15.0 million for the purpose of an Education and Employment Advocacy pilot program to engage wounded members of the armed forces early in their recovery.

The Senate amendment contained no similar provision.

The House recedes.

*Diversity recruitment efforts for the military service academies*

The House bill contained a provision (sec. 549) that would add \$1.4 million each to Operations and Maintenance for the Army, Navy, and Air Force for officer acquisition to expand diversity recruitment efforts for the United States Military Academy, the United States Naval Academy, and the United States Air Force Academy.

The Senate amendment contained no similar provision.

The House recedes.

*Department of Defense support for programs on pro bono legal representation for members of the armed forces*

The Senate amendment contained a provision (sec. 554) that would authorize the Secretary of Defense to provide support to one or more public or private programs designed to facilitate representation for service members by pro bono attorneys.

The House bill contained no similar provision.

The Senate recedes.

*Protection of child custody arrangements for parents who are members of the armed forces*

The House bill contained a provision (sec. 573) that would amend title II of the Servicemembers Civil Relief Act (50 U.S.C. App. 521 et seq.) to prohibit State court judges from considering the absence of a service member parent by reason of a deployment, or the possibility of deployment, in determining the best interest of a child in child custody litigation. The provision would require State court judges under certain circumstances to reinstate custody orders in favor of service members upon their return from deployments during which a temporary order directing a change of custody was issued.

The Senate amendment contained no similar provision.

The House recedes.

*Center for Military Family and Community Outreach*

The House bill contained a provision (sec. 574) that would require the Secretary of the Army to obligate an additional \$1.0 million to establish a Center for Military Family and Community Outreach in cooperation with an historically black university to train social work students, social work faculty members, and social workers to understand military life and enhance their competencies in providing services to military families.

The Senate amendment contained no similar provision.

The House recedes.

*Mental health support for military personnel and families*

The House bill contained a provision (sec. 575) that would require the Secretary of the Navy to obligate an additional \$3.0 million for a collaborative program that responds to escalating suicide rates and combat stress related arrests of military personnel and to train active-duty military personnel to recognize combat stress disorder, suicide risk, substance addiction, risk-taking behaviors and family violence.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress regarding financial counseling for military families*

The House bill contained a provision (sec. 577) that would express the sense of Congress that the Secretary of Defense should work with the Consumer Financial Protection Bureau to ensure coordination with the Office of Servicemember Affairs to provide financial counseling for members of the armed forces and their families.

The Senate amendment contained no similar provision.

The House recedes.

*Cold War Service Medal*

The Senate amendment contained a provision (sec. 581) that would authorize the Secretary of Defense to authorize the issuance of a Cold War Service Medal by the service secretaries.

The House bill contained no similar provision.

The Senate recedes.

*Privilege in cases arising under Uniform Code of Military Justice against disclosure of communications between sexual assault victims and sexual assault response coordinators, victim advocates, and certain other persons*

The House bill contained a provision (sec. 584) that would add a new Article 140a to the Uniform Code of Military Justice establishing a privilege against disclosure of communications between a person who is a victim of a sexual assault and a Sexual Assault Response Coordinator (SARC), a Sexual Assault Victim Advocate, and personnel staffing the Department of Defense (DOD) Safe Helpline or successor operation.

The Senate amendment contained a provision (sec. 564) that would require the President to establish in the Manual for Courts-Martial (MCM) an evidentiary privilege against disclosure of communications to similar effect.

The House and the Senate recede. Neither provision is included in the conference report.

The conferees note that the DOD has indicated that a new Executive Order that would amend the MCM by adding a proposed new Military Rule of Evidence 514 Victim Advocate Privilege has completed all review within the Office of Management and Budget and is now with the President for review and approval. Additionally, DOD has amended its controlling regulations to ensure that the privilege against disclosure applies to communications with a SARC whenever their duties and responsibilities involve victim advocate functions. Once this change to the MCM is signed and implemented, the conferees believe that it accomplishes the objective of ensuring privileged communications for sexual assault victims.

*Report on the achievement of diversity goals for the leadership of the armed forces*

The Senate amendment contained a provision (sec. 584) that would require the Secretary of Defense to submit a report on the achievement of diversity goals for the leadership of the armed forces.

The House bill contained no similar provision.

The Senate recedes.

*Specification of period in which application for voter registration or absentee ballot from an overseas voter is valid*

The Senate amendment contained a provision (sec. 585) that would amend section 104 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-3) to clarify that the prohibition on refusal by States to accept or process valid applications for voter registration and absentee ballots on the grounds of early submission applies to overseas voters in the same manner that it applies to uniformed service voters.

The House bill contained no similar provision.

The Senate recedes.

*Authority to provide support and services for certain organizations and activities outside Department of Defense*

The House bill contained a provision (sec. 591) that would amend section 2012 of title 10, United States Code, to limit to \$20.0 million the amount that may be obligated during fiscal year 2012 or any fiscal year thereafter to provide support and services to non-Department of Defense organizations and activities.

The Senate amendment contained no similar provision.

The House recedes.

*Display of State, District of Columbia, and territorial flags by Armed Forces*

The House bill contained a provision (sec. 592) that would amend section 2249b of title 10, United States Code, to require the Secretary of Defense to ensure that whenever the official flags of all 50 states are displayed by the armed forces, the flags of the District of Columbia and the territories of the United States shall also be displayed.

The Senate amendment contained no similar provision.

The House recedes.

*Wounded warrior careers program*

The House bill contained a provision (sec. 594) that would require the Secretary of Defense to obligate \$1.0 million to carry out a career-development program with the Education and Employment Initiative for severely wounded warriors of the armed forces and their spouses.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are aware of the Department's effort to address the high unemployment rate for wounded warriors who have since left active duty. The Education and Employment Initiative was established by the Department to leverage the best practices from existing employment and training initiatives in the federal and private sector. The conferees look forward to learning of the results of the pilot and any recommendations, including any additional legislative authorities necessary to continue or expand their program.

*Sense of Congress regarding playing of bugle call commonly known as "Taps" at military funerals, memorial services, and wreath laying ceremonies*

The House bill contained a provision (sec. 596) that would express the sense of Congress that the bugle call known as "Taps" should be sounded by a live solo bugler or trumpeter at a military funeral, memorial service or wreath laying ceremony.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress regarding support for Yellow Ribbon Day*

The House bill contained a provision (sec. 597) that would express Congress' support for Yellow Ribbon Day.

The Senate amendment contained no similar provision.

The House recedes.

*Postal benefits program*

The House bill contained a provision (sec. 598) that would require the Secretary of Defense, in consultation with the United States Postal Service, to establish a program providing postal benefits to service members deployed to Iraq or Afghanistan, or who are hospitalized for injuries sustained in Iraq or Afghanistan.

The Senate amendment contained no similar provision.

The House recedes.

*Prohibition on the unauthorized use of names and images of members of the armed forces*

The House bill contained a provision (sec. 599A) that would amend chapter 49 of title 10, United States Code, to prohibit the use of names or images of members of the armed forces and certain former members of the armed forces in connection with any merchandise, retail product, impersonation, solicitation, or commercial activity in a man-

ner reasonably calculated to connect the individual with their service in the armed forces without the permission of the member or former member.

The Senate amendment contained no similar provision.

The House recedes.

*Limitation on military musical units*

The House bill contained a provision (sec. 599C) that would prohibit the obligation or expenditure of more than \$200.0 million on military musical units.

The Senate amendment contained no similar provision.

The House recedes.

*Short title*

The Senate amendment contained a provision (sec. 1601) that would cite Title XVI as the "National Guard Empowerment and State-National Defense Integration Act of 2011."

The House bill contained no similar provision.

The Senate recedes.

#### TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

##### SUBTITLE A—PAY AND ALLOWANCES

*Resumption of authority to provide temporary increase in rates of basic allowance for housing under certain circumstances (sec. 601)*

The House bill contained a provision (sec. 602) that would reauthorize for a period of 1 year previously expired authority to pay additional basic allowance for housing in areas impacted by a major disaster or at installations experiencing a sudden increase in personnel.

The Senate amendment contained a similar provision (sec. 611(g)).

The Senate recedes.

*Lodging accommodations for members assigned to duty in connection with commissioning or fitting out of a ship (sec. 602)*

The House bill contained a provision (sec. 603) that would amend section 7572 of title 10, United States Code, to expand the authority of the Secretary of the Navy to provide lodging accommodations to enlisted service members deprived of quarters aboard ships when the ships are under construction or repair. The provision would also provide the Secretary special authority to compensate service members for their lodging expenses when they are deprived of quarters aboard ships that are under construction at the shipyards at Pascagoula, Mississippi, and Bath, Maine.

The Senate amendment contained no similar provision.

The Senate recedes.

##### Subtitle B—Bonuses and Special and Incentive Pays

*One-year extension of certain bonus and special pay authorities for reserve forces (sec. 611)*

The House bill contained a provision (sec. 611) that would extend for 1 year the authority to pay the Selected Reserve reenlistment bonus, the Selected Reserve affiliation or enlistment bonus, special pay for enlisted members assigned to certain high-priority units, the Ready Reserve enlistment bonus for persons without prior service, the Ready Reserve enlistment and reenlistment bonus for persons with prior service, the Selected Reserve enlistment and reenlistment bonus for persons with prior service, and income replacement for reserve component members experiencing extended and frequent mobilization for active duty service.

The Senate amendment contained a similar provision (sec. 611(a)).

The Senate recedes.

*One-year extension of certain bonus and special pay authorities for health care professionals (sec. 612)*

The House bill contained a provision (sec. 612) that would extend for 1 year the authority to pay the nurse officer candidate accession bonus, education loan repayment for certain health professionals who serve in the Selected Reserve, accession and retention bonuses for psychologists, the accession bonus for registered nurses, incentive special pay for nurse anesthetists, special pay for Selected Reserve health professionals in critically short wartime specialties, the accession bonus for dental officers, the accession bonus for pharmacy officers, the accession bonus for medical officers in critically short wartime specialties, and the accession bonus for dental specialist officers in critically short wartime specialties.

The Senate amendment contained similar provisions (sec. 611(b) and (c)).

The Senate recedes.

*One-year extension of special pay and bonus authorities for nuclear officers (sec. 613)*

The House bill contained a provision (sec. 613) that would extend for 1 year the authority to pay the special pay for nuclear-qualified officers extending period of active service, the nuclear career accession bonus, and the nuclear career annual incentive bonus.

The Senate amendment contained a similar provision (sec. 611(d)).

The Senate recedes.

*One-year extension of authorities relating to title 37 consolidated special pay, incentive pay, and bonus authorities (sec. 614)*

The House bill contained a provision (sec. 614) that would extend for 1 year the authority to pay the general bonus authority for enlisted members, the general bonus authority for officers, special bonus and incentive pay authorities for nuclear officers, special aviation incentive pay and bonus authorities for officers, special bonus and incentive pay authorities for officers in health professions, hazardous duty pay, assignment or special duty pay, skill incentive pay or proficiency bonus, and retention incentives for members qualified in critical military skills or assigned to high priority units.

The Senate amendment contained a similar provision (sec. 611(e)).

The Senate recedes.

*One-year extension of authorities relating to payment of other title 37 bonuses and special pays (sec. 615)*

The House bill contained a provision (sec. 615) that would extend for 1 year the authority to pay the aviation officer retention bonus, assignment incentive pay, the reenlistment bonus for active members, the enlistment bonus, the accession bonus for new officers in critical skills, the incentive bonus for conversion to military occupational specialty to ease personnel shortage, the incentive bonus for transfer between armed forces, and the accession bonus for officer candidates.

The Senate amendment contained a similar provision (sec. 611(f)).

The Senate recedes.

*Modification of qualifying period for payment of hostile fire and imminent danger special pay and hazardous duty special pay (sec. 616)*

The Senate amendment contained a provision (sec. 612) that would amend sections 310 and 351 of title 37, United States Code, to require that hostile fire and imminent danger pay be prorated according to the number of

days spent in a qualifying area, rather than on a monthly basis regardless of the number of such days.

The House bill contained no similar provision.

The House recedes with an amendment that would require that hostile fire and imminent danger pay that is based on presence in a qualifying area be prorated at the rate of 1/30 of the monthly amount for each day spent in the qualifying area. The amendment would authorize the payment of the full monthly amount of hostile fire and imminent danger pay when eligibility for such pay is based on actual exposure to hostile fire or a hostile mine explosion.

#### Subtitle C—Travel and Transportation Allowances Generally

*One-year extension of authority to reimburse travel expenses for inactive-duty training outside of normal commuting distance (sec. 621)*

The House bill contained a provision (sec. 621) that would extend for 1 year the authority to reimburse travel expenses for inactive-duty training outside of normal commuting distances.

The Senate amendment contained no similar provision.

The Senate recedes.

#### Subtitle D—Consolidation and Reform of Travel and Transportation Authorities

*Consolidation and reform of travel and transportation authorities of the uniformed services (sections 631 and 632)*

The House bill contained a series of provisions (sections 631–636) that would add a new chapter 8 to title 37, United States Code, to consolidate and reform the existing statutory authorities related to travel and transportation allowances for members of the uniformed services, their dependents, other family members, and authorized travelers of the Department of Defense. The provisions would authorize the Secretary of Defense to conduct pilot programs to evaluate alternative travel and transportation programs, policies, and processes for Department of Defense authorized travelers.

The Senate amendment contained similar provisions (sections 621 and 622) that would consolidate and reform the existing statutory authorities relating to travel and transportation allowances. The provisions would require the Secretary of Defense and the other administering secretaries to establish programs of compliance to ensure the integrity of the defense travel system, minimize fraud and waste, and ensure that benefits do not exceed actual expenses of travel or reasonable allowances based on commercial travel rates. Finally, the provisions would require that all travel claims be processed electronically within 5 years of the date of enactment of this Act.

The House recedes with clarifying amendments to the definitions contained in the provisions.

#### Subtitle E—Commissary and Non-appropriated Fund Instrumentality Benefits and Operations

*Discretion of the Secretary of the Navy to select categories of merchandise to be sold by ship stores afloat (sec. 641)*

The House bill contained a provision (sec. 644) that would provide discretionary authority to the Secretary of the Navy to determine what products will be sold by Navy ship stores.

The Senate amendment contained no similar provision.

The Senate recedes.

*Access of military exchange stores system to credit available through Federal Financing Bank (sec. 642)*

The House bill contained a provision (sec. 645) that would authorize the Army and Air Force Exchange Service, Navy Exchange Service Command, and Marine Corps exchanges to issue and sell their obligations to the Federal Financing Bank to facilitate the provision of in-store credit to patrons.

The Senate amendment contained no similar provision.

The Senate recedes.

*Designation of Fisher House for the Families of the Fallen and Meditation Pavilion, Dover Air Force Base, Delaware, as a Fisher House (sec. 643)*

The House bill contained a provision (sec. 643) that would deem that the Fisher House for the Families of the Fallen and Meditation Pavilion at Dover Air Force Base, Delaware, shall be considered a Fisher House for all other purposes established in law with regard to Fisher Houses and Fisher Suites.

The Senate amendment contained a similar provision (sec. 1084).

The House recedes.

#### Subtitle F—Disability, Retired Pay and Survivor Benefits

*Death gratuity and related benefits for reserves who die during an authorized stay at their residence during or between successive days of inactive duty training (sec. 651)*

The Senate amendment contained a provision (sec. 634) that would amend section 1475 of title 10, United States Code, to clarify that a reservist who receives permission to stay overnight at their residence during an inactive-duty training drill weekend will be entitled to the death gratuity if they die during the night between drilling days. The provision would be retroactive to January 1, 2010.

The House bill contained no similar amendment.

The House recedes with an amendment that would remove the retroactive application of the provision.

The conferees recommend that the Secretary of the Army use an appropriate authority, including the authority under section 127 of title 10, United States Code, to equitably resolve certain cases in which reserve component members participating in inactive-duty training are determined not to be covered under section 1475 of title 10, United States Code, including cases involving deaths occurring before the date of enactment of this Act.

#### Subtitle G—Other Matters

*Report on basic allowance for housing for National Guard members transitioning between active duty and full-time National Guard duty (sec. 661)*

The Senate amendment contained a provision (sec. 641) that would require that basic allowance for housing (BAH) paid to a member of the National Guard not be reduced upon the transition of the member between full-time National Guard duty under title 32, United States Code, and active duty under title 10, United States Code.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to study the implications on BAH for members of the National Guard when they transition between full-time National Guard duty under title 32, United States Code, and active duty under title 10, United States Code, taking into account current laws, policies, and

practices, and the well-being of service members and their families. The amendment would require the Secretary to report to the congressional defense committees the results of this study within 5 months of the date of enactment of this Act.

*Report on incentives for recruitment and retention of health care professionals (sec. 662)*

The House bill contained a provision (sec. 663) that would require the Surgeons General of the Army, Navy, and Air Force to report to Congress within 90 days of the date of enactment of this Act on their staffing needs for health care professionals and to provide recommendations on additional recruiting incentives needed to encourage experienced health care professionals to join the active or reserve components.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

LEGISLATIVE PROVISIONS NOT ADOPTED

*Fiscal year 2012 increase in military basic pay*

The House bill contained a provision (sec. 601) that would establish a pay raise of 1.6 percent for all members of the uniformed services beginning January 1, 2012.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that a 1.6 percent pay raise for all uniformed service members will become effective January 1, 2012 by operation of law.

*One-year extension of authorities relating to payment of referral bonuses*

The House bill contained a provision (sec. 616) that would extend for 1 year the authority to pay the health professions referral bonus and the Army referral bonus.

The Senate amendment contained no similar provision.

The House recedes.

*Mandatory provision of travel and transportation allowances for non-medical attendants for seriously ill and wounded members of the armed forces*

The House bill contained a provision (sec. 622) that would require the Secretary of Defense to pay non-medical attendants per diem allowances or reimburse them for actual and necessary expenses.

The Senate amendment contained no similar provision.

The House recedes.

*Inclusion of members of the armed forces assigned to Egypt Multi-National Force and Observers Mission in United States Central Command rest and recuperation absence program*

The House bill contained a provision (sec. 623) that would amend section 705a of title 10, United States Code, to authorize service members serving with the Egypt Multi-National Force and Observers Mission to receive non-chargeable rest and recuperation leave and other benefits under that section.

The Senate amendment contained no similar provision.

The House recedes.

*Repeal of automatic enrollment in Family Servicemembers' Group Life Insurance for members of the armed forces married to other members*

The Senate amendment contained a provision (sec. 631) that would amend section 1967 of title 38, United States Code, to remove service members from automatic enrollment as a dependent under the Family Servicemembers' Group Life Insurance pro-

gram when they are insured on their own behalf under the Servicemembers' Group Life Insurance program.

The House bill contained no similar provision.

The Senate recedes.

*Limitation on availability of certain funds pending report on provision of special compensation for members of the uniformed services with injury or illness requiring assistance in everyday living*

The Senate amendment contained a provision (sec. 632) that would limit the obligation and expenditure of travel funds of the Office of the Under Secretary of Defense for Personnel and Readiness until the Under Secretary provided to the congressional defense committees a report detailing the Department's implementation of the caregiver compensation authority in section 439 of title 37, United States Code, and other information.

The House bill contained no similar provision.

The Senate recedes.

*Repeal of sense of Congress on age and service requirements for retired pay for non-regular service*

The Senate amendment contained a provision (sec. 633) that would repeal section 635 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The House bill contained no similar provision.

The Senate recedes.

The conferees recognize that the changes to section 12731 of title 10, United States Code, enacted by section 647 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 160) were intended to reduce the minimum age at which reserve component members would be eligible to begin receiving retired pay according to time spent deployed, by 3 months for 90-day periods, not excluding consecutive days of duty that span 2 fiscal years, as well as duty within the same fiscal year. Recognizing the increase in direct spending that such a revision would require, the conferees will continue to look for an opportunity to revise section 12731 to ensure such periods of deployed service may be credited.

*Repeal of requirement of reduction of Survivor Benefits Plan survivor annuities by Dependency and Indemnity Compensation*

The Senate amendment contained a provision (sec. 635) that would eliminate the offset of Survivor Benefit Plan annuities by the amount of Dependency and Indemnity Compensation received from the Department of Veterans Affairs.

The House bill contained no similar provision.

The Senate recedes.

*Expansion of use of uniform funding authority to include permanent change of station and temporary duty lodging programs operated through nonappropriated fund instrumentalities*

The House bill contained a provision (sec. 641) that would expand the use of the uniform funding authority authorized for morale, welfare, and recreation programs operated through nonappropriated fund instrumentalities to include permanent change of station and temporary duty lodging programs.

The Senate amendment contained no similar provision.

The House recedes.

*Contracting authority for nonappropriated fund instrumentalities to provide and obtain goods and services*

The House bill contained a provision (sec. 642) that would clarify that nonappropriated

fund instrumentalities may enter into single-year or multiyear contracts with another element of the Department of Defense, another federal agency, or a private-sector agency to provide or obtain goods and services beneficial to the military community and the effective management of such instrumentalities. This section also would authorize nonappropriated fund instrumentalities to participate in partnerships with private entities to provide programs at no cost to the government on military installations using government facilities and other government support resources.

The Senate amendment contained no similar provision.

The House recedes.

*Enhanced commissary stores pilot program*

The House bill contained a provision (sec. 646) that would authorize the Defense Commissary Agency to operate an enhanced commissary store at a military installation designated for closure or adverse realignment under a base closure law.

The Senate amendment contained no similar provision.

The House recedes.

*Monthly amount and duration of Special Survivor Indemnity Allowance for widows and widowers of deceased members of the armed forces affected by required Survivor Benefit Plan annuity offset for Dependency and Indemnity Compensation*

The House bill contained a provision (sec. 651) that would increase the existing monthly amounts paid under the Special Survivor Indemnity Allowance (SSIA) to surviving spouses or former spouses of deceased service members whose annuity under the Survivor Benefit Program is offset by the amount of Dependency and Indemnity Compensation they receive from the Department of Veterans Affairs. The provision would also extend the termination date for the SSIA from October 1, 2017, to October 1, 2021, and establish additional monthly amounts to be paid those fiscal years.

The Senate amendment contained no similar provision.

The House recedes.

*Reimbursement of American National Red Cross for humanitarian support and other services provided to members of the armed forces and their dependents*

The House bill contained a provision (sec. 661) that would amend section 2602 of title 10, United States Code, to authorize the Secretary of Defense or the Secretary of a military department to reimburse the Red Cross for humanitarian and other support provided to service members and their dependents.

The Senate amendment contained no similar provision.

The House recedes.

*Treatment of members of the armed forces and civilian employees of the Department of Defense who were killed or wounded in the November 5, 2009, attack at Fort Hood, Texas*

The House bill contained a provision (sec. 662) that would require that a member of the armed forces killed or wounded in the attack at Fort Hood, Texas, on November 5, 2009, be treated as if killed or wounded in a combat zone as a result of enemy action. The provision would also require that a civilian employee of the Department of Defense killed or wounded in the attack at Fort Hood be treated as if killed or wounded while serving with the armed forces in a contingency operation and as a result of a terrorist attack.

The Senate amendment contained no similar provision.

The House recedes.

# TITLE VII—HEALTH CARE PROVISIONS

## Subtitle A—Improvements to Health Benefits

### *Annual enrollment fees for certain retirees and dependents (sec. 701)*

The House bill contained a provision (sec. 701) that would express a sense of Congress regarding the extraordinary sacrifices of career members of the uniformed services and would limit the annual increase in TRICARE Prime enrollment fees to the amount equal to the percentage by which military retired pay is increased beginning October 1, 2012.

The Senate amendment contained a similar provision (sec. 701).

The Senate recedes with an amendment that would limit the annual increase in TRICARE Prime enrollment fees to the amount equal to the percentage by which military retired pay is increased beginning October 1, 2012, and would clarify that the basis for determining increases in the TRICARE Prime enrollment fee for fiscal year 2013 and thereafter is the enrollment fee for retirees who enrolled for the first time in fiscal year 2012.

### *Mental health assessments for members of the armed forces deployed in support of a contingency operation (sec. 702)*

The House bill contained a provision (sec. 705) that would codify, with several modifications, the existing legislative requirement for the Secretary of Defense to provide person-to-person mental health assessments for each member of the armed forces who is deployed in support of a contingency operation at specified times before and after the deployment.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would align the timing of the mental health assessments with the timing of required periodic health assessments.

### *Behavioral health support for members of the reserve components of the armed forces (sec. 703)*

The House bill contained a provision (sec. 703) that would require the Secretary of Defense to provide access to mental health assessments to members of the reserve components during scheduled unit training and assemblies. The provision would also require the Secretary to provide psychological health programs and training on suicide prevention and post-suicide response during scheduled unit training.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would make the requirement to provide access to mental health assessments permissive, and would require that funding for these programs be provided from operations and maintenance accounts of the reserve components.

### *Provision of food to certain members and dependents not receiving inpatient care in military medical treatment facilities (sec. 704)*

The House bill contained a provision (sec. 702) that would authorize the Secretary of Defense to provide food and beverages at no cost to certain individuals receiving outpatient care or individuals assisting with infants receiving inpatient medical care at a military treatment facility.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

### *Travel for anesthesia services for childbirth for command-sponsored dependents of members assigned to remote locations outside the continental United States (sec. 705)*

The Senate amendment contained a provision (sec. 711) that would provide temporary authority to the Secretary of Defense to pay travel expenses to a location in the United States for a command-sponsored dependent of a service member assigned to a remote location who requires or elects certain anesthesia services for childbirth.

The House bill contained no similar provision.

The House recedes with an amendment that would provide that transportation may not be provided under this authority if the dependent would otherwise receive obstetrical anesthesia services at a military treatment facility and the medical treatment facility, in carrying out the required number of necessary obstetric cases, would not maintain competency of its obstetrical staff unless the facility provides such services to the dependent.

The conferees note that, in accordance with Department of Defense procedures governing military personnel assignments, the military departments generally authorize curtailment of overseas tours for pregnancy of a service member.

### *Transitional health benefits for certain members with extension of active duty following active duty in support of a contingency operation (sec. 706)*

The Senate amendment contained a provision (sec. 712) that would amend section 1145(a)(4) of title 10, United States Code, to clarify that, in the case of a reserve component member who is called to active duty in support of a contingency operation who then, without a break in service, is extended on active duty for any purpose, the 180-day period of Transition Assistance Management Program medical eligibility begins when the member is separated from active duty at the end of the extended active duty.

The House bill contained no similar provision.

The House recedes.

### *Provision of rehabilitative equipment under Wounded Warrior Act (sec. 707)*

The House bill contained a provision (sec. 733) that would amend section 1631 of the Wounded Warrior Act (title XVI of Public Law 110-181; 10 U.S.C. 1071 note) to authorize the Secretary of Defense to provide an active-duty member of the armed forces with a severe injury or illness with rehabilitative equipment, including recreational sports equipment, that provide an adaption or accommodation for the member.

The Senate contained no similar provision.

### *Transition enrollment of Uniformed Services Family Health Plan Medicare-eligible retirees to TRICARE for Life (sec. 708)*

The House bill contained a provision (sec. 704) that would prohibit a Medicare eligible military retiree from enrolling in the Uniformed Services Family Health Plan after September 30, 2012.

The Senate amendment contained a similar provision (sec. 703) affecting Medicare eligible retired enrolling after September 30, 2011.

The Senate recedes.

## Subtitle B—Health Care Administration

### *Codification and improvement of procedures for mental health evaluations for members of the armed forces (sec. 711)*

The Senate amendment contained a provision (sec. 713) that would amend chapter 55 of

title 10, United States Code, to require the Secretary of Defense to prescribe and maintain regulations relating to commanding officer and supervisor referrals of members of the armed forces for mental health evaluations.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

### *Extension of time limit for submittal of claims under the TRICARE program for care provided outside the United States (sec. 712)*

The Senate amendment contained a provision (sec. 705) that would extend the time limit for submission of TRICARE claims for services provided outside the United States from 1 year to 3 years after the services are provided.

The House bill contained no similar provision.

The House recedes.

### *Expansion of State licensure exception for certain health care professionals (sec. 713)*

The House bill contained a provision (sec. 713) that would express the sense of Congress concerning access to behavioral health care and the need for improved collaboration between the Department of Defense and Department of Veterans Affairs on transition of service member medical records. The provision would also amend section 1094(d), title 10, United States Code, to permit Department of Defense civilian employees and other health care professionals credentialed and privileged at a federal health care institution or location designated by the Secretary of Defense to practice at any location, regardless of where the health care professional or the patient are located, so long as the practice is within the scope of the authorized federal duties. The provision would also require reports on plans to develop and expand programs utilizing Internet and communications technologies to improve access to care, and plans to improve the transition of health and battlefield deployment records from the Department to the Department of Veterans Affairs.

The Senate amendment contained a similar provision (sec. 721), which would limit additional State licensure exceptions to duties relating to mental health care.

The Senate recedes with an amendment to delete the sense of Congress and required reports.

### *Clarification on confidentiality of medical quality assurance records (sec. 714)*

The Senate amendment contained a provision (sec. 722) that would amend section 1102(j) of title 10, United States Code, to clarify that medical quality assurance records are limited to records of any peer review activity by or for the Department of Defense to assess the quality of medical care.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

### *Maintenance of the adequacy of provider networks under the TRICARE program (sec. 715)*

The Senate amendment contained a provision (sec. 702) that would state that TRICARE network providers are not considered subcontractors for purposes of the Federal Acquisition Regulation (FAR) or any other law.

The House bill contained no similar provision.

The House recedes with an amendment that would require that, in determining

whether TRICARE network providers are subcontractors for the purposes of the FAR or any other law, a TRICARE managed care support contract including the requirement to establish, manage, or maintain a network of providers shall not be considered to be a contract for the performance of health care services or supplies on the basis of that requirement.

The conferees are aware that the Administration is currently undertaking a review with relevant agencies, including the Departments of Defense, Labor, and Justice, to clarify the coverage of health care providers under federal statutes applicable to contractors and subcontractors. The conferees agree that this is a complex issue which merits continued review from the Committees on Armed Services of the Senate and the House of Representatives and other committees of jurisdiction in the Senate and the House of Representatives.

*Review of the administration of the military health system (sec. 716)*

The House bill contained a provision (sec. 711) that would amend chapter 6 of title 10, United States Code, to require the President, with the advice and assistance of the Chairman of the Joint Chiefs of Staff, to establish a unified medical command for medical operations under section 161 of title 10, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to submit to the congressional defense committees a report on the options developed and considered by the task force established by the Deputy Secretary of Defense to review the governance model options for the military health system. The amendment would prohibit the Secretary of Defense from proceeding with restructuring the military health system until 120 days after the Comptroller General of the United States submits a report to Congress on a review of the strengths, weaknesses, and costs of each option.

*Limitation on availability of funds for the future electronic health records program (sec. 717)*

The House bill contained a provision (sec. 712) that would limit the amount of funds the Secretary of Defense may obligate or expend for future electronic health programs until 30 days after the date that the Secretary submits a report to the congressional defense committees that addresses: the architecture to guide the transition of the electronic health records of the Department of Defense to a future state that is cost-effective and interoperable; a process for selecting investments in information technology; the report required by section 715 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383); and the effectiveness of the Inter-agency Program Office.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

**Subtitle C—Reports and Other Matters**

*Modification of authorities on surveys on continued viability of TRICARE Standard and TRICARE Extra (sec. 721)*

The Senate amendment contained a provision (sec. 704) that would amend section 711 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181) to extend the length of time the Department of Defense is required to report on access to

health care under TRICARE Standard and TRICARE Extra from 2011 until 2015, and to modify the frequency of reports required to be conducted by the Comptroller General from twice per year to once every 2 years.

The House bill contained a similar provision (sec. 739).

The House recedes with a technical amendment.

*Treatment of wounded warriors (sec. 722)*

The House bill contained a provision (sec. 724) that would add \$3,000,000 to Research, Development, Test, and Evaluation, Army, for rapid clinical evaluation and deployment of novel treatment strategies for wounded service members with an emphasis on musculoskeletal injuries.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would authorize the Secretary of Defense to enter into partnerships to enable coordinated rapid clinical evaluation and application of evidence-based treatment strategies for wounded service members, with an emphasis on the most common musculoskeletal injuries that will address the priorities of the armed forces with respect to retention and readiness.

*Report on research and treatment of post-traumatic stress disorder (sec. 723)*

The House bill contained a provision (sec. 735) that would require the Secretary of Defense to submit to the congressional defense committees a report assessing the benefits of neuroimaging research in an effort to identify and increase the diagnostic properties of post-traumatic stress disorder.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees have learned that research using neuroimaging techniques may offer hope in identifying conditions in the brain to facilitate distinct classification and diagnosis of post-traumatic stress. The conferees urge the Secretary to consider the potential benefits of research using such techniques for wounded, ill, and injured service members with post-traumatic stress and to explore collaborative interagency and extramural research in this area.

*Report on memorandum regarding traumatic brain injuries (sec. 724)*

The House bill contained a provision (sec. 738) that would require the Secretary of Defense to submit to the congressional defense committees a report on how the Secretary will identify, refer, and treat traumatic brain injuries with respect to members of the armed forces who served in Operation Enduring Freedom or Operation Iraqi Freedom before the June, 2010, the effective date of the policy using a 50-meter distance from an explosion as a criterion to properly identify, refer, and treat members for potential traumatic brain injury.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to submit to the congressional defense committees, not later than 180 days after the date of enactment of this Act, a report on the policy of the Department of Defense related to the management of concussion and mild traumatic brain injury in the deployed setting (Directive Type Memorandum 09-033, "Policy Guidance for Management of Concussion/Mild Traumatic Brain Injury in Deployed Setting," June 21, 2010), the effectiveness of such policy with respect to identi-

fying and treating blast-related concussive injuries, and the effect of the policy on operational effectiveness in theater.

*Comptroller General report on women-specific health services and treatment for female members of the armed force (sec. 725)*

The House bill contained a provision (sec. 721) that would require the Secretary of Defense to conduct a comprehensive review on the availability, efficacy, and adequacy of health care services for female members of the armed forces.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Comptroller General to carry out a review of women specific health services and treatment for female members of the armed forces and to submit a report on this review to the congressional defense committees not later than December 31, 2012.

*Comptroller General report on contracted health care staffing for military medical treatment facilities (sec. 726)*

The House bill contained a provision (sec. 723) that would require the Comptroller General of the United States to submit to the Committees on Armed Services of the Senate and the House of Representatives not later than March 31, 2012, a report on the contracting activities of the military departments with respect to providing health care professional services to members of the armed forces, dependents, and retirees.

The Senate amendment contained no similar provision.

The Senate recedes.

**LEGISLATIVE PROVISIONS NOT ADOPTED**

*TRICARE Standard for certain members of the Individual Ready Reserve*

The House bill contained a provision (sec. 706) that would make TRICARE Standard available to members of the Retired Reserve qualified for a non-regular retirement at age 60 but who have not yet reached age 60 and to certain members of the Individual Ready Reserve.

The Senate amendment contained no similar provision.

The House recedes.

*Cooperative health care agreements*

The House bill contained a provision (sec. 725) that would require the Secretary of Defense to obligate an additional \$500,000 to the Defense Health Program for cooperative health care agreements between military installations and local or regional health care systems.

The Senate amendment contained no similar provision.

The House recedes.

*Prostate cancer imaging research initiative*

The House bill contained a provision (sec. 726) that would authorize \$2.0 million additional funding for prostate cancer imaging research initiatives.

The Senate amendment contained no similar provision.

The House recedes.

*Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury*

The House bill contained a provision (sec. 727) that would require the Secretary of Defense to obligate an additional \$2.0 million to the Defense Health Program for the Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury.

The Senate amendment contained no similar provision.

The House recedes.

*Collaborative military-civilian trauma training programs*

The House bill contained a provision (sec. 728) that would require the Secretary of Defense to obligate an additional \$3.0 million to the Defense Health Program for collaborative military-civilian trauma training programs between military installations and local or regional health care systems.

The Senate amendment contained no similar provision.

The House recedes.

*Traumatic brain injury*

The House bill contained a provision (sec. 729) that would add \$1,000,000 to the Defense Health Program to develop national medical guidelines regarding the post-acute rehabilitation of individuals with traumatic brain injury.

The Senate amendment contained no similar provision.

The House recedes.

*Competitive programs for alcohol and substance abuse disorders*

The House bill contained a provision (sec. 730) that would add \$5,000,000 to the Defense Health Program to support a competitive program for translational research centers tasked with addressing alcohol and substance abuse issues.

The Senate amendment contained no similar provision.

The House recedes.

*Pilot program on payment for treatment of members of the armed forces and veterans for traumatic brain injury and post-traumatic stress disorder*

The House bill contained a provision (sec. 731) that would authorize to be appropriated \$10.0 million to carry out a 5 year pilot program to pay for the treatment of traumatic brain injury and post-traumatic stress disorder in health care facilities other than military treatment facilities or Department of Veterans Affairs medical facilities.

The Senate amendment contained no similar provision.

The House recedes.

*Report on establishment of registry on occupational and environmental chemical concerns*

The House bill contained a provision (sec. 732) that would require the Secretary of Defense to report on establishing a registry for members of the armed forces exposed to occupational and environmental hazards during contingency operations.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress on post-traumatic stress disorder*

The House bill contained a provision (sec. 734) that would express the sense of Congress that post-traumatic stress disorder is an increasingly common disease and that treatment for service members with post-traumatic stress disorder should be expanded to include local and community medical facilities.

The Senate amendment contained no similar provision.

The House recedes.

*Study on breast cancer among members of the armed forces and veterans*

The House bill contained a provision (sec. 736) that would require the Secretary of Defense and Secretary of Veterans Affairs to jointly conduct a study on the incidence of breast cancer among members of the armed forces (including members of the National Guard and reserve components) and veterans.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that in a separate provision in this report the Comptroller General is required to conduct a comprehensive review on the availability, efficacy, and adequacy of health care services for female members of the armed forces, including the access to and efficacy of women-specific breast cancer services and programs with respect to outreach, prevention, and treatment.

*Transfer of Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury*

The House bill contained a provision (sec. 737) that would require the Secretary of Defense to develop a plan to transfer the Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury from the TRICARE Management Activity to a military department, as determined by the Secretary.

The Senate amendment contained no similar provision.

The House recedes.

The conferees understand that the Department is preparing to move ahead with this transfer.

**TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND RELATED MATTERS**  
**Subtitle A—Acquisition Policy and Management**

*Requirements relating to core depot-level maintenance and repair capabilities for Milestone A and Milestone B and elimination of references to Key Decision Points A and B (sec. 801)*

The House bill contained a provision (sec. 801) that would amend sections 2366a and 2366b of title 10, United States Code, to incorporate certification requirements for core logistics capabilities and to eliminate obsolete references to Key Decision Points A and B for Space Programs.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would ensure that life cycle sustainment planning, to include core depot-level maintenance and repair capabilities, is considered at applicable milestones for major defense acquisition programs.

*Revision to law relating to disclosures to litigation support contractors (sec. 802)*

The House bill contained a provision (sec. 802) that would clarify the authority of the Department of Defense to disclose sensitive information to litigation support contractors.

The Senate amendment contained no similar provision.

The Senate recedes.

*Extension of applicability of the senior executive benchmark compensation amount for purposes of allowable cost limitations under defense contracts (sec. 803)*

The House bill contained a provision (sec. 803) that would expand the limitation on allowable compensation for defense contractor employees to any individual performing under a covered contract.

The Senate amendment contained a provision (sec. 842) that would expand the limitation to contractor and subcontractor employees and reduce the ceiling amount to the annual amount paid to the President of the United States under section 102 of title 3, United States Code.

The House recedes with an amendment that would expand the limitation to all con-

tractor employees, subject to the authority of the Secretary of Defense to establish narrowly-targeted exceptions for scientists and engineers upon a determination that such exceptions are needed to ensure that the Department of Defense has continued access to needed skills and capabilities. The Secretary is directed to report to the congressional defense committees on whether there are any additional categories of employees for whom such authority may be needed. The conferees understand that the term "contractor employees" includes employees of a subcontractor.

*Extension of availability of funds in the Defense Acquisition Workforce Development Fund (sec. 804)*

The House bill contained a provision (sec. 805) that would provide uniformity in the availability of funds in the Defense Acquisition Workforce Development Fund, as requested by the Department of Defense.

The Senate amendment contained a similar provision (sec. 881).

The Senate recedes.

*Defense Contract Audit Agency annual report (sec. 805)*

The House bill contained a provision (sec. 806) that would require the Director of the Defense Contract Audit Agency (DCAA) to submit an annual report to Congress.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would simplify the reporting requirement and ensure that it is consistent with the nature of the work performed by DCAA.

*Inclusion of data on contractor performance in past performance databases for source selection decisions (sec. 806)*

The Senate amendment contained a provision (sec. 821) that would require the Department of Defense to develop a strategy for ensuring that timely, accurate, and complete information on contractor performance is included in past performance databases used for making source selection decisions.

The House bill contained no similar provision.

The House recedes with an amendment requiring that contractors be provided up to 2 weeks to respond to past performance information before it is included in the database. Nothing in the provision would preclude contractors from providing comments, or otherwise challenging the information, after the 2 week period has expired and the information has been posted.

*Implementation of recommendations of Defense Science Board Task Force on improvements to Service Contracting (sec. 807)*

The Senate amendment contained a provision (sec. 822) that would require the Department of Defense to develop a plan to implement the recommendations of a Defense Science Board report on service contracting.

The House bill contained no similar provision.

The House recedes with an amendment striking language requiring a taxonomy and definitions for the tracking of contract services. This issue has been already addressed in previously-enacted legislation requiring an inventory of contract services.

*Temporary limitation on aggregate annual amount available for contract services (sec. 808)*

The Senate amendment contained a provision (sec. 823) that would limit Department of Defense spending for contract services in fiscal years 2012 and 2013 (not including spending from the Overseas Contingency Operations account).

The House bill contained no similar provision.

The House recedes.

*Annual report on single-award task and delivery order contracts (sec. 809)*

The Senate amendment contained a provision (sec. 824) that would streamline reporting requirements for single-award task and delivery order contracts.

The House bill contained no similar provision.

The House recedes.

Subtitle B—Amendments to General Contracting Authorities, Procedures, and Limitations

*Calculation of time period relating to report on critical changes in major automated information systems (sec. 811)*

The House bill contained a provision (sec. 811) that would clarify the trigger for determining whether a major automated information system has achieved full deployment decision in a timely manner.

The Senate amendment contained no similar provision.

The House recedes with a technical amendment based on comments from the Department of Defense.

*Change in deadline for submission of Selected Acquisition Reports from 60 to 45 days (sec. 812)*

The House bill contained a provision (sec. 812) that would adjust the deadline for submission of Selected Acquisition Reports.

The Senate amendment contained no similar provision.

The Senate recedes.

*Extension of sunset date for certain protests of task and delivery order contracts (sec. 813)*

The House bill contained a provision (sec. 813) that would extend the sunset date for certain protests of task and delivery order contracts.

The Senate amendment contained no similar provision.

The House recedes.

*Clarification of Department of Defense authority to purchase right-hand drive passenger sedan vehicles and adjustment of threshold for inflation (sec. 814)*

The House bill contained a provision (sec. 814) that would clarify Department of Defense authority to purchase right-hand drive passenger sedans.

The Senate amendment contained a similar provision (sec. 884).

The House recedes with a technical amendment.

*Rights in technical data and validation of proprietary data restrictions (sec. 815)*

The Senate amendment contained a provision (sec. 841) that would clarify the treatment of independent research and development and bid and proposal costs for purposes of section 2320 of title 10, United States Code, governing rights in technical data.

The House bill contained no similar provision.

The House recedes with an amendment that would clarify the circumstances in which the United States has government-purpose rights in technical data and the extent to which the United States may require the delivery of technical data to which it already has rights, but the delivery of which was not required in the contract.

*Covered contracts for purposes of requirements on contractor business systems (sec. 816)*

The Senate amendment contained a provision (sec. 843) that would clarify what contracts are covered for the purposes of with-

holding funds under section 893 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The House bill contained no similar provision.

The House recedes.

*Compliance with defense procurement requirements for purposes of internal controls of non-defense agencies for procurements on behalf of the Department of Defense (sec. 817)*

The Senate amendment contained a provision (sec. 844) that would amend section 801 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181) to clarify that when the Department of Defense makes purchases through non-defense agencies the other agencies are expected to comply with the requirements of the Federal Acquisition Regulation and other laws and regulations that apply to procurements by all federal agencies and with laws and regulations applicable to inter-agency transactions by the Department of Defense, but not with internal Department of Defense procurement rules.

The House bill contained no similar provision.

The House recedes.

*Detection and avoidance of counterfeit electronic parts (sec. 818)*

The Senate amendment contained a provision (sec. 848) that would strengthen the detection, avoidance, notification, and remediation of counterfeit and suspect counterfeit electronic parts in defense systems.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees note that the authority provided to the Secretary of the Treasury to share information under this provision should not be interpreted to suggest that any other government agency lacks the authority to share similar information with the owner of a copyright or registered mark.

*Modification of certain requirements of the Weapon Systems Acquisition Reform Act of 2009 (sec. 819)*

The House bill contained a provision (sec. 841) that would amend certain provisions of acquisition law to provide additional flexibility to the Department of Defense.

The Senate amendment contained a similar provision (sec. 802).

The House recedes.

*Inclusion of contractor support requirements in Department of Defense planning documents (sec. 820)*

The House bill contained a provision (sec. 852) that would require the Secretary of Defense to develop and implement a plan to address shortfalls in operational contract support requirements determination, management, oversight, and administration.

The Senate amendment contained a provision (sec. 866) that would require inclusion of contractor support requirements in Department of Defense planning documents.

The House recedes.

The conferees note that the Commission on Wartime Contracting found significant deficiencies in the Department's requirements determination processes, management, oversight, and administration of operational contract support in recent contingency operations. The conferees urge the Secretary of Defense to take aggressive steps to address shortfalls in education, training, information-sharing, pre-deployment exercises and experiments, and workforce planning related

to the Department's continued reliance on operational contract support.

*Amendment relating to buying tents, tarpaulins, or covers from American sources (sec. 821)*

The House bill contained a provision (sec. 815) that would amend section 2533a of title 10, United States Code, to include the materials and components of tents, tarpaulins, and covers under that provision.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to include tent poles and similar structural components.

*Repeal of sunset of authority to procure fire resistant rayon fiber from foreign sources for the production of uniforms (sec. 822)*

The House bill contained a provision (sec. 817) that would repeal the sunset on the authority to procure fire resistant rayon fiber from foreign sources under the circumstances provided in section 829 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181).

The Senate amendment contained a provision (sec. 888) that would require further review of the issue.

The Senate recedes.

*Prohibition on collection of political information (sec. 823)*

The House bill contained a provision (sec. 847) that would prohibit federal agencies from requiring contractors to disclose information on campaign contributions and expenditures as a condition for participating in an acquisition.

The Senate amendment contained a similar provision (sec. 845) that would be applicable only to the Department of Defense.

The House recedes with a clarifying amendment.

Subtitle C—Provisions Relating to Major Defense Acquisition Programs

*Waiver of requirements relating to new milestone approval for certain major defense acquisition programs experiencing critical cost growth due to change in quantity purchased (sec. 831)*

The Senate amendment contained a provision (sec. 801) that would allow the waiver of certain requirements applicable to programs that experience critical Nunn-McCurdy breaches in narrow circumstances where the cost growth is attributable almost exclusively to changes in the number of units to be purchased.

The House bill contained no similar provision.

The House recedes.

*Assessment, management, and control of operating and support costs for major weapon systems (sec. 832)*

The Senate amendment contained a provision (sec. 803) that would require the Department of Defense to take action to assess, manage, and control operation and support costs for major weapon systems.

The House bill contained no similar provision.

The House recedes with an amendment to ensure that the provision references, and is consistent with, the life-cycle management and product support requirements in section 805 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

*Clarification of responsibility for cost analyses and targets for contract negotiation purposes (sec. 833)*

The Senate amendment contained a provision (sec. 804) that would clarify that the Under Secretary of Defense for Acquisition,

Technology, and Logistics is responsible for policies and guidance on cost analyses and targets to be used in contract negotiations.

The House bill contained no similar provision.

The House recedes.

*Modification of requirements for guidance on management of manufacturing risk in major defense acquisition programs (sec. 834)*

The House bill contained a provision (sec. 841(b)) that would repeal certain requirements relating to manufacturing risk in major defense acquisition programs.

The Senate amendment contained a provision (sec. 805) that would provide the Department of Defense increased flexibility in complying with such requirements.

The House recedes.

The conferees note that the conference agreement would authorize the Department of Defense to tailor manufacturing readiness levels and other manufacturing readiness standards to address the unique characteristics of specific industry sectors and weapon system portfolios.

*Management of developmental test and evaluation for major defense acquisition programs (sec. 835)*

The Senate amendment contained a provision (sec. 806) that would strengthen management of developmental test and evaluation for major defense acquisition programs.

The House bill contained no similar provision.

The House recedes.

*Assessment of risk associated with development of major weapon systems to be procured under cooperative projects with friendly foreign countries (sec. 836)*

The Senate amendment contained a provision (sec. 807) that would require a risk assessment in advance of any cooperative agreement with an allied nation that is expected to result in the award of a Department of Defense contract for the engineering and manufacturing development of a major weapon system.

The House bill contained no similar provision.

The House recedes.

*Competition in maintenance and sustainment of subsystems of major weapon systems (sec. 837)*

The House bill contained a provision (sec. 326) that would amend section 202(d) of the Weapon Systems Acquisition Reform Act of 2009 (10 U.S.C. 2430 note) to include subsystems and components.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

*Oversight of and reporting requirements with respect to Evolved Expendable Launch Vehicle program (sec. 838)*

The Senate amendment contained a provision (sec. 889) that would direct the Secretary of Defense to designate the Evolved Expendable Launch Vehicle (EELV) program as a Major Defense Acquisition Program (MDAP) not in sustainment phase under section 2430 of title 10, United States Code, or require the EELV program to provide to the congressional defense committees and, as appropriate, the Under Secretary of Defense for Acquisition, Technology, and Logistics, all information with respect to its cost, schedule, and performance that would be required if the program were an MDAP not in sustainment.

The House bill contained no similar provision.

The House recedes.

*Implementation of acquisition strategy for Evolved Expendable Launch Vehicle (sec. 839)*

The Senate amendment contained a provision (sec. 891) that would direct the Secretary of Defense to submit, with the fiscal year 2013 budget submission, how it is implementing the findings of the Government Accountability Office (GAO) report on the Evolved Expendable Launch Vehicle, dated September 15, 2011 (GAO—11—641) and if the findings cannot be implemented, an explanation of how the Department is addressing the deficiency. Within 60 days the GAO is to assess the Secretary's report and forward recommendations it considers appropriate.

The House bill contained no similar provision.

The House recedes with an amendment that would extend the report submission to no later than March 31, 2012.

The conferees also agreed that the report shall be delivered to the Committees on Armed Services of the Senate and the House of Representatives, the Committees on Appropriations of the Senate and the House of Representatives, the Permanent Select Committee on Intelligence of the House of Representatives, and the Select Committee on Intelligence of the Senate.

Subtitle D—Provisions Relating to Contracts in Support of Contingency Operations in Iraq or Afghanistan

*Prohibition on contracting with the enemy in the United States Central Command theater of operations (sec. 841)*

The House bill contained a provision (sec. 821) that would allow the Secretary of Defense to void a contract, upon a determination that a foreign entity or individual performing on the contract is directly engaged in hostilities or is substantially supporting forces that are engaged in hostilities against the United States or its coalition partners.

The Senate amendment contained a similar provision (sec. 861).

The House recedes with an amendment clarifying that the authority provided by the section is available only to the Department of Defense.

*Additional access to contractor and subcontractor records in the United States Central Command Theater of Operations (sec. 842)*

The House bill contained a provision (sec. 823) that would allow the Secretary of Defense to examine the records of a foreign contractor or subcontractor in Iraq or Afghanistan under certain circumstances.

The Senate amendment contained a similar provision (sec. 862).

The House recedes with an amendment clarifying that the authority provided by the section is available only to the Department of Defense.

*Reach-back contracting authority for Operation Enduring Freedom and Operation New Dawn (sec. 843)*

The House bill contained a provision (sec. 822) that would authorize a contracting activity inside the United States to utilize increased thresholds available for overseas contracting, when acting in support of overseas contracting for Operation Enduring Freedom and Operation New Dawn.

The Senate amendment contained a similar provision (sec. 865).

The House recedes.

*Competition and review of contracts for property or services in support of a contingency operation (sec. 844)*

The House bill contained a provision (sec. 826) that would require the Department of

Defense to establish, measure, and monitor goals for competition in contracts performed outside the United States in support of contingency operations.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees understand that separate goals would be established under this section for any overseas contingency operation requiring significant contract support. While limitations on competition may be justified by urgent contracting requirements early in a contingency operation, the conferees expect the Department to transition to sustainment contracting, with increasing levels of competition, as rapidly as practicable.

*Inclusion of associated support services in rapid acquisition and deployment procedures for supplies (sec. 845)*

The Senate amendment contained a provision (sec. 864) that would amend section 806 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107-314) to include associated support services in the rapid acquisition procedures authorized by that section, as requested by the Department of Defense.

The House bill contained no similar provision.

The House recedes.

*Joint Urgent Operational Needs Fund to rapidly meet urgent operational needs (sec. 846)*

The Senate amendment contained a provision (sec. 863) that would establish a Joint Urgent Operational Needs Fund to rapidly meet urgent operational needs.

The House bill contained no similar provision.

The House recedes.

Subtitle E—Defense Industrial Base Matters  
*Assessment of the defense industrial base pilot program (sec. 851)*

The House bill contained a provision (sec. 831) that would require the Secretary of Defense to submit a report to the congressional defense committees on the defense industrial base (DIB) pilot program.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees emphasize the importance of a careful and objective assessment of the effectiveness of the DIB pilot program, since it could serve as a model for other critical infrastructure sectors. The Defense Cyber Crime Center (DC3) reports that the so-called "threat indicators" they have compiled for the Department of Defense networks and the defense industrial base, respectively, reflect a very small overlap. According to DC3, the overlap between these threat indicators and those of the financial sector is significantly smaller still. These statistics are interpreted to indicate that each sector is experiencing attacks from different threat actors using different tactics and techniques. If correct, this would mean that signatures developed for one sector could have limited utility for a different sector or organization. If the intelligence community is to provide threat signatures to defend all of the government departments and agencies, and all of the critical infrastructure sectors, the resources required could be very extensive.

The conferees request that the assessment required by this section address this specific issue.

*Strategy for securing the defense supply chain and industrial base (sec. 852)*

The House bill contained a provision (sec. 832) that would require the Secretary of Defense to assess the defense industrial base

and develop mitigation strategies to address any gaps and vulnerabilities identified in the assessment.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to address industrial base and supply chain issues (including risks and vulnerabilities) through the sector-by-sector, tier-by-tier assessment of the industrial base now underway and the annual industrial base report required by section 2504 of title 10, United States Code.

*Assessment of feasibility and advisability of establishment of rare earth material inventory (sec. 853)*

The House bill contained a provision (sec. 835) that would require the Department of Defense to develop a plan for the establishment of a rare earth material inventory.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Department to assess the feasibility and advisability of establishing a rare earth material inventory.

*Department of Defense assessment of industrial base for night vision image intensification sensors (sec. 854)*

The Senate amendment contained a provision (sec. 890) that would require an assessment of the night vision image intensification sensor industrial base.

The House bill contained no similar provision.

The House recedes.

*Technical amendment relating to responsibilities of Deputy Assistant Secretary of Defense for Manufacturing and Industrial Base Policy (sec. 855)*

The Senate amendment contained a provision (sec. 1086) that would correct an erroneous statutory reference in section 139e of title 10, United States Code, as added by section 896 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (P.L. 11-383).

The House bill contained no similar provision.

The House recedes.

#### Subtitle F—Other Matters

*Clarification of jurisdiction of the United States district courts to hear bid protest disputes involving maritime contracts (sec. 861)*

The House bill contained a provision (sec. 843) that would ensure that the jurisdiction of the United States district courts to hear bid protest disputes involving maritime contracts is consistent with jurisdiction over other types of bid protests under federal law.

The Senate amendment contained no similar provision.

The House recedes.

*Encouragement of contractor Science, Technology, Engineering, and Math (STEM) programs (sec. 862)*

The House bill contained a provision (sec. 845) that would establish a preference for offerors who take steps to encourage and enhance undergraduate, graduate, and doctoral programs in science, technology, engineering, and math (“STEM” programs).

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Department of Defense to develop programs and incentives to encourage contractors to support STEM programs.

*Sense of Congress and report on authorities available to the Department of Defense for multiyear contracts for the purchase of alternative fuels (sec. 863)*

The House bill contained a provision (sec. 848) that would express the sense of Congress on the desirability of long-term contracting for alternative fuels.

The Senate amendment contained a provision (sec. 849) that would require the Secretary of Defense to report to Congress on available authorities for such long-term contracting.

The Senate recedes with an amendment combining the two provisions.

*Acquisition workforce improvements (sec. 864)*

The House bill contained a provision (sec. 849) that would foster and promote the acquisition workforce on a government-wide basis.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

*Modification of delegation of authority to make determinations on entry into cooperative research and development agreements with NATO and other friendly organizations and countries (sec. 865)*

The Senate amendment contained a provision (sec. 882) that would authorize the Secretary of Defense to delegate authority under section 2350a of title 10, United States Code, to the Under Secretary of Defense for Acquisition, Technology, and Logistics, and the Principal Deputy Under Secretary of Defense for Acquisition, Technology, and Logistics.

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the Secretary to delegate authority to the Under Secretary of Defense for Acquisition, Technology, and Logistics, and the Assistant Secretary of Defense for Research, Development, and Engineering.

*Three-year extension of test program for negotiation of comprehensive small business subcontracting plans (sec. 866)*

The Senate amendment contained a provision (sec. 886) that would extend the test program for the negotiation of comprehensive small business subcontracting plans until September 30, 2014.

The House bill contained no similar provision.

The House recedes with an amendment that would extend the program until December 31, 2014.

*Five-year extension of Department of Defense mentor-protégé program (sec. 867)*

The Senate amendment contained a provision (sec. 887) that would extend the Department of Defense mentor-protégé program through September 30, 2018.

The House bill contained no similar provision.

The House recedes.

The conferees are aware that the Department of Defense (DOD) mentor-protégé program is the oldest of the federal mentor protégé programs, and the only one to provide appropriated funds for cost reimbursement for mentors that support small businesses. The conferees believe that this has been a valuable program to both the Department, as well as to small businesses and encourage the DOD mentor-protégé program to look at opportunities to align with the Small Business Administration (SBA) mentor-protégé program. Further, the conferees encourage the Department to add into future DOD mentor-protégé annual reports descrip-

tions of efforts being made to align with the program standards of the SBA mentor-protégé program, identification of opportunities for synergy, and analysis of technical, legal or regulatory impediments to closer alignment with the program standards of the SBA mentor-protégé program.

#### LEGISLATIVE PROVISIONS NOT ADOPTED

*Additional information on waivers under the Buy American Act by Department of Defense required to be included in annual report*

The House bill contained a provision (sec. 850) that would amend section 812 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136) to require that additional information be included in the annual report of the Department of Defense on Buy American waivers.

The Senate amendment contained no similar provision.

The House recedes.

*Assessment of Department of Defense contracting actions and the impact on small business*

The House bill contained a provision (sec. 851) that would require the Inspector General of the Department of Defense to conduct an assessment of consolidated contracting actions relating to base services and construction activities.

The Senate amendment contained no similar provision.

The House recedes.

The conferees expect the Department of Defense (DOD) to manage its business operations in an efficient manner. At the same time, the conferees understand that the consolidation of contracts for base services and construction can have a detrimental impact on the ability of small businesses to compete for such contracts. This issue has been addressed by Congress in the Small Business Jobs Act of 2010 (Public Law 111-240), the Small Business Reauthorization Act of 1997 (Public Law 105-135), the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136).

The conferees direct the Comptroller General to review DOD's compliance with provisions of law and regulation addressing contract consolidation and bundling with regard to contracts for base services and construction. The Comptroller General's report should address the scope of consolidation or bundling undertaken by the Department, the justification provided for such consolidation or bundling, and the impact of such consolidation or bundling on contracting with small business concerns. The report should also address associated issues, including the need for training, the availability of alternative contracting approaches, and any recommendations the Comptroller General may have to improve the Department's performance in this area.

*Comptroller General assessment of government competition in the Department of Defense industrial base*

The House bill contained a provision (sec. 833) that would require the Comptroller General to assess the effect of government-mandated competition on the defense industrial base.

The Senate amendment contained no similar provision.

The House recedes.

*Comptroller General of the United States reports on Department of Defense implementation of justification and approval requirements for certain sole-source contracts*

The Senate amendment contained a provision (sec. 850) that would require the Comptroller General of the United States to report to Congress on the implementation of

section 811 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) by the Department of Defense (DOD).

The House bill contained no similar provision.

The Senate recedes.

The conferees direct the Secretary of Defense to report to the Committees on Armed Services of the Senate and the House of Representatives, no later than March 1, 2012, and March 1, 2013, on the implementation of section 811. The Secretary's report should provide, at a minimum, an assessment of the following: (1) the number of sole-source contracts in excess of \$20.0 million that have been awarded to each category of 8(a) participant; (2) the dollar amounts associated with such contracts; (3) the justifications cited for the award of such sole-source contracts; (4) a description of the goods or services that were or are to be provided under such contracts; (5) the percentage of work on such contracts that was subcontracted by the awardee or performed by an entity other than the awardee; and (6) any measures taken by the Department of Defense or the Small Business Administration to ensure that such contracts are not abused.

The conferees further direct the Comptroller General to provide the committees, no later than 90 days after DOD submits the March 1, 2012, and March 1, 2013, reports, with his own assessment of the extent to which the Department's implementation of section 811 ensures that sole-source contracts are awarded in applicable procurements only when those awards have been determined to be in the best interest of the Department.

*Comptroller General of the United States reports on noncompetitive and one-offer contracts awarded by the Department of Defense*

The Senate amendment contained a provision (sec. 847) that would require the Comptroller General to report to the Committees on Armed Services of the Senate and the House of Representatives on non-competitive and one-offer contracts awarded by the Department of Defense during fiscal years 2012, 2013, and 2014.

The House bill contained no similar provision.

The Senate recedes.

The conferees direct the Comptroller General to report to the Committees on Armed Services of the Senate and the House of Representatives not later than March 31 of 2013, 2014, and 2015, on non-competitive and one-offer contracts awarded by the Department of Defense during the preceding fiscal year. The Comptroller General's reports should address the number and dollar amounts of non-competitive and one-offer contracts awarded, the basis for exceptions from competitive procedures and the adequacy of the justifications for such exceptions, and the impact of recent Department of Defense guidance on one-offer contracts.

*Definitions*

The House bill contained a provision (sec. 824) that would define certain terms.

The Senate amendment contained no similar provision.

The House recedes.

*Exemption of Department of Defense from alternative fuel procurement requirement*

The House bill contained a provision (sec. 844) that would exempt the Department of Defense from section 526 of the Energy Independence and Security Act (42 U.S.C. 17142).

The Senate amendment contained no similar provision.

The House recedes.

*Extension and expansion of small business programs of the Department of Defense*

The Senate amendment contained a provision (sec. 885) that would extend through September 30, 2018, the Department of defense Small Business Innovative Research (SBIR) program and associated programs and authorities.

The House bill contained no similar provision.

The Senate recedes.

The SBIR program would be extended by a separate division of the bill.

*Para-aramid fibers and yarns*

The House bill contained a provision (sec. 816) that would repeal section 807 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261).

The Senate amendment contained no similar provision.

The House recedes.

*Procurement of photovoltaic devices*

The House bill contained a provision (sec. 842) that would address the circumstances in which the Buy American Act (41 U.S.C. 10a-10d) applies to photovoltaic devices acquired by contractors and lessees under energy savings performance contracts, utility service contracts, private housing contracts, and land leases.

The Senate amendment contained a similar provision (sec. 827).

The conference agreement does not include either provision.

*Prohibition on use of funds for certain programs*

The Senate amendment contained a provision (sec. 826) that would prohibit the use of Department of Defense funds for any program that creates a price evaluation adjustment that would be inconsistent with the court of appeals decision in *Rothe Development Corporation v. Department of Defense*, 545 F.3d 1023 (2008).

The House bill contained no similar provision.

The Senate recedes.

The conferees note that the Federal Acquisition Regulation was revised earlier this year to eliminate the authority to establish such a price preference.

*Quality Assurance Surveillance Plan for security contractors operating in Afghanistan and in support of other contingency operations*

The House bill contained a provision (sec. 825) that would establish new requirements for the oversight of private security contractors operating in Afghanistan.

The Senate amendment contained no similar provision.

The House recedes.

The conferees agree that Department of Defense (DOD) oversight of private security contractors in Afghanistan has been deficient, and that significant improvements are needed in this regard. However, the issue of oversight and accountability of contractors performing private security functions in areas of combat operations was recently addressed in section 831 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The conferees direct the Government Accountability Office to review the steps that DOD has taken to implement the requirements of section 831 and report to the congressional defense committees on the extent to which these changes have addressed deficiencies in the oversight of private security contractors.

*Report on impact of foreign boycotts on the defense industrial base*

The House bill contained a provision (sec. 834) that would require the Comptroller Gen-

eral to assess the impact of foreign boycotts on the defense industrial base.

The Senate amendment contained a similar provision (sec. 892).

The conference report does not include either provision.

The conferees direct the Comptroller General to assess the impact of foreign boycotts on the defense industrial base. The Comptroller General's report should include a summary of any foreign boycotts that posed a material risk to the defense industrial base from January 2008 to the present. The report should address policies or practices adopted by foreign governments or businesses that are intended to penalize, disadvantage, or harm Department of Defense contractors or subcontractors because of their relationship with the Department.

*Reports on use of indemnification agreements*

The House bill contained a provision (sec. 846) that would require the Secretary of Defense to report to the congressional defense committees on indemnification agreements with contractors.

The Senate amendment contained no similar provision.

The House recedes.

The conferees direct the Secretary of Defense to report to the congressional defense committees, not later than 90 days after the end of each fiscal year from fiscal year 2012 to fiscal year 2015 on indemnification agreements entered with contractors in connection with overseas contingency operations during the preceding fiscal year. The Secretary's reports should address indemnification provisions relative to wrongful death and bodily injury caused by negligence and should provide the name of each contractor, a description of the indemnification provision, and a justification for the agreement.

*Supplier risk management*

The House bill contained a provision (sec. 804) that would require the Department of Defense to use a business credit reporting bureau to track existing contractors, subcontractors, and suppliers before and during the performance of contracts.

The Senate amendment contained no similar provision.

The House recedes.

The conferees encourage the Secretary of Defense to consider the use of business credit reporting bureaus or other sources of business information to assess the viability of potential offerors and contractors at appropriate points in the acquisition process.

*Waiver of "Buy American" requirement for procurement of components otherwise producible overseas with specialty metal not produced in the United States*

The Senate amendment contained a provision (sec. 846) that would allow the Secretary of Defense to waive the requirement to use specialty metals melted or produced inside the United States, if the Secretary determines that, in the absence of a waiver, both the metals and the products fabricated from the metals would be produced overseas.

The House bill contained no similar provision.

The Senate recedes.

TITLE IX—DEPARTMENT OF DEFENSE  
ORGANIZATION AND MANAGEMENT  
Subtitle A—Department of Defense  
Management

*Revision of defense business systems requirements (sec. 901)*

The House bill contained a provision (sec. 901) that would update the structure and process of the defense business systems investment review boards and clarify management and oversight responsibilities based on

recent changes in the organization and management of the Department of Defense.

The Senate amendment contained a similar provision (sec. 1002).

The Senate recedes with an amendment that would combine the two provisions and address comments received from the Department of Defense.

*Qualifications for appointments to the position of Deputy Secretary of Defense (sec. 902)*

The Senate amendment contained a provision (sec. 901) that would establish qualifications for appointments to the position of Deputy Secretary of Defense, to reflect the new role of the Deputy Secretary as Chief Management Officer of the Department.

The House bill contained no similar provision.

The House recedes.

*Designation of Department of Defense senior official with principal responsibility for airship programs (sec. 903)*

The Senate amendment contained a provision (sec. 902) that would require the Secretary of Defense to designate a senior official of the Department of Defense as the official with principal responsibility for the airship programs of the Department.

The House bill contained no similar provision.

The House recedes.

*Memoranda of agreement on identification and dedication of enabling capabilities of general purpose forces to fulfill certain requirements of special operations forces (sec. 904)*

The Senate amendment contained a provision (sec. 903) that would require each secretary of a military department to enter into a memorandum of agreement with the Commander of U.S. Special Operations Command establishing the procedures by which the availability of the enabling capabilities of the general purpose forces will be synchronized with the training and deployment cycle of special operations forces.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

*Assessment of Department of Defense access to non-United States citizens with scientific and technical expertise vital to the national security interests (sec. 905)*

The Senate amendment contained a provision (sec. 906) that would require the Secretary of Defense to conduct an assessment of current and potential mechanisms to permit the Department of Defense to employ non-United States citizens with critical scientific and technical skills that are vital to national security.

The House bill contained no similar provision.

The House recedes.

*Sense of Congress on use of modeling and simulation in Department of Defense activities (sec. 906)*

The Senate amendment contained a provision (sec. 907) that would establish a sense of Congress to encourage the Department of Defense to continue the use and enhancement of modeling and simulation across the spectrum of defense activities.

The House bill contained no similar provision.

The House recedes.

*Sense of Congress on ties between Joint Warfighting and Coalition Center and Allied Command Transformation of NATO (sec. 907)*

The Senate amendment contained a provision (sec. 908) that would express the sense of

Congress that the successor organization to the U.S. Joint Forces Command, the Joint Warfighting and Coalition Center, should establish close ties with the North Atlantic Treaty Organization's Allied Command Transformation command.

The House bill contained no similar provision.

The House recedes.

*Report on effects of planned reductions of personnel at the Joint Warfare Analysis Center on personnel skills (sec. 908)*

The Senate amendment contained a provision (sec. 909) that would require the Secretary of Defense to conduct an assessment of the effects of planned reductions of personnel at the Joint Warfare Analysis Center on the personnel skills to be available at the Center after the reductions.

The House bill contained no similar provision.

The House recedes.

#### Subtitle B—Space Activities

*Harmful interference to Department of Defense Global Positioning System (sec. 911)*

The House bill contained a provision (sec. 911) that would prohibit the Federal Communications Commission (FCC) from finalizing its January 26, 2011, order until the FCC has resolved concerns about widespread harmful interference with Global Positioning System (GPS) receivers of the Department of Defense (DOD). It would further require a notice to Congress of certain FCC decision documents, as well as the complete final working group report undertaken per the January 26, 2011, order.

The Senate amendment contained a similar provision (sec. 913) that would direct the Secretary of Defense to review and assess the ability of national security GPS receivers to receive the signals of the GPS satellites without interruption or interference and determine if commercial communications services are causing or will cause widespread or harmful interference with national security GPS receivers. In the event that the review determines that commercial communications services are causing or will cause widespread or harmful interference with national security GPS receivers, the Secretary would be required to promptly notify the congressional defense committees. The provision would direct the Secretary to conduct such a review every 90 days for 2 years or until the Secretary determines there is no widespread or harmful interference with national security GPS receivers by commercial communications services, whichever is earlier.

The House recedes with an amendment that would add the reporting requirements of the Senate provision as a separate subsection to the Senate provision.

*Authority to designate increments or blocks of satellites as major subprograms subject to acquisition reporting requirements (sec. 912)*

The Senate amendment contained a provision (sec. 912) that would amend section 2430a(a)(1) of title 10, United States Code, to authorize the Secretary of Defense to designate blocks or increments of two or more space vehicles as a major subprogram for the purposes of acquisition reporting.

The House bill contained no similar provision.

The House recedes with a technical amendment that would change the word "space vehicles" to "satellites".

#### Subtitle C—Intelligence-Related Matters

*Report on implementation of recommendations by the Comptroller General on intelligence information sharing (sec. 921)*

The House bill contained a provision (sec. 921) that would require the Secretary of De-

fense to submit a report to the appropriate congressional committees and the Comptroller General a report on the Secretary's actions in response to the Comptroller General's recommendations regarding intelligence information sharing. The provision also requires the Comptroller General to review the Secretary's report and assess whether the Secretary's actions are consistent with the recommendations.

The Senate amendment contained no similar provision.

The Senate recedes.

*Insider threat detection (sec. 922)*

The House bill contained a provision (sec. 922) that would require the Secretary of Defense to establish a program for information sharing protection and insider threat mitigation, and to provide the congressional defense committees regular briefings on the Secretary's strategy, strategy implementation, and associated resources. In addition, annual budget submissions must include identification of the resources requested for the program.

The Senate amendment contained a similar provision (sec. 932).

The Senate recedes with an amendment that would include several procedural and technical options for countering the insider threat that were contained in the Senate provision.

The conferees concur with the admonishment contained in the Senate provision for the Department of Defense to fully integrate its program to counter the insider threat with its overall cybersecurity strategy and programs because of the high degree of overlap between the two challenges.

*Expansion of authority for exchanges of mapping, charting, and geodetic data to include nongovernmental organizations and academic institutions (sec. 923)*

The Senate amendment contained a provision (sec. 921) that would expand the authority of the Secretary of Defense to authorize the National Geospatial Intelligence Agency to exchange or furnish mapping, charting, and geodesy data, supplies, or services to nongovernmental organizations and academic institutions pursuant to an agreement with those organizations.

The House bill contained no similar provision.

The House recedes.

*Ozone Widget Framework (sec. 924)*

The Senate amendment contained a provision (sec. 923) that would require the Director of the Defense Information Systems Agency (DISA) to publish and maintain on the Internet the Application Programming Interface specifications, a developer's toolkit, source code, and such other information on, and resources for, the Ozone Widget Framework that are necessary to permit individuals and companies to develop, integrate, and test analysis tools and applications. The provision also would require the DISA Director to encourage and foster the use, support, development, and enhancement of the Ozone Widget Framework itself by commercial industry.

The House bill contained no similar provision.

The House recedes with an amendment that would designate the Department of Defense Chief Information Officer as the responsible official for carrying out this provision, rather than the Director of DISA.

*Plan for incorporation of enterprise query and correlation capability into the Defense Intelligence Information Enterprise (sec. 925)*

The Senate amendment contained a provision (sec. 924) that would require the Under

Secretary of Defense for Intelligence to incorporate an advanced enterprise-wide distributed query and correlation capability into the Defense Intelligence Information Enterprise, to conduct a pilot demonstration of such a capability, and to rationalize the multiple ongoing and planned deployments of large-scale query and correlation systems that operate on centralized data stores.

The House bill contained no similar provision.

The House recedes with an amendment that would establish a sunset date for the pilot program of September 30, 2014.

*Facilities for intelligence collection or special operations activities abroad (sec. 926)*

The Senate amendment contained a provision (sec. 922) that would create a narrow exception to the current requirement in section 2682 of title 10, United States Code, that the Secretary of Defense ensures that jurisdiction over, and maintenance and repair of real property facilities used by an activity or agency of the Department of Defense other than a military department be exercised by or through a military department. The exception proposed in this provision would be available only for real property facilities acquired as part, or in support, of Department of Defense intelligence or special operations activities abroad, where security is paramount.

The House bill contained no similar provision.

The House recedes with an amendment that would establish a sunset date for this authority on September 30, 2015, or the date of enactment of the National Defense Authorization Act for Fiscal Year 2016, whichever is later.

Subtitle D—Total Force Management

*General policy for total force management (sec. 931)*

The House bill contained a provision (sec. 931) that would amend section 129a of title 10, United States Code, to require the Department of Defense to establish a total force management policy which comprehensively addresses the Department's military, civilian, and contractor workforces.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would clarify the requirements of the provision.

*Revisions to Department of Defense civilian personnel management constraints (sec. 932)*

The House bill contained a provision (sec. 932) that would amend section 129 of title 10, United States Code, which prohibits the management of the Department of Defense civilian workforce on the basis of arbitrary ceilings and constraints, to ensure that manpower requirements are established on the basis of the total force management policy developed in accordance with section 129a of title 10, as amended.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

*Additional amendments relating to total force management (sec. 933)*

The House bill contained a provision (sec. 933) that would make conforming amendments to a series of statutes to ensure that the total force management policy established in accordance with section 129a of title 10, United States Code, as amended, is considered in key workforce decisions of the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

*Modifications of annual defense manpower requirements report (sec. 934)*

The House bill contained a provision (sec. 934) that would revise the annual defense manpower requirements report required by section 115a, to ensure that the report addresses all components of the Department of Defense workforce, including the military, civilian, and contractor workforce.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

*Revisions to strategic workforce plan (sec. 935)*

The House bill contained a provision (sec. 935) that would amend section 115b of title 10, United States Code, to revise the requirements established in that section for a Department of Defense strategic workforce plan.

The Senate amendment contained no similar provision.

The Senate recedes.

*Amendments to requirement for inventory of contracts for services (sec. 936)*

The House bill contained a provision (sec. 936) that would make clarifying amendments to section 2330a of title 10, United States Code, which requires the Department to develop an inventory of contract services.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees note that the inventory, when fully developed in accordance with statutory requirements, will provide the Department with useful workforce information for identifying inherently governmental functions inappropriately performed under contract, informing strategic human capital planning, and facilitating an appropriate mix of military, civilian, and contractor personnel. At the same time, a compliant inventory will be an important acquisition tool, enabling the Department to better leverage its buying power, rationalize its supplier base, foster competitive procurements, and ensure the best value for the taxpayers' dollar.

The conferees are disappointed that the Department has yet to take the steps needed to achieve full compliance with the statutory requirements. The conferees are encouraged by the Department's recent development of a plan to achieve such compliance and urge the Department to implement this plan as rapidly and completely as practicable.

*Preliminary planning and duration of public-private competitions (sec. 937)*

The House bill contained a provision (sec. 938) that would amend section 2461 of title 10, United States Code, to clarify when "preliminary planning" begins for the purpose of public-private competitions governed by that provision.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

*Conversion of certain functions from contractor performance to performance by Department of Defense civilian employees (sec. 938)*

The House bill contained a provision (sec. 939) that would amend section 2463 of title 10, United States Code, to clarify the requirements for conversion of functions from contractor performance to performance by Department of Defense civilian employees.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would clarify the provision.

The conferees expect the use of insourcing to be focused, in accordance with the total force management policy developed in accordance with section 129a of title 10, United States Code, as amended, on ensuring appropriate government capacity to perform acquisition workforce and other critical government functions. The conferees note that section 7.503 of the Federal Acquisition Regulation states that contracts "shall not be used for the performance of inherently governmental functions."

Subtitle E—Quadrennial Roles and Missions and Related Matters

*Chairman of the Joint Chiefs of Staff assessment of contingency plans (sec. 941)*

The House bill contained a provision (sec. 954) that would amend section 153 of title 10, United States Code, to require the Chairman of the Joint Chiefs of Staff to submit an assessment of combatant command contingency plans.

The Senate amendment contained no similar provision.

The Senate recedes.

*Quadrennial defense review (sec. 942)*

The House bill contained a provision (sec. 955) that would amend section 118 of title 10, United States Code, to modify language specifying that the review's recommendations should not be constrained by the Department of Defense's budget request.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would strike the sense of Congress and modify language regarding the review's recommendations.

The conferees note that the report accompanying the Quadrennial Defense Review (QDR) is an important strategic document intended to be based upon an analysis unconstrained by the budgetary environment. The conferees emphasize that the QDR should allow Congress to assess the levels of acceptable strategic risk and then evaluate the extent to which the Department of Defense's budget request achieves the objectives associated with the national security strategy and national military strategy.

Subtitle F—Other Matters

*Activities to improve multilateral, bilateral, and regional cooperation regarding cybersecurity (sec. 951)*

The House bill contained a provision (sec. 963) that would establish a cybersecurity fellowship program within the Department of Defense that would allow for the temporary assignment of a member of the military force of a foreign country to a Department of Defense organization for the purpose of assisting the member to obtain education and training to improve the member's ability to understand and respond to information security threats, vulnerabilities of information security systems, and the consequences of information security incidents.

The Senate amendment contained no similar provision.

The Senate recedes.

*Report on United States Special Operations Command structure (sec. 952)*

The House bill contained a provision (sec. 964) that would require the Secretary of Defense to submit to the congressional defense committees a study of the United States Special Operations Command subunified structure.

The Senate amendment contained no similar provision.

The Senate recedes.

*Strategy to acquire capabilities to detect previously unknown cyber attacks (sec. 953)*

The Senate amendment contained a provision (sec. 931) that would require the Secretary of Defense to develop and implement a strategy to acquire advanced threat discovery capabilities to complement current cybersecurity systems that depend heavily on advance knowledge of specific attacks.

The House bill contained no similar provision.

The House recedes.

*Military activities in cyberspace (sec. 954)*

The House bill contained a provision (sec. 962) that would clarify that the Secretary of Defense has the authority to conduct clandestine cyberspace activities in support of military operations pursuant to the Authorization for the Use of Military Force (Public Law 107-40; title 50 United States Code, section 1541 note) outside of the United States or to defend against a cyber attack on an asset of the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment.

The conferees recognize that because of the evolving nature of cyber warfare, there is a lack of historical precedent for what constitutes traditional military activities in relation to cyber operations and that it is necessary to affirm that such operations may be conducted pursuant to the same policy, principles, and legal regimes that pertain to kinetic capabilities.

The conferees also recognize that in certain instances, the most effective way to deal with threats and protect U.S. and coalition forces is to undertake offensive military cyber activities, including where the role of the United States Government is not apparent or to be acknowledged. The conferees stress that, as with any use of force, the War Powers Resolution may apply.

#### LEGISLATIVE PROVISIONS NOT ADOPTED

*Redesignation of the Department of the Navy as the Department of the Navy and Marine Corps*

The House bill contained a provision (sec. 902) that would redesignate the name of the Department of the Navy as the Department of the Navy and Marine Corps. Additionally, the article would redesignate the titles of the Secretary of the Navy, the Under Secretary of the Navy, the Assistant Secretaries of the Navy and the General Counsel of the Navy.

The Senate amendment contained no similar provision.

The House recedes.

*Modification of temporary suspension of public-private competitions for conversion of Department of Defense functions to contractor performance*

The House bill contained a provision (sec. 937) that would lift the temporary suspension of public-private competitions that was included in section 325 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

The Senate amendment contained no similar provision.

The House recedes.

The conferees recognize that the conduct of public-private competitions can be a useful tool for implementing total force management decisions. However, the conferees note that the Department has not yet complied with the statutory requirements for an

inventory of contract services. The conferees conclude that the appropriate use of public-private competition is predicated on a sound planning process and the availability of accurate information, including the information that would be supplied by a compliant inventory.

*Assessment of appropriate Department of Defense and contractor personnel for the Defense Medical Readiness Training Institute*

The House bill contained a provision (sec. 940) that would require the Secretary of Defense to conduct an assessment of the appropriate mix of military, civilians, and contractor personnel to carry out the mission of the Defense Medical Readiness Training Institute.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that elsewhere in this Act the Secretary is required to establish policies and procedures for determining the most appropriate and cost efficient mix of military, civilian and contractor personnel to perform the mission of the Department of Defense. The conferees expect that the Secretary will implement such policies across all programs, including medical readiness training programs.

*Transfer of provisions relating to quadrennial roles and missions review*

The House bill contained a provision (sec. 951) that would amend title 10, United States Code, to transfer the requirement for the Chairman of the Joint Chiefs of Staff to conduct an assessment of the roles and missions of the armed forces from section 118n to section 153, and to enhance the Chairman's role in advising the Secretary of Defense on the assignment of functions of the armed forces.

The Senate amendment contained no similar provision.

The House recedes.

The conferees urge the Secretary of Defense to use the Quarterly Roles and Missions Review (QRMR) required by section 118b of title 10, United States Code, to identify capability gaps and areas of unnecessary duplication. The conferees believe that QRMR, if conducted as intended, would provide a solid basis for reducing waste while also improving the joint warfighting capability of the Department of Defense.

*Revisions to the quadrennial roles and missions review*

The House bill contained a provision (sec. 952) that would amend section 118b of title 10, United States Code, to modify the requirements of the Quadrennial Roles and Missions Review.

The Senate amendment contained no similar provision.

The House recedes.

*Amendment to presentation of future-years budget and Comptroller General report on budget justification material*

The House bill contained a provision (sec. 953) that would amend section 222(b) of title 10, United States Code, to include the functions of each of the armed forces as identified under the most recent Quadrennial Roles and Missions Review. This section also would require the Comptroller General of the United States to review Department of Defense regulations, policies, and guidance governing the construction of budget exhibits and to provide recommendations for their improvement.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that the Secretary of Defense has not complied with the requirement in section 222 of title 10, United States Code, to present the future-years budget by core mission areas identified as a result of the Quarterly Roles and Missions Review. The conferees note also that it is difficult to relate how the Department's annual budget request, including the future-years defense program, supports the services' core missions and functions as determined by the Quarterly Roles and Missions Review. The conferees will continue to seek a better understanding of the budgetary challenges associated with aligning and communicating how requested resources support core missions and functions.

*Deadline revision for report on foreign language proficiency*

The House bill contained a provision (sec. 961) that would modify the date on which an annual report on language proficiency is submitted.

The Senate amendment contained no similar provision.

The House recedes. The conferees agree to include such changes in the subtitle of the bill regarding repeal and modification of reporting requirements.

*Sense of Congress regarding the performance of commercially-available activities by Department of Defense civilian employees*

The House bill contained a provision (sec. 965) that would express the sense of Congress regarding the performance of commercially-available activities by Department of Defense civilian employees.

The Senate amendment contained no similar provision.

The House recedes.

*Clarification of status of participants of defense industrial base active cyber defense pilot project*

The House bill contained a provision (sec. 966) that would establish that, notwithstanding any other provision of law, any nongovernment entity or personnel participating in the defense industrial base active cyber defense pilot project shall not be considered an agent of the government.

The Senate amendment contained no similar provision.

The House recedes.

The conferees are aware that programs like the defense industrial base active cyber defense pilot are important components of the Department of Defense's (DOD) cyber defense strategy. The conferees are also aware that information sharing is critical to making pilots like this, and overall cyber defense strategy, effective. The conferees believe that there are issues that may be impeding better information sharing of threats and vulnerabilities by industry, resulting in concerns that industry may be acting as agents of the government.

Therefore, the conferees direct the DOD Chief Information Officer to brief the congressional defense committees 90 days after the enactment of this Act on any issues impeding industry's ability to share cyber threat or vulnerability information with the government, and any recommendations for addressing those concerns.

*Expansion of oversight offices in Department of Defense*

The House bill contained a provision (sec. 967) that would require the establishment of a new Senate-confirmed position of Assistant Secretary of Defense for Contingency Contracting and a new Office of Contingency Contracting.

The Senate amendment contained no similar provision.

The House recedes.

*Report on the manufacturing policy of the United States*

The House bill contained a provision (sec. 1099L) that would require the Secretary of Defense to report to Congress on the manufacturing industry of the United States.

The Senate amendment contained no similar provision.

The House recedes.

*Commercial space launch cooperation*

The Senate amendment contained a provision (sec. 911) that would recommend as stated in the Senate report accompanying S. 1235 (S. Rept. 112-26) of the National Defense Authorization Act for Fiscal Year 2012 a "provision that would facilitate cooperation between the private sector and the Department of Defense (DOD) in using DOD space transportation infrastructure. The provision would authorize the Secretary of Defense to maximize the use of the space transportation infrastructure by the private sector, and maximize the effectiveness and efficiency of DOD's use of the infrastructure, reduce costs, and encourage commercial space activities through the use of contracts or other cooperative agreements. The DOD would be authorized to enter into such contracts or agreements with private sector entities to provide or receive specific space launch and reentry range support and services. Before entering into any such contracts or agreements the Secretary would have to determine that such contract or agreement is in the best interest of the government, would not interfere with DOD requirements and would not compete with commercial space entities, unless the competition is in the national security interest of the United States. Pursuant to a contract or agreement, which must be managed in accordance with DOD procurement regulations, the Secretary of Defense could accept funds, services, or equipment to enable participation in joint space transportation infrastructure improvements with the private sector. The provision would also establish an account in the Treasury of the United States into which the Secretary would deposit any funds received. In addition, the Secretary would submit to the congressional defense committees an annual report describing how any funds, equipment, or services were used during the preceding fiscal year."

The House bill contained no similar provision.

The Senate recedes.

The conferees ask that the Department of Defense submit legislation that does not have mandatory scoring associated with the acceptance of funds by private entities and consider other processes or authorities in statute to accomplish this objective.

*Enhancement of authorities relating to the United States Northern Command and other combatant commands*

The Senate amendment contained a provision (sec. 1607) that would designate the United States Northern Command and the United States Pacific Command as the combatant commands principally responsible for the support of civil authorities in the United States by the armed forces.

The House bill contained no similar provision.

The Senate recedes.

**TITLE X—GENERAL PROVISIONS**

**Subtitle A—Financial Matters**

*General transfer authority (sec. 1001)*

The House bill contained a provision (sec. 1001) that would provide the Department

with general transfer authority totaling \$4.0 billion in fiscal year 2012.

The Senate amendment contained a similar provision (sec. 1001) that would provide the Department with \$5.0 billion in general transfer authority.

The Senate recedes with an amendment providing the Department with \$4.0 billion in general transfer authority and a provision that allows the Secretary of Defense to transfer up to \$125.0 million to the Secretary of Energy from amounts appropriated to the Department of Defense, for weapons activities of the National Nuclear Security Administration.

*Budgetary effects of this Act (sec. 1002)*

The House bill contained a provision (sec. 1002) that would determine the budgetary effects of this Act.

The Senate amendment contained a similar provision (sec. 4).

The Senate recedes.

*Additional requirements relating to the development of Financial Improvement and Audit Readiness Plan (sec. 1003)*

The House bill contained two provisions that would address the Department of Defense's Financial Improvement Audit Readiness (FIAR) plan and report. The first provision (sec. 1066) would require that the report include additional detail on subordinate activities and interim milestones for audit readiness. The second provision (sec. 1067) would require the Secretary of Defense to develop a corrective action plan to address weaknesses and deficiencies in the execution of the FIAR plan.

The Senate bill also contained two provisions that would address the FIAR plan and report. The first provision (sec. 1005) would require that the Department achieve a complete and validated full Statement of Budgetary Resources (SBR statements) by no later than September 30, 2014. The second provision (sec. 1006) would require the Department to develop a plan, including interim objectives and milestones for achieving this objective.

The House recedes with an amendment that would combine the House and Senate provisions. The conference amendment would require the Department to establish a specific plan, with interim objectives and milestones, for meeting the September 30, 2014, deadline for audit-ready SBR statements, to develop metrics and mitigating strategies for missed milestones and program delays, and to report to Congress on the steps taken and to be taken.

Today's challenging fiscal environment requires that management decisions be based on sound and reliable financial data. For this reason, the conferees are concerned that the Department's financial management remains on the Government Accountability Office's High Risk List of government programs and activities that are subject to waste and mismanagement. Achieving audit-ready SBR statements by the 2014 deadline would be a significant accomplishment and an important milestone on the Department's path to achieving full audit-readiness by the 2017 statutory deadline.

While achieving a clean audit opinion is a necessary step toward removing the Department's financial management from the High Risk list, it is far from sufficient. To be meaningful, a clean audit statement must be repeatable. For this reason, the conference amendment would require that the Department's FIAR plan be based on improvements to the Department's business processes and controls as well as efforts to modernize its

business systems to a degree sufficient for the Department to prepare timely, reliable, and complete financial management information on a repeatable basis.

*Display of procurement of equipment for the reserve components of the armed forces under estimated expenditures for procurement in future-years defense programs (sec. 1003A)*

The Senate amendment contained a provision (sec. 1606) that would require the Department of Defense, in its future-years defense program submitted with its annual budget request, to display separately the estimated expenditures and item quantities for each reserve component of the armed forces.

The House bill contained no similar provision.

The House recedes.

The conferees note that this provision would display estimated expenditures and item quantities that are included in the service budgets. The future-years defense program budget information for reserve components procurement is already available to Congress in the Department's detailed budget justification materials (Exhibit P-40, Budget Item Justification Sheet) as prepared by the military departments and submitted with the annual budget request.

**Subtitle B—Counter-Drug Activities**

*Extension of authority for joint task forces to provide support to law enforcement agencies conducting counter-terrorism activities (sec. 1004)*

The House bill contained a provision (sec. 1011) that would extend, by 1 year, the support by joint task forces under section 1022(b) of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136), as most recently amended by section 1012(a) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The Senate amendment contained a similar provision (sec. 1014) that also would prohibit the Department from utilizing this authority until it complies with section 1012(b) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011.

The House recedes.

*Three-year extension and modification of authority of Department of Defense to provide additional support for counterdrug activities of other governmental agencies (sec. 1005)*

The House bill contained a provision (sec. 1012) that would extend, by 1 year, the authority of the Department of Defense to provide additional support to counterdrug activities of other governmental agencies under section 1004 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510).

The Senate amendment contained a similar provision (sec. 1011) that would extend, by 5 years, the authority of the Department of Defense to provide additional support to counterdrug activities of other governmental agencies under section 1004 of the National Defense Authorization Act for Fiscal Year 1991. The Senate amendment also would modify the authorized recipients of support under this authority to include tribal law enforcement entities, as defined by section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

The Senate recedes with an amendment that would extend the authority for 3 years and would incorporate definitions for "Indian tribe," "tribal government," and "tribal law enforcement agency".

*Two-year extension and expansion of authority to provide additional support to counterdrug activities of certain foreign governments (sec. 1006)*

The House bill contained a provision (sec. 1013) that would extend, by 1 year, the authority to provide support for counterdrug activities of certain foreign governments under subsection (a)(2) of section 1033 of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105-85), as most recently amended by section 1014(a) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The Senate amendment contained a provision (sec. 1012) that would extend, by 5 years, the authority to provide support for counterdrug activities of certain foreign governments under subsection (a)(2) of section 1033 of the National Defense Authorization Act (NDAA) for Fiscal Year 1998, as most recently amended by section 1014(a) of the Ike Skelton NDAA for Fiscal Year 2011. The provision also would amend subsection (e)(2) of section 1033 of the NDAA for Fiscal Year 1998 by increasing the authorized maximum annual amount of support to \$100.0 million, and would amend subsection (b) of section 1033 of the NDAA for Fiscal Year 1998 to expand the list of countries eligible to receive support to include the Governments of Benin, Cape Verde, The Gambia, Ghana, Guinea, Ivory Coast, Jamaica, Liberia, Mauritania, Nicaragua, Nigeria, Sierra Leone, and Togo.

The Senate recedes with an amendment that would extend, by 2 years, the authority to provide support for counterdrug activities of certain foreign governments, increase the authorized maximum annual amount of support to \$100.0 million, and expand the list of countries authorized to receive assistance under this authority to match the Senate amendment.

*Extension of authority to support unified counter-drug and counterterrorism campaign in Colombia (sec. 1007)*

The House bill contained a provision (sec. 1014) that would extend, by 1 year, the unified counter-drug and counterterrorism campaign in the Republic of Colombia under section 1021 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375), as most recently amended by section 1011 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The Senate amendment contained an identical provision (sec. 1015).

The conference agreement includes the provision.

*Reporting requirement on expenditures to support foreign counter-drug activities (sec. 1008)*

The Senate amendment contained a provision (sec. 1013) that would extend, by 1 year, the reporting requirement on expenditures to support foreign counterdrug activities under section 1022(a) of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106-398), as amended.

The House bill contained no similar provision.

The House recedes.

Subtitle C—Naval Vessels and Shipyards

*Budgeting for construction of naval vessels (sec. 1011)*

The House bill contained a provision (sec. 1021) that would modify section 231 of title 10, United States Code, to change the requirement for a report and certification by the Secretary of Defense to an annual basis.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress on naming of Naval vessel after United States Marine Corps Sergeant Rafael Peralta (sec. 1012)*

The House bill contained a provision (sec. 1022) that would encourage the Secretary of the Navy to name the next available naval vessel after United States Marine Corps Sergeant Rafael Peralta.

The Senate amendment contained no similar provision.

The Senate recedes with amendment to state the sense of Congress that the Secretary of the Navy should name the next available naval vessel after Marine Corps Sergeant Rafael Peralta.

*Limitation on availability of funds for placing Maritime Prepositioning Ship squadrons on reduced operating status (sec. 1013)*

The Senate amendment contained a provision (sec. 1021) that prohibits the authorization of funds for placing a Maritime Prepositioning Ship squadron (MPSRON) on reduced operating status until Congress receives a report from the Secretary of Defense, the Chief of Naval Operations, and the Commandant of the Marine Corps which assesses the impact on military readiness for placing any MPSRON, or component thereof, on reduced operating status.

The House bill contained no similar provision.

The House recedes.

*Report on policies and practices of the Navy for naming the vessels of the Navy (sec. 1014)*

The Senate amendment contained a provision (sec. 1024) that would require the Secretary of Defense to submit to Congress a report on the policies and practices of the Navy for naming vessels of the Navy.

The House bill contained no similar provision.

The House recedes.

*Transfer of certain high-speed ferries to the Navy (sec. 1015)*

The Senate amendment contained a provision (sec. 1026) that would authorize the Secretary of the Navy to provide up to \$35.0 million to the Maritime Administration of the Department of Transportation for the transfer by the Maritime Administration to the Department of the Navy of jurisdiction and control over the two high-speed ferries. The Maritime Administration currently holds title to these two vessels due to the bankruptcy of the former operator of these vessels.

The House bill contained no similar provision.

The House recedes.

*Modification of conditions on status of retired aircraft carrier ex-John F. Kennedy (sec. 1016)*

The Senate amendment contained a provision (sec. 1022) that would amend section 1011 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) to allow the Navy to dispose of the ex-John F. Kennedy.

The House bill contained no similar provision.

The House recedes.

*Assessment of stationing of additional DDG-51 class destroyers at Naval Station Mayport, Florida (sec. 1017)*

The Senate amendment contained a provision (sec. 1025) requiring an assessment of the stationing of additional DDG-51 class destroyers at Naval Station Mayport, Florida.

The House bill did not contain a similar provision.

The House recedes.

Subtitle D—Counterterrorism

*Affirmation of authority of the Armed Forces of the United States to detain covered persons pursuant to the Authorization for Use of Military Force (sec. 1021)*

The House bill contained a provision (sec. 1034) that would affirm that the United States is engaged in an armed conflict with al-Qaeda, the Taliban, and associated forces.

The Senate amendment contained a provision (sec. 1031) that would affirm the authority of the Armed Forces of the United States to detain certain covered persons pursuant to the Authorization for Use of Military Force (Public Law 107-40). The provision would not affect existing law or authorities relating to the detention of United States citizens, lawful resident aliens of the United States, or any other persons who are captured or arrested in the United States.

The House recedes.

*Military custody for foreign al-Qaeda terrorists (sec. 1022)*

The Senate amendment contained a provision (sec. 1032) that would require military custody for foreign al-Qaeda terrorists who are captured in the course of hostilities authorized by the Authorization for Use of Military Force (Public Law 107-40), subject to a national security waiver. Under the provision, the President would have broad authority to issue implementation procedures, including but not limited to deciding who makes a determination of coverage, how the determination is made, and when it is made.

The House bill contained no similar provision.

The House recedes with an amendment providing that nothing in this provision shall be construed to affect the existing criminal enforcement and national security authorities of the Federal Bureau of Investigation or any other domestic law enforcement agency with regard to a covered person, regardless whether such covered person is held in military custody. The law enforcement and national security tools that would not be affected in any way by this provision include, but would not be limited to, Grand Jury subpoenas, national security letters, and actions pursuant to the Foreign Intelligence Surveillance Act (Public Law 95-511). The amendment would also authorize the President, rather than the Secretary of Defense, to waive the requirements of the provision.

The conferees note that while section 1021 of this bill would apply to "al Qaeda, the Taliban, or associated forces that are engaged in hostilities against the United States or its coalition partners," this section would apply to "al Qaeda or an associated force that acts in coordination with or pursuant to the direction of al Qaeda." The conferees agree that while the Taliban is covered by section 1021, it is not covered by this section.

*Procedures for periodic detention review of individuals detained at United States Naval Station, Guantanamo Bay, Cuba (sec. 1023)*

The House bill contained a provision (sec. 1036) that would require the Secretary of Defense to establish a process to review the detention of each individual detained at Guantanamo.

The Senate amendment contained a provision (sec. 1035) that would require the Secretary to submit to Congress a report on procedures for implementing the periodic review process required by Executive Order No. 13567 for such detainees.

The House recedes with an amendment that would clarify that the periodic review process applies to any individual who is detained as an unprivileged enemy belligerent at Guantanamo at any time on or after the date of enactment of this Act.

The conferees understand that the review process established by the Executive Order is not a legal proceeding and does not create any discovery rights in the detainee, his personal representative, or private counsel. For this reason, the conferees expect the procedures established under this section to provide that: (1) the compilation of information for the review process should be conducted in good faith, but does not create any rights on behalf of the detainee; (2) the mitigating information to be provided to the detainee is information compiled in the course of this good faith compilation effort; (3) the decision whether to permit the calling of witnesses and the presentation of statements by persons other than the detainee is discretionary, and not a matter of right; and (4) access to classified information on the part of private counsel is subject to national security constraints, clearance requirements, and the availability of resources to review and clear relevant information.

*Procedures for status determinations (sec. 1024)*

The Senate amendment contained a provision (sec. 1036) that would require the Secretary of Defense to establish procedures for determining the status of persons captured in the course of hostilities authorized by the Authorization for Use of Military Force (Public Law 107-40), including access to a military judge and a military lawyer for an enemy belligerent who will be held in long-term detention.

The House bill contained no similar provision.

The House recedes with an amendment clarifying that the Secretary of Defense is not required to apply the procedures for long-term detention in the case of a person for whom habeas corpus review is available in federal court.

Because this provision is prospective, the Secretary of Defense is authorized to determine the extent, if any, to which such procedures will be applied to detainees for whom status determinations have already been made prior to the date of the enactment of this Act.

The conferees expect that the procedures issued by the Secretary of Defense will define what constitutes "long-term" detention for the purposes of subsection (b). The conferees understand that under current Department of Defense practice in Afghanistan, a detainee goes before a Detention Review Board for a status determination 60 days after capture, and again 6 months after that. The Department of Defense has considered extending the period of time before a second review is required. The conferees expect that the procedures required by subsection (b) would not be triggered by the first review, but could be triggered by the second review, in the discretion of the Secretary.

*Requirement for national security protocols governing detainee communications (sec. 1025)*

The House bill contained a provision (sec. 1035) that would require the Secretary of Defense to submit to Congress a national security protocol governing communications and related issues for each individual detained at Guantanamo.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense

to develop and submit a single national security protocol including policies and procedures governing communications and related issues for individuals detained at Guantanamo.

*Prohibition on use of funds to construct or modify facilities in the United States to house detainees transferred from United States Naval Station, Guantanamo Bay, Cuba (sec. 1026)*

The House bill contained a provision (sec. 1037) that would prohibit the use of funds authorized to be appropriated or otherwise made available to the Department of Defense for fiscal year 2012 to build any facility in the United States to house Guantanamo detainees.

The Senate amendment contained a similar provision (sec. 1034).

The House recedes.

*Prohibition on the use of funds for the transfer or release of individuals detained at United States Naval Station, Guantanamo Bay, Cuba (sec. 1027)*

The House bill contained a provision (sec. 1039) that would prohibit the use of fiscal year 2012 Department of Defense funds to bring Guantanamo detainees, or any other individuals detained by the Department of Defense overseas pursuant to the Authorization for Use of Military Force (Public Law 107-40), to the United States.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would continue for fiscal year 2012 the prohibition on the use of Department of Defense funds to bring Guantanamo detainees to the United States.

*Requirements for certifications relating to the transfer of detainees at United States Naval Station, Guantanamo Bay, Cuba, to foreign countries and other foreign entities (sec. 1028)*

The House bill contained a provision (sec. 1040) that would continue for another year the certification requirements for transfer of Guantanamo detainees to foreign countries and other foreign entities and modify the requirements.

The Senate amendment contained a provision (sec. 1033) that would continue the existing requirements for another year and authorize the Secretary of Defense to waive certain certification requirements in the interest of national security if alternative actions are taken to address the underlying purpose of the requirements.

The House recedes with a clarifying amendment.

*Requirement for consultation regarding prosecution of terrorists (sec. 1029)*

The House bill contained a provision (sec. 1042) that would require the Attorney General to consult with the Director of National Intelligence and the Secretary of Defense before initiating the prosecution in federal court of an alien for a terrorist offense.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would limit the consultation requirement to: (1) a person who is determined to be a foreign al Qaeda terrorist pursuant to the requirements of section 1022 of this bill; and (2) any other person who is held in military detention outside of the United States pursuant to the Authorization for Use of Military Force (Public Law 107-40).

*Clarification of right to plead guilty in trial of capital offense by military commission (sec. 1030)*

The House bill contained a provision (sec. 1033) that would clarify the right of a defend-

ant to plead guilty in a trial of a capital offense by a military commission.

The Senate amendment contained a similar provision (sec. 1037).

The Senate recedes.

*Counterterrorism operational briefing requirement (sec. 1031)*

The House bill contained a provision (sec. 1041) that would require the Secretary of Defense to provide quarterly briefings to the congressional defense committees outlining Department of Defense counterterrorism operations not later than March 1, 2012.

The Senate amendment contained no similar provision.

The Senate recedes.

*National security planning guidance to deny safe havens to al-Qaeda and its violent extremist affiliates (sec. 1032)*

The House bill contained a provision (sec. 1045) that would require the President to issue national security planning guidance to deny safe havens to al Qaeda and its violent extremist affiliates and strengthen at-risk states. The provision would require the submission of the guidance to Congress and would also require that the agencies involved in executing the guidance enter into a memorandum of understanding related to the implementation of the guidance.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would strike: the findings, the requirement to submit any issued guidance to Congress, the requirement for memorandums of understanding between agency heads, and requirement to update and review the memorandums of understanding.

While the conferees struck the requirement to provide the guidance to Congress, the conferees expect to be briefed on the guidance issued by the President.

*Extension of authority to make rewards for combating terrorism (sec. 1033)*

The House bill contained a provision (sec. 1032) that would extend the authority for the Secretary of Defense to offer and make rewards to a person providing information or nonlethal assistance to U.S. Government personnel or government personnel of allied forces participating in a combined operation with U.S. Armed Forces through fiscal year 2014 and change the annual reporting timeline from December to February.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would extend, for 2 years, the underlying authority, shift the due date of the annual reporting timeline from December to February, and adjust the elements of the annual reporting requirement.

*Amendments relating to the Military Commissions Act of 2009 (sec. 1034)*

The Senate amendment contained a provision (sec. 1042) that would make technical corrections to the Military Commissions Act of 2009 (Title XVIII of Public Law 111-84), as requested by the Department of Defense.

The House bill contained no similar provision.

The House recedes.

*Subtitle E—Nuclear Forces*

*Biennial assessment and report on the delivery platforms for nuclear weapons and the nuclear command and control system (sec. 1041)*

The House bill contained a provision (sec. 1051) that would amend chapter 23 of title 10, United States Code, to require (as stated in the House report accompanying H.R. 1540 (H.

Rept. 112-78) of the National Defense Authorization Act for Fiscal Year 2012) that the “director of the Strategic Systems Program, U.S. Navy, commander of the Global Strike Command, U.S. Air Force, and Commander, U.S. Strategic Command to each complete an assessment of the safety, security, reliability, sustainability, performance, and military effectiveness for each type of nuclear weapons delivery platform and the nuclear command and control system of the United States within their direct responsibility. This section would further require that these assessments be submitted to the Secretary of Defense and Nuclear Weapons Council not later than December 1 of each year, along with several other reporting requirements. The Secretary of Defense would then be required to submit to the President each report along with any comments that the Secretary considers appropriate, not later than March 1 of each year. Finally, the President shall forward to Congress the reports provided by the Secretary of Defense along with any comments the President considers appropriate. The first submissions to Congress would be required by March 15, 2012”.

The Senate amendment contained a similar provision (sec. 1073) that requires (as stated in the Senate report accompanying S. 1235 (S. Rept. 112-26) of the National Defense Authorization Act for Fiscal Year 2012) “that the Secretary of Defense in each odd-numbered year, to conduct an assessment of the safety, security, reliability, sustainability, performance, and military effectiveness of each type of U.S. platform for the delivery of nuclear weapons and of the nuclear command and control system”.

The Senate recedes with an amendment that would change the House provision to a biennial reporting requirement with the first report due 30 days after the date of enactment of this Act.

*Plan on implementation of the New START Treaty (sec. 1042)*

The House bill contained a provision (sec. 1052) that would require the Secretary of Defense, in consultation with the Secretary of the Navy, the Secretary of the Air Force, and the Commander of the United States Strategic Command to submit a report no later than December 12, 2011, with a plan for the Department of Defense to implement the nuclear force reductions, limitations, and verification and transparency measures contained in the New START Treaty, and would require a Comptroller General review of such plan.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the reporting requirement to 30 days after date of enactment of this Act.

*Annual report on the plan for the nuclear weapons stockpile, nuclear weapons complex, nuclear weapons delivery systems, and nuclear weapons command and control system (sec. 1043)*

The House bill contained a provision (sec. 1053) that would require the President to submit an annual report to relevant congressional committees on plans for the modernization of the nuclear weapons stockpile, nuclear weapons complex, and nuclear weapons delivery platforms. The report would be required to include a detailed description of the plan to enhance the safety, security, and reliability of the nuclear weapons stockpile; to modernize the nuclear weapons complex; to maintain, modernize, or replace the deliv-

ery platforms for nuclear weapons; and to retire, dismantle, or eliminate any covered nuclear system. The report would also be required to include a detailed estimate of the costs associated with such plans. The report would be required to be submitted in unclassified form, but could include a classified annex.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the report to also include plans to sustain and modernize the nuclear weapons command and control system.

*Sense of the Congress on nuclear force reductions (sec. 1044)*

The House bill contained a provision (sec. 1054) that would express the sense of Congress that any reduction in the nuclear forces of the United States should be supported by a thorough assessment of the strategic environment, threat, and policy, as well as the technical and operational implications of such reductions. This section would also state that specific criteria are necessary to guide future decisions regarding further reductions in such nuclear forces.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would strike the findings of the House provision.

*Nuclear force reductions (sec. 1045)*

The House bill contained a provision (sec. 1055) that would limit the obligation of amounts authorized to be appropriated or otherwise made available to the Department of Defense or the Department of Energy for any of the fiscal years 2011 through 2017, to retire, dismantle, eliminate, or remove from deployed status any covered nuclear system of the United States as required by the New START Treaty. The provision would allow the Secretary of Defense and the Secretary of Energy to jointly waive this limitation if they submit written notice to the congressional defense committees of the status of carrying out the modernization plan described in the most recent report required by section 1053 of the House bill H.R. 1540 of the National Defense Authorization Act for Fiscal Year 2012. If the written notice describes that the modernization plan is being carried out, no funds could be obligated or expended for a period of 30 days following the date on which the President submits the report required by section 1053 of the House bill describing the proposed retirement, dismantlement, or elimination. If the notice describes that the modernization plan is not being carried out, no funds could be obligated or expended for a period of 180 days following the date on which the President submits the report required by section 1053 of the House bill. The House provision contained an exception to this limitation for any activities determined by the Secretary of Defense to be necessary to ensure the continued safety, security, and reliability of the nuclear weapons stockpile.

The House provision further prohibited the Secretary of Defense and the Secretary of Energy from obligating or expending amounts appropriated or otherwise made available to their departments to retire, dismantle, or eliminate any non-deployed strategic or non-strategic nuclear weapon until 90 days after the Secretary of Energy submits written certification to the congressional defense committees that the Chemistry and Metallurgy Research Replacement Nuclear Facility (CMRR-NF) and the Uranium Processing Facility (UPF) are fully

operational; that CMRR-NF and the Plutonium Facility-4 are together able to deliver to the nuclear weapons stockpile not less than a total of 80 pits per year; that the UPF is able to deliver to the nuclear weapons stockpile not less than 80 refurbished or new canned subassemblies per year; and that the nuclear security enterprise has a capacity that supports two simultaneous life extension programs. The provision includes an exception such that this limitation would not apply to the dismantlement of legacy warheads that are awaiting dismantlement, or have been designated for retirement, on the date of enactment, and a further exception that this limitation would not apply to activities determined by the Secretary of Defense to be necessary to ensure the continued safety, security, and reliability of the nuclear weapons stockpile.

The House provision contained a third limitation that would prohibit the President from unilaterally retiring, dismantling, or eliminating—or preparing to retire, dismantle, or eliminate—any nuclear weapon of the United States if such action would reduce the number of nuclear weapons to a level that is less than that described in the New START Treaty, unless such action is required by a treaty or international agreement approved with the advice and consent of the Senate or such action is specifically authorized by an Act of Congress. The House provision would include an exception to this limitation for activities determined by the Secretary of Defense to be necessary to ensure the continued safety, security, and reliability of the nuclear weapons stockpile.

The Senate amendment contained a similar provision (sec. 1047) that would require the President, as soon as practicable after the date on which the President makes a proposal to reduce the number of deployed nuclear weapons below the level prescribed in the New START Treaty or a proposal to reduce the number of nuclear weapons in the hedge stockpile, to submit to the congressional defense committees a net assessment. The net assessment would be required to compare and assess the current and proposed nuclear forces of the United States with those of other countries to determine whether the proposed U.S. nuclear forces would be capable of meeting U.S. objectives of nuclear deterrence, extended deterrence, assurance of allies, and defense. The Senate provision would include an exception to the requirement for a net assessment if the reduction is associated with routine stockpile stewardship activities.

The Senate amendment also contained a provision (sec. 1074) that would require the Secretary of Defense to submit a report to the congressional defense committees, by March 1, 2012, and annually thereafter, on the nuclear weapons stockpile of the United States. The report would be required to include an accounting of all of the weapons in the stockpile at the end of the fiscal year preceding the submission of the report and the planned force levels for each category of nuclear weapon over the course of the future-years defense program submitted to Congress under section 221 of title 10, United States Code.

The Senate recedes with an amendment that would express the sense of Congress that the United States is committed to maintaining a safe, secure, reliable, and credible nuclear deterrent; the United States should undertake and support an enduring stockpile stewardship program and maintain and modernize nuclear weapons production capabilities to ensure the safety, security,

reliability, and credibility of the U.S. nuclear deterrent and to meet requirements for hedging against possible international developments or technical problems; the United States should maintain nuclear weapons laboratories and plants to preserve the intellectual infrastructure, competencies, and skill sets; and the United States should provide the necessary resources to achieve these goals and use as a starting point the funding levels set forth in the President's 10 year plan provided to Congress pursuant to section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

The conference agreement would also require the President to submit a report to Congress each year in which the President determines that the appropriations provided fall to meet the resource requirements set forth in the plan referred to in section 1251 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) or if the President determines that more resources are required to carry out such plan than were estimated in the report referred to in section 1251 of Public Law 111-84. The report required by the conference agreement would include a plan to address the resource shortfall identified by the President; if more resources are required, the level of funding needed and a detailed explanation of the purpose for the additional resources; any effects of the shortfall or need for additional resources on the safety, security, reliability, or credibility of U.S. nuclear forces; and an explanation of whether any planned reductions in U.S. nuclear forces are still in the national interest of the United States given the resource shortfall or the need for additional resources.

The conference agreement would also express a sense of Congress that sustained investments in the nuclear weapons stockpile and the nuclear security complex are needed to ensure a safe, secure, reliable, and credible nuclear deterrent and that such investments could enable additional reductions in the hedge stockpile in the future. The conference agreement further requires the Secretary of Defense to submit a report to the congressional defense committees, by March 1, 2012, and annually thereafter, on the nuclear weapons stockpile of the United States. The report would be required to include an accounting of all of the weapons in the stockpile at the end of the fiscal year preceding the submission of the report and the planned force levels for each category of nuclear weapon over the course of the future-years defense program submitted to Congress under section 221 of title 10, United States Code.

Finally, the conference agreement would, in any year in which the President makes a proposal to reduce the number of nuclear weapons in the active or inactive stockpiles of the United States to a level that is lower than the level on the date of enactment of this Act, require the Commander of U.S. Strategic Command to conduct a net assessment of the current and proposed nuclear forces of the United States and of other countries to determine whether the proposed U.S. nuclear forces would be capable of meeting U.S. objectives of nuclear deterrence, extended deterrence, assurance of allies, and defense. The Secretary of Defense would be required to submit the Commander's unaltered net assessment, together with any explanatory views of the Secretary, to the Committees on Armed Services of the Senate and the House of Representatives. In any such year, the Administrator of the National

Nuclear Security Administration would also be required to submit to the Committees on Armed Services of the Senate and the House of Representatives, a report describing the current capacities of the U.S. nuclear weapons infrastructure to respond to strategic developments or technical problems in the nuclear weapons stockpile. The conference agreement would include an exception to these requirements for any reductions that are a direct result of activities associated with routine stockpile stewardship—including stockpile surveillance, logistics, or maintenance—and for any nuclear weapons that are retired or awaiting dismantlement on the date of enactment of this Act. These requirements would terminate on December 31, 2017.

#### *Nuclear employment strategy of the United States (sec. 1046)*

The House bill contained a provision (sec. 1056) that would have prohibited the President from making any changes to the nuclear employment strategy of the United States unless the President submitted a report to Congress describing the implications of such changes, certified that such changes do not require a change in targeting strategy from counterforce to counter value targeting, and certified that such proposed changes preserve the nuclear force structure triad. The President would have been required to wait a period of 90 days from submission of such report until changes to the nuclear employment strategy may be made.

The Senate amendment contained a similar provision (sec. 1075) which would not have conditioned changes in the nuclear employment guidance, but which required reporting to Congress after a change.

The House, encouraged by a letter that Chairmen Buck McKeon and Michael Turner received from the Secretary of Defense on November 2, 2011, and having received further assurances from the Office of the Secretary of Defense, recedes with an amendment that would require a report to be submitted concurrently with the issuance by the President of a modified employment strategy. The report would require a description of the modification, the impact on the nuclear posture of the United States, and the implications for the flexibility and resilience of U.S. strategic forces and their ability to meet the nuclear deterrence objectives of the United States. The House amendment also expresses the sense of Congress concerning the importance of congressional oversight of the nuclear war plan of the United States.

#### *Comptroller General report on nuclear weapon capabilities and force structure requirements (sec. 1047)*

The House bill contained a provision (sec. 1057) that would require the Comptroller General of the United States to conduct a study on the strategic nuclear weapon capabilities, force structure, employment policy, and targeting requirements of the Department of Defense (DOD). The study would update the September 1991 Government Accounting Office (GAO) report titled 'Strategic Weapons: Nuclear Weapons Targeting Process' (GAO/NSIAD-91-319FS). The study would also assess the process and rigor used by DOD to determine the effectiveness of nuclear-related capabilities and policies in achieving the goals of deterrence, extended deterrence, assurance, and defense, and would also include an assessment of the Department of Defense's requirements for strategic nuclear bomber aircraft and intercontinental ballistic missiles. The provision would require the Secretary of Defense and

the Secretary of Energy to provide the Comptroller General with full cooperation and access to appropriate officials and information for the purposes of conducting this study. The provision would require the Comptroller General to submit one or more reports on the study to the appropriate congressional committees.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment clarifying that the reports required by this provision must be submitted to the congressional defense committees.

The conferees note that, for the purposes of this study, the Department of Defense need not grant the Comptroller General access to sensitive operational information such as specific target locations or the complete target list.

#### *Report on feasibility of joint replacement fuze program (sec. 1048)*

The House bill contained a provision (sec. 216) that would limit the obligation and expenditure of funds authorized to be appropriated or otherwise made available for fiscal year 2012 for the Air Force for the joint/common replacement fuze program for Air Force and Navy nuclear warheads to not more than 75 percent until the Secretary of Defense submits a report to the congressional defense committees on the feasibility of the program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of the Navy and the Secretary of the Air Force to jointly submit a report to the congressional defense committees, no later than December 31, 2012, on the feasibility of the joint replacement fuze program. The report would be required to include an assessment of the feasibility of including various options in the joint fuze and how the inclusion of such options will affect safety, security, reliability, and adaptability, as well as the program schedule and budget.

#### *Subtitle F—Financial Management*

#### *Modification of authorities on certification and credential standards for financial management positions in the Department of Defense (sec. 1051)*

The House bill contained a provision (sec. 1061) that would strengthen the authority of the Secretary of Defense to establish certification and credential standards for financial management positions in the Department of Defense.

The Senate amendment contained a similar provision (sec. 1003).

The House recedes.

#### *Reliability of Department of Defense financial statements (sec. 1052)*

The House bill contained a provision (sec. 1062) that would change the timing of the annual representation of the Department of Defense as to the expected reliability of its financial statement to better harmonize with the timing of the Department's financial statements.

The Senate amendment contained no similar provision.

The Senate recedes.

#### *Inclusion of plan on the financial management workforce in the strategic workforce plan of the Department of Defense (sec. 1053)*

The House bill contained a provision (sec. 1063) that would require an assessment of the financial management workforce of the Department of Defense and a plan for addressing any gaps in capabilities of that workforce.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense to assess and plan the Department's financial management workforce through the strategic workforce plan established pursuant to section 115b of title 10, United States Code.

*Tracking implementation of Department of Defense efficiencies (sec. 1054)*

The House bill contained a provision (sec. 1064) that would require the Comptroller General to assess and report to Congress on the extent to which the Department of Defense has tracked and realized the savings proposed pursuant to the efficiencies initiatives announced by the Secretary of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

Subtitle G—Repeal and Modification of Reporting Requirements

*Repeal of reporting requirements under title 10, United States Code (sec. 1061–1067)*

The House bill contained a provision (sec. 1071) that would repeal certain recurring reporting requirements applicable to the Department of Defense.

The Senate amendment contained a subtitle (Subtitle F of Title X) that would repeal or modify certain recurring reporting requirements.

The House recedes with an amendment incorporating repeals and modifications from both bills.

Subtitle H—Studies and Reports

*Transmission of reports in electronic format (sec. 1068)*

The House bill contained a provision (sec. 1073) that would require that Department of Defense reports to Congress be transmitted, to the maximum extent practicable, in an electronic format.

The Senate amendment contained no similar provision.

The Senate recedes.

*Modifications to annual aircraft procurement plan (sec. 1069)*

The House bill contained a provision (sec. 1074) that would modify section 231a of title 10, United States Code, to expand the coverage of the report to Army aircraft, and include additional types of aircraft for the armed forces in the following categories: (1) remotely piloted aircraft; (2) rotary-wing aircraft; and (3) operational support and executive lift aircraft. The provision would also require an annual report on aircraft inventory.

The Senate amendment contained no similar provision.

The Senate recedes.

*Change of deadline for annual report to Congress on National Guard and reserve component equipment (sec. 1070)*

The House bill contained a provision (sec. 1075) that would delay the required submission date for the annual National Guard and Reserve component equipment report from February 15 until March 15.

The Senate amendment contained no similar provision.

The Senate recedes.

*Report on nuclear aspirations of non-state entities, nuclear weapons, and related programs in non-nuclear weapons states and countries not parties to the nuclear non-proliferation treaty, and certain foreign persons (sec. 1071)*

The House bill contained a provision (sec. 1077) that would amend section 1055(a) of the

National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84) to add the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives to the list of committees that receive the report required by such section.

The Senate amendment contained no similar provision.

The Senate recedes.

*Implementation plan for whole-of-government vision prescribed in the National Security Strategy (sec. 1072)*

The House bill contained a provision (sec. 1079) that would require the President to submit to the appropriate congressional committees, not later than 270 days after the date of enactment of this Act, an implementation plan for achieving the whole-of-government integration vision prescribed in the President's National Security Strategy of May 2010. The House provision would also require annual updates to the implementation plan in each subsequent year.

The Senate amendment contained a similar provision (sec. 1072) that would require the President to submit to the appropriate congressional committees, not later than 180 days after the date of enactment of this Act, a report setting forth a plan to implement the organizational goals recommended in the President's National Security Strategy of May 2010. The Senate provision would also require annual updates to the report in each subsequent year.

The Senate recedes with an amendment that clarifies that submission of the annual updates to the implementation plan would be required for each subsequent year in which the National Security Strategy of May 2010 remains the policy of the President.

*Reports on resolution restrictions on the commercial sale or dissemination of electro-optical imagery collected by satellites (sec. 1073)*

The Senate amendment contained a provision (sec. 1077) that would require the Secretary of Commerce to conduct a comprehensive review of the current restrictions on the resolution of electro-optical imagery that commercial satellite imagery data providers are permitted to sell or disseminate.

The provision would require the Secretary to take into consideration a series of factors in evaluating whether the current restriction on resolution to 0.5 meters should be relaxed. These factors would include: (1) the availability of foreign satellite systems capable of collecting at resolutions sharper than what U.S. data providers are allowed to sell; (2) the lead time involved in securing funding for new satellites, and designing, constructing, and launching them, to enable U.S. data providers to match or exceed the capabilities of new foreign satellites; (3) whether the current restrictions remain consistent with the President's National Space Policy, which is to maintain U.S. commercial leadership; (4) the greater utility that higher resolution unclassified commercial satellite imagery would have for U.S. military forces, the intelligence community, cooperation with allies, scientific research, and support to domestic disaster monitoring; and (5) the national security risks, if any, of relaxing the current restrictions.

The provision would require a report from the Secretary of Commerce to the appropriate committees of Congress by April 15, 2012.

The provision also would require the Director of National Intelligence and the Under Secretary of Defense for Intelligence to provide a report assessing the benefits and risks

of relaxing the current resolution restrictions on the electro-optical imagery from satellites that commercial U.S. companies may sell or disseminate, together with recommendations for alternative means to protect national security related information. This report would be required within 15 days of the enactment of this Act.

The House bill contained no similar provision.

The House recedes with an amendment that would (1) eliminate the requirement that the Secretary of Commerce consider the utility that higher resolution imagery would bring to the armed forces, the production of military geospatial information, intelligence analysis, cooperation with allies, scientific research efforts, and domestic disaster monitoring and relief; and (2) extend the date required for the intelligence assessment from 15 days to 60 days after enactment of this Act.

*Report on integration of unmanned aerial systems into the national airspace system (sec. 1074)*

The Senate amendment contained a provision (sec. 1078) that would require the Secretary of Defense to submit a report describing and assessing: (1) the rate of progress in integrating unmanned aircraft systems into the national airspace system; and (2) the potential for one or more pilot program or programs on such integration at certain test ranges to increase that rate of progress.

The House bill contained no similar provision.

The House recedes.

*Report on feasibility of using unmanned aerial systems to perform airborne inspection of navigational aids in foreign airspace (sec. 1075)*

The Senate amendment contained a provision (sec. 1080A) that would require the Secretary of the Air Force to provide a report assessing the feasibility of using unmanned aerial systems to perform airborne flight inspection of ground-based navigational aids that support military operations in foreign airspace.

The House bill contained no similar provision.

The House recedes.

*Comptroller General review of medical research and development relating to improved combat casualty care (sec. 1076)*

The Senate amendment contained a provision (sec. 1080B) that would require the Comptroller General to conduct a review of Department of Defense programs and organizations related to, and resourcing of, medical research and development in support of improved combat casualty care.

The House bill contained no similar provision.

The House recedes.

*Reports to Congress on the modifications of the force structure for the strategic nuclear weapons delivery systems of the United States (sec. 1077)*

The Senate amendment contained a provision (sec. 1080c) that requires the President to submit a report to Congress whenever the President proposes a modification of the force structure of U.S. nuclear weapons delivery systems. The required report shall describe how the modification will maintain a range of delivery systems appropriate for the current and anticipated threats as compared with the current force structure of nuclear delivery systems.

The House bill contained no similar provision.

The House recedes.

*Comptroller General of the United States reports on the major automated information system programs of the Department of Defense (sec. 1078)*

The Senate amendment contained a provision (sec. 1080D) that would require the Comptroller General to perform an annual assessment of the major automated information system programs of the Department of Defense, comparable to the annual assessment that the Comptroller General already performs for major defense acquisition programs.

The House bill contained no similar provision.

The House recedes.

*Report on Defense Department analytic capabilities regarding foreign ballistic missile threats (sec. 1079)*

The Senate amendment contained a provision (sec. 1080G) that would require the Secretary of Defense to submit a report to the congressional defense committees on the analytic capabilities of the Department of Defense regarding threats from foreign ballistic missiles of all ranges.

The House bill contained no similar provision.

The House recedes.

*Report on approval and implementation of Air Sea Battle Concept (sec. 1080)*

The Senate amendment contained a provision (sec. 1080H) that would require a report on the Air Sea Battle Concept.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

*Report on costs of units of the reserve components and the active components of the armed forces (sec. 1080A)*

The Senate amendment contained a provision (sec. 1605) that would require the Department of Defense to conduct a cost analysis of units of the active and reserve components and direct the Comptroller General to evaluate this report.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to submit to the congressional defense committees not later than 180 days after the date of enactment of this Act a report setting forth an analysis of the costs of a sample of deployable units of the active components of the armed forces and the costs of a sample of similar deployable units of the reserve components of the armed forces.

In conducting this analysis the Department should consider issues and matters that are unique and challenging to comparisons between active and reserve components such as, but not limited to: a pro-rated share of active component borne overhead costs (e.g., generating force, schools, ranges, training centers, and material/sustainment) required to prepare and sustain the reserve component when not mobilized and deployed; relative days spent training and preparing per year to personnel cost per year; cost of procurement and sustainment of non-deployable equipment excess to unit tables of organization and equipment; and impact of unavailable domestic response capabilities when respective components are deployed (e.g., what capabilities Governors lose when reserve component forces are deployed).

#### Subtitle I—Miscellaneous Authorities and Limitations

*Authority for assignment of civilian employees of the Department of Defense as advisors to foreign ministries of defense (sec. 1081)*

The Senate amendment contained a provision (sec. 1046) that would provide the Department of Defense with authority, for 3 fiscal years, to advise foreign defense ministries and international peace and security institutions. The provision also would require the Secretary of Defense to provide an annual report to the Committees on Armed Services of the Senate and the House of Representatives, and would require the Comptroller General of the United States to conduct an evaluation of the effectiveness of the program no later than December 30, 2013.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the provision to foreign ministries of defense by striking the phrase “international peace and security organizations” from the provision, modify and expand the elements of the annual report required under the provision, and add the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives to the listed recipients of the annual report.

*Exemption from Freedom of Information Act for data files of the military flight operations quality assurance systems of the military departments (sec. 1082)*

The House bill contained a provision (sec. 1081) that would exempt data files of the military flight operations quality assurance systems of the military departments from section 552 of title 5, United States Code.

The Senate amendment contained a similar provision (sec. 1044(b)).

The Senate recedes with an amendment that would incorporate transparency standards and a delegation limitation into the provision.

*Limitation on procurement and fielding of light attack armed reconnaissance aircraft (sec. 1083)*

The House bill contained a provision (sec. 1082) that would prevent the Secretary of Defense from obligating any funds for the procurement or fielding of light attack armed reconnaissance aircraft until: (1) the Joint Requirements Oversight Council validates the requirements for the development or procurement of such aircraft to address a gap identified by specific reporting in the next Quadrennial Defense Review; and (2) the Under Secretary of Defense for Acquisition, Technology, and Logistics approves the acquisition strategy for such an aircraft. The provision also included a waiver of this funding prohibition that could be exercised if the Secretary were able to certify that expenditures on such a program were necessary to support the contingency operations in Afghanistan or Iraq.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require a report from the Secretary on: (1) any requirements for such a capability; and (2) his plans for meeting those requirements. The provision would require that the Secretary submit such a report before he obligates any fiscal year 2012 funds for such a purpose.

*Prohibition on the use of funds for manufacturing beyond low rate initial production at certain prototype integration facilities (sec. 1084)*

The House bill contained a provision (sec. 1084) that would prohibit the use of funds for

manufacturing beyond low rate initial production at a prototype integration facility.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment.

The conferees note that the provision would contain a waiver option for the Secretary of Defense for reasons of national security or to rapidly acquire equipment to respond to combat emergencies.

*Use of State Partnership Program Funds for certain purposes (sec. 1085)*

The House bill contained a provision (sec. 1083) that would authorize the National Guard to use up to \$3.0 million of the funds made available through the State Partnership Program to pay travel and per diem costs associated with the participation of U.S. and foreign civilian and non-defense ministry personnel in authorized National Guard State Partnership Program events.

The Senate amendment contained a similar provision (sec. 1609).

The Senate recedes with an amendment that would conform the provision to section 1210 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

#### Subtitle J—Other Matters

*Redesignation of psychological operations as military information support operations in title 10, United States Code, to conform to Department of Defense usage (sec. 1086)*

The Senate amendment contained a provision (sec. 1081) that would redesignate “psychological operations” as “military information support operations” in title 10, United States Code, to conform to Department of Defense nomenclature.

The House bill contained no similar provision.

The House recedes.

The conferees direct the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict in coordination with the Commander, U.S. Special Operations Command (USSOCOM), to provide a report to the Committees on Armed Services of the Senate and the House of Representatives that outlines: a comprehensive military information support operations (MISO) strategy to include the roles, missions, authorities, and capabilities of MISO active and reserve components; current and future force structure requirements, operational limitations and constraints; and efforts to shift required active and reserve component funding from overseas contingency operations to base funding to support future active and reserve force structure requirements. The conferees also direct the Assistant Secretary to include in the report an examination with recommendations for the potential transfer of proponenty of the MISO reserve component from USSOCOM to the Department of the Army, similar to the potential transfer of proponenty responsibilities for U.S. Army Reserve Component Civil Affairs forces. The conferees direct the Assistant Secretary also to include in the report an analysis of the relationship among all Information Operations/Strategic Communications disciplines to determine if they are sufficient or could be improved through changes to authorities, processes, procedures, and synchronization mechanisms. The conferees further direct the Assistant Secretary to submit the report to the Committees on Armed Services of the Senate and the House of Representatives within 180 days after the date of enactment of this Act.

*Termination of requirement for appointment of civilian members of National Security Education Board by and with the advice and consent of the Senate (sec. 1087)*

The Senate amendment contained a provision (sec. 1082) that would terminate the requirement for Senate confirmation of civilian members of the National Security Education Board.

The House bill contained no similar provision.

The House recedes.

*Sense of Congress on application of moratorium on earmarks to this Act (sec. 1088)*

The Senate amendment contained a provision (sec. 1085) that would express the sense of the Senate that the moratorium on congressional earmarks should be fully enforced in this Act.

The House bill contained no similar provision.

The House recedes with an amendment expressing the sense of Congress on the subject.

*Technical Amendment (sec. 1089)*

The Senate amendment contained a provision (sec. 1087) that would amend section 382 of title 10, United States Code, to conform the language to an amendment made by section 1075(b)(10) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383).

The House bill contained no similar provision.

The House recedes.

*Cybersecurity collaboration between the Department of Defense and the Department of Homeland Security (sec. 1090)*

The Senate amendment contained a provision (sec. 1092) that would codify in statute the Memorandum of Understanding (MOU) that the Secretary of Defense and the Secretary of Homeland Security signed in September, 2010, to promote and guide cooperation between the two Departments on cybersecurity. The MOU and section 1092 are intended to set the terms under which the two Departments will provide personnel, equipment, and facilities to enable collaboration in strategic planning, mutual support for capabilities development, and synchronization of operations.

The House bill contained no similar provision.

The House recedes.

*Treatment under Freedom of Information Act of certain Department of Defense critical infrastructure security information (sec. 1091)*

The House bill contained a provision (sec. 1091) that would exempt certain Department of Defense critical infrastructure information from disclosure pursuant to section 552 of title 5, United States Code.

The Senate amendment contained a similar provision (sec. 1044(a)).

The Senate recedes with an amendment that would incorporate the Senate definition of critical infrastructure information and add transparency requirements and delegation limitations to the provision.

*Expansion of scope of humanitarian demining assistance program to include stockpiled conventional munitions assistance (sec. 1092)*

The House bill contained a provision (sec. 1092) that would modify the Department of Defense definition of "Humanitarian Demining Assistance" to include physical security, stockpile management, and explosive safety as components of assistance and training.

The Senate amendment contained a similar provision (sec. 1201).

The Senate recedes with a technical and clarifying amendment.

*Number of Navy carrier air wings and carrier air wing headquarter (sec. 1093)*

The House bill contained a provision (sec. 1094) that would require the Secretary of the Navy to maintain: (1) a minimum of 10 carrier air wings; and (2) for each such carrier air wing, a dedicated and fully staffed headquarters.

The Senate amendment contained no similar provision.

The Senate recedes.

*Display on annual budget requirements for organizational clothing and individual equipment (sec. 1094)*

The House bill contained a provision (sec. 1095) that would require the Secretary of Defense to include with the budget materials submitted to Congress under section 1105(a) of title 31, United States Code, a budget justification display that covers all programs and activities associated with the procurement of organizational clothing and individual equipment.

The Senate amendment contained no similar provision.

The Senate recedes.

*National Rocket Propulsion Strategy (sec. 1095)*

The House bill contained a provision (sec. 1096), as stated in the House report accompanying H.R. 1540 (H. Rept. 112-78) of the National Defense Authorization Act for Fiscal Year 2012 that contains five findings concerning the reviews undertaken by the Department of Defense (DOD) of the solid rocket motor and liquid rocket engine propulsion industrial base, the reliance of multiple government agencies on this industrial base, the impact on the Department of Defense resulting from the end of the National Aeronautics and Space Administration Space Shuttle program and termination of the Constellation program, and the increasing cost of DOD systems that are in part due to the uncertainty in the industrial base. The section also requires the President to submit to the appropriate congressional committees a national rocket propulsion strategy for the United States and expresses the sense of Congress that the sustainment of the solid rocket motor and liquid rocket engine industrial base is a national challenge that spans multiple government agencies and requires the Administration's attention.

The Senate amendment contained a provision (sec. 1091) that requires the Secretary of Defense to include with the budget submission a long-term plan for maintaining a minimal production capability to produce intercontinental ballistic missile (ICBM) solid rocket motors.

The Senate recedes with an amendment that would add the long-range ICBM sustainment plan.

*Grants to certain regulated companies for specified energy property not subject to normalization rules (sec. 1096)*

The House bill contained a provision (sec. 1099A) that would amend section 1603(f) of the American Recovery and Reinvestment Tax Act of 2009 (Public Law 111-5) for grants for energy property in lieu of tax credits.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Unmanned aerial systems and national airspace (sec. 1097)*

The House bill contained a provision (sec. 1098) that would require the Administrator of the Federal Aviation Administration to establish a program to integrate unmanned

aircraft systems into the national airspace system at six test ranges.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require that, for any project established by the Administrator under this authority, the Administrator ensures that the project is operational not later than 180 days after the date on which the project is established.

*Modification of dates of Comptroller General of the United States review of executive agreement on Joint Medical Facility Demonstration Project, North Chicago and Great Lakes, Illinois (sec. 1098)*

The House bill contained a provision (sec. 722) that would reduce the frequency of reviews conducted by the Comptroller General of the United States as required by section 1701 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

The Senate amendment contained a similar provision (sec. 1071).

The House recedes.

Legislative Provisions Not Adopted

*Mitigation of national security threats along the border of the United States and Mexico*

The House bill contained a provision (sec. 1015) that would state it is the sense of Congress that the Secretary of Defense should take various actions to help other federal agencies mitigate security threats along the United States-Mexico border. The provision also would require the Defense Department to provide information on collaboration between the United States and Mexico to mitigate such threats.

The Senate amendment contained no similar provision.

The House recedes.

*Report on policies and practices of the Navy for naming the vessels of the Navy*

The Senate amendment contained a provision (sec. 1024) that would require the Secretary of Defense to submit to Congress a report on the policies and practices of the Navy for naming vessels of the Navy.

The House bill contained no similar provision.

The House recedes.

*Definition of individual detained at Guantanamo*

The House bill contained a provision (sec. 1031) that would define the term "individual detained at Guantanamo."

The Senate amendment contained no similar provision.

The House recedes.

*Prohibition on family member visitation of individuals detained at Naval Station, Guantanamo Bay, Cuba*

The House bill contained a provision (sec. 1038) that would prohibit the use of Department of Defense funds to facilitate family member visits to Guantanamo detainees.

The Senate amendment contained no similar provision.

The House recedes.

*Management of Department of Defense installations*

The Senate amendment contained a provision (sec. 1041) that would authorize the Secretary of Defense to: (1) prescribe regulations necessary for the protection and administration of Department of Defense property; and (2) designate military or civilian law enforcement officers for the purpose of enforcing such regulations.

The House bill contained no similar provision.

The Senate recedes.

*Prohibition on United States citizenship for detainees repatriated to the Federated States of Micronesia, the Republic of Palau, and the Republic of the Marshall Islands*

The House bill contained a provision (sec. 1043) that would prohibit individuals who had been held in detention at United States Naval Station, Guantanamo Bay, Cuba, and who have been repatriated to the Federated States of Micronesia, the Republic of Palau, or the Republic of the Marshall Islands, from being afforded rights and benefits under the Compact of Free Association.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress regarding the efforts by the Department of Defense to keep America safe from terrorist attacks since 9/11*

The House bill contained a provision (sec. 1044) that would recognize the efforts of the Department of Defense to keep America safe since the attacks of September 11, 2001.

The Senate amendment contained no similar provision.

The House recedes.

*Trial of foreign terrorists*

The House bill contained a provision (sec. 1046) that would prohibit the trial of any foreign terrorist who is subject to trial by military commission by any court or tribunal other than a military commission.

The Senate amendment contained no similar provision.

The House recedes.

*Business case analysis for Department of Defense efficiencies*

The House bill contained a provision (sec. 1065) that would require the Comptroller General to assess the extent to which the Department of Defense conducted a business case analysis prior to recommending and implementing efficiencies initiatives.

The Senate amendment contained no similar provision.

The House recedes.

*Biennial review of required reports*

The House bill contained a provision (sec. 1072) that would require the Secretary of Defense to make recommendations to Congress, on a biennial basis, on reporting requirements that should be repealed.

The Senate amendment contained no similar provision.

The House recedes.

*Report on homeland defense activities*

The House bill contained a provision (sec. 1076) that would modify the requirement for reporting in years when no homeland defense assistance or activities take place.

The Senate amendment contained a similar provision (sec. 1067).

The House recedes. The conferees agree to include such changes in the subtitle of the bill regarding repeal and modification of reporting requirements.

*Study on the recruitment, retention, and development of cyberspace experts*

The Senate amendment contained a provision (sec. 1076) that would require an independent study examining the availability of military and civilian personnel for Department of Defense (DOD) cyberspace operations, identifying any gaps in meeting personnel needs, and recommending available mechanisms to fill such gaps, including permanent and temporary positions.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that DOD conducted an internal study of its cyberspace workforce at congressional direction in the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84). The conferees agree that DOD's implementation of the results of that study should proceed for an additional period of time before an independent evaluation should be conducted.

The conferees also note that DOD is seeking approval through the interagency review process of a proposal for expedited hiring authority for cybersecurity personnel. This proposal will be evaluated in the context of the cyberspace personnel needs government-wide, and especially in the Department of Homeland Security, and the hiring authorities available to address them. The conferees support initiatives to improve the expertise of government employees engaged in this critical area.

*Report on certain unnecessary or unwanted Department of Defense programs*

The House bill contained a provision (sec. 1078) that would require the Secretary of Defense to report to Congress on unnecessary or unwanted programs.

The Senate amendment contained no similar provision.

The House recedes.

*Report on a Department of Defense recycling program for rare earth materials*

The House bill contained a provision (sec. 1080) that would require the Secretary of Defense to prepare a report on the feasibility and desirability of recycling, recovering, and reprocessing rare earth elements, including fluorescent lighting in the Department of Defense facilities, batteries, and neodymium iron boron magnets used in weapon systems and commercial off-the-shelf items such as computer hard drives.

The Senate amendment contained no similar provision.

The House recedes.

The conferees direct the Secretary of Defense to prepare a report on the feasibility and desirability of recycling, recovering, and reprocessing rare earth elements, including fluorescent lighting in Department of Defense facilities, batteries, and neodymium iron boron magnets used in weapon systems and commercial off-the-shelf items such as computer hard drives.

*Report on National Guard and reserve components of the armed forces*

The House bill contained a provision (sec. 1080A) that would require the Secretary of Defense to submit to the congressional defense committees a report on the National Guard and reserve components of the armed forces.

The Senate amendment contained no similar provision.

The House recedes.

*Report on status of implementation of accepted recommendations in the final report of the 2010 Army Acquisition Review Panel*

The Senate amendment contained a provision (sec. 1080) that would require a report on implementation of the recommendations of the Army Acquisition Review Panel.

The House bill contained no similar provision.

The Senate recedes.

The conferees are encouraged by recent improvements in the Army's analysis, planning, and management of its equipment modernization programs. However, the recommendations provided by the 2010 Army Acquisition Review Panel (also known as the Decker-Wagner Report) identify several

areas for continued or additional improvement of modernization planning and execution. The conferees therefore direct that the Secretary of the Army provide the congressional defense committees with a detailed update on its implementation of those Panel recommendations that the Secretary has agreed to adopt. The conferees further direct that the Secretary periodically provide implementation update briefings to the congressional defense committees.

*Comptroller General report on Department of Defense Science and Technology Programs*

The Senate amendment contained a provision (sec. 1080E) that would require the Comptroller General of the United States to produce a report for the congressional defense committees examining redundancies, inefficiencies, and gaps in science and technology (S&T) programs.

The House bill contained no similar provision.

The Senate recedes.

In current times of fiscal austerity, the conferees firmly believe that all activities within the Department of Defense (DOD) must be reviewed to identify potential cost-savings and increase efficiencies. In the President's fiscal year (FY) 2012 budget request, over \$12.0 billion would be dedicated to 6.1 through 6.3 Science and Technology programs. This funding level is a little more than 2 percent of DOD's overall budget, and hence it is vital that S&T investments are most efficiently made across the spectrum from basic exploration of knowledge to advanced technology development for the next generation of weapons systems. In addition, the conferees believe that there is potential within DOD's S&T activities to better align, consolidate, or eliminate lower priority programs.

The conferees note that in the report language accompanying S. 1235 (S. Rept. 112-26) of the National Defense Authorization Act for Fiscal Year 2012 directed the Comptroller General to conduct a study of the effectiveness of the Department's various technology transition programs due no later than 1 year after the enactment of this Act. The conferees direct that the Comptroller General expand its study efforts in the area of defense S&T over the longer term and focus on non-basic research activities to conduct a holistic review of the Defense S&T enterprise, including its investment strategy, technology development and transition activities. In addition, the scope of this broader review should include the Department's S&T related interactions with industry and academia.

*Comptroller General report on Science, Technology, Engineering, and Math initiatives*

The Senate amendment contained a provision (sec. 1080F) that would require the Comptroller General of the United States to produce a report for the congressional defense committees examining Science, Technology, Engineering, and Math (STEM) programs within the Department of Defense.

The House bill contained no similar provision.

The Senate recedes.

The conferees firmly believe that the education of America's students in the STEM fields is vital to national security interests. In an increasingly globalized world, the United States is facing growing competition in technological advancement. Ensuring that the United States remains a leader in these areas will rest on the shoulders of current and future generations. Giving students the opportunities to excel in the STEM fields—

from K-12 through post-graduate research—will guarantee our success as a world leader, and safeguard our national interests.

The conferees look forward to reviewing the current study being conducted by the Comptroller General on government-wide STEM educational initiatives, planned to be published early in 2012. The conferees strongly urge the Department of Defense to continue working in close collaboration with the Comptroller General to produce this report. The anticipated results of the study will help the conferees better understand the challenges ahead, and offer guidance on how to best assist the Department of Defense in developing and managing successful STEM educational programs, including the balance between K-12, undergraduate, graduate, and junior faculty programs.

*Report on effects of changing flag officer positions within the Air Force Materiel Command*

The Senate amendment contained a provision (sec. 1080I) that would require the Secretary of the Air Force to conduct an analysis and submit to the congressional defense committees a report on the effects of changing flag officer positions within the Air Force Materiel Command.

The House bill contained no similar provision.

The Senate recedes.

*Sense of Congress regarding deployment of the National Guard to the southwestern border of the United States*

The House bill contained a provision (sec. 1085) that would state it is the sense of Congress that the deployment of National Guard personnel along the southwestern border of the United States should continue through the end of fiscal year 2011.

The Senate amendment contained no similar provision.

The House recedes.

*Rules of engagement for members of the armed forces deployed in designated hostile fire areas*

The House bill contained a provision (sec. 1087) that would require the Secretary of Defense to ensure that the rules of engagement applicable to members of the armed forces assigned to duty in hostile fire areas fully protect the members' right to bear arms and authorize the members to fully defend themselves from hostile actions.

The Senate amendment contained no similar provision.

The House recedes.

The conferees acknowledge that rules of engagement applicable to members of the armed forces provide for self defense. However, the conferees also acknowledge that military commanders may restrict service members' ability to carry or employ weapons to achieve mission success. The conferees encourage the Secretary of Defense and the Chairman of the Joint Chiefs of Staff to ensure that members of the armed forces serving in hostile fire areas have the means to exercise self defense to the maximum extent practicable and consistent with their mission.

*Improving the transition of members of the armed forces with experience in the operation of certain motor vehicles into careers operating commercial motor vehicles in the private sector*

The Senate amendment contained a provision (sec. 1088) that would require the Secretary of Defense and the Secretary of Transportation to jointly conduct a study to identify the legislative and regulatory ac-

tions that can be taken to facilitate the obtaining of commercial driver's licenses by former members of the armed forces who operated qualifying motor vehicles as members of the armed forces and to improve the transition of members of the armed forces into careers operating commercial motor vehicles in the private sector.

The House bill contained no similar provision.

The Senate recedes.

The conferees note that another provision in this report requires a pilot program to assess the feasibility and advisability of permitting enlisted members of the armed forces to obtain civilian credentialing or licensing for skills required for military occupational specialties or qualification for duty specialty codes. The conferees encourage including the feasibility of obtaining a commercial driver's license as an element of this pilot program.

*Acquisition and procurement exchanges between the United States and India*

The Senate amendment contained a provision (sec. 1090) that would urge exchanges between acquisition and procurement officials of the Department of Defense and of the Government of India.

The House bill contained no similar provision.

The Senate recedes.

Nonetheless, the conferees believe that it is important to increase the mutual understanding between the United States and India regarding best practices in defense acquisition and procurement and urge the Secretary of Defense to establish exchanges between defense acquisition and procurement officials of the Department of Defense and defense officials in India.

*Mandatory implementation of the standing advisory panel on improving coordination among the Department of Defense, the Department of State, and the United States Agency for International Development on matters of national security*

The House bill contained a provision (sec. 1093) that would amend section 1054 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417) to require the Secretary of Defense, the Secretary of State, and the Administrator of the United States Agency for International Development (USAID) to establish jointly a standing advisory panel to advise, review, and make recommendations on ways to improve coordination among the Department of Defense, the Department of State, and USAID on matters relating to national security, including reviewing their respective roles and responsibilities.

The Senate amendment contained no similar provision.

The House recedes.

*Inclusion of religious symbols as part of military memorials*

The House bill contained a provision (sec. 1097) that would amend chapter 21 of title 36, United States Code, to authorize the inclusion of religious symbols as part of a military memorial established or acquired by the U.S. Government or for which the American Battle Monuments Commission cooperated in the establishment of the memorial.

The Senate amendment contained no similar provision.

The House recedes.

*Report to Congress on maintenance, repair, and overhaul capability of Navy unmanned aerial systems*

The House bill contained a provision (sec. 1098A) that would require the Secretary of

the Navy to provide a report on efforts to establish maintenance, repair, and overhaul capability for Navy unmanned aerial systems.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that unmanned aerial systems have become vitally important to the national security. Therefore, the conferees direct the Secretary of the Navy to report to the congressional defense committees, within 180 days of enactment of this Act, on the efforts being made to establish maintenance, repair, and overhaul capability for unmanned aerial systems.

*Sense of Congress regarding the killing of Osama bin Laden*

The House bill contained a provision (sec. 1099) that would express the sense of Congress regarding the killing of Osama bin Laden.

The Senate amendment contained no similar provision.

The House recedes.

*Submittal of information regarding individuals detained at United States Naval Station, Guantanamo Bay, Cuba*

The House bill contained a provision (sec. 1099B) that would require the Secretary of Defense, in coordination with the Attorney General and the Director of National Intelligence, to compile and provide to appropriate committees of Congress certain materials relating to current and former detainees at the United States Naval Station, Guantanamo Bay, Cuba.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress regarding the recovery of the remains of certain members of the armed forces killed in Thurston Island, Antarctica*

The House bill contained a provision (sec. 1099D) that would express the sense of Congress that the remains of service members killed at Thurston Island, Antarctica should be recovered and repatriated.

The Senate amendment contained no similar provision.

The House recedes.

*Requirement that written communications from Congress be made public by Department of Defense*

The House bill contained a provision (sec. 1099E) that would require the Department of Defense to make public any communication from a Member of Congress or congressional staff recommending the expenditure of funds from any program element identified in division D of this Act.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress regarding deployment of armed forces without considerable deliberation*

The House bill contained a provision (sec. 1099F) that would express the intent of Congress to debate thoroughly the deployment of the United States Armed Forces.

The Senate amendment contained no similar provision.

The House recedes.

*Sense of Congress regarding the establishment of a Korean War National Museum*

The House bill contained a provision (sec. 1099G) expressing the sense of Congress on the establishment of a Korean War Museum.

The Senate amendment did not contain a similar provision.

The House recedes.

#### *Interagency Collaboration*

The House bill contained a provision (sec. 1099H) that would direct the Department of Defense to collaborate with the Department of Homeland Security on equipment and technology that could be used by U.S. Customs and Border Protection to improve the security of the United States borders with Mexico and Canada.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that there is a broad program of collaboration between the Department of Defense and the Department of Homeland Security to identify equipment and technology that could be leveraged by the Department of Homeland Security to help fulfill its missions. The conferees note their strong interest in this collaboration and expect it to continue.

#### *Designation of "Taps" as National Song of Remembrance*

The House bill contained a provision (sec. 1099I) that would designate "Taps" as the National Song of Remembrance.

The Senate amendment contained no similar provision.

The House recedes.

#### *Sense of Congress regarding United States Northern Command preparedness*

The House bill contained a provision (sec. 1099J) that would state it is the sense of Congress that United States Northern Command should enhance its capabilities and preparedness to provide defense support of civil authorities.

The Senate amendment contained no similar provision.

The House recedes.

#### *Closing of National Drug Intelligence Center*

The House bill contained a provision (sec. 1099M) that would close the National Drug Intelligence center by striking section 9078 of the Department of Defense Appropriations Act, 1993 (Public Law 102-396).

The Senate amendment contained no similar provision.

The House recedes.

#### *Sunken military craft*

The House bill contained a provision (sec. 1099N) that would amend section 1408(2) of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375).

The Senate amendment contained no similar provision.

The House recedes.

#### *Proclamation for national day of honor to celebrate members of the armed forces returning from Iraq, Afghanistan, and other combat areas*

The House bill contained a provision (sec. 1099O) that would require the President to designate a day entitled a National Day of Honor to celebrate members of the armed forces who are returning from deployment in support of Iraq, Afghanistan, and other combat areas.

The Senate amendment contained no similar provision.

The House recedes.

#### *Additional budget items*

The House bill included additional budget items (secs. 1601-1699M).

The Senate amendment contained no similar provisions.

The House recedes on all items except for sec. 1699F-1 which has been moved to title II.

#### *Continuation as a permanent program and enhancement of activities of Task Force for Emergency Readiness pilot program of the Federal Emergency Management Agency*

The Senate amendment contained a provision (sec. 1604) that would require the Administrator of the Federal Emergency Management Agency to continue the Task Force for Emergency Readiness pilot program as a permanent program of the Agency.

The House bill contained no similar provision.

The Senate recedes.

#### TITLE XI—CIVILIAN PERSONNEL MATTERS

##### Subtitle A—Personnel

#### *Amendments to Department of Defense personnel authorities (sec. 1101)*

The House bill contained a provision (sec. 1101) that would make technical amendments to Department of Defense authorities in section 9902 of title 5, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes.

#### *Provisions relating to Department of Defense performance management system (sec. 1102)*

The House bill contained a provision (sec. 1102) that would make technical and clarifying amendments to the Department of Defense (DOD) performance management, training, and hiring authorities under section 9902 of title 10, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes.

The conferees commend the Department for its efforts to bring together management and employee representatives in a joint effort, called "New Beginnings," to design a new performance management system and hiring process pursuant to section 9902. This joint labor-management effort appears to have paved the way for the successful implementation of significant improvements to the DOD personnel system.

#### *Repeal of sunset provision relating to direct hire authority at demonstration laboratories (sec. 1103)*

The House bill contained a provision (sec. 1103) that would repeal the sunset provision relating to direct hire authority at demonstration laboratories.

The Senate amendment contained a similar provision (sec. 905(a)).

The Senate recedes.

#### *One-year extension of authority to waive annual limitation on premium pay and aggregate limitation on pay for federal civilian employees working overseas (sec. 1104)*

The House bill contained a provision (sec. 1106) that would extend the authorization to waive limitations on federal civilian pay for persons working overseas.

The Senate amendment contained a similar provision (sec. 1107).

The House recedes.

#### *Waiver of certain pay limitations (sec. 1105)*

The House bill contained a provision (sec. 1107) that would amend section 9903 of title 5, United States Code, to authorize highly qualified experts assigned in support of a contingency operation to receive similar benefits and compensation as other federal civilian employees serving in support of a contingency operation. This includes premium pay or danger pay allowances, compensatory time off, and other appropriate compensation or allowances authorized under chapter 59 of title 5, United States Code.

The Senate amendment contained no similar provision.

The Senate recedes.

#### *Services of post-combat case coordinators (sec. 1106)*

The House bill contained a provision (sec. 1108) that would require the head of each agency to provide for the assignment of a post-combat case coordinator in the case of any employee of the agency who suffers an injury or disability incurred, or an illness contracted, while in the performance of the employee's duties, as a result of a war-risk hazard or during or as a result of capture, detention, or other restraint by a hostile force or individual.

The Senate amendment contained no similar provision.

The Senate recedes.

#### *Authority to waive maximum age limit for certain appointments (sec. 1107)*

The House bill contained a provision (sec. 1111) that would amend section 3307 of title 5, United States Code, to allow the Department of Defense to waive the hiring and retirement age limits for Federal law enforcement and fire fighter positions in certain circumstances.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require consultation with the Director of the Office of Personnel Management.

#### *Sense of Congress relating to pay parity for federal employees serving at certain remote military installations (sec. 1108)*

The House bill contained a provision (sec. 1112) that would express the sense of Congress that the Office of Personnel Management and the Department of Defense should develop procedures for determining locality pay for employees of the Department of Defense in circumstances unique to such employees.

The Senate amendment contained no similar provision.

The Senate recedes.

#### *Federal internship programs (sec. 1109)*

The House bill contained a provision (sec. 1116) that would require the Office of Personnel Management to make publicly available on its website information on the availability of federal internship programs and to maintain a database of all individuals in such programs. In addition, each agency would be required to appoint an internship coordinator, conduct exit interviews and provide an annual report assessment on the internship program.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment to clarify the definitions of internship programs and to remove the database and reporting requirements.

The conferees encourage the Office of Personnel Management to consider the feasibility of developing a centralized database. The conferees expect that agencies would, as a normal part of the internship program, conduct exit interviews and surveys to obtain data that would assist in improving the internship programs.

#### *Extension and expansion of experimental personnel program for scientific and technical personnel (sec. 1110)*

The Senate amendment contained a provision (sec. 1104) that would repeal the sunset provision for the experimental personnel management program established by section 1101 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105-261), increase the number of

positions allocated to the Defense Advanced Research Projects Agency (DARPA), and expand the program to include up to 10 new positions for the Director, Operational Test and Evaluation (DOT&E).

The House bill contained no similar provision.

The House recedes with an amendment that would authorize the program until 2016, and grant 10 new positions to DOT&E.

The conferees recognize the specialized hiring needs of agencies requiring a highly technologically competent workforce, such as DARPA. The conferees are concerned, however, that increasing the number of available billets for this specialized hiring authority for DARPA does not have a solid analytic basis, and does not fully account for the other means by which skilled personnel can be hired, such as Highly Qualified Expert (HQE) and Intergovernmental Personal Act (IPA) authorities. The conferees encourage DARPA to develop a better analytical framework for comprehensively detailing and justifying the human resource needs of the Agency, and the means by which those needs will be addressed.

The conferees understand that the Department recently rescinded the delegation of authorities for civilian senior executive positions, including those for HQEs and IPAs, and are concerned about potential delays this might cause. To address those concerns, the conferees encourage DARPA to become a member of the working group established by the Washington Headquarters Service that was established to determine business procedures for HQE and IPA actions.

Furthermore, the conferees direct the Under Secretary of Defense for Personnel and Readiness and the Director of the Washington Headquarters Service, within 90 days of enactment of this Act, to provide the Armed Services Committees of the Senate and the House of Representatives with an implementation plan for the centralized appointment of HQE and IPA positions. Further, the conferees direct DARPA to provide a report to the Armed Services Committees of the Senate and the House of Representatives on the hiring timelines for any HQE or IPA positions they may fill in fiscal year 2012.

*Authority of the secretaries of the military departments to employ up to 10 persons without pay (sec. 1111)*

The Senate amendment contained a provision (sec. 1101) that would amend section 1583 of title 5, United States Code, to authorize the secretaries of the military departments to employ without pay up to 10 persons of outstanding experience and ability.

The House bill contained no similar provision.

The House recedes.

*Two-year extension of discretionary authority to grant allowances, benefits, and gratuities to personnel on official duty in a combat zone (sec. 1112)*

The Senate amendment contained a provision (sec. 1106) that would authorize temporary discretionary authority to federal agencies to grant allowances, benefits, and gratuities to civilian employees on official duty in a combat zone.

The House bill contained no similar provision.

The House recedes.

#### Subtitle B—Other Matters

*Modification of beneficiary designation authorities for death gratuity payable upon death of a United States government employee in service with the armed forces (sec. 1121)*

The House bill contained a provision (sec. 1105) that would amend section 8102 of title 5,

United States Code, to authorize a federal employee to designate anyone they choose to receive the entirety of a death gratuity if the employee dies of injuries incurred in connection with service with an armed force in a contingency operation.

The Senate amendment contained a similar provision (sec. 1105).

The House recedes.

*Authority for waiver of recovery of certain payments previously made under civilian employees voluntary separation incentive program (sec. 1122)*

The House bill contained a provision (sec. 1109) that would authorize the Secretary of Defense to waive repayment of the voluntary separation incentive pay (VSIP) for certain employees who accepted a reassignment with the Department of Defense during the period of June 1, 2004, to March 1, 2008, to support a declared national emergency related to terrorism or a natural disaster.

The Senate amendment contained a similar provision (sec. 1103).

The House recedes.

*Extension of continued health benefits (sec. 1123)*

The House bill contained a provision (sec. 1110) that would amend section 8905a of title 5, United States Code, to extend for 5 years the Department of Defense's authority to pay the government's share and administrative fees for Temporary Continuation of Coverage (TCC) health insurance premiums for former employees enrolled in TCC based on separation due to a reduction in force.

The Senate amendment contained a similar provision (sec. 1102).

The Senate recedes.

*Disclosure of senior mentors (sec. 1124)*

The House bill contained a provision (sec. 1114) that would require the Department of Defense to publicly disclose the names of senior mentors on a quarterly basis.

The Senate amendment contained no similar provision.

The Senate recedes.

*Termination of Joint Safety Climate Assessment System (sec. 1125)*

The House bill contained a provision (sec. 1115) that would terminate the Joint Safety Climate Assessment System of the Department of Defense.

The Senate amendment contained no similar provision.

The Senate recedes.

#### LEGISLATIVE PROVISIONS NOT ADOPTED

*Denial of certain pay adjustments for unacceptable performance*

The House bill contained a provision (sec. 1104) that would prohibit certain salary adjustments for employees who fail to achieve satisfactory performance ratings.

The Senate amendment contained no similar provision.

The House recedes.

*Reports by Office of Special Counsel*

The House bill contained a provision (sec. 1113) that would modify reporting requirements for the Office of Special Counsel under section 1213 of title 5, United States Code.

The Senate amendment contained no similar provision.

The House recedes.

#### TITLE XII—MATTERS RELATING TO FOREIGN NATIONS

Subtitle A—Assistance and Training  
*Commanders' Emergency Response Program in Afghanistan (sec. 1201)*

The House bill contained a provision (sec. 1212) that would authorize the use of up to

\$425.0 million for fiscal year 2012 to support the activities of the Commanders' Emergency Response Program (CERP) in Afghanistan. The provision would require the Secretary of Defense to provide the congressional defense committees quarterly reports on CERP activities and notification prior to the initiation of any individual CERP project with an anticipated cost of \$5.0 million or more.

The Senate amendment contained a similar provision (sec. 1202) which would extend the authority to support CERP activities in Afghanistan during fiscal year 2012 and authorize up to \$400.0 million for the Afghanistan CERP.

The Senate recedes with an amendment that would authorize \$400.0 million for CERP activities in Afghanistan and make technical amendments.

*Three-year extension of temporary authority to use acquisition and cross-servicing agreements to lend military equipment for personnel protection and survivability (sec. 1202)*

The House bill contained a provision (sec. 1205) that would extend for 3 years, through September 30, 2014, the temporary authority under section 1202 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364; 120 Stat. 2412), as amended, for the Secretary of Defense to loan or lease certain equipment for personnel protection to the military forces of partner nations for use in coalition operations or in pre-deployment training for such operations.

The Senate amendment contained a similar provision (sec. 1203).

The Senate recedes.

*Extension and expansion of authority for support of special operations to combat terrorism (sec. 1203)*

The House bill contained a provision (sec. 1201) that would increase the amount of funds available to the Secretary of Defense to provide assistance to foreign forces, irregular forces, groups, or individuals supporting or facilitating military operations by U.S. Special Operations Forces to combat terrorism from \$45.0 million to \$50.0 million, extend the authority through 2014, and require a report to clarify future requirements.

The Senate amendment included a provision (sec. 1205) that would extend the authority of the Secretary of Defense to provide assistance to foreign forces, irregular forces, groups, or individuals supporting or facilitating military operations by U.S. Special Operations Forces to combat terrorism through 2017.

The Senate recedes with an amendment that would extend the authority through 2015 and require a report to clarify future requirements.

*Modification and extension of authorities relating to program to build the capacity of foreign military forces (sec. 1204)*

The House bill contained a provision (sec. 1202) that would extend by 1 year, through September 30, 2013, the authority under section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163), as amended, for the Secretary of Defense, with the concurrence of the Secretary of State, to conduct a program to build the capacity of foreign military forces. The provision would increase the amount authorized each fiscal year for these purposes to \$400.0 million. The provision would also add a requirement to report annually on the implementation of the section 1206 authority during the previous fiscal year.

The Senate amendment contained a provision (sec. 1206) that would limit the amount of funds available during fiscal year 2012 for programs under the section 1206 authority to \$100.0 million until the Secretaries of Defense and State jointly submit the report required by section 1237 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4642).

The Senate recedes with an amendment that would maintain the authorized annual funding level for the section 1206 program at the current level of \$350.0 million. It would also include a clarifying amendment regarding the annual reporting requirement on the implementation of the section 1206 authority.

The conferees note that the Department of Defense is authorized to use up to \$100.0 million under the section 1206 program to build the capacity of foreign military forces to participate in or support stabilization operations in which the United States Armed Forces are a participant, including building the capabilities of special operations forces. Separately, the conferees note that the North Atlantic Treaty Organization (NATO) special operations forces are making important contributions to Operation Enduring Freedom (OEF). The conferees support the President's fiscal year 2012 base budget request of \$28.7 million in the Army Operation and Maintenance account for the NATO Special Operations Headquarters (NSHQ) and believe that nothing in this Act precludes the Secretary of Defense from supporting the activities of the NSHQ using Overseas Contingency Operations funding for OEF in fiscal year 2012. The conferees encourage the Secretary of Defense to submit to the Committees on Armed Services of the Senate and the House of Representatives a legislative proposal for fiscal year 2013 that would authorize necessary and recurring Department of Defense support for the NSHQ in future years.

*Two-year extension of authorization for non-conventional assisted recovery capabilities (sec. 1205)*

The House bill contained a provision (sec. 1203) that would extend the authority of the Department of Defense to establish, develop, and maintain non-conventional assisted recovery capabilities through 2016.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would extend the authority through 2013 and modify the notification and reporting requirements associated with the authority. The required report will be submitted to the congressional defense committees as part of the recurring classified quarterly report required by section 8062 of the Department of Defense and Full-Year Continuing Appropriations Act, 2011 (Public Law 112-10), section 8060 of H.R.2219 the Department of Defense Appropriations Act, 2012, as passed in the House of Representatives, and section 8060 of H.R.2219 the Department of Defense Appropriations Act, 2012, as reported in the Senate.

*Support of foreign forces participating in operations to disarm the Lord's Resistance Army (sec. 1206)*

The Senate amendment contained a provision (sec. 1209) that would—pursuant to the Lord's Resistance Army Disarmament and Northern Uganda Recovery Act of 2009 (Public Law 111-172)—authorize, for 2 fiscal years, the Department of Defense to obligate not more than \$35.0 million in each fiscal year in

operation and maintenance funding to provide logistical support, services and supplies, and intelligence support to: (1) the national military forces of Uganda participating in operations to mitigate or eliminate the threat posed by the Lord's Resistance Army (LRA); and (2) the national military forces of any other countries determined by the Secretary of Defense, with the concurrence of the Secretary of State, to be participating in operations to mitigate or eliminate the threat posed by the LRA.

The House bill contained no similar provision.

The House recedes with an amendment that would: strike intelligence support and limit the authority to the provision of logistical support, services, and supplies to foreign forces; modify the notification to Congress to 15 days prior to utilizing this authority; and strike the quarterly reporting requirement.

*Global Security Contingency Fund (sec. 1207)*

The House bill contained a provision (sec. 1204) that would authorize the Secretary of State, with the concurrence of the Secretary of Defense, to establish a fund, to be known as the Global Security Contingency Fund (GSCF), to provide assistance to a foreign country to enhance the capabilities of that country's military forces and other security forces. The provision would limit the amount of funds that could be contributed to the fund to not more than \$300.0 million for each of the fiscal years 2012 through 2015. The provision would also require the Secretary of State, with the concurrence of the Secretary of Defense, to notify Congress not less than 15 days before initiating a program under the GSCF.

The Senate amendment contained a similar provision (sec. 1207) that would establish the GSCF to be used to provide assistance to a foreign country to build the capabilities of the country's military and other security forces and to enhance the justice sector, rule of law programs, and stabilization efforts under conditions of conflict or instability. The provision would limit the total amount of funds appropriated and transferred to the Fund in any fiscal year to not more than \$300.0 million.

The House recedes with an amendment that would limit the total amount that the Department of Defense may transfer into the GSCF in any fiscal year to \$200.0 million. The provision would also provide authority during the period prior to when the processes for implementing the GSCF authority are fully operational for the Secretary of Defense to provide assistance to certain security forces of Yemen and of countries in the Horn of Africa or participating in the African Union Mission in Somalia to conduct counterterrorism operations. The total amount of funds available for activities under these transitional authorities and the GSCF authority may not exceed \$350.0 million during fiscal year 2012. In addition, the total amount of funds available under the GSCF authority for any fiscal year after fiscal year 2012 would be limited to \$300.0 million.

Subtitle B—Matters Relating to Iraq, Afghanistan, and Pakistan

*Extension and modification of logistical support for coalition forces supporting operations in Iraq and Afghanistan (sec. 1211)*

The Senate amendment contained a provision (sec. 1221) that would extend for 1 year the authority under section 1234 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181), as amended,

to provide logistical support for coalition forces supporting operations in Iraq and Afghanistan.

The House bill contained no similar provision.

The House recedes with a technical amendment.

*One-year extension of authority to transfer defense articles and provide defense services to the military and security forces of Iraq and Afghanistan (sec. 1212)*

The Senate amendment contained a provision (sec. 1222) that would extend for 1 year, through December 31, 2012, the authority under section 1234 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-81; 123 Stat. 2533), as amended, to transfer defense articles being withdrawn from Iraq to the Iraq security forces or the Afghanistan security forces, and to provide defense services in connection with the transfer of those defense articles.

The House bill contained no similar provision.

The House recedes.

*One-year extension of authority for reimbursement of certain coalition nations for support provided to United States military operations (sec. 1213)*

The House bill contained a provision (sec. 1213) that would extend for 1 year the authority under section 1233 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181), as amended, for the Secretary of Defense to reimburse key cooperating nations for support provided to or in connection with U.S. military operations in Operation Enduring Freedom ("Coalition Support Fund" authority). The total amount of reimbursements authorized under this section during fiscal year 2012 would be limited to \$1.6 billion.

The Senate amendment contained a similar provision (sec. 1226) that would extend the Coalition Support Fund authority for 1 year and limit the total amount of reimbursements authorized for fiscal year 2012 to \$1.75 billion.

The House recedes with an amendment that would limit the total amount of Coalition Support Fund reimbursements for fiscal year 2012 to \$1.69 billion.

*Limitation on funds to establish permanent military installations or bases in Iraq and Afghanistan (sec. 1214)*

The House bill contained a provision (sec. 1218) that would prohibit the use of funds authorized to be appropriated by this Act to establish any military installation or base for the purpose of providing for permanently stationing United States Armed Forces in Iraq or Afghanistan.

The Senate amendment contained no similar provision.

The Senate recedes.

*Authority to support operations and activities of the Office of Security Cooperation in Iraq (sec. 1215)*

The House bill contained a provision (sec. 1216) that would authorize the Secretary of Defense to use funds available to the Department of Defense (DOD) to support the operations and activities of the Office of Security Cooperation in Iraq (OSC-I), including life support, transportation and personal security, and facilities renovation and construction.

The Senate amendment contained a similar provision (sec. 1228) that would authorize the use of DOD funds to support the operations and activities of the OSC-I and security assistance teams. The provision would

limit the total amount of funds available for these purposes to \$524.0 million.

The House recedes with an amendment that would clarify the Senate provision and require a report by the Secretary of Defense, not later than 180 days after the date of enactment of this Act, on the activities of the OSC-I.

*One-year extension of authority to use funds for reintegration activities in Afghanistan (sec. 1216)*

The House bill contained a provision (sec. 1086) that would provide a 1 year extension of the authority under section 1216 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) to use up to \$50.0 million to support a program for the reintegration of former insurgent fighters into Afghan society.

The Senate amendment contained a similar provision (sec. 1224).

The House recedes.

*Authority to establish a program to develop and carry out infrastructure projects in Afghanistan (sec. 1217)*

The House bill contained a provision (sec. 1211) that would provide a 1 year extension of the authority under section 1217 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) for a program to develop and carry out infrastructure projects in Afghanistan, to be funded by the Afghanistan Infrastructure Fund (AIF). The provision would authorize up to \$475.0 million for the AIF.

The Senate amendment contained a similar provision (sec. 1225) that would provide up to \$400.0 million for the AIF.

The Senate recedes with an amendment that would authorize up to \$400.0 million for the AIF and make technical changes.

*Two-year extension of certain reports on Afghanistan (sec. 1218)*

The House bill contained a provision (sec. 1223) that would extend through the end of fiscal year 2014 the requirement under section 1230 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 385) for a report on the progress toward security and stability in Afghanistan.

The Senate amendment contained a provision (sec. 1227) that would extend through the end of fiscal year 2014 the requirement to provide a report under section 1230 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 385) and the requirement under section 1231 of that Act to provide a report on the long-term plan for sustaining the Afghanistan National Security Forces.

The House recedes.

*Limitation on availability of amounts for reintegration activities in Afghanistan (sec. 1219)*

The House bill contained a provision (sec. 1219) that would permit no more than 75 percent of amounts available for the Afghanistan Infrastructure Fund for fiscal year 2012 to be used to assist the Government of Afghanistan unless the Secretary of Defense, in consultation with the Secretary of State, certifies to Congress that women in Afghanistan are an integral part of the reconciliation process between the Government of Afghanistan and the Taliban.

The Senate amendment contained no similar provision.

The House recedes with an amendment that would restrict the availability of more than 50 percent of the funds authorized for a program of reintegration under another sec-

tion of this title unless the certification under this provision is made.

*Extension and modification of Pakistan Counterinsurgency Fund (sec. 1220)*

The House bill contained a provision (sec. 1214) that would extend for 1 year the authority under section 1224 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84; 123 Stat. 2521), as amended, regarding the use of the Pakistan Counterinsurgency Fund (PCF) to build the capabilities of the Pakistan security forces. The provision would also restrict the amount of PCF funds that could be obligated in a fiscal year to not more than 25 percent of funds appropriated or transferred to the PCF until a report is submitted to Congress on the strategy for utilizing the PCF and metrics for measuring progress.

The Senate amendment contained a provision (sec. 1223) that would extend the authority regarding the use of the PCF for 1 year.

The Senate recedes with an amendment that would allow up to 40 percent of amounts appropriated or transferred to the PCF during fiscal year 2012 to be obligated prior to the submission of the report to Congress on a strategy and metrics for the PCF. The amendment would also require the report to include a strategy for enhancing Pakistan's efforts to counter improvised explosive devices (IED) and information on whether Pakistan is making significant efforts to implement a strategy to counter IEDs.

The conferees encourage the Secretary of Defense to make available a copy of the report required under this section to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives.

*Benchmarks to evaluate the progress being made toward the transition of security responsibilities for Afghanistan to the Government of Afghanistan (sec. 1221)*

The Senate amendment contained a provision (sec. 1229) that would require the President to set benchmarks for evaluating progress being made in Afghanistan toward transitioning and transferring lead responsibility for security to the Government of Afghanistan, and to report regularly to Congress on those benchmarks. The provision would also require the President to develop a transition plan for expediting the drawdown of U.S. troops and accelerating the transfer of authority to the Government of Afghanistan.

The House bill contained no similar provision.

The House recedes with an amendment that would require the President to establish and update regularly options to accelerate the expansion of the capacity of Afghan National Security Forces with the goals of enabling the Government of Afghanistan to assume lead security responsibility, achieving U.S. national security objectives in Afghanistan, and enabling the United States to move to an enduring partnership with Afghanistan. The provision would also require the President to establish benchmarks to evaluate progress toward these goals and regularly report to Congress on those benchmarks.

Subtitle C—Reports and Other Matters

*Report on Coalition Support Fund reimbursements to the Government of Pakistan for operations conducted in support of Operation Enduring Freedom (sec. 1231)*

The Senate amendment contained a provision (sec. 1231) that would require the Secretary of Defense to submit a report to the congressional defense committees and the

Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives assessing the effectiveness of Coalition Support Fund reimbursements to the Government of Pakistan for operations conducted in support of Operation Enduring Freedom.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

*Review and report on Iran's and China's conventional and anti-access capabilities (sec. 1232)*

The House bill contained a provision (sec. 1221) that would require the Secretary of Defense to appoint an entity outside the Department of Defense to conduct an independent review of gaps between Iran's and China's conventional and anti-access capabilities and the United States' capability to overcome them.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would direct the Comptroller General of the United States to conduct the review.

*Report on energy security of NATO alliance (sec. 1233)*

The House bill contained a provision (sec. 1222) that would require the Secretary of Defense to direct a federally funded research and development center (FFRDC) of the Department of Defense to assess the energy security of the North Atlantic Treaty Organization (NATO) alliance. The provision would also require the Secretary of Defense to report to Congress on the results of the assessment by the FFRDC.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Defense, in consultation with the Secretary of State and the Secretary of Energy, to report on the efforts by the Department of Defense, including within NATO, to address the energy security of the NATO alliance.

*Comptroller General of the United States report on the National Guard State Partnership Program (sec. 1234)*

The Senate amendment contained a provision (sec. 1242) that would direct the Comptroller General of the United States to conduct a review of the effectiveness of the National Guard State Partnership Program and provide the results of the review to the Committees on Armed Services of the Senate and the House of Representatives no later than March 31, 2012.

The House bill contained no similar provision.

The House recedes.

*Man-portable air-defense systems originating from Libya (sec. 1235)*

The Senate amendment contained a provision (sec. 1243) that would direct the Intelligence Community to complete an intelligence assessment of the disposition of man-portable air-defense systems (MANPADS) in Libya. Following the completion of the intelligence assessment, the provision would require the President to develop a strategy to reduce and mitigate the threat posed from MANPADS.

The House bill contained no similar provision.

The House recedes.

*Report on military and security developments involving the Democratic People's Republic of Korea (sec. 1236)*

The House bill contained a provision (sec. 1224) that would require the Secretary of Defense to report on military and security developments in North Korea. The provision

would require two reports: one due on March 1, 2012, and the other due on March 1, 2013.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require a single report, due to specified committees of the Senate and the House of Representatives on November 1, 2012.

*Sense of Congress on non-strategic nuclear weapons and extended deterrence policy (sec. 1237)*

The House bill contained a provision (sec. 1230) that would prohibit any action from being taken to effect or to implement the reduction, consolidation, or withdrawal of nuclear forces of the United States that are based in Europe. The provision included two exceptions to this prohibition. First, the reduction, consolidation, or withdrawal of such nuclear forces would be allowed if such action is requested by the government of the host nation. Second, an exception would be allowed if the President certifies that North Atlantic Treaty Organization (NATO) member states have considered the reduction, consolidation, or withdrawal within the NATO High Level Group; that NATO has decided to support the reduction, consolidation, or withdrawal; and that the remaining nuclear forces of the United States that are based in Europe after such reduction, consolidation, or withdrawal would provide a commensurate or better level of assurance and credibility as before. The provision would require that upon any decision to reduce, consolidate, or withdraw nuclear forces of the United States from Europe, the President must submit to the appropriate congressional committees a notification of the certification described above. The certification must contain a justification for the reduction and an assessment of how NATO member states, in light of such action, assess the credibility of the deterrence capability of the United States in support of its commitments under article 5 of the North Atlantic Treaty of 1949. This provision would require the expiration of a 180 day wait period beginning on the date that the President makes the certification described above before the President may commence a reduction, consolidation, or withdrawal.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express the sense of Congress on non-strategic nuclear weapons and extended deterrence policy. It states that if the United States pursues arms control negotiations with the Russian Federation, such negotiations should be aimed at the reduction of Russian deployed and non-deployed non-strategic nuclear weapons and increased transparency of such weapons. It also states that for the purposes of such negotiations, non-strategic nuclear weapons should be considered when weighing the balance of the nuclear forces of the United States and Russia and that geographical relocation and consolidated or centralized storage of non-strategic nuclear weapons by Russia should not be considered a reduction or elimination of such weapons.

Regarding extended deterrence, the provision states that it is the sense of Congress that the commitment of the United States to extended deterrence in Europe and the nuclear alliance of NATO is an important component of ensuring and linking the national security of the United States and its European allies. Finally, it would express the sense of Congress that the nuclear forces of the United States are a key component of

the NATO nuclear alliance and that the presence of United States nuclear weapons in Europe—combined with NATO's unique nuclear sharing arrangements under which non-nuclear members participate in nuclear planning and possess specially configured aircraft capable of delivering nuclear weapons—provides reassurance to NATO allies who feel exposed to regional threats.

*Annual report on Military and Security Developments Involving the People's Republic of China (sec. 1238)*

The House bill contained a provision (sec. 1227) that would further amend subsection (b) of section 1202 of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106-65) to include additional information in the annual report to Congress and to change the title of the report.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would retain the current title of the report.

*Report on expansion of participation in Euro-NATO Joint Jet Pilot Training Program (sec. 1239)*

The House bill contained a provision (sec. 1232) that would require the Secretary of the Air Force, in consultation with the Secretary of State, to submit a report to Congress on the desirability and feasibility of expanding the participation of foreign countries in the Euro-NATO Joint Jet Pilot Training (ENJJPT) program.

The Senate amendment contained no similar provision.

The Senate recedes with a clarifying amendment that would require the Secretary of Defense, in consultation with the Secretary of State, to submit a report on expanding the ENJJPT program. The conferees encourage the Secretary of Defense also to consult with the Secretary of the Air Force in preparing the report required under this section.

*Report on Russian nuclear forces (sec. 1240)*

The House bill contained a provision (sec. 1235) that would require the Secretary of Defense, in coordination with the Director of National Intelligence, to submit a report to the appropriate congressional committees not later than March 1, 2013, on the nuclear forces of the Russian Federation and the New START Treaty. The provision would require the report to include an assessment of the number of nuclear warheads and delivery vehicles relative to New START levels by 2017 and by 2022; options with respect to the size and composition of Russian nuclear forces that Russia is considering; factors that are likely to influence the number and composition of Russian nuclear forces; and effects of shifts in the number and composition of Russian nuclear forces on strategic stability. The report would be required to be submitted in unclassified form, but may include a classified annex.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

The conferees note that if information that addresses this requirement already exists, the Secretary need only provide the committees listed in this section with this information to fulfill the requirement of this section.

*Report on progress of the African Union in operationalizing the African Standby Force (sec. 1241)*

The Senate amendment contained a provision (sec. 1241) that would direct the Under

Secretary of Defense for Policy to provide a report to the Committees on Armed Services of the Senate and the House of Representatives on progress of the African Union in operationalizing the African Standby Force. This report shall be provided no later than 180 days after the date of enactment of this Act.

The House bill contained no similar provision.

The House recedes.

*Defense Cooperation with Republic of Georgia (sec. 1242)*

The Senate amendment contained a provision (sec. 1244) that would require the President to develop and submit to Congress a plan for the normalization of U.S. defense cooperation with the Republic of Georgia, including the sale of defensive arms.

The House bill contained no similar provision.

The House recedes with a clarifying amendment.

The conferees understand normalization of U.S. defense cooperation to mean strengthening the Republic of Georgia's capacity to provide for its own self-defense, including through the U.S. sale of defensive arms, and continuing to enhance the ability of the United States and the Republic of Georgia to meet common international defense objectives in partnership together, including regional security.

*Prohibition on procurements from Communist Chinese military companies (sec. 1243)*

The House bill contained a provision (sec. 1234) that would amend section 1211 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) by adjusting the waiver provision and modifying the definition of Communist Chinese military company.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would only adjust the waiver provision.

*Sharing of classified United States ballistic missile defense information with the Russian Federation (sec. 1244)*

The House bill contained a provision (sec. 1228) that would prohibit the availability of funds made available to carry out this Act from being used to provide sensitive ballistic missile defense technology or data of the United States to the Russian Federation. The provision would also limit the availability of funds to provide other ballistic missile defense technology or data of the United States to the Russian Federation unless the President submits a report and a certification, not less than 30 days in advance, to the appropriate congressional committees.

The Senate amendment contained a related provision (sec. 233) that would state it is the sense of Congress that it is in the national security interests of the United States to pursue efforts at missile defense cooperation with Russia that would enhance security, including the sharing of classified United States information. The provision would also require a report on the status of such efforts.

The conferees agree to a provision that would require that no classified United States ballistic missile defense information may be provided to the Russian Federation unless, 60 days prior to any instance in which the United States Government plans to provide such information to the Russian Federation, the President provides notification to the appropriate congressional committees. The provision would specify the elements required of each such notification.

*Imposition of sanctions with respect to the financial sector of Iran (sec. 1245)*

The Senate amendment contained a provision (sec. 1245) that would require the imposition of sanctions with respect to the financial sector of Iran, including the Central Bank of Iran.

The House bill contained no similar provision.

The House recedes with an amendment that would: (1) permit the President—in addition to prohibiting—to impose strict conditions on the maintaining of a correspondent account or payable-through account by a foreign financial institution that has dealings with the Central Bank of Iran; (2) add the Secretary of State and the Director of National Intelligence to the report required with respect to petroleum sanctions; (3) modify the Presidential waiver to a national security interest waiver; and (4) provide the President with the authority to implement and enforce penalties associated with the provision.

The conferees intend that implementation be undertaken to conform with the timelines established by this section.

LEGISLATIVE PROVISIONS NOT ADOPTED

*Conditional extension and modification of authority to build the capacity of counterterrorism forces of Yemen*

The Senate amendment contained a provision (sec. 1204) that would extend, for 1 fiscal year, the authority of the Secretary of Defense, with the concurrence of the Secretary of State, to build the capacity of the Yemen Ministry of Interior counterterrorism forces if the Secretary of Defense and Secretary of State jointly certify that such activities are important to the national security interests of the United States. The provision would also require the Secretary of Defense and Secretary of State to provide a report with the certification that would provide the reasons the administration deemed the delivery of such assistance and assistance provided to Yemen's national military forces under section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163) important to the national security interests of the United States, as well as establish a 60-day "notice and wait" period for the provision of assistance. The provision would also permit the Department to expend not more than \$10.0 million per fiscal year on minor military construction projects outside of Sana'a—the capital of Yemen, and Sana'a Governorate.

The House bill contained no similar provision.

The Senate recedes.

The conferees integrated this provision into the global security contingency fund created under a different section of this Act as a transitional authority.

*Interagency working group on foreign police training*

The House bill contained a provision (sec. 1206) that would establish an interagency working group to monitor, coordinate, and unify foreign police training, projects, and activities of various federal departments and agencies.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that the section 1235(c) of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) required a "report on government police training and equipping programs." This report is due on January 7, 2012. The conferees look forward to reviewing this re-

port and considering future action on this matter.

*Authority to build the capacity of certain counterterrorism forces of East African countries*

The Senate amendment contained a provision (sec. 1208) that would authorize, for 2 fiscal years, the Secretary of Defense, with the concurrence of the Secretary of State to build the capacity of the national military forces, security agencies that serve a similar defense function, and border security forces of Djibouti, Ethiopia, and Kenya, and the national military forces of nations participating in the African Union Mission in Somalia for the purpose of conducting counterterrorism operations against al Qaeda, al Qaeda affiliates, and al Shabaab in East Africa.

The House bill contained no similar provision.

The Senate recedes.

The conferees integrated this provision into the global security contingency fund created under a different section of this Act as a transitional authority.

*Report on extension of United States-Iraq Status of Forces Agreement*

The House bill contained a provision (sec. 1215) that would require the Secretary of Defense to notify the congressional defense committees if the U.S. Government and the Government of the Republic of Iraq complete an agreement to permit the United States to retain a force presence in Iraq above that envisioned for the Office of Security Cooperation-Iraq.

The Senate amendment contained no similar provision.

The House recedes.

*Report on United States military strategy in Afghanistan in light of the Death of Osama Bin Laden*

The House bill contained a provision (sec. 1217) that would require the Secretary of Defense to submit a report to the congressional defense committees on the U.S. military strategy in Afghanistan, including any changes to that strategy in light of the death of Osama bin Laden.

The Senate amendment contained no similar provision.

The House recedes.

*National security risk assessment of United States federal debt owned by the People's Republic of China*

The House bill contained a provision (sec. 1225) that would require the Secretary of Defense, in consultation with the Director of National Intelligence, to conduct an assessment of the national security risks posed to the United States and its allies as a result of the debt owed to China.

The Senate amendment contained no similar provision.

The House recedes.

The conferees direct the Secretary of Defense to provide an assessment of the national security risks posed to the United States as a result of the United States federal debt owed to China as a creditor of the United States Government and the implications of that debt for the United States military. The assessment shall include a description of the United States federal debt liabilities owed to China as a creditor of the United States and a discussion of any options available to China for deterring United States military freedom of action in the western Pacific as a result of this debt. This assessment shall be provided not later than 120 days after enactment of this Act, should

be provided in written form to the Committees on Armed Services of the Senate and the House of Representatives, and may contain a classified annex if necessary. In preparing this assessment, the Secretary should consult with other members of the Executive Branch, as necessary, including the Director of National Intelligence.

*Congressional notification requirement before permanent relocation of any United States military unit stationed outside the United States*

The House bill contained a provision (sec. 1226) that would require the Secretary of Defense, prior to relocating any military unit stationed outside the United States, to submit to Congress a written notification and detailed report relating to the planned relocation.

The Senate amendment contained no similar provision.

The House recedes.

*International agreements relating to missile defense*

The House bill contained a provision (sec. 1229) that would establish policy and conditions related to international agreements relating to limitations on the missile defense capabilities of the United States.

The Senate amendment contained no similar provision.

The House recedes.

*Certification requirement regarding efforts by Government of Pakistan to implement a strategy to counter improvised explosive devices*

The Senate amendment contained a provision (sec. 1230) that would provide that prior to the use of funds from the Pakistan Counterinsurgency Fund, the Secretary of Defense, in consultation with the Secretary of State, should certify to the congressional defense committees and the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives that the Government of Pakistan is demonstrating a continuing commitment to and making significant efforts towards the implementation of a strategy to counter improvised explosive devices (IED).

The House bill contained no similar provision.

The Senate recedes.

The conferees note that the report required under another section of this title to be submitted in connection with the use of the Pakistan Counterinsurgency Fund includes a requirement for a strategy to enhance the efforts of Pakistan to counter IEDs and information on whether Pakistan is demonstrating a continuing commitment to and making significant efforts toward implementing a strategy to counter IEDs.

*Rule of construction relating to the situation in Libya*

The House bill contained a provision (sec. 1231) that would conclude that nothing in the House bill shall be construed to authorize military operations in Libya.

The Senate amendment contained no similar provision.

The House recedes.

*Report on long-term costs of Operation Iraqi Freedom, Operation Enduring Freedom, and Operation Odyssey Dawn*

The House bill contained a provision (sec. 1233) that would require the President to report to Congress containing an estimate of the long-term costs of Operation Iraqi Freedom, Operation Enduring Freedom, and Operation Odyssey Dawn.

The Senate amendment contained no similar provision.

The House recedes.

*Prohibition on United States ground combat presence in Libya*

The House bill contained a provision (sec. 1236) that would prohibit the presence of ground combat troops in Libya.

The Senate amendment contained no similar provision.

The House recedes.

*Repeal of the United States Institute of Peace Act*

The House bill contained a provision (sec. 1237) that would repeal the United States Institute of Peace Act (title XVII of Public Law 98-525; 22 U.S.C. 4601 et seq.).

The Senate amendment contained no similar provision.

The House recedes.

**TITLE XIII—COOPERATIVE THREAT REDUCTION**  
*Specification of Cooperative Threat Reduction programs and funds (sec. 1301)*

The House bill contained a provision (sec. 1301) that would define the programs and funds that are Cooperative Threat Reduction (CTR) programs and funds as those authorized to be appropriated in section 301 of this Act and specify that CTR funds shall remain available for obligation for 3 fiscal years.

The Senate amendment contained an identical provision.

The conference agreement includes the provision.

*Funding allocations (sec. 1302)*

The House bill contained a provision (sec. 1302) that would provide specific amounts for each program element under the Department of Defense Cooperative Threat Reduction (CTR) Program from within the overall \$508.2 million that the committee would authorize for the CTR program, require notification to Congress 15 days before the Secretary of Defense obligates and expends fiscal year 2012 funds for purposes other than those specifically authorized, and provide limited authority to obligate amounts for a program element under the CTR program in excess of the amount specifically authorized for that purpose.

The Senate amendment contained an identical provision (sec. 1302).

The conference agreement includes this provision.

*Limitation on availability of funds for cooperative biological engagement program (sec. 1303)*

The House bill contained a provision (sec. 1303) that would limit funds that may be obligated or expended for fiscal year 2012 for the cooperative biological engagement program (CBEP) to not more than 75 percent of the amounts authorized or otherwise available, until the date on which the Secretary of Defense submits to the appropriate congressional committees an analysis of the effectiveness of CBEP, a certification that CBEP results in changed practices and threat reduction, or a detailed list of policy and program recommendations considered by the Secretary to be necessary to modify, expand, or curtail CBEP.

The Senate amendment contained no similar provision.

The House recedes with an amendment that would limit the amount to be obligated to not more than 80 percent.

*Limitation on use of funds for establishment of centers of excellence in countries outside of the former Soviet Union (sec. 1304)*

The Senate amendment contained a provision (sec. 1303) that would prohibit the Sec-

retary of Defense from obligating or expending more than \$0.5 million of Cooperative Threat Reduction (CTR) funds to establish a center of excellence in any country outside of the former Soviet Union (FSU) until such time as the Secretary of Defense submits to the congressional defense committees a report on the particular center to be established. The report shall identify the country where the center would be established, the purpose for which the center would be used, the agreement under which the center would operate, and the funding plan for the center including any cost sharing arrangement.

The House bill contained no similar provision.

The House recedes.

**TITLE XIV—OTHER AUTHORIZATIONS**

**Subtitle A—Military Programs**

*Working capital funds (sec. 1401)*

The House bill contained a provision (sec. 1401) that would authorize appropriations for fiscal year 2012 for working capital and revolving funds.

The Senate amendment contained a similar provision (sec. 1401).

The Senate recedes.

*National Defense Sealift Fund (sec. 1402)*

The House bill contained a provision (sec. 1402) that would authorize appropriations for fiscal year 2012 for the National Defense Sealift Fund.

The Senate amendment contained a similar provision (sec. 1402).

The Senate recedes.

*Chemical agents and munitions destruction, defense (sec. 1403)*

The House bill contained a provision (sec. 1403) that would authorize appropriations for fiscal year 2012 for chemical agents and munitions destruction, defense.

The Senate amendment contained a similar provision (sec. 1404).

The Senate recedes.

*Drug interdiction and counterdrug activities, defense-wide (sec. 1404)*

The House bill contained a provision (sec. 1404) that would authorize appropriations for fiscal year 2012 for drug interdiction and counterdrug activities, defense-wide.

The Senate amendment contained a similar provision (sec. 1405).

The Senate recedes.

*Defense Inspector General (sec. 1405)*

The House bill contained a provision (sec. 1405) that would authorize appropriations for fiscal year 2012 for the Office of the Inspector General of the Department of Defense.

The Senate amendment contained a similar provision (sec. 1406).

The Senate recedes.

*Defense Health Program (sec. 1406)*

The House bill contained a provision (sec. 1406) that would authorize appropriations for fiscal year 2012 for the Defense Health Program.

The Senate amendment contained a similar provision (sec. 1403).

The Senate recedes.

**Subtitle B—National Defense Stockpile**

*Authorized uses of National Defense Stockpile funds (sec. 1411)*

The House bill contained a provision (sec. 1411) that would authorize \$50.1 million from the National Defense Stockpile Transaction fund for the operation and maintenance of the National Defense Stockpile for fiscal year 2012. This provision would also permit the use of additional funds for extraordinary or emergency conditions 45 days after congressional notification.

The Senate amendment contained an identical provision (sec. 1411).

The conference agreement includes this provision.

*Revision to required receipt objectives for previously authorized disposals from the National Defense Stockpile (sec. 1412)*

The House bill contained a provision (sec. 1412) that would amend section 3402(b)(5) of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106-65), as amended, to increase the Department of Defense stockpile commodity disposal authority from \$730.0 million to \$830.0 million, and to extend this authority from 2013 to 2016.

The Senate amendment contained an identical provision.

The conference agreement includes this provision.

**Subtitle C—Other Matters**

*Authorization of appropriations for Armed Forces Retirement Home (sec. 1421)*

The House bill contained a provision (sec. 1431) that would authorize \$67.7 million to be appropriated for the operation of the Armed Forces Retirement Home during fiscal year 2012.

The Senate amendment contained an identical provision (sec. 1421).

The conference agreement includes this provision.

*Authority for transfer of funds to Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund for Captain James A. Lovell Health Care Center, Illinois (sec. 1422)*

The House bill contained a provision (sec. 1432) that would authorize the Secretary of Defense to transfer \$135.6 million from the Defense Health Program to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund created by section 1704 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

The Senate amendment contained a similar provision (sec. 1431).

The Senate recedes.

**Legislative Provisions Not Adopted**

*Changes to management organization to the Assembled Chemical Weapons Alternative program*

The House bill contained a provision (sec. 1421) that would amend section 1412(g)(2) of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521) to eliminate the requirement for the program manager for the Assembled Chemical Weapons Alternative (ACWA) program to act independently of the Army program manager for Chemical Demilitarization and to report to the Under Secretary of Defense for Acquisition, Technology, and Logistics. The provision would also require the Assistant Secretary of Defense for Nuclear, Chemical, and Biological Defense Programs to provide a briefing on ways that lessons learned from Army Chemical Materials Agency operations could be applied to the ACWA program.

The Senate amendment contained no similar provision.

The House recedes.

The conferees agree that the Army Chemical Materials Agency has developed great expertise in the demilitarization of chemical weapons that could be highly beneficial to the ACWA program. The conferees expect the Department of Defense to assess and, to the extent practicable, implement opportunities to leverage such expertise to maximize ACWA program effectiveness, without changing the management structure for the ACWA program.

*Amendment of Armed Forces Retirement Home Act of 1991*

The Senate amendment contained a provision (sec. 1422) that would clarify that any amendments or repeals in this Act made in reference to the Armed Forces Retirement Home be considered to be made to a section or other provision of the Armed Forces Retirement Home Act of 1991 (title XI of Public Law).

The House bill contained no similar provision.

The Senate recedes.

*Annual validation of multiyear accreditation*

The Senate amendment contained a provision (sec. 1423) that would require the Chief Operating Officer of the Armed Forces Retirement Home, if accreditation is granted to the Home for more than 1 year, to seek validation of the accreditation for every year that the Department of Defense Inspector General does not conduct an inspection of the Home.

The House bill contained no similar provision.

The Senate recedes.

*Mission force enhancement transfer fund*

The House bill contained a provision (sec. 1433) that would: (1) establish a fund known as the "Mission Force Enhancement Transfer Fund"; (2) authorize \$348.3 million for the Fund, consisting of the amount of funds not needed to carry out projects identified elsewhere in the bill; and (3) define the purposes for which the Secretary of Defense could make transfers from the Fund.

The Senate amendment contained no similar provision.

The House recedes.

**TITLE XV—AUTHORIZATION OF ADDITIONAL APPROPRIATIONS FOR OPERATION IRAQI FREEDOM AND OPERATION ENDURING FREEDOM**

**Subtitle A—Authorization of Additional Appropriations**

*Purpose (sec. 1501)*

The House bill contained a provision (sec. 1501) stating the purpose of the title.

The Senate amendment contained an identical provision (sec. 1501).

The conference agreement includes this provision.

*Procurement (sec. 1502)*

The House bill contained a provision (sec. 1502) authorizing additional appropriations for procurement.

The Senate amendment contained an identical provision (sec. 1502).

The conference agreement includes this provision.

*Research, development, test, and evaluation (sec. 1503)*

The House bill contained a provision (sec. 1503) authorizing additional appropriations for research, development, test, and evaluation.

The Senate amendment contained an identical provision (sec. 1503).

The conference agreement includes this provision.

*Operation and maintenance (sec. 1504)*

The House bill contained a provision (sec. 1504) authorizing additional appropriations for operation and maintenance.

The Senate amendment contained an identical provision (sec. 1504).

The conference agreement includes this provision.

*Military personnel (sec. 1505)*

The House bill contained a provision (sec. 1505) authorizing additional appropriations for military personnel.

The Senate amendment contained a similar provision (sec. 1505).

The Senate recedes.

*Working capital funds (sec. 1506)*

The House bill contained a provision (sec. 1506) authorizing additional appropriations for Working Capital Funds.

The Senate amendment contained a similar provision (sec. 1506).

The Senate recedes.

*Defense Health Program (sec. 1507)*

The House bill contained a provision (sec. 1507) authorizing additional appropriations for the Defense Health Program.

The Senate amendment contained a similar provision (sec. 1507).

The Senate recedes.

*Drug Interdiction and Counter-Drug Activities, Defense-wide (sec. 1508)*

The House bill contained a provision (sec. 1508) authorizing additional appropriations for drug interdiction and counterdrug activities, defense-wide.

The Senate amendment contained a similar provision (sec. 1508).

The Senate recedes.

*Defense Inspector General (sec. 1509)*

The House bill contained a provision (sec. 1509) authorizing additional appropriations for the Defense Inspector General.

The Senate amendment contained a similar provision (sec. 1509).

The Senate recedes.

**Subtitle B—Financial Matters**

*Treatment as additional authorizations (sec. 1521)*

The House bill contained a provision (sec. 1521) stating that the amounts authorized to be appropriated by this title are in addition to amounts otherwise authorized to be appropriated by this Act.

The Senate amendment contained an identical provision (sec. 1521).

The conference agreement includes this provision.

*Special transfer authority (sec. 1522)*

The House bill contained a provision (sec. 1522) that would provide the Department with special transfer authority totaling \$3.0 billion in fiscal year 2012.

The Senate amendment contained a similar provision (sec. 1522) that would provide the Department with \$4.0 billion in special transfer authority.

The House recedes.

**Subtitle C—Limitations and Other Matters**  
*Joint Improvised Explosive Device Defeat Fund (sec. 1531)*

The House bill contained a provision (sec. 141) that would authorize various transfer authorities and associated activities for the Joint Improvised Explosive Device Defeat Fund.

The Senate amendment contained no similar provision.

The Senate recedes.

*Continuation of prohibition on use of United States funds for certain facilities projects in Iraq (sec. 1532)*

The House bill contained a provision (sec. 1532) that would apply the prohibitions of section 1508(a) of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417) to funds authorized to be appropriated by this title.

The Senate amendment contained no similar provision.

The Senate recedes.

*Availability of funds in Afghanistan Security Forces Fund (sec. 1533)*

The House bill contained a provision (sec. 1531) that would extend for fiscal year 2012

the application of the existing limitations on the use of the Afghanistan Security Forces Fund (ASFF) under section 1513 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 428), as amended. The provision would also authorize the use of amounts in the ASFF for literacy instruction for Afghanistan Ministry of Defense personnel. In addition, the provision would withhold the availability of 25 percent of the funds for the ASFF during fiscal year 2012 unless the Secretary of Defense certified that sufficient contract management and oversight mechanisms were in place.

The Senate amendment contained a similar provision (sec. 1532) that would extend the existing limitations on the use of ASFF and authorize the use of ASFF amounts for literacy and vocational training for personnel of the Afghanistan Ministry of Defense and Ministry of Interior.

The House recedes with an amendment that would require the Secretary of Defense to certify to Congress not later than 180 days after the date of enactment of this Act that sufficient contract management and oversight mechanisms are in place in Afghanistan or report on the efforts of the Department of Defense to put those mechanisms in place.

*One-year extension of project authority and related requirements of Task Force for Business and Stability Operations in Afghanistan (sec. 1534)*

The House bill contained a provision (sec. 1533) that would extend for 1 year the authority under section 1535 of the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (Public Law 111-383) for the Department of Defense Task Force for Business and Stability Operations (TFBSO) in Afghanistan. The provision would authorize up to \$75.0 million for the activities of the Task Force.

The Senate amendment contained a similar provision (sec. 1531) that would extend the authority for the TFBSO for 1 year and authorize up to \$150.0 million for its activities.

The Senate recedes with an amendment that would authorize up to \$150.0 million for the activities of the TFBSO. The amendment would also provide that funds remain available across fiscal years for Task Force activities that begin in one fiscal year but do not end until the following fiscal year. Additionally, the amendment would clarify the scope of projects that may be carried out by the TFBSO.

*Limitation on availability of funds for Trans Regional Web Initiative (sec. 1535)*

The Senate amendment contained a provision (sec. 1533) that would prohibit the Department of Defense from obligating or expending any funds for the Trans Regional Web Initiative until the Secretary of Defense makes several certifications to the Committees on Armed Services of the Senate and the House of Representatives related to the performance and cost effectiveness of the program.

The House bill contained no similar provision.

The House recedes.

*Report on lessons learned from Department of Defense participation on interagency teams for counterterrorism operations in Afghanistan and Iraq (sec. 1536)*

The Senate amendment contained a provision (sec. 1534) that would require the Secretary of Defense to submit to the congressional defense committees a report on the

lessons learned from Department of Defense participation on interagency teams for counterterrorism operations in Afghanistan and Iraq.

The House bill contained no similar provision.

The House recedes with an amendment that would require the Secretary of Defense to direct a federally funded research and development center to conduct an assessment on the lessons learned from interagency teams for counterterrorism operations in Afghanistan and Iraq and provide the report with his assessment and comments to the congressional defense committees not later than 1 year after the date of enactment of this Act.

#### DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

##### *Short title (sec. 2001)*

The House bill contained a provision (sec. 2001) that would designate division B of this Act as the Military Construction Authorization Act for Fiscal Year 2012.

The Senate amendment contained an identical provision (sec. 2001).

The conference agreement includes this provision.

##### *Expiration of authorizations and amounts required to be specified by law (sec. 2002)*

The House bill contained a provision (sec. 2002) that would ensure that the authorizations provided in titles XXI through XXVI shall expire on October 1, 2014, or the date of enactment of an act authorizing funds for military construction for fiscal year 2015, whichever is later.

The Senate amendment contained an identical provision (sec. 2002).

The conference agreement includes this provision.

#### Legislative Provisions Not Adopted

##### *Funding tables*

The Senate amendment contained a provision (sec. 2003) making the amounts authorized to be appropriated available in the amounts specified in the funding table in section 4501.

The House bill did not contain a similar provision.

The Senate recedes.

##### *Effective date*

The House bill contained a provision (sec. 2004) stating the date titles XXI through XXVII shall take effect.

The Senate amendment did not contain a similar provision.

The House recedes.

##### *Limitation on implementation of projects designated at various locations*

The House bill contained a provision (sec. 2003) that would limit the Department's ability to award a project authorized for various locations in titles XXI through XXVII.

The Senate amendment did not contain a similar provision.

The House recedes.

#### TITLE XXI—ARMY

##### *Authorized Army construction and land acquisition projects (sec. 2101)*

The House bill contained a provision (sec. 2101) that would authorize military construction projects for the active component of the Army for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2101).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in

the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

The budget request included an authorization of appropriations of \$31.0 million for the Department of the Army to construct road and infrastructure improvements at Fort Belvoir, Virginia to support the construction of the National Museum of the United States Army, which would be funded with private donations. The conferees agree to authorize \$25.0 million for infrastructure improvements to construct utilities for the new museum. The conferees have not included an authorization of appropriations for this project, since the Department of the Army has indicated that funds are available through unobligated balances as a result of bid savings for other military construction projects.

The conferees are concerned that the project must comply with statutes regarding the construction of complete and usable facilities. Therefore, the conferees have included a statutory provision that requires the Secretary of the Army to certify to the congressional defense committees prior to an award of a contract for the infrastructure project that sufficient funds from private donations have been raised and a construction contract has been awarded for the "baseline" museum. Finally, the conferees direct the Secretary of the Army to establish and maintain a clear and auditable separation of accounts between appropriations and private donations to ensure that the military construction appropriations are used only for the infrastructure and utilities up to the museum building exterior. The conferees agree that amounts appropriated for military construction should not be used to construct the museum.

The budget request included an authorization of appropriations of \$24.0 million for the Department of the Army to construct a vehicle maintenance facility at Fort Bliss, Texas and a separate request for \$14.6 million to construct infrastructure for the vehicle maintenance facility. The Senate amendment did not include the authorization of appropriations for these two projects.

The Department of the Army notified the conferees that a portion of infrastructure project was required to ensure that a separate Electronics Maintenance Facility included in the budget request would not be complete and usable without the infrastructure project. Therefore the conferees agree to authorize \$11.6 million for the infrastructure project.

The conferees direct the Secretary of the Army to ensure that the authorization for each military construction project in the budget request will include a scope of work that will result in a complete and useable facility without relying on the authorization of a separate project, even if that project is included in the same budget request.

The conferees are also concerned that the authorization of appropriations for a military construction project for infrastructure or utilities is considered by the United States Corps of Engineers to constitute a complete and usable facility even if the infrastructure or utilities do not service a military facility. The conferees do not agree with this interpretation of military construction statutes as it would permit the construction of 'infrastructure to nowhere' and a waste of taxpayer funds.

##### *Family housing (sec. 2102)*

The House bill contained a provision (sec. 2102) that would authorize new construction and planning and design of family housing

units for the Army for fiscal year 2012. It would also authorize funds for facilities that support family housing, including housing management offices and housing maintenance and storage facilities.

The Senate amendment contained a similar provision (sec. 2102).

The Senate recedes with a clarifying amendment.

##### *Improvements to military family housing units (sec. 2103)*

The House bill contained a provision (sec. 2103) that would authorize funding for fiscal year 2012 to improve existing family housing.

The Senate amendment contained a similar provision (sec. 2103).

The Senate recedes with a clarifying amendment.

##### *Authorization of appropriations, Army (sec. 2104)*

The House bill contained a provision (sec. 2104) that would authorize appropriations for the active component military construction and family housing projects of the Army for fiscal year 2012. This provision would also provide an overall limitation on the cost of the fiscal year 2012 military construction and family housing projects authorized for the active-duty component of the Army.

The Senate amendment contained a similar provision (sec. 2104).

The Senate recedes with a clarifying amendment.

##### *Modification of authority to carry out certain fiscal year 2009 project (sec. 2105)*

The House bill contained a provision (sec. 2105) that would amend the table in section 2101(a) of the Military Construction Authorization Act for Fiscal Year 2009 (division B of Public Law 110-417) to allow for a scope increase of a Multipurpose Training Range at Fort Benning, Georgia.

The Senate amendment contained an identical provision (sec. 2105).

The conference agreement includes the provision.

##### *Modification of authority to carry out certain fiscal year 2010 project (sec. 2106)*

The Senate amendment contained a provision (sec. 2106) that would modify the authority to carry out a certain fiscal year 2010 project.

The House bill did not contain a similar provision.

The House recedes.

##### *Modification of authority to carry out certain fiscal year 2011 projects (sec. 2107)*

The House bill contained a provision (sec. 2106) that would amend the table in section 2101(a) of the Military Construction Authorization Act for Fiscal Year 2011 (division B of Public Law 111-383) to allow for a scope increase in various projects.

The Senate amendment contained an identical provision (sec. 2107).

The conference agreement includes the provision.

##### *Additional authority to carry out certain fiscal year 2012 project (sec. 2108)*

The House bill contained a provision (sec. 2107) that provided the Secretary of the Army authorization to carry out a military construction project to construct a water treatment facility for Fort Irwin, California.

The Senate amendment contained a similar provision (sec. 2108).

The House recedes with a clarifying amendment.

##### *Extension of authorizations of certain fiscal year 2008 projects (sec. 2109)*

The House bill contained a provision (sec. 2108) that would extend the authorization for certain projects.

The Senate amendment contained a similar provision (sec. 2109).

The House recedes with a clarifying amendment.

*Extension of authorizations of certain fiscal year 2009 projects (sec. 2110)*

The House bill contained a provision (sec. 2109) that would extend the authorization for certain projects.

The Senate amendment contained an identical provision (sec. 2110).

The conference agreement includes the provision.

*Tour normalization (sec. 2111)*

The Senate amendment contained a provision (sec. 2113) that would prevent the obligation or expenditure of funds for tour normalization until certain conditions were met.

The House bill did not contain a similar provision.

The House recedes with a clarifying amendment.

The conferees note that the term, "tour normalization", refers to a proposal to allow all married service members to serve accompanied tours in Korea. Within tour normalization, unmarried or unaccompanied (no dependents authorized) members would serve 24 months and accompanied members would serve 36 months. Command sponsorship opportunities are not available to all service members and are controlled by U.S. Forces Korea. U.S. Forces Korea allocates command sponsorship based on the readiness contribution of stabilizing key leaders and critical skill positions for longer periods of time. Command sponsorship opportunity is contingent upon the availability of facilities and services and is currently capped at 4,645 positions across the peninsula, covering all services. The conferees' intent is to restrict the increase of command sponsorship opportunities above 4,645.

*Technical amendments to correct certain project specifications (sec. 2112)*

The House bill contained a provision (sec. 2110) that would make certain technical amendments to correct certain project specifications.

The Senate amendment contained a similar provision (sec. 2111).

The House recedes with a clarifying amendment.

*Reduction of Army military construction authorization (sec. 2113)*

The Senate amendment contained a provision (sec. 2112) that would reduce the Army's military construction authorization.

The House bill did not contain a similar provision.

The House recedes.

#### LEGISLATIVE PROVISION NOT ADOPTED

*Additional budget items relating to Army construction and land acquisition projects*

The House bill contained a provision (sec. 2111) authorizing the Secretary of the Army additional funding.

The Senate amendment did not contain a similar provision.

The House recedes.

#### TITLE XXII—NAVY

##### LEGISLATIVE PROVISIONS ADOPTED

*Authorized Navy construction and land acquisition projects (sec. 2201)*

The House bill contained a provision (sec. 2201) that would authorize military construction projects for the active component of the Navy for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2201).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

The budget request included an authorization of appropriations of \$45.2 million for Waterfront Development, Phase 4 at Naval Support Activity Bahrain, which included the construction of a climate controlled warehouse, a vehicle wash rack, and a fleet recreation center. The conferees note that phase 3 of the project has not yet been awarded.

The conferees encourage the Department of the Navy to review the timing and phasing of the recapitalization of the Navy's existing facilities to ensure that only the most critical projects in direct support of Naval operations in the Central Command area of responsibility are carried out in a difficult budget environment.

The budget request included authorizations of appropriations of \$77.3 million for Finegayan Water Utilities, Guam and \$78.7 million for North Ramp Utilities, Increment 2 at Anderson Air Base, Guam. The conferees defer the authorization of appropriations for these two projects pending receipt of information required by section 2207 of this Act.

The conferees determined that the Massey Avenue Corridor Improvements Project had merit to support requirements at the Naval Station Mayport, Florida, whether or not a nuclear powered aircraft carrier was home ported there.

*Family housing (sec. 2202)*

The House bill contained a provision (sec. 2202) that would authorize new construction and planning and design of family housing units for the Navy for fiscal year 2012. It would also authorize funds for facilities that support family housing, including housing management offices and housing maintenance and storage facilities.

The Senate amendment contained a similar provision (sec. 2202).

The Senate recedes with a clarifying amendment.

*Improvements to military family housing units (sec. 2203)*

The House bill contained a provision (sec. 2203) that would authorize funding for fiscal year 2012 to improve existing family housing.

The Senate amendment contained a similar provision (sec. 2203).

The Senate recedes with a clarifying amendment.

*Authorization of appropriations, Navy (sec. 2204)*

The House bill contained a provision (sec. 2204) that would authorize appropriations for the active component military construction and family housing projects of the Navy for fiscal year 2012. This provision would also provide an overall limitation on the cost of the fiscal year 2012 military construction and family housing projects authorized for the active-duty component of the Navy.

The Senate amendment contained a similar provision (sec. 2204).

The Senate recedes with a clarifying amendment.

*Extension of authorizations of certain fiscal year 2008 project (sec. 2205)*

The House bill contained a provision (sec. 2205) extending the authorization for certain projects.

The Senate amendment contained a similar provision (sec. 2205).

The House recedes with a clarifying amendment.

*Extension of authorizations of certain fiscal year 2009 projects (sec. 2206)*

The House bill contained a provision (sec. 2206) extending the authorization for certain projects.

The Senate amendment contained a similar provision (sec. 2206).

The House recedes with a clarifying amendment.

*Guam realignment (sec. 2207)*

The Senate amendment contained a provision (sec. 2208) preventing the obligation or expenditure of funds to execute the realignment of Marine Corps personnel from Okinawa to Guam until certain conditions are met.

The House bill did not contain a similar provision.

The House recedes with an amendment that extends the limitation on the use of funds authorized to be appropriated in the Act with certain exceptions. The amendment also requires the Secretary of Defense to obtain a specific authorization for the use of appropriated funds in fiscal year 2012 to be used to construct or acquire public infrastructure on Guam.

The conferees note that the Department of Defense has not overcome a number of obstacles, including lengthy environmental studies, legal challenges, and land use issues, thereby delaying its execution of planned military construction projects associated with the realignment that have been authorized and appropriated in previous acts.

The conferees also note that while the congressional defense committees have been briefed on the Marine Corps' preferred force lay-down on Guam, the Secretary of Defense has yet to provide Congress with a master plan for construction of facilities and infrastructure to support the Marine Corps' preferred option.

As was noted in the Ike Skelton National Defense Authorization Act for Fiscal Year 2011 (P.L. 111-383), the conferees continue to support a comprehensive approach in the Pacific that supports our strategic interests. Guam is an essential element in the framework of the United States' theater security plan, but the continued lack of a comprehensive master plan and the inability of the Government of Japan to demonstrate tangible progress for the Futenma Replacement Facility provide additional risk in our ability to quickly move forward with the realignment.

The conferees encourage the Secretary of Defense to promptly provide the committees with a master plan, as well as a cost-mitigation strategy, for the realignment of forces to Guam.

*Reduction of Navy military construction authorization (sec. 2208)*

The Senate amendment contained a provision (sec. 2207) that would reduce the Navy's military construction authorization.

The House bill did not contain a similar provision.

The House recedes with a clarifying amendment.

#### LEGISLATIVE PROVISION NOT ADOPTED

*Additional budget items relating to Navy construction and land acquisition projects*

The House bill contained a provision (sec. 2207) authorizing the Secretary of the Navy additional funding.

The Senate amendment did not contain a similar provision.

The House recedes.

## TITLE XXIII—AIR FORCE

## Legislative Provisions Adopted

*Authorized Air Force construction and land acquisition projects (sec. 2301)*

The House bill contained a provision (sec. 2301) that would authorize military construction projects for the active component of the Air Force for fiscal year 2013.

The Senate amendment contained a similar provision (sec. 2301).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

The budget request included an authorization of appropriations of \$128.0 million for the Department of the Air Force to construct a Fuel Maintenance Hangar at Andersen Air Force Base, Guam as part of the Guam Strike program. According to budget documents provided to Congress, Guam Strike could cost more than \$2.9 billion though the Air Force future-year defense program only contains approximately \$450.0 million for the program.

The conferees believe that completing the Guam Strike program would be a significant investment and the Air Force should therefore re-assess the affordability of such an investment for a rotational presence.

*Family housing (sec. 2302)*

The House bill contained a provision (sec. 2302) that would authorize new construction and planning and design of family housing units for the Air Force for fiscal year 2012. It would also authorize funds for facilities that support family housing, including housing management offices and housing maintenance and storage facilities.

The Senate amendment contained a similar provision (sec. 2302).

The Senate recedes.

*Improvements to military family housing units (sec. 2303)*

The House bill contained a provision (sec. 2303) that would authorize funding for fiscal year 2012 to improve existing family housing.

The Senate amendment contained a similar provision (sec. 2303).

The Senate recedes.

*Authorization of appropriations, Air Force (sec. 2304)*

The House bill contained a provision (sec. 2304) that would authorize appropriations for the active component military construction and family housing projects of the Air Force for fiscal year 2012. This provision would also provide an overall limitation on the cost of the fiscal year 2012 military construction and family housing projects authorized for the active-duty component of the Army.

The Senate amendment contained a similar provision (sec. 2304).

The Senate recedes with a clarifying amendment.

*Modification of authority to carry out certain fiscal year 2010 project (sec. 2305)*

The House bill contained a provision (sec. 2305) that amends the table in section 2301(a) of the Military Construction Authorization Act for Fiscal Year 2010 (division B of Public Law 111–84) to allow for a scope increase of a Ground Control Tower at Hickam Air Force Base, Hawaii.

The Senate amendment contained an identical provision (sec. 2305).

The conference agreement includes the provision.

*Extension of authorization of certain fiscal year 2009 project (sec. 2306)*

The House bill contained a provision (sec. 2306) that would extend the authorization for an Air Force fiscal year 2009 military construction project at Spangdahlem Air Base, Germany.

The Senate amendment contained an identical provision (sec. 2306).

The conference agreement includes the provision.

*Reduction of Air Force military construction authorization (sec. 2307)*

The Senate amendment contained a provision (sec. 2307) that would reduce the Air Force's military construction authorization.

The House bill did not contain a similar provision.

The House recedes with a clarifying amendment.

## LEGISLATIVE PROVISIONS NOT ADOPTED

*Limitation on implementation of consolidation of Air and Space Operations Center of the Air Force*

The House bill contained a provision (sec. 2307) limiting the implementation of consolidation of the Air and Space Operations Center of the Air Force.

The Senate amendment did not contain a similar provision.

The House recedes.

The conferees note that the Air Force announced a decision not to pursue a plan to consolidate Air Operations Centers in the United States.

*Additional budget items relating to Air Force construction and land acquisition projects*

The House bill contained a provision (sec. 2308) authorizing the Secretary of the Air Force additional funding.

The Senate amendment did not contain a similar provision.

The House recedes.

## TITLE XXIV—DEFENSE AGENCIES

Subtitle A—Defense Agency Authorizations  
*Authorized defense agencies construction and land acquisition projects (sec. 2401)*

The House bill contained a provision (sec. 2401) that would authorize military construction projects for the defense agencies for fiscal year (FY) 2012.

The Senate amendment contained a similar provision (sec. 2401).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

The agreement does not contain authorization for the North Atlantic Treaty Organization (NATO) Headquarters Facility, in Brussels, Belgium. The conferees believe that this facility is more appropriately funded through the NATO Security Investment Program, which has available unobligated balances.

The agreement contains authorization of a replacement elementary school at Baumholder, Germany with language that requires the Secretary of Defense to certify that Baumholder is an enduring location.

The agreement contains authorization for a Medical Center Replacement Facility at Rhine Ordnance Barracks, Germany. The conferees support the project, but are concerned that the overall scope exceeds demand requirements. Therefore, the conferees request the Secretary reassess the scope of

this project and submit the results of this assessment in the form of an amended fiscal year 2013 request.

The President's budget request included an authorization of appropriations for military construction of \$54.6 million to fit out the third floor of the National Geospatial Agency's (NGA) Technology center at Fort Belvoir, Virginia. This facility was constructed in 2010 as a result of the 2005 Defense Base Closure and Realignment (BRAC) Round. During review of the classification of work for this project, the conferees received a ruling from the Office of General Counsel of the Department of Defense that "that specifically authorized MILCON is the appropriate approach for this project." As a result, the conferees are concerned that the original BRAC military construction project may not have complied with section 2801 of title 10, United States Code, which requires a military construction project to include all military construction work necessary to produce a complete and usable facility. Therefore conferees direct the Comptroller General of the United States to prepare a report for the congressional defense committees no later than June 30, 2012 on the following:

1. A review of the BRAC project authorization for the NGA Technology center and a determination whether the Department of Defense carried out the full scope contained in the budget justification documents to construct a complete and usable facility;

2. The circumstances that resulted in a portion of the completed facility not able to be used for the purpose for which it was constructed;

3. An assessment of use of the facility to determine whether the facility category code that was proposed at the time of authorization of construction is consistent with its current and proposed use of the third floor;

4. An analysis of the proposed scope of the new work for the fit out of the third floor to determine why specifically authorized military construction funds are required;

5. An assessment whether the project was in compliance with federal laws regarding military construction; and

6. Any other matters the Comptroller General determines are appropriate in the review of this project.

The President's budget request included an authorization for military construction of \$860.6 million and an authorization of appropriations of \$29.6 million for a High Performance Computing Center (HPCC-2) at Fort Meade, Maryland. The conferees strongly support the requirement and note the criticality of a timely completion of the center to national security.

The budget justification documents supporting this project included estimated dates of February 2012 to complete a request for proposals, September 2012 to award a design build construction contract, December 2012 to start construction, and December 2015 to complete construction. The conferees note that the National Security Agency (NSA) did not plan to award a design build contract until the last month of FY 2012.

Given the relatively high cost of this project, the history of NSA's military construction project management, and the critical importance of the mission, the conferees are concerned about providing the full authorization for military construction of \$860.6 million that is not validated by a cost estimate informed by any degree of actual design of the facility. The conferees note that Congress provides separate appropriations to the NSA annually for military construction planning and design specifically to

permit the Agency to get as much as a two year head start on the design of projects of critical importance to national security while reducing the risk to U.S. taxpayers that funds will only be used to carry out the essential military requirements identified during the design phase. These funds also permit the agency to be able to award a construction contract as soon as congressional authorization is received, as opposed to having to wait for that authorization to start design, which can potentially add significant time to total acquisition timeline.

The Director of National Intelligence stated in an appeal to the conferees that “in FY 2012, the National Security Agency requested \$29.6 million in military construction for planning and design of the HPCC-2 facility; the budget funded the construction costs of \$831 million in FY 2013 and FY 2014, for a total cost of \$861 million.”

The conferees agree that the request of appropriations totaling \$29.6 million in FY 2012 will only be enough to pay for planning and design costs for the HPCC-2 and that the remaining \$830.0 million for construction will be subject to review by the Administration in future budget requests given the need to reduce defense spending. The conferees therefore agree to an authorization of \$29.6 million to complete the design, initiate site preparations, and to order equipment that are considered long lead items for the construction of the facility. The conferees note that the NSA has already initiated a design contract using planning and design appropriations to minimize the impact of any delay in congressional authorizations in order to keep this critical project on schedule.

The Director of National Intelligence also informed the conferees that the House and Senate Intelligence committees have authorized an amount for the HPCC-2 project in the FY 2012 Intelligence Authorization bill. The conferees note a history of actions by the NSA to appeal to the intelligence committees for the approval of military construction projects, most recently an upgrade to the electrical infrastructure of the north side of Fort Meade, at amounts that put the successful award of projects and timely completion of construction at risk. As such, the conferees strongly encourage the NSA to continue to work with the Committees on Armed Services of the Senate and the House of Representatives as the committees of jurisdiction regarding the authorization of military construction projects in order to ensure proper and legal execution of projects that are critical to the national security of the United States.

*Authorized energy conservation projects (sec. 2402)*

The House bill contained a provision (sec. 2402) that would authorize certain energy conservation projects for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2402).

The Senate recedes with a clarifying amendment.

The budget request included authorization of appropriations for \$135.0 million for the Energy Conservation Investment Program (ECIP). The conferees note that the budget justification documents accompanying the budget request contained a list of projects by service that would be carried out with funds authorized for the ECIP account. The conferees determined that greater transparency and oversight is required to ensure that the projects proposed in the budget request for ECIP are actually carried out. Therefore, the conferees have included in the table at sec-

tion 4601 of this Act, a list of specific ECIP project authorizations that exceed \$2.0 million that have been added to the military construction tables by project, name, and location. The conferees also note that an authorization of appropriations of \$18.0 million still remains in an unspecified account for various locations for ECIP, which is intended to be used for those projects less than \$2.0 million that were included in the budget request. The conferees note that none of these projects listed in the table at section 4601 are in addition to, or a deviation from the list of projects included in the budget request for this activity.

*Authorization of appropriations, defense agencies (sec. 2403)*

The House bill contained a provision (sec. 2403) that would authorize appropriations for military construction and family housing projects of the defense agencies for fiscal year 2012. This provision would also provide an overall limitation on the cost of the fiscal year 2012 military construction and family housing projects authorized for the active-duty component of the Army.

The Senate amendment contained a similar provision (sec. 2403).

The Senate recedes with a clarifying amendment.

*Subtitle B—Chemical Demilitarization Authorizations*

*Authorization of appropriations, chemical demilitarization construction, defense-wide (sec. 2411)*

The House bill contained a provision (sec. 2411) that would authorize appropriations for military construction projects for the chemical demilitarization program for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2411).

The Senate recedes with a clarifying amendment.

*Subtitle C—Other Matters*

*Reduction of defense agencies military construction authorization (sec. 2421)*

The Senate amendment contained a provision (sec. 2412) that would reduce the defense agencies' military construction authorization.

The House bill did not contain a similar provision.

The House recedes with a clarifying amendment.

**LEGISLATIVE PROVISION NOT ADOPTED**

*Additional budget items relating to defense agencies construction and land acquisition projects*

The House bill contained a provision (sec. 2404) authorizing the Secretary of Defense additional funding.

The Senate amendment did not contain a similar provision.

The House recedes.

**TITLE XXV—NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM**

**LEGISLATIVE PROVISIONS ADOPTED**

*Authorized NATO construction and land acquisition projects (sec. 2501)*

The House bill contained a provision (sec. 2501) that would authorize the Secretary of Defense to make contributions to the North Atlantic Treaty Organization Security Investment Program in an amount equal to the sum of the amount specifically authorized in section 2502 of this title and the amount of recoupment due to the United States for construction previously financed by the United States.

The Senate amendment contained a similar provision (sec. 2501).

The House recedes.

*Authorization of appropriations, NATO (sec. 2502)*

The House bill contained a provision (sec. 2502) that would authorize the U.S. contribution to the North Atlantic Treaty Organization Security Investment Program.

The Senate amendment contained a similar provision (sec. 2502).

The Senate recedes.

**TITLE XXVI—GUARD AND RESERVE FORCES FACILITIES**

*Subtitle A—Project Authorizations and Authorization of Appropriations*

*Authorized Army National Guard construction and land acquisition projects (sec. 2601)*

The House bill contained a provision (sec. 2601) that would authorize military construction projects for the Army National Guard for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2601).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

*Authorized Army Reserve construction and land acquisition projects (sec. 2602)*

The House bill contained a provision (sec. 2602) that would authorize military construction projects for the Army Reserve for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2602).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

*Authorized Navy Reserve construction and land acquisition projects (sec. 2603)*

The House bill contained a provision (sec. 2603) that would authorize military construction projects for the Navy Reserve for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2603).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

*Authorized Air National Guard construction and land acquisition projects (sec. 2604)*

The House bill contained a provision (sec. 2604) that would authorize military construction projects for the Air National Guard for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2604).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

*Authorized Air Force Reserve construction and land acquisition projects (sec. 2605)*

The House bill contained a provision (sec. 2605) that would authorize military construction projects for the Air Force Reserve for fiscal year 2012.

The Senate amendment contained a similar provision (sec. 2605).

The Senate recedes with a clarifying amendment.

The authorized amounts are listed in this provision on an installation-by-installation basis. A State list of projects contained in the table in section 4601 of this Act provides the binding list of specific construction projects authorized at each location.

*Authorization of appropriations, National Guard and Reserve (sec. 2606)*

The House bill contained a provision (sec. 2606) that would authorize appropriations for the reserve component military construction projects for fiscal year 2012. This provision would also provide an overall limitation on the cost of the fiscal year 2012 military construction projects authorized for the reserve components.

The Senate amendment contained a similar provision (sec. 2606).

The Senate recedes.

#### Subtitle B—Other Matters

*Extension of authorization of certain fiscal year 2008 project (sec. 2611)*

The House bill contained a provision (sec. 2621) that would extend the authorization for an Army National Guard fiscal year 2008 military construction project at East Fallowfield Township, Pennsylvania.

The Senate amendment contained a similar provision (sec. 2607).

The Senate recedes.

*Extension of authorization of certain fiscal year 2009 projects (sec. 2612)*

The House bill contained a provision (sec. 2622) that would extend the authorization for certain fiscal year 2008 military construction projects.

The Senate amendment contained a similar provision (sec. 2608).

The Senate recedes with a clarifying amendment.

*Modification of authority to carry out certain fiscal year 2008 and 2009 projects (sec. 2613)*

The Senate amendment contained a provision (sec. 2609) that amends the table in section 2601(a) of the Military Construction Authorization Act for Fiscal Year 2009 (division B of Public Law 110-417) to allow the Secretary of the Army to construct an Army Reserve Center at Carlin, Nevada.

The House bill did not contain a similar provision.

The House recedes with a clarifying amendment.

#### LEGISLATIVE PROVISIONS NOT ADOPTED

*Additional budget items relating to Air Force Reserve construction and land acquisition projects*

The House bill contained a provision (sec. 2613) authorizing the Secretary of the Air Force additional funding.

The Senate amendment did not contain a similar provision.

The House recedes.

*Additional budget items relating to Air National Guard construction and land acquisition projects*

The House bill contained a provision (sec. 2612) authorizing the Secretary of the Air Force additional funding.

The Senate amendment did not contain a similar provision.

The House recedes.

*Additional budget items relating to Army National Guard construction and land acquisition projects*

The House bill contained a provision (sec. 2611) authorizing the Secretary of the Army additional funding.

The Senate amendment did not contain a similar provision.

The House recedes.

#### TITLE XXVII—BASE REALIGNMENT AND CLOSURE ACTIVITIES

##### LEGISLATIVE PROVISIONS ADOPTED

*Authorization of appropriations for base realignment and closure activities funded through Department of Defense Base Closure Account 1990 (sec. 2701)*

The House bill contained a provision (sec. 2701) that would authorize appropriations for fiscal year 2011 for ongoing activities that are required to implement the decision of the 1988, 1991, 1993, and 1995 Base Closure and Realignment.

The Senate amendment contained a similar provision (sec. 2701).

The Senate recedes.

*Authorized Base Realignment and Closure activities funded through Department of Defense Base Closure account 2005 (sec. 2702)*

The House bill contained a provision (sec. 2702) that would authorize military construction projects for fiscal year 2012 for ongoing activities that are required to implement the decisions of the 2005 Base Closure and Realignment round.

The Senate amendment contained a similar provision (sec. 2702).

The Senate recedes.

*Completion of specific base closure and realignment recommendations (sec. 2703)*

The House bill contained a provision (sec. 2704) that would authorize the Department limited authority to extend the implementation period of not more than seven decisions contained in the 2005 Defense Base Closure and Realignment (BRAC) round beyond the statutory deadline.

The Senate amendment did not contain a similar provision.

The Senate recedes with an amendment that would direct the Secretary of Defense to complete all 2005 Defense BRAC actions as expeditiously as possible.

Closing unnecessary defense facilities has historically been difficult because of public concern about the economic effects of closures on communities and the perceived lack of impartiality in the decision-making process. The Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510) (BRAC) created an independent commission to review a list of bases for realignment and closure submitted by the Secretary of Defense.

The Department of Defense has now undergone five BRAC rounds. The 2005 Base Realignment and Closure round was the biggest, most complex, and costliest round of BRAC to date. The final BRAC 2005 Commission forwarded a total of 182 closures or realignments to the Congress, including 177 of the 190 recommendations submitted by the Secretary of Defense and five closures or realignment recommendations from the eight installations it considered on its own initiative. These recommendations resulted in 22 major closures and 33 major realignments.

The Secretary of Defense was required to complete all BRAC actions by September 15, 2011. This deadline was directed in statute in order to guide investments and to provide a degree of certainty to local communities around military bases affected by base closures and realignments.

The budget request for fiscal year 2012 included a legislative proposal from the Department of Defense that would provide legislative relief to the statutory deadline for up to 10 BRAC recommendations. The con-

ferees continued to monitor the recommendations that were in danger of missing the BRAC deadline throughout the year.

By the deadline, September 15, 2011, the Department of Defense notified the conferees that essentially all but two recommendations were completed.

The conferees note that the 2005 BRAC Commission acknowledged in their report that the Umatilla Depot in Oregon might not be closed by the deadline due to chemical demilitarization treaty obligations.

The successful completion of the BRAC decision to consolidate medical commands was dependent on actions by other congressional committees to approve a prospectus for a lease carried out by the General Services Administration. While the lease has been approved, the Department is still in the process of carrying out the move.

The conferees expect that both closures will be carried out in accordance with the BRAC statute regarding land disposal and the movement of personnel.

*Special considerations related to transportation infrastructure in consideration and selection of military installations for closure or realignment (sec. 2704)*

The House bill contained a provision (sec. 2706) that would require the secretary concerned to include transportation assessment of a proposed closure or realignment of civilian personnel that exceed certain thresholds.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

#### LEGISLATIVE PROVISIONS NOT ADOPTED

*Authorization of appropriations for Base Realignment and Closure activities funded through Department of Defense Base Closure account 2005*

The House bill contained a provision (sec. 2703) that would authorize appropriations for fiscal year 2012 for ongoing activities that are required to implement the decision of the 2005 Base Closure and Realignment.

The Senate amendment contained a similar provision (sec. 2703).

The House and Senate recede.

*Reduction of military construction authorization for base realignment and closure activities authorized through the Department of Defense Base Closure Account 1990*

The Senate amendment contained a provision (sec. 2704) that would reduce the Base Closure Account 1990 military construction authorization.

The House bill did not contain a similar provision.

The Senate recedes.

*Increased emphasis on evaluation of costs and benefits in consideration and selection of military installations for closure or realignment*

The House bill contained a provision (sec. 2705) that would increase the emphasis on the evaluation of costs and benefits in consideration and selection of military installations for closure and realignment.

The Senate amendment did not contain a similar provision.

The House recedes.

The conferees support the ability of the Department to reduce force structure commensurate with the workload and mission requirements; however, the conferees are concerned with the perception that the Department of Defense may have bypassed the limitations of section 2687 of title 10, United States Code, by completing a reduction in force at a defense activity and then realigning the balance of the workforce. The conferees believe that such a contravention of

section 2687 would be inappropriate. Activities that exceed the thresholds of section 2687 at the time of the Secretary's decision to reorganize a particular activity should be specifically submitted in accordance with the notification process delineated in section 2687.

*Limitation on BRAC 133 project implementation*

The House bill contained a provision (sec. 2707) that would limit the number of parking spaces at the BRAC 133 project location until the Secretary of Defense provides certain documents and certification.

The Senate amendment did not contain a similar provision.

The House recedes.

**TITLE XXVIII—MILITARY CONSTRUCTION  
GENERAL PROVISIONS**

**Subtitle A—Military Construction Program  
and Military Family Housing Changes**

*Prohibition on use of any cost-plus system of  
contracting for military construction and  
military family housing projects (sec. 2801)*

The House bill contained a provision (sec. 2801) prohibiting the use of any cost-plus system of contracting for military construction and military family housing.

The Senate amendment did not contain a similar provision.

The House recedes.

*Modification of authority to carry out unspecified  
minor military construction projects  
(sec. 2802)*

The House bill contained a provision (sec. 2802(a) through (d)) that would increase the authority provided by section 2805 of title 10, United States Code, and establish a \$3.0 million threshold requiring specific military construction authorization. This provision would also amend section 2805 by extending certain temporary authorities associated with defense laboratories.

The Senate amendment contained a similar provision (sec. 905(c) and (d)) making certain temporary authorities associated with defense laboratories permanent.

The Senate recedes with a clarifying amendment.

*Protections for suppliers of labor and materials  
under contracts for military construction  
projects and military family housing  
projects (sec. 2803)*

The House bill contained a provision (sec. 2804) increasing the dollar threshold for purposes of determining when a performance bond and payment bond are required under section 3131 of subchapter III of chapter 31 of title 40, United States Code, (commonly referred to as the Miller Act).

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Extension of temporary, limited authority to use  
operation and maintenance funds for construction  
projects outside the United States  
(sec. 2804)*

The House bill contained a provision (sec. 2805) extending for 1 year the authority to use operation and maintenance funds for construction projects inside United States Central Command area of responsibility and Combined Joint Task Force-Horn of Africa areas of responsibility and interest.

The Senate amendment contained a similar provision (sec. 2802).

The House recedes.

*General military construction transfer authority  
(sec. 2805)*

The Senate amendment contained a provision (sec. 2801) providing the secretary of a military department, or with respect to the

defense agencies, the Secretary of Defense, the authority to transfer authorization of appropriations provided in fiscal year 2012 between any such authorization of appropriations for that military department or defense agency for that fiscal year.

The House bill did not contain a similar provision.

The House recedes with a clarifying amendment.

**Subtitle B—Real Property and Facilities  
Administration**

*Clarification of authority to use Pentagon Reservation  
Maintenance Revolving Fund for  
minor construction and alteration activities  
at Pentagon Reservation (sec. 2811)*

The House bill contained a provision (sec. 2811) clarifying the authority to use Pentagon Reservation Maintenance Revolving Fund monies for minor construction and alteration activities at the Pentagon Reservation.

The Senate amendment contained a similar provision (sec. 2803).

The Senate recedes.

*Reporting requirements related to the granting  
of easements (sec. 2812)*

The House bill contained a provision (sec. 2812) that would remove the discretion of secretaries of the military departments regarding purposes for which easements for rights-of-way may be granted.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

*Limitations on use or development of property  
in Clear Zone Areas and clarification of authority  
to limit encroachments (sec. 2813)*

The House bill contained a provision (sec. 2813) that would amend section 2684a of title 10, United States Code, by authorizing the Secretary of Defense or the secretary of a military department to enter into an agreement to protect Clear Zone Areas adjacent to airfields at military installations.

The Senate amendment contained a provision (sec. 2812) that would also amend section 2684a of title 10, United States Code, by clarifying authorities to limit encroachment on military installations.

The Senate recedes with an amendment that would combine House section 2813 and Senate section 2812 into a single provision.

*Department of Defense conservation and cultural  
activities (sec. 2814)*

The Senate amendment contained a provision (sec. 2813) that would modify section 2694(b)(2) of title 10, United States Code, to enhance the ability of the Department of Defense to assist with the implementation of certain land management plans and to clarify that the purpose of wildlife studies authorized under the section includes the sustainability of military operations.

The House bill contained a similar provision (sec. 312).

The House recedes.

*Exchange of property at military installations  
(sec. 2815)*

The Senate amendment contained a provision (sec. 2811) that would allow for certain exchanges of real property at military installations.

The House bill did not contain a similar provision.

The House recedes.

*Defense access road program enhancements to  
address transportation infrastructure in vicinity  
of military installations (sec. 2816)*

The House bill contained a provision (sec. 2814) that would expand the authority of the

Department of Defense (DOD) to use military construction appropriations to mitigate significant transportation impacts caused as a result of an expanded defense mission.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

The conferees adopt the provision in recognition that transportation issues have been an issue in recent base realignments and the Department of Defense has been slow to revise the criteria for the Defense Access Road program. Recognition of these transportation issues does not imply that their mitigation is a DOD responsibility. The conferees note that many communities have been exceptional partners in ameliorating the impact of base realignments and believe that this practice should be encouraged.

**Subtitle C—Energy Security**

*Consolidation of definitions used in energy security  
chapter (sec. 2821)*

The House bill contained a provision (sec. 2821) that would consolidate various definitions used in subchapter III of chapter 173 of title 10, United States Code.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

*Consideration of energy security in developing  
energy projects on military installations  
using renewable energy sources (sec. 2822)*

The House bill contained a provision (sec. 2822) that would require the Secretary of Defense to establish a policy under which a military installation shall give favorable consideration for energy security in the design and development of renewable energy projects on military installations.

The Senate amendment contained a similar provision (sec. 345) that would require the Secretary of Defense to develop guidance for commanders of military installations inside the United States on planning measures to minimize the effects of a disruption of services by a utility that sells natural gas, water, or electric energy to a military installation in the United States.

The House recedes with a clarifying amendment that combines the two provisions.

*Establishment of interim objective for the  
Department of Defense 2025 renewable energy  
goal (sec. 2823)*

The House bill contained a provision (sec. 2823) that would require the Secretary of Defense to establish an interim goal for fiscal year 2018 for the production or procurement of facility energy from renewable energy sources.

The Senate amendment contained a similar provision (sec. 311) that would require the Secretary of Defense to establish interim goals for fiscal years 2015, 2018, and 2021 for the production or procurement of facility energy from renewable energy sources.

The Senate recedes.

*Use of centralized purchasing agents for renewable  
energy certificates to reduce cost of facility  
energy projects using renewable energy  
sources and improve efficiencies (sec. 2824)*

The House bill contained a provision (sec. 2824) that would require the Secretary of Defense to establish a policy to maximize savings by directing the centralized, bulk purchase of replacement renewable energy certificates in connection with the development of facility energy projects using renewable energy sources.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Identification of energy-efficient products for use in construction, repair, or renovation of Department of Defense facilities (sec. 2825)*

The House bill contained a provision (sec. 2825) requiring the Secretary of Defense to prescribe a definition of the term 'energy-efficient product' and establish and maintain a list of products satisfying the definition.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Submission of annual Department of Defense energy management reports (sec. 2826)*

The House bill contained a provision (sec. 2827) that would amend section 2925(a) of title 10, United States Code, to require the Secretary of Defense to submit the annual installation energy report not later than 120 days after the end of each fiscal year and would require that the annual report detail the fulfillment during that fiscal year of the energy performance goals for the Department of Defense under section 2911 of title 10, United States Code.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Requirement for Department of Defense to capture and track data generated in metering Department facilities (sec. 2827)*

The House bill contained a provision (sec. 2829) that would require the Secretary of Defense to ensure that data being generated by installation energy meters is captured and tracked to determine baseline energy consumption and facilitate efforts to reduce energy consumption.

The Senate amendment contained a similar amendment (sec. 317) that would require the Secretary of Defense, to the maximum extent practicable, to ensure that the information generated by the installation energy meters be captured and tracked to determine baseline energy consumption and facilitate efforts to reduce energy consumption.

The Senate recedes.

*Metering of Navy piers to accurately measure energy consumption (sec. 2828)*

The House bill contained a provision (sec. 2830) that would require the Secretary of Defense to meter Navy piers in order that the energy consumption of naval vessels while in port can be accurately measured and lead to reductions in consumption.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Training policy for Department of Defense energy managers (sec. 2829)*

The House bill contained a provision (sec. 2826) that would require the Secretary of Defense to establish a training program for Department of Defense (DOD) energy managers designated for military installations.

The Senate amendment contained a similar provision (sec. 318) that would require the Secretary of Defense to establish a policy for the training of designated DOD energy managers for military installations.

The House recedes with a clarifying amendment.

*Report on energy-efficiency standards and prohibition on use of funds for Leadership in Energy and Environmental Design gold or platinum certification (sec. 2830)*

The House bill contained a provision (sec. 2831) requiring a report on the energy-efficiency standards utilized by the Department

of Defense for military construction and prohibiting the use of funds to obtain Leadership in Energy and Environmental Design gold or platinum certification.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

#### Subtitle D—Provisions Related to Guam Realignment

*Certification of medical care coverage for H-2B temporary workforce on military construction projects on Guam (sec. 2841)*

The House bill contained a provision (sec. 2842) that would prohibit the Secretary of the Navy from awarding any additional construction projects associated with the realignment of military forces on Guam until the Secretary establishes a lead system integrator for health care for the H-2B workers.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

*Repeal of condition on use of specific utility conveyance authority regarding Guam integrated water and wastewater treatment system (sec. 2842)*

The House bill contained a provision (sec. 2844) that would modify the permissive utility conveyance authority contained in section 2822 of the Military Construction Authorization Act for Fiscal Year 2011 (division B of Public Law 111-383).

The Senate amendment did not contain a similar provision.

The Senate recedes.

#### Subtitle E—Land Conveyances

*Land conveyance and exchange, Joint Base Elmendorf Richardson, Alaska (sec. 2851)*

The Senate amendment contained a provision (sec. 2823) providing for a land conveyance and exchange at Joint Base Elmendorf Richardson, Alaska.

The House bill did not contain a similar provision.

The House recedes.

*Release of reversionary interest, Camp Joseph T. Robinson, Arkansas (sec. 2852)*

The Senate amendment contained a provision (sec. 2821) revising the reversionary interest in certain land at Camp Joseph T. Robinson, Arkansas.

The House bill did not contain a similar provision.

The House recedes.

*Clarification of land conveyance authority, Camp Caitlin and Ohana Nui areas, Hawaii (sec. 2853)*

The Senate amendment contained a provision (sec. 2822) clarifying section 2856(a) of the Military Construction Authorization Act for Fiscal Year 2010 (division B of Public Law 111-84).

The House bill did not contain a similar provision.

The House recedes.

*Land exchange, Fort Bliss Texas (sec. 2854)*

The House bill contained a provision (sec. 2851) that would authorize the Secretary of the Army to exchange approximately 694 acres of real property at Fort Bliss, Texas, for approximately 2,880 acres of real property from the Texas General Land Office.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Land Conveyance, former Defense Depot Ogden, Utah (sec. 2855)*

The House bill contained a provision (sec. 2852) authorizing a land conveyance, former Defense Depot, Ogden, Utah.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

#### Subtitle F—Other Matters

*Redesignation of Industrial College of the Armed Forces as the Dwight D. Eisenhower School for National Security and Resource Strategy (sec. 2861)*

The House bill contained a provision (sec. 2861) that would rename the Industrial College of the Armed Forces to the Dwight D. Eisenhower School for National Security and Resource Strategy.

The Senate amendment contained a similar provision (sec. 1083).

The House recedes.

*Redesignation of Mike O'Callaghan Federal Hospital in Nevada as Mike O'Callaghan Federal Medical Center (sec. 2862)*

The Senate amendment contained a provision (sec. 2833) that would redesignate the Mike O'Callaghan Federal Hospital in Nevada as the Mike O'Callaghan Federal Medical Center.

The House did not contain a similar provision.

The House recedes.

*Prohibition on naming Department of Defense real property after a Member of Congress (sec. 2863)*

The House bill contained a provision (sec. 2863) that would prohibit the naming of Department of Defense real property after a sitting Member of Congress.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Notification of reductions in number of members of the armed forces assigned to permanent duty at a military installation (sec. 2864)*

The House bill contained a provision (sec. 2862) that would require a notification before the Secretary of Defense or secretary of a military department reduces the number of military service members at an installation by more than 1,000.

The Senate amendment did not contain a similar provision.

The Senate recedes with a clarifying amendment.

*Investment plan for the modernization of public shipyards under jurisdiction of Department of the Navy (sec. 2865)*

The Senate amendment contained a provision (sec. 2831) that would require the Secretary of the Navy to submit a plan to address the facility and infrastructure requirements at each public shipyard under the jurisdiction of the Department of the Navy.

The House did not contain a similar provision.

The House recedes with a clarifying amendment.

*Report on the homeowners assistance program (sec. 2867)*

The House bill contained a provision (sec. 2864) requiring a report on the homeowners assistance program.

The Senate amendment did not contain a similar provision.

The Senate recedes.

*Data servers and centers (sec. 2866)*

The Senate amendment contained a provision (sec. 2832) that would impose a moratorium within the Department of Defense (DOD) on the acquisition or upgrade of data servers, server farms, and data centers, with a waiver process for exceptions; and require the implementation of a plan developed by the DOD Chief Information Officer (CIO) to

achieve (1) a reduction in the size of data centers, (2) a reduction in the energy consumed to power and cool servers and data centers, (3) an increase in server virtualization, (4) an increase in the utilization rates of servers and data center capacity, (5) a reduction in the cost of software and applications running on servers and within data centers, and (6) a reduction in the cost of labor associated with operating servers and data centers.

The House bill contained no similar provision.

The House recedes with an amendment that would limit the near-term moratorium to server farms and data centers, and change the authority to coordinate exceptions for national intelligence components within the Department of Defense on behalf of the Director of National Intelligence to the Intelligence Community CIO rather than the CIO of the Office of the Director of National Intelligence.

#### LEGISLATIVE PROVISIONS NOT ADOPTED

##### *Condition on rental of family housing in foreign countries for general and flag officers*

The House bill contained a provision (sec. 2803) that would limit general and flag officer housing leases in foreign countries to the design criteria for similar housing in the United States.

The Senate amendment did not contain a similar provision.

The House recedes.

##### *Continuous commissioning of Department of Defense facilities to resolve operating problems, improve comfort, optimize energy use, and identify retrofits*

The House bill contained a provision (sec. 2828) that would authorize the Secretary of Defense to require the continuous commissioning of Department of Defense (DOD) facilities.

The Senate amendment contained no similar provision.

The House recedes.

The conferees note that the DOD is currently required to recommission and retrocommission its facilities. When commissioning facilities, the conferees want to ensure that, where appropriate, the DOD considers the most current technologies, subject to fiscal constraints, as opposed to retrocommissioning the facility back to when it was originally constructed.

##### *Use of operation and maintenance funding to support community adjustments related to realignment of military installations and relocation of military personnel on Guam*

The House bill contained a provision (sec. 2841) that would authorize the Secretary of Defense to assist the Government of Guam in meeting the costs of providing increase municipal services and facilities associated with the realignment of military forces to Guam.

The Senate amendment did not contain a similar provision.

The House recedes.

##### *Certification of military readiness need for firing range on Guam as condition on establishment of range*

The House bill contained a provision (sec. 2843) that would prohibit the establishment of a firing range on Guam until the Secretary of Defense certifies that the firing range is required to meet a national security need.

The Senate amendment contained no similar provision.

The House recedes.

##### *Transfer of the Air Force Memorial to the Department of the Air Force*

The House bill contained a provision (sec. 2865) transferring the Air Force Memorial to the Department of the Air Force.

The Senate amendment did not contain a similar provision.

The House recedes.

#### DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS AND OTHER AUTHORIZATIONS

##### TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

##### Subtitle A—National Security Programs Authorizations

##### *Overview*

Title XXXI authorizes appropriations for atomic energy defense activities of the Department of Energy for fiscal year 2012, including: the purchase, construction, and acquisition of plant and capital equipment; research and development; nuclear weapons activities; nuclear nonproliferation activities; naval nuclear propulsion; environmental cleanup; operating expenses; and other expenses necessary to carry out the purposes of the Department of Energy Organization Act (Public Law 95-91). This title authorizes appropriations in five categories: (1) National Nuclear Security Administration (NNSA); (2) defense environmental cleanup; (3) other defense activities; (4) defense nuclear waste disposal; and (5) energy security and assurance.

##### *National Nuclear Security Administration (sec. 3101)*

The House bill contained a provision (sec. 3101) that would authorize \$11.8 billion for the National Nuclear Security Administration (NNSA), an increase of \$20.0 million above the budget request.

The Senate amendment contained a similar provision (sec. 3101) that would authorize \$11.6 billion for the NNSA, a decrease of \$216.8 million below the budget request.

The conferees agree to include a provision that would authorize \$11.1 billion, a decrease of \$713.0 million below the budget request.

Within NNSA, the provision would authorize \$7.3 billion for weapons activities, a decrease of \$355.0 million below the budget request; \$2.3 billion for defense nuclear nonproliferation, a decrease of \$216.0 million below the budget request; \$1.1 billion for naval reactors, a decrease of \$74.0 million below the budget request; and \$383.0 million for the Office of the Administrator, a decrease of \$67.0 million below the budget request.

Within weapons activities, for directed stockpile work the provision would authorize \$1.9 billion, a decrease of \$84.0 million below the budget request. For campaigns, the provision would authorize \$1.7 billion, a decrease of \$95.0 million below the budget request. For readiness in the technical base and facilities, the provision would authorize \$2.0 billion, a decrease of \$317.0 million below the budget request.

Within defense nuclear nonproliferation, for nonproliferation and verification research and development the provision would authorize \$356.0 million, a decrease of \$61.0 million below the budget request. For nonproliferation and international security, the provision would authorize \$155.0 million, a decrease of \$7.0 million below the budget request. For international nuclear materials protection and cooperation, the provision would authorize \$572.0 million, the amount of the budget request. For fissile materials disposition, the provision would authorize \$685.0

million, a decrease of \$205.0 million below the budget request. For the Global Threat Reduction Initiative, the provision would authorize \$500.0 million, a decrease of \$8.0 million below the budget request.

The conferees note that the Committees on Armed Services of the Senate and House of Representatives fully authorized the President's request for Weapons Activities in his budget request for fiscal year 2012 and provided robust support for his nonproliferation program. The final authorized amounts reflect the amount provided for these activities by the conference report for H.R. 2354 of the Energy and Water Development and Related Agencies Appropriations Act, 2012 of the Subcommittee on Energy and Water Development of the Committee on Appropriations of the Senate and the Subcommittee on Energy and Water Development, and Related Agencies of the House of Representatives.

The conferees recognize the importance of the NNSA mission for national security, and note the President's commitment to secure all vulnerable nuclear materials within 4 years, and his commitment to modernizing the nuclear deterrent as reflected in the section 1251 modernization plan (Public Law 111-84).

##### *Defense environmental cleanup (sec. 3102)*

The House bill contained a provision (sec. 3102) that would authorize appropriations for fiscal year 2012 defense environmental cleanup activities.

The Senate amendment contained a similar provision (sec. 3102).

The Senate recedes.

##### *Other defense activities (sec. 3103)*

The House bill contained a provision (sec. 3103) that would authorize appropriations for fiscal year 2012 other defense activities.

The Senate amendment contained a similar provision (sec. 3103).

The Senate recedes.

##### Subtitle B—Program Authorizations, Restrictions and Limitations

##### *Limitation on availability of funds for Center of Excellence on Nuclear Security (sec. 3111)*

The House bill contained a provision (sec. 3112) that would limit funds that may be obligated or expended by the Secretary of Energy for fiscal year 2012 to not more than \$7.0 million for a Center of Excellence on Nuclear Security in the People's Republic of China until the date on which the Secretary of Energy submits two reports to the Committees on Armed Services of the Senate and the House of Representatives, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives. These two reports would provide additional insight and analysis into the two stated rationales for the Center of Excellence.

The Senate amendment contained a similar provision (sec. 3114) that would recommend a provision that would prohibit the Administrator of the National Nuclear Security Administration (NNSA) from obligating or expending more than \$0.5 million of Defense Nuclear Nonproliferation program funds to establish a center of excellence in any country outside of the former Soviet Union (FSU) until such time as the Administrator of the NNSA submits to the congressional defense committees a report on the particular center to be established.

The Senate recedes with an amendment that would hold 25 percent of funds appropriated for any center of excellence outside the Former Soviet Union until the Secretary of Energy meets reporting requirements set forth in the provision. The report will provide information on any center of excellence

established in a country that is not a state of the former Soviet Union and include the following: an identification of the country in which the center will be located; a description of the center's purpose, including the country's existing capacity to develop and implement best practices training for nuclear security; the extent to which the training and relationship building activities planned for the center could contribute to improving the country's historical pattern with respect to the proliferation of weapons of mass destruction and missiles; the agreement under which the center would operate; and, a funding plan for center, including the amount of funds to be provided by the government of the country in which the center will be located and the percentage of total cost establishing and operating the center the funds, provided by the government of the country, will cover. No funds obligated by the Secretary may be used to construct permanent or temporary buildings.

*Aircraft Procurement (sec. 3112)*

The Senate amendment contained a provision (sec. 3113) that would authorize the Secretary of Energy to use weapons activities funds available in any fiscal year prior to fiscal year 2013 to purchase not more than one aircraft.

The House bill contained no similar provision.

The House recedes with a technical amendment.

*Hanford waste tank cleanup program reforms (sec. 3113)*

The House bill contained a provision (sec. 3114) that would amend section 4442 of the Atomic Energy Defense Act (50 U.S.C. 2622) by striking the portion of section (b)(2) which states "consistent with the policy direction established by the Department, all aspects of the River Protection Project, Richland, Washington" and inserts in its place "all aspects of the River Protection Project, Richland, Washington, including Hanford Tank Farm operations and the Waste Treatment Plant". The provision also amends subsection (d) of section 4442 to require notification to the Committee on Armed Services of the Senate and the House of Representatives of any changes in the roles, responsibilities, and reporting relationships of the Office of River Protection. The provision also reauthorizes the functions of the Office, terminating in 2019, with a clause that the Assistant Secretary of Energy for Environmental Management may extend the functions of the Office further if the Assistant Secretary determines in writing that its termination would disrupt effective management of the Hanford Tank Farm Operation.

The Senate amendment contained no similar provision.

The Senate recedes with a technical amendment.

*Recognition of National Atomic Testing Museum (sec. 3114)*

The Senate amendment contained a provision (sec. 3115) that would amend section 7142 of title 42, United States Code, to recognize the National Atomic Testing Museum in Las Vegas, Nevada by stating that (1) it is recognized as the Official Atomic Testing Museum, (2) that it shall be known as the "National Atomic Testing Museum", and (3) "have the sole right throughout the U.S. and its possessions to have and use the name "National Atomic Testing Museum".

The House bill contained no similar provision.

The House recedes with an amendment striking "have the sole right throughout the

U.S. and its possessions to have and use the name "National Atomic Testing Museum".

*Subtitle C—Reports*

*Repeal of certain reporting requirements (sec. 3121)*

The House bill contained a provision (sec. 3121) that would repeal several recurring reports from the Secretary of Energy and the Administrator for Nuclear Security; section 3132 of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107-107), which requires an annual report to Congress on the financial and programmatic activities of the Nuclear Cities Initiative Program (a program that ended in 2006). The provision would modify section 4302(a)(6) of the Atomic Energy Defense Act (50 U.S.C. 2562) repealing a requirement for the Secretary of Energy to report to Congress each time funds for the Initiatives for Proliferation Prevention Program are used to pay a tax or customs duty levied by the Government of the Russian Federation, this program ended in 2006 and no payments have been made since 2000.

The Senate amendment contained no similar provision.

The Senate recedes.

*Progress on nuclear nonproliferation (sec. 3122)*

The House bill contained a provision (sec. 3122) that would require the Secretary of Energy to submit, annually until 2016, a report on the strategic plans of the Department of Energy and the National Nuclear Security Administration to prevent nuclear and radiological proliferation and an estimate of budget requirements over 10 years, including interagency coordination. This section would also require the Secretary of Energy to submit annually until 2016, an assessment of the risk that non-nuclear weapon countries may acquire nuclear enrichment or reprocessing technology, and a classified list of the location and vulnerability of highly-enriched uranium worldwide.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the budget requirements from 10 to 5 years.

*Reports on role of nuclear security complex sites and potential efficiencies (sec. 3123)*

The House bill contained a provision (sec. 3123) that would require the Secretary of Energy to submit to the appropriate committees, no later than February 1, 2012, a report assessing the role of the nuclear security complex sites in supporting efforts for a safe, secure, and reliable nuclear deterrent as well as carrying out nuclear weapons reduction and supporting nuclear nonproliferation efforts. The report would include an assessment of opportunities for efficiencies and cost savings and a long-term plan for the nuclear security complex. Finally, the Comptroller General of the United States would be required to submit to the appropriate congressional committees, no later than 180 days after submission of the Secretary of Energy's report, an assessment of the Secretary's report.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would change the due date of the report to March 1, 2013, and limit the reporting to the congressional defense committees. The conference agreement would also require the report to include, if the Administrator deems it appropriate, an analysis of the potential for shared use or development of high-explosives research and development capacity, supercomputing platforms and infrastructure maintained for Work for Others pro-

grams. If this analysis is not provided in the report, the conferees expect the Administrator to provide a written explanation detailing why these elements were not included.

*Net assessment of high-performance computing capabilities of foreign countries (sec. 3124)*

The House bill contained a provision (sec. 3124) that would require the Administrator for Nuclear Security, in coordination with the Secretary of Defense, the Director of National Intelligence, the Under Secretary of Energy for Science, and the Under Secretary of Commerce for Industry and Security, to conduct a net assessment of high-performance computing capability possessed by foreign countries. The assessment would be required to cover a variety of matters associated with high performance computing. The section would require the Administrator to coordinate the assessment with other appropriate executive agencies and, upon request by the Administrator, require the Secretary of Defense to provide net assessment expertise through the Department of Defense Office of Net Assessment. The Administrator would be required to submit an unclassified report on the results of the assessment, with a classified annex if appropriate, to the appropriate congressional committees within 180 days after the date of enactment of this Act.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the net assessment to be conducted by the Director of National Intelligence, in consultation with the Secretary of Defense, the Secretary of Energy, the Administrator for Nuclear Security, and the Secretary of Commerce.

The conferees encourage the Director of National Intelligence to work with the Secretary of Defense to leverage net assessment expertise resident in the Department of Defense Office of Net Assessment and the Administrator for Nuclear Security to leverage high performance computing expertise resident in the national security laboratories of the National Nuclear Security Administration.

*Review and analysis of nuclear waste reprocessing and nuclear reactor technology (sec. 3125)*

The House bill contained a provision (sec. 3125) that would require the Administrator for Nuclear Security to enter into an agreement with the National Academy of Sciences (NAS) to conduct a study on waste reprocessing and Generation IV reactor technologies. The study would include a review of previous studies on waste reprocessing and a determination on the feasibility of using nuclear reactor technology, including Generation IV reactor technology developed at certain sites, to reprocess and reuse nuclear materials in a proliferation-resistant manner while generating electricity. The report would also determine the waste streams from such reactors and analyze the proliferation risks of these waste streams, including their effects on nuclear nonproliferation efforts of the United States. In addition, the study would compare using Generation IV reactors for reprocessing with nuclear waste reprocessing technologies used in other countries and with direct waste disposal. Finally, the study would conduct a detailed analysis of large-scale deployment of such reactor technology at military installations. The Administrator would be required to submit the report transmitted from the NAS no later than 18 months after the date of enactment of this Act.

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would require the Secretary of Energy, in consultation with the Administrator for Nuclear Security and the Secretary of Defense (as needed), to conduct a study on nuclear waste processing and Generation IV reactor technology. The study would include a review of prior studies conducted by the Department of Energy and the NAS related to nuclear waste reprocessing and the use of mixed oxide fuel in reactors, including Generation IV reactors. The study would determine the waste streams from reprocessing and the use of mixed oxide fuel, analyze the nuclear nonproliferation risks of reprocessing and using mixed oxide fuel, and compare the costs and proliferation risks of nuclear waste reprocessing technologies used in other countries with direct disposal. The provision would also require the Secretary of Energy, in coordination with the Secretary of Defense, to analyze the feasibility of deploying Generation IV reactors or other nuclear reactors using mixed oxide fuel at military installations. The report would be due 180 days after date of enactment of this Act.

#### Subtitle D—Other Matters

*Sense of Congress on the use of savings from excess amounts for certain pension plan contributions (sec. 3131)*

The House bill contained a provision (sec. 3113) that as stated in the House report accompanying H.R. 1540 (H. Rept. 112-78) of the National Defense Authorization Act for Fiscal Year 2012 would “require the Administrator for Nuclear Security and the Assistant Secretary of Energy for Environmental Management to make determinations throughout each fiscal year, until the end of fiscal year 2016, regarding the level of funds needed to meet the minimum funding standard required by the Employee Retirement Income Security Act of 1974 (Public Law 93-406) for any defined-benefit pension plan operated by management and operating contractors of either the Department of Energy Office of Environmental Management or National Nuclear Security Administration (NNSA). If economic conditions improve, or efficiencies are identified, such that the amounts originally budgeted for contributions to the contractors’ pension plans exceed the minimum required by statute, this section would require the Administrator and the Assistant Secretary to promptly obligate or expend the excess funds on high priority budgetary shortfalls, as identified by the Administrator or the Assistant Secretary, respectively. This section would authorize the Administrator and the Assistant Secretary to transfer any such funds as needed to fulfill this purpose, and would require the Administrator and the Assistant Secretary to promptly notify the congressional defense committees if such excess funds are identified or transferred. The authorities authorized by this section would terminate on September 30, 2016.”

The Senate amendment contained no similar provision.

The Senate recedes with an amendment that would express a sense of Congress that employee pension plans maintained by contractors who operate and manage the NNSA and the Office of Environmental Management laboratories, plants, and other facilities, should be fully funded consistent with law to ensure retention of high quality personnel. The sense of Congress would also state that if economic conditions improve, or efficiencies are identified, any funds appropriated for these pensions that are in ex-

cess to the contributions required by law should be re-directed and promptly obligated or expended on high-priority mission activities of the NNSA or the Office of Environmental Management.

#### Legislative Provisions Not Adopted

##### *Energy security and assurance*

The House bill contained a provision (sec. 3104) that would authorize appropriations for fiscal year 2012 Energy Security and Assurance activities.

The Senate amendment contained no similar provision.

The House recedes.

##### *Consolidated reporting requirements relating to nuclear stockpile stewardship, management, and infrastructure*

The House bill contained a provision (sec. 3111) that would consolidate several existing reporting requirements in the Atomic Energy Defense Act, chapter 42 of title 50, United States Code. Specifically, this provision would repeal reporting requirements in sections 4202, 4203, 4203A, 4204, and 4208 of the Atomic Energy Defense Act and consolidate them into a new section 4203.

The Senate amendment contained no similar provision.

The House recedes.

The conferees encourage the Administrator for Nuclear Security to re-submit the legislative proposal for this consolidation to the Committees on Armed Services of the Senate and the House of Representatives for consideration in the National Defense Authorization Act for Fiscal Year 2013.

##### *Additional budget item relating to Global Threat Reduction Initiative*

The House bill contained a provision (sec. 3115) that would increase the authorized level for the Global Threat Reduction Initiative by \$20.0 million offset by an equal reduction from the Aerostat Joint Project Office set forth in table 4201.

The Senate amendment contained no similar provision.

The House recedes.

The conferees do not support the increase in funding because the funding source crosses jurisdictional accounts. The conferees continue to support the Global Threat Reduction Initiative as an important priority for national security.

##### *Review of security vulnerabilities of national laboratory computers*

The Senate amendment contained a provision (sec. 3111) that would amend section 2659 of title 50, United States Code, to delete the requirement for an annual independent external red team to review the security and vulnerabilities of the computers at the national laboratories and for the Secretary of Energy to submit an annual report setting forth the results of the red team review. The provision would direct the Secretary of Energy to conduct an annual review of security vulnerabilities of the national laboratory computers. The Secretary would submit a report to the congressional defense committees only if and when a significant vulnerability was discovered.

The House bill contained no similar provision.

The Senate recedes.

##### *Review by Secretary of Energy and Secretary of Defense of Comptroller General assessment of budget requests with respect to the modernization and refurbishment of the nuclear security complex*

The Senate amendment contained a provision (sec. 3112) that would amend section 3255 of the National Nuclear Security Adminis-

tration Act (50 U.S.C. 2455(a)) to direct the Secretary of Energy, in consultation with the Secretary of Defense, to review the Government Accountability Office (GAO) report required by this section. Within 30 days of receiving the GAO report, the Secretary of Energy, in consultation with the Secretary of Defense, would complete the review of the GAO report and submit the results to the congressional defense committees. This report would include the results of the review of the GAO report and the views of the two Secretaries with respect to the findings in the GAO report. In addition, the two Secretaries would report on whether the actual funding level in the fiscal year in which the report is submitted is sufficient for the modernization and refurbishment of the nuclear security complex and the refurbishment of the nuclear weapons stockpile.

The House bill contained no similar provision.

The Senate recedes.

##### *Report on feasibility of federalizing the security protective forces contract guard workforce at certain Department of Energy facilities*

The Senate amendment contained a provision (sec. 3121) that would direct the Secretary of Energy and the Administrator for Nuclear Security to report on the feasibility of federalizing some or all of the security protective forces contract guard workforce at Department of Energy (DOE) atomic energy facilities. The provision would also direct the Secretary and the Administrator to submit a draft of the report to the Comptroller General. The final report, together with the comments of the Comptroller General, would be submitted to the congressional defense committees not later than 1 year from the date of enactment of this Act.

The House bill contained no similar provision.

The Senate recedes.

##### *Comptroller General study on oversight of Department of Energy defense nuclear facilities*

The Senate amendment contained a provision (sec. 3122) that would direct the Comptroller General to conduct a study of the value of and the need for external regulation or external oversight of the safety of nuclear operations and the design and construction of defense nuclear facilities at the Department of Energy (DOE) to protect public health and safety.

The House bill contained no similar provision.

The Senate recedes.

##### *Plan to complete the Global Initiatives for Proliferation Prevention program in the Russian Federation*

The Senate amendment contained a provision (sec. 3123) that recommends a provision that would direct the Administrator for Nuclear Security at the Department of Energy to submit a plan with the fiscal year 2013 budget request to complete the Global Initiatives for Proliferation Prevention program in the Russian Federation by the end of calendar year 2013.

The House bill contained no similar provision.

The Senate recedes.

The conferees request the Administrator to submit a plan for the program over the next 5 years with the President’s fiscal year 2013 budget submission to Congress.

TITLE XXXII—WAR RELATED NATIONAL NUCLEAR SECURITY ADMINISTRATION AUTHORIZATIONS

Authorization (sec. 3201)

The House bill contained a provision (sec. 3201) that would authorize the Defense Nuclear Facilities Safety Board at the fiscal year 2012 budget request of \$29,130,000.

The Senate amendment contained a similar provision (sec. 3201) that would authorize the Defense Nuclear Facilities Safety Board at \$33,317,000.

The Senate recedes to the House authorization level.

Legislative Provisions Not Adopted

Additional funding for Defense Nuclear Facilities Safety Board

The House bill contained a provision (sec. 3202) that would increase the fiscal year 2012 authorization level for the Defense Nuclear Facilities Safety Board by \$2,500,000, with an offsetting reduction from the Joint Tactical Radio System Maritime-Fixed Radios program.

The Senate amendment contained no similar provision.

The House recedes.

Authority of the Defense Nuclear Facilities Safety Board to review the facility design and construction of Construction Project 10-D-904 of the National Nuclear Security Administration

The Senate amendment contained a provision (sec. 3202) that would amend section 2286g(1)(A) of title 42, United States Code, to provide authority to the Defense Nuclear Facilities Safety Board to review the facility design of, and review and monitor the construction of, construction project 10-D-904 of the National Nuclear Security Administration.

The House bill contained no similar provision.

The Senate recedes.

The conferees direct the Director of Naval Reactors to provide the congressional defense committees Critical Decision 1 (CD-1) and Critical Decision 2 (CD-2) documentation for this construction project, in accordance with Department of Energy (DOE) Order 413.3 or equivalent, when completed, as well as documentation that applicable DOE safety requirements are met.

TITLE XXXIV—NAVAL PETROLEUM RESERVES Authorization of appropriation (sec. 3401)

The House bill contained a provision (sec. 3401) that would authorize \$14.909 million for

fiscal year 2012 for operation and maintenance of the Naval Petroleum Reserves.

The Senate amendment did not contain a similar provision.

The conference agreement includes this provision.

TITLE XXXV—MARITIME ADMINISTRATION

Legislative Provisions Adopted

Authorization of appropriations for national security aspects of the merchant marine for fiscal year 2012 (sec. 3501)

The House bill contained a provision (sec. 3501) that would authorize appropriations for the Maritime Administration (MARAD) of the Department of Transportation for those activities of the Maritime Administration associated with maintaining national defense sealift.

The Senate amendment contained no similar provision.

The Senate recedes.

Use of National Defense Reserve Fleet and Ready Reserve Force vessels (sec. 3502)

The House bill contained a provision (sec. 3502) that allows the use of National Defense Reserve Fleet vessels for civil contingency operations when requested by another agency of the government with concurrence of the Secretary of Defense (or a designee).

The Senate amendment contained no similar provision.

The Senate recedes.

Recruitment authority (sec. 3503)

The House bill contained a provision (sec. 3503) that authorizes the Secretary of Transportation to expend available funds for the United States Merchant Marine Academy operating expenses for recruiting activities in order to obtain recruits for the Academy and cadet applications.

The Senate amendment contained no similar provision.

The Senate recedes.

Ship scrapping reporting requirement (sec. 3504)

The House bill contained a provision (sec. 3504) that would modify existing MARAD to eliminate the production of annual ship disposal reports to Congress and instead require MARAD, upon request, to provide Congress with timely briefings on its recycling program.

The Senate amendment contained no similar provision.

The Senate recedes.

Legislative Provisions Not Adopted

Strategic Port Assessment and Report

The House bill contained a provision (sec. 3505) that would require an assessment by the Secretary of Defense of all ports designated by the Department of Defense as strategic ports.

The Senate amendment contained no similar amendment.

The House recedes.

The conferees acknowledge that Congress in the statement of managers accompanying the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181) mandated that the Military Surface Deployment and Distribution Command (SDDC) conduct a study on the optimal use, and potential expansion, of the Nation's strategic ports. Because of the continuing importance of strategic ports to the national security, the conferees direct the Commander of the SDDC, in consultation with the Administrator of the Maritime Administration, to provide an updated report of the port facilities used for military purposes. Specifically, the report should include: an assessment of the structural integrity and deficiencies of the port facilities and infrastructure improvements needed directly and indirectly to meet national security and readiness requirements; an assessment of the impact on operational readiness if the improvements are not undertaken; an identification of potential funding sources for the needed improvements from existing authorities; and an opinion of whether the Department of Defense has the necessary authority to support section 50302 of title 46, United States Code.

Maritime Administration

The Senate amendment contained a provision (sec. 3301) that would re-authorize certain aspects of the Maritime Administration.

The House bill contained no similar provision.

The Senate recedes.

DIVISION D—FUNDING TABLES

Authorization of amounts in funding tables (sec. 4001)

The House bill contained a provision (sec. 4001) that would provide for the authorization of projects, programs, or activities in accordance with the tables in division D.

The Senate amendment contained a similar provision (sec. 4001).

The Senate recedes.

**DIVISION E—SBIR AND STTR  
REAUTHORIZATION**

*Reauthorization of the SBIR and STTR programs (sec. 5001-5168)*

The Senate amendment contained several provisions (secs. 5001-5503) that would reauthorize the Small Business Innovation Research (SBIR) and the Small Business Technology Transfer (STTR) programs for 8

years. The SBIR/STTR Reauthorization Act of 2011 gradually increases the SBIR allocation from 2.5 percent to 3.5 percent and the STTR allocation from 0.3 percent to 0.6 percent. In addition, it allows entities majority-owned by multiple venture capital firms to compete for SBIR awards.

The House bill contained no similar provisions.

The House recedes and the conferees agree to reauthorize SBIR and STTR for 6 years. The SBIR allocation will increase incrementally from 2.5 percent to 3.2 percent and the STTR allocation will increase incrementally from 0.3 percent to 0.45 percent. The conference agreement also expands the allowance of venture capital firms to include participation by firms that are majority owned

by multiple hedge funds or private equity firms.

From the Committee on Armed Services, for consideration of the House bill and the Senate amendment, and modifications committed to conference:

HOWARD P. "BUCK"  
MCKEON,  
ROSCOE G. BARTLETT,  
MAC THORNBERRY,  
W. TODD AKIN,  
JEFF MILLER,  
FRANK A. LOBIONDO,  
MICHAEL R. TURNER,  
JOHN KLINE,  
MIKE ROGERS of Alabama,  
BILL SHUSTER,  
K. MICHAEL CONAWAY,  
ROBERT J. WITTMAN,  
DUNCAN HUNTER,  
THOMAS J. ROONEY,  
ROBERT T. SCHILLING,  
TIM GRIFFIN of Arkansas,  
ALLEN B. WEST,  
ADAM SMITH of  
Washington,  
SILVESTRE REYES,  
LORETTA SANCHEZ of  
California,

JOHN CORNYN,  
DAVID VITTER,

*Managers on the part of the SENATE.*

## EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker's table and referred as follows:

4256. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans: South Carolina; Negative Declarations for Applicability of Groups I, II, III and IV Control Techniques Guidelines; and Applicability of Reasonably Available Control Technology for the Portion of York County, South Carolina within Charlotte-Gastonia-Rock Hill, North Carolina-South Carolina 1997 8-Hour Ozone Nonattainment Area [EPA-R04-OAR-2010-0017-201014(a) & EPA-R04-OAR-2010-0018-201001(a); FRL-9495-7] received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4257. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans; State of Maryland; Section 110(a)(2) Infrastructure Requirements for the 1997 8-Hour Ozone and the 1997 and 2006 Fine Particulate Matter National Ambient Air Quality Standards [EPA-R03-OAR-2010-0476; FRL-9495-6] received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4258. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Implementation Plans and Designations of Areas for Air Quality Planning Purposes; Georgia: Atlanta; Determination of Attaining Data for the 1997 Annual Fine Particulate Matter National Ambient Air Quality Standards [EPA-R04-OAR-2010-0604-201160; FRL-9496-3] received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4259. A letter from the Deputy Assistant Administrator for Operations, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Endangered and Threatened Wildlife and Plants: Final Rulemaking To Designate Critical Habitat for Black Abalone [Docket No.: 100127045-1313-02] (RIN: 0648-AY64) received November 21, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

4260. A letter from the Associate General Counsel for Legislation and Regulations, Department of Housing and Urban Development, transmitting the Department's final rule — HUD Debt Collection: Revisions and Update to the Procedures for the Collection of Claims [Docket No.: FR-5166-F-02] (RIN: 2501-AD36) received November 21, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on the Judiciary.

4261. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; MD Helicopters, Inc. Model MD900 Helicopters [Docket No.: FAA-2010-1301; Directorate Identifier 2010-SW-008-AD; Amendment 39-16851; AD 2011-22-08] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4262. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Agusta S.p.A. (Agusta) Model AB139 and AW139 [Docket No.: FAA-2011-1036; Directorate Identifier 2010-SW-088-AD; Amendment 39-16819; AD 2011-20-08] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4263. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Eurocopter Deutschland GmbH (ECD) Model MBB-BK 117 C-2 Helicopters [Docket No.: FAA-2011-1075; Directorate Identifier 2011-SW-011-AD; Amendment 39-16836; AD 2011-21-13] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4264. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Bell Helicopter Textron, Inc. (Bell), Model 205A-1, 205B, 210, and 212 Helicopters [Docket No.: FAA-2011-1182; Directorate Identifier 2010-SW-010-AD; Amendment 39-16853; AD 2011-23-02] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4265. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Sigma Aero Seat Passenger Seat Assemblies, Installed on, but not Limited to, ATR-GIE Avions de Transport Regional Airplanes [Docket No.: FAA-2011-1163; Directorate Identifier 2011-NM-022-AD; Amendment 39-16857; AD 2011-23-06] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4266. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Bombardier, Inc. Airplanes [Docket No.: FAA-2011-0031; Directorate Identifier 2010-NM-135-AD; Amendment 39-16860; AD 2011-23-09] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4267. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Rolls-Royce plc RB211-524 Series, RB211-Trent 700 Series, and RB211-Trent 800 Series Turbofan Engines [Docket No.: FAA-2010-0993; Directorate Identifier 2010-NE-08-AD; Amendment 39-16849; AD 2011-22-07] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4268. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; The Boeing Company Model 737-300, -400, and -500 Series Airplanes [Docket No.: FAA-2011-1162; Directorate Identifier 2011-NM-186-AD; Amendment 39-16856; AD 2011-23-05] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A);

to the Committee on Transportation and Infrastructure.

4269. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; SOCATA Airplanes [Docket No.: FAA-2011-0868; Directorate Identifier 2011-CE-027-AD; Amendment 39-16854; AD 2011-23-03] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4270. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; General Electric Company Turbo-shaft Engines [Docket No.: FAA-2011-0942; Directorate Identifier 2011-NE-29-AD; Amendment 39-16840; AD 2011-21-17] (RIN: 2120-AA64) received November 22, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4271. A letter from the Director, Regulation Policy and Management, Office of the General Counsel, Department of Veterans Affairs, transmitting the Department's final rule — Clothing Allowance (RIN: 2900-AN64) received November 17, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Veterans' Affairs.

4272. A letter from the Director, Regulation Policy and Management, Office of the General Counsel, Department of Veterans Affairs, transmitting the Department's final rule — Updating Fire Safety Standards (RIN: 2900-AN57) received November 17, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Veterans' Affairs.

A letter from the Chief, Trade and Commercial Regulations Branch, Department of the Treasury, transmitting the Department's final rule — Import Restrictions Imposed on Certain Archaeological and Ethnological Material From Greece (RIN: 1515-AD84) received November 28, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

4274. A letter from the Chief, Trade and Commercial Regulations Branch, Department of the Treasury, transmitting the Department's final rule — Extension of Import Restrictions Imposed on Archaeological and Ethnological Material From Bolivia (RIN: 1515-AD83) received November 28, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

4275. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule — User Fee to Take the Registered Tax Return Preparer Competency Examination [TD 9559] (RIN: 1545-BK24) received November 23, 2011, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

## REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. SMITH of Texas: Committee on the Judiciary. H.R. 313. A bill to amend the Controlled Substances Act to clarify that persons who enter into a conspiracy within the United States to possess or traffic illegal controlled substances outside the United States, or engage in conduct within the United States to aid or abet drug trafficking outside the United States, may be criminally prosecuted in the United States, and for other purposes; with an amendment (Rept.

112-324 Pt. 1). Referred to the Committee of the Whole House on the state of the Union.

Mr. MICA: Committee on Transportation and Infrastructure. H.R. 1264. A bill to designate the property between the United States Federal Courthouse and the Ed Jones Building located at 109 South Highland Avenue in Jackson, Tennessee, as the "M.D. Anderson Plaza" and to authorize the placement of a historical/identification marker on the grounds recognizing the achievements and philanthropy of M.D. Anderson (Rept. 112-325). Referred to the House Calendar.

Mr. MICA: Committee on Transportation and Infrastructure. H.R. 2668. A bill to designate the station of the United States Border Patrol located at 2136 South Naco Highway in Bisbee, Arizona, as the "Brian A. Terry Border Patrol Station" (Rept. 112-326). Referred to the House Calendar.

Mr. BACHUS: Committee on Financial Services. H.R. 2167. A bill to amend the Securities Exchange Act of 1934 to change the threshold number of shareholders for required registration under that Act; with an amendment (Rept. 112-327). Referred to the Committee of the Whole House on the state of the Union.

Mr. DREIER: Committee on Rules. House Resolution 491. Resolution providing for consideration of the bill (H.R. 3630) to provide incentives for the creation of jobs, and for other purposes (Rept. 112-328). Referred to the House Calendar.

Mr. McKEON: Committee of Conference. Conference report on H.R. 1540. A bill to authorize appropriations for fiscal year 2012 for military activities of the Department of Defense and for military construction, to prescribe military personnel strengths for fiscal year 2012, and for other purposes (Rept. 112-329). Ordered to be printed.

## DISCHARGE OF COMMITTEE

Pursuant to clause 2 of rule XIII, the Committee on Energy and Commerce discharged from further consideration. H.R. 313 referred to the committee of the Whole House on the state of the Union, and ordered to be printed.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. KISSELL:

H.R. 3632. A bill to require the Administrator of the Federal Aviation Administration to prescribe regulations requiring air carriers to provide passengers with certain amenities and facilities, and for other purposes; to the Committee on Transportation and Infrastructure.

By Ms. BUERKLE (for herself and Mr. KING of New York):

H.R. 3633. A bill to amend title XVIII of the Social Security Act to repeal the reduction in Medicare disproportionate share hospital (DSH) payments made by section 3133 of the Patient Protection and Affordable Care Act; to the Committee on Ways and Means.

By Mr. HUIZENGA of Michigan (for himself, Mr. FRANK of Massachusetts, Mrs. MALONEY, Mr. SENSENBRENNER, Mr. MANZULLO, Mr. ROYCE, Mr. TIBERI, and Mr. OLVER):

H.R. 3634. A bill to amend title 18, United States Code, to require Federal Prison Industries to compete for its contracts minimizing its unfair competition with private sector firms and their non-inmate workers and empowering Federal agencies to get the best value for taxpayers' dollars, to provide a

five-year period during which Federal Prison Industries adjusts to obtaining inmate work opportunities through other than its mandatory source status, to enhance inmate access to remedial and vocational opportunities and other rehabilitative opportunities to better prepare inmates for a successful return to society, to authorize alternative inmate work opportunities in support of non-profit organizations and other public service programs, and for other purposes; to the Committee on the Judiciary.

By Mrs. MALONEY (for herself and Ms. RICHARDSON):

H.R. 3635. A bill to encourage initiatives for financial products and services that are appropriate and accessible for millions of American small businesses that do not have access to the financial mainstream; to the Committee on Financial Services.

By Mr. MURPHY of Connecticut:

H.R. 3636. A bill to amend title 18, United States Code, to extend the stolen goods offense to cover all veterans' memorials, and for other purposes; to the Committee on the Judiciary.

By Mr. ROONEY (for himself, Mr. NUGENT, Mr. YOUNG of Florida, Mr. DIAZ-BALART, Mr. WEST, Mr. RIVERA, Mr. BILIRAKIS, Mr. WEBSTER, Mrs. ADAMS, Mr. POSEY, Mr. STEARNS, Ms. CASTOR of Florida, Ms. BROWN of Florida, Mr. DEUTCH, Mr. HASTINGS of Florida, Mr. MICA, Mr. CRENSHAW, Mr. BUCHANAN, Mr. MILLER of Florida, Ms. ROS-LEHTINEN, Ms. WILSON of Florida, Ms. WASSERMAN SCHULTZ, and Mr. MACK):

H.R. 3637. A bill to designate the facility of the United States Postal Service located at 401 Old Dixie Highway in Jupiter, Florida, as the "Roy Schallern Rood Post Office Building"; to the Committee on Oversight and Government Reform.

By Mr. GOSAR (for himself, Mr. FRANKS of Arizona, Mr. DUNCAN of South Carolina, Mr. MACK, Mr. BROUN of Georgia, Ms. JENKINS, Mr. BILIRAKIS, Mr. MARCHANT, Mr. GRIMM, Mr. FARENTHOLD, Mrs. ELLMERS, Mr. LANDRY, Mr. BURTON of Indiana, Mr. NUNNELEE, Mr. CANSECO, Mrs. HARTZLER, Mr. SCHILLING, Mr. PEARCE, Mr. JOHNSON of Ohio, Mr. JONES, Mr. SCHWEIKERT, and Mr. WEST):

H. Res. 490. A resolution expressing no confidence in the Attorney General of the United States; to the Committee on the Judiciary.

By Mrs. ELLMERS:

H. Res. 492. A resolution expressing the firm belief that disposing of any part of the remains of a deceased member of the Armed Forces as medical waste is repugnant, disrespectful and should not be tolerated; to the Committee on Armed Services.

### CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule MI of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. KISSELL:

H.R. 3632.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, Clause 3

The Congress shall have Power to regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes.

By Ms. BUERKLE:

H.R. 3633.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8.

By Mr. HUIZENGA of Michigan:

H.R. 3634.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section, Clause 3—To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes

Amendment X—Nothing in the Constitution authorizes the Federal government to do anything other than those things enumerated (coin money, enter into treaties, conduct a Census—which are inherently governmental). Thus, under Amendment X, the right to carry out commercial activities is reserved to the States, respectively, or to the people.

By Mrs. MALONEY:

H.R. 3635.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8, clause 3.

By Mr. MURPHY of Connecticut:

H.R. 3636.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section 8

By Mr. ROONEY:

H.R. 3637.

Congress has the power to enact this legislation pursuant to the following:

Article I, Section VIII: to establish post offices and post roads.

### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 178: Mr. JOHNSON of Ohio.  
H.R. 198: Mr. HASTINGS of Florida.  
H.R. 374: Mr. NEUGEBAUER.  
H.R. 402: Mr. THOMPSON of California and Mr. CARSON of Indiana.  
H.R. 452: Mr. BACA and Mr. MATHESON.  
H.R. 459: Mr. AMODEI.  
H.R. 623: Ms. BROWN of Florida and Mr. CAPUANO.  
H.R. 719: Mr. BACA.  
H.R. 733: Mr. GRIFFITH of Virginia.

# CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

## OFFERED BY MR. BACHUS

The provisions that warranted a referral to the Committee on Financial Services of H.R. 3630, the Middle Class Tax Relief and Job Creation Act of 2011, do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. CAMP

The provisions that warranted a referral to the Committee on Ways and Means in H.R. 3630, the “Middle Class Tax Relief and Job Creation Act of 2011”, do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI of the Rules of the U.S. House of Representatives.

## OFFERED BY MR. DREIER

The provisions that warranted a referral to the Committee on Rules in H.R. 3630 do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. HASTINGS OF WASHINGTON

The provisions that warranted a referral to the Committee on Natural Resources in H.R. 3630 do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. ISSA

The provisions that warranted a referral to the Committee on Oversight and Government Reform in H.R. 3630 do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. LUCAS

The provisions that warranted a referral to the Committee on Agriculture in H.R. 3630 do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. DANIEL E. LUNGREN OF CALIFORNIA

The provisions that warranted a referral to the Committee on House Administration in H.R. 3630, the “Middle Class Tax Relief and Job Creation Act of 2011”, do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. MICA

The provisions that warranted a referral to the Committee on Transportation and Infrastructure in H.R. 3630 do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. ROGERS OF MICHIGAN

The provisions in H.R. 3630 that warranted a referral to the Permanent Select Committee on Intelligence do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of Rule XXI.

## OFFERED BY MS. ROS-LEHTINEN

The provisions that warranted a referral to the Committee on Foreign Affairs in H.R. 3630 do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI of the Rules of the House of Representatives.

## OFFERED BY MR. RYAN OF WISCONSIN

The provisions that warranted a referral to the Committee on the Budget in H.R. 3630, the Middle Class Tax Relief and Job Creation Act of 2011, do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## OFFERED BY MR. UPTON

The provisions that warranted a referral to the Committee on Energy and Commerce in H.R. 3630 do not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9 of rule XXI.

## EXTENSIONS OF REMARKS

HONORING MR. WILLIAM DALE  
GIBBS

**HON. W. TODD AKIN**

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. AKIN. Mr. Speaker, I rise today to honor and remember Mr. William Gibbs a veteran of World War II who passed into glory on 19 October 2011.

The youngest son of John and Maimi Gibbs, William Dale Gibbs was born on 21 June 1926 in Salem, Missouri, in the heart of the Ozarks. Like many in those years, Mr. Gibbs' parent found work hard to come by and eventually moved the family to St. Louis to find employment.

At the age 18, with World War II still raging, Mr. Gibbs enlisted in the United States Army and was assigned to the 82nd Airborne Division, 325th Glider Regiment. The 82nd was the Army's first Airborne Division. Mr. Gibbs and his unit played a lead role in blunting the German advance during the Battle of the Bulge. He and his unit saw heavy fighting, suffering heavy casualties, throughout World War II.

Mr. Gibbs saw and experienced many things during his service in Europe, but none seemed to impact him as much as the following . . .

" . . . Upon completion of their objectives, the division moved again towards the Rhine River and Cologne. From there, the order of duty was to push forward into the Rhineland, and then moved again towards Berlin, winding up in a town called Ludwigslust. Here they captured a concentration camp (Camp Wobbelin) which held several thousand prisoners, many were already dead and the remaining were in very poor condition. The survivors were so elated, they were out of control. Their weak mental conditions coupled with the language barrier made it very difficult to administer to their needs. Out of respect for the prisoners, General [James "Jumpin' Jim"] Gavin ordered a proper burial of the dead prisoners in the center of town. A formal memorial and burial service was conducted by the 325th division Chaplain, Major [George B.] Wood. The German townspeople were forced to dig the graves and attend the service. There were approximately 10,000 Germans in attendance.

After the encounter at Concentration Camp Wobbelin, the unit moved ahead towards the Elbe River. They had great pleasure in liberating some POW camps along the way. The soldiers were reunited with some of the 82nd Airborne Division who had been POWs captured in Italy over a year before."

According to his son, David, Mr. Gibbs related this story many times over his life. It was during his earliest memory of this story that David first saw his father cry.

Like so many of his generation, at the end of the war, Mr. Gibbs returned home, married

and went to work. After completing his education and finding employment with International Shoe Company, he married Shirley Mae Warfel and together they raised a family of three boys and a girl—though they experienced the loss of their first born to leukemia at age five.

The passing of William Dale Gibbs reminds me that all too soon we will lose the World War II generation to history. While we may be losing them, we should not lose their stories and the lessons they teach; one of which is there are, in fact, things for which we should fight, and if necessary, die to preserve and protect.

On behalf of a grateful nation, thank you Mr. Gibbs for your service and sacrifice in Europe; and for returning home and raising sons and a daughter who were so very proud to call you "Dad".

RECOGNIZING THE 70TH ANNIVERSARY  
OF THE INVASION OF  
GUAM DURING WORLD WAR II

**HON. MADELEINE Z. BORDALLO**

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Ms. BORDALLO. Mr. Speaker, I rise today to commemorate the 70th anniversary of the invasion of Guam and the beginning of the Pacific theater of World War II. In the early morning of December 10, 1941, two days after the aerial attacks on Pearl Harbor and Sumay Village, soldiers of the Imperial Japanese Army invaded the shores of Guam.

The Japanese invasion faced resistance at the Plaza de Espata in Hagota by the members of the Guam Insular Guard, who were recruited by the Navy eight months prior to the invasion of Guam. With limited military training, and lightly armed, the Insular Guard was all that stood between the invaders and our people. The Guam Insular Guard fought with great courage in defense of our island but they were overwhelmed in a short time by the superior numbers and arms of the invasion force. This encounter marked the only ground battle against the invading Japanese force on Guam. Shortly thereafter that early morning, U.S. Naval Captain George J. McMillin, Naval Governor of Guam, and a handful of U.S. sailors, surrendered the island to the Japanese Army.

These events marked the beginning of the Japanese occupation on Guam for the next thirty two months. The occupation of Guam was marked by abuse and violence against the people of Guam including forced labor, forced marches, internment in camps, injuries and executions. Throughout the occupation, the people of Guam remained patriotic to America and never lost faith that U.S. forces would return to liberate our island. While we

can never truly comprehend the suffering endured by our manamko' (elders) during the Japanese occupation, we continue to honor them for who they are, what they have endured, and how they have impacted our lives and our community.

As we commemorate this solemn anniversary, we pay tribute to these Insular Guardsmen for their courage and bravery. We also acknowledge Guam's greatest generation, those who endured the war and survived. Lastly, we pray for the civilians who died during the war and the members of the U.S. armed forces who fought to liberate our island. We must never forget their suffering and their sacrifices during the brutal occupation and liberation. God bless Guam and God bless the United States of America.

SUPPORT FOR DESIGNATING JANUARY  
5TH AS NATIONAL BIRD  
DAY

**HON. MIKE QUIGLEY**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. QUIGLEY. Mr. Speaker, I rise today to express my support for designating January 5th as "National Bird Day." I also wish for my colleagues to consider the following:

That the beauty, songs, and flight of birds have long been sources of inspiration, and that nearly 12 percent of the world's 9,800 bird species may face extinction within the next century, including nearly one-third of the world's 330 parrot species;

That birds are sentinel species whose plight serves as a barometer of ecosystem health and an alert system for detecting global environmental ills;

That many of the world's parrots and songbirds are threatened with extinction due to pressures from the illegal pet trade, disease, and habitat loss;

That public awareness and education about the physical and behavioral needs of birds can go far in improving the welfare of the millions of birds kept in captivity, and that the survival and well-being of the world's birds depends upon ending the illegal pet trade and supporting public education and conservation;

Finally, that the United States Congress has enacted specific laws to protect birds, including the Wild Bird Conservation Act and Migratory Bird Treaty Act, and that January 5, 2012 is being celebrated by Born Free USA as National Bird Day with the intent to raise awareness about bird conservation and protection.

I urge my colleagues to stand with me to support the designation of January 5th as National Bird Day and to encourage their State and local governments to observe the day with appropriate activities that promote bird awareness. Furthermore, I encourage all avian experts and professionals working with birds to

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

use this day to create greater public awareness and appreciation of birds, leading to further protection of bird species. Finally, I encourage individuals across the Nation to become more aware of their local avian community so they can be more effective stewards of bird conservation.

**HONORING NICHOLAS AIELLO FOR  
HIS MANY CONTRIBUTIONS TO  
THE COMMUNITY**

**HON. ROSA L. DeLAURO**

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Ms. DeLAURO. Mr. Speaker, it is with great pleasure that I rise today to join the members of the Central Labor Council of New Haven, Connecticut as they raise a toast and salute a very special member of Connecticut's labor movement, and my dear friend, Nicholas Aiello. One of the first organizers in the City of New Haven, Nick has long been a strong voice on behalf of working families and is known to many as one of the architects of Connecticut's labor movement.

One of fourteen children, all of whom were garment workers in New Haven's shirt factories, Nick was no stranger to hard work, low pay, and less than ideal working conditions. As Nick recounts in Anthony Riccio's *The Italian Experience in New Haven: Images and Oral Histories*, "When New York got completely organized, the 'runaway shops' came to New Haven. They ran to New Haven where there were no union shops. And they would open up a storefront. They'd put twenty, thirty machines on the fourth floor and most of the stitching plants were on the fourth floor with no elevator. Conditions were horrible . . . Then in the 1930s came the Amalgamated and they started organizing drives in the area." It was with Amalgamated that Nick began as an organizer, taking to the streets of New Haven, rallying workers, and demanding better from industry management. He would go on to become a business agent for Amalgamated and still today remains involved with the Central Labor Council of New Haven. Nick is a pillar of Connecticut's labor movement and has earned the respect and admiration of labor and community leaders alike.

Much has changed from Nick's days in the factories, however, he wanted to make sure that future generations understood the battles that were undertaken to ensure the rights of America's workers. A few years ago, Nick spearheaded the Greater New Haven Labor History Project—an organization whose mission was to collect, preserve, and share the history of working people in the Greater New Haven Area. Nick was determined to see this project succeed and, like in his early organizing days, went door to door to garner support. The response was extraordinary and today its members and staff create traveling exhibits and install them in community venues; preserve and maintain an archival repository of individuals' papers and local union records, documents and artifacts of historical significance; organize public events such as workshops, walking tours, book-signings, film fes-

tivals, and talks by esteemed labor historians; offer Records Inventory Services and access by appointment to many of their historical archives; as well as conduct projects such as oral history interviews with retired workers. In addition, the group also presents the August Lewis Troup Award annually to individuals in recognition of their personal contributions to the labor community. None of this would have been possible without Nick's persistence and unyielding determination to see it become a reality and he continues in his efforts by serving as the President of the Greater New Haven Labor History Project Association.

I would be remiss if I did not extend a personal note of thanks to Nick for his many years of friendship and support. He has been in my corner from the very beginning and even today he still volunteers some of his time in my District Office. I could not be more appreciative of all of his good work on my behalf.

For his many contributions to our community and particularly for his invaluable efforts with the Connecticut labor movement, I am proud to join the members of the Central Labor Council of New Haven in extending my heartfelt thanks to Nicholas Aiello. I extend my very best wishes to Nick and his son, Michael, for many more years of health and happiness.

**CONGRATULATING AL AND CHRIS  
BEVILACQUA ON THEIR INDUC-  
TION INTO THE NATIONAL WRES-  
TLING HALL OF FAME**

**HON. JIM JORDAN**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. JORDAN. Mr. Speaker, I am proud to recognize the achievements of 2012 National Wrestling Hall of Fame inductees Al and Chris Bevilacqua—the first father and son to be so honored in the same year.

For nearly a half century, Al Bevilacqua has worked tirelessly to advance the sport of wrestling as a coach, organizer, mentor, and teacher. Named USA Wrestling's Coach of the Year in 1983, Al has managed successful programs at the high school and college levels, including two years at Division I Hofstra University. Al's greatest contribution to the sport, however, may be his role as co-founder of Beat the Streets, a New York City-based wrestling program that promotes the values of hard work, dedication, and self-discipline among the area's youths. He will receive the Hall of Fame's Order of Merit for his many contributions to the sport.

A two-time All-American at Pennsylvania State University, Chris Bevilacqua has continued his father's legacy of athletic excellence and community involvement. A fixture in the sports media industry, Chris helped found CSTV, the first 24-hour cable network dedicated to college and amateur athletics, which was sold to CBS in 2005. Chris currently serves as CEO of the Bevilacqua Media Company, a strategic advisor to media and entertainment interests. He will receive the Hall's Outstanding American Award.

Al, Chris, and their fellow honorees will be recognized in June during the Hall's induction

ceremony in Stillwater, Oklahoma. I congratulate them and join their family and friends in celebrating their many contributions to the wrestling community.

**HONORING THE LIFE AND WORK  
OF NOEL CUNNINGHAM**

**HON. DIANA DeGETTE**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Ms. DeGETTE. Mr. Speaker, it is with a heavy heart that I rise to honor the life of Noel Cunningham, a restaurateur and philanthropist I had the pleasure of knowing for almost 20 years.

A resident of Denver, Noel was a true citizen of the world. Born in Ireland in 1949, he went to work at London's famed Savoy Hotel, achieving the rank of sous chef by age 23, before moving to California in the 1970's. In 1986 he moved to Denver and opened Strings, a bistro in Denver's Capitol Hill neighborhood that quickly became a community institution, hosting local celebrities, politicians, community and charity events and romantic date-nights.

While his professional biography will be defined by his extraordinary culinary talents, Noel's legacy will forever be based on the impact his philanthropic efforts had in Denver and across the world.

While in California he met Pat Miller, the noted restaurant critic known as the "Gabby Gourmet," and the two developed a lifelong friendship. Together, they started "Taste of the Nation," a nation-wide fundraiser that by 2010 had raised almost \$80 million to fight hunger and poverty across the United States.

With his wife Tammy, Noel founded The Cunningham Foundation, which included Quarters for Kids, to help educate children about local hunger and homelessness, and 4 Quarters for Kids, a project he named in reference to the four quarters it takes per day to provide an Ethiopian child with breakfast, lunch, a school uniform, and a teacher and books. Firm in his belief that philanthropy could strengthen a local community while enriching the lives of those across the globe, Noel targeted 4 Quarters primarily to local children, who held carwashes, concerts, pledge drives, and silent auctions to help create a better future for their Ethiopian peers.

Noel was active with the local Volunteers of America, and served on the board of the national nonprofit Share Our Strength. On weekday afternoons, it was not uncommon to drive by Strings and see Noel serving meals to the homeless in between the persistent lunch and dinner rushes. He was committed to building a better community, both locally and globally, and was not afraid to enlist the help of others to achieve his goals; he worked with local hospitals to provide life-saving treatments for Ethiopian children, and local businesses to ship supplies and other necessities to Africa. He founded "A Dinner of Unconditional Love"—a charity dinner to raise funds for Dr. Rick Hodes, an American Doctor living in Ethiopia whose mission is to help heal the poor—and had planned to expand the program across

the country so that he could raise the \$10 million Hodes needs to build his own hospital in Ethiopia.

Mr. Speaker, from the streets of Denver to the farms of Ethiopia, Noel Cunningham spent each and every day making a difference in the lives of those around him. Never content to settle, he pursued perfection in his restaurant and in his charitable endeavors, never once falling short in all the years I have known him. His life stands as proof that any individual can have an extraordinary impact, and his tragic passing leaves a monumental crater in the global community that spans from Denver to Ethiopia and beyond.

#### OUR UNCONSCIONABLE NATIONAL DEBT

#### HON. MIKE COFFMAN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. COFFMAN of Colorado. Mr. Speaker, on January 26, 1995, when the last attempt at a balanced budget amendment passed the House by a bipartisan vote of 300-132, the national debt was \$4,801,405,175,294.28.

Today, it is \$15,052,444,423,722.81. We've added \$10,251,039,248,428.53 dollars to our debt in 16 years. This is \$10 trillion in debt our nation, our economy, and our children could have avoided with a balanced budget amendment.

#### IN RECOGNITION AND APPRECIATION FOR HENRY FORD HEALTH SYSTEMS

#### HON. GARY C. PETERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. PETERS. Mr. Speaker, I ask my colleagues to rise today to recognize the achievements of the Henry Ford Health System which, under the strong and dynamic leadership of its CEO, Nancy Schlichting, has earned a 2011 Malcolm Baldrige National Quality Award. This award recognizes and encourages benchmark business practices; once reserved only for manufacturing and similar businesses, the Baldrige Award has been expanded to include health care organizations. As a recipient of the Baldrige award, Henry Ford Health System continues to serve as a role model for other companies across the country. The award puts a spotlight on the amazing work being done at the Henry Ford Health System to deliver top quality health care to its patients.

Henry Ford Health System has established itself as one of the Nation's premier health care providers. Henry Ford Health System uses innovative strategies and solutions which have been developed and implemented for the past decade, helping reduce unintended patient harm and establishing a "zero-defect, no-excuses" approach to health care outcomes. Over the years, the Henry Ford Health System has developed a reputation for delivering the

best possible outcomes for patients. Because of this dedication to putting patients first, it is one of just 4 organizations around the Nation to receive this award and the only one in Michigan.

With approximately \$5.8 billion in economic impact through payroll, operating expense and capital expenditures, Henry Ford Health System is not only an effective health care entity, but a major contributor to Michigan's economy. As a top 5 employer in Southeast Michigan, the Henry Ford Health System boasts an impressive 24,000 employees and is responsible for 37,500 additional jobs through direct and indirect employment at 7 hospitals and 33 ambulatory care sites. With more than 2,000 physicians system wide, it is also one of the Nation's largest non-university research programs.

Earning the Malcolm Baldrige National Quality Award is no easy feat, with many companies each year following the Baldrige criteria as a model for proper organization and action. Henry Ford Health Systems now joins the ranks of companies such as Boeing Aerospace Support, Cadillac, and the Ritz-Carlton Hotel Company as innovators in their respective fields.

Mr. Speaker, I am honored to recognize the Henry Ford Health System and the 2011 Malcolm Baldrige National Quality Award that it has earned. The Henry Ford Health System's achievements serve as a beacon to other businesses countrywide.

#### IN HONOR OF BOB CONNERS UPON HIS RETIREMENT FROM 610-WTVN

#### HON. PATRICK J. TIBERI

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. TIBERI. Mr. Speaker, I rise today to honor and recognize Bob Connors upon his retirement from 610-WTVN Columbus.

The often transient nature of a career in radio remains a hard truth for those who choose this field. The industry sometimes forces these men and women to relocate to different stations and towns across the country. These individuals come and go, sometimes without developing a strong connection with a community. Over the years, however, one voice has remained a mainstay in Columbus, representing the pinnacle of morning radio hosting. As a proud central Ohioan and occasional guest on his show, I am deeply honored to show my sincere appreciation for one of the greatest radio hosts in this city's history, Bob Connors.

Bob came to Columbus from Pittsburgh over 40 years ago and since then has brought acclaim to and instilled pride in the central Ohio community. His morning show, Bob Connors in the Morning became one of the most popular shows in the area, attracting listeners from miles around. Known as the "Morning Monarch" for his longstanding service to the station, Bob eloquently presented national and local news, along with sports, weather and traffic reports.

For years he delivered the news to millions of citizens. His on-air disposition and the con-

sistency of his presence made waking up to his voice a pleasurable morning routine for an entire generation. I fondly remember listening to his show when I was growing up and how honored I was each time I was asked to speak with him on-air.

While he has retired from hosting the show, Bob's legacy and uplifting presence will resonate throughout our community for years to come. I am proud to wish him the best of luck as he moves on to the next exciting phase in his life. He not only remains one of the city's most recognizable voices, he also is one of Columbus' favorite sons.

#### PERSONAL EXPLANATION

#### HON. JESSE L. JACKSON, JR.

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. JACKSON of Illinois. Mr. Speaker, on Thursday, December 8, I was unavoidably detained in Illinois attending to district/constituent matters and missed recorded votes for H. Res. 487, H.R. 1633, the Farm Dust Regulation Prevention Act, and H.R. 1254, the Synthetic Drug Control Act.

If I had been present, I would have recorded my vote as a nay for rollcall vote 902, nay for rollcall vote 903, nay for rollcall vote 904, and nay for rollcall vote 905.

As I have confirmed in a number of meetings and correspondence, I do not support efforts by the Environmental Protection Agency to regulate fine and coarse particulate matter or "farm dust". While the EPA exists to protect the health of Americans and the stability of our environment, I am concerned by overly burdensome regulations and the impact they have on our smaller businesses and family farms. With that said, EPA Administrator Lisa Jackson has explicitly stated that she has no intention of revising any regulations on "farm dust". H.R. 1633 is another waste of the House's time and energy, as the clock continues to tick down on much more important issues like Unemployment Insurance and the payroll tax holiday.

For that reason, had I been present I would have recorded my vote as yea for rollcall vote 906, yea for rollcall vote 907, yea for rollcall vote 908, yea for rollcall vote 909, yea for rollcall vote 910, yea for rollcall vote 911 and nay for rollcall vote 912.

#### CONGRATULATORY REMARKS FOR OBTAINING THE RANK OF EAGLE SCOUT

#### HON. SANDY ADAMS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mrs. ADAMS. Mr. Speaker, I would like to congratulate Eric Thomas Pugnet for achieving the rank of Eagle Scout.

Throughout the history of the Boy Scouts of America, the rank of Eagle Scout has only been attained through dedication to concepts such as honor, duty, country and charity. By

applying these concepts to daily life, Eric has proven his true and complete understanding of their meanings, and thereby deserves this honor.

I offer my congratulations on a job well done and best wishes for the future.

TRIBUTE TO FORMER PUBLIC  
PRINTER ROBERT W. HOUK

**HON. JIM JORDAN**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. JORDAN. Mr. Speaker, I rise today to honor the life of former Public Printer of the United States Robert W. Houk, who passed away unexpectedly on Sunday.

Mr. Houk, a Michigan native who later moved to Shelby, Ohio, was a graduate of Michigan State University and Wayne State University. He was a proud U.S. Army veteran, rising to the rank of first lieutenant after serving throughout Europe during World War II and serving stateside during the Korean Conflict.

The management and leadership skills he learned in the Army were put to good use during his long and impressive career in the business world. He worked for the Ford Motor Company and at Detroit's Rotary Manifold before cofounding UFORMA/Shelby Business Forms in 1966. For more than two decades, he served as UFORMA's president and chief executive officer.

Mr. Houk's leadership in the printing industry was widely recognized by his peers. He was tapped as chairman of the board of International Business Forms Industries in 1976 and as chairman of the Printing Industries of America in 1987. Business Forms and Systems magazine named him Man of the Year in 1980.

In 1990, President George H. W. Bush appointed Mr. Houk as the 22nd Public Printer of the United States, a position he held until 1993. In that role, he oversaw the work of more than 3,000 Government Printing Office employees across the nation. He also earned a doctorate from Heidelberg University in Tiffin, Ohio, during his term as public printer.

Mr. Houk was very active in the Shelby community, chairing the boards of the Rehabilitation Center of North Central Ohio, the Mansfield Symphony Society, and The Ohio State University's Mansfield Campus. He also enjoyed playing trumpet in many area bands and was a charter member of the Ashland Area Community Concert Band.

Mr. Speaker, Robert Houk is survived by his wife, Sally; his son, Raymond; his daughter, Lisa; and their families. On behalf of the people of Ohio's Fourth Congressional District, I offer them my condolences as they gather in Shelby on Saturday to celebrate his life and his many contributions to the community and our nation.

HONORING NATALA K. (TALLY)  
HART UPON HER RETIREMENT  
FROM THE OHIO STATE UNIVERSITY

**HON. PATRICK J. TIBERI**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. TIBERI. Mr. Speaker, I rise today to honor and recognize Nataka K. (Tally) Hart upon her retirement from The Ohio State University.

Expressing how much Tally Hart has meant to The Ohio State University and the many students who have felt the impact of her unwavering commitment to higher education remains no easy task. As a graduate of Ohio State and an admirer of this remarkable person, it gives me great pleasure to add my personal appreciation.

For over three decades, Tally has dedicated herself to helping students achieve their dreams of attending college. After serving at various institutions around the country, in 1996 she was hired as Ohio State's Director of Financial Aid. In this position she gained national recognition for not only her unrivaled ability to obtain funding for students, but also the strength of her character and the sincerity of her efforts. In 2006 Tally was named Senior Advisor for Economic Access. In this role she was given the opportunity to lead a new program that allowed her to create programs that benefit thousands of disadvantaged students and make Ohio State a leader in college access and success initiatives.

Upon her retirement, Tally will leave behind a legacy that will permeate throughout central Ohio for years to come. Like fellow Buckeyes before her, she has become a beloved figure at our school. Through her selfless pursuits and deep passion for Ohio State, Tally has added greatly to the school's storied history and rich tradition.

While she is moving on to the next phase in her life, Tally will surely never stop doing what she loves: helping others. On behalf of the citizens of Ohio's 12th Congressional District, I would like to wish Tally the best of luck and thank her for her devotion to Ohio State.

PERSONAL EXPLANATION

**HON. GENE GREEN**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. GENE GREEN of Texas. Mr. Speaker, I rise today to state that I meant to vote "nay" on H.R. 1633, the Farm Dust Regulation Prevention Act, when it was considered on the House Floor on December 9, 2011.

I am strongly opposed to this unnecessary bill and voted "aye" by accident.

CONGRATULATING ALFRED UNIVERSITY UPON THE CELEBRATION OF ITS 175TH ANNIVERSARY

**HON. TOM REED**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. REED. Mr. Speaker, I rise today to congratulate and recognize Alfred University, a major educational institution in my district which is celebrating its 175th anniversary this year. Their official commemoration and activities were held the week of December 5, 2011. I am honored to have the privilege of representing such a fine university that provides an excellent education to its 2000 undergraduate and 300 graduate students.

Alfred University was founded on December 5, 1836 by a group of Seventh Day Baptists who moved to the foothills of the Allegheny Mountains. The University is named for the ninth-century ruler of southern England, Alfred the Great, whose devotion to learning and literature is a legacy that the institution upholds to this day.

Alfred's commitment to academics is nationally known, with the Inamori School of Engineering consistently ranked top in the country for its Masters of Science degrees. Additionally, students at Alfred can choose between over 40 undergraduate majors to study.

As an alum, I can personally attest to the excellence of this institution and its world class academics.

Please join me in congratulating Alfred University in reaching this incredible milestone as it celebrates its 175th Anniversary.

REMEMBER PEARL

**HON. JOE WILSON**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. WILSON of South Carolina. Mr. Speaker, Remember Pearl "A Date Which Will Live in Infamy" in solemn remembrance of Pearl Harbor on the 70th anniversary, December 7, 1941. The following poem was authored by Albert Carey Caswell, who is a Capitol Building tourguide noted for his thoughtful and heartfelt tours for Wounded Warriors and his devotion to servicemembers, military families, and veterans.

REMEMBER PEARL

(By Albert Carey Caswell)

In every country's history . . .  
There are but those defining moments that  
which so indeed!  
That which define there very destinies!  
As out into a future but plant such seeds!  
To so define her and give her all that she so  
needs!  
Remember Pearl . . .  
That day that will live in Infamy!  
As . . .  
For as a Nation, we must all so remember  
. . .  
That dark and dreary, very cold and bleak  
December . . .  
When . . .

When there, on one beautiful Sunday morning . . .  
 As America so lie all in harms way and in ruin, so all without warning . . .  
 As it was seventy years ago this day . . .  
 All in a cowards way!  
 When, so very unexpectedly!  
 As "A Date Which Will Live In Infamy" . . .  
 Was but a calm before the storm, as they . . .  
 As they so tried to take America's very heart away . . .  
 As lies now so all etched in Infamy . . .  
 War! Pearl Harbor! The Devil's Creed!  
 Feeding Evil's needs!  
 When, so many heroes died indeed!  
 Bless them all, God Speed!  
 All in one of our Nation's darkest of all days . . .  
 As a Nation so slept, had they . . .  
 And so wept upon that day . . .  
 As out across the world, such an Evil so unfurled . . .  
 As this darkness all towards them so crept, towards our little boys and girls . . .  
 Goodness . . . Evil . . . Darkness . . . Light . . .  
 Those brave hearts who evil must fight!  
 Who but bring their light!  
 Who Evil must fight!  
 Would this Evil stand?  
 As it was nearly eight on that morning, when each woman, child, and man!  
 All without such warning, when a sleeping giant so awoke!  
 As from out of all of this heartache and such hell,  
 and scenes of horror . . . as all in their fine hearts what would dwell!  
 Such a story to our children tell!  
 One of Such Faith and Courage . . .  
 As America's heart grew stronger, all in what their fine souls so nourished!  
 While, against all odds . . . such darkness, could not discourage . . .  
 As somehow America so found the hope and courage!  
 All in how they so heroically behaved, and so fought and died on that day . . .  
 As out across a Nation, The Mothers Cried . . .  
 As over one thousand were so wounded, and twenty-five hundred heroes on that day so died!  
 And, still America would not so lose hope . . . for we all somehow survived!  
 All because of what, all within their most magnificent hearts so lie!  
 As from out of all of those ashes, death and fury . . . as was invoked such a story!  
 Came a Pearl, a gem so formed of which to all the world so spoke!  
 A story, all about America's Courage and Glory . . . and yes so hope!  
 For rising from out of such hell, all of their fine hearts so chose to swell!  
 As 18 ships were lost or crippled on that day, names like USS Arizona come to mind who were so sent to their watery graves . . .  
 As the waters now above gently caress their souls,  
 as deep below in these ships their sacred bodies hold!  
 As upon our knees, with tears in eyes for all of them we now so pray!  
 As the bombs rained down upon Pearl on that day!  
 As almost two hundred planes were shot down or on run ways lie ruin to decay!  
 But, they say our Lord has his hand in it on that day . . .  
 Because, our carriers were far out to sea . . . far out of harms way!  
 Giving our Country Tis of Thee, that chance to come back from such Infamy!

And suddenly now as a Nation, we were all on the march . . .  
 all ahead full . . . as our hearts they could not so parch!  
 As we collectively so sent the word, "Over There . . . Send The Word To Beware!"  
 As this was the defining moment, when America So Set Out To Save The World!  
 So teach your children well, that out of Such Infamy and Such Hell . . .  
 Can come such light, Wherever Faith In Hearts So Dwells . . .  
 And that America's Heart, will always find a way to swell!  
 That in our darkest of all hours, our Faith will all so shower!  
 With The Strength To Over Evil, To So Tower!  
 So on this day upon your knees, remember all of these . . .  
 And, "That Day Which Will Live In Infamy!"  
 But, not forget what over Evil, Hearts of Faith and Courage Can So Achieve!  
 For something's time can not erase . . .  
 And for such things, Heaven so holds a place!  
 On This Day That Will Live . . . In Infamy!  
 Remember Pearl, Bless them all God Speed!

#### PERSONAL EXPLANATION

#### HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, December 12, 2011

Mr. NADLER. Mr. Speaker, I was unable to be in Washington, DC from December 5–8, 2011.

Had I been present, I would have voted "aye" on rollcall vote No. 892; "aye" on rollcall vote No. 893; "aye" on rollcall vote No. 894; "aye" on rollcall vote No. 895; "aye" on rollcall vote No. 896; "aye" on rollcall vote No. 897; "aye" on rollcall vote No. 898; "aye" on rollcall vote No. 899; "aye" on rollcall vote No. 900, the motion to recommit H.R. 10; "no" on rollcall vote No. 901, final passage of the Regulations in Need of Scrutiny (REINS) Act (H.R. 10); "no" on rollcall vote No. 902; "no" on rollcall vote No. 903, the rule providing for consideration of the Farm Dust Regulation Prevention Act of 2011 (H.R. 1633); "no" on rollcall vote No. 904, the Synthetic Drug Control Act; "aye" on rollcall vote No. 906; "aye" on rollcall vote No. 907; "aye" on rollcall vote No. 908; "aye" on rollcall vote No. 909; "aye" on rollcall vote No. 910; "aye" on rollcall vote No. 911, the motion to recommit H.R. 1633; and "no" on rollcall vote No. 912, final passage of the Farm Dust Regulation Prevention Act (H.R. 1633).

#### INTRODUCING THE INVESTING IN AMERICA'S SMALL BUSINESSES ACT OF 2011

#### HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, December 12, 2011

Mrs. MALONEY. Mr. Speaker, I rise today to introduce the Investing in America's Small Businesses Act of 2011, or the "Micro Biz" Bill.

This bill fills an important need in this country to advance the practice of microlending to small start ups, and because it allows Community Development Financial Institutions (CDFIs) to do more of the great work that they already do.

This bill will expand a vital source of seed money for entrepreneurs who don't have access to bank loans. The billion-dollar corporation that began in a dorm room or a garage is no urban myth, as the employees of Facebook and Hewlett-Packard can tell you, but the Great Recession has made it harder than ever for entrepreneurs to access credit. It's my hope that this "micro biz" bill will be a bridge not only to vital financing for entrepreneurs, but also to a brighter economic future for our country.

Indeed, we in Congress talk quite often about the need to create jobs. And even with the unemployment rate falling to 8.6% from a high of 9.2%, our economic recovery is slower than all of us would like. So the goal of my bill is to get to the heart of job creation, the small business—and more specifically, the small startup. And because I think this is a goal that even big business should share, a critical component of the bill is to foster public private partnerships. I have focused on CDFIs because they are on the ground every day financing projects, lending to small businesses, and engaging in economic development in underserved areas.

My bill will provide grants to CDFIs to create or enhance their loan-loss reserves so they can either begin to do micro lending or so they can do more of it. Loan-loss reserves are critical for institutions to be able to extend loans and for corporations to partner with them. Loan-loss reserves cover the institution in the case of a loan default but also allow the institution to be in the "first loss" position. So, if a larger institution or corporation wants to partner with them, the loan-loss reserve ensures that the CDFI, not the larger institution or corporation, will be on the hook should the loan default. I should note, though, that historically, loans in this category through the CDFI's have a very low loan default rate—just 3% in the first quarter of 2011. But the loan-loss reserve provides critical protections for CDFIs and their partners.

The bill also provides grants for technical assistance so that CDFIs can engage with small businesses and help them get off the ground. Loans made through this program must be under \$25,000 and the CDFI must be able to match the grant by 50%. Most importantly, for every dollar of public money, the CDFIs can leverage six dollars of private money.

I believe this bill is essential to helping CDFIs create new financial products and services that are appropriate and accessible for millions of American small businesses that do not have access to the financial mainstream.

Often we are talking about a young Steve Jobs who invents the first computer in his basement but needs startup capital to get it out there. Unfortunately most entrepreneurs aren't Steve Jobs and need loans to get their ideas off the ground. But if they do, they grow, they take on a partner and business takes off from there. Job creation flows from that first loan.

That is exactly what this bill is about and why I think it is so important. It is not a comprehensive solution, but it is a way to get money out there to small business and support job creation from the ground up.

I urge my colleagues to join me in supporting this important legislation.

#### IN HONOR OF JACK WINGATE

#### HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. BISHOP of Georgia. Mr. Speaker, it is with a heavy heart and feeling of fond remembrance that I rise today to pay tribute to a close personal friend, committed community leader, avid conservationist and one of America's most accomplished and legendary bass fishermen—the late Jack Wingate. Mr. Wingate, affectionately known as the “Sage of Seminole,” passed away on Thursday, December 8, 2011 at his residence in Recovery, Georgia.

A large gathering that consisted of family members, friends, colleagues and his expansive network of admiring fans, paid their respects to Mr. Wingate at his funeral service that was held on Monday, December 12, 2011, at Calvary Baptist Church. The funeral service was followed by an interment at Cool Springs Cemetery and Masonic graveside rites were provided by the Faceville Masonic Lodge number 487 along with military honors that were bestowed by the United States Navy.

Mr. Wingate, an immensely popular and universally respected public figure in the Decatur County, Georgia community for several decades, was born on September 1, 1929 in Faceville, Georgia. The son of William Paul Wingate and Myrtle Bates Wingate, he was a 1947 graduate of Faceville High School and was a Korean War veteran.

After honorably serving in the military during the Korean conflict, Mr. Wingate returned to his home state of Georgia and founded the famous Lunker Lodge on Lake Seminole in Bainbridge, Georgia. This nationally renowned lodge has hosted several prestigious fishing tournaments and has earned a reputation as a favored compound for expert bass fishermen and notable celebrities. Jack also operated the Wingate's Fishing Camp for Boys at Lunker Lodge and introduced many young men and future expert anglers to the outdoors for 33 years.

Along with operating the Lunker Lodge, Jack had a very successful career as a media commentator and columnist. Over several decades he served as a columnist for the Bainbridge Post-Searchlight newspaper and frequently made appearances on local TV and radio stations throughout Southwest Georgia to discuss current events, tell fishing stories, and provide in-depth updates on conditions at Lake Seminole.

Jack Wingate achieved numerous successes in his life, but none of this would have been possible without the grace of God and his loving wife of 59 years, Joyce E. Wingate. Jack was also the proud father of three daughters—Katherine W. Kent and her hus-

band, Lamar, of Chattahoochee, Florida; Peggy W. MacDonald and her husband, Wayne, of Macon, Georgia; and Jacquie Wingate of Recovery, Georgia. Jack is also survived by two beloved grandchildren.

Mr. Speaker, I ask my colleagues to join me today in paying tribute to Mr. Jack Wingate for being an outstanding ambassador and unyielding supporter of communities throughout Southwest Georgia and for all the outstanding work he did on behalf of working families throughout our United States of America.

#### THE AFFIRMATION OF APOSTLE DR. JOHN H. BOYD, SR.

#### HON. GREGORY W. MEEKS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Mr. MEEKS. Mr. Speaker, I ask that the House of Representatives recognize the Affirmation of Dr. John Haywood Boyd, Sr. as an Apostle of the New Greater Bethel Ministries, located in Cambria Heights and Queens Village with the Sixth Congressional District of New York. Dr. Boyd is a well-known and much-admired figure in clerical and civic circles in southeast Queens. He began his ministry in 1972 in a small canvas tent at the intersection of Francis Lewis and Linden Boulevards in Cambria Heights.

From that site New Greater Bethel Ministries grew in number, influence, and impact, having established a food pantry and soup kitchen which fed hundreds of homeless individuals and families. Under Pastor Boyd's guidance, New Greater Bethel Ministries established a prison ministry to tend to the spiritual needs of incarcerated men and women. Pastor Boyd himself did outstanding work with the Inmate Community Improvement Program for which he received a certificate of recognition from the superintendent of the Queensboro Correctional Facility.

In 1993, the New Greater Bethel Ministries expanded with the addition of a location on Jamaica Avenue in Queens Village. Where rundown structures once stood, Dr. Boyd built a 1500 seat worship and community service facility, complete with a Christian Literature and Media Center, a digital recording studio, a television studio, and a drama center. Later, Dr. Boyd opened the K-12 Bethel Christian Learning Academy and the New Greater Bethel Bible Institute.

Despite episodes of illness and having now reached 85 years of age, Dr. Boyd still provides dynamic leadership to New Greater Bethel Ministries, ensuring that the church to which he had devoted his life continues to minister to the spiritual and material needs of several thousand members of its congregation as well as thousands of residents in the surrounding communities. Dr. Boyd studied at the Manhattan Bible Institute and earned his doctor of divinity from the United Christian College of New York. Over the course of his ministry he has received numerous award commendations from federal, state, and municipal elected officials, clergy, religious organizations, and community groups. He has been named “Man

of the Year” by The New York Christian Times.

Dr. Boyd has been married to his wife, Mother Margie Boyd, for over 60 years. He has six children and numerous grandchildren and great grandchildren.

On December 10, 2011, over 1,000 congregants, community residents, and guests attended the ceremony at which Dr. John Haywood Boyd, Sr. was affirmed as an Apostle of the New Greater Bethel Ministries.

#### RECOGNIZING TERESA WOODRUFF, PH.D., AND THE WOMEN'S HEALTH SCIENCE PROGRAM FOR HIGH SCHOOL GIRLS AT NORTH- WESTERN UNIVERSITY

#### HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Monday, December 12, 2011*

Ms. SCHAKOWSKY. Mr. Speaker, I rise today to recognize Dr. Teresa Woodruff and the Women's Health Science Program for High School Girls, developed by the Institute for Women's Health Research at Northwestern University Feinberg School of Medicine, on their receipt of the Presidential Award for Excellence in Science, Mathematics and Engineering Mentoring.

The Women's Health Science Program for High School Girls targets primarily African American and Latina girls from disadvantaged backgrounds in Chicago. The young women have the opportunity to study at four different Northwestern academies: cardiology, physical science, infectious disease, and oncofertility.

There is a tremendous opportunity for women to make a difference in improving America's innovative capacity and global competitiveness. A study from last year from the American Association of University Women (AAUW) entitled, “Why So Few?” underscores the point that attracting and retaining more women in the STEM workforce will maximize innovation, creativity, and competitiveness.

The AAUW study suggests that there are a number of ways to cultivate young women's interest and persistence in science and engineering, including mentoring. As Dr. Woodruff and the Women's Health Science Program prove, mentoring plays a crucial role in the academic and personal development of students—especially for young women and underrepresented minorities—who choose to study science and engineering. Of the 90 students who participated in the Women's Health Science Program, 18 are seniors in high school, 70 attend college, and 2 have received undergraduate degrees. Of those attending college, 51 percent are pursuing science majors.

We stand on the precipice of major discoveries and advancements. We need more women and minorities in STEM-related fields to ensure that our workforce and the solutions they develop to solve the problems of today—and tomorrow—are designed better and designed with everyone in mind.

There is a place for initiatives that motivate students to pursue STEM throughout their educational careers. With targeted action—like

that of Dr. Woodruff and the Women's Health Science Program—we can remain global leaders in this vital field.

Again, I want to congratulate Dr. Woodruff for this well-deserved award in recognition of her outstanding work to provide opportunities for girls and women to improve our community and world.

#### SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, December 13, 2011 may be found in the Daily Digest of today's RECORD.

#### MEETINGS SCHEDULED DECEMBER 14

9:30 a.m.

Banking, Housing, and Urban Affairs  
Securities, Insurance and Investment Subcommittee  
To hold hearings to examine investor risks in capital raising.

SD-538

9:45 a.m.

Finance  
Energy, Natural Resources, and Infrastructure Subcommittee  
To hold hearings to examine alternative energy tax incentives, focusing on the effect of short-term extensions on alternative technology investment, domestic manufacturing, and jobs.

SD-215

10 a.m.

Commerce, Science, and Transportation  
Business meeting to consider S. 1449, to authorize the appropriation of funds for highway safety programs and for other purposes, S. 1950, to amend title 49, United States Code, to improve commercial motor vehicle safety and reduce commercial motor vehicle-related accidents and fatalities, to authorize the Federal Motor Carrier Safety Administration, S. 1952, to improve hazardous materials transportation safety and for other purposes, S. 1953, to reauthorize the Research and Innovative Technology Administration, to improve transportation research and development, and a promotion list in the National Oceanic and Atmospheric Administration.

SR-253

Foreign Relations

European Affairs Subcommittee

To hold hearings to examine the state of human rights and rule of law in Russia, focusing on United States policy options.

SD-419

Health, Education, Labor, and Pensions

Business meeting to consider S. 1855, to amend the Public Health Service Act to reauthorize various programs under the Pandemic and All-Hazards Preparedness Act, and the nominations of Wendy M. Spencer, of Florida, to be Chief Executive Officer of the Corporation for National and Community Service, Deepa Gupta, of Illinois, to be a Member of the National Council on the Arts, Christopher Merrill, of Iowa, to be a Member of the National Council on the Humanities, Stephanie Orlando, of New York, and Gary Blumenthal, of Massachusetts, both to be a Member of the National Council on Disability, and a nomination list in the Public Health Service.

SD-430

Homeland Security and Governmental Affairs

Business meeting to consider an original bill entitled, "Stop Trading on Congressional Knowledge Act of 2012", S. 1515, to permit certain members of the United States Secret Service and certain members of the United States Secret Service Uniformed Division who were appointed in 1984, 1985, or 1986 to elect to be covered under the District of Columbia Police and Firefighter Retirement and Disability System in the same manner as members appointed prior to 1984, H.R. 2297, to promote the development of the Southwest waterfront in the District of Columbia, H.R. 789, to designate the facility of the United States Postal Service located at 20 Main Street in Little Ferry, New Jersey, as the "Sergeant Matthew J. Fenton Post Office", H.R. 2422, to designate the facility of the United States Postal Service located at 45 Bay Street, Suite 2, in Staten Island, New York, as the "Sergeant Angel Mendez Post Office", and the nomination of Roslyn Ann Mazer, of Maryland, to be Inspector General, Department of Homeland Security.

SD-342

Judiciary

To hold an oversight hearing to examine the Federal Bureau of Investigation.

SD-226

#### DECEMBER 15

9:30 a.m.

Energy and Natural Resources

Business meeting to consider S. 1108, to provide local communities with tools to make solar permitting more efficient, S. 1142, to promote the mapping and development of the United States geothermal resources by establishing a direct loan program for high risk geothermal exploration wells, to amend the Energy Independence and Security Act of 2007 to improve geothermal energy technology and demonstrate the use of geothermal energy in large scale thermal applications, S. 1149, to expand geothermal production, S. 1160, to improve the administration of the Department of Energy, and the nomination of Arunava Majumdar, of Cali-

fornia, to be Under Secretary of Energy.

SD-366

10 a.m.

Environment and Public Works

Clean Air and Nuclear Safety Subcommittee

To hold joint hearings to examine the Nuclear Regulatory Commission's (NRC) near-term task force recommendations for enhancing reactor safety in the 21st century.

SD-406

Health, Education, Labor, and Pensions

To hold hearings to examine prescription drug shortages, focusing on examining a public health concern and potential solutions.

SD-106

Judiciary

Business meeting to consider S. 1821, to prevent the termination of the temporary office of bankruptcy judges in certain judicial districts, S. 1236, to reduce the trafficking of drugs and to prevent human smuggling across the Southwest Border by deterring the construction and use of border tunnels, and the nomination of Brian C. Wimes, to be United States District Judge for the Eastern and Western Districts of Missouri.

SD-226

10:30 a.m.

Agriculture, Nutrition, and Forestry

To hold hearings to examine certain nominations.

SR-328A

Commerce, Science, and Transportation

Oceans, Atmosphere, Fisheries, and Coast Guard Subcommittee

To hold hearings to examine environmental risks of genetically engineered fish.

SR-253

11 a.m.

Foreign Relations

Western Hemisphere, Peace Corps and Global Narcotics Affairs Subcommittee

To hold hearings to examine the United States-Caribbean shared security partnership, focusing on responding to the growth of trafficking narcotics in the Caribbean.

SD-419

2:15 p.m.

Foreign Relations

African Affairs Subcommittee

To hold hearings to examine improving governance in the Democratic Republic of Congo.

SD-419

2:30 p.m.

Aging

To hold hearings to examine implementing the "Physician Payment Sunshine Act".

SD-562

#### POSTPONEMENTS

##### DECEMBER 14

10 a.m.

Veterans' Affairs

To hold hearings to examine the nominations of Margaret Bartley, of Maryland, Coral Wong Pietsch, of Hawaii, and Gloria Wilson Shelton, of Maryland, all to be a Judge of the United States Court of Appeals for Veterans Claims.

SR-418

## SENATE—Tuesday, December 13, 2011

The Senate met at 10 a.m. and was called to order by the Honorable JEANNE SHAHEEN, a Senator from the State of New Hampshire.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Almighty God, the center of our joy, guide our lawmakers through this day by Your higher wisdom. Give them the clarity of thinking needed to solve the complex problems of our time. As they depend on Your words and guidance, give them peace that comes from knowing they are instruments of Your glory. Lord, help them never to be silent in the presence of injustice or impurity. Replace fear with faith, falsehood with truth, and greed with justice.

We pray in Your holy Name. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable JEANNE SHAHEEN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. INOUE).

The assistant legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, December 13, 2011.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JEANNE SHAHEEN, a Senator from the State of New Hampshire, to perform the duties of the Chair.

DANIEL K. INOUE,  
President pro tempore.

Mrs. SHAHEEN thereupon assumed the chair as Acting President pro tempore.

### RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

### SCHEDULE

Mr. REID. Madam President, following leader remarks, the Senate will

be in a period of morning business for 2 hours. The Republicans will control the first half and the majority will control the final half.

Following morning business, the Senate will begin consideration of S.J. Res. 10 and S.J. Res. 24, both resolutions regarding balanced budget amendments. The Republican leader and I, yesterday, arrived at an agreement that we would have 8 hours of debate on this matter, and I think it should be a good debate. People have been looking forward to this debate for some time. Some are more interested than others, and this should give them ample time to say whatever they feel about this issue that is ripe for debate in the Senate and certainly the votes we will have tomorrow morning.

The Senate will recess this afternoon from 12:30 p.m. to 2:15 p.m. for the weekly caucus meetings.

### MEASURE PLACED ON THE CALENDAR—H.R. 1633

Mr. REID. Madam President, H.R. 1633 is at the desk and due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will read the bill by title for the second time.

The assistant legislative clerk read as follows:

A bill (H.R. 1633) to establish a temporary prohibition against revising any national ambient air quality standard applicable to coarse particulate matter, to limit Federal regulation of nuisance dust in areas in which such dust is regulated under State, tribal, or local law, and for other purposes.

Mr. REID. Madam President, I object to any further proceedings on this matter at this time.

The ACTING PRESIDENT pro tempore. Objection having been heard, the bill will be placed on the calendar under rule XIV.

### WORKING TOGETHER

Mr. REID. Madam President, in the last month, Republican leaders have repeated this mantra over and over: We support a payroll tax cut for working families. But we have not seen any proof of this yet. It has only been talk.

Senate Republicans have twice voted down their own payroll tax proposal, and House Republicans were unable to bring their plan to a vote for weeks. We understand they are going to have a run at that tonight.

I have served in the House of Representatives. When I served in the House of Representatives, no one would ever consider pushing something

through with a majority of the majority. When I served there, Bob Michel was the Republican leader, Tip O'Neill was the Speaker, Jim Wright was the majority leader and the Speaker, and they always worked together on a bipartisan basis to get legislation passed. It is only a new thing that now the Republicans are saying: We are not going to pass anything unless we can do it on our own. That is unfortunate.

I spoke to the Speaker yesterday. I have the highest regard for him. I consider him a friend. But I said to him, as seriously as I could, we are not going to finish the work for our country this year unless we work together. You cannot pass anything in the House unless you get Democratic votes because anything you pass with strictly Republican votes fails over here; and over here we cannot pass anything unless we get Republican votes. It is a fact of life.

We have issues we have to complete this year. So we have to understand, as I explained to the Speaker yesterday, we are going to have to do this together. We cannot magically say 53 Democrats are going to pass something here. In the House, even though the Republicans have a majority, they know we have a bicameral legislature, and they have to get something passed over here also.

I am very disappointed in what the Speaker has done to get a vote over there that he thinks will pass. He keeps adding ideological candy to the proposal. Last week, they were supposed to have a vote. At that time, they could not get the Republican votes to do it. I suggested they go to either the former Speaker, NANCY PELOSI, or STENY HOYER, the minority leader over there—I do not know the exact title—but the two leaders, PELOSI and HOYER, and the suggestion was turned down.

This ideological candy they have added to this bill to get rebellious, rank-and-file Republicans on board is not going to sell over here.

They recently added a provision to fast-track the controversial pipeline proposal attractive to the tea party, which is not opposed by President Obama. It is not opposed by him. He is saying this is such a big deal that, for example, the State of Nebraska feels it would—unless there are some major changes made—badly damage that most important aquifer we have in that part of the country. In fact, it is probably the biggest, most important one we have anywhere in the country.

So as was announced yesterday by the Secretary of State, she said: If the

Republicans are trying to push this on me, I cannot make a decision in 3 months. That is what the legislation calls for. If they do that, I will have to turn it down. The Secretary of State has said that in writing.

In effect, as some have said, what they are trying to do is kill the hostage. The hostage is the Keystone Pipeline. If they push this through, it is bound and doomed to failure.

But to tell everyone where they are coming from—they, the Republicans—JIM JORDAN, who is a Republican Congressman, said about the Keystone Pipeline:

Frankly, the fact that the President doesn't like it makes me like it even more.

I repeat, the President has not said he does not like it. But as a result of what has happened in Nebraska and other places along that pipeline, there are some major studies that need to go forward.

President Obama and the Democrats in the Senate have already declared the House legislation dead on arrival. Yet—after weeks of delay—Republicans are going to vote on it tonight. They are wasting time catering to the tea party folks over there, when they should be working with us on a bipartisan package that can pass both Houses. We have offered solutions—serious, good-faith proposals with bipartisan support.

If Republicans continue to block these reasonable plans to cut taxes for 160 million workers, there, of course, will be consequences. Middle-class Americans will notice when they open their paychecks in January they will have less money to spend, and they will have Republicans in Congress to blame—no one else.

Also, for the third time in 2 weeks, Senate Republicans have filibustered a qualified nominee, one of the President's nominees.

Last night, they blocked confirmation of Mari Aponte to serve as Ambassador to El Salvador—the job she already has. She has done it well for 15 months. She has finalized an important international anticrime agreement with the people of El Salvador and forged a strong partnership with El Salvador in many different areas during her time as Ambassador.

I hope the Republicans will come to their senses before her term expires at the end of the year and approve this good woman.

I had a Republican Senator come to me after the vote and say he believed Republicans wanted to vote for her, and he was glad I moved to reconsider the vote. I hope that, in fact, is the case.

Last week, Republicans blocked the nomination of Richard Cordray to serve as head of the Consumer Financial Protection Bureau—the Consumer Financial Protection Bureau. Mr. Cordray has a record of protecting consumers from predatory lenders.

Two days before that, Republicans blocked the nomination of Caitlin Halligan to be on the Court of Appeals for the D.C. Circuit. She is an exceptionally well-qualified person, with a great resume, an exceptional legal mind. She was blocked.

All three nominees were qualified. All three had bipartisan support. All three were committed, enthusiastic public servants. Yet Republicans opposed their nominations for one purely partisan reason: to deal a blow to President Obama.

This kind of Republican obstructionism has, unfortunately, become very commonplace. But it also has consequences, and Republicans aiming to hurt the President have once again harmed our country instead.

---

#### RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

---

#### A BALANCED APPROACH

Mr. MCCONNELL. Madam President, today the House of Representatives will vote on a bill that extends the temporary payroll tax cut as well as unemployment insurance and which will not add a dime to the Federal deficit. In other words, the House bill would do both of the things the President and Senate Democrats have described as their top legislative priorities before the close of this year.

So it was surprising, to say the least, to read this morning that President Obama and my friend, the majority leader, are now plotting to block this very legislation—even to the point of forcing a Government shutdown—over the inclusion of a job-creating measure that the President thinks will complicate his reelection chances next year.

That is what is happening in Washington this week, and the American people need to know about it. So let me repeat what is unfolding right now in the Capitol.

Yesterday, the members of the Senate Appropriations Committee—Democrats and Republicans alike—agreed to a spending bill that would fund the government through the end of the fiscal year; that is, next September 30. Today, Republicans in the House will consider a bill that contains the President's top priorities: an extension of the payroll tax cut and unemployment insurance.

But here is the problem: The House bill also includes a provision to accelerate construction of the Keystone XL Pipeline, a project that has been described as the biggest shovel-ready project in America. Evidently, the President does not want this project approved before his election next No-

vember—because a small faction of very liberal voters he is counting on to get reelected do not like the pipeline.

We have already had 3 years of environmental studies. This project was not only ready to go from an environmental point of view, it is shovel ready. It will produce jobs almost immediately, as soon as the President signs off on it.

Here is a project that would create tens of thousands of jobs, as I indicated, right away. It also would not cost the taxpayers a dime to build. It is being built by the private sector. It would reduce the share of energy we import from unfriendly countries overseas, and it is a project which everybody from labor unions—labor unions—to the U.S. Chamber of Commerce says they support because it would create tens of thousands of jobs right away.

The Teamsters support getting the pipeline started right now. The AFL-CIO supports getting the pipeline started right now. This is the kind of project the Democrats themselves, including the President, have been saying all year they want.

But the Presidential campaign seems to be getting in the way, to the point that my friend, the majority leader, now says he is willing to hold up a bipartisan bill to fund our troops, border security, and other Federal responsibilities rather than letting the President decide if this pipeline project should move forward.

Let me say that again. The President and the Democratic majority leader, my friend, HARRY REID, are now saying they would rather shut down the government than allow this job-creating legislation to become law. That is what would happen if they succeed in blocking this bipartisan funding bill from coming to the floor for a vote.

House Republicans are giving the President everything he asked for today. They just think that instead of simply providing more relief to those who continue to struggle in this economy, we should also help prevent future job loss and incentivize the creation of new private sector jobs, all at the same time.

That is what the House bill does. It goes beyond government benefits—beyond government benefits—and takes us a step toward addressing the jobs crisis at hand.

Most people would view this proposal as evidence that the two parties are putting their best ideas on the table and addressing both sides of this jobs crisis—the relief side and the incentive side. Most people would call it a balanced approach.

Unfortunately, the President does not seem to be happy these days unless he has an issue over which to divide us. If the Republicans are proposing it, he is against it, regardless of how many job losses it prevents or how many private sector jobs it would help create, and he is not even trying to hide it.

The majority leader signaled yesterday that he and the President are so determined to turn even the most bipartisan job-creating legislation into a political issue that he will ask his Members to hold off signing the government funding legislation—that they have already agreed to on a bipartisan basis—just to hand the President what they view as a political victory this week.

This is not just irresponsible, it is reckless. The House is about to pass a bill we believe—certainly going to consider today—would help working Americans by extending the temporary payroll tax cut, help unemployed Americans by extending unemployment insurance, and which would help Americans looking for work by accelerating the construction of the single biggest shovel-ready project in America. This is the biggest construction project in America, ready to go. It only needs a signoff from the President of the United States.

It deserves to pass with broad bipartisan support. They had a vote on that earlier this year in the House. Forty-seven House Democrats voted to get this project started. So I would suggest that our friends put the political games aside and give the American people the certainty and the jobs they deserve. Take up the House bill, pass it right here in the Senate, and send it to the President for a signature without theatrics and without delay.

I yield the floor.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will be in a period of morning business for 2 hours with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the final half.

The Senator from Maine.

Ms. SNOWE. Madam President, I ask unanimous consent to be recognized for 20 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### BALANCED BUDGET AMENDMENT

Ms. SNOWE. Madam President, this morning I rise to speak to the question the Senate will be focused on over the next day or so regarding a constitutional amendment to balance the budget. I do not think there is any doubt

that we have to reverse this fiscal recklessness, not just for our time but for all time.

I have consistently and vehemently championed a balanced budgeted amendment for the past three decades in both the House and the Senate to prevent precisely the kind of fiscal quagmire we are enmeshed in today, with our Federal Government borrowing an astonishing 40 cents of every dollar we spend.

In my 30 years in Congress, I have co-sponsored a balanced budget amendment 18 times. I spoke or made statements in favor of it 35 times. So I have had some experience in this battle to get the Federal Government to balance revenues with expenditures.

I learned that without a self-restraining mechanism, the debt over time only goes in one direction—up. In fact, since 1981 we have debated a constitutional amendment to balance the budget in the Senate on five different occasions and on four occasions in the House of Representatives through 1997. In the meantime, we have seen what has happened with the mounting debt.

The impending vote to amend the Constitution represents an unambiguous choice between changing business-as-usual in Washington or embracing the status quo that we can no longer afford, that has brought this country to the edge of our fiscal chasm; the status quo that has led to more than 3 years without passing a Federal budget; the status quo that has brought us the first ever downgrade of America's sterling AAA credit rating; the status quo that was exemplified by the supercommittee's inability to agree on \$1.2 trillion in debt reduction over the next 10 years.

Now we have two competing balanced budget proposals pending before the Senate in a partisan duel that has become regrettably all too predictable in Washington. Our Nation is on the edge of a fiscal cliff and 20 million Americans are unemployed or underemployed. There should not be two competing proposals on an issue as critical as our Nation's fiscal health and survival.

We have been in legislative session for 86 days since July 1st, yet we can only consign about 8 hours or so to the idea on debating the mighty question of a constitutional amendment to balance the budget.

Prior consideration in the Senate, whether it was in 1982—it was 11 days; in 1986 it was 8 days; in 1995 it was more than a month; in 1997 it was another month. We are giving 8 hours to debate two competing proposals rather than addressing the differences through the amendment process so we can ultimately resolve the question once and for all of whether we should have a constitutional amendment to balance the budget.

Amending is consistent with the tradition and practice of the Senate. Yet,

regrettably, we will be denied that opportunity which is unprecedented, frankly, on this question. It is a question that clearly deserves much greater deference than is being accorded in the Senate.

Thomas Jefferson once wrote,

I place economy among the first and most important republican virtues.

And, yes, that is republican with a small "r."

He went on to say,

Public debt is the greatest of dangers to be feared.

He wrote in 1798:

I wish it were possible to obtain a single amendment to our Constitution . . . I mean an additional article taking from the Federal Government the power of borrowing.

Jefferson understood the perils of borrowing. We are not even going as far as Thomas Jefferson was advocating. But he also recognized the danger of debt and deficits do matter.

He said:

One generation should not pay for the debts of another no more than we should pay the debts of a foreign nation.

Jefferson could not have been more right. We have now entered what some economists have labeled an economic danger zone because our gross national debt is approaching 100 percent of gross domestic product. Our outstanding Federal debt exceeds the size of entire economy. There is no question that high levels of debt have stunted economic growth, costing millions of American jobs at a time when we are experiencing the longest period of long-term unemployment and the worst postrecession recovery in the history of this country, the second worst recession in 100 years.

Just as disturbingly, the government currently pays \$200 billion annually in interest to foreign countries—to foreign countries that hold our Treasury bonds, countries such as China and Russia. The cost of the net increase alone in interest will more than triple in the next 10 years by the year 2021. That is just the net interest that we will pay to foreign countries because of our bonded indebtedness.

In fact, the Congressional Budget Office's most recent long-term outlook states that by 2035 interest costs on our Nation's debt will reach 9 percent of the gross domestic product, more than the United States currently spends on Social Security or Medicare. CBO warned that growing debt would increase the probability of a sudden fiscal crisis during which investors would lose confidence in the government's ability to manage its budget and government would thereby lose its ability to borrow at affordable rates.

That is exactly what is happening in Europe. It could also happen here at any moment in time. It could be a small item that ultimately precipitates and triggers a debt crisis, that puts this economy in jeopardy and

peril as we experienced so dramatically in America in 2008. We do not know what all could ignite this explosive growth in debt.

If interest rates were just 1 percentage point higher per year over the next decade, the deficit would balloon by \$1.3 trillion from increased costs. To put these numbers in perspective, we have to look at the past. It took our Nation 200 years to accumulate its first trillion-dollar debt. Yet in just the past 3 years alone the national debt has soared by nearly \$5 trillion.

Let's just repeat that for a moment. In the first 200 years we accumulated \$1 trillion in debt. In the last 3 years we have accumulated \$5 trillion.

So when the President stated last summer that we do not need a constitutional amendment to do our jobs, well, not exactly. If that were true, if such an amendment were not required for us to do our jobs then why do we find ourselves wallowing in this economic morass? If Congress actually possessed the capacity to forestall the skyrocketing debt of its own volition, why are we mired in a major debt crisis? Why are the CBO and other economic forecasters reiterating and underscoring the negative outlook for the future if we do not grapple with this debt?

The facts speak for themselves. In 1986 when the Senate failed by one vote to pass a balanced budget amendment, the national debt topped \$2.1 trillion. In 1995, the Senate failed again by one vote to pass a balanced budget amendment, and the national debt at that time was \$4.8 trillion. In 1997, when the Senate yet again failed to pass it by one vote, the national debt was \$5.3 trillion, a number we found staggering. But, apparently, it was not staggering enough, as the abysmal track record following 1997 dramatically demonstrates. In 1999, just 2 years after that fateful vote, the debt rose to \$5.6 trillion. By 2009 it rose to \$11 trillion, and last year to \$13.5 trillion. Today, it is at \$15.1 trillion. The bottom line is that from 1997 to 2011 the national debt has almost tripled.

In 1992, when I was serving in the House of Representatives, we debated a constitutional amendment to balance the budget. During one particular balanced budgeted debate on the floor, I said we have no way of knowing how bad things might get if we continue without a constitutional amendment to balance the budget.

Unfortunately, we can only speculate where we would be today had we passed that balanced budget amendment some 14 years ago. But we can no longer afford to speculate about where we will be with respect to our debt 14 years from now.

Let's not be confused as we hear all of the usual diversionary excuses why this amendment should not pass. I have heard it time and time again over the

last three decades, as I have indicated. Those excuses have been reiterated time and again in the nine times it has been considered between the House and the Senate over the last three decades.

I have heard how a balanced budget amendment will be overly restrictive, spending reductions too substantial, and that other measures would be equally effective without changing our Constitution.

Let's not be distracted by the siren's call with the masterful art of deflection. As I recall, during the course of that debate in 1992 in the House of Representatives, I was challenged by a colleague when he asked:

What if appropriations exceed estimated revenue? What if the President and Congress underestimate the amount of Federal revenues in a fiscal year? What if it requires budgetary adjustments as a result of a contracting economy, or inaccurate estimates?

Well, I said at the time, as I do now: welcome to the real world of families and businesses in America that are trying to project their costs every day—current costs, future costs, whether they will have a job, how much they will get paid, and how much health insurance will cost—not to mention the 49 States that have adopted a balanced budget requirement. That is the real world, but apparently not in the Senate and the House of Representatives. It is one we have long ignored to our fiscal peril.

These are issues that day in and day out the State capitals have to deal with, as the Chair knows, being a former Governor of New Hampshire. My husband was a former Governor of Maine, and I know that States have to make tough choices and establish priorities, and they have to understand what is coming in and what is going out. Why should the Federal Government be any different?

So now we have a fiscal gap here in Washington where there not only is a disparity between revenues and expenditures, but there is also a shameful imbalance between the trust people place in us as elected officials and the responsibilities we must carry out if we are to demonstrate the worthiness of that trust.

Absent a permanent mechanism that compels and forces the Congress to set and fulfill its fiscal priorities, we will blithely continue in our wayward practices. Obviously, we only have to learn from the past to understand the future.

Rest assured that we have already tried every statutory mechanism possible. Yet nothing we have implemented has withstood the test of time, circumvention, or clever gimmickry to bind both the House and Senate to provide continuity from Congress to Congress—nothing.

We have witnessed the positive effects of statutory limits with past budget enforcement mechanisms, such

as the Gramm-Rudman-Hollings Act, the 1990 Budget Enforcement Act, and the 1997 Balanced Budget Act that combined saved upward of \$700 billion. Unfortunately, we allowed them to lapse because we could do it statutorily. We allowed these efforts to wither on the legislative vine. You could not do that with a constitutional amendment.

When we talk about a deficit reduction package for the future, anything we implement today could be undone by tomorrow or by the next Congress if we do not have the binding effect of a constitutional amendment. That is the big difference. Congress does not want its hands tied. That is what this is all about—not tying Congress's hands, irrespective of the impact on the mountains of debt.

We have squandered historic opportunities. I tried for a legislative trigger back in 2001 when we had projected surpluses to pay down the national debt and invest in Social Security and Medicare, but it was dismissed and derided. Senator Bayh and I tried to get that through, but people were not thinking about the future. I had seen from our experience in the past and I knew we had to protect the surpluses we had and invest them in the future. That didn't happen. People want to spend without restraint.

As we sadly know, the promises to get a handle on budget and deficits were empty which is why we have not had budgets in the last 3 years—or why we passed only one appropriations bill last year for the first time since the 1974 Budget Act. If you have no discipline in the budget process, you have no discipline in spending and a mounting debt. That is the net effect of what has happened over the last three decades.

The reality could not be more stark about the necessity for a balanced budget amendment. Yes, we do need one if we are ever to ensure fiscal balance and restraint.

Finally, even Vice President BIDEN spoke to this issue in 1995, expressing the same frustration I do today. He said:

There is nothing left to try except the balanced budget amendment.

That is where we are. And I still do not understand why we have two competing amendments now. It is not as if we don't have differences, but why not amend one legislation? That is what the Senate is all about. Regrettably, it has become another cynical process in the Senate, an all-or-nothing proposition, a zero sum game, either your way or no way.

We have two separate votes on two separate measures, creating a parallel universe with two different balanced budget amendments but zero opportunity to reconcile our differences. We know what the strategy is. It is called lip service. It is to allow everybody to

say they voted for a balanced budget amendment, while the armies of the status quo employ every weapon to ensure it does not happen.

I regret that we are not treating this issue with the deference it deserves—an issue that 70 to 80 percent of the American people support at a time in which the U.S. Congress has an approval rating of 9 to 12 percent—it varies from day to day. We should be embarrassed about how this reflects on the institution because we are not focusing on the issues that matter to people in their daily lives. It matters because they understand that we are shackling future generations.

We can either bring disrepute upon ourselves by continuing to mortgage our future to cover the fiscal offenses of today or we can rise to the occasion and meet our moral responsibility and bequeath the generation to come a nation unencumbered by the shackles of perpetual debt. The decision is ours and history awaits our answer.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Texas.

Mr. CORNYN. I inquire of the Chair, how much time remains on our side for morning business?

The ACTING PRESIDENT pro tempore. There is 39½ minutes remaining.

Mr. CORNYN. I am sure I won't need all that time, but I ask unanimous consent to speak for as much time as I may use of that time.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CORNYN. Madam President, I express my appreciation to the Senator from Maine for her leadership on the balanced budget amendment issue for so long now. This is a fight that people have fought for so long that some have become very cynical about whether we will actually ever act in a responsible fashion to deal with the runaway debt our country continues to accrue where about 40 cents out of every dollar being spent today is out of borrowed money.

We know this is not just a theoretical problem, it is very real. When we look at what is happening in Europe, with countries engaged in sovereign debt crises that have made promises they cannot afford to keep, the day of reckoning has come to Europe. The day of reckoning for the United States may not be far behind.

I think it is really important to lay a few foundational points. Let me start with the preface of the Constitution of the United States of America because what we are talking about doing is amending the Constitution—something we have only done 27 times since the founding of our country. But the Constitution of the United States starts this way:

We the people of the United States of America, in order to form a more perfect union, establish justice, ensure domestic

tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

It is important to recognize that this is a constitution created by the American people. This is not something handed down from on high that we cannot change or should not change. This is our Constitution. We own it. It is within our power to amend the Constitution when circumstances make it prudent for us to do so.

Let me also refer to article V of the U.S. Constitution. This is the basis upon which we are seeking to amend the Constitution by this vote tomorrow. Article V says to Congress:

When two-thirds of both Houses shall deem it necessary, shall propose amendments to the Constitution.

And then should the joint resolution pass with two-thirds the vote in both Houses, then it goes to the States, where 38 States—three-quarters of the States—would have to ratify that amendment before it would become the fundamental law of the land.

There is another provision in article V that I will talk about in a minute which allows the States, in the face of inaction by Congress, to ask for a constitutional convention to be established for that purpose. As I said, I will save that for a later time.

Madam President, all 47 Members on this side have cosponsored S.J. Res. 10. But this doesn't have to be a partisan endeavor. Indeed, the last time, in 1997, when there was a vote on a constitutional amendment—and it failed by 1 vote in the Senate—11 Democrats joined Republicans to come within 1 vote of passing that joint resolution, which had already passed the House of Representatives. So this doesn't have to be and indeed should not be a partisan undertaking.

Let me remind my colleagues, what did our financial situation look like in 1997? Our deficit was \$107 billion—that is right, \$107 billion. Today, it is roughly \$1.3 trillion. Our national debt, which recently broke the \$15 trillion mark, back then was roughly \$5 trillion. So we have seen almost a threefold increase in our national debt since 1997, when we came within one vote of passing a constitutional amendment and sending it to the States.

We know that throughout American history, our government has faced fiscal challenges. Our Founders had their own when they had to amend the Articles of Confederation to provide for a constitution that allowed us to deal with our financial problems. But what are the differences between those faced by the founding generation and those we face today? Back then, government was the solution to the problem. Today, the size and growth of government is the problem. The American people understand the difference, clearly.

As I said, the American people are absolutely repulsed by the idea that Congress continues to spend 40 cents out of every dollar that is spent in borrowed money. I know people like to say this is a problem for the next generation and beyond, but all you have to do is look across the Atlantic Ocean to what is happening in Europe today, and you realize, no, this is our problem, in this generation now, in Europe. The ramifications could easily extend to the United States and create a recession, if not worse, as we go through a sovereign debt crisis.

The American people also understand this huge debt we bear is a job killer because it dampens economic growth. Only by the private sector economy growing do you get the sort of job creation that will help get us out of this mess. Right now, we are muddling along at roughly 2 percent of GDP, which is not even enough to deal with the unacceptably high unemployment. Yes, we had a break last week, when we saw the unemployment rate come down a little bit. But a closer look at the statistics reveals it was because so many people had quit looking for a job. They gave up.

We also know this is a national security risk, this high debt. Former Chairman of the Joint Chiefs of Staff, Admiral Mullen, said the debt was the single largest threat to our national security. This is the Chairman of the Joint Chiefs of Staff. You wouldn't think that was part of his portfolio, but that is what keeps him awake at night and worries him—our debt, and the fact that China is the major purchaser of that debt, a country with interests that are not exactly aligned with ours, to say the least.

Secretary of State Hillary Clinton has said the debt undermines our capacity to act in our own interests and sends a message of weakness internationally. Then there is a quote from a former colleague of ours way back in 2006, who said this:

Increasing America's debt weakens us domestically and internationally.

He also said:

It is a sign that we now depend on ongoing financial assistance from foreign countries to finance our government's reckless fiscal policies.

You may have guessed who said that. Yes, that was then-Senator Barack Obama.

What I think people find absolutely unnerving, disappointing, and, yes, even shocking is the lack of leadership on this issue, not only because our national debt is a growing fiscal problem as well as a national security risk, but it has created a crisis of confidence in our political system and people's confidence in the Congress's ability to do what we get paid for, what we got elected to do, and that is to solve our Nation's problems, including our Nation's fiscal problem.

President Obama understands this very well. That is why he appointed a bipartisan fiscal commission, now called the Simpson-Bowles commission, which came up with \$4 trillion in debt reduction along with other recommendations, such as tax reform, which would make us more competitive globally. But since December 2010, when that report was rendered, what has the President done with regard to that report that received bipartisan support—I believe it was 11 out of the 18 members, including 3 Republican Senators at that time, Judd Gregg, MIKE CRAPO, and TOM COBURN? The President walked away from it. He walked away from it. What did he do when he gave his State of the Union speech shortly thereafter? He didn't even mention it.

But what did he do? Did he come up with a counterproposal or a different proposal? No, he held back, and he waited until the chairman of the House Budget Committee, PAUL RYAN, and House Republicans passed a budget out of the House—something that has not happened in the Senate for more than 900 days—and then the President attacked. He engaged in scare tactics that I believe are beneath the dignity and responsibility of the Office of the President of the United States.

Leadership on the national debt has not only been lacking from the White House, but Congress hasn't done much better. It is true what the Senator from Maine has said, the basic conundrum we have had at times when we have passed deficit reduction legislation, such as Gramm-Rudman-Hollings and others, is that purely statutory fixes are fine but they can't bind future Congresses. We need a constitutional amendment that will make it the law of the land that cannot be ignored by future Congresses. This is what I hope we will do by embracing our responsibility and passing this constitutional amendment.

The facts show that the time for a strong balanced budget amendment is now. It is today. Joint Resolution 10 is a strong balanced budget amendment that will protect the American people from runaway deficits and reckless spending. If ratified by three-quarters of the States; that is, 38 States, it would require a two-thirds supermajority of Congress in both Chambers to approve a deficit in any fiscal year. A supermajority would be needed in times of emergency to approve a deficit in any given year. And it can't be opened. It has to happen each year a deficit might be run.

We can imagine that emergencies could occur, but it shouldn't be a routine matter, as it is now, where we engage in deficit spending. This amendment would provide exceptions where it would require a majority of both Chambers to approve a deficit during a time of declared war and a three-fifths

supermajority in both Chambers could approve a deficit during military conflicts.

So for those of our colleagues who are worried this balanced budget amendment would provide such a straitjacket it would deny us the flexibility to respond to our Nation's emergencies, the amendment itself provides the means to deal with those extraordinary circumstances.

Joint Resolution 10 would also require a two-thirds majority to approve outlays beyond 18 percent of GDP. That is roughly what our revenue has been—roughly 18 percent of GDP—although today our spending is at 25 percent. Because of the recession and the fragile economic recovery, our income is roughly 15 percent. So we are running at roughly a 10-percent annual deficit.

This amendment would require a two-thirds majority to raise taxes. We don't have a tax problem; we have a spending problem, and we are not able to keep up with the promises we have made both in terms of entitlements and other spending. This would require the discipline of a two-thirds supermajority to raise taxes in order to balance the budget. So we could do it when there was a broad consensus that it was necessary but not provide the easy out to raise taxes in order to balance the budget unless two-thirds said that was all right. It would also provide for a three-fifths supermajority to raise the debt limit.

Finally—and this is important—the balanced budget amendment, Senate Joint Resolution 10, would require the President to submit a balanced budget to the Congress each year. The President has historically submitted a budget in, I believe, roughly February of each year, but it is rarely balanced. Indeed, the last budget submitted by President Obama was not even brought up for a vote by our friends across the aisle. When we insisted upon a vote on that budget, it lost 97 to 0. No Democrat and no Republican voted for President Obama's last budget because it continued the reckless spending and the debt.

It is important this body support a strong balanced budget amendment and not a fig leaf or cover vote, because Senate Joint Resolution 10 has the strongest provisions on spending and taxes in addition to provisions that would allow us to balance the budget.

I know there is another alternative that will be voted on, but I am afraid this alternative offers more of a mirage than a real solution. First of all, it does not include all spending. This would make government accounting even more mystifying, even more opaque, less transparent. Can you imagine families and small businesses doing something such as that, saying, well, we are going to balance our budget, but we are not going to include all

the spending we do? Small businesses and/or families don't have the luxury of moving things off the balance sheet—in sort of Enron-style accounting—and neither should their government. Either you balance the budget or you do not.

The alternative we will be presented an opportunity to vote on, next to this strong balanced budget amendment, does not protect the middle class from higher taxes. It would not have stopped the 21 tax increases that were enacted in the first 3 years of the Obama administration. That is right, 21 tax increases during the first 3 years of this administration. The problem in Washington is not that it is too difficult to raise taxes, the problem is it is too easy.

A real solution to our debt crisis must permanently change the propensity to tax and spend with reckless disregard. A strong balanced budget amendment will actually solve the problem. Let's remember the disease here in Washington the balanced budget amendment is designed to cure is out-of-control Federal spending, and big deficits are a symptom of that disease. Any doctor will tell you just treating the symptom doesn't cure the disease. Without treating the underlying cause of those symptoms, we would not be making matters better, we would be creating again another illusion of a solution.

The strong balanced budget amendment which I support, along with 46 of my Republican colleagues—and I hope a significant showing on the other side—will treat the disease along with the symptoms. An amendment with too many exceptions and loopholes will not. A strong balanced budget amendment will reassure financial markets and the American people that we understand the magnitude of the problem.

As I talk to my constituents in Texas and others around the country—who are the type of people we are looking to to create jobs by making the investments, by starting businesses, and by growing existing businesses—they tell me with the growing debt, with uncertainty about tax policy, with overregulation, and with Washington's unwillingness to deal with a potential sovereign debt crisis, and slow economic growth in the private sector, they are going to sit it out. They are sitting on the sidelines. They are not going to take imprudent risks with the capital they have acquired after going through this recession and becoming leaner and becoming more efficient. They are not ready to get back in the game until they get a signal from us we are actually serious about solving our financial problems.

Unfortunately, the President not only has neglected his own bipartisan fiscal commission—the Simpson-Bowles commission—and fallen for the siren call of his political advisers to

not offer a constructive solution but, rather, attack those who do, the President has compounded his mistake in this area by saying, "We don't need a constitutional amendment to do our jobs." Presumably, that refers not only to our balanced budget amendment but to an amendment offered by the Democrats as an alternative to the Senate Republican balanced budget amendment.

The President has claimed a balanced budget amendment is not necessary because "the Constitution already tells us to do our jobs and to make sure that the government is living within its means and making responsible choices." Who does he think he is fooling? Who does he think he is kidding? The President does himself no credit, and, indeed, I think demonstrates a lack of commitment to dealing with our Nation's problems when he says things such as that. He knows the experience of this Congress—whether it is Republican administrations or Democratic administrations—has been that without a balanced budget amendment we simply are not going to have the tools necessary to get the job done.

According to one White House spokesman, balancing the budget is "not complicated." Well, if it is not complicated, why hasn't the President of the United States submitted a balanced budget proposal? His last one broke the bank, made the debt worse, didn't solve the problem, and was rejected 97 to 0 by a bipartisan vote in this body.

The same White House spokesman said:

All that is needed is that we put politics aside, quit ducking responsibility, roll up our sleeves, and get to work . . . get beyond politics as usual.

I have to say, what bunk is that? Don't they know how little credibility that sort of rhetoric has when it comes to solving the problem? Just saying it does not make it so. What people are looking for is concrete action by the Congress.

The strange thing to me was, when the President of the United States invited the Republican conference over to the executive office building several months back, he asked for ideas around the table. Several of us, including me, told him: Mr. President, if you would embrace solutions to solving these problems, we would work with you because we are Americans first and not members of political parties first. We are Americans. We didn't come here just to posture and to act like we were solving the problem while doing nothing. We actually are willing to do it because, frankly, we are concerned. Many of us are beyond concerned; we are scared. This is no longer just for our children and grandchildren. This is about the present generation. This is about us, and all we need to do is look at what is happening in Europe, and it

could be our problem in the foreseeable future. I am not just talking about decades, I am talking about years. It could be earlier.

Everything we read about the sovereign debt crisis in Europe and the history of these crises in the past is, once the public loses confidence in the ability of a sovereign nation to pay back its debt, then things slip away very quickly. We have seen that happen in Europe with the price of the debt on Italian bonds and Greek bonds going through the roof because people know they can't be paid back. If people begin to doubt for a minute our lack of resolve at dealing with this fiscal crisis and this debt crisis, we could well be not just in a similar mess, we could be worse off because there will be no European Union, there will be no IMF to bail out the United States of America, the largest economy of the world.

Let me close for now by saying this is not just a matter of conjecture whether a balanced budget amendment would help and would work; 49 different States have some form of balanced budget requirement. Vermont is the only one that does not. Of these, 32 States have constitutional provisions. Additional States require that their Governor actually propose a balanced budget or require a balanced budget indirectly by prohibiting the State from carrying a deficit into the next year.

But the point is, this is not just a matter of conjecture and guesswork. We know because we have seen at the State level that balanced budget requirements are effective. What do they do? Well, we know State balanced budget requirements are only effective when combined with limitations on taxing and spending. States with limitations on taxing and spending are less likely to raise taxes to balance the budget than States without such a limitation. States with taxing and spending limitations have a slower growth of government than States without such limitations.

In other words, States with taxing and spending limitations have a slower rate of growth and cost and size of government than States without them. So we know a balanced budget amendment could work.

I hope my colleagues—as frustrated as I am, on a bipartisan basis, with the lack of leadership on this—will show leadership. We shouldn't just look for leadership at the White House or anywhere else. We ought to look at ourselves in the mirror and ask what can we do to solve this problem. I submit that a balanced budget amendment would go a long way to putting us on the path to fiscal responsibility.

Now, we can't do it overnight because we didn't get into this mess overnight. But just as Vice President BIDEN said back in 1995:

I have concluded that there's nothing left to try except the balanced budget amendment.

That is what Vice President BIDEN said in 1995. I agree with him. But if it was true then, it is even more true now.

So I hope tomorrow, when we have a chance to vote, we will vote for a real solution—a real balanced budget amendment, S.J. Res. 10—that will avoid the temptation to act once again as if we are doing something, without actually delivering a solution to the problem, by providing a cover, a fig leaf that, once again, will undermine the public's confidence in our commitment, in our willingness, in our leadership when it comes to the Nation's problems. Ultimately, the American people will have the final say. If we don't do it tomorrow, then the American people will have another chance to have an election and vote and presumably choose people who will deal with the problem.

Ultimately, we know—getting back to article V of the Constitution—if Congress does not propose a solution, to quote article V, the Congress "on the Application of the Legislatures of two-thirds of the several States, shall call a Convention for proposing Amendments."

So the final word is not with the Members of Congress. Although we can solve the problem tomorrow if we voted on it and we passed it and encouraged our colleagues in the House to pass it, ultimately, there will be an intervening election. But, ultimately, beyond that, the Constitution—which is the Constitution of we, the people of the United States—the people of the United States will have the final word, whether it be in the next election in 2012 or by means of a constitutional convention called on the application of two-thirds of the States, of which I am told about 20 applications are already pending.

Mr. President, I yield the floor, I reserve the remainder of my time, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. TESTER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. TESTER. I ask unanimous consent to speak for 10 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### JOB CREATION

Mr. TESTER. Madam President, I rise today to talk about jobs and politics.

There are a lot of folks in Washington who pay lip service to jobs and a lot of people that are playing politics.

But it sure doesn't seem that many folks are interested in doing the hard job of creating jobs.

Folks all over Montana have been asking for good-paying, liveable-wage jobs, the kind of jobs that can't be outsourced, jobs that put folks to work in our forests, jobs that build the energy infrastructure this country needs. Right now there are two proposals that will do just that.

First, I would like to talk about my Forest Jobs and Recreation Act. This bill will stabilize the wood products industry in Montana by ensuring a dependable timber supply that will give certainty to loggers in the woods and workers in the mills.

This bill will allow for the restoration of 100,000 acres of national forest lands in Montana, reducing the chances of out-of-control forest fires that could devastate our communities, our watersheds, and our way of life.

Recent data released by the Forest Service shows that wildfires that burn where the trees were thinned were less expensive to fight, they were easier to control, and did less structural damage to neighboring buildings.

This bill also puts people to work by rolling up roads, improving our water quality, and protecting big game habitat. It protects nearly 1 million acres for our children and grandchildren in wilderness and recreation areas.

This is a bipartisan solution, supported by industry and conservationists. It is the product of people who were on polar opposites of the issue who came together to find solutions for how we can manage our forests better. We could take a lesson from their example. They brought those solutions to me to be put into law. This is a bill that will move the country in the right direction with a responsible balanced solution, and it will create jobs.

But rather than getting this bill passed, it has become a political football in the appropriations process. Some House Republicans seem to be more concerned with their own job rather than creating Montana jobs by passing my Forest Jobs and Recreation Act. That isn't fair to Montanans who are anxious to get back to work, to reclaim a life that has been disappearing in a rapid rate. We lost over 1,700 jobs in the timber industry in 2009, more last year, and still more this year.

I would ask folks who are negotiating this final deal right now to think about the folks who are counting on us to set politics aside and do what is right for our country and for Montana.

This same logic applies to the Keystone XL Pipeline. Right now, the President has the power to create jobs by approving this pipeline. He could make the decision to approve this pipeline in the very near future.

Now, let me be clear. He should do it right. Doing it right means approving this pipeline while respecting private

property rights. I support the pipeline. But I will never support any corporation—much less a foreign corporation—given the right to take away property from Montanans or any other American without a fair deal that is negotiated in good faith.

Doing it right also means ensuring that the highest possible safety standards are followed throughout Montana and rural America. I do not believe we should have to wait until January of 2013 for a decision that can create American jobs right now. In Montana, we need the jobs. We need the ability to provide incentives to boost production in places where it makes the most sense, such as the Bakken formation in eastern Montana.

Now, many folks don't know that the Keystone Pipeline will actually include an onramp in Baker, MT. That onramp will tap into the booming Bakken formation, and it will ensure that we are getting the most out of American energy resources. That matters to our economy and it matters to our energy and national security. The Keystone XL pipeline will transport North American oil and will help move this country away from spending billions of dollars per day in Middle Eastern countries that do not like us very much.

At the same time, I am concerned about the way folks on both sides of this issue are handling it right now. We do not need to entangle this issue with a payroll tax in the House bill that would add more than \$25 billion to our debt and that would cut Medicare benefits.

It is time to quit playing politics and start doing what is right, whether it is the Forest Jobs Act or the Keystone pipeline. It is time to move forward, working together to create jobs in this country.

Instead, politicians on both sides are using these important items as political footballs and that is too bad. We should be acting responsibly to create jobs with this pipeline and to put folks back to work in the woods with my bill. Instead, we are watching political maneuvering designed to score points rather than create jobs. We all know this is how Washington acts. The people who lose are the hard-working Americans and Montanans who want to get back to work. They want to build and maintain the infrastructure that powers and protects America.

I am proud to again offer my support for the Keystone XL pipeline and the jobs it will create. We need a quicker decision based on the merits of the project. After setting aside their differences and working together to protect our forests, Montanans also deserve the passage of the Forest Jobs and Recreation Act. Instead of irresponsible partisan fights, it is time that Congress finally takes a page from those who constructed the forest jobs bill. They set aside nearly 30 years of

partisan bickering to find solutions where everyone gives a little and gains a lot. It is the right way to do it.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Vermont.

Mr. SANDERS. Madam President, I ask unanimous consent I be permitted to engage in a colloquy with my colleagues for the remainder of the Democratic time in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### GLOBAL WARMING

Mr. SANDERS. Madam President, I understand that some of my colleagues here in the Senate and in the House as well do not believe global warming is real and they do not want to see our country and, in fact, other countries around the world take the necessary actions to deal with this issue. That is fine; everybody is entitled to their opinion. But it does seem to me to make a bit of sense that we listen to the leading scientists of this world, not only in our own country but throughout the world, and hear what they have to say about global warming and the need to respond.

The National Academy of Sciences in our country, the United States, joined by academies of science in the United Kingdom, in Italy, in Mexico, Canada, France, Japan, Russia, Germany, China, India, Brazil, South Africa, have said "climate change is happening even faster than previously estimated" and the "need for urgent action to address climate change is now indisputable."

They are not talking about whether climate change is real or not real. What they are saying and what scientists all over the world are saying is that climate change is happening even faster than previously reported. Eighteen scientific societies, including the American Geophysical Union, the American Chemical Society, and the American Association for the Advancement of Science said:

Observations throughout the world make it clear that climate change is occurring, and rigorous scientific research demonstrates that the greenhouse gases emitted by human activities are the primary driver. These conclusions are based on multiple independent lines of evidence, and contrary assertions are inconsistent with an objective assessment of the vast body of peer-reviewed science.

That comes from the American Geophysical Union, the American Chemical Society, and the American Association for the Advancement of Science. Further, it is not just scientists in our own country or throughout the world who are talking about climate change, who are talking about the need to respond vigorously to that crisis, but right within our own government, the U.S. Government, we have the Department of Defense saying:

Climate change is an accelerant of instability.

What that means is that when there is drought, when countries around the world are unable to grow the food they need, when there is flooding and people are driven off the land, and when people migrate from one area to another, this creates international instability, which is of concern to the Department of Defense.

The CIA understands that “climate change could have significant geopolitical impacts around the world, contributing to poverty, environmental degradation, and the further weakening of fragile governments,” as well as “food and water scarcity.” That is from our own CIA.

But it is not just scientists around the world, not just government agencies in the United States; you have a business whose life and death, whose profit margin depends upon understanding this issue and that is the insurance industry. If the insurance industry ends up paying out a whole lot of money when there are disasters, they are going to lose money. They have to understand climate change and the disasters, the weather disturbances that occur from that. This is what they say, in a report from the National Association of Insurance Commissioners. They found there is “broad consensus among insurers that climate change will have an effect on extreme weather events.” These are guys whose profit margins depend upon that analysis.

Many Americans and people around the world are concerned about the future impacts of global warming on our planet and what is going to happen 10 or 20 years down the line, and that is terribly important. We have to understand what climate change is going to do to our planet in years to come. But we do not have to just look at what may happen 20 or 30 years from today; we should be looking at what is happening right now, in the year 2011. The World Health Organization reports annual weather-related disasters have tripled since the 1960s, causing more than 60,000 deaths per year. The National Climatic Data Center shows that 26,500 record-high temperatures were recorded in weather stations across the United States this summer. Texas set the record for the warmest summer of any State since instrument records began in 1895. Oklahoma set a record for its warmest summer, exceeding records set during the Dust Bowl era of the 1930s. Drought in Texas has led to wildfires that destroyed more than 1,500 homes in Texas.

A 2010 heat wave in Russia killed 56,000 people. The heat wave in Europe in 2003 killed 35,000 people. We can look at Pakistan, which in 2010 had a record 129-degree temperature. All of that is consistent with what scientists have been warning us about for years.

NASA’s James Hansen said climate change “loads the dice” in favor of

more extreme weather events. Hansen said the answer to whether greenhouse gas emissions are contributing to these extreme weather disturbances is “yes . . . humans probably bear responsibility for the extreme event.”

There is much to be said. I think a number of colleagues are coming to the floor. But I want to yield the floor to a Senator who has been an absolute leader on this whole issue, fighting for the environment, and that is Senator WHITEHOUSE of Rhode Island.

MR. WHITEHOUSE. I thank my colleague.

THE PRESIDING OFFICER (MR. TESTER). The Senator from Rhode Island.

MR. WHITEHOUSE. Mr. President, the statement my colleague has made is truthful and important, but there is absolutely more to this story even than that. At another time I will discuss at greater length the oceans dimension to what is happening to our planet as a result of the carbon pollution we are emitting at literally unprecedented levels in human history. But for now let me say it is very severe, very dire, and to everyone who is listening and paying attention, the ocean is emitting warning signs that we disregard at our peril.

In addition to the threat of environmental harm, connected to the problem of carbon pollution is a huge opportunity and that is the opportunity of clean energy. Clean energy will drive the decades to come. Clean energy jobs can and should be powering our economic recovery.

We are in a race right now. We are in a race for dominance and for preeminence in the clean energy economy that is emerging. All around the world, other countries see it. They are competing in that race. They are putting everything they have into winning that race. But because we have a political system that is still listening to the dirty, polluting energy industry and using the politics of Washington to interfere, we are constantly having to fight to stay even. One of the things we are fighting right now to preserve is the section 1603 Treasury grant program, which will expire at the end of this year if we do nothing. This program has been vital for our renewable energy industry. It has leveraged nearly \$23 billion in private sector investment, supported 22,000 projects which collectively power more than 1 million homes. This is big. This is no longer some tiny little cottage industry. The National Renewable Energy Lab estimates the 1603 program has supported up to 290,000 U.S. jobs.

If we look more largely at the renewable energy sector, renewable energy is more labor intensive, creates more jobs than fossil fuel energy per dollar invested, creates more jobs than fossil fuel energy per megawatt generated, and the clean economy as a whole, in-

cluding renewable energy and energy efficiency and environmental management, employs 2.7 million workers in this country. It is more than the fossil fuel industry, but the fossil fuel industry owns this town and they keep stepping on this larger, growing, clean energy industry.

We are seeing it, unfortunately, out there in real life. Americans invented the first solar cell in 1995. America had 40 percent of the global manufacturing volume. We are now down to 7 percent of the global manufacturing volume of solar cells.

China is investing \$20 billion more in clean energy every year to accelerate ahead of us. European countries have feed-in tariffs so investors can know what their clean energy product will sell for and that is attracting capital and growth there, and we simply are not keeping up. We are now, in the United States of America, the home to only 1 of the top 10 wind turbine manufacturers. This is an unhealthy place to be and we need to get back into this fight. The mature industries that America leads have demonstrated the important role of government intervention at their early days. Our commercial aviation industry has been the envy of the world through its entire history. The United States of America subsidized airmail to help support this fledgling industry. They purchased planes for military purposes to help support it and supported it with aeronautics R&D.

The same thing should be happening in clean energy, and we need to work very hard to make sure this 1603 Treasury grant does not die on the cutting room floor as we come to the end of this year. If it does, jobs will go with it. There will be an immediate response. Projects will be terminated, people will be laid off, divisions of companies and smaller companies will close, and it is an unnecessary, self-inflicted injury we should avoid.

Let me bring it home. In Rhode Island this project has facilitated solar panel installation on three new bank branches. The TD Bank has opened in Barrington, East Providence, and Johnston, RI. Those projects created jobs, put people to work, and lowered the costs of their electrical energy. Step by step it gets us off foreign oil and these foreign entanglements to defend our supply.

The city of East Providence, RI, is in the middle of planning a 3-megawatt solar project on an old landfill, land that had gone out of use effectively but now will be generating power for that city. Construction has also begun on three wind turbines at the Fields Point wastewater treatment facility in Providence. The turbines will meet more than half of our big water utility’s energy needs.

A company called Hodges Badge—if your child has ever won an award in a

track meet, in a horse show, or in a school production, they probably got a ribbon for it, and that ribbon was probably made by Hodges Badge. It is a great Rhode Island company. It has 95 employees. They have gone completely clean energy, and they are doing that to protect those 95 jobs. They are doing it to lower their energy costs, and they are doing it to do the right thing.

I salute Senator SANDERS for his eloquence on the real problem of climate change and the campaign of lies and propaganda that has interfered with our ability to deal with what is a real and emerging problem, and also to point out that the second step in this is that there are jobs and there is economic success behind the clean energy industry that will lead us out of the predicament we are creating for ourselves because people here are in the thrall of the polluting industries.

I thank Senator SANDERS very much. I yield the floor.

Mr. SANDERS. Mr. President, I want to reiterate the very important point that Senator WHITEHOUSE has made. This struggle is not only to transform our energy system, to move away from fossil fuel, and to end the absurdity of importing over \$300 billion a year in oil from Saudi Arabia and other foreign countries and move toward energy independence, this effort is to cut greenhouse gas emissions so that we save the planet. This effort also has to do with creating jobs in the midst of the worst recession since the Great Depression.

I hope that every Member of the Senate is on the side of the American workers in helping us to grow sustainable energy companies so we create the jobs we need in this country rather than let China and other countries dominate those industries.

Mr. President, I am very proud to give the floor over to the chairperson of the Environmental and Public Works Committee, certainly one of the great environmental leaders here in the Senate, Senator BARBARA BOXER of California.

Mrs. BOXER. Mr. President, what is the time remaining in Senator SANDERS' block?

The PRESIDING OFFICER. There is 36½ minutes.

Mrs. BOXER. Is the Senator satisfied if I take about 7 minutes?

Mr. SANDERS. That would be fine.

Mrs. BOXER. I want to say how proud I am of the Environment and Public Works Committee. To be chairman of the committee that has such incredible Senators, such as those you have heard from—Senator SANDERS, Senator WHITEHOUSE; we also have Senator CARDIN, Senator CARPER, Senator BAUCUS, Senator GILLIBRAND, Senator MERKLEY, and Senator LAUTENBERG. I hope I am not leaving anyone out. These are the environmental voices, the commonsense voices for jobs, for

clean technology, for a bright future for our Nation, so to be the chairman of that committee is an honor beyond my every expectation.

It is not to say we don't work with Republicans; we do on public works matters. We work very well with Senator INHOFE and his team of Republicans on public works, but when it comes to the environment, there is nobody home over there. As a matter of fact, they do harm.

Today I am going to talk about the need to create jobs through this sector, but I also want to say, while my colleagues are here, an interesting development that has happened on the payroll tax cut bill that the House is about to pass. We have a kind of inside-the-Beltway term when extraneous provisions are added to a bill that will bring down the bill, and we call that a poison pill amendment. I have never said to you when I coined that phrase "poison pill" amendment that it is literal. In this case they have attached to the payroll tax cut—which is on the one hand giving a tax cut to the middle class—a literal poison pill by rolling back a Clean Air Act provision that will require a very small percent of the boilers in this country to cut back on the filthiest of all pollution, including mercury, arsenic, and lead. I will say that again: mercury, arsenic, and lead.

If I were to stop anyone in the street, they don't need a degree in science to know if those are good things or bad things for you. They didn't even have to see the movie "Arsenic and Old Lace" to know that arsenic is bad. Lead damages the brains of our kids. Mercury has horrible impacts, particularly on children. So they have attached a poison pill, literally, because it will kill 8,100 more people than otherwise would have been killed from pollution. They have attached that to the payroll tax cut. How is that for a Christmas gift? Hi, I am your Senator, here is a tax cut for you of about \$1,000, but, sorry, you might die from breathing in too much poison in the form of mercury, lead, and arsenic.

That is what is going on here. Honestly, we have asked for a lot from Santa in our day, but we never asked for lead, arsenic, and mercury.

The reason Senator SANDERS took to the floor today—and the reason I am proud to be here—is because we all say here in this Chamber that we care about jobs. We all say here in this Chamber that we want to be energy independent. We should all add that we want less pollution. Our colleagues on the other side never mention it. We should add that we want less carbon pollution, which is leading us to extreme weather conditions, climate change, but they don't say that. We say that.

How do you do it? Well, there are many ways. One is to enforce the clean air laws we have, by the way, that will

help get carbon out of the air. But a very easy way as we extend this payroll tax cut, which we all want for our middle class, is to say we should extend those clean energy tax breaks that allow us to move toward innovation. You hear a lot of talk from the other side about how solar energy is in decline and they talk about Solyndra and the problems there. Let me tell you something, that mindset would mean we never would have made it to the Moon because we know what happened to Apollo 1. It was not good. We didn't walk away from going to the Moon. We expected there would be problems with the program that we put together. That is why we had \$2 billion to offset any companies that might not make it. Do we stop cancer research because a lot of the scientists' leads don't pan out? We don't walk away from cancer research. But our friends on the other side, the minute they can seize on something to walk away from clean energy, they do. I have come to the conclusion that there is only one reason for it, and that reason is they represent—and this is my opinion—big oil, big polluters, the people who, over the years, have tried to stop us from moving away from those fossil fuels.

All you have to do is read the history books to see how big oil teamed up with the auto industry to take out all the railroad tracks that they could to stop the competition. All you have to see is the movie "Who Killed the Electric Car." You cannot even find those GM cars. They took them and literally flattened them and they bought time for the gas-guzzling cars until finally, with President Obama's leadership, we were able to influence the companies in Detroit to make them understand the very simple fact that if we move to cleaner burning fuels, if we move to fuel economy, they are going to make a lot more money because that is the future.

What we face here instead of seeing an extension of the clean energy provisions to help us move toward solar, to help us move away from fossil fuels, to help us get a better balance of payments, to move away from the Middle East dictators, we see nothing. What do we see? We see another poison pill in another one of their bills over there to repeal the standards for light bulbs. What are these people thinking? They need a light bulb to go off in their own head. We have to move toward energy efficiency. It is a win-win-win.

I am going to talk about California in my remaining time. We have seen great progress there. We have added 79,000 jobs in the clean energy sector in the past 7 years, and that clean energy sector remains one of the most promising industries in our State, and people are happy. We are going to put a million solar rooftops on in California. I know Senator SANDERS has been calling for this for years. California is

doing it with Governor Brown leading the way with the legislature. Do you know what that means? It means that people are going to work in California. You cannot be in China unless you have an extremely long arm and put a solar rooftop on in Los Angeles or in Riverside County or San Francisco or San Diego. So we need to reauthorize 1603, the Treasury grant program, which allows developers to receive a grant in lieu of a credit, in lieu of a writeoff. That means they will get the funding and they can move forward with their front. It is leveraged by \$22 billion in private sector investment. If we extend the program, we will be creating 37,000 jobs.

I have to ask rhetorically: What is wrong with the Republican Party that they don't understand that when you extend these kinds of tax credits, you move away from the dictators who control the oil supply and who would turn on us in a minute, and instead you create jobs here at home, the air is less polluted, the kids have less asthma? There are very few things that we could come to the floor and say are such a win-win-win.

There is 48-C in the manufacturing tax credit, which provides a credit for facilities that make clean energy equipment components. We know there is a demand for these programs.

I want to say to my colleagues on the other side who are on the EPW Committee, I hope they will join me at 2:30 p.m. We are going to have a press conference to talk about the need for protecting the air that we breathe and for the need to see a payroll tax cut that doesn't come over here loaded down with things that are going to lead to riders that are unrelated, that are going to lead to the death of our people.

Simple message: No poison pills that poison the people, please. I hope they will join me there. But I want them to know, and I want to say, Senator WHITEHOUSE organized a letter that was critical to get all of us on this letter. I ask Senator WHITEHOUSE, through the Chair, how many signatures did you get?

Mr. WHITEHOUSE. We had over 30. The number is still climbing retroactively—but more than 30 Democratic Senators.

Mrs. BOXER. That is a very large number of Senators to have put their names on a letter. These letters are hard. People are busy. They do not have time. You get 30 names on a letter, and we say: Extend these tax cuts for jobs, for the environment, for all the good things. I ask unanimous consent to have the letter Senator WHITEHOUSE organized printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. SENATE,

Washington, DC, December 7, 2011.

Hon. HARRY REID,  
Majority Leader, U.S. Senate,  
Washington, DC.  
Hon. MAX BAUCUS,  
Chairman, Senate Finance Committee,  
U.S. Senate, Washington, DC.  
Hon. MITCH MCCONNELL,  
Republican Leader, U.S. Senate,  
Washington, DC.  
Hon. ORRIN HATCH,  
Ranking, Senate Finance Committee,  
U.S. Senate, Washington, DC.

DEAR MAJORITY LEADER REID, REPUBLICAN LEADER MCCONNELL, CHAIRMAN BAUCUS, AND RANKING MEMBER HATCH: We are writing to urge your support for the extension of key expiring clean energy and efficiency tax provisions that create jobs and protect our environment. Allowing these incentives to expire would harm the U.S. economy, eliminate tens of thousands of jobs, and sideline billions of dollars of private sector capital investments. In particular, the renewable energy industry would be negatively impacted by an expiration of provisions.

One of the most critical tax provisions set to expire this year is the 1603 Treasury Grant Program (TGP), which has provided a way to finance renewable energy projects despite the breakdown of tax equity markets and has proven a particularly effective job creation tool. Over the last two and a half years, the TGP has leveraged nearly \$23 billion in private sector investment for 22,000 projects in every state and across a dozen clean energy industries, including solar, wind, biomass, fuel cell, combined heat-and-power, and hydropower projects. To date, the program has spurred the construction of sufficient new generation capacity to power more than one million American homes and has supported roughly 290,000 U.S. jobs. Allowing the TGP to expire would shrink financing available for renewable energy projects by 52 percent, according to a July 2011 survey by the U.S. Partnership for Renewable Energy Finance. This would kill tens of thousands of jobs across all clean energy industries and states.

We have seen what happens when these credits expire. The biodiesel production tax credit lapsed in 2010, and fuel production dropped dramatically, shuttering dozens of plants and putting thousands of people across the country out of work. Given our nation's urgent need for more transportation fuels from domestic sources that are both secure and environmentally sound, we cannot let that happen again. With the biodiesel tax credit in place again for 2011, domestic production has more than doubled, supporting more than 31,000 jobs and generating at least \$3 billion in GDP and \$628 million in federal, state, and local tax revenues.

We also support additional funding for the Advanced Energy Manufacturing Tax Credit (48C), which has leveraged timely private investments in new, expanded, or re-equipped advanced energy manufacturing projects throughout the country. The program has been able to leverage \$5.4 billion in private investment, boosting growth and creating new U.S. manufacturing jobs producing components and equipment for the burgeoning global renewable energy industry. Applications to the program have far exceeded the program's original allocation, indicating a tremendous potential for continued investment and job creation in the manufacturing sector. Without funding for programs like this, we effectively forfeit clean energy manufacturing to countries like China.

The Production Tax Credit (PTC) has facilitated tens of billions of dollars in new clean energy generating capacity, particularly in the wind industry, which has created thousands of new manufacturing and construction jobs in many of the hardest hit parts of our country. Last year, new wind power represented over one-third of all new U.S. electricity generation capacity. This is an industry in which the United States currently has a trade surplus with China, Brazil, and other fast-growing developing economies. We need a timely extension of the PTC to keep these jobs in the U.S. and provide certainty to investors.

These expiring tax provisions have demonstrated their effectiveness in catalyzing private investment and job growth, spurring U.S. technological innovation, and diversifying our nation's energy mix. In light of the critical role these incentives and others have played in fostering U.S. economic growth, now is not the time to let them lapse, even temporarily. We believe it is important these critical tax provisions be part of any year-end tax legislation.

Sincerely,

John F. Kerry, Sheldon Whitehouse, Barbara Boxer, Jeff Bingaman, Maria Cantwell, Benjamin L. Cardin, Jeanne Shaheen, Robert Menendez, Bernard Sanders, Richard Blumenthal, Dianne Feinstein.

Mark Udall, Sherrod Brown, Ron Wyden, Daniel K. Akaka, Debbie Stabenow, Tim Johnson, Tom Udall, Jeff Merkley, Michael F. Bennet, Mark Begich, Amy Klobuchar.

Jack Reed, Patrick J. Leahy, Al Franken, Joseph I. Lieberman, Tom Harkin, Christopher A. Coons, Frank R. Lautenberg, Barbara A. Mikulski, Kirsten E. Gillibrand, Carl Levin, Bill Nelson, Daniel K. Inouye.

Mrs. BOXER. I would yield back to our leader on this important block of time. I would yield my time back to Senator SANDERS. We are determined to get this done right for the American people.

Mr. SANDERS. I thank Senator BOXER very much, not only for her words but for her leadership on the Environment and Public Works Committee.

I wish to reiterate a very important point Senator BOXER made. She reminds us of great moments in the history of this country. This country, with great difficulty but persistence, built a railroad ahead of the rest of the world that went from the east coast to the west coast. It was not easy. This country led the world in putting a man on the Moon. It was not easy, at great expense, difficulties, but we did it. Does anybody not think this country can lead the world in transforming our energy system away from polluting fossil fuels to energy efficiency, to sustainable energies such as wind, solar, geothermal, biomass, other technologies? Can we not lead the world in making our own country more energy efficient, making our air cleaner but also in creating large numbers of jobs as we weatherize our buildings, as we build the solar panels we need to build the wind turbines, as we put more engineers and scientists to work to help us in this energy transformation.

I wish to pick up on a point Senator WHITEHOUSE made a moment ago,

which is that while we talk about energy transformation, while we all understand that over a period of years, the oil industry, for example, has received billions and billions of dollars of permanent tax breaks, what we are fighting for right now is to see that the 1603 renewable energy grant program is renewed. As Senator WHITEHOUSE indicated, 1603 allows renewable energy developers to get a grant instead of a tax credit. Since 2009, when this program was enacted, it has leveraged nearly \$23 billion in private investment supporting 22,000 projects in all 50 States and supported approximately 290,000 jobs, according to the National Renewable Energy Lab. Since 1603 was enacted, solar jobs doubled to more than 100,000 jobs.

We have to make sure that before Congress adjourns for the Christmas holidays, we renew 1603. It is enormously important for the renewable energy industry, enormously important for jobs in our country.

With that, I would yield the floor to Senator WHITEHOUSE.

Mr. WHITEHOUSE. I thank Senator SANDERS. Senator CARDIN has arrived so I will hand off to him in a moment. But to the Senator's point about the imbalance between support for the fossil fuel energy industry and the renewable energy industry; the first being one that hurts our national security, pollutes our air and costs a fortune and is phasing out and the second being one that is growing, that is clean, and that is the way of the future.

According to the Environmental Law Institute, the U.S. invested almost six times more in subsidies for fossil fuel from 2002 to 2008 than we did in renewable energy. So by a factor of six times, we have our thumb on the scales supporting the old dirty industry against the new, rather than supporting the new the way our international competitors are doing.

I ask unanimous consent that a response from Secretary Chu to a letter Senator SANDERS and I and other Senators wrote to him about the status of and success of our clean energy investments be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

THE SECRETARY OF ENERGY,

Washington, DC, November 16, 2011.

Hon. BERNARD SANDERS, Hon. JEFF BINGAMAN, Hon. DEBBIE STABENOW, Hon. SHERROD BROWN, Hon. JOSEPH I. LIEBERMAN, Hon. CHRISTOPHER COONS, Hon. SHELTON WHITEHOUSE, Hon. RICHARD BLUMENTHAL, Hon. JON TESTER, Hon. PATTY MURRAY, Hon. MARK UDALL, Hon. PATRICK LEAHY, Hon. TOM UDALL, Hon. JOHN KERRY, Hon. CARL LEVIN, Hon. ROBERT P. CASEY, Jr., Hon. TIM JOHNSON, Hon. MICHAEL F. BENNET, Hon. JACK REED, Hon. DANIEL AKAKA, Hon. JEFF MERKLEY, Hon. KIRSTEN E. GILLIBRAND,

U.S. Senate, Washington, DC.

DEAR SENATORS: Thank you for your October 5, 2011 letter requesting an update on

United States investment in clean energy technology and job creation. I strongly agree that the United States faces a critical decision point in our Nation's energy future if we hope to compete in and win the global clean energy economy. As President Obama has said, "The country that leads the clean energy economy will lead the 21st century global economy."

The annual global clean energy market is estimated to be worth more than \$211 billion, up 32 percent from 2009. The global market for solar photovoltaic systems alone represents an \$80 billion market this year. It is estimated that the global renewable energy market will grow to \$460 billion by 2030, with a cumulative investment from 2010 to 2030 of approximately \$7 trillion in new capital. This increased market is being driven by increased global demand and technological advances that are rapidly making renewable energy cost competitive with fossil energy.

The economic stakes are high. However, we are currently at risk of falling behind our global competitors who are seizing the opportunity by investing more heavily and establishing market policies that give them a strategic advantage. The United States currently ranks first in only one of the top ten clean energy benchmarks. Thanks to our world-class universities and national labs, we still hold an edge in technology innovation, but we are falling further and further behind in key areas such as manufacturing competitiveness and exports. Countries like China are moving forward with large investments.

There are some who say that we cannot compete with China. I respectfully disagree. However, time is of the essence. I would like to work with you to establish a comprehensive energy policy that targets all aspects of the energy value chain—innovation, manufacturing, deployment, financing, and markets—to provide the certainty American businesses and entrepreneurs need to compete with their global counterparts. Without a comprehensive, long-term energy policy framework focused on this full energy value chain, American business will continue to move capital and jobs overseas to take advantage of more business friendly policies.

The questions you have posed in your letter are very important to understand America's current position in the clean energy economy, including where we have been successful and where we need to improve. While these questions are very complex, I have attempted to succinctly answer each of them as directly as possible. I also have included additional background information related to each question you raise to provide a fuller understanding of our domestic clean energy landscape.

I know that you care deeply about these issues and that you understand the opportunity presented by the growing demand for clean energy technologies. There is a growing debate in Congress on issues relating to the clean energy innovation chain and the steps we can take to position America to win the clean energy technology race. I want to make sure you know that I am personally available, along with my senior staff and the full resources of the Department to assist you in gathering information and in providing technical assistance on these issues. I am fortunate to have a thoughtful team of professionals who wrestle with these issues every day, and I would be happy to make them available to you.

Thank you for the opportunity to respond and for your commitment to America's energy future. I look forward to working with

you and your colleagues to help recapture our leadership role in clean energy by establishing smart policies to win the clean energy technology race.

Sincerely,

STEVEN CHU.

#### QUESTIONS AND ANSWERS

1. How have the investments that the United States has made over the last several years contributed to the growth in energy efficiency deployment and renewable energy generation, and what projections can you share for the near future?

Jobs: The clean energy sector directly employs nearly 1.6 million people in the U.S. The Recovery Act alone has already saved or created over 225,000 clean energy jobs and is estimated to add an additional 800,000 jobs by the end of 2012. As of August 2011, the U.S. had created over 100,000 solar-focused jobs and at least 75,000 jobs related to wind installation in 2010.

Renewable Energy: Through investments in clean energy, the United States is on track to double U.S. renewable energy generation in four years (from 71 TWh in 2008 to 178 TWh in 2012). For example, the highly leveraged 1603 grant in lieu of tax credit program has led to the deployment of more than 5,000 renewable energy projects across the country. These projects have enough capacity to power more than one million homes.

Energy Efficiency: Over the last two years, the Department of Energy's Weatherization Assistance Program has helped more than 750,000 low-income households save on average more than \$430 per year on their energy bills. The program has supported over 14,000 jobs across the country and thousands of additional jobs throughout the supply chain. Residential efficiency standards are currently saving consumers about \$25 billion per year in energy costs—a savings of approximately \$250/year per household. A recent analysis estimates that appliance standards have created an industry supporting 340,000 jobs, with expected growth to 380,000 jobs by 2030.

Transportation: Three years ago, American businesses accounted for only two percent of the market for advanced batteries. We are now on track to establish annual production capacity for 500,000 plug-in hybrid electric vehicles, helping support a projected total of 1 million electric vehicles on the road by 2015. New fuel economy standards will save American families an average of more than \$8,000 at-the-pump for cars in 2025 compared to those in 2010. These improvements will reduce America's dependence on oil by an estimated 12 billion barrels, and, by 2025, reduce oil consumption by 2.2 million barrels per day—enough to offset almost a quarter of the current level of our foreign oil imports.

Near-Future Projections: All the trends suggest that the cost of electricity from solar and onshore wind is either already or will soon be cost competitive without subsidies with electricity from natural gas in many parts of the country. This will result in sharp increases in renewable energy deployment. Between 2010–2030, estimates suggest a 7.9 million cumulative net job-years of direct and indirect employment to be created as a result of this electricity supply forecast. The renewable energy and energy efficiency sectors are estimated to see a 6.4 million net job-years increase (an 80 percent share of total increase) during this period, with the rest of the increase mostly coming from natural gas.

2. In particular, how is clean technology playing a role in rebuilding our manufacturing base, and creating jobs in construction and manufacturing supply chains?

Roughly 26 percent of all clean energy jobs lie in manufacturing. On average, clean energy manufacturing exports represent roughly twice the value of traditional exports on a per job basis (\$20,000 versus \$10,000). Between 2003 and 2010, technology manufacturing produced explosive annual job growth rates (e.g. 18.4 percent for solar thermal, 14.7 percent for wind, 10.7 percent for solar photovoltaics, etc.).

3. How do our policies and investments in clean technology compare to foreign competitors, how would proposed reductions in

clean energy research and development funding impact American competitiveness, and do American manufacturers have a level playing field?

The table gives a global score card for clean energy investments. The U.S. has fallen behind China and other nations in total clean energy investments. Venture capital investments are largely focused on technology innovation, and the U.S. is the overwhelming leader. However, technology innovation is a lagging indicator of prior investments in science and engineering R&D, the

majority of which is government sponsored. In 2008, the U.S. invested only 0.03 percent of its GDP on public energy R&D, which ranks behind China, Japan, and Canada and is tied with S. Korea. Finally, U.S. public energy R&D investments have declined by a factor of four since the late 1970s. While the U.S. is currently the leader in technology innovation, increases in Chinese investments in energy R&D suggests that U.S. leadership in the future is not guaranteed.

Categories (Year)	Top Rank	Number for Top Rank	US Ranking	US Numbers
Total Clean Energy investments (2010)	China	\$54.48	3	\$34B
Clean Energy Investments as Fraction of National GDP (2010)	Germany	1.40%	9	0.23%
Five Year Growth Rates in Clean Energy (2010)	Turkey	190%	11	61%
Venture Capital Financing (2010)	USA	\$6B	1	\$6B
Public R&D Investment as a fraction of GDP (2008)	China	0.11%	5	0.03%

In relation to China alone, the U.S. leads China in only 1 of the 6 key clean energy investment indicators. In particular, China is outpacing the U.S. by over 2 to 1 in clean energy asset financing, which typically produces the largest number of jobs.

Chinese trade practices are also having a significant impact on the ability of U.S. clean energy manufacturers to compete in the global marketplace.

4. How do current incentives for renewable energy compare to support for other energy technologies when those technologies were first emerging?

The success of fuels and technologies in the energy market depend on a wide range of factors, one being subsidies. The Environmental Law Institute found that between 2002 and 2009, fossil fuels received more than double the amount of subsidies (approximately \$70 billion) than renewable fuels (\$29 billion) over the same period. Moreover, their report suggests the most significant portion of the fossil fuel subsidies are in the form of Foreign Tax Credits, indirectly supporting the overseas production of oil.

Over the longer term, another report suggests that the historical average of annual energy subsidies is roughly \$4.86 billion for oil and gas (1918–2009), \$3.5 billion for nuclear (1947–1999), \$1.08 billion for biofuels (1980–2009) and \$0.37 billion for renewables (1994–2009). Accordingly, for the first 15 years since the birth of each technology, non-hydro renewables for electricity generation seem to have received lower subsidies in equivalent dollars than the other technologies.

In energy R&D alone, federal spending since 1978 on fossil fuel and nuclear energy sources has significantly outpaced spending on energy efficiency and renewable energy: nuclear energy (37 percent); fossil energy (26 percent); renewable energy (16 percent); energy efficiency (14 percent).

5. What is the potential for continued growth in energy efficiency deployment and renewable energy supply, and job creation in these sectors, over the next 10 years and beyond?

The current world market for renewable energy is projected to grow from approximately \$195 billion in 2010 to approximately \$395 billion in 2020 and \$460 billion by 2030. The cumulative investment from 2010 to 2030 will be approximately \$7 trillion in new capital. The potential growth for energy efficiency is also significant. McKinsey and Company estimates that the U.S. economy has the potential to reduce annual non-transportation energy consumption by roughly 23 percent by 2020, eliminating more than \$1.2 trillion in energy waste. This would also result in the abatement of 1.1 gigatons

of greenhouse-gas emissions annually—the equivalent of taking the entire U.S. fleet of passenger vehicles and light trucks off the roads for one year. The Center for American Progress estimates that retrofitting just 40 percent of the residential and commercial building stock in the United States would:

—Create 625,000 sustained full-time jobs over a decade;

—Spark \$500 billion in new investments to upgrade 50 million homes and office building;

—Generate as much as \$64 billion a year in cost savings for U.S. ratepayers, freeing consumers to spend their money in more productive ways.

#### FACT SHEET

The U.S. imports roughly 50 percent of the oil we use, much of it from countries that are not always friendly to the U.S., and we pay an estimated \$1 billion per day. Our economy and our people are vulnerable to fluctuations and steady rise in global oil prices, and we do not have much control over them. We are more dependent on foreign oil today than we were at the time of the first “energy crisis” nearly 40 years ago.

We urgently need to develop alternatives for transportation energy that are based on domestic, clean and sustainable resources. The U.S. invented the lithium ion battery that is used in plug-in hybrid cars, and in 2009 it had only about 2 percent of the world’s manufacturing volume. We need to innovate to regain our lead; otherwise we will become importers of batteries instead of oil.

Between 2003 and 2010, the technology-focused “cleantech” sector produced explosive job gains in the U.S. and the clean economy has outperformed the overall nation’s economy. Roughly 26 percent of all clean energy jobs lie in manufacturing, compared to just 9 percent in the broader economy. On average, clean energy manufacturing exports represent roughly twice the value of traditional exports, on a per job basis (\$20,000 versus \$10,000). The renewable energy sector is estimated to see a 5.7 million net job-years increase (a 72 percent increase) between 2010–2030, with the rest of the increase mostly coming from natural gas (1.6 million job-years). This is a fast-growing sector to create new jobs in the U.S.

The cost of renewable energy has fallen dramatically (solar over 70 percent in the last three years) and these costs will continue to decline. Renewable energy costs are competitive with conventional energy costs in many parts of the world and will be in the U.S. within several years. Therefore, the current world market for renewable energy grew 30 percent between 2009 and 2010, and is pro-

jected to grow from approximately \$200 billion in 2010, to approximately \$400 billion in 2020 and \$460 billion by 2030. The cumulative investment from 2010 to 2030 will be approximately \$7 trillion in new capital. Other nations are positioning themselves to avail of this massive opportunity because this will create new domestic jobs.

The U.S. invented the modern solar cell, and had more than 40 percent of the global manufacturing volume in 1995. Today, it has about 7 percent of the manufacturing volume. This is a rapidly growing industry, and we are falling behind.

The global competition for clean energy jobs is fierce. China ranks first among all nations in overall investment, clean energy asset financing, and the use of public markets to invest in clean energy. The United States currently ranks first in only one of the top 10 clean energy benchmarks—3rd in overall investments, and 9th when it comes to investment as a percentage of GDP. Trends in 5-year investment growth rates in clean energy show that U.S. does not appear among the top 10 countries.

America faces a choice about what to do with the opportunity presented by the global clean energy race. We can compete in the global marketplace—creating American jobs and selling American products—or we can buy the technologies of tomorrow from abroad. I believe all Americans would agree that the U.S. should compete to win the future.

How can we win the future? We must leverage our Nation’s strengths and core competencies to simultaneously address the five components of our energy value chain—innovation, manufacturing, deployment, finance and markets.

1. We have the world’s best and most innovative universities, national labs and small businesses in clean technologies. We must double down with smart and sustained investments in R&D to unleash our unique capacity to innovate clean energy technologies.

2. We must provide long-term predictable support for American entrepreneurs and businesses so that they can catalyze private sector investments to translate these innovations into manufacturing and jobs. This will enable these technologies to become globally competitive, affordable worldwide, and to be sold without subsidies.

3. American entrepreneurs and businesses need access to low-cost, long-term, and large-scale capital if they are to be globally competitive. We have the world’s largest capital markets. We must find ways to leverage this strength by unlocking this capital to finance clean energy investments for both manufacturing and deployment.

4. Finally, innovation, manufacturing and deployment occur only if there is a demand for these technologies here in the U.S. Just like the new fuel efficiency standards are creating a market for domestic innovations in transportation, policies such as the Clean Energy Standard can create demand for clean electricity from renewables, nuclear and clean fossil fuels produced in the United States, and provide certainty for American entrepreneurs.

The stakes are too high to wave the white flag and surrender. It is a fight we can and must win.

Mr. WHITEHOUSE. I yield to Senator CARDIN.

Mr. CARDIN. Let me thank my colleague for yielding. I wish to thank Senator SANDERS, Senator WHITEHOUSE, and Senator BOXER, who were on the floor on this issue.

I just wish to underscore the point that was just made about having a level playing field, where we have tilted the scales in favor of fossil fuels over renewables. My colleagues have already talked about the direct difference in our subsidies. I would like to add an additional element; that is, when you look at the subsidies we give to the fossil fuel industries, they are permanent. They are in the Tax Code. They do not go through the annual exercise of an extender.

What does that mean? That means the lack of predictability in sustainable energy means there is a higher cost for investment. It tilts the scale in favor of oil and gas, rather than on sustainable, renewable energy sources. I would just mention three. The Congressional Research Service did a report on this, just three of the provisions that benefit the oil industry: the excess of percentage over cost depletion, the expensing of exploration and development costs, and the amortization of geological and geophysical expenditures. Just those three provisions that are permanent in our Tax Code, between 2010 and 2014, will cost the taxpayers over \$10 billion.

We are subsidizing the oil industry, and we should not be doing that. We should be encouraging a transformation to sustainable energy issues as my colleagues have pointed out for the purposes of national security. It is good for our environment and it is good for jobs. This is about jobs. That is why we cannot go home until we have extended the tax provisions, particularly 1603 but others of the energy-related, sustainable energy provisions.

I wish to talk for one moment, if I might, about the production tax credit we need to extend because I want to talk about one specific project in Maryland, on a brownfields site that we are dealing with that relates to energy. Some might say: OK. That does not expire until 2013. But here is the problem. You have to have it in production by that date. Our waste-to-energy projects—it is not going to be in production by that date. So if we do

not extend it this month, the project will be at a standstill in Baltimore.

There are 1,900 jobs at stake—1,900 jobs are at stake on just that one project which, by the way, helps our environment, helps our energy, and also helps our economy. That is why it is critically important that before we leave, we extend these sustainable energy tax credits, so we can get the investment.

Quite frankly, I would like to see us make some of these permanent. We make them permanent, we get predictability. We get predictability, it is less cost, it encourages more activity in this area. That is what we should be about, creating jobs for our country. The wind energy credit alone would allow us to create another 54,000 jobs. So this is about job growth for America. It is about our energy security, and it is about a cleaner environment. It is about America's future.

That is why we have taken the time to point out to the American people that Congress needs to make sure it is active on these areas before we adjourn for the year. We owe that to the people of this country.

With that, I will yield to my friend from Vermont.

Mr. SANDERS. Mr. President, I wanted to thank the Senator from Maryland not only for his important remarks now but for, year after year, the strong work he is doing in trying to create jobs in America in sustainable energy.

I would like to yield to the Senator from Rhode Island for his thoughts.

Mr. WHITEHOUSE. I thank Senator SANDERS. I wish to go back to this question of the jobs and the economic value we get from clean energy. The Department of Energy reports that the clean energy sector alone directly employs nearly 1.6 million people in the United States. So nearly 1.6 million families are depending on the paychecks they get from the clean energy sector.

Within that, it is growing. The United States has created over 100,000 solar-focused jobs—100,000 solar-focused jobs—and at least 75,000 jobs related to wind energy installation in 2010. In Rhode Island, we are seeing that coming on. The newspaper today, the Providence Journal, reported on a permit application for the cable that will connect an offshore wind facility that is going in off Block Island back to the grid onshore to bring the power from that installation back and into the New England energy grid.

But when it gets going, think of the jobs that are going to be involved in that. Senator REED and I worked very hard to shore up—get money to shore up the waterside, the side of the pier at Quonset so it would be capable of dealing with very heavy-duty installation barges and things such as that.

So the Quonset Point facility is now ready for this construction. We have

the trains and new highways that bring in the pieces of those big turbines. The turbines are so big you cannot build them in China, in Europe. We have to assemble them onshore and put them right on the barge. So the assembly of them will take place in Rhode Island, right at Quonset, and that will mean a lot of jobs.

Then we have to barge them out and we have the barge operators and the barge captains and the tugs. Then we sink the base, and we have to have divers and builders and people who are experts in that kind of marine construction.

Then we put them up. We have to operate them. We have to maintain them. What they do is they contribute clean energy to the grid. They are a constant supply because of the wind over the Atlantic being such a powerful resource, and it is kind of a win-win situation. So we see the need to get behind this in an immediate way in Rhode Island.

It would be one of the great tragedies if we let the Chinese and the Belgians and the French and the Dutch and whoever else get ahead of us in this competition. We do not need to. It is wrong. We are taking ourselves out of a race we should be winning when we do that. I commend Senator SANDERS for his effort to bring us together to continue to make this point. There are jobs here. There is an energy industry that is going to lead the economy of the next decades of this world, and we want America to be at the front of it and not to have sand thrown in our gears by the dirty, polluting energy industry that is on its way out as its last contribution to the damage it is now doing to our economy and to our environment.

Mr. SANDERS. I wish to thank my friend from Rhode Island for his remarks and for his extraordinary effort in fighting for jobs and protecting our environment.

If we read some headlines today in the media, we might think, especially the rightwing media, that renewable energy in America is on the verge of collapse. Quite literally—this is quite literally the case. A recent headline from FOX News said: "Entire solar industry on brink of collapse."

The reality is quite the contrary. The fact is, not only is the solar industry not on the verge of collapse, the reality is the American solar energy industry is thriving, as is the renewable energy industry more broadly. We have doubled the number of solar jobs in America since 2009. It does not sound to me like that industry is collapsing. It sounds to me like it is doing extraordinarily well.

Today, more than 100,000 Americans work in the solar industry, at more than 5,000 companies in every single State in our country, and that includes manufacturing, installation, and supply chain jobs.

Mr. President, last year we installed nearly 1,000 megawatts of solar power in the United States—more than double the amount installed in 2009. That doesn't sound like an industry that is collapsing to me. With the solar industry growing at a rate of 69 percent annually, it is one of America's fastest growing industries and is creating jobs all over our country. The cost of solar panels has fallen 30 percent over just the last 2 years, continuing a long-term decline in the price of solar and making it more and more competitive with other energy technology.

(Mrs. HAGAN assumed the Chair.)

Madam President, everyone, from Walmart to the U.S. Marine Corps, is looking toward a future in solar. Walmart is installing solar panels at 130 stores in California, and they say:

Walmart has reduced energy expenses by more than a million dollars through our solar program.

The military—the U.S. Department of Defense—is using solar energy with battery storage to fully power forward operating bases in Afghanistan.

Marine COL Bob Charette said:

For the Marines, renewable energy is about saving lives by reducing the number of dangerous fuel convoys needed for resupply.

The reason I am making these points is that many people don't know the extent to which we are already making progress in sustainable energy. We are on the verge of something extraordinary. But it is important to understand where we are today and to refute those people who suggest that solar and wind are not the technologies for the future.

In terms of wind, that technology is growing rapidly. Texas alone has more than 10,000 megawatts of wind energy installed. That is equal in capacity to 10 nuclear powerplants—in Texas alone. Iowa now gets 20 percent of its electricity from wind. There are 75,000 wind energy jobs in America today and more than 400 manufacturing facilities in 43 States. The price of wind energy has dropped by 90 percent since 1980, and wind electricity today is competitive with fossil fuels at 5 to 6 cents per kilowatt hour. At the same time, we are increasing American manufacturing of wind turbines, and now 60 percent of turbine components installed in the United States are made in America, up from 25 percent in 2005.

In the midst of this horrendous and painful recession, the story of renewable energy in the United States is actually a rare good news story. It is a good news story. Renewable energy is helping to cut pollution and greenhouse gas emissions, it is making our country more energy independent, and it is creating hundreds of thousands of jobs.

But all of this could be significantly slowed down if we do not continue Federal support for the renewable energy industries at a fraction of the kind of

support we are giving to fossil fuels. It is absurd that we even have to fight to extend renewable tax credits and grants when fossil fuel industries enjoy permanent subsidies. Mature industries, such as oil and gas, continue to reap billions every year in Federal subsidies and massive tax breaks that never expire, despite the fact that the top five oil companies earned nearly \$1 trillion in profits over the last 10 years. So here we are struggling to help wind and solar—new technologies—and we are giving massive tax breaks to mature industries that are incredibly profitable.

Contrast what we do for renewable energy to what we do with fossil fuel and specifically with regard to the production tax credit for wind energy, which was allowed to lapse three times in recent years—1999, 2001, and 2003—leading to an average dropoff of 81 percent in new wind energy installation each time the credit expired. The wind credit is set to expire again in 2012.

The point here is the one Senator CARDIN made a moment ago. Unless there is predictability, unless the industry knows these tax credits will be there, they are not going to start investing or working on new projects only to have the rug pulled out from underneath them. They need stability and predictability, which is why we have to move not only to extending these tax credits but to making them permanent.

I also want to say a word about the Keystone XL Pipeline, and that is to say there are some in the House and some in the Senate who want to use year-end legislation to tack on a rider that says to the State Department: You have to approve the Keystone XL Pipeline within 60 days.

Let's be clear about what we are talking about in terms of the Keystone XL Pipeline. What we are talking about is a 1,700-mile oil pipeline from Canada to the gulf coast that would carry tar sands oil. Tar sands oil is not like regular oil. It requires an energy-intensive process to get it out of the ground, extract it, and, in fact, to refine it. That means it emits approximately 82 percent more carbon emissions when produced compared to regular oil, according to the EPA.

Tar sands oil is also hard to clean up when it spills. Refining tar sands also produces more toxic air pollution compared to conventional oil. A tar sands spill in the Kalamazoo River in Michigan that happened in 2010 is still being cleaned up, at a cost now exceeding \$700 million.

In my view, the last thing we need is to eliminate the environmental and safety reviews now taking place and fast-track approval of this pipeline.

I also note to my colleagues who want to fast-track Keystone XL that I, along with several other Senators and Congressmen, asked the State Depart-

ment inspector general to look into allegations of conflicts of interest in the preparation of the environmental impact study of Keystone XL. The contractor the State Department used for the impact study, Cardno Entrix, has financial ties to the project developer, TransCanada. Those ties need to be investigated to ensure that the Federal environmental and safety reviews were done correctly and without bias. That inspector general special review is under way right now. I think it is completely inappropriate to try to fast-track this pipeline when we have not even heard back from the inspector general about potential conflicts of interest. I urge my colleagues to allow that special review to play out before any decisions are made.

I will conclude my remarks this morning by thanking my colleagues for joining me—Senators WHITEHOUSE, BOXER, and CARDIN—who speak for many other Members of Congress and I think who speak for tens of millions of Americans, who see an energy future in this country in which we break our dependence on foreign oil, in which we no longer spend over \$300 billion a year for oil from Saudi Arabia and other foreign countries; who see a future in this country where we move toward energy independence; who see a future in this country where the United States is a leader in reversing global warming by not only cutting greenhouse gas emissions in America but providing technology and expertise for countries all over the world, for them to do the same; and also understand that, as we move to energy efficiency—and I have to tell you that in Vermont we are leading the country in energy efficiency. What we are seeing as we weatherize homes is fuel bills going down for the middle-class, working-class people by 30, 40, 50 percent. We are investing in weatherization, and the payback is pretty good. It takes place over a very few years, when you cut fuel prices 30 to 50 percent.

In Vermont, we are probably doing as well as any other State in that area, but we can and will do a lot better. Tens of thousands of homes in our State can be weatherized. When we do that, we not only cut greenhouse gas emissions, we not only reduce the need to import foreign oil, we also create jobs. We create jobs for those people who are producing the insulation, the new doors, the windows, and the new roofing that makes homes and buildings more energy efficient.

Furthermore, in our State and around the country, we are seeing, as I indicated a moment ago, significant progress in moving to sustainable energy—the solar industry, growing very rapidly; wind energy, growing very rapidly; other technologies, growing very rapidly. As a nation, we should be proud of the change that is taking place. But understand that we have a

long way to go to be the kind of energy efficient and sustainable energy Nation we know we can become and to help lead the world in a new energy direction.

With that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

#### PROPOSING AN AMENDMENT TO THE CONSTITUTION RELATIVE TO REQUIRING A BALANCED BUDGET—S.J. RES. 24

#### PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES RELATIVE TO BALANCING THE BUDGET—S.J. RES. 10

The PRESIDING OFFICER. Under the previous order, the Judiciary Committee is discharged from further consideration of S.J. Res. 10 and S.J. Res. 24, and the Senate will proceed to the consideration of the resolutions en bloc, which the clerk will report.

The legislative clerk read as follows:

A joint resolution (S.J. Res. 24) proposing an amendment to the Constitution relative to requiring a balanced budget.

A joint resolution (S.J. Res. 10) proposing an amendment to the Constitution of the United States relative to balancing the budget.

The PRESIDING OFFICER. Under the previous order, there will be 8 hours of debate on the resolutions, equally divided and controlled between the two leaders or their designees.

Under the previous order, the title of the joint resolutions is amended.

The amendments (Nos. 1459 and 1460) are as follows:

##### AMENDMENT NO. 1459

To amend the title so as to read:

“Joint resolution proposing a balanced budget amendment to the Constitution of the United States”

##### AMENDMENT NO. 1460

To amend the title so as to read:

“Joint resolution proposing a balanced budget amendment to the Constitution of the United States”

#### RECESS

Mr. DURBIN. Madam President, I ask unanimous consent to recess under the previous order.

The PRESIDING OFFICER. Under the previous order, the Senate stands in recess until 2:15 p.m.

Thereupon, at 12:28 p.m., the Senate recessed until 2:15 p.m. and reassembled when called to order by the Presiding Officer (Mr. WEBB).

#### PROPOSING AN AMENDMENT TO THE CONSTITUTION RELATIVE TO REQUIRING A BALANCED BUDGET—S.J. RES. 24—Continued

#### PROPOSING AN AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES RELATIVE TO BALANCING THE BUDGET—S.J. RES. 10—Continued

The PRESIDING OFFICER (Mr. WEBB). The Senator from Vermont.

Mr. LEAHY. Mr. President, it occurs to me that all Senators swear an oath to support and defend the Constitution of the United States. I carry a copy around with me. It is our duty. It is our responsibility. But the pending amendments to the Constitution that are on the floor of the Senate threaten the constitutional principles that have sustained our democracy for more than 200 years.

In addressing the Nation's debt and deficit, what is lacking are not phrases in our Constitution. What is lacking is the seriousness within today's Congress to act, and the willingness in Congress to cooperate in forging solutions that meet the real needs of our country and its people. These are human failures, not the failure of our constitutional framework. Nor are these failures insoluble or inherent. We balanced the budget and even created budget surpluses less than two decades ago.

Now we are being asked to put the problem once again under the pillow for another day—this radical partisan proposal would be out of place in our national charter.

Never in our history have we amended the Constitution—the work of our Founders—to impose budgetary restrictions that require supermajorities for passing legislation. Yet now it seems every Member on the other side of the aisle has joined to put forth a radical proposal to burden our Constitution with both of these kinds of strictures.

The Hatch-McConnell proposal is different in kind than any other amendment to our Constitution. It is not consistent with the design of our founding document or the stance taken by our Founding Fathers.

It is a bad idea to write fiscal policy into our Nation's most fundamental charter. It is simply unnecessary. We do not need a balanced budget amendment to balance a budget. A vote for this amendment does absolutely nothing to get our fiscal house in order. Congress can work to continue our eco-

nomic recovery. We can pass the appropriate legislation that leads to a Federal balanced budget, just as we did in the early 1990s.

I remember that very well because I was here. I remember, in this body, not a single Republican voted to balance the budget. It took the Democrats in the Senate and the Vice President of the United States to pass that balanced budget. Not a single Republican voted for a balanced budget in the House. They gave a lot of speeches on the floor that if we passed that balanced budget amendment, everything would come to a screeching halt. Actually, what happened was we passed it, and President Clinton was able to leave his successor a huge surplus.

With a growing economy, with what we did by votes in the House and the Senate—not by a constitutional amendment—we were able to create significant budget surpluses and pay down the debt until those surpluses were squandered. We have done it before. We can do it again. We need only work together to make the tough decisions, not to pass something that is a feel-good, bumper-sticker kind of item which kicks the can down the road and binds future Congresses to a fiscal proposal that is fundamentally unsound and the consequences of which are not understood.

The Republican proposal in the Senate is significantly more radical than the version the House of Representatives rejected in a bipartisan vote last month. In fact, the Hatch-McConnell constitutional amendment is the most extreme of all the pending proposals. The proposal, by its terms, will neither balance the budget nor pay down the Nation's debt, something everybody says they want. Instead, at a time of partisan brinksmanship that has led to the first-ever downgrading of our country's credit rating this summer and when ideological gridlock is the Republicans' operating principle, it would require supermajorities to pass legislation for the first time in our Nation's history. It would require a supermajority to raise the debt ceiling in times of economic crisis. Did we learn nothing from the disaster we went through last summer, which should have been a routine lifting of the debt ceiling and became a political free-for-all for weeks and months, cost the American taxpayers billions of dollars and caused people to lose their retirement money in the stock market? Do we want to do that again? I hope the Senate rejects this proposal.

Two weeks ago, the Judiciary Committee's Subcommittee on the Constitution held a hearing to examine the Hatch-McConnell proposal. All those witnesses, including those who were invited by the measure's cosponsors, presented thoughtful critiques of this extreme proposal and voiced serious concerns about its wording. Even Republican cosponsors discussed possible

changes to the language in order to better achieve their goals. This is not the proposal that Senator HATCH previously favored. This is one of more than two dozen pending versions. In fact, we were not told which of the many versions of the proposal would be pending until yesterday. This proposal has not been considered by the Constitution Subcommittee or the Judiciary Committee. The House of Representatives has already voted down a less-extreme version of this proposal by a bipartisan majority. Yet here is the Senate of the United States, being forced to vote on some proposal for a constitutional amendment without doing any of the hard work or the votes that are expected to accompany an amendment to America's Constitution. This is no way for the Senate to proceed on a proposed constitutional amendment. This is not some feel-good resolution. We are talking about amending America's charter.

The Hatch-McConnell proposal contains many problematic provisions and it leaves many significant questions unanswered. Section 10 of this proposal relies on estimates for outlays and receipts. We know that economists' estimates and recommendations do not always agree. So what do these proposed constitutional provisions really mean? We know that estimates are not static but ever changing. What if during the course of a fiscal year, there was a natural disaster, a terrorist attack, or a shift in the economy? What then? What if estimates were recalculated or revised, as employment statistics are every month? Would that make every penny expended by the Government over a revised estimate unconstitutional? Would that mean we could not help disaster victims or could not respond to a terrorist attack?

Another provision would limit total outlays for each fiscal year to 18 percent not 16, not 20, not 17.9 of the previous year's Gross Domestic Product (GDP). But who is to decide what the "GDP" was for a particular time period? What is to be included and what is not? How often do those estimates and artificial constructs get revised? Since when do economic surveys and shifting estimates belong in the Constitution? And what policy decision justifies the constitutional permanence of the number 18? I note that not even the budget proposed this year by Representative RYAN and the House Republicans, with all its draconian cuts and the end of Medicare as we know it, would satisfy this arbitrary 18 percent of GDP limit. None of the budgets proposed by or passed under President Reagan, not one, would have satisfied this proposal. At the end of the Bush administration we survived the worst economic downturn since the Great Depression and are now in economic recovery. This is not the time to enact such a measure which would take us in

the wrong direction. We cannot "cut" our way to a balanced budget without imposing great suffering. It would tank the economy rather than aid our continuing recovery.

Besides its arbitrary nature, limiting outlays to 18 percent of the previous year's GDP would leave Congress unable to respond swiftly and effectively to economic downturns and natural disasters. The Hatch-McConnell proposal would require a two-thirds supermajority to spend in excess of 18 percent of the previous year's GDP for a specific purpose. Filibusters and requirements for supermajorities have become routine to the detriment of the American people. They have stymied congressional action on behalf of the American people. This proposal would give a minority in Congress even more power to hold the country and our economy hostage. Have we not seen what that can mean? Have the lessons of the last year been lost on the Senate?

The Hatch-McConnell proposal would make permanent bad policy choices. Section 4 is a transparent attempt to enshrine tax breaks for millionaires and wealthy corporations by requiring a two-thirds supermajority to impose any new tax or even to close existing tax loopholes. We need a balanced approach to fix the deficit problem. And the wealthiest among us are those who least need a heavy hand on the scales in favor of their interests.

Let's look at what has happened. We have fought two unfunded wars. It is the first time in our history that we not only did not pass a tax to pay for a war we are in but actually passed a tax cut and borrowed money to pay for these wars. We squandered the surpluses the last administration inherited, ran up deficits and the national debt.

I would remind everybody, we can achieve a balanced budget. We have done it before. Working with President Clinton, Democrats in Congress voted for a balanced budget. But I don't want to hear lectures from the other side, when every single Republican voted no the last time we had a successful balanced budget. Our strong economy in the Clinton years led to budget surpluses. If we are serious about reducing the deficit and paying down our debt, we need to get to work improving our economy, getting Americans back to work, and continuing to recover from the worst economic conditions since the Great Depression.

One of the most glaring problems with this proposal is it provides no clear enforcement mechanism or standards for enforcement. Section 8 of the Hatch-McConnell proposal expressly prohibits courts from increasing revenues to enforce the amendment, but remains silent on judicial enforcement of the amendment by cutting spending. This proposal assumes our Federal

courts are equipped to enforce this amendment. Do we want to say we will simply relinquish Congress's constitutional power of the purse to an unelected judiciary with no budget experience—something no Congress, Republican or Democratically controlled—has ever done before? Do we want judges deciding fiscal policy? Do we want judges to decide whether we cut Social Security or Medicare?

I recently asked Justice Scalia at a hearing before the Senate Judiciary Committee whether the Federal judiciary was equipped to handle such a task—the same task my friends on the other side of the aisle want the Federal judiciary to do. Do you know how he answered? He laughed. He indicated that budget issues and determining the allocation of resources is not the judiciary's proper role. Of course he is right, and I expect this is one area where all nine members of the Supreme Court would have answered the same. The proponents of this effort to transform courts into budget-cutting bodies are wrong. The Republican proposal does not even make clear who, if anyone, has standing to bring such challenges in court. None of these questions has been adequately debated or considered. Such a drastic change to the time-honored role of the judicial branch of our government should not be written into our Constitution presumptuously.

In addition to all these concerns, the American people need to understand what the real-world effect of such an amendment would be on their daily lives. In the Senate Judiciary Committee, we received alarming testimony from the president-elect of AARP, warning of the damaging effects such a constitutional amendment would have on Social Security, Medicare, and Medicaid. He testified that if such a constitutional amendment were in place today, the average Social Security benefit would be cut by 27 percent. Maybe that is what Members of this body want to do, cut Social Security by 27 percent. I do not. Do they want to balance the budget on the backs of hard-working, lower income, and elderly Americans by drastically cutting the safety net? I would say that is not the answer to our economic challenges, especially as we continue to give tax breaks to millionaires and continue to fight unfunded wars.

The notion of amending the Constitution to require a balanced budget is not new. The Senate rejected balanced budget amendments in 1995, 1996, and 1997. We proved after the Reagan and Bush administrations had tripled the national debt that we could through hard work and legislation, balance the budget. That is what Congress did in the late 1990s. We helped create hundreds of millions of dollars in surpluses that were paying down the national debt. Those surpluses were squandered

by tax cuts for the wealthy and two unfunded wars. That is the cause of our budget imbalance.

We should not, for the first time in American history, amend the Constitution to set fiscal policy. It is a bad idea. It is even more irresponsible to consider doing so when we do not yet understand the full weight of the consequences of who is going to bear the burden.

I have never seen the solemn duty of protecting the Constitution treated in such a cavalier manner as it is today. I have heard many say they revere the Constitution. Let us show it the respect it deserves rather than treating it like a blog entry or a bumper-sticker slogan. Let us not be so vain in this body to think we know better than our Founders and better than the constitutional Framers who preserved our liberties for more than 200 years.

Our constitutional principles have served the test of time. They deserve protection. I will stand with the Constitution. I will stand with the Constitution of this country, and I will oppose this ill-conceived proposal to amend it.

I ask unanimous consent to have printed in the RECORD my full statement, and I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I have the good fortune of serving with Senator LEAHY on the Senate Judiciary Committee. He is the chairman; I am the ranking Republican. In that capacity, we have jurisdiction over constitutional amendments. So I rise to support S.J. Res. 10, which is cosponsored by all 47 Republicans.

I am very pleased we are taking up a balanced budget amendment. The Senate has passed a balanced budget amendment in the past. More recently, it has come close to passing a balanced budget amendment.

I regret that this amendment has not become law. I believe that had the Constitution been amended to require a balanced budget, we would not be faced with the dire budgetary situation that is before us—a \$1.5 trillion deficit for each of the last 2 or 3 years, and maybe as far as we can see into the future if we don't get things under control.

The balanced budget amendment before us is very straightforward. It provides that total outlays shall not exceed total receipts unless each House of Congress, by a two-thirds vote, agrees to do otherwise. It provides spending discipline. Total outlays cannot exceed 18 percent of gross domestic product unless two-thirds of both Houses of Congress vote to waive the cap. The President will be required to submit a balanced budget to the Congress.

To avoid balancing the budget by imposing tax burdens, new taxes or increases in total revenue can be imposed only by a two-thirds vote of both

Houses, and the debt limit will be able to be raised only with concurrence of three-fifths of both Houses.

To provide a level of flexibility in wartime—and that would call for considerable flexibility because wars are never predictable—the provisions on outlays and receipts, total outlays, and the debt limit can be overcome by less than the normal two-thirds vote by a three-fifths vote.

To minimize disruption, the amendment will not take place for 5 years.

Finally, the courts cannot enforce the balanced budget amendment by ordering a tax increase.

Reverence for the Constitution is a sentiment we all share. But the Constitution provides for an amendment process. When it is necessary, each generation has amended the Constitution when a guarantee of free speech or the abolition of slavery or giving women the right to vote required a constitutional amendment. No one has said reverence for the Constitution was the end of the matter.

We have reached that point of necessity with the balanced budget amendment. The Congressional Research Service reports—and I wish to quote a fairly long quote:

The budget deficit each year from 2009 to 2011 has been the highest ever in dollar terms, and significantly higher as a share of GDP than at any time since World War II. Under current policies, the Federal debt is projected to grow more quickly than the GDP, leading observers to term it unsustainable.

That is the end of the quote from the CRS.

The very purpose of the Constitution, according to its preamble—and I know the preamble is not governing on anything we do or what the Supreme Court does, but it shows intention—the preamble was meant to extend the blessings of liberty to ourselves and our posterity—and I want to emphasize that word “posterity.” It is because the growth in the national debt is unsustainable, as I read from the Congressional Research Service, that our posterity may not receive the blessings that several generations of Americans so far have received. It is hard to imagine an amendment more in keeping with the goals of the Constitution than this one. Otherwise, runaway debt will expand exponentially. A permanent spiral can be created in which the debt feeds on itself. We are kind of in that spiral right now. Is it permanent? I sure hope not.

Take a look at Europe today, where we ought to learn lessons about the lack of fiscal soundness. Nations there risk default when they overspend, and they are in that position of almost default now. If we are not careful, our country, the United States, at some point will face the same crisis. It is frightening to contemplate, and particularly frightening as a threat to the blessings we ought to give to generations after us.

We hear from opponents that Congress can balance the budget now without a balanced budget amendment, but the fact is it cannot. For more than 40 years, Congress has been unable to summon the ability to balance the budget. Statutes that sought to provide a path to a balanced budget failed.

Let me speak here about a personal involvement I had when I was a Member of the other body, working with Senator Harry Flood Byrd of Virginia. The Byrd-Grassley amendment was adopted in either 1979 or 1980. It was a statute that was just a few words. It said Congress can't spend any more money than it takes in.

Do you know what happened? For several years after that until it was finally repealed in the early 1990s, Congress delayed it for a year at a time as part of the appropriations process. So statutes are not a good way of making this happen. Gramm-Rudman was probably a little more successful, at least once or twice, but it soon was repealed. By putting something in the Constitution requiring a balanced budget, it is going to discipline Congress in a way that statutes cannot provide discipline; in other words, a constitutional amendment will succeed where statutes have been proven to have failed based upon the examples I gave and other examples that can be given.

The only exception was when we had 3 years going into this century when a financial bubble provided windfall revenues. We all know about that. I believe it is \$568 billion we paid down on the national debt for 4 fiscal years after a Republican Congress was elected in 1994.

Anyway, except for that, we have not been able to have very sound fiscal policy. Then because Congress has been unable to control spending, the budgets have been in deficit and the national debt has increased. The only way Congress will exercise the discipline to balance the budget is if the Constitution forces it to do so.

We can say this from some experience, particularly if you believe the States are the laboratories of our political process and of government policy, because 46 State constitutions require their budgets to be in balance. They meet that requirement. As Members of Congress, we do take an oath to adhere to and defend the Constitution. We take that oath seriously. If the balanced budget amendment became part of the Constitution, we would adhere to it or face the consequences from the voters.

This amendment wisely contains effective tax limitations as an integral part. I have favored a balanced budget with tax limitations for more than 20 years. For decades, Federal spending has far outpaced even the steady and sizable growth in taxes and revenues. Raising taxes does not produce surpluses. The historical fact is they spur

more spending. For every additional dollar in taxes Congress has raised since World War II, it seems as though it has given us a license to spend about \$1.13 for every \$1 that has come in for additional taxes.

Don't take my word for that. A person who studied that for a long period of time, Professor Vedder, of Ohio University, has written about that. You will find his figures just about the same. I think he said on average since World War II, \$1 coming into the Treasury was a license to spend \$1.17 instead of the \$1.13 I give here.

Raising taxes, then, would make balancing the budget harder, not easier. Bring a dollar in here, spend \$1.13. You hardly get ahead. It seems we cannot ever reach an agreement of how high taxes have to be in this body to satisfy the appetite of Congress to spend money. That is not just a Democratic problem, that is a problem on both sides of the aisle here in Congress.

That brings us to this issue about a supermajority requirement for tax increases. A balanced budget amendment may well encourage tax increases, fueling greater spending and the continuation of additional debt and costs in servicing that debt. The failure to balance the budget is a fiscal issue of greatest importance.

But getting back to our obligations to posterity under our Constitution, it is also a moral issue. Maybe the moral aspects of it are more important than the economic aspects of it. Without a balanced budget amendment, our children and grandchildren will pay for this generation's chronic inability to live within its means. We live high on the hog and worry about our children and grandchildren paying for it.

In the absence of an amendment, the standard of living of future generations will likely decline. The fears of many Americans that the next generation will not live as well as this one are in many respects traceable to decades of fiscal irresponsibility on the part of Congress. This balanced budget amendment would mean a stronger economy. It would surely mean good government, as fiscal responsibility ought to be a part of good government. Obviously people are concerned now about the problem of jobs. Employers are particularly concerned that Congress does not have a sound fiscal policy. That leads them not to hire anybody. A balanced budget is going to mean more jobs.

I believe the American people are willing to do their part to prevent future generations from being saddled with an unconscionable level of debt. They are willing to do so even if it means that some Federal spending they support would be affected. This is especially true if our budgeting is done fairly.

I believe if one listens closely to the arguments of the opponents of this

measure, one will hear more arguments against a balanced budget than against a balanced budget amendment. There will need to be difficult actions taken. It is those difficulties that have prevented Congress from balancing the budget. Those difficulties are, therefore, reasons for a constitutional amendment, not reasons against a constitutional amendment. But balancing the budget is necessary and it will take an amendment to the Constitution of the United States of America to make sure it is done consistently.

We also hear arguments about the need to run deficits when the economy is in a recession. That kind of brings us to where we are right now. We have been in a recession for 3 years. The amendment before us permits Congress to vote to run a deficit in that situation, but be skeptical of that argument. If deficits and debt gave us a strong economy, right now we would be in the midst of the greatest economic boom in our history. Obviously we are not in that economic boom. Deficits of \$1 trillion-plus and a national debt of \$15 trillion are not stabilizing the economy in the way that people who argue that maybe in a time of recession you ought to have a lot of deficit spending have claimed.

In fact, I believe the size of the deficit and debt is one reason the economy is not performing well. The size of looming deficits and debt is another. The markets are not viewing the debt as stabilizing a weak economy. Rather, they view it correctly as a drag on the economy. That is why jobs are not being created. That is why corporations have \$1 trillion in their treasuries in the United States, \$1 trillion in their treasuries overseas, \$2 trillion that is not being spent, that is not making corporations any money. It is lying there. They want to invest it in jobs and machinery and get the economy going and make more money.

On the issue of enforcement, the opponents attack straw men. They say either that the amendment cannot be enforced, so it is toothless, or they say the courts will enforce it, leading to chaos. Both of these arguments cannot be true. This amendment will be enforced by the President submitting a balanced budget and Congress complying with the amendment, as do State legislators all over the country. Members take an oath and voters will punish those who do not obey the constitutional command.

With respect to the courts, the text of the amendment prohibits courts from raising taxes. Of course, judicial standing requirements, ripeness, and the doctrine of political questions will mean that the courts will continue to lack the power of the purse, as has been the case throughout 225 years of history of our country.

In the past dozen years, Congress has been unable to balance the budget even

when times are good. Had we passed a balanced budget amendment when it was before us in the past, we would not have racked up the huge deficits that now confront us.

We have heard in the past that a balanced budget amendment was not necessary because Congress could balance the budget on its own. We know how successful Congress has been doing that. Those arguments were wrong. Today we face one of the worst debt pictures in our history. If nothing is done, the future will be even worse. We owe a responsibility to the American people and to future generations to maintain the fiscal discipline that has allowed us to be the world's biggest economy.

Our pleas for a balanced budget amendment have been denied by its opponents in the past. We warned at that time what road lay ahead if we failed to pass a balanced budget amendment. Time has unfortunately proved us right. It is not too late if we act now, but time is growing shorter each year.

I urge my colleagues to do the right thing and enact a constitutional requirement that the budget be balanced.

I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. UDALL of Colorado. Mr. President, I rise to speak in favor of legislation I have authored to amend the United States Constitution to require that Congress balance the Federal budget. The Senate's debate on the balanced budget amendment, which will occur over the next few days, is an incredibly important debate. It is a debate that will spark a wide range of emotions and it will test our policies, goals, and philosophies. Thus, I want to recognize at the outset that we hold strong and differing opinions about the wisdom of adding a balanced budget amendment to our U.S. Constitution. Amending the Constitution is not something any of us in the Senate takes lightly. In fact, we have only amended our Constitution some 27 times in the history of our Nation. Our Founding Fathers in their wisdom designed the Constitution to discourage amendments. They created a high hurdle to clear before an amendment can be passed by the Congress and ratified by the States.

I intend today to make a case for why my proposal, which has been cosponsored by several of our colleagues, meets that elevated standard. Today I aim to explain why this balanced budget amendment will help restore the fiscal health of our Nation, protect our national security, and spur our future competitiveness in the global economic race.

Let me start by discussing some basic facts that color this debate. First, our government debt now totals over \$15 trillion. That is \$48,000 for every man, woman, and child in our

country. Let me say that again: \$48,000 for every man, woman, and child. Moreover, we borrow 40 cents of every dollar that the Federal Government spends. The total amount of public debt now held by us equals 68 percent, almost 69 percent, of our gross domestic product. That reflects a level rarely seen in our country's history.

Finally, in August of this year, one of the major credit agencies downgraded our Nation's credit rating because of Congress's inability to work in a bipartisan manner to reduce our debt. I don't think I have to tell the viewers that the last thing our struggling economy or job creation efforts needed was that downgrade. It is little wonder that Americans hold us in such low regard or that other countries wonder what we are doing in the Nation's Capitol.

I could go on and on, but I will not. These facts are appalling enough to most Americans. These are hard-working Americans who balance their checkbooks on a weekly and monthly basis. It is appalling to me that Congress is so unable to resist the temptation to spend without limit while also trying to keep taxes as low as possible. We have even been willing to watch the debt grow to a level where national security experts are telling us that our own self-created problem is a bigger threat than any of our enemies.

In the last several years Congress has taken steps to try to reach an agreement on how to reduce our deficit and pay down our debt. Many of us have spent countless hours working in bipartisan groups to chart a commonsense balanced debt reduction plan. I have not given up hope that we may eventually reach a comprehensive plan to cut spending, reform the Tax Code, and shore up programs such as Social Security and Medicare which are critical to our Nation's middle class. To give up on that goal would be to say to hard-working Americans, we are not serious about ensuring that the American dream is within everyone's reach. After watching Congress struggle to reach even a basic plan to cut spending or reasonably raise new revenues to pay our bills, I am convinced we need additional tools that force fiscal discipline. If we don't put limits on how Congress does its budgeting, the question won't be whether we can stop the bleeding, it will be how much do we cut to the bone or even into vital organs the programs that we value. In other words, without some fundamental reforms now, the foundations of our government will be severely weakened later.

To be sure, a balanced budget amendment will not solve the problem on its own, but a reasonable balanced budget amendment would help us ensure we never get into this position again. Passing my middle-ground, commonsense balanced budget amendment would send a strong signal to the finan-

cial markets, U.S. businesses, and the American people that we are serious about stabilizing our budget for the long term. That is the signal they want to see to give them the confidence to expand and create jobs.

Before I move to making the case for specifics in my balanced budget proposal, I want to make a few points about exactly how our skyrocketing national debt affects all of us. As a start, our debt threatens investments we need to make. It harms our ability to compete with countries around the world, it inhibits job growth here at home, and it dampens our innovative spirit. If we don't address our debt now, it would sap the economic power that has enabled our Nation to become the most powerful force on the globe.

Throughout most of our history—perhaps aside from the Great Depression—our economic strength has enabled the United States to create an environment that is good for business. This strength has then helped our own people on our Main Streets thrive in communities all over Colorado and across our Nation, and it has meant that every generation has been able to build on their parents' success, seize opportunity, and live the American dream. We all know this is what has made the United States exceptional. But today across our great country, families are wondering whether the American dream is still within their reach. Whether you are a college graduate and living at home because you are unable to find a job or a middle-aged factory worker laid off for the second or the third time struggling to pay your bills, our economic future seems a bit tougher.

Our country has endured a terrible economic slump for over 3 years now. In order to move quickly to turn things around, we need businesses to hire again. Business and community leaders across Colorado and elsewhere have told me that in order to have the confidence to do that, they need to know our national debt is not poised to send our economy off a cliff. The cochairman of President Obama's bipartisan commission on debt reduction tapped into that sentiment and called our debt a cancer that is eating away at our economic health. Beyond pure economic factors, our growing debt burdens us more broadly.

The former Chairman of the Joint Chiefs of Staff, for whom we all have enormous respect, ADM Mike Mullen, warned that our national debt is "the single biggest threat to our national security." By now these are familiar arguments here on the floor of the Senate. We know the challenges that confront us. The problem is Congress is not doing what every economist and every one of us in this body acknowledges we must do, and that is get our out-of-control budget under control. We all have our theories for why this is

the case. I personally believe that part of the problem is the nature of Congress itself. We are all temporary single Members of a greater body. We each have our own constituents, goals, and responsibilities. It is sure tempting to come to Washington, fight like hell for our corner of the Nation, and lose sight of or willfully ignore the bigger picture. As Members of Congress, it seems as if we are hardwired to fight for results that are important to our constituents and our political ideologies.

Let me give you a couple of examples. Democrats are reticent to support meaningful adjustments in entitlement spending, and many of my Republican friends turn a blind eye to the revenues needed to support retiring baby boomers and our national security needs.

My father, who had the great privilege of serving for 30 years in the House of Representatives as a Congressman from southern Arizona, witnessed this same phenomenon several decades ago, and he used to recall the advice that was given to freshmen House Members. That advice was: "If you want to get ahead in Congress, do two things—vote for every appropriations bill and against every tax bill."

In many ways the Federal budget deficits we face are so daunting today because too many Members of Congress have taken that advice literally over the past decades, but also because it is what Americans expected of us. It is only natural that people want the best of both worlds. We cannot continue down this budgetary path and hope that the results will be any different than they have been in the past.

In fact, the results get worse by the day. Based on what I hear from Coloradans, our constituents are now ready to make a little sacrifice. They are ready for us to make some tough decisions that may cause a little budget pain. Americans now get it, and that is why it is time for some serious action. A balanced budget amendment to our Constitution is serious action. It would require us to consider our larger, collective obligation to the national economy.

I will admit that my support of the balanced budget amendment has not made me particularly popular with some of my Democratic colleagues. Democrats traditionally have not been big fans of the balanced budget amendment idea. These days Democrats are suspicious that balanced budget proposals are a Trojan horse. They look good on the surface, but actually they are designed to further dismantle government programs that most Americans value. But a few decades ago Democrats were leading the charge for a reasonable balanced budget amendment.

Most notably, Senator Paul Simon of Illinois—a progressive and serious-minded legislator—was perhaps the

greatest champion of a balanced budget, and I want to share with my colleagues some of his words. In debating the balanced budget amendment in 1993, Senator Simon said the following, which he addressed to his fellow progressives:

I am here to tell you that the course we are on, unless it is changed soon, absolutely threatens all of the programs that you and I have fought for and believe in so strongly. The fiscal folly that we followed for more than a decade has brought us to a crossroads. We face a basic decision, whether through default or through our actions to choose wisely the course that will lead us away from the brink.

If we do not act, interest payouts will spiral upward until they consume not only Social Security but health care, education, transportation investments—every need on our national agenda. My warning to you today is that a rising tide of red ink sinks all boats.

That is a powerful warning from a very wise and respected colleague. His warning is even more serious in December of 2011 than it was in 1993.

There are not any easy answers here, especially since our aging population and the post-9/11 national security needs have squeezed our Nation's budget in ways we have seldom seen in our country's history. But it is time for us to listen to hard-working Americans who are telling us loudly and clearly, make the tough decisions necessary to get our national debt under control. So I say to my colleagues here today, it is time to put aside our political differences, check ultimatums at the door, work across the aisle, and challenge ourselves to put our country first.

I want to reiterate a point I made earlier, which is that a balanced budget amendment is not the sole answer to the problems we face. It is not a perfect solution, and I recognize that. For example, it will not help us deal with our current debt, much less reduce it. For that we need a comprehensive plan along the lines of the recommendations of President Obama's bipartisan commission. It has been headed by former Clinton Chief of Staff Erskine Bowles and former Senator Al Simpson.

Two years ago I helped create the Bowles-Simpson Commission, and I continue to believe its recommendations, which would lower the debt by more than \$4 trillion over the next decade, are the best place to start on a path toward fiscal soundness. Let's own up to the mistakes of our past and take charge of the opportunity staring us in the face by passing the Bowles-Simpson debt reduction plan. That plan would require all of us to put some skin in the game, and it represents our best path to balance our books.

I have also fought for bipartisan proposals to create a Presidential line-item veto to ban earmarks and to enforce pay-as-you-go budgeting. These should all be and could be and must be

tools in our responsible budgeting toolbox. Even though we have to find the courage to get our current fiscal house in order, we also need to have stronger rules in place to ensure Congress is not tempted to fall off the wagon in the future. In my view, passing a balanced budget amendment to prevent us from ever again trading fiscal responsibility for political expediency is a critical step we must take.

That long windup brings me to the balanced budget amendment proposals under debate in the U.S. Congress today. Let me start by saying that I was pleasantly surprised to see last month the U.S. House of Representatives pursue a balanced budget amendment that was more realistic than what some of my Republican colleagues here in the U.S. Senate have proposed. The House proposal required a balanced budget unless three-fifths of the House and Senate agreed there was an economic downturn, a national disaster, or another emergency that required temporary expenditures and increases thereon.

It was a straightforward measure, and it was designed to garner a broad range of support. However, the House proposal fell short by nearly two dozen votes, largely because it did not win enough support from Democrats. As we know, in order for a balanced budget amendment to succeed, it must be bipartisan. So I was surprised to see that after the House balanced budget amendment failed, instead of seeking to find consensus with those who could bring along additional Democratic votes like me, my colleagues in the Senate on the other side of the aisle, led by my dear friend Senator HATCH, have taken an altogether different route.

There are important differences between the two approaches the Senate will vote on this week, my amendment and Senator HATCH's amendment. So I want to spend some time differentiating between the two proposals because they represent two philosophically different ideas. We will have a vote on both of these proposals later this week.

Balancing our books is a simple equation based on the principle that our Nation is healthier without an unreasonably large debt load. Members of both parties can agree on that. Yet Senator HATCH's proposal goes a number of steps further and seemingly seeks to shrink government altogether. Not only does it require an unwieldy two-thirds majority to waive it in case of national emergencies, it also locks in special interest tax breaks and could weaken Social Security, Medicare, and other important programs that are supported by a vast majority of Americans.

Ironically, Senator HATCH's proposal—at least by some analyses—could jeopardize our national defense as well. Why do I say that?

I see my dear friend on the Senate floor. I look forward to engaging with him over the course of this important debate.

The Republican proposal prevents government from spending more than 18 percent of gross domestic product, which is less than the historical average, less than what George W. Bush spent, less than what Ronald Reagan spent, and less than what is required to care for our Nation's seniors and protect our homeland against terrorist attacks. Quite simply, to my way of looking at this, Senator HATCH's alternative proposal goes too far and has the potential to harm our middle class and future economic growth.

So what am I proposing? Well, let me tell you what I think my proposal would do, and I would note that it is cosponsored by a number of my colleagues from across the country.

My amendment would allow us to avoid the mistakes of the last decade without locking ourselves into a requirement that could tie our hands in an emergency. In such a case, if we tie our hands, we could make our economy worse for the middle class and small businesses and therefore for all of us.

My balanced budget amendment proposes and incorporates a big dose of Colorado common sense. It is aimed at finding common ground that both parties and a big majority of Americans can support. It starts with a strict requirement for balancing our books. My proposal would then allow deficits only when three-fifths of the House and Senate vote to address serious economic downturns or a war or other emergencies. However, it would also prevent some of the worst mistakes Congress has made in the past 10 years. For example, it would prevent deficit-busting tax breaks for Americans who earn \$1 million or more per year. I think the Presiding Officer and I have a fundamental question. We wonder why we should continue to give tax breaks to the wealthiest among us during times when we are running huge deficits and aggregating debt like never before.

My amendment would also create a Social Security lockbox to keep Congress from raiding the trust fund to hide the true size of our annual deficits. Right now, the Treasury Department owes close to \$3 trillion to the Social Security Administration. What I want to do is to see that never again is Social Security used as a slush fund to remedy our budgeting problems.

In sum, my proposal upholds the principle that we should pay for our government in a responsible manner, with waiver authority to be used only in exceptional circumstances. I think most Americans could agree to that. Coloradans certainly do.

I encourage all of my colleagues to acknowledge that passing a balanced budget amendment will require some flexibility and cooperation, and my

version is designed to do just that. It is meant to bridge the divide between us.

The American people are demanding that we get our fiscal house in order. As usual, they are a few steps ahead of us. We have an opportunity to catch up to the American people. So I am here on the floor of the Senate today to ask my colleagues of both parties and both Chambers to support my proposal. As I have said, amending the Constitution may not be the solution desired by many in this Chamber. It is not something to be done without great thought. I, therefore, look forward to an honest and spirited dialog about the balanced budget amendment. I look forward to discussing the best ways to dig ourselves out from under our suffocating debt in a way that will encourage investment and job creation and help Americans and small businesses feel secure about their economic future. Our children's future depends on it.

I yield the floor.

THE PRESIDING OFFICER (Mr. FRANKEN). The Senator from Utah.

Mr. HATCH. Mr. President, I care a great deal for my colleague from Colorado, and I appreciate his explanation of his amendment. Unfortunately, as I view his amendment, it might work as long as you accept the ratchet up of spending and taxing. That is what we are trying to stop around here. His S.J. Res 24 would be a band-aid on the system. It does not address the cause of our unbalanced budgets. An amendment that does not limit spending and does not limit taxes will never solve this crisis. It is just that simple. And to work, they have to use budget gimmicks.

I wish to begin by thanking my friend, the ranking member of the Judiciary Committee, Senator GRASSLEY. In his service on the committee, he has always been a champion of our limited government, and with his remarks today he has again proven himself a strong advocate of constitutional government. So, too, my good friend and collaborator on a balanced budget amendment, Senator CORNYN, deserves recognition, as well as my partner in the Senate, MIKE LEE, and a whole raft of others—47, to be exact. Earlier today, Senator CORNYN highlighted admirably the threat our debt poses to the liberty and prosperity of all of America's citizens. And although he has not spoken yet, I know in advance that my friend and colleague from Utah, Senator MIKE LEE, with whom I worked closely in drafting S.J. Res 10, will deliver powerful remarks later today in support of this amendment and about the importance of restoring meaningful limits on the power of the Federal Government.

Today we are engaged in a historic debate. You might not know it from the amount of time dedicated to the subject, but I am confident that when

the history of our country is written, today will be marked as a turning point.

Today is the day that every Republican in the Senate stood up for a strong balanced budget amendment that will begin to restore this Nation's fiscal integrity. It is the day that conservatives stood up and supported a constitutional amendment that would reset the limit on the size and power of a federal government that has grown far too large. It is the day that the people of this country stood up for serious constitutional limits on Congress and the President, who have spent with impunity for far too long.

We are having this debate for a simple reason: Our Nation is now \$15 trillion—actually more than \$15 trillion and going up every day—in debt. This chart shows just how much it was just a few minutes ago. It is important to put this number in perspective.

The Nation achieved the ignominious landmark of a trillion-dollar deficit in President Obama's first year in office. We are now in our third straight year of trillion-dollar deficits. The Federal Government is now borrowing more than 40 cents of every dollar it spends. The burden of this debt is more than \$48,000 for every man, woman, and child in America.

The Congressional Budget Office projects that interest payments alone on all of this debt will total \$4.5 trillion, crowding out many other national priorities. For 2010, spending on interest on the national debt is greater than the funding for most other Federal programs. Let's look at that. As you can see, in 1 year, spending on interest on the national debt is greater than funding for most programs—\$656.7 billion for the Department of Defense; \$414 billion for interest expense; \$173 billion for the Department of Labor; \$129 billion for the Department of Agriculture; \$108 billion for the Department of Veterans Affairs; and just one other I will mention, \$92.9 billion for the Department of Education.

Well, the impact of this quickly escalating debt burden could prove catastrophic for economic growth and for American families. In a letter to the then-ranking member of the House Budget Committee, PAUL RYAN, the Congressional Budget Office determined that "beyond 2058, projected deficits in the alternative fiscal scenario become so large and unsustainable that CBO's model cannot calculate their effects." That ought to tell you something. In other words, the CBO model crashes when it even attempts to calculate the impact of all of this debt on economic growth. Yet all of these numbers might be understating the Nation's debt burden. What happens if interest rates rise? Right now they are at historic lows, but that will not always be the case, and we are figuring on historic lows right now as though they are going to continue.

According to CBO's alternative fiscal scenario, which is our most realistic fiscal scenario, debt held by the public will reach 82 percent of GDP by 2021. Now, that is if they are right, and they have never been right yet over the long term; they are always low. Absent real fiscal reforms, it will reach 100 percent of GDP by 2035. But this does not tell the whole bleak story. The fact is, when you include the IOUs the government has issued to itself, intergovernmental holdings, our debt is already at 100 percent of GDP—larger than our entire economy.

When are our friends on the other side going to start thinking about these things and start realizing that they are taking us right down into bankruptcy in this country? This debt burden we have is simply not sustainable. If interest rates go back to their average in the 1990s, our public debt will increase by 77 percent over even these grim estimates I have just mentioned. We are spending at historical highs and going higher, and with interest on the debt taking a larger and larger share of spending, we need to be very concerned as a nation that we are entering a debt spiral from which we will have a difficult time extricating ourselves.

For these reasons, ADM Mike Mullen, former Chairman of the Joint Chiefs of Staff, concluded that our national debt is the "biggest threat we have to our national security." For these reasons, Standard & Poor's issued its historic downgrade of U.S. Treasuries this past summer.

The impact of this debt is more than academic; it will eventually lead to higher interest rates for all Americans, undermining the ability of people to purchase a home, buy a car, or even start a business. Most importantly, it will fundamentally alter the relationship of citizens to their government. It will further undermine personal liberty. It will lead to more government control of the economy. And it will jeopardize the livelihoods of American business owners and workers as ever-escalating debt and government spending embolden those who seek higher taxes to finance this levitation.

The solution to this problem is S.J. Res. 10, the balanced budget amendment supported by every Senate Republican, all 47 of us.

In the time I have been fortunate enough to serve the people of Utah, I have sponsored 5 balanced budget amendments and have been an original cosponsor of 18. These amendments have not been identical. Their provisions have been honed over time. I am confident this version strikes just the right balance.

It is the right amendment for the right time. We face a crisis of spending and a government that has clearly exploded in size. This constitutional amendment is the only one that will be

debated this week that will address that crisis and would reduce the size of this Leviathan government.

The President has strongly opposed not only this balanced budget amendment but any balanced budget amendment. As he said: "We don't need a constitutional amendment to do our jobs." My goodness. That is what he said on July 15 of this year.

I wish to spend a few moments considering the President's claim. The President claimed that a balanced budget amendment is not necessary because "the Constitution already tells us to do our jobs—and to make sure that the government is living within its means and making responsible choices."

The President's spokesman, Jay Carney, elaborated in greater detail on why a balanced budget amendment is not necessary. According to him, balancing the budget is "not complicated." All that is needed is that we put politics aside, quit ducking responsibility, and roll up our sleeves and get to work. Yet all I hear from the White House is that we have to have more taxes and more spending.

This is the lament of the tough chooser, a term coined by the journalist Andrew Ferguson. The tough chooser talks a lot about making tough choices. But when it comes to actually making them, the tough chooser goes missing.

Tough choosers, concerned about our deficits and debt, voted for ObamaCare, even though it increased spending by \$2.6 trillion and taxes by over \$1 trillion.

Tough choosers reject a balanced budget amendment because all that is required, in their view, is some tough choosing by legislators. The problem with this theory is that the so-called tough choosers never step up.

The past history of the balanced budget amendment is all the evidence we need that a constitutional amendment is required to force legislators and the White House to make these tough choices. But given President Obama's rejection of the balanced budget amendment, it is worth considering his own actions this year and his personal contributions to deficit reduction. That record is a weak one of denial and avoidance.

Following the clear statement of the American people last November that Washington needed to address deficits and debt, the President had an opportunity to lead with his fiscal year 2012 budget. Yet this is how the Washington Post described the impact of that budget. After next year, "the deficit will begin to fall, settling around \$600 billion a year through 2018, when it would once again begin to climb as a growing number of retirees tapped into Social Security and Medicare."

So the President, who today is telling us that he and Congress are willing

to buckle down and make tough choices to balance the Nation's books, gave us a budget that did little to put this country on a path toward long-term fiscal sustainability.

The President's budget landed with such a thud and was so unresponsive to the desire of the American people to tackle the debt, that he took a muligan and attempted a budget do-over in the Spring. In an April 13 speech at George Washington University, President Obama offered a revised budget. True to form, he did not stick his neck out and actually offer anything that could be scored by the CBO. Yet Republicans did analyze the President's speech, and after stripping out the gimmicks and the rosy scenarios, they found that far from making any tough choices, his do-over actually added \$2.2 trillion to the deficit.

This avoidance of tough choosing by Washington's tough choosers is, unfortunately, the norm.

We have heard the President's argument before. I have heard it now for 35 years, maybe not just from him but from others as well. We hear it every time a balanced budget amendment comes to the floor and is debated in the Senate. The opponents claim there is no need for a balanced budget amendment; all that is necessary is that we put politics aside and make the tough choices.

So how is that working out for our country?

When I introduced my first balanced budget amendment in 1979, the national debt was \$827 billion. We thought that was astronomical. In 1982, when the Senate passed a balanced budget amendment that I cosponsored, the national debt had risen to \$1.1 trillion. In 1986, when the Senate failed by one vote to pass a balanced budget amendment that I cosponsored, the national debt topped \$2.1 trillion. By 1997, when this body voted on a balanced budget amendment that I introduced, the national debt had passed the \$5 trillion mark. Today, it is three times that amount—over \$15 trillion.

The record is clear. Absent the constitutional restraint of a balanced budget amendment, Congress and the President do not make the tough choices. Instead, they take the path of least resistance. They gladly disperse Federal dollars today—to grateful special interests—and then figure out a way to pay for it tomorrow, except they never figure out the way.

This is not the political and economic philosophy of the Founders, who warned at the birth of our Republic against debt and overspending. That is the political philosophy of J. Wellington Wimpy, who would "gladly pay you Tuesday for a hamburger today."

A balanced budget amendment is not an abdication of Congress's responsibility. On the contrary, it would force Congress to live up to its responsibility

ities. It would force Congress and the President to make the choices about national spending priorities they have thus far been unwilling to make.

I don't think there are many Americans who question whether our fiscal situation would be better today if we had enacted and the States had ratified a constitutional amendment when Ronald Reagan was President.

This is where we are headed as a country if we don't get our fiscal house in order. We are headed off a cliff. I could have put up a map of Greece, but that might have understated our predicament.

Yet to hear the opponents of a balanced budget amendment talk, one would think the problem we face as a country is the amendment, not the out-of-control spending that demands such an amendment.

These misplaced priorities fundamentally understate how much government spending is accelerating in this country and the threat this spending poses for personal liberty, constitutionally limited government, and free enterprise.

As I noted earlier, our true debt burden is already 100 percent of GDP. This is very dangerous territory. According to the economists Carmen Reinhart and Kenneth Rogoff, public debt burdens above 90 percent of GDP are associated with 1-percent lower economic growth.

I ask unanimous consent that a short article outlining their thesis be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From Bloomberg.com, July 14, 2011]

TOO MUCH DEBT MEANS THE ECONOMY CAN'T GROW: REINHART AND ROGOFF

(By Carmen M. Reinhart and Kenneth S. Rogoff)

As public debt in advanced countries reaches levels not seen since the end of World War II, there is considerable debate about the urgency of taming deficits with the aim of stabilizing and ultimately reducing debt as a percentage of gross domestic product.

Our empirical research on the history of financial crises and the relationship between growth and public liabilities supports the view that current debt trajectories are a risk to long-term growth and stability, with many advanced economies already reaching or exceeding the important marker of 90 percent of GDP. Nevertheless, many prominent public intellectuals continue to argue that debt phobia is wildly overblown. Countries such as the U.S., Japan and the U.K. aren't like Greece, nor does the market treat them as such.

Indeed, there is a growing perception that today's low interest rates for the debt of advanced economies offer a compelling reason to begin another round of massive fiscal stimulus. If Asian nations are spinning off huge excess savings partly as a byproduct of measures that effectively force low-income savers to put their money in bank accounts with low government-imposed interest-rate ceilings—why not take advantage of the cheap money?

Although we agree that governments must exercise caution in gradually reducing crisis-response spending, we think it would be folly to take comfort in today's low borrowing costs, much less to interpret them as an "all clear" signal for a further explosion of debt.

Several studies of financial crises show that interest rates seldom indicate problems long in advance. In fact, we should probably be particularly concerned today because a growing share of advanced country debt is held by official creditors whose current willingness to forego short-term returns doesn't guarantee there will be a captive audience for debt in perpetuity.

Those who would point to low servicing costs should remember that market interest rates can change like the weather. Debt levels, by contrast, can't be brought down quickly. Even though politicians everywhere like to argue that their country will expand its way out of debt, our historical research suggests that growth alone is rarely enough to achieve that with the debt levels we are experiencing today.

While we expect to see more than one member of the Organization for Economic Cooperation and Development default or restructure their debt before the European crisis is resolved, that isn't the greatest threat to most advanced economies. The biggest risk is that debt will accumulate until the overhang weighs on growth.

#### HISTORICAL PRECEDENTS

At what point does indebtedness become a problem? In our study "Growth in a Time of Debt," we found relatively little association between public liabilities and growth for debt levels of less than 90 percent of GDP. But burdens above 90 percent are associated with 1 percent lower median growth. Our results are based on a data set of public debt covering 44 countries for up to 200 years. The annual data set incorporates more than 3,700 observations spanning a wide range of political and historical circumstances, legal structures and monetary regimes.

We aren't suggesting there is a bright red line at 90 percent; our results don't imply that 89 percent is a safe debt level, or that 91 percent is necessarily catastrophic. Anyone familiar with doing empirical research understands that vulnerability to crises and anemic growth seldom depends on a single factor such as public debt. However, our study of crises shows that public obligations are often hidden and significantly larger than official figures suggest.

#### CREATIVE ACCOUNTING DEVICES

In addition, off-balance sheet guarantees and other creative accounting devices make it even harder to assess the true nature of a country's debt until a crisis forces everything out into the open. (Just think of the giant U.S. mortgage lenders Fannie Mae and Freddie Mac, whose debt was never officially guaranteed before the 2008 meltdown.)

There also is the question of how broad a measure of public debt to use. Our empirical work concentrates on central-government obligations because state and local data are so limited across time and countries, and government guarantees, as noted, are difficult to quantify over time. (Until we developed our data set, no long-dated cross-country information on central government debt existed.) But state and local debt are important because they so frequently trigger federal government bailouts in a crisis. Official figures for state debts don't include chronic late payments (arrears), which are substantial in Illinois and California, for example.

#### PUBLIC AND PRIVATE DEBT

Indeed, it isn't unusual for governments to absorb large chunks of troubled private debt

in a crisis. Taking this into account, chart 1, attached, shows the extraordinarily high level of overall U.S. debts, public and private.

In addition to ex-ante or ex-post government guarantees and other forms of "hidden debts," any discussion of public liabilities should take into account the demographic challenges across the industrialized world. Our 90 percent threshold is largely based on earlier periods when old-age pensions and health-care costs hadn't grown to anything near the size they are today. Surely this makes the burden of debt greater.

There is a growing sense that inflation is the endgame to debt buildups. For emerging markets that has often been the case, but for advanced economies, the historical correlation is weaker. Part of the reason for this apparent paradox may be that, especially after World War II, many governments enacted policies that amounted to heavy financial repression, including interest-rate ceilings and non-market debt placement. Low statutory interest rates allowed governments to reduce real debt burdens through moderate inflation over a sustained period. Of course, this time could be different, and we shouldn't entirely dismiss the possibility of elevated inflation as the antidote to debt.

#### EXTREMELY RARE

Those who remain unconvinced that rising debt levels pose a risk to growth should ask themselves why, historically, levels of debt of more than 90 percent of GDP are relatively rare and those exceeding 120 percent are extremely rare (see attached chart 2 for U.S. public debt since 1790). Is it because generations of politicians failed to realize that they could have kept spending without risk? Or, more likely, is it because at some point, even advanced economies hit a ceiling where the pressure of rising borrowing costs forces policy makers to increase tax rates and cut government spending, sometimes precipitously, and sometimes in conjunction with inflation and financial repression (which is also a tax)?

Even absent high interest rates, as Japan highlights, debt overhangs are a hindrance to growth.

The relationship between growth, inflation and debt, no doubt, merits further study; it is a question that cannot be settled with mere rhetoric, no matter how superficially convincing.

In the meantime, historical experience and early examination of new data suggest the need to be cautious about surrendering to "this-time-is-different" syndrome and decreeing that surging government debt isn't as significant a problem in the present as it was in the past.

Mr. HATCH. Mr. President, while one might quibble with the particulars of Reinhart's and Rogoff's assessment, failure to take it seriously, given the recent struggles of the eurozone, amounts to whistling past the graveyard.

To be clear, the long-term source of our fiscal problem is overspending, not a lack of revenue. Our friends at the Heritage Foundation have done an excellent job of putting all this spending into historical perspective.

I will run through some charts highlighting just how unusual and unsustainable recent levels of Federal spending have become. Any way we cut it, spending is up. Federal spending per household is skyrocketing, even with

the \$2.1 trillion in deficit reduction achieved by this summer's Budget Control Act.

In 1965, Federal spending per household was \$11,431. In 2010, it was \$29,401. It is projected to hit \$35,773 in 2020. That is per household.

Federal spending is growing faster than median income. Between 1970 and 2009, total Federal spending rose by 299 percent, while median household income has gone up 27 percent in the same time period.

Federal spending that is far out of line with historical averages is the cause of our annual deficits and total debt—not the much reviled 2001 and 2003 tax relief extended by President Obama and a Democratic Congress.

Historically, revenues have averaged around 18 percent of GDP. As the economy recovers, CBO projects revenues to return to that historical average. Yet spending is going higher and higher.

The end result of all this spending is not pretty to look at. Our national debt is going to skyrocket. Up to 344 percent by 2050.

The problem the Senate Republican balanced budget amendment is meant to address is reckless spending. We will hear many arguments against this amendment. We will hear it prevents tax increases. We will hear it prevents deficit spending in an economic downturn. We will hear it hamstring the Nation in times of military emergency and that it prevents spending in excess of 18 percent of GDP.

It does no such thing. What it does do is require a broad national consensus before Congress spends beyond its means. It makes certain that there is deep bipartisan agreement before raising taxes—a provision the Nation would have benefited from prior to the decision of the President and congressional Democrats to drive through \$1 trillion in ObamaCare tax increases on nearly party-line votes, and it demands wide support for spending in excess of 18 percent of GDP.

As my friends at Americans for Prosperity put it in their letter of support for the Republican proposal, the amendment "strikes a balance between allowing flexibility for some deficit spending in times of national emergency, while requiring supermajorities in both Chambers to do so. This assures citizens that the Federal Government will only run a deficit when there is broad consensus that a genuine crisis demands it."

That sounds like pretty good language to me.

I ask unanimous consent that that letter from Americans for Prosperity be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

AMERICANS FOR PROSPERITY,

March 31, 2011.

DEAR SENATOR HATCH AND COSPONSORS: On behalf of more than 1.7 million Americans

for Prosperity (AFP) activists in all 50 states, I applaud you for proposing a balanced budget amendment to the United States Constitution that includes a strong limit on total federal spending. Over the past decade or so, it has become increasingly clear that unless there are firm constitutional guardrails to constrain federal spending elected officials are either unable or unwilling to overcome the institutional forces that facilitate endless profligacy. Your proposed amendment seeks to establish those guardrails in a responsible and, hopefully, effective way.

One of the most important provisions in your proposed amendment is a spending cap that would limit federal outlays to 18 percent of GDP. This limitation reflects a proper vision of limited government and the relationship of spending to GDP in the post-WWII period. Additionally, by insisting that spending is restrained in order to balance the budget you guard against the amendment being hijacked and distorted to advance economically-destructive tax increases.

Your amendment also strikes a balance between allowing flexibility for some deficit spending in times of national emergency, while requiring supermajorities in both chambers to do so. This assures citizens that the federal government will only run a deficit when there is a broad consensus that a genuine crisis demands it.

Several other provisions nicely round out your balanced budget amendment. Your insistence on two-thirds majority vote to approve tax increases or spending above 18 percent of GDP is laudable. Your measure to prohibit courts from legislating tax increases from the bench is important and prescient. Finally, a five-year transitional period from ratification to legal efficacy will give budgeteers enough notice to take meaningful action without the politically-contentious transition that could otherwise be used as a pretext to oppose the amendment.

While it is always difficult to predict how the Judicial Branch will interpret any portion of the Constitution, the mere presence of a balanced budget amendment will serve to compel the tough decision making that is often skirted in today's federal budget process. It's time for the federal government to balance its books, and AFP is proud to support your amendment. I urge your colleagues to support its passage and I look forward to working with you in the future.

Sincerely,

JAMES VALVO,  
*Director of Government Affairs.*

Mr. HATCH. Mr. President, we will hear there is a reasonable alternative being offered. But we need to understand this for what it is. It doesn't put any spending limitations on Congress. It leaves wide the door for massive tax increases to pay for levels of spending that are far outside our constitutional traditions. Even the requirement for balance—that outlays not exceed revenues—lacks strength, if we read it carefully.

The bottom line is that there is no substitute for the strong balanced budget amendment being offered by the Senate Republicans.

A number of protaxpayer groups committed to liberty and constitutionalism have written in support of our balanced budget amendment—Let Freedom Ring, Americans for Tax Reform, the National Taxpayers Union,

the 60 Plus Association, Americans for Limited Government, and the Council for Citizens Against Government Waste, just to mention a few.

I ask unanimous consent that their letters be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MARCH 30, 2011.

Hon. JON KYL,  
*Hart Senate Office Building,*  
*Washington, DC.*

Hon. ORRIN HATCH,  
*Hart Senate Office Building,*  
*Washington, DC.*

Hon. PAT TOOMEY,  
*Dirksen Senate Office Building,*  
*Washington, DC.*

Hon. MIKE LEE,  
*Hart Senate Office Building,*  
*Washington, DC.*

Hon. JOHN CORNYN,  
*Hart Senate Office Building,*  
*Washington, DC.*

DEAR SENATORS: We write to encourage your colleagues to support your Balanced Budget Amendment to the United States Constitution, signaling the United States Senate is serious about reforming federal government spending.

The amendment limits spending to 18 percent of Gross Domestic Product (GDP). Capping spending at this level puts spending in line with the historical average of revenue receipts. Since 1970, spending has averaged 21 percent of GDP while tax revenues have consistently stayed around 18 percent. However, CBO projects spending will explode over the next decade, averaging over 23 percent of GDP. Capping spending at 18 percent demonstrates that the government should be cognizant of its means—and live prudently within them.

Most importantly, your Balanced Budget Amendment places the onus of responsible budgeting on lawmakers, rather than passing the burden onto taxpayers who are already shouldering the weight of failed “stimulus” programs and bailouts. It does this by requiring any net tax increases to overcome a two-thirds supermajority in each chamber of Congress.

This clause is vital to keep the debate where it should be—federal overspending. Americans are not taxed too little; Washington spends too much. In the same vein, the spending restraint in the amendment cannot be waived unless a two-thirds majority agrees to do so.

While the bill could be strengthened to require a supermajority to waive the spending cap during a declared war, it does require a vote of three-fifths of the Congress to approve spending beyond the cap in the times of a military conflict. What's more, the amendment requires a three-fifths vote to raise the debt limit, forcing Congress to confront its poor spending habits rather than simply increasing its borrowing authority.

Thus, we support the Balanced Budget Amendment and encourage your colleagues to cosponsor the measure to signal lawmakers are serious about fiscal restraint.

Sincerely,

GROVER NORQUIST,  
*President, Americans*  
*for Tax Reform.*

MATTIE CORRAO,  
*Executive Director,*  
*Center for Fiscal Ac-*  
*countability.*

NATIONAL TAXPAYERS UNION,

March 31, 2011.

AN OPEN LETTER TO THE UNITED STATES SENATE: SUPPORT THE CONSENSUS BALANCED BUDGET AMENDMENT!

DEAR SENATOR: On behalf of the 362,000 member National Taxpayers Union (NTU), I write to provide our strong endorsement of the “Consensus Balanced Budget Amendment” (BBA), which is the product of negotiations among advocates of several BBA measures. We commend Senator Hatch and his colleagues, Senators Lee, Cornyn, Kyl, McConnell, Toomey, Snowe, Risch, Rubio, DeMint, Paul, Vitter, Enzi, Kirk, and Crapo, for introducing this legislation and urge all Senators to cosponsor the resolution.

NTU has approached the current legislative evolution of the BBA not merely as an interested observer or even as a concerned stakeholder. Instead, we view this process through a 40-plus-year organizational history in which constitutional limits on the size of government have occupied the central part of our mission.

Throughout the 1970s and 1980s, my organization helped to launch and sustain the movement for a limited Article V amendment convention among the states to propose a Balanced Budget Amendment (BBA) for ratification, all while pursuing a BBA through Congress. Our members were elated over the passage of S.J. Res. 58 in 1982, and the passage of H.J. Res. 1 in 1995 through the House of Representatives. In both cases the measures, whose provisions varied somewhat, fell short of enactment in the other chambers of Congress. More recently, we have provided endorsements to BBA legislation such as S.J. Res. 3 and H.J. Res. 1.

To our members, a BBA would provide the very lifeblood that will restore and sustain the financial health of our Republic. We are therefore elated over the intensifying interest among Members of Congress and state legislators in a unified BBA concept. The proposal admirably harnesses this energy, by combining and refining elements from several amendments introduced thus far in Congress. These include strong “supermajority” safeguards against reckless tax or debt increases as well as override provisions to confront the realities of military conflicts.

Also of great importance is the amendment's spending limitation clause. Although several types of mechanisms could answer to the purpose of controlling growth in expenditures, any such protection incorporating Gross Domestic Product (GDP) must pay careful heed to historical experience. In this case, an annual spending cap at 18 percent of GDP is clearly the most prudent choice. Such a level reflects the share of economic output that federal revenues have typically represented since World War II. Given that constitutional amendments should be designed with a long nod to the past and an equally farsighted view to the future, 18 percent is a most stable and logical benchmark.

In addition, setting the expenditure limit at 18 percent would make a vital contribution toward harmonizing all parts of the amendment so that the whole functions as intended. An assumption that spending should normally be linked to the average and customary federal revenue proportion would by its very nature give Congress and the President a starting point that is closer to balance. Indeed, the limit helps to remedy Washington's increasingly metastasized affliction of tax-spend-and-borrow, by elevating the concept of expenditure restraint to its rightful place in policymaking. While the two-thirds “supermajority” override requirement is essential to ensuring this place,

so is the 18 percent cap on expenditures. If set too high, the spending limit would merely institutionalize, rather than minimize, deficits. Recent spending-to-GDP ratios in excess of 20 percent—and the resulting pressures to borrow or tax even more—ought to convince fiscal disciplinarians of the need for a carefully-designed limit.

We understand the political environment within which the consensus BBA was crafted, and, given our history, we appreciate the many challenges in the legislative effort that lies ahead. Yet it is precisely our long-standing devotion to this reform that gives us cause to make several observations. Moving forward, Senators must commit to passage of the BBA in this Congress, not simply another “test vote” tied to some legislative urgency. This means making the Amendment a part of the Congress’s everyday narrative on tax and spending policy, thereby leading a national discussion that occupies a primary place in the public square. Nor should the BBA be held as some proxy to other reform approaches. Indeed, statutory or regulatory steps to control the nation’s finances are not “second-best” substitutes; their very effectiveness depends upon a constitutional foundation that will set the boundaries within which they can operate.

Furthermore, supporters of this BBA must reach far and wide across the aisle to obtain the necessary bipartisan backing that will ensure passage of the measure. The temptation to put electoral calculations first is unacceptable to taxpayers, who (properly) surmise that concerted action to control deficits cannot wait until after 2012. Likewise, Senators must engage their House colleagues as well as state legislators in their capitols back home, many of whom have both the commitment and the experience to see the BBA through to passage and ratification.

Through all of these means, and toward the critical end of enacting a Balanced Budget Amendment, NTU and members pledge the fullest possible measure of their time, energy, and resources. Together, we can fulfill this long-overdue obligation to future generations.

Sincerely,

PETE SEPP,  
Executive Vice President.

THE 60 PLUS ASSOCIATION,  
Alexandria, VA, March 31, 2011.

DEAR SENATOR HATCH: On behalf of more than seven million senior citizen activists, the 60 Plus Association thanks you for introducing the joint resolution proposing an amendment to the Constitution of the United States relative to balancing the budget.

Thanks to your outstanding leadership, this effort shows a solid commitment to restore the fiscal stability of the United States by balancing the nation’s budget.

We applaud your efforts to respond to the overwhelming concern Americans have to the spiraling debt and out-of-control spending and cannot stress strongly enough that senior citizens and soon-to-be-seniors believe that current budget policy cripples our economic stability and threatens our nation’s future.

Sincerely,

JAMES L. MARTIN,  
Chairman.

AMERICANS FOR  
LIMITED GOVERNMENT,  
Fairfax, VA, March 31, 2011.

Senate Minority Leader MITCH MCCONNELL,  
361-A Russell Senate Office Building, Washington, DC.

Senator ORRIN HATCH,  
104 Hart Office Building, Washington, DC.

DEAR LEADER MCCONNELL AND SENATOR HATCH: As you are well aware, the nation is risking a fiscal calamity that threatens a catastrophic default on the \$14.2 trillion national debt and the collapse of the dollar as the world’s reserve currency. If something is not done to bring the nation’s fiscal house into order, soon the debt will become too large to even refinance, let alone be repaid.

That is why Americans for Limited Government strongly endorses the Senate Republican Balanced Budget Amendment and urges all members of the Senate to fight for its immediate adoption. Soon the gross national debt will become larger than the entire economy, and by 2021, the Office of Management and Budget projects it will soar to over \$25 trillion.

Interest payments alone threaten to destabilize the nation’s finances very soon. In 2010, the Treasury paid a total of \$413 billion in interest, including \$216 billion to the Social Security and Medicare trust funds. The total interest is a real obligation that requires real borrowing to meet, and cannot be readily discounted as revenue to the entitlement programs when it is in fact a liability to taxpayers.

The total interest owed on the debt will actually be over \$1.2 trillion in 2021. And since the government never anticipates the debt being paid down, the number will easily grow to over \$2.4 trillion by 2030. Moody’s has warned that when interest owed on the debt reaches 18 to 20 percent of revenue, the nation’s gold-plated Triple-A credit rating will be downgraded. The trouble is that the Office of Management and Budget projects total interest owed for 2011 to be \$430.4 billion, which is already 19.79 percent of the projected \$2.174 trillion of revenue. That means time has already run out.

Currently, the \$14.2 trillion national debt already stands at 95.5 percent of the nation’s \$14.8 trillion Gross Domestic Product (GDP). While it is unclear at what percentage of debt-to-GDP that the debt will become too large to refinance, the warning signs are already there that we cannot even meet our current obligations honestly.

Pimco reports that in 2009, 80 percent of treasuries were purchased by the Federal Reserve, and in 2010, it had to buy 70 percent, bringing its current U.S. debt holdings to \$1.3 trillion. As a result, the Fed is the largest lender to the U.S. government in the world—all with printed money—more than China or Japan. When the Fed ends QE2 in June, it will likely keep a high water mark of \$1.5 trillion in treasuries holdings.

Printing money to refinance the debt cannot continue for long without very severe consequences, including a potential collapse of the dollar as the world’s reserve currency, hyperinflation, and a complete default on the nation’s obligations. The time to pass the Balanced Budget Amendment is now, before it is too late and it becomes impossible for the debt to ever be repaid.

The Balanced Budget Amendment being proposed, once implemented, will make it possible that for the first time since 1957, the national debt can be reduced. This must begin to occur to reassure the nation’s creditors that the U.S. intends to honor its obligations with real money, not with a “pre-

tended payment” that economist Adam Smith warned against.

With the upcoming vote on increasing the national debt ceiling above \$14.294 trillion, now is the opportunity to use your leverage not just to get an up-or-down vote on the Balanced Budget Amendment, but to get it adopted. To do so, we urge you to take your case directly to the American people, who will join with you in fighting to make certain that another increase in the debt will never again be necessary.

The American people must be advised of these cataclysmic risks of inaction. There is a very dangerous misconception that the nation can just continue borrowing and printing money perpetually. It cannot. Nor will it long endure as the world’s foremost economic and military superpower if it tries to.

Besides a failure to meet our fiscal obligations, a national default will mean that the U.S. will be unable to meet its security obligations around the world, destabilizing whole regions, and threatening national security. It is likely for this reason that Chairman of the Joint Chiefs of Staff, Admiral Mike Mullen, described the debt as the number one danger facing America.

With a projected \$1.645 trillion budget deficit for this year alone, the hour grows late for real action to rein in the federal government’s unsustainable spending binge. It is clear that Congress lacks the political will to do what is necessary on its own. It needs the constitutional limits on spending, taxation, and the balanced budget requirement outlined in your amendment to compel it to act prudently when handling the American people’s finances.

We thank you for your work on this critical issue, and urge you to use all the tools at your disposal, including the leverage of increasing the national debt ceiling, to ensure speedy adoption of the Balanced Budget Amendment. If you will take a courageous stand to save this nation from certain ruin, the American people will surely stand with you.

Sincerely,

WILLIAM WILSON,  
President.

COUNCIL FOR CITIZENS  
AGAINST GOVERNMENT WASTE,  
Washington, DC, March 31, 2011.

U.S. SENATE,  
Washington, DC.

DEAR SENATOR, Senator Orrin Hatch (R-Utah) will soon introduce an amendment to the Constitution requiring that the federal budget be balanced. This amendment has received wide support, including that of Senators Mitch McConnell (R-Ky.), Mike Lee (R-Utah), John Cornyn (R-Tex.), Jon Kyl (R-Ariz.), Pat Toomey (R-Pa.), John Thune (R-S.D.) and Marco Rubio (R-Fla.). On behalf of the more than one million members and supporters of the Council for Citizens Against Government Waste (CCAGW), I urge you to support this legislation.

Federal spending has ballooned out of control. Taxpayers are bracing themselves as the nation rapidly approaches its statutory, record-breaking \$14.3 trillion debt limit. According to the Congressional Budget Office, recession-depleted tax revenues are scheduled to rebound to their historical average of 18 percent of gross domestic product (GDP) by 2018 and reach 18.4 percent by 2021. Federal spending, which has historically been 20.3 percent of GDP, however, is projected to reach 26.4 percent of GDP by 2021. America is on a dangerous trajectory as Congress continues to increase spending and raise debt

ceilings without regard to incoming levels of revenue. Washington has put taxpayers at risk by violating a Budgeting 101 rule of thumb: Don't spend more money than you take in.

This proposed constitutional amendment would ensure that total outlays will not be allowed to exceed 18 percent of the U.S. GDP of a fiscal year and will require the president to submit a balanced budget to Congress that reflects the 18 percent cap. A two-thirds majority vote would be required of both the House and Senate to override the spending cap, increase taxes or levy a new tax. Additionally, a three-fifths majority vote in both Houses would be needed to increase the debt limit. In times of declared war, a simple majority vote will be necessary for a specific excess amount above the 18 percent cap, and in times of military conflict a three-fifths majority will be required. In order to protect taxpayers, the amendment prohibits courts from raising revenue as a means of enforcement.

The federal government has a moral and fiscal responsibility to Americans that it has simply been shirking. Congress cannot continue on a spending rampage while ignoring the nation's balance sheets. This legislation proposes a practical and necessary constitutional amendment that will safeguard taxpayers and force Congress to balance the national budget. All votes on the Balanced Budget Amendment will be among those considered in CCAGW's 2011 Congressional Ratings.

Sincerely,

THOMAS A. SCHATZ,  
President.

Mr. HATCH. Mr. President, I am so pleased conservative leaders such as Ed Meese, Dick Thornburgh, and Ken Blackwell have stood in support of a strong balanced budget amendment.

I ask unanimous consent to have printed in the RECORD at this point the op-eds to which I just referred.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From Bloomberg.com, July 20, 2011]

DEFICITS NEED BALANCED-BUDGET  
AMENDMENT FIX

(By Dick Thornburgh)

A late entrant in the budget deficit-debt ceiling talkathon in Washington is increasing support for a constitutional requirement that the federal budget be balanced every year. Liberals will no doubt characterize this proposal as a nutty one, but careful scrutiny of such an amendment to our constitution demonstrates its potential to prevent future train wrecks in the budgeting process.

Constitutional budget-balancing requirements are already available to most governors and state legislatures, along with a line-item veto and separate capital budgeting, which differentiates investments from current outlays. They work.

Any debate in Congress will probably include the following arguments against a balanced-budget amendment:

First, that the amendment would clutter our basic document in a way contrary to the intention of the Founding Fathers. This is clearly wrong. The framers of the Constitution contemplated that amendments would be necessary to keep it abreast of the times. It has, in fact, been amended 27 times.

Moreover, at the time of the Constitutional Convention, one of the major pre-occupations was how to liquidate the post-

Revolutionary War debts of the states. It would have been unthinkable to the framers that the federal government would systematically run a deficit, decade after decade. The Treasury didn't begin to follow such a practice until the mid-1930s.

Second, critics will argue that the adoption of a balanced-budget amendment wouldn't solve the deficit problem overnight. This is absolutely correct, but begs the issue. Serious supporters of the amendment recognize that a phasing-in of five to 10 years would be required.

During this interim period, however, budget makers would have to meet declining deficit targets in order to reach a final balanced budget by the established deadline.

As pointed out by former Commerce Secretary Peter G. Peterson, such "steady progress toward eliminating the deficit will maintain investor confidence, keep long-term interest rates headed down and keep our economy growing."

Third, it will be argued that such an amendment would require vast cuts in social services, entitlements and defense spending. Not necessarily. True, these programs would have to be paid for on a current basis rather than heaped on the backs of future generations. Difficult choices would have to be made about priorities and program funding. But the very purpose of the amendment is to discipline the executive and legislative branches, not to propose or perpetuate vast spending programs without providing the revenue to fund them.

The amendment would, in effect, make the president and Congress fully accountable for their spending and taxing decisions.

Fourth, critics will say that a balanced-budget amendment would prevent or hinder our capacity to respond to national defense or economic emergencies. This concern is easy to counter. Clearly, any sensible amendment proposal would feature a safety valve to exempt deficits incurred in response to emergencies, requiring, for example, a three-fifths majority in both houses of Congress. Such action should, of course, be based on a finding that such an emergency actually exists.

Fifth, it will be said that a balanced-budget amendment might be easily circumvented. The experience of the states suggests otherwise. Balanced-budget requirements are now in effect in all but one (Vermont) of the 50 states and have served them well.

Moreover, the line-item veto, available to 43 governors, would ensure that congressional overruns—or loophole end runs—could be rejected by the president. The public's opposition, the elective process and the courts would also restrain any tendency to ignore a constitutional directive.

In the final analysis, most of the excuses for not enacting a constitutional mandate to balance the budget rest on a stated or implied preference for solving our deficit dilemma through the political process—that is to say, through responsible action by the president and Congress.

But that has been tried and found wanting, again and again.

Surely the U.S. is ready for a simple, clear and supreme directive that compels elected officials to fulfill their fiscal responsibilities. A constitutional amendment is the only instrument that will meet this need. Years of experience at the state level argue in favor of such a step. Years of debate have produced no persuasive arguments against it.

The stakes are high. Perhaps Thomas Jefferson put it best: "To preserve our independence, we must not let our rulers load us down with perpetual debt."

That is the aim of a balanced-budget amendment. Reform-minded members of Congress should support such an amendment to our Constitution as a means of resolving future legislative crises and ending credit-card government once and for all.

A nutty idea? Not by a long shot.

[From the Patriot Post, Apr. 5, 2011]

HATCH AND LEE'S BALANCED BUDGET  
AMENDMENT: A WIN FOR AMERICA

(By Ken Blackwell)

Senators Orrin Hatch and Mike Lee introduced a Balanced Budget Amendment (BBA) to make it a constitutional requirement for Washington, D.C., to end our deficit spending and culture of debt. And our national grassroots organization, Pass the Balanced Budget Amendment, is working with them to compel lawmakers to approve this change to the Supreme Law of the Land.

The BBA requires that the U.S. cannot spend more than it takes in. There are a few exceptions, such as allowing two-thirds of the House and Senate to suspend it for a specific reason for one year, with lower thresholds to respond to a military threat to our national security or an official, declared war against a specific nation (not some open-ended or global military operation).

The amendment is cosponsored by all 47 Senate Republicans. This raises eyebrows in that the last time a proposed BBA was voted on, 1997, it enjoyed Democratic support with 66 votes, falling a single vote short in the Senate.

A separate story here is Utah's leading role. That state's senior senator, Orrin Hatch, designed one version of the BBA. Utah's junior senator, Mike Lee, designed another. Both senators—one tied as the most senior Republican in the chamber and the other among the newest—then designed a composite version.

The resulting BBA addresses several major economic priorities. In addition to forcing a balanced budget, the BBA caps federal spending at 18 percent of GDP. It also requires a 60-percent vote to raise the national debt limit. It requires a two-thirds vote to raise taxes. And in forbids courts from ordering any tax increase. The BBA thus addresses multiple aspects of fiscal policy in a full-spectrum response to America's debt-and-deficit nightmare.

Utah's predominance regarding a constitutional amendment is no surprise. Hatch is the former chairman of the Senate Judiciary Committee and was talked up as a potential Supreme Court nominee years ago. Lee is the only former Supreme Court law clerk in the Senate, and is already mentioned as a potential Supreme Court nominee. These two senators may be bookends in seniority and age, but they are the foremost constitutional scholars in the Senate.

The Constitution is extraordinarily difficult to amend, requiring two-thirds of the House and Senate to propose it to the states, then three-fourths of the states (38) to ratify it.

To turn the BBA into reality, Senators Hatch and Lee are working with a national grassroots organization, Pass the Balanced Budget Amendment, to organize volunteers in every legislative district in America to mobilize political momentum.

We are very grateful to have Senators Hatch and Lee as Honorary Chairman. With their leadership, as well as others such as Co-Chairman Ken Buck of Colorado, the BBA has the best chances of passing since America's fiscal mismanagement began decades ago.

This is not just about economic conservatives. We must balance our national budget for the sake of our children's future. And our national debt has now become a national security concern as well. This is the perfect fusion of the three legs of the Reagan Coalition, and will benefit all Americans.

There are also serious political implications. TBBA could change the national debate. With several GOP presidential contenders endorsing the idea, this will likely be an issue for the 2012 elections. Those of us involved at the grassroots level with this issue and determined on making it so.

[From the Heritage Foundation, July 21, 2011]

**BALANCED BUDGET AMENDMENT: INSTRUMENT  
TO FORCE SPENDING CUTS, NOT TAX HIKES**  
(By Edwin Meese III)

As Congress considers what to do about federal overspending and overborrowing, conservatives must maintain focus. We must pursue the path that drives down federal spending and borrowing and gets to a balanced budget, while preserving our ability to protect America and without raising taxes. An important part of that conservative agenda is adoption of a sound—repeat, a sound—Balanced Budget Amendment. A Balanced Budget Amendment is not sound if it leads to balancing the federal budget by tax hikes instead of spending cuts. Thus, a sound Balanced Budget Amendment must prohibit raising taxes unless a two-thirds majority of the membership of both Houses of Congress votes to raise them. Without the two-thirds majority requirement, the Balanced Budget Amendment becomes the means for big spenders to raise taxes.

Supporters of the Balanced Budget Amendment rightly want to force the federal government to live within its means—to spend no more than it takes in. Because the government has failed for decades to follow that balanced budget principle, America is now \$14.294 trillion in debt, a debt of more than \$45,000 for every person in the United States.

President Obama is making things worse. In discussions with congressional leaders, he has pushed hard to get authority to borrow yet more trillions of dollars and hike taxes. And the White House reiterated this week that President Obama opposes amending the Constitution to require the federal government to balance its budget.

A Sound Balanced Budget Amendment Must Require Two-Thirds Majorities to Raise Federal Taxes. Like 72 percent of the American people, The Heritage Foundation favors passage by the requisite two-thirds of both Houses of Congress and ratification by the requisite 38 states of an effective Balanced Budget Amendment to become part of our Constitution. Heritage has made clear that an effective Balanced Budget Amendment must control spending, taxation, and borrowing; ensure the defense of America; and enforce, through the legislative process and without interference by the judicial branch, the requirement to balance the budget. A sound Balanced Budget Amendment will drive down federal spending and end federal borrowing.

To date, Congress has proposed one largely sound Balanced Budget Amendment for consideration—Senate Joint Resolution 10, often called the Hatch-Lee Amendment after its main proponents. It has a number of important features, such as an annual federal spending cap of not to exceed 18 percent of the economy's annual output of goods and services (called the gross domestic product, or GDP) that Congress cannot exceed, except

by a law passed with two-thirds majorities in both Houses of Congress or in specified circumstances involving military necessity.

A crucial feature is included in section 4 of the Balanced Budget Amendment proposed by Senate Joint Resolution 10: "Any bill that imposes a new tax or increases the statutory rate of any tax or the aggregate amount of revenue may pass only by a two-thirds majority of the duly chosen and sworn Members of each House of Congress by a roll call vote." The requirement that no tax hikes occur without the approval of 290 Representatives and 67 Senators is essential in a sound Balanced Budget Amendment. Without the requirement for two-thirds majorities for any tax increase, the Balanced Budget Amendment becomes a sword for big spenders to use to raise taxes, instead of a shield to protect Americans from tax hikes. Those who seek to anchor into our Constitution a requirement to balance the budget must always remember that, if the only requirement is "balance," that can be achieved two ways—cut spending or hike taxes. A sound Balanced Budget Amendment will balance the budget by driving down federal spending and not by driving up federal taxes.

Balanced-Budget States that Allow Simple Majorities for Tax Hikes Face Situations Very Different from that of the Federal Government. Some look at the experience of states that have requirements in their constitutions for a balanced state budget and draw the wrong conclusion about the need for two-thirds majorities for taxation. They mistakenly conclude that a requirement merely for simple majorities in state legislatures to raise taxes suffices to keep state taxation under control and therefore that a federal Balanced Budget Amendment should require only simple majorities in Congress to raise taxes. But the balanced budget requirement at the state level occurs in a very different context from such a requirement at the federal level.

As a practical matter, state legislators regularly work and live among the people they represent, often do their legislative work face-to-face with their constituents, and often depend upon direct contact with voters to persuade voters to keep the legislators in office. As a result, state legislators tend to be closely attuned and responsive to the need of their constituents for reasonableness in taxation. In contrast, U.S. Senators and Representatives spend much of their time distant from the people they represent, often deal with their constituents through the insulation of large staffs, and amass large campaign funds through political fundraising that allow them to depend more upon expensive mass communications than upon direct contact with voters to persuade the voters to keep them in office. As a result, U.S. Senators and Representatives tend to be less directly attuned and responsive to the need of their constituents for reasonableness in taxation than state legislators are. Accordingly, while a requirement for merely simple majorities in state legislatures to raise taxes may suffice to keep taxes under control in that state, simple majorities are not likely to keep taxes under control at the federal level—as the experience of federal tax increases in the last 50 years proves.

Some who recognize the need for taxpayer protection by requiring supermajorities, rather than just simple majorities, of the two Houses of Congress to raise taxes think a supermajority of three-fifths of both Houses would suffice. While three-fifths would add a modicum of taxpayer protection in the House, three-fifths would add little if

anything in the way of taxpayer protection in the Senate, which already often requires a three-fifths majority to proceed to consideration of legislation. The existing three-fifths rule in the Senate has often failed to protect taxpayers from federal tax increases in the past. A sound Balanced Budget Amendment would add protection for taxpayers in both Houses of Congress by a requirement for two-thirds majorities of the membership of both Houses to raise taxes.

Conclusion: Adopt the Two-Thirds Majority Requirement for Tax Hikes, to Make the Balanced Budget Amendment the Instrument of Spending Cuts and Not Tax Hikes. America's soon-to-be New Minority—people who pay federal income tax—need protection from unreasonable taxation. When all Americans have the right to vote, but only a minority has the duty to pay the federal income taxes from which all Americans benefit, the risk is high that a non-taxpaying majority will elect a Congress pledged to adopt taxation that oppresses the taxpaying minority. The impulse to seek something for nothing has regrettably taken root in the American body politic in the past century. The requirement in the Balanced Budget Amendment of a two-thirds majority of the membership of both Houses of Congress to raise taxes will protect a taxpaying minority against oppressive taxation.

As Congress continues on the path toward adopting a joint resolution to recommend a Balanced Budget Amendment to the states for ratification, Congress should ensure that the Amendment includes a requirement for approval by two-thirds of the membership of the two Houses of Congress for tax hikes. Absent such a requirement, the Balanced Budget Amendment will encourage tax hikes instead of spending cuts as the means to balance the budget, making the Amendment the friend of the tax, spend and borrow crowd, instead of the friend of those who believe in limited government, free enterprise, and individual freedom.

Mr. HATCH. While a number of liberal groups committed to more government spending have lined up against our proposal, there is hardly a groundswell of support for the Democratic alternative. In fact, the lack of support for that proposal demonstrates more than anything I can say that it is a proposal designed with politics in mind. It is designed to provide cover for Members who want to say they support a balanced budget amendment while opposing the only amendment that would actually reduce government spending.

The bottom line is that not all balanced budget amendments are created equal. The Senate Republican amendment is one to restore liberty and constitutional government by reducing the size and power of Washington. By contrast, the Democrats' alternative promises more of the same. It does nothing to rein in spending or address the fiscal crisis this Nation faces. The differences between these proposals highlight clearly the distinctions between conservatives in Congress and the President and his supporters.

Although I am ever hopeful, I am realistic about the chances the Senate will pass S.J. Res. 10 tomorrow. I suspect the vote for the Senate Republican amendment will be as low as any

the Senate has taken on a balanced budget amendment. This, though, shows how stark the differences have become between the two parties. The Democratic Party is now openly the party of tax and spend, the party of bigger and bigger government.

That is why today's debate and tomorrow's vote represents what Ronald Reagan called "a time for choosing."

As President Obama's speech in Kansas showed the other day, he is not backing away from his goal of fundamentally reordering American society in a way that transforms individuals and businesses into the arms of the State. The President, having completely abandoned the political middle and thrown in with the far left to secure his reelection, is now arguing that it is wrongheaded to believe one's success in life is owing to one's own hard work. Because the President seems to believe that individual success is ultimately not the result of personal effort but, instead, due to society, adherence to and respect for property rights, and the simple notion that one owns the fruit of one's labors becomes for him and his supporters a quaint artifact of an earlier era in American history.

The candidate of hope and change has turned out to be the President of spreading the wealth around. To succeed, he has embraced the politics of envy and class warfare that is far outside the mainstream of our political heritage.

The Republicans' balanced budget amendment offers nothing so grandiose. All we seek is the restoration of some limits on the power of the Federal Government and meaningful reductions in spending, and we give the time to get there too in our amendment. All we promote is a decent respect for the right to one's own wages and the freedom promised in our Declaration of Independence.

The Senate Republican balanced budget amendment secures these blessings of liberty, and I urge every one of my colleagues to support it.

The opponents of this amendment will say it is somehow improper to constitutionalize a requirement for a balanced budget. Hogwash. Many of those same individuals do not bat an eye when five unelected Justices on the Supreme Court rewrite the Constitution to fit their own preferred policy goals. Yet it is somehow inappropriate for the Senate to send a balanced budget amendment to the people in the States for ratification.

What are they afraid of? The Constitution ultimately belongs to the sovereign American people. It is only law because of their sovereign actions of ratification and amendment.

It seems odd the Democratic Party that claims Thomas Jefferson as its founder would oppose giving the American people a voice on this foundational constitutional issue.

After all, if President Obama, the progressive Democrat, was so confident in the strength of his arguments, he could rest easy knowing the people would decline to ratify a balanced budget constitutional amendment.

So what are they so afraid of? Why are they so afraid to send this amendment to the people for ratification? Thirteen States could defeat this amendment. All they need to do is get 13 States to go against this amendment. That is what it would take to defeat it. That is all it would take. But it would be the people who would decide, not just a bunch of people here. If that is all the opponents of this amendment need, why are they so worried about sending it to the States for ratification? Why the lack of confidence in their powers of persuasion?

I can tell you why. The people of this country would ratify this amendment so quickly its opponents' heads would spin. Those who oppose sending this balanced budget amendment to the States for ratification know the people are eager to ratify it. That is certainly the case in Utah. Earlier this year, Utah passed S. Con. Res. 201 expressing support for S.J. Res. 10, the balanced budget amendment I introduced, along with my friend and colleague from Texas, Senator CORNYN, and my friend and colleague from Utah, Senator LEE, as well as 44 other Senators, all of whom deserve credit for this amendment.

I commend to my colleagues the Utah Senate's Concurrent Resolution 201 of the 2011 Second Special Session.

Mr. President, I take the instruction from Utah's State representatives very seriously. The Utah Legislature made it clear it supported ratification of this amendment, and I am confident if the Members of this body listen to their own State legislatures—49 of which are required to balance their own budgets—similar instructions would follow.

Here is the bottom line. Liberal special interests oppose the Senate Republicans' balanced budget amendment because they know the people would ratify it. And if the people ratified it, the government-funded gravy train would come to an end.

I look forward to this debate today. It is an important one, and I am confident that eventually the American people will ratify a balanced budget amendment and restore the promise of America's Declaration of Independence and Constitution for future generations.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. PAUL. Mr. President, I rise today in support of the balanced budget amendment. In fact, it is beyond me to imagine how anybody in this body could oppose a balanced budget amendment. I ran my election last year primarily on this fact—that government

spending was out of control and the debt was consuming our country and that we needed new and more serious rules to bring the budget under control.

We have tried in the past. This body passed Gramm-Rudman-Hollings with bipartisan support in the 1990s and immediately began to evade it. This body passed pay as you go and then proceeded to disobey their own rules 700 times. And we wonder why 9 percent of the people approve of Congress? It is because we cannot even obey our own rules.

So we need new rules. We need a balanced budget amendment that would be an amendment to the Constitution because we do not adhere to the rules we pass. This body is literally out of control.

Now, the other side says: Trust us. Trust us. We can balance the budget. The other side hasn't passed a budget this year or last year—not just a balanced budget, the other side can't pass any budget. So I think we need new and stronger rules to force us to do what is right, do what every American family has to do; that is, balance their family budget. A nation is no different. A nation has a printing press and can run deficits for longer, but there are ramifications.

The enormous debt we are accumulating as a country—we are borrowing \$40,000 every second. During the time of my 5-minute speech, we will have borrowed millions of dollars. So there are ramifications. We have to pay for our debt in some way. We can either tax people or we can borrow—we are at the limits of both—or we can simply print the money. But as we print money to pay for our debt, we destroy the value of the existing currency. So those who have savings, those who are on fixed incomes—senior citizens, the working class—those who use every penny of their paycheck to pay for their needs are being robbed on a daily basis by inflation. Inflation is the end result of debt.

If we look at the approval of Congress being 9 percent, and we contrast that with how much of the public is for a balanced budget, 75 percent of the public—Republicans, Democrats, and Independents—would vote in favor of a balanced budget amendment. Yet this body is out of touch because we can't get anybody from the other side even to talk to us about a balanced budget amendment. We worked for months to see what it would take to make one acceptable to the other side, and we got nowhere.

We need to balance our budget because the debt is a threat to our country. This is not just me saying this. The Chairman of the Federal Reserve has said our debt is unsustainable. Admiral Mullen, part of this administration, has said our debt is the greatest

threat to our national security. Erskine Bowles, who led the deficit commission and has been known as a Democrat, said we are approaching the most predictable crisis in our history, and it will be a debt crisis.

All throughout Europe there is a debt crisis: Italy is having trouble paying its debt; Greece is underwater; Portugal, Spain, and Ireland are all tenuously holding on and trying to pay their debts. That European crisis, that destruction of the Euro, is coming this way. Our debt now equals our economy.

Senator HATCH mentioned we have a \$15 trillion debt and a \$15 trillion economy. Many economists say when our debt approaches 100 percent of GDP—where ours is now—we are losing 1 million jobs a year. So this is having a drain on the here and now. It is not just that this debt is being passed on to our kids and grandkids. The debt is affecting jobs.

When I talk to college kids, I say: The chance of you getting a job depends on what we do with the debt. If we continue to finance our spending through debt, you will not have a job. You will have less likelihood of getting a job.

Now, some say it would be too hard to balance the budget. It is just too far out of whack. We can't do it. It is pretty bad. We are borrowing 40 cents on every dollar. If we look at the spending, borrowing 40 cents on every dollar is remarkable. When we look at our budget, the revenue coming in is being consumed by entitlements and interest. Everything else we spend—national defense, roads, everything else—the rest of the 40 percent of the budget is being borrowed. It is out of control.

Can you imagine any business or any family in this country borrowing 40 percent every year, year after year after year? It can't be done. There are ramifications and a day of reckoning is coming.

Some say: How could we ever balance our budget? I will tell you how. If we cut 1 percent of spending—this is called the penny plan—cut one penny out of every dollar in Federal spending for 6 years and freeze spending for 2 years, the budget will balance in 8 years. If we were to pass a balanced budget amendment and send it to the States, there is a 5-year window in the amendment, plus it takes a couple of years to pass, so it would be about 8 years.

So we could balance the budget in 8 years simply by cutting one penny out of every dollar. One might ask: How could that be, when they are cutting trillions of dollars and not balancing the budget? The reason is, when they talk about cutting spending around here, they are always talking about cutting proposed increases in spending. They are never talking about real cuts in spending. What I am talking about is a real cut.

We spend \$3.8 trillion in our budget this year. One percent is \$28 billion.

Next year, we would spend \$3.8 trillion minus \$38 billion. A real cut of 1 percent each year for 6 years balances our budget in 8 years. It could happen, but it is going to take some resolve.

People need to understand the alternative. The alternative, if we do nothing, is that our debt is going to consume us as a nation. We have been warning about this for some time. Senator HATCH has been active. The last time we voted on this was in 1997. Fourteen years later we have had a significant revolution at the polls, and people are anxious to say: Do something, protect us from this mountain of debt. Yet there is still great resistance in this body.

I would say people in this body who vote against the balanced budget amendment do so at their own peril and do it against the will of the people. If they think it is so important to continue to accumulate debt, and that debt is fine, they should vote against this amendment. But they are thumbing their nose at the people. They are thumbing their nose at the American people who are very worried about our Republic and very worried about this debt.

So, Mr. President, I rise today in support of the balanced budget amendment and encourage my colleagues to give serious thought to voting for this amendment.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. VITTER. Mr. President, I too rise in strong support of the balanced budget amendment—the strong, meaningful, balanced budget amendment presented on this side of the aisle because it is an important, necessary effort to rein in the biggest economic problem and threat we have facing us.

I want to dovetail and expand on some of Senator PAUL's comments, with which I certainly agree.

First of all, I hope it is perfectly clear that our debt—our growing, unsustainable level of debt—is a clear and present danger and an immediate danger to our Republic, to our democracy, to our economy, and to our future.

Overspending has been a problem for quite a while in Washington. It has been a problem under Republican and Democratic administrations and Congresses. But forever it was a problem because we were passing on these big debt figures, this big burden to our kids and grandkids, and we were kicking the can down the road. It was a problem for the future which we should correct now but largely a problem for the future.

As Senator PAUL said, that is not true anymore. It is an immediate threat right now. It is not a question of just our kids and grandkids; it is a question of next month, next year, whether we avoid a crisis, as is brewing in Europe, which could be the biggest

hit to our economy since the Great Depression, bigger than what we went through in 2008. So this issue is an immediate threat, and it is not some esoteric issue about balance sheets. Again, as Senator PAUL said, it is an immediate threat to the health of our economy, to the prospect and ability of Americans, including young Americans coming out of college, to get good jobs, to settle into good careers.

The second thing, which I hope is obvious, is that to get ahold of this problem, to deal with this threat, Congress needs enforced discipline. We need a fiscal straitjacket because we have proven, unfortunately, over and over, under Democratic and Republican majorities, under Democratic and Republican Presidents, that we are not going to do it on our own. We need the enforced discipline—the fiscal straitjacket, if you will—of a balanced budget amendment.

Why do I say this? Well, even knowing the threat we face right now, what does Congress do? Congress passes a debt plan. We pass cuts. While the so-called cuts of \$2.1 trillion sounds like a lot of money—it is in some sense—it is largely cuts to the growth of government spending. Even under this plan that Congress recently enacted, we are still racking up new debt. We are still adding on \$7 trillion to our already unsustainable level of debt in the next decade, increasing it 50 percent, from \$15 trillion to \$22 trillion. That is the best we can do without enforced discipline even in the crisis atmosphere we have now, even with the understanding we have now. I hope that proves we need this enforced discipline. The balanced budget amendment Republicans have put forward gives us that discipline we need.

First of all, I wish to compliment so many who have worked with me on it—Senator HATCH, Senator LEE, many others. I was in the working group, and I was in several meetings to get the details right because the devil is in the details. We don't need a fig leaf. We don't need a talking point. We need a balanced budget constitutional amendment that will work.

The details are right in this proposal, and it will work. Why do I say this? Well, within 5 years of ratification, under the amendment, Congress must pass a budget, the President must submit a proposal that is balanced, but not only that, the size of the Federal Government is limited to 18 percent of GDP. That is the long-term historical average of revenues in modern history. That is where we need to be. That is not my decision; that is not the decision of a single Member of Congress; that is the average of where revenues have been in the modern period.

It requires a strong supermajority to ensure that we don't continue the practice of exceeding spending caps with gimmicks and emergency spending for

things that are not truly emergencies. For instance, a two-thirds vote of both Houses is required for a specific deficit for a fiscal year. A majority vote is required for a specific deficit when we have a declared war, and it needs to be a declared war in that instance. A three-fifths vote is required for a deficit during a military conflict and—this is important—with the requirement specifically that that is “necessary by the identified conflict.” In other words, the overage from a balanced budget is only for that conflict, not just a general exemption. A two-thirds vote of each House is required to increase taxes, and that is important so that this is not just a mechanism for ever-increasing tax rates that will quickly stagnate the economy. A three-fifths vote of each House is required to increase the debt limit, which is also important.

The details are important. I am confident we have gotten the details right in this proposal.

We also have a Udall proposal, a Democratic balanced budget constitutional amendment. Unfortunately, I think that gets the details very wrong. I am pleased that Senator UDALL and Democratic colleagues on the other side are committed to the notion of a balanced budget constitutional amendment. That is important, and that is progress. But the devil is in the details, and I am afraid they got some of those details very, very wrong. For instance, there is a huge loophole exemption for whenever the country is in a military conflict—not just a formally declared war but any military conflict. Unfortunately, we are going to be in that situation for a lifetime under the present war against terror, so that is a huge, gaping loophole. Under that loophole, the amount beyond a balanced budget which is allowed isn’t specific to that conflict, it is just a general exemption. So it is a big loophole.

There are other loopholes too. Social Security is completely exempt from this structure. I think that is a big mistake because that is part of our budget situation and because we need this very enforced discipline to fix and to save Social Security. That is one of the top items I want to fix and save. That is one of the first places we need this enforced discipline to fix and save Social Security.

I urge all of my colleagues to come together behind this important and necessary enforcement tool. The American people recognize the problem. They recognize this—a strong, meaningful balanced budget amendment—as an important part of the solution. They want us to act in a positive way, and I urge that support for this balanced budget amendment and for that solution.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. DEMINT. I wish to thank my colleague from Louisiana, who has made great points about where we are.

I do think it is good news that we are talking about balancing the budget, but unfortunately, as we often do, this is really a political show more than a real attempt to actually balance the budget. The whole process is set up to fail.

We know the President has said that we don’t need to balance our budget and that it is an extreme idea. The majority leader here in the Senate has called a bill that cuts spending and caps spending and sends a balanced budget amendment to the States to ratify the worst legislation he has ever seen. NANCY PELOSI, the Democratic leader in the House, has said that to balance the budget would cost jobs and that we would do it on the backs of the poor. Now we are to believe that our colleagues on the Democratic side here are serious about working with us to balance the budget.

The situation is too serious to just play politics, and I know from talking to a number of my Democratic colleagues that they feel the same way, that they know we need to balance the budget. It is very difficult for them as a party because a lot of their platform is based on more promises for government and more government spending.

In effect, a balanced budget amendment that meant we couldn’t spend more than we were bringing in would change politics in Washington forever, which is something we have to do. But at least we are discussing the idea of balancing the budget.

We know that the President’s budget, the only budget we have seen—we haven’t seen one out of the Senate in the last several years—increased our debt another \$10 trillion over the next 10 years. It didn’t balance it.

Just about every Republican voted for a budget, a 10-year budget offered by Senator PAT TOOMEY that balanced in 10 years without cutting Social Security or Medicare. So we can do it. We can do it without hurting Americans. If we do it now, we can actually control our own destiny rather than what we see across the Atlantic in Greece and other European countries. They lost control of their destiny. They are now in the control of other countries and of fate. But America is still in a position that, if we make the decisions now to begin the process to balance our budget, even if it took 10 years, we could save our country and perhaps save freedom for the world. But there is no question that if we continue on the same course we are on today, we will bankrupt our Nation, lose control of our destiny, and change the world forever. But at least we are talking about balancing the budget, and maybe that is a good first step.

Today, the Democrats have offered a weak alternative to the Republican

balanced budget so that they can say they are for it. Again, I think that is important to get on record, that we are at least for the idea of stopping spending more than we are bringing in. For the past 2½ years, as I mentioned, the Senate Democrats, who are in charge here, haven’t even produced a budget, let alone the idea of balancing one. President Obama, as I said, proposed a budget that doubled the national debt in the next 10 years. That is not responsible leadership at a time when we are already at an unsustainable debt level.

Despite all the bipartisan promises to cut spending, Washington is still voting to make government bigger and more expensive than ever. And this includes some Republicans joining the fray here to just increase spending. Federal spending went up 5 percent in the first 9 months of the year despite all the hoopla about us doing something about spending.

There is one way to judge whether we are cutting spending or not, despite all the rhetoric here and the Washington-speak. If we want to know whether we are spending more, we just have to ask ourselves: Are we spending more than we did last year? The answer is yes. And we are going to spend more next year than we did this year, based on the bills we are passing this week and next. So this isn’t austerity. It is gluttony. It is political gluttony.

Since Obama became President, the debt limit has been raised four times. The debt is rising faster and higher than ever. Yet the Senate refuses to pass a budget or cut spending. We must budget and balance the budget or we are going to bring down our whole country.

Republicans have offered a strong balanced budget amendment that limits government spending to 18 percent of gross domestic product—GDP—and requires a two-thirds majority to raise taxes, and it has earned the support of every Republican in the Senate. That is pretty unusual for us. Passage of that amendment should have been tied to the last increase in the debt limit, but it wasn’t. President Obama was given another \$2 trillion to borrow, and Americans received nothing in return, no cuts in spending.

The Democratic amendment differs in three ways from the Republican amendment.

What Republicans are trying to do is to reduce the level of spending relative to our total economy and to make sure it is difficult to raise taxes to balance the budget. And we should all agree on that. We shouldn’t go back to the taxpayer every time we spend too much. The emphasis should be on reducing our spending. But the Democratic amendment doesn’t cap spending to the historical levels, which means we can balance the budget by raising taxes and continuing to increase spending. So our

amendment is designed to cap that spending at a certain level.

Secondly, the Democratic balanced budget amendment does not require a supermajority to raise taxes. So during regular order here, we can increase taxes to meet the requirement to balance the budget. It would be a nice safeguard for the American taxpayer that we would at least have to get a supermajority to raise taxes in order to balance the budget.

For some reason, the Democratic balanced budget amendment inserts just an element of class warfare, saying that we cannot decrease taxes on those making over \$1 million. It doesn't sound like something we would do anyway, but it is not something that should be part of a constitutional amendment that we send to the States to ratify.

The strong Republican balanced budget amendment would force both parties to find ways to cut spending and reform entitlements. Those are the things we have to do. The weaker Democratic version does not do that because it preserves the status quo where it is easier to raise taxes than cut spending, which is where we are today.

For the past 2½ years, Senate Democrats have not produced a budget, let alone a balanced one. President Obama proposed a budget this year that doubled the national debt. Again, that is not a budget; that is a loan application and this country cannot continue to operate based on more borrowed money and more spending and more threats of raising taxes.

If we want to get the economy going and balance our budget, we have to cut spending. That is the whole idea of the Republican balanced budget amendment. Let's get serious about saving our country and the freedoms for which so many have fought. If we do not do it soon, we will lose control of our destiny.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Texas.

Mrs. HUTCHISON. Madam President, I rise today to join many of my colleagues, as Senator DEMINT has said, to endorse the balanced budget amendment that Republicans are offering. We have 47 Republicans in the Senate and there are 47 cosponsors and supporters of this approach to a balanced budget. Our approach addresses the fundamental problem in America and that is government spending. Big problems require bold action. Today's staggering national debt, \$15 trillion, is crippling our economy. We must take action to stop it.

The 40-year average of total U.S. Federal Government spending is 20.8 percent of gross domestic product. For 2011, Federal spending was 24.1 percent of GDP. Looking forward, if we stay on the same course we are on, Federal

spending is projected to be 40 percent of GDP in 2046, and by 2085 it will reach 75 percent of GDP. We are reading a lot of stories about European countries that are doing exactly what we are talking about how the future for America will look like if we do not curb spending right now.

Some of my colleagues on the other side of the aisle think increasing taxes will reduce the deficit. However, the facts state otherwise. The trajectory of government spending, as I have outlined, could not be met with tax increases. There are not enough tax increases if you went to 100 percent rate of tax. There would not be enough to support that kind of government spending.

In addition to that, as we have been saying, increasing taxes is going to lower the capability of our small businesses to hire. That is what we are trying to spur right now, more employment. It is going to take systemic changes in government spending to get the debt and deficits down in this country. Lower spending is the only way we can have the systemic changes that are necessary to lower the government burden so the debt begins to get less and less.

My colleagues across the aisle have proposed their solution with a different approach to a balanced budget amendment. In our opinion, it is flawed because it fails to include a supermajority requirement to raise taxes and it separates Social Security from the Federal budget. That might seem like a good idea on its face, to assure that Social Security never goes under because there would not be a connection between Social Security and the Federal budget, but in fact as we speak today it is part of our Federal budget because the Social Security outlays exceed what is coming in revenue from Social Security. Excluding Social Security from our Federal budget would not solve our deficit spending or shore up Social Security's finances for current and future generations. Right now, Social Security is on a glidepath toward insolvency.

I firmly believe that entitlement reform is vital to any long-term solution to our Nation's financial problems. It is essential that we assure the markets that long-term financial challenges are being confronted, and that includes entitlement reform so that Social Security will be on a glidepath toward solvency rather than the other way around.

Earlier this year I proposed a modest Social Security reform that would gradually increase the retirement age so it more closely resembles today's actuarial tables and life expectancy. It would decrease the annual cost of living slightly by adjusting it if inflation exceeds 1 percent. If inflation exceeds 1 percent, then you would have a cost-of-living adjustment. Otherwise, you would not.

In addition to spending reduction and entitlement reform, we need long-term progrowth tax policies in place, not constant threats of tax increases. When we hear our small business people talking about why they are not hiring—because I think probably every one of us in this Senate as we travel around our States and in the country asks our small business people why aren't you hiring? Why aren't you adding to our economy?—they say two things. They say, No. 1, the regulations of this country are driving them down. It is like a blanket over their capability to produce, get more traction and hire people. So it is overregulation that we are seeing rampant in this administration.

The second thing is our President is always talking about tax increases. He talks about it every time I see an interview or a speech. Those people out there need to pay more taxes. You know what, if you are being constantly threatened with more taxes, you know you have to look at your budget and adjust, and that adjustment usually means you are not going to hire people if you know your expenses are going to go up through regulations and more taxes.

If we are going to make conditions in this country better for private sector job growth in this country, which certainly would lead to a stronger economy, we have to address spending and tax policy. Our balanced budget amendment moves forward on these fronts. We reduce spending responsibly, to put our country on a fiscally responsible path. We can shift the spending trajectory in this country by passing the balanced budget amendment and implementing a long-term plan that caps Federal spending. The Federal Government has grown exponentially in the last few years. We cannot sustain that. That is not a responsible position when we know unemployment is almost 9 percent. We have to have policies that will encourage employment. That is the way to grow revenue.

We can grow revenue, but not by taxing the people who are hiring. Rather, we can do it by giving them a regulatory playing field that is responsible and not overbearing, and by making sure we have not only a tax policy that encourages hiring but one that is stable and predictable.

If taxes are going to change every year, that is not predictable and it is not stable. I hate it when I talk to an international company and I am talking to someone in that company—maybe the CEO, or chief financial officer—and I say, why are you moving that part of your company overseas? They will invariably say: Because there is a better regulatory environment.

That is shocking. It is shocking for an American CEO to say we can better predict what the conditions for regulations are in foreign countries than we

can in America. That is not the foundation to revive our economy.

We have a balanced budget amendment that we believe addresses the issues of this economy. It will put caps on Federal spending. It will start bringing down the size of government to meet the gross domestic product of our country. Right now it is off balance and we need to put it right so we do start hiring in this country in the private sector. Hiring in the government sector is not a long-term growth strategy. We need jobs in the private sector for permanency and we will do that with a balanced budget amendment that puts caps on spending. Systemic change is what is necessary in this kind of environment. I hope Members on both sides of the aisle will look at these amendments and realize we could help the jitters in the market get calmed by addressing this in a long-term way.

The balanced budget amendment we are offering—and we will vote on tomorrow—is the best approach. It is looked at by people in the real world, the business world, the hiring world. They are saying what they need is stable regulatory environment and taxes that are not confiscatory so they will have the ability to hire more Americans and create greater revenues through people who are working and producing—people who are going to pay taxes, people who are going to export and keep our economy on a growth pattern rather than one that continues to sit there with a high unemployment rate that is stagnating our country.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Wyoming.

Mr. BARRASSO. Madam President, I rise today to join with the Senator from Texas and agree with her about the need for a balanced budget amendment to the Constitution and agree with her comments about the economy in this country and our need to focus on jobs and debt and the spending. I agree with her and I agree with the majority of the American people. That is why I am here today to talk about the balanced budget amendment to the Constitution.

We are at a time in the calendar year where the holidays are rapidly approaching. Americans across the country are looking very closely at their budget. That is what families do, they look at their budget and they consider what costs are out there and what money is available to deal with those costs. They are looking at gifts and travel and holiday celebrations. They are carefully balancing their regular monthly expenses with these additional special costs in order to avoid starting the new year with a mountain of new debt. Americans understand there are consequences for irresponsible spending. Folks know if they make decisions which they later decide

were not the best decisions, then by New Year's Day bills will come due and they will have real concerns.

Formulating a responsible budget is not always easy, but it is absolutely necessary. It is the right, the reasonable, and the responsible approach. The problem is, unlike the rest of this country, Washington does not seem to be concerned about responsible budgeting. In fact, Washington does not seem to be concerned about any kind of budgeting. In Washington, the President is responsible for submitting a budget every year. Congress is then responsible for passing a budget every year. It has not happened this year; it did not happen last year. The House of Representatives did their job when they passed PAUL RYAN's budget, but this body, the Senate, did nothing. In fact, this Senate has not passed a budget in over 950 days.

What has happened in the last 950 days? Well, in 2010, the Chairman of the Joint Chiefs of Staff said: "The single biggest threat to our national security is our debt . . ." The single biggest threat to our national security is our debt. Washington did nothing.

A year ago this month, the President's bipartisan commission made recommendations to rein in the debt. The recommendations have been largely ignored. More recently, the Joint Select Committee on Deficit Reduction failed to present a plan to cut \$1.2 trillion from the deficit as required by the legislation. Our national debt is now over \$15 trillion. Our credit rating has been lowered for the first time in the history of this great Nation. So here we are, \$15 trillion in debt and no real plan to get out of it. The American people deserve better. They expect better.

Back home in Wyoming folks understand the importance of balancing budgets and living within their means. What they don't understand is why Washington doesn't get it. A constituent from my hometown of Casper—Mike Brewster is his name—wrote to me earlier this year. Folks in Wyoming like Mike get it. Mike wrote:

One of the values that makes our state and our communities so strong is being financially solvent. We do not spend more than we make. If we max out our credit cards, we don't ask for higher credit limits, we cut our spending. To do anything else would label one a fool.

Referring to the national debt, he went on in his letter and said:

Let's be clear; this is a crisis. This crisis wasn't caused by a lack of revenue; it was caused by spending way beyond our means. The only logical solution is to reduce spending—that is the "Wyoming Way." That is what your constituents would have to do if they had the same mess in their personal finances, and that is what you must do to properly represent us.

Mike is absolutely right, this is a crisis. It is a crisis that could have been prevented and a crisis where we need to

solve it by doing the right thing. If we are going to balance Uncle Sam's checkbook, we need to stop charging everything under the Sun to the taxpayers' credit card. That means we need to stop spending more than we take in, and in order to achieve this, I believe that now, more than ever, we need a balanced budget amendment to the Constitution.

Amending the Constitution is not something I take lightly. This is the single most important document in our Nation's history, and I am very hesitant to suggest amending it. However, Washington's unwillingness and inability to be responsible stewards of taxpayers' dollars has left us no choice. We need to begin the long road to financial recovery by balancing each and every budget. We do it in Wyoming, and Washington should follow suit.

The balanced budget amendment is not a new idea. In fact, a bill that would have sent a balanced budget amendment to the States for ratification failed by one vote in 1997 right here in the Senate. Over the years many Democrats who serve in the Senate today have voiced their support for a balanced budget amendment.

Senator SHERROD BROWN, Democrat of Ohio, said:

Before I ask for your vote, I owe it to you to tell you where I stand. I'm for . . . a balanced budget amendment.

That was what he said in 2006.

DEBBIE STABENOW had another similar quote in 2000: "I crossed the line to help balance the budget, as one of the Democrats that broke with my party."

Senator HARRY REID, the majority leader, said back in 1997 when they were voting on a balanced budget amendment: "I believe we should have a constitutional amendment to balance the budget. I am willing to go for that."

Senator TOM HARKIN said: "Mr. President, I have long supported a balanced budget amendment. I expect to do so again . . ."

We could go on and on with Democrats who in the past stood up to support a balanced budget amendment.

It seems to me if folks on the other side of the aisle are serious about balancing the budget, they will support the only balanced budget resolution with teeth. The Republican plan imposes real spending discipline that cannot be undermined by simply raising taxes on hard-working Americans. If we are going to amend the Constitution, we need to make sure the balanced budget requirement cannot be easily sidestepped by either party. The Republican plan does just that.

Our creditors will not wait for a politically convenient time to collect our debts. We simply cannot afford to wait any longer to reduce those debts. Irresponsible, unsustainable spending and debt has consequences, consequences we simply cannot afford to pay.

If you don't believe me, look at Europe. Everyone in this body needs to take a long, hard look at Europe and then decide what future they want for our great Nation. This is not about doing what is right for Democrats or Republicans; it is about doing what is right for all Americans and for this entire country.

As Art Middlestadt from Cheyenne, WY, said in a recent e-mail: Allowing our children to suffer the consequences of Washington's reckless budgeting is unconscionable. Well, this is about showing Art and the rest of America that we hear them and we understand them. Families know this, individuals know this, and the sooner Washington knows this, the better.

I urge all of my colleagues to vote in favor of balancing the Federal budget. I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Oklahoma.

Mr. INHOFE. Madam President, one of the things about a debate such as this is that I have something I always do, and that is I will sit down and cross off things I was going to say that somebody else has already said. Unfortunately, almost everything has been said, but there are a few things that have not. I wish to put this in a more of a historic perspective.

I can remember back in 1968. In 1968 I was elected to the Oklahoma State Senate, and at that time we were all concerned about the deficit spending and the debt in this country. I remember so well a kind old gentleman from Nebraska. He was U.S. Senator Carl Curtis. Carl Curtis contacted me—because I was kind of an aggressive person at that time—and said, I have an idea. I have been up here trying to pass a balanced budget amendment to the Constitution and I have been trying for years to do it. One of the primary objections they have is they could never get the majority, the three-fourths necessary to ratify the Constitutional Amendment. He said, this is my idea: Let's go ahead and get three-fourths of the States to preratify a budget-balancing amendment to the Constitution. I thought that was an ingenious idea, and so we did.

I passed a resolution in the Oklahoma State Senate in 1968 that said we were going to preratify it. In fact, we came within one State of having the three-fourths necessary to do that; not that that would have preratified it, but it would have taken away the argument that Carl Curtis had that they objected to in that they would never be able to ratify this in the States. I thought that was a great idea. We came close to doing it way back in 1968. I remember this very well. I was trying to impress upon the American people how much that debt was, and at that time the debt was \$240 billion. I said, if you take dollar bills and stack them up, by the time you get to \$240 billion,

it is the height of the Empire State Building. That was only \$240 billion.

A lot of the groups and Members who are opposed to passing the balanced budget amendment think we don't need one. They actually believe Congress and the President can balance the budget without any enforceable accountability. But in 1986 when the amendment failed by one vote—and I remember that year so well because that was the year I was elected to the House of Representatives here in Washington—the national debt at that time was \$2.1 trillion. By 1997, when the Senate considered the amendment again, the debt had risen to over \$5 trillion, and it got up to about \$10 trillion when this President took office, and that is where this all starts.

What has happened since President Obama has been in office is something that is totally unprecedented in the history of this country. In the years he has been there, it has gone up 42 percent. I was concerned back in 1968 with \$248 billion, and now the increase in this short period of time has gone from \$10 trillion to \$15 trillion.

I think everyone knows the need to reduce spending is evident. We don't have to do anything more than look across the Atlantic. I think my friend from Wyoming covered that pretty well. When you stop and think what has happened to these countries over in Europe—and it is not just Greece and Italy; there are other countries too. They could not resist their insatiable appetite to spend money they did not have. What has happened there is happening in this country. I agree with my friend from Wyoming, we are right behind Europe in this case.

I remember, and probably everyone in this Chamber remembers, during your elementary years reading about the history of this country. A guy named Alexis de Tocqueville came to the United States. He came here, oddly enough, to study our penal system. That was back in the founding years of this country. When he got here, he was so impressed with the wealth of our Nation that he stayed and wrote a book. In this book he talked about how one plot of land was given to each person who came over and they were able to keep the benefits of their hard labor, and the prosperity was indescribable at that time. It is said in the last paragraph of the de Tocqueville book that once the people of this country find they can vote themselves money out of the public trust, the system will fail. That is why I say this is not an ordinary time. This is not 1968, 1986, 1997, where we tried this before. This is to the point where we will realize the accuracy of de Tocqueville's prediction.

It has been publicized recently that 47 percent of the people are not paying Federal taxes and not paying income taxes. That is dangerously close to that 50 percent he was talking about

several hundred years ago. So this year Washington has been patting itself on the back with the Budget Control Act we passed in August which cut spending by \$900 billion over the next 10 years. We are slowly starting to chip away at appropriations bills. These have not been as advertised. They have not come close to solving the problem. This is demonstrated by the fact that next year's deficit is still expected to be right around \$1 trillion. I know this is kind of offensive to some of the people who participated in this great committee that was charged with the great responsibility of finding \$1 trillion over 10 years.

When I talked to a large chamber group in Oklahoma on Monday morning—we had over 500 people there—I said: Can you understand what is happening here in terms of the request that has been made of coming up with \$1 trillion over 10 years?

As the Senator from Wyoming said, the President submits a budget. It is not the Democrats, not the Republicans, not the House, not the Senate. It is the President. He has now submitted three budgets. In his three budgets he has had deficits each year of almost \$1.5 trillion.

I remember in 1997 going down to the floor when Bill Clinton was President of the United States, and that was the first \$1.5 trillion budget to run the country. That was \$1.5 trillion to run the entire United States of America. Yet this President has come up \$1.5 trillion in deficit over and above the revenues we had each year for 3 years.

If you have the requirement of coming up with \$1 trillion over 10 years and yet this President has increased the deficit by almost \$5 trillion in the short period of time—it probably will be \$6 trillion by the time the last budget is realized—then how in the world are you ever going to dig out of this? Well, the answer is you cannot.

Further, when I was talking to the people in Oklahoma on Monday, and I said, the requirement for the first year was \$44 billion—if you take \$44 billion as a requirement to cut spending in the first of 10 years and yet the President has had an increase of \$1.5 trillion in his budget for 1 year, obviously that is not much of a requirement.

Obviously, that is not much of a requirement. That is not going to do. So to me that demonstrates what we are not able to do without having a balanced budget amendment to the Constitution. The amendment we have makes it difficult to raise taxes. It also requires that the President and Congress pass a balanced budget each year. It does something else that is very significant. The amendment would also limit the amount of spending allowed to 18 percent of GDP, which is the historic level of revenue the Federal Government has collected since World War II.

So it covers these things. People complain about it, saying: Well, we do not know. There could be times of crisis. There could be times of war.

This has it built in. If we are in a declared war, you do not have to follow the guidelines in the balanced budget amendment. In fact, you could actually violate it because that is in times of war. We understand that. If it is not a declared war, you can do it with a supermajority. So this has those built in safeguards to take care of contingencies that we cannot determine what they are right now, such as war, such as a crisis we have.

Now, some of those people—not too many people will come to the floor and say this, but in their own minds they still believe this idea that more government spending can actually make the economy grow. And I do not know how they can still believe that after what they call the American Recovery and Reinvestment Act. It was \$825 billion. That was supposed to be a stimulus package. That was supposed to stimulate the economy. Yet only 3 percent of that actually went to things that specifically would stimulate the economy, such as roads, bridges, and things we were supposed to do. It was all financed with extra government debt and with projects such as Solyndra, which has gotten a lot of attention recently, and other projects. It was more social engineering. We all know that. So we know you cannot increase spending to pull us out of the situation we are in. They also said that would cause the unemployment rate to get down to well below 8 percent. Of course, we know now that it did not do that. So none of the projections actually came to be realized. The economy is still very weak despite the fact that the President was able to secure nearly \$1 trillion in stimulus spending. It did not help this time. It is not going to help again. It never helped in the past.

To enforce the amendment, the courts would be prevented from mandating tax hikes. Further, to raise the debt limit, a three-fifths majority of both Chambers—both, not just one—would be required.

So it does take care of all of these contingencies that I think would be necessary and answers the complaints that people have who say it would be dangerous to have a balanced budget amendment.

I know it works. The funny thing about it, when they say it will not work, look at the laboratories we have for the Federal Government. My State of Oklahoma, balanced budget amendment. It has all of these things built into it. In fact, it is not as generous as the one we are advocating. But nonetheless, I remember my years in the State legislature. We would get up toward the end of the year, and they would say: Well, wait a minute, we can't do that because we can't go into

a deficit. If the States can't do it, we can pass the same thing.

So I would merely say, try to put it in the historic perspective. If you do that, then you will see why it is a sense of urgency that 47 percent of the people are on the receiving end of government. It would turn around and get to that point where, as Tocqueville said, we cannot go beyond.

Remember in 1968 the Carl Curtis thing. That was a \$240 billion deficit; 1986, \$2.1 trillion; in 1990, it was up to \$10 trillion. It took all of that time to get up to \$10 trillion. That has almost doubled with this one administration, with this President. So this is not business as usual. This is not like the balanced budget amendments have been in the past. They are structured very much the same way, but the sense of crisis is here.

I have 20 kids and grandkids. What we do here is not going to affect me personally, but it is going to affect future generations. This is an opportunity to really do something meaningful.

I urge the support of S.J. Res. 10, a strong balanced budget amendment to the Constitution.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant editor of the Daily Digest proceeded to call the roll.

Ms. AYOTTE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. AYOTTE. Madam President, I rise today to join my colleagues in expressing my clear and unequivocal support for a balanced budget amendment to our Constitution, Senate Resolution 10.

With our out-of-control and unsustainable debt threatening nothing less than the American dream and the opportunities that will be available for our children and our grandchildren, we need to pass a meaningful balanced budget amendment, and this, in my view, can be one of the single most important steps we can take to get America's fiscal house in order and to save our country from looming insolvency.

Madam President, 49 States in this country have some requirement to balance their budget. The Federal Government should be no different. My home State of New Hampshire has a legal requirement to balance its budget and has long followed this commonsense tradition of fiscal responsibility.

This is a subject I have discussed extensively with my constituents over the last year while I have done town-hall meetings throughout our State focusing on our Nation's debt crisis. I have done a PowerPoint presentation to show my constituents the hard numbers on the fiscal state of this country.

And it is deeply troubling where we are today: 3 straight years of \$1 trillion-plus deficits, over \$15 trillion dollars in debt, Medicare and Social Security on a path to insolvency as early as 2024 and 2036, respectively, and nearly half of our debt—47 percent—currently is being held by foreign entities, and the single biggest foreign holder of our debt is China.

I also talk about spending and deficits in terms of how it relates to your average New Hampshire family. In New Hampshire, if you use Washington's budgeting logic where we are borrowing 40 cents of every single dollar—in 2008, the New Hampshire median household income was \$66,000. If you used Washington logic, the amount that family would spend would be \$107,000 or \$41,000 more than they earned. That would never fly in New Hampshire where families sit around their kitchen tables and they use their common sense to balance their budget. Yet in Washington we continue to perpetuate this borrowing to sustain our government every day.

If you look at where we are, one of the most troubling statistics that really impacts our economic growth is the share of our gross debt to the size of our economy or our GDP. That is now 100 percent. Just 5 years ago, that ratio was closer to 60 percent.

As many of us in this Chamber are aware, economists Carmen Reinhart and Ken Rogoff have concluded in a study that over the past century, for nations that reach where we are, where total debt reaches over 90 percent of the size of our economy, there is a negative impact on economic growth. And we can expect lower job growth and fewer economic opportunities. We certainly cannot afford that in this troubling time for Americans.

So not only do we need to get our fiscal house in order because it is the right thing to do so we are not dependent on other countries such as China to fund our government, we also need to do it so we can provide opportunities for future generations of Americans.

New Hampshire citizens understand we cannot keep spending money we do not have. They make those commonsense decisions on their own family budgets. Small business owners in New Hampshire are astounded when I tell them our Federal Government is operating without a budget. They would never run their businesses without a budget. But they do not understand why Congress cannot even perform such a basic function of passing a budget blueprint.

It has now been 958 days since the Senate last passed a budget. I have to say that I was really honored and excited to be the newest appointment to the Senate Budget Committee. However, I have been incredibly, incredibly disappointed that we have not in that committee done the hard work that

needs to be done, the thing that is right for this country—to sit down, to make the hard choices, to put together a budget blueprint and to pass a Senate budget, to have the robust debate on the Senate floor about how we prioritize our spending and how we live within our means. The American people deserve better. They deserve us to do our job and to pass a budget for our country that is fiscally responsible.

In that time, in those 958 days that the Senate has not passed a budget, the Nation's debt has increased by \$3.9 trillion. When you think about it, it is deeply troubling. I am hopeful that if we bring forward and pass the requirement of a balanced budget amendment to the Constitution, it will also force Congress to do the basic function of putting together a responsible and balanced budget for our country.

I cannot emphasize enough the urgency of passing this budget control measure, the balanced budget amendment, Senate Resolution 10. I think it is important for my constituents and the American people to know, if we pass the balanced budget amendment in this body, in the Congress, this is putting the question to you, to the American people, to decide, do you want the Federal Government to balance its budget?

So when we pass an amendment to the Constitution, we are simply sending along to the States the decision of should we amend our Constitution. I cannot think of anything more important than sending that question to the American people, to our State legislatures, to decide should we live within our means; should we be bound by the same requirements the States have, by the same common sense we find at home to balance our budgets and live within our means.

Madam President, for fiscal year 2011 we spent 24.1 percent of our GDP. That is well above the historical spending average of a little over 18 percent, if we go back to 1960 where the revenue we had has come in. So we are at a huge trajectory of spending at 24.1 percent. Yet in 2011 our revenues only accounted for 15.4 percent of our economy because of the difficult times we are in relative to our economic growth.

Under the Republican proposed balanced budget amendment, we put the handcuffs in place that are needed to put us on a path to eliminate this by capping Federal spending at the historical level of revenue at 18 percent. Why is this important? It is important because we can't continue to spend well beyond our means. We have to acknowledge that a meaningful balanced budget amendment will also cap Federal spending at its historical levels.

It is not difficult to see what will happen if we don't get control of our fiscal situation right now. Budget shortfalls will only get much worse, driven by massive increases in entitle-

ment spending and interest payments, and the reality is the failure to act will result in America going the way of what we see happening in Europe right now, the way of Greece, Italy, and Ireland: our economy in tatters and our standard of living greatly diminished.

We cannot let that happen to our country. We must act now. We must pass this balanced budget amendment in the Senate and send that question to the House and also send that question to the States so the people of this country can decide if we should be responsible and have to balance our budget. Left unchanged, Medicare, Social Security, Medicaid, and other mandatory health programs alone will eventually grow to consume every single dollar of the revenues our government takes in.

Without reform, the Social Security trustees project the program will be insolvent by 2036. As a result, beneficiaries may see a benefit cut of 23 percent in just 25 years. The Medicare trustees project it is even more immediate and dire. The Medicare trustees project Medicare will be insolvent by the year 2024.

It doesn't have to be that way. We need to show the political will and courage to reform these programs, make them sustainable, and to reform them and preserve them for those like my grandparents, who are relying on them, and for future generations to know that these programs will be there. But if we fail to take this challenge on now and continue to kick the can down the road, then these programs will be greatly diminished, and they will continue on an unsustainable path that is bankrupting our country.

In this debate, it is important to remember that in 1997 the balanced budget amendment failed to pass this body by only one vote. At that time, our national debt stood at \$5.4 trillion. We now have a \$15 trillion debt. That debt equates to about \$128,000 per household. That is a huge amount of money to an average household. Under the Budget Control Act, which I opposed last August, the debt will be allowed to reach a new limit of \$16.4 trillion, left unchecked.

Congress has raised the debt limit 79 times since 1960, and in just 4 short months since the debt limit was last increased, over \$700 billion has been added to our debt, since we took that action in August.

Speaking of the debt limit, the Republican-backed balanced budget amendment will require a congressional supermajority to raise the debt ceiling. That means three-fifths of both Chambers will have to approve unless it is a time of war. That would require a majority in a time of war. That is a very important measure because we can't continue to increase the debt limit without addressing the underlying drivers of this fiscal crisis that faces our country.

I also want to briefly touch on taxes. The Republican version of the balanced budget amendment, S. Res. 10, would require a supermajority to raise tax rates. We have a spending problem, not a revenue problem. Under S. Res. 10, a two-thirds approval of both Houses of Congress would be required for any bill "that imposes a new tax or increases the statutory rate of any tax or the aggregate amount of revenue."

My friends on the other side of the aisle are proposing an alternative—S. Res. 24—to the balanced budget amendment that I have just described. While this proposal sounds good, it fails to squarely address the magnitude of the challenges we face. It doesn't apply to all spending. It also doesn't contain a cap on spending. It does nothing to strengthen our entitlement programs, and it does nothing to make it harder to raise taxes. It does nothing to make it more difficult to raise the debt ceiling. In my view, it is insufficient to be meaningful to pass along to the States for a vote.

The Republican alternative contains the elements that I just talked about—a balanced budget, spending caps, a supermajority to raise taxes, and making it more difficult to raise the debt ceiling, unless and until we address the underlying causes of our fiscal crisis.

This issue is deeply personal for me. I fundamentally believe all of us have a duty to make this country stronger than we found it. As the mother of two young children, Katherine, now 7, and Jacob, 4 years old, who are both very excited for Christmas, I want the American dream to burn as brightly for them as it has for me. It is not too late for our country or for this body to make the tough decisions that will put our country on a fiscally responsible path.

I feel a solemn duty to make sure we make those choices now and that we don't continue to kick this can down the road to future generations and burden them with a debt they did not incur. The last thing I want is for my children to ask me: Mom, you knew we were going bankrupt. What did you do to save our country?

Now is the time for courage. All of us recognize the enormity of the fiscal challenges we face, as well as the dire cost of continued inaction in this body. The Republican balanced budget amendment provides a solid foundation that will set our Nation on a fiscally responsible path. This is an urgent need that we have right now. We cannot do what we did in 1997 and fail to pass the balanced budget amendment. We should send this question to the States and let them decide, let the people of this country decide: Should we live within our means? Should we balance our budget? Should we deal with this debt crisis now and make sure our children and all children and our

grandchildren will have the same opportunities we have been blessed to have in the greatest country on Earth?

I urge my colleagues to support S. Res. 10.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota.

Mr. CONRAD. Madam President, I agree with the Senator from New Hampshire on some of what she said with respect to facing up to our deficit and debt. This debt does present a clear threat to our country, and it must be confronted. I agree with her entirely on the question of the importance of that and the priority of it.

I disagree entirely with respect to this amendment that is before us. I came to the Senate floor to address this balanced budget amendment because I believe it would be a profound mistake for this country. In fact, I believe if this amendment were in force today we would be in a depression. I believe adopting this amendment would have and could have disastrous consequences for the economy and for the future strength of this Nation.

I would like nothing more than to have a balanced budget. I believe in balanced budgets. I believe this debt represents a clear threat to the country. But I do not believe a constitutional amendment is the way to achieve it. I believe the way to achieve it is for us to make the decisions to balance the budget, to cut the spending, to raise the revenue, to actually balance the budget—not leave it to a constitutional amendment or to unelected judges or to the States but to make those decisions here and now.

I have been part of the fiscal commission where 11 of 18 of us agreed to a plan to get our debt under control. I have also been a part of four Democrats and four Republicans who have produced a plan that would get us back on track.

Here are the key provisions in the proposal before us. First, it would require the adoption of a balanced budget each year unless two-thirds of the House and the Senate voted to waive the requirement.

Second, it would cap spending at 18 percent of the prior year's gross domestic product, again, unless two-thirds of the House and the Senate voted to waive the requirement.

We have not had a spending level of 18 percent of GDP in as long as I can remember. So that is a formula I think that goes against the reality of the needs of this country—not only the need for support for education but also for our national defense.

It would prohibit passage of any bills that increased revenue unless two-thirds of the House and the Senate voted to waive the requirement. The Senator just showed a chart that showed revenue at the lowest level it has been in 60 years as a share of our national income. Again, revenue is the

lowest it has been in 60 years. This constitutional amendment would say it would take a two-thirds vote to change it. Really? Revenue is the lowest in 60 years, and we are going to have a two-thirds vote to change it? Boy, that is a guarantee we are not going to have the necessary revenue to balance the budget anytime soon.

It would require a three-fifths vote in the House and Senate to increase the debt limit.

Here are what I see as the key problems with this proposal. First, most important, it would restrict our ability to respond to economic downturns. It would effectively block the implementation of countercyclical policies. This would only compound economic declines and possibly throw us into a recession or even into a depression.

Two of the best known economists in this country did a review of what would have happened absent a Federal response after the events of late 2008. Alan Blinder, former deputy head of the Federal Reserve, and Mark Zandi, the head of Moody's Economics, a former campaign adviser to JOHN MCCAIN, did an analysis of what would have happened in this economy absent the Federal response—the TARP and the stimulus. Their conclusion is that had we not had that Federal response, we would be in a depression today. We would have 16 percent unemployment. We would have 8 million more people unemployed.

This amendment would have prevented that response. What a mistake, what a profound mistake. Further, this amendment uses Social Security funds to calculate balance and subjects the Social Security Program to the same cuts as other Federal spending. Further, it shifts ultimate decisions on budgeting to unelected and unaccountable judges.

Finally, The State ratification process for a balanced budget amendment could take years to complete.

We don't have years. We need to act now, and we don't need an excuse for inaction by saying: Oh, we passed a balanced budget amendment to the Constitution that will not take effect for God knows how long.

Here are some additional problems that are specific to this proposal. The 18 percent of GDP spending cap is Draconian and unrealistic, particularly given the retirement of the baby boom generation and rising health care costs. The restriction on legislation that raises revenue would effectively prevent any increase in revenue, even if it is part of a bipartisan, balanced debt reduction plan.

What a profound mistake that would be. Again, I repeat: Revenue as a share of our national income is the lowest it has been in 60 years. Spending as a share of our national income is the highest it has been in 60 years. So this proposal would absolutely handcuff us

on the revenue side of the equation, locking in deficits for God knows how long. It doesn't make sense.

Making it more difficult to raise the debt limit, this proposal increases the likelihood of default. We saw the turmoil created by our near default this summer. Why would we want to make an actual default far more likely to occur?

We can also see that on our current course, by 2021, spending on Social Security, Defense and other nonhealth care spending and interest alone will reach more than 18 percent of GDP. What is missing? Medicare. If we stay on our current course, under this balanced budget amendment, Federal spending on Medicare would have to be completely eliminated. Let me repeat that. On our current course, by 2021, spending just on Social Security, Defense, nonhealth care spending, and interest alone will reach more than 18 percent of GDP. What is missing? Medicare. Medicare would have to be completely eliminated if we aren't to change what we are doing with Social Security, not to change what we are doing with Defense and other nonhealth care spending. Obviously, we can't do anything about the interest expense. That has to be paid.

It is notable an 18-percent spending limit is so unrealistic that even the House Republican budget would violate this restriction in every single year. Let me repeat that. This 18-percent restriction on spending is so unrealistic that even the House Republican budget would violate this provision in each and every year of its life.

Norman Ornstein, a respected scholar at the American Enterprise Institute—a Washington think tank—described a balanced budget amendment as a very dumb idea. In a column in Roll Call earlier this year, he wrote:

Few ideas are more seductive on the surface and more destructive in reality than a balanced budget amendment. Here is why: Nearly all our states have balanced budget requirements. That means when the economy slows, states are forced to raise taxes or slash spending at just the wrong time, providing a fiscal drag when what is needed is countercyclical policy to stimulate the economy. In fact, the fiscal drag from the states in 2009–2010 was barely countered by the Federal stimulus plan. That meant the Federal stimulus provided was nowhere near what was needed but far better than doing nothing. Now imagine that scenario with a Federal drag instead.

Mr. Ornstein has it exactly right. A balanced budget amendment would have a devastating impact on our economy at the worst possible time. Mr. Ornstein is not alone in that sentiment. Macroeconomic Advisers, a leading economic forecaster firm, had this to say in a company blog posted in October:

If actually enforced in fiscal year 2012, a balanced budget amendment would quickly destroy millions of jobs while creating enormous economic and social upheaval. The effect on the economy would be catastrophic.

Let me repeat that. The effect on the economy would be catastrophic.

Continuing the quote:

No model could capture the ensuing chaos and uncertainty, which would make matters far worse.

Macroeconomic Advisers went on to conclude that enforcing a balanced budget amendment in 2012 would result in 15 million fewer jobs.

Let me repeat that: 15 million fewer jobs. That is largely in line with the Blinder and Zandi analysis of what would have happened absent the Federal response to the economic downturn.

Here is what Bruce Bartlett, a former Reagan administration economic adviser, wrote in a New York Times on-line column in November:

The idea of mandating a balanced budget through the Constitution is dreadful. And the proposal that Republican leaders plan to bring up is, frankly, nuts. The truth is that Republicans don't care one whit about actually balancing the budget. If they did, they would want to return to the policies that gave us balanced budgets in the late 1990s. Of course, no Republican favors such policies today. They prefer to delude voters with pie-in-the-sky promises that amending the Constitution will painlessly solve all our budget problems.

We must absolutely address the Nation's deficit and debt. Our friends on the other side have that exactly right. Our economic future depends on our ability to put the budget back on a sound long-term path. That is why I believe what is actually needed is for us to put our energy and effort into writing a budget that actually balances, cutting the spending, raising the revenue, making the tough choices. That is the best way forward.

A balanced budget amendment to the Constitution is not the answer, and this balanced budget amendment is particularly troubled. It would restrict our ability to respond to economic downturns, it would impose a draconian and unrealistic spending cap, and it would effectively prevent any increase in revenue, even if it is part of a bipartisan balanced deficit reduction plan.

I urge my colleagues to reject this amendment.

On a separate matter, let me just say when my colleague said we don't have a budget, we do have a budget. I sometimes think our colleagues missed out on what happened on August 2. We passed the Budget Control Act. The Budget Control Act provided a budget for this year and for next year. That is the budget we are operating under. It was passed in the Budget Control Act on August 2.

So when they put up these signs that say we haven't had a budget for 958 days or 858 days, that is not right. We do have a budget. They may not particularly like the budget. They certainly may not like the way it was done because it wasn't done through

the regular process. It wasn't done as a budget resolution. It was done as a law. Budget resolutions are not signed by the President of the United States; they are purely a congressional document. The Budget Control Act is actually a law. It imposed a budget for this year and next year and 10 years of spending caps. That is the law of the United States. That is a budget.

For my colleagues to stand and say we don't have a budget, it almost makes me wonder, did they miss out on the debate and the passage and the signing of the Budget Control Act? I tell my colleagues, that is our budget. It is in law. It is not just a resolution, it is the law of the land.

I thank the Chair, and I yield the floor.

The PRESIDING OFFICER (Mr. BLUMENTHAL). The Senator from Utah.

Mr. HATCH. Mr. President, I have listened with a great deal of interest to my good friend and colleague, and I do care a great deal for him. He has been budget chairman for quite a while. Frankly, he has been a lone voice over on that side, trying to get all of us to live within our means. I have great respect for him for at least trying.

But we call budgets line-by-line discussions of just exactly what are the inflows and outgoes as determined by the Budget Committees. He hasn't been able to pass a budget mainly because he can't get his side together to do it. It is a disgrace not for him but because our colleagues will not do it. Nobody wants to do that because if they truly had a budget, that would mean we would have to get spending under control. We can't just keep doing it by adding taxes. We have a low rate of income coming in right now mainly because spending is completely out of whack.

I listened to my colleague very carefully. I have to say he made a tremendous case for the constitutional balanced budget amendment because he kept going on and on about all the problems we have. He didn't mention we have been spending 25 percent of the GDP. Usually, that is around 20 percent. So 25 percent is a whopping amount of money. Our former CBO Director said: I guess the new normal will be somewhere around 23 percent. We have been spending around 20 percent, while the revenues are around 18 percent. Now they are spending 25 percent of our GDP.

If there was ever an argument as to why we need some restraint in the Congress of the United States, it is, No. 1, they can't get a budget over there. We have a darned tough enough time over here when we are in charge. No. 2, we are spending this country blind. I think the distinguished Senator made that case eloquently. I think it is both parties too. But there is certainly one party that is much more used to spending than the other—I have to say

that—and it is not the Republican Party.

Look, all I heard in this last dissertation was what a rough road to hoe our country has. This amendment allows for 5 years to gradually reach a point where we can live with a balanced budget constitutional amendment. What it does is send a message to everybody in this body and the other body, over in the House of Representatives, that the game is over. We better get it in shape in 5 years. Some people don't think we can do it in 5 years. I am not so sure we can, but we have to try.

Let me tell you, this country is in real trouble. My distinguished colleague and friend, whom I admire greatly because he does tell it the way it is—though sometimes has his own interpretation as to the way it is—made a pretty darned good case that we are out of control. I have only been here 35 years, but I have to say I haven't seen many days where we have even come close to a balanced budget, and I have seen spending after spending after spending and demands for taxes so they can spend more. Both sides are at fault, in my opinion, but one side much more than the other.

I just wanted to make these points, because, my gosh, he made a great case for the balanced budget constitutional amendment. Frankly, I don't see how anybody listening would say the current way we are doing things is the right way to do it. Yes, this amendment would put constraints on Congress, and they would be tough constraints, but don't buy this argument there is no way we can raise revenue or no way we can spend under certain circumstances.

It is just that you have to have a supermajority vote to do it, and you are going to have to make a case for it for the first time, in my time here, I will tell you that.

I don't think anybody in this country thinks Congress is doing what is right with regard to raising taxes and spending. I have to say that I have watched it for all these years I have been in the Congress, and it is not working because we don't have the constraints that make us have to make it work. That is what this balanced budget amendment is all about.

What they offer as a balanced budget amendment wouldn't put constraints on anything. It is just there so they can have something to vote for so they can say they voted for a balanced budget amendment. It is anything but a balanced budget amendment.

Ms. COLLINS. Mr. President, I rise today to talk about the urgent need for our government to begin living within our Nation's means. We face a very grave fiscal crisis, one that threatens America today and the American dream for future generations. It demands that we get our Nation's fiscal

house in order. So I am pleased the Senate is now debating a balanced budget amendment to our Constitution.

In February 1997, a month after I came to the Senate, I went to the Senate floor to urge my colleagues to pass a balanced budget amendment to the Constitution to prevent our growing debt from swallowing our future prosperity. Unfortunately, that effort came up one vote short. Since that time, our national debt has ballooned to an astonishing \$15.1 trillion.

Sometimes when we deal with large numbers, it is easy to lose sense of what they mean and difficult to put them into context. What \$15.1 trillion in debt means is that a child born today will automatically inherit a debt burden of more than \$48,000. That debt has been largely accrued not for that child's benefit but for our own. It is difficult to imagine a more egregious example of taxation without representation than forcing our children and grandchildren to bear the future tax burden for today's excesses.

Unfortunately, as we have seen over the last decade, the addiction to budget deficits is not simply a Democratic or Republican problem. Both parties have had a difficult time showing restraint when it comes to spending. We have had Gramm-Rudman-Hollings, the Deficit Reduction Act, and the Budget Enforcement Act, and yet deficits not only persist but have grown larger. The fiscal year that ended on September 30 marked the third consecutive year in which the United States has run deficits in excess of \$1 trillion. Deficits have become a part of the way that Washington does business. Spend now and let someone else deal with the consequences later.

Those spendthrift ways are catching up with us. Our skyrocketing debt has become a drag on our economy and a threat to our future prosperity. We simply do not have the luxury of putting off difficult decisions. We are consistently spending more than we take in, and by a large margin. In the last fiscal year, government outlays totaled 24.1 percent of gross domestic product—the second highest level, after 2009, since World War II. Despite the very serious warning signs that we are on the wrong fiscal course, this marks the second consecutive year that the Senate has not even bothered to pass a budget resolution.

It is progress that the Budget Control Act that passed last summer includes caps on discretionary spending, and I have worked very hard with my colleagues on the Appropriations Committee to put together responsible and thoughtful spending bills that live within those caps. But, as my colleagues know, the biggest driver of our long-term debt and deficits is not discretionary spending but the mandatory spending that continues to balloon on autopilot.

Like many of my colleagues, I had hoped that the so-called supercommittee, which was created by the Budget Control Act, would be able to reach bipartisan agreement to reform mandatory spending and change our fiscal trajectory. Unfortunately, that bipartisan agreement remains elusive as both parties failed to come up with a deficit reduction plan that was capable of winning a simple majority of panel members. Instead, we have automatic spending cuts that are set to kick in, which could have very serious consequences for our national defense. Again, Congress has avoided making difficult choices about our national priorities.

The events currently unfolding across the Atlantic, with European leaders scrambling to stop the debt contagion that threatens the economic prosperity of the continent, should be a clear warning signal to us of what could come if we do not stem the tide of red ink that is engulfing our Nation. We must put in place structural reforms that will permanently force Washington to align expenditures and revenues.

Every day when I enter my office building, I am reminded of the famous quote attributed to its namesake, Senator Everett Dirksen. The wry observation he offered some four decades ago—"A billion here, a billion there, and pretty soon you're talking about real money"—seems tragically quaint today. I am convinced, now more than ever, that a balanced budget constitutional amendment is what is needed to address our growing debt and deficits.

Mr. MCCAIN. Mr. President, I come to the floor today to discuss my support of S.J. Res. 10, which would require a balanced budget amendment to the Constitution. Let me start off by saying that we need this amendment to protect the American taxpayer and bring back fiscal discipline to Congress. We need this amendment not because the American taxpayer is taxed too little, it is because Washington in particular, Congress—spends too much. Finally, we need this amendment to show the American taxpayer that we are serious about eliminating waste, fraud, abuse, and duplication from the Federal budget and are serious about putting our country back on a path to prosperity, not bankruptcy.

The Nation's debt now stands at the unsustainable level of \$15.1 trillion. The Federal Government is borrowing 40 cents of every dollar spent. According to the CBO, by 2021 debt held by the public will reach 82 percent of GDP. Without real and meaningful action by Congress to reform the way we do business, the Nation's debt will balloon to well over 100 percent by 2035. CBO projects that the cost of simply paying the interest on all of this debt will total \$4.5 trillion over the next decade. And we wonder why there is so much

uncertainty in our economy, why businesses are not expanding and creating jobs that we so desperately need, why the approval rating of Congress is at alltime lows—and, may I add, justifiably. The writing is on the wall, and that writing says that Congress can no longer allow politics and special interests to direct how hard-earned taxpayer dollars are spent. We must make hard choices now and live within our means as every American family is required to do.

The President has said that we do not need a balanced budget amendment to the Constitution to cut spending and balance the budget. While that may be true, it is not the reality. When the Senate passed a balanced budget amendment in 1982, the national debt was \$1.1 trillion. In 1997, when the Senate failed by one vote to pass a balanced budget amendment, the national debt was over \$5 trillion. Today, it is over \$15 trillion. Unfortunately, Congress has proven time and time again that they are unable to cut spending and must be required by law to do so. S.J. Res. 10 is a strong, meaningful, and commonsense balanced budget amendment that will reassure financial markets and the American people, therefore, providing confidence that our economy so desperately needs.

First and foremost this constitutional amendment will require the President to lead by example and submit a balanced budget to Congress. Since being elected, President Obama has failed to send a balanced budget to Congress for consideration.

S.J. Res. 10 would also require Congress to pass a balanced budget that limits outlays to 18 percent of GDP. In addition, it would require a vote of two-thirds of both Houses of Congress in order to raise taxes on the American people. This provision is vitally important to ensure that we are not punishing the American taxpayer by making them pay for out of control spending by Washington. Finally, S.J. Res. 10 would require a vote of three-fifths of both Houses of Congress to increase the Nation's debt limit. This constitutional amendment also includes limited waivers that would, for example, allow Congress during a declaring of war to enact deficit spending or to raise the debt limit by a simple majority vote.

My colleagues on the other side have brought forth their own balanced budget amendment; however, their proposal fails to ensure that Congress will make the hard choices necessary to solve our current and long-term fiscal crisis. For example, the Democrats' balanced budget amendment does not apply to Social Security spending. According to the 2011 report by the Social Security Trustees, Social Security faces permanent deficits unless the Congress reforms the system. In fact, the program

is projected to face a deficit of \$46 billion this year. The Social Security disability trust fund is projected to become insolvent in 2018. We cannot be serious about solving our Nation's financial problems unless we include the Social Security Program, which is one of the largest drivers of future debt. In addition, their balanced budget amendment does not cap spending at 18 percent of GDP, it does not require a supermajority of Congress to raise taxes and does not require a supermajority of Congress to raise the debt limit. As we know too well, Congress has never voted against raising the debt limit.

This week, the Senate has the ability to show the American people that they are serious about fixing our fiscal crisis by adopting this balanced budget amendment to the Constitution. This balanced budget amendment is a vital step in ensuring that future generations will have the same opportunities that all of us here in this body have experienced. I urge my colleagues to support S.J. Res. 10.

I yield the floor.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. ISAKSON. Mr. President, I see the distinguished majority whip on the floor. I would like to propound a UC, and if he disagrees, please tell me. I would like to be recognized for 5 minutes, followed by Senator SHAHEEN from New Hampshire for 5 minutes, followed by Senator ENZI for 5 minutes.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Reserving the right to object, I would just like to add my name at the end of the queue for at least 5 minutes.

Mr. ISAKSON. With no objection from me.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ISAKSON. Mr. President, I appreciate the time.

I first thank Senator HATCH from Utah for 16 continuous years of work on the balanced budget amendment. It was his fight in 1995 that brought that amendment to the floor within one vote of passing in the Senate, and it is his fight today to bring it back for another vote.

I have listened to a substantial number of the speeches, and I come back to three points.

Facts are stubborn, and there are three facts: First, we are spending too much; second fact, we are promising too much to our people; and third fact, we are borrowing too much.

I ran a real estate company for 22 years. Real estate is all about borrowing and leverage, but you learn a lesson in real estate and you learn it very painfully. There is such a thing as good leverage and there is such a thing as too much leverage, and our country is at the breaking point on leverage.

We have a process problem in the Senate and the House. We can't deal with our financial fiscal affairs, our promises to our people or our borrowing, and it is time we change the paradigm.

I support a balanced budget amendment because if it is ratified by three-fourths of the States and becomes a part of the Constitution, it forces the Congress to just say no on spending when we are spending too much, it forces the Congress to look at entitlements and recognize that we can only promise that which we can afford, and it forces us to look at debt and recognize when we are in too much debt and we have become overleveraged.

I want to put in a plug for something Senator SHAHEEN and I have been working on for a long time, and it is a fundamental process change called a biennial budget where you appropriate in odd-numbered years for 2 years, not 1, and you spend that even-numbered year, the election year, overseeing your expenditures and your programs to find savings, to find waste, and to try to balance your budget. If we changed our process and forced ourselves to do something like that, we wouldn't be facing the catastrophic consequences we are today.

I thank the Senator from New Hampshire for being on the floor and recognize her for her leadership on the issue, also, as one from a State that does biennial budgeting, as do 20 of the 50 States in the United States of America.

I will tell you an interesting story about biennial budgeting. The nation of Israel got in financial difficulty 4 years ago. They were borrowing too much, they were spending too much, and they were going in debt too much. Israel asked around the world: What should we do to change our fundamental process? And they changed to a biennial budget. Two years later, their GDP was better, their deficit ratio was down, and GDP had gone up about 7.5 percent in 2 years, all because they got their fiscal house in order.

So while some will argue that you can't do a balanced budget because it won't work, some will say 18 percent is too much, some will say you just can't do this and you just can't do that, there is one thing we can't do anymore; that is, spend beyond our means, borrow beyond what is good for our children and grandchildren, and promise to our seniors and those in poverty that we can deliver more than we can deliver.

If we face the day of reckoning now and we reprioritize our entitlements, if we put our Tax Code on the table and reform it and we cut spending where we can, we can come up with a trifecta that will take this debate to ancient history, and we will begin getting the United States of America back in good fiscal soundness. That is what a balanced budget amendment starts, and I

hope the end of it is that process and a biennial budget as well.

I thank the President for the time, and I yield to the Senator from New Hampshire.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, I thank my colleague from Georgia for his very thoughtful comments.

Senator ISAKSON has been working on a biennial budget for a very long time. I was pleased to join him in this session of Congress. And I agree with him. I believe this is one of the ways we can encourage more oversight of our spending and hopefully address some of the budget issues we face. So I appreciate and share his beliefs that this is an important change we should make.

I am actually on the floor not to speak on the balanced budget amendment, however, but to talk about what I believe is very important for us to do before the end of this year; that is, address the extension of the payroll tax cut.

In November, the private sector added 140,000 new jobs to our workforce. In fact, businesses have now created 100,000 jobs in each of the last 5 months. This is a positive trend we haven't seen in the past 5 years. While this is encouraging, we still have a long way to go because more than 13 million Americans remain unemployed and millions more are underemployed. These individuals and their families are struggling to make ends meet during this holiday season.

At this time last year, Congress passed bipartisan legislation to put more money into the pockets of working Americans. We cut payroll taxes for workers—an effort that increased take-home pay for the average household by almost \$1,000 in 2011. This tax cut isn't just good for families on a tight budget, it is good for our fragile economy. In New Hampshire, the payroll tax cut has meant an extra \$600 million in our communities.

There are some who want to allow this tax cut to expire at the end of the year. But let's be clear. If the tax cut expires, this would mean the average family would see their taxes increase by \$1,000 next year. This would mean taking \$120 billion out of our Nation's economy, money that would no longer be spent at our supermarkets, at our retailers, and at our gas stations. That doesn't make sense.

Independent economists have predicted that allowing this tax cut to expire could cost our economy 400,000 jobs next year. Some have even predicted that the United States could face another recession if we don't take action.

Members of this body have also suggested that this tax cut would starve Social Security of needed revenue and endanger this bedrock program's solvency. With Americans relying so

heavily on Social Security to meet basic needs, this is a serious charge and one we should take seriously. However, the program's Chief Actuary has written that this tax cut does not hurt Social Security's finances. Instead, this proposal contains provisions to require that the Social Security trust fund be made whole.

I recently supported Senator CASEY's proposal to not only extend payroll tax cuts for employees but also to expand them to increase the average family's take-home pay by an additional \$500 next year. This proposal would have cut employer payroll taxes, making it easier for small businesses to keep current workers and hire new ones. That proposal was fully paid for with a 3-percent tax on people earning more than \$1 million in a year. Because of the way it was paid for, the legislation was blocked. My friend from Pennsylvania, Senator CASEY, also introduced a compromise plan that I supported. But again, unfortunately, it did not pass.

I think that particularly now, at this time of the year, at this critical stage for our economy, everyone should agree on preventing tax increases for working families. There are some competing ideas about the best way to accomplish this, and I welcome that debate, but Congress simply cannot afford to saddle middle-class families with a \$1,000 tax increase in the midst of an uneven recovery. It isn't right for our small businesses, it isn't right for our communities, and it isn't right for the economy.

Time is running out to extend the payroll tax cut. I urge my colleagues to support this effort.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. Mr. President, I rise today to discuss the issue I raised during my maiden speech on the Senate floor in 1997; that is, the need to pass a constitutional amendment requiring a balanced budget.

I am disappointed that we were unable to pass a balanced budget amendment in 1997. I commend Senator HATCH for his efforts then. We got within one vote. We had 66 votes and we needed 67. Had we gotten that, we wouldn't be in this mess today. In 1997, our national debt was \$5.4 trillion. Today, it is an astonishing \$15 trillion. Without immediate action, that number will continue to increase to a level that is even more unsustainable.

Time and time again, the Federal Government has proven it is incapable of the fiscal discipline needed to spend within its means. Time and time again, the Federal Government has spent more money than we brought in. It has led to the situation we currently face where we are borrowing more than 40 cents on every dollar we spend and where we are being threatened with further downgrades in our credit rating.

In fiscal year 2010, the government brought in slightly more than \$2.2 trillion in revenue. At the same time we collected \$2.2 trillion, we spent \$3.5 trillion. In other words, we overspent by \$1.3 trillion. That is \$1,300 billion. That is an astonishing amount of spending, and it cannot be sustained. I encourage everybody to write these numbers out with all of the zeroes sometime and see what we are talking about. We have a spending addiction that must be controlled. For years we have tried to hide it, disguise it, or ignore it. We have acted as if it is OK to keep spending money we don't have. We no longer have that option. The world today is different from the world of 1997.

We have seen riots in other nations where their fiscal situations were out of control. If we don't act now, we could see similar events in this country. We can either balance our budget or go broke—even more broke than we already are.

Balancing the budget is not a revolutionary idea. Responsible families balance the amount they spend with the amount they make or they go bankrupt. Businesses balance the amount they spend with the amount they bring in or they go bankrupt. Most States have amendments requiring them to balance the amount they spend with their revenue. Wyoming's Constitution requires a balanced budget each and every year, and they do it. If people in Washington understood budgeting the way Wyoming does, we would be in a much better place right now. If families, businesses, and States can balance their budgets, there is no reason the Federal Government cannot balance its budget.

There are two options the Senate is considering today, and I am pleased there is consensus from both sides of the aisle that a balanced budget amendment would help us. Although that is the case, there is no doubt in my mind that the version introduced by Senator HATCH is far superior to the version introduced by Senator UDALL.

The Republican balanced budget amendment gets to the heart of the problem, which is the need to rein in out-of-control spending. The Republican resolution requires that we get spending down to historical revenue levels and forces us to make the tough choices about which programs will no longer be necessary. It also prohibits Congress from raising taxes until a supermajority of Members support such a tax increase. This is an important provision because the default solution for our out-of-control spending should be cutting spending, not raising taxes. This bill also goes into effect 5 years after ratification, which gives us the ability to transition to a balanced budget.

I have a penny solution bill out there, a 1-cent solution where we cut 1

percent from every dollar we spend for 7 years. At the end of 7 years, the budget would balance. So it is not something that is undoable. We can balance the budget.

While I am pleased that my Democratic colleagues have a balanced budget amendment, the alternative they offer does not address the heart of the problem. It does not include a spending cap to ensure that we move spending to an acceptable level. It does not include a requirement for a supermajority to raise taxes, which will allow proponents of tax increases to more easily work to balance a budget on the backs of the American taxpayers. And the American taxpayers are only 49 percent of the people working right now. The American people are not the ones who cannot get spending under control. They should not see tax increases simply because Congress can't do its job.

We need to pass the Hatch amendment, and we need to pass it now, because I must also remind my colleagues that passage of a strong balanced budget amendment is the first step. If we pass a balanced budget amendment, it still must be ratified by the States. Three-fourths of the States have to pass it for it to become a part of the Constitution. That will take time, and with a \$15 trillion debt we don't have a lot of time left. There is speculation that 2 years might be the outside. This isn't going to balance for 5 years. Two will create some substantial cuts and tax increases.

Passage of the balanced budget amendment by three-fourths of the States is a tough test. Because of the magnitude of what we are trying to do, it should be. However, we need to give the States this opportunity to force the Federal Government to come to grips with its finances, as the State governments are required to do.

Why should we give the States the opportunity to ratify a balanced budget amendment? Because I found that the best decisions are made closest to the people. State governments are closer to the people than the Federal Government and they are generally better at addressing the needs of the people of their State. Giving the States the opportunity to ratify the amendment will bring the budget closer to the people and would allow the American people to decide how they want Washington to spend their hard-earned money. Most of the American people get it and they are asking us to get it and do a balanced budget amendment.

Amending our Constitution is an extraordinary measure. It is not something I take lightly. We are in an extraordinary time. We have a budget deficit that is out of control and a national debt that is ballooning to levels that are unsustainable. We need a balanced budget amendment so we can begin to get our Nation's finances back in order.

I commend Senator HATCH for his bill and appreciate him offering it. I hope my colleagues will support it. It is essential for our country.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, there are very few things on which Members of Congress agree, but one of the things that binds us and unites us is the common oath we take to uphold and defend this document. This document is not just another resolution, another law; it is the Constitution of the United States. For more than 220 years this document has guided our Nation and inspired other nations toward democracy. I think it is fitting that we swear an oath to uphold and defend it.

But I think we also have to look at this document not just with respect but with humility, humility because we know the words contained have managed to guide our Nation so successfully for so many decades and centuries. Those who are bold enough to suggest they would change the wording of this document have to expect to have hard questions asked as to whether it is appropriate and whether what they are setting out to do is consistent with this great document and the needs of our Nation.

I can recall when Senator HATCH chaired the Senate Judiciary Committee and I was a member. There was a day when they asked me, as a member of the Judiciary Committee, to give permission for three constitutional amendments to be considered in the same day. I objected, which was my right. I said to Chairman HATCH at the time: You can call two constitutional amendments on Thursday but, call me old-fashioned, I don't think we ought to amend the Constitution more than twice a day. The point I was trying to make was to suggest to my colleagues to at least have some humility and maybe even hesitancy to suggest they can change for the better the wording of this great Constitution.

It has been changed, there is no question about it. From the moment it was written until a few years later, Thomas Jefferson called for the Bill of Rights. Many say that was essential for the ratification of the Constitution. It included some basic rights that we now revere in this country. So the first package of amendments, the Bill of Rights, has become an integral part of the original document because they were adopted so quickly—added so quickly.

But in the 220 years since 1791, when the Bill of Rights was added—in the 220 years we have only amended this document 17 times and only for the most serious of matters. Consider what our amendments have done. They have ended the practice of slavery. They have established the principle of equal protection. They have assured the

right of women in America to vote, among other things. They have provided for succession in case of Presidential disability, and they have addressed some of the most fundamental issues facing our Nation.

Now some Members of Congress believe we should enshrine in our Constitution their views of what the Federal budget should look like. They want to radically reshape our constitutional framework in order to relieve Congress of its political and moral responsibility to make tough choices about taxing and spending. They want to tie the hands of Congress on budget decisions and pass important decisions on to another branch of government, our Federal judiciary.

That is not what the Founding Fathers intended. The Constitution gives the power of the purse expressly to Congress. Fulfilling this constitutional duty carries some political risk, but we all signed up for that job. Members of Congress should not try to change the Constitution to avoid their duty to make tough and important decisions.

These days, some in Congress would rather take a red pen to the Constitution than to reconsider an anti-tax pledge they have made to a Washington lobbyist named Grover Norquist. Mr. President, 40 Republican Senators, all of whom are cosponsors of this amendment, have taken a pledge, a public oath to Grover Norquist when it comes to the issue of taxes. I believe my colleagues who are indentured politically to Grover Norquist need to get their priorities right. Our oath to support and defend the Constitution is much more important than any allegiance to any Washington lobbyist.

Congress has balanced the budget not just in my lifetime but in my term of service. We ran a budget surplus in fiscal years 1998 through 2001. There is nothing stopping us now from getting our fiscal house in order except a lack of political will. We simply do not need to go to the extreme of amending the Constitution to get this job done.

It is also clear a balanced budget amendment proposal has many unanswered questions and concerns and it is our responsibility to ask those questions. I held a hearing as chairman of the Constitution Subcommittee of the Judiciary, well attended by Members on both sides of the aisle, with witnesses telling us the pros and cons of a balanced budget amendment. That is the way the process should work. Now we come to the floor to consider two versions of a balanced budget amendment.

It is interesting, when the balanced budget amendment came before the House of Representatives, opposition to it was bipartisan. Even the Republican chairmen of the House Rules Committee and the House Budget Committee voted against the Republican version of the balanced budget amendment brought up in the House.

A few weeks ago, when we held this hearing, witnesses told us why we should have pause, if not reject, this notion of a balanced budget amendment. First, it would cause harm to the economy. I cannot say it any better than Senator CONRAD did moments ago. Our budget in Washington is designed to not only serve the needs of the nation but to help our economy get on track and stay on track. In fact, when things go bad in our economy, as they have in the last several years, our budget steps in with countercyclical measures such as unemployment compensation to put our economy back on track. The balanced budget amendment before us today is going to make that more difficult to do.

The forecasting firm Macroeconomic Advisers told us what would have happened with this balanced budget amendment if it had been in place today. They said such an amendment would double the unemployment rate in America, cause the gross domestic product to shrink by 17 percent, and destroy millions of jobs. That is something my Republican colleagues will not acknowledge, and they should. If we cannot spend in times of recession, even when receipts are low, we fail to turn the recession around and of course we leave many unemployed Americans with no help when they desperately need it.

There is also a provision in the Hatch-McConnell balanced budget amendment that would increase the risk of default on our national debt by requiring a three-fifths vote in each House to raise the debt limit. I might tell my colleagues who follow this, only 3 of the last 11 debt ceiling increases passed both Chambers by a three-fifths vote; 3 of the last 11. If you enjoyed the debt limit standoff of a few months ago and the threat of not only closing down our Government but closing down our economy, you would enshrine it in the Constitution with the Republican balanced budget amendment.

It always strikes me as odd, if not hypocritical, that Members come to the floor and give speeches about how much they support a war effort, or spending for a given issue, and then when it comes time to raise the debt limit, which is part of the bargain, they are nowhere to be found. They want to be there for the press release saying, I am for the war, but when the debt limit needs to be increased to pay for the war they become fiscal conservatives and are nowhere to be found. I think there is some political hypocrisy in that.

Another concern no one has answered that I commend to my colleagues was exemplified by the testimony of Professor Alan Morrison of George Washington University Law School. He asked the basic question: Who is going to enforce this amendment? If in fact

Congress does something in violation of the amendment, who can sue? And which court would consider it? It is a valid question because ultimately this will end up in the courts. The courts will have to make some rather unique decisions. What are the outlays and receipts of the United States? What was the gross domestic product? These are issues which many in the court may find challenging if not impossible to deal with on a timely basis. The longer it takes to resolve those issues the more uncertainty there will be about our Nation's economy and its economic future.

Do we want to put the courts in charge of budget decisions? Former Solicitor General and Judge Robert Bork said "the result . . . would likely be hundreds, if not thousands, of lawsuits around the country, many of them on inconsistent theories and providing inconsistent results."

Those who support the amendment look for stability and certainty. My guarantee is turning this over to the Federal courts will give you neither.

The nonpartisan Congressional Research Service looked at balanced budget amendment enforcement on August 3 and said:

The experience of State governments indicates that concern over judicial involvement in budgeting is realistic. In some States the judiciary has become involved with the operation of various aspects of budgeting to impose budget balancing remedies [like] requiring tax increases, limiting expenditures generally or preventing implementation of specific spending laws. The possibility that the Federal courts could invoke such remedies prompts concern about the potential such actions would have for causing a significant shift in the balance of power among the branches of the Federal Government.

Even former CBO Director Douglas Holtz-Eakin, who was called in by my Republican colleagues to testify at our hearing in support, conceded "the question of enforcement remains a challenge that should be thoughtfully considered."

I might add, parenthetically: No kidding. Enforcement of this is critical. How can the Senate consider passing a balanced budget amendment without answering first the question of enforcement? It would create tremendous uncertainty.

I would say the balanced budget amendment that has been sponsored by all the Senate Republicans raises particular concerns. Under this proposal, spending would be capped at 18 percent of gross domestic product each year, a level far below the Draconian budget suggested by Congressman PAUL RYAN that would end Medicare as we know it.

The Senate Republican proposal enshrines the Republican philosophy in requiring a two-thirds vote in each House on any bill that increases taxes or revenue without any ability to waive that two-thirds requirement, even in time of war.

The effect of these reforms would devastate programs such as Medicare and Social Security while giving constitutional protection to tax expenditures currently enjoyed by corporations and the wealthy. This proposal is not sensible, it is not fair, it would not serve our country well.

In short, our hearing made it clear there has not been a balanced budget amendment proposed that would actually be enforceable and that would not cause great collateral damage to the economy.

I have served on several efforts, and continue to, in an effort to reduce spending, to find new revenue, and to balance our budget. I will tell you that it takes political will. This kind of approach, this idea that somehow we can pass a constitutional amendment and be done with our responsibility is not only shortsighted, I think it is counterproductive. I think it will make our situation worse instead of better. I thank Senator MARK UDALL for his offering on his balanced budget amendment. It is a better approach, and while I don't support a balanced budget amendment, if I were to support any balanced budget amendment it would be the Udall amendment. But I don't believe amending the Constitution at this point in time is the right way to approach this. I do not believe either amendment achieves it without creating terrific uncertainty in our future about enforcement.

I urge my colleagues to oppose efforts to amend our Constitution. I urge them, instead, to show political courage and work hard right now in a bipartisan way to address our fiscal challenges. That is what the American people expect of us.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I want to express my support for the Republican-offered balanced budget amendment, a measure I worked on with Senators TOOMEY, LEE, HATCH, and CORNYN, and thank those Senators for their leadership on the issue.

As Americans know, Washington has a spending problem. The Federal Government's fiscal position is unsustainable. It now borrows more than 40 cents of every dollar it spends. Indeed, our debt has climbed to over \$15 trillion and will continue to grow and threaten our economy and our jobs and our way of life unless we do something about it.

Opponents say Congress should do its job. Sure, it should, but it has not. Events during the last 30 years have shown that Congress cannot be counted on to make the tough choices necessary to control spending and to balance the budget. Here is a little history. When the Senate passed a balanced budget amendment in 1982, that national debt was \$1.1 trillion. In 1986,

when the Senate failed by one vote to pass the balanced budget amendment, the national debt topped \$2.1 trillion. By 1997, when the Senate again failed by one vote, the national debt was over \$5 trillion. Today the debt is over \$15 trillion. So there is no evidence that Congress has been willing to or able to reduce the debt without the Constitution requiring it.

The Republican balanced budget amendment simply requires Congress to do its job. It includes real reforms that would help the government live within its means, including having the President submit a balanced budget to Congress every year.

The balanced budget amendment does not etch rules into stone. Any of its requirements can be waived by a supermajority of the Congress; that is, if there is a real national consensus to do so. Let's remember we are in a crisis today because of deficit spending. Raising taxes and getting deeper in debt have been far too easy for Congress.

The Republican balanced budget amendment contains two key enforcement mechanisms that Congress would have to abide by. First, Congress would have to limit spending to 18 percent of the gross domestic product from the preceding calendar year. The balanced budget amendment would also prohibit spending from exceeding total revenues in a given year. Why 18 percent? Well, if the goal is to balance the budget, the only way to succeed is to limit the Federal spending to the level of revenue that the economy is willing to bear.

According to the Congressional Budget Office's August Budget and Economic Outlook, from 1991 to 2010—the most recent period of time—revenues averaged 18 percent of gross domestic product, and that is why that number is selected.

It is notable that the Democratic alternative does not contain a spending cap. It also contains a lower threshold of votes for waiving the balanced budget amendment, which, of course, would make deficit spending much easier.

The second mechanism in the Republican balanced budget amendment is a prohibition on any bill that increases taxes from becoming law unless approved by two-thirds of a rollcall vote of Members in each Chamber. When Congress cannot get its hands on enough revenue for its spending priorities, the temptation is always to look for more revenue and raise taxes. Well, it should be more difficult to take more money from the American people and to increase the size of the Federal Government.

Moreover, raising taxes is not a productive solution to budget deficits. Not only does projected revenue usually fail to materialize, higher taxes discourage work, production, savings, and investment which all results in lower revenues in future years. So we cannot balance the budget by raising taxes.

On the issue of tax increase restrictions, the Democratic alternative again falls short. It does not contain a mechanism to make it more difficult for Congress to raise taxes. In fact, it does the opposite. It contains a provision that makes it more difficult to lower taxes collected from American job creators.

Some of our friends on the other side of the aisle will paint a doomsday scenario that they say would result from the Republican balanced budget amendment, one that would mean immediate changes and draconian cuts. That is not accurate. As we know, Congress cannot amend the Constitution. We can only propose an amendment for States to consider in a ratification process that takes a long time. If it passed, the balanced budget amendment would not become effective until 5 years after ratification by three-fourths of the States. So it is not like we have some immediate concern that next year's budget is going to suffer if the balanced budget amendment were to pass.

Let's not punt again on getting our spending under control. Let's not keep kicking the can down the road. Let's put on some real constraints so Congress will have to do its job, the job the American people expect it to do.

I urge my colleagues to vote in favor of the Republican-offered balanced budget amendment.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. PORTMAN. Mr. President, I rise today to join Senator KYL in supporting the balanced budget amendment that Senators LEE and HATCH have crafted. I commend them for their hard work, and I particularly thank Senator HATCH for his principled leadership over the years in this effort. In the mid-1990s he almost got us to a balanced budget amendment to send to the States, and this time I hope he—showing his leadership again—will be successful.

Washington's runaway spending and crippling debt burden underscore the need for us to have a balanced budget in this country. If Washington doesn't stop spending more than it takes in, I fear there will be an economic collapse, and, perhaps more profoundly, it will threaten the very foundation of our Nation—the freedom of individuals to thrive and to prosper.

There is plenty of evidence to show that the huge debt burden we have is already crippling the economy. There was a recent study done by respected economists Carmen Reinhart and Kenneth Rogoff that shows that the debt burden of 90 percent of the economy will reduce a country's economic growth by 1 or 2 percentage points. Our gross debt right now is 100 percent of our economy. Growth this year is likely to be closer to 2 percent total, pretty weak growth. So 1 percent to 2 per-

cent more would mean a 50-percent or even a 100-percent growth increase in this country. This means over 1 million new jobs could be created right now if we didn't have these huge deficits building up annually to a record debt that is now over \$15 trillion.

It is unacceptable that we have the economic growth that we do because it is keeping people from achieving the opportunities they seek at a time when there are almost 22 million Americans who are unemployed or underemployed, and we need to do everything we can to give the economy a shot in the arm. Part of it is getting our fiscal house in order and stopping this record deficit and debt. We should not condemn people to chronic unemployment through inaction in Washington.

However much lawmakers at times want to do the right thing, it seems as though the political system and the budget rules around here create a bias for spending and deficits. When I left the post as Director of the Office Management and Budget in the last Presidential administration—that was in 2007—the budget deficit was \$161 billion, which is about 12 percent of today's budget deficit, and I thought that was way too high. In fact, that year I proposed, on behalf of the President, a budget that actually balanced over a 5-year period because at that time we were so concerned about growing deficits and debts. Again, that was only 12 percent of today's deficit.

In that time, as OMB Director, I was convinced that we need to have a discipline in Washington to balance the budget because we need to have some incentive to prioritize. Washington, again, seems to have this bias toward spending and deficits that I think can only be resolved through what 49 States have, which, again, is this power to be able to tell the elected representatives that we have to figure out how to prioritize; we have to figure out how, at the end of the day what every family in America does, what every business in America does, which is to figure out how not to spend more than we take in.

Study and experience led the Founders of our country to create the best system of government ever devised: a Republic with enumerated powers. Similarly, study and experience should lead us to enact a balanced budget amendment. The times demand it. We need to reverse this system's bias in favor of deficits and debts. We need a balanced budget amendment in order to preserve the Founders' vision of a limited government of enumerated powers.

But the fact is, Congress has not been able to get its spending under control through any other means. Some have called for a far higher tax rate. In other words, instead of dealing with the spending that is increasing dramatically—by the way, spending has

gone up 21 percent just in the last three years. But instead of dealing with that, people say: Why don't you just raise taxes to catch up with the spending? That way we would have a balanced budget through higher and higher revenues.

I guess what I would say is, Congress has a spending problem not a revenue problem. The growth in the entitlement programs, of course, is the long-term driver of this spending problem. The cost of these entitlements, along with interest on the debt, is projected to squeeze out the cost of every other Federal program within the next couple of decades, leaving little to nothing for other government priorities.

People say, well, the revenues as a percent of our economy are relatively low now, and that is true. Coming out of the recession, we have not had the growth we had hoped for and that has resulted in lower tax revenues coming in.

Historically, tax revenues have been 18 percent of our economy. Today they are lower than that and closer to 14.5 to 15 percent. Spending has been at about 20 percent of our economy historically since World War II. Today, that spending is over 24 percent of our economy.

What happens over the next several years, based on the Congressional Budget Office analysis, is the revenues begin to increase as a percent of the economy even if the 2001 and 2003 tax relief is not continued. In that case, the revenues increase even more dramatically up to 21 percent or 22 percent of the economy.

So the fact is, the spending is on a trajectory to go up from a historic 20 percent to 24 percent now to 30 percent to 40 percent to 50 percent over the decades. We cannot catch that spending with enough taxes. It simply cannot be done and have a viable economy. So we have to deal with the spending side of the ledger. Even if we do raise taxes to chase the trajectory, we will upset that balance between the Federal Government and a free, robust private sector that encourages innovation and gets people back to work.

If the Federal Government ends up taxing every dollar of earnings, we will have taken away the space for Americans to pursue and enjoy the rewards of their hard work, risk-taking and innovation. The Founders might have used another phrase to describe what a free economy promotes: life, liberty, and the pursuit of happiness. Today we are talking about how we ensure that we have economic growth so that we can bring back the jobs, and that will not happen through the level of taxation that would be required to catch up to the record levels of spending.

To address Washington's natural inclination toward taxing and spending,

a successful balanced budget amendment needs to do more than just require the outlays be less or equal to receipts. Again, it should include a spending cap because of the problems I have talked about with regard to the projections by the nonpartisan Congressional Budget Office over the coming years and decades. It should also demand a supermajority should Congress seek to enact antigrowth tax hikes.

I think this balanced budget amendment, crafted by Senators HATCH and LEE, by doing that strikes a good balance. It also addresses the concern about a balanced budget amendment limiting the Federal Government's ability to spend in a time of war. If there is a declaration of war against a nation-state, a majority vote in both Houses would allow for deficit spending. If the Armed Forces are engaged in a military conflict that has not been given a full declaration of war, a three-fifths vote in both Houses would allow for deficit spending. This is in keeping with the intention of the Founders.

In Federalist 34, Alexander Hamilton drew a distinction between monarchies and republics. He said, the chief source of expense in every government was defense spending. But republics, Hamilton counseled, should not use this to live beyond their means. He wrote:

There should be as great a disproportion between the profusion and extravagance of a wealthy kingdom in its domestic administration, and the frugality and economy which in that particular become the modest simplicity of republican government.

Washington has spent and overspent. This has led us away from that frugality that was the intention of our Founders. A balanced budget is the only way to get back to frugality and to that "modest simplicity of republican government." And that is republican with a small "r."

If we don't restrain spending through a balanced budget amendment, we will effectively inhibit and ultimately undermine the liberty of the Americans. We will threaten the American dream, the hope that each generation is able to pass on to the next generation a better life so that they are able to flourish and to meet, again, their achievements, their objectives in life through opportunity that can be created through a growing economy.

It is time for Congress to prioritize. It is time for Congress to make tough decisions. We should do it with the discipline of a balanced budget. Time has shown us there is a need for a requirement to make those decisions.

My home State of Ohio has that discipline. In fact, over the past year, Ohio has had to make some tough decisions to close a budget gap of about \$8 billion. Here in Washington, we have a budget gap that is far higher. This year the government will bring in about \$2.2 trillion and spend about \$3.7 trillion.

This gap is huge and growing, and just as 49 States do, we need to discipline Washington to force Congress to make these tough decisions to prioritize on behalf of the American people so that we don't have this crippling effect on economic growth, so that we can begin to see the kind of robust recovery we hope for coming out of the recession.

For all these reasons I urge my colleagues to join me in support of the Hatch-Lee balanced budget amendment.

I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BROWN of Ohio. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN of Ohio. Mr. President, I ask unanimous consent to speak as in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. BROWN of Ohio pertaining to the submission of S. Res. 347 are printed in today's RECORD under "Submitted Resolutions.")

Mr. BROWN of Ohio. Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BENNET). Without objection, it is so ordered.

Mr. LEVIN. Mr. President, Congress cannot absolve itself of the responsibility to balance the budget by passing a constitutional amendment. Congress has an existing constitutional duty to control the purse. If Congress has the will to balance the budget, it can do so. If it does not have that will, no constitutional amendment can be a substitute.

We knew that in 1996, which I believe was the last time the Senate seriously evaluated a balanced budget amendment. While we did not pass the balanced budget amendment, we did adopt budgets and policies that created the first surpluses in decades, enabling the United States to begin to reduce its debt load. Unfortunately, that fiscal sensibility was washed away by irresponsible, unfunded Bush tax cuts in 2001 and 2003 and two unfunded wars. Once again, we find ourselves in a deep fiscal hole.

We can and must dig ourselves out of it, as we did in the 1990s, by taking a balanced approach, restoring revenues, and making sensible spending cuts. But that is not a constitutional question.

That is a political one. Can we, as a Congress, pass the tough measures needed to restore fiscal discipline?

I have proposed a seven-point plan for reducing the deficit. Bipartisan commissions have proposed making spending cuts and increasing revenues and realistic folks from all parts of the political spectrum agree Congress needs to address revenues, as well as spending, if we are to achieve real deficit reduction.

Congress needs to make tough choices and is failing to do so. One more procedural promise—this time in the form of a constitutional amendment—is not going to get the job done.

While the details of the two amendments before us differ in many respects, there are real questions as to how either could be enforced.

For instance, the Udall amendment says:

The Congress shall enforce and implement this article by appropriate legislation, which may rely on estimates of outlays and receipts.

What would happen if Congress failed to adopt the implementing legislation that lives up to the terms of the amendment? If it does not have the will to make cuts and raise revenues, what makes people think Congress will be able to agree on implementing legislation?

The amendments raise far more questions than they answer. For example, would a court be willing to hear a case alleging a failure by the Congress to fulfill its duties or would a court treat such a challenge as a political question that is beyond its reach? Who would even be able to bring a case alleging a violation? Who would the case be brought against and what would the remedies be?

Could a judge nullify a budget or a law on the basis that it somehow violated the amendment? Which appropriations bill pushed us over the limit—the last one adopted?

Would a judge have the power to put the budget in balance by ordering specific spending cuts? How would those cuts be identified and set? Would the judge be tasked with reviewing the entire Federal budget and then making cuts? Would the judge be able to compel Congress to enact cuts? What would happen if Congress failed to comply with such an order? Does the judge make changes and substitute his or her priorities for those of Congress?

These same questions could be asked about revenue increases as well. A judge cannot mandate revenue increases under the McConnell amendment. The resolution, apparently, would allow judges to make spending cuts, however. But that dangerous shift of power to the judiciary arises only by implication in the McConnell resolution. What is explicit under McConnell is that taxes and revenues can only be raised by a two-thirds vote. So even

closing loopholes to end tax dodges and raise revenue would require a supermajority. That is the opposite of a balanced budget amendment provision. That makes it more difficult to balance the budget.

The American people do not need new processes or hollow promises. They do not need a constitutional amendment that raises more questions than it answers. They need Congress and the President to do our jobs. A balanced budget amendment will not force Congress and the President to do anything, because it is, as a practical matter, unenforceable. And when it does not work, public cynicism would only deepen. It already is plenty deep. There is only one way to balance the budget. That is with the willpower to make the hard choices. Those of us elected to public office have that obligation now. And if we fail, we as individuals will be judged by our own electorate.

I yield the floor.

The PRESIDING OFFICER. The Senator from Utah.

Mr. LEE. Mr. President, I stand today to urge my colleagues to support one of the most important pieces of legislation that has come before this body in decades, Senate Joint Resolution 10, the Hatch-Lee balanced budget amendment proposal.

The reason why I insist this is so important is because of a crisis we are facing today. We have accumulated about \$15 trillion in sovereign debt on behalf of the United States—\$15 trillion. It works out to about \$50,000 for every man, woman, and child in America. This is an amount of money that could represent an expensive car. It could represent a college education. It could represent all kinds of things. But it represents ultimately debt that Congress has incurred, debt that Congress cannot afford to continue to incur at this same rate, which we are doing every day. We are adding to that debt at an unsustainable rate of about \$1.5 trillion every single year.

Here is why that is so distressing to me. As the White House itself acknowledged a few months ago, we are now within about a decade, perhaps much less, of owing about \$1 trillion a year just in interest on our national debt. Currently we are paying a little over \$200 billion a year in interest. By the end of this decade, that number is likely to rise to an astounding \$1 trillion a year. We could reach that number much sooner than that. It could happen perhaps in half that amount of time if interest rates suddenly started to climb, as they easily could do, particularly given the fact that we are about 350 basis points below the historic average for yield rates on U.S. Treasury instruments, the means by which our governmental debt is financed.

We have to get this problem under control now, because if we wait until then, until we have to pay \$1 trillion a

year in interest on our national debt, it will be too late to do anything. By waiting, by postponing the day of our accountability, we will have made a choice, a devastating choice, that will prove to signal the downfall of the greatest economy the world has ever known. We cannot allow that to happen—not now, not on our watch, not when the stakes are this high.

If we have to make up that difference, the difference between the \$200 billion a year we are paying now and the trillion a year we will have to be paying in interest on our national debt a few years from now, that money has to come from somewhere. That money is not something we can expect simply to obtain through an increase in taxation.

Over the long haul, we have learned that our tax system is capable of generating a revenue stream equaling a little over 18 percent of all of the revenue that moves through the American economy every single year—a little over 18 percent of our gross domestic product. As this chart shows, that percentage remains relatively constant. It has remained that way for many decades, going back to at least 1960. It averages out a little over 18 percent of gross domestic product.

That remains true even when we go back 30 years or so when our top marginal income tax rates were approaching 90 percent. The economy finds a way to produce no more than a little over 18½ percent—a little over 18 percent of GDP. So we cannot just raise taxes at that point in order to generate more revenue, because our income tax system, no matter how we tweak it, no matter how high we raise top marginal rates, is not capable of generating that much revenue. What we do when we simply ratchet up those tax rates, if anything, is we shrink the size of our economy. We chill economic growth to the point where we are actually generating less revenue, not more. So we cannot tax our way out of that problem, nor can we at that point simply borrow our way out of that problem. In other words, we cannot borrow an additional \$800 billion a year on top of the present-day \$1.5 trillion a year we are borrowing, because if we did that, our interest rates would go up that much more. That would make our decision that much more crippling on our economy.

There are a lot of reasons why this matters. My colleague from Ohio, Mr. PORTMAN, acknowledged a few minutes ago that this chills job growth when we have this much debt. It is also true that this impairs our ability to fund every conceivable government program from defense to entitlements, such that if we wait in order to make the necessary changes to the way we spend money in Washington, we will wait at our own peril. We will wait at the peril of those who have become dependent on

those very government programs that will have to have their budgets slashed immediately, abruptly, severely. We cannot afford to do that. Those who have become dependent on Social Security, on Medicare, on Medicaid, on other entitlement programs, on supplemental nutritional assistance, would be devastated if all of a sudden we cut off funding for those programs, we had to slash those budgets by 30, 40, 50 percent overnight. It is these abrupt changes that prove most difficult for our economy to absorb.

I have often said it is something that we can analogize to being on top of a large building. Let's say our \$15 trillion debt can be compared to a 15-story building. If you need to get down off of that building, you need to get to the ground floor. If you want to do it quickly, you could decide to jump. If you decide to jump, it is not the fall that will kill you, it is the abrupt halt at the end of that fall. So you need to do something to cushion the fall, to slow it down a little bit so it can be accomplished gradually, so nobody gets hurt. That is where the balanced budgeted amendment comes in. The Hatch-Lee balanced budget amendment, Senate Joint Resolution 10, would bring about severe, significant, systemic changes, but it would do so gradually so that the cuts, while significant over the long haul, are not abrupt, so that the impact is not severe, other than avoiding the severeness of the impact that would otherwise occur.

We have to get down from that 15-story building, from that \$15 trillion debt. We do that through a balanced budget amendment, one like Senate Joint Resolution 10, which contains a 5-year delayed implementation clause. That would give us time to work out a phased-in glidepath toward balancing our budget. That is what we need to do in order to protect and preserve our economic stability, our jobs market, and our ability within the Federal Government to fund everything from defense to entitlements.

Those who ignore the need for this amendment ignore the fact that our spending continues to escalate. I want to talk about how much we have spent as a country as a percentage of our overall economy, as a percentage of our gross domestic product. Between the early 1790s and the early 1930s, the Federal Government spent, on average, between 2 and 4 percent of gross domestic product every single year with only two notable exceptions, once during the Civil War and the second time during and in the immediate aftermath of World War I. With those two exceptions, Congress's spending was modest, between 2 and 4 percent of GDP.

That all started to change in the early 1930s when we reached the double digits during peacetime for the first time in our history. We have, unfortunately, never retreated from that

cycle. Federal spending today, as a percentage of GDP, stands close to 25 percent, meaning that for every dollar that moves through the American economy, a quarter of that goes to Washington, is sucked in by the Federal Government, and cannot move on and help to continue to stimulate the economy.

That pattern of increased Federal spending as a percentage of GDP is expected to increase in the next few years. It is expected, based on the data provided by the Congressional Budget Office, to reach 26.4 percent of GDP within the next 10 years, by 2021. Some say that figure is too optimistic and that it could actually be much higher than that, it could be significantly higher than 30 percent. At a minimum, we know it will be 26.4 percent or more unless we take pretty significant steps to control our spending.

So I find it interesting that many are saying we do not need to make changes, that we can somehow have Congress do its job, that Congress needs to follow the Constitution and do its job and balance its budget.

Let me tell you the problem with that. First of all, there is nothing currently in the Constitution that restricts Congress's power to borrow money. Clause 2 of article I, section 8 of the Constitution gives us power to do that, and we have done it. We have done it again and again and again. We have done it so many times in recent years that we have almost lost track.

Congress first placed a statutory limit on the acquisition of new Federal debt in 1917, which was the Second Liberty Bond Act. Since 1962, Congress has altered the debt limit through 74 separate measures, and has raised it 10 times since 2001, in the last 10 years.

Since 1990, the debt limit has been raised by a total of \$10.1 trillion. Nearly half of that increase has occurred in the last 4 years, since late 2007. So this is not a situation in which we are seeing the normal growth of government spending, either in normal numbers, in numbers adjusted for inflation, in numbers measured as a percentage of GDP. By any metric, the amount of Federal spending and the amount of debt acquisition has grown exponentially, giving us this hockey stick-like curve in the acquisition of Federal debt.

We cannot continue this practice. We especially cannot continue it given the fact we know that the natural limit on our ability to receive revenue through the income tax system is a little over 18 percent of GDP. So we have to have something in place that keeps us from spending more than we take in. That cannot possibly be accomplished, in my opinion, without something that ups the ante, something that makes it structurally more difficult on a permanent basis for Congress to engage in deficit spending and to spend more than 18 percent of GDP. That is why

there are a few critical features in Senate Joint Resolution 10, the Hatch-Lee balanced budget amendment proposal, that I think any viable balanced budget amendment proposal ought to have. First, it needs to apply to all spending. Second, it needs to cap spending at 18 percent of GDP. It also needs to require a supermajority vote in order to exceed that percentage of GDP spending limit in order to raise taxes or in order to raise the debt limit. Without these kinds of provisions, this kind of redundant protection against the inexorable growth of Federal spending generally, and the inexorable growth of deficit spending in particular, our debt will crush the very programs we purport to be protecting.

Those who plot against this say we cannot limit spending to 18 percent of GDP or else we will hurt program X, Y or Z. While they are making this argument, it is in reckless disregard of the fact that those same programs will be jeopardized if we continue to borrow recklessly, without structural spending restraint or reform on the horizon.

Others have argued we don't need this because somehow it is unenforceable. I am not quite sure what they mean. Perhaps they don't know what a court would do with it. They are forgetting we have other provisions in the Constitution that raise the vote threshold, which is essentially what the Hatch-Lee balanced budget amendment does. In other words, we have other provisions in the Constitution that are followed routinely, without the need for litigation, just based on Members of Congress taking an oath to uphold the Constitution, as we are all required to do pursuant to article VI. Those are complied with every day.

For instance, we all know none of us will dispute the fact that it takes a two-thirds supermajority vote in both Houses of Congress to override a Presidential veto. It takes a two-thirds supermajority vote in both Houses of Congress to propose a constitutional amendment. It takes a two-thirds supermajority vote in the Senate to ratify a treaty. We don't dispute the fact that these vote thresholds exist. We don't have to wait for the courts to intervene for us to enforce them within Congress. We follow them. That is what this would do.

This says that because Congress has the ability to destroy itself, destroy the economy, destroy the very government we have created through reckless, indefinite, perpetual deficit spending, we must protect Congress from itself—perhaps better said, we must protect people from Congress by requiring that Congress approve any amount of money spent in excess of what Congress brings in or in excess of 18 percent of GDP or in excess of the debt limit by a supermajority vote. We have to have that. It will be followed, and it is absolutely necessary.

It is interesting that few, if any, of my colleagues will dispute the fact that Congress should balance its budget. There is perhaps a difference of opinion—maybe even a widespread difference of opinion—as to how best we should try to close this gap, how best we should close the gap between the money Congress brings in each year through the tax system and the money it spends. There is widespread dispute about where cuts need to be made. I think we all agree we need to balance our budget.

That begs the question, if we all agree, as I think we all do, then why can't we agree we need to adopt a permanent structural mechanism that will be embodied in the Constitution that will ensure that actually happens? This proposal remains agnostic as to where cuts will be made. All it says is if we are going to spend more than we take in or more than 18 percent of GDP or raise taxes or the debt limit, we are going to do it by a supermajority vote. That is something the American people support. In fact, 75 percent of the American people support the basic principle that Congress should not, for example, spend more than it takes in each and every year.

That brings me to the question of why it is that we should support S.J. Res. 10, the Hatch-Lee balanced budget amendment, and not another proposal—for example, S.J. Res. 24, which I might refer to alternatively as the “Trojan horse” balanced budget amendment or as the “do nothing” amendment proposal, which purports to be a solution when, in fact, it is not, for one simple reason: It gives Congress unfettered discretion to exempt itself out of the budget balancing requirement it contains. This would, in effect, I am certain, render this amendment, were it to take effect, virtually a dead letter provision.

We have seen what Congress does when it has the option of exempting itself out of statutory spending caps—in the pay-go rule, the Gramm-Rudman-Hollings Deficit Control Act, and in other statutory provisions such as this. Congress giveth and Congress taketh away. Congress has become a walking, breathing waiver unto itself. When Congress is given the option of saying: I know we are supposed to balance the budget, but we don't feel like it today, it ends up doing that. All Congress would have to do under S.J. Res. 24—the “do nothing” amendment proposed—is simply acknowledge that the United States is involved in a military conflict, and by simple majority vote it can exempt itself out of these provisions entirely.

By contrast, the Hatch-Lee balanced budget amendment proposal acknowledges that in a time of war or military conflict, it may be necessary to spend more than we take in. But in the case of an armed military conflict, it requires a three-fifths supermajority

vote, and in either a war or another armed military conflict, it specifically provides that in that war or conflict, any overage, any amount spent above and beyond what Congress brings in has to be limited to that required to prosecute that war or that military conflict effort. That is a huge difference. We can't simply give Congress the option of complying with a balanced budget amendment provision only when Congress feels like it. This is a little akin to telling an alcoholic they have to give up drinking, while leaving an open container of whiskey on the table and requiring that person to walk past that bottle or even to carry it around every day. It doesn't work. You have to take it out of the house. You certainly have to take it out of the possession of the recovering alcoholic.

This is the challenge of our time—to figure out how to prevent Congress's chronic abuse of its own borrowing authority from collapsing under its own weight, from bringing about the economic collapse of the United States of America.

We have to have these structural spending reform mechanisms because our government is run by imperfect people. Benjamin Franklin has often been quoted for a line that says: "He'll cheat without scruple who can without fear." When looking at Congress today, we might say Congress will spend more money than it has whenever it possibly can, whenever it has the option of spending more.

As Madison said: "If men were angels, no government would be necessary. And if angels were to govern men, neither external nor internal controls on government would be necessary."

We are, as human beings, not angels, and our government isn't run by angels either. This is why we need the structural permanent spending reform mechanism. We cannot afford to accept a substitute, a cheap imitation, a "Trojan horse" balanced budget amendment such as S.J. Res. 24, because if we adopt something such as that, we will create the illusion to the American people that we are actually undertaking efforts to control our out-of-control deficit spending program when, in fact, we are doing nothing. Because it is always the case that we are involved in a military conflict somewhere. Congress will always be able to muster a simple majority, saying we cannot be expected to balance our budget because of that.

We have to draw that line in the sand and stand for those who support everything from defense to entitlements. We have to stand for our children and our grandchildren, those who will come after them, those who are not yet old enough to vote, those who have not yet been born and whose parents have yet to meet. Those people are not here to vote against us as we spend their money.

This is a particularly pernicious form of taxation without representation. We fought a war over two centuries ago over that practice, and we won that war. We should not subject our children, their children, and their grandchildren after them to that same practice. This is contrary to liberty, contrary to economic prosperity. We cannot stand for it to occur anymore.

We have two choices. One choice involves supporting, passing, and submitting to the States for ratification of the Hatch-Lee balanced budget amendment proposal, putting in some permanent restraint, at long last, on Congress's self-destructive borrowing capacity.

The other option can take many forms. It can take the option of supporting S.J. Res. 24, which doesn't solve the underlying problem, or it can take the form of doing nothing at all. If we do nothing, we have still made a choice—a devastating choice—a choice that will inure to the detriment of the American people and of the Federal programs that we all rely on, the Federal programs that people rely on to keep them safe, protect them from the ravages of nature, and protect them from the conditions of poverty we seek to avoid in this country. It is, after all, the objective of us all to seek a better, more prosperous, more safe country, but we jeopardize all those interests the longer we allow this practice of perpetual deficit spending to continue.

At the end of the day, we have to face our own constituents. Those who choose not to vote for the Hatch-Lee balanced budget amendment will have to face their constituents and tell them why they were unwilling to stand for a proposition so basic as we should balance our budget.

There is no excuse, based on the fact that we cannot do this overnight, because it has a delayed implementation clause. It will not take effect until 5 years after it has been ratified by the States. In the meantime, we will be able to set in motion a sequence of events, a series of implementing bills that will allow us to put ourselves on a smooth glidepath toward balancing our budget. We will be able to do that. Those who vote against this cannot look their constituents in the eye and tell them they did everything they could do to get our out-of-control spending habits or our out-of-control deficit spending habits under control.

I urge each of my colleagues to do this for themselves, for the programs they want to save, and for their children and grandchildren. Our prosperity, our success as Americans, our survival as a nation, and the success of our government requires nothing less.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KIRK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KIRK. Mr. President, I rise to talk about the balanced budget amendment. It is obvious America's government is spending, taxing, and borrowing too much. That is why Congress should approve the balanced budget amendment to the Constitution. It was a good idea when Thomas Jefferson supported it, and it is an even better idea today.

America is a great experiment in self-government. Self-government requires self-control. Early thinkers about America's democracy worried about the capacity of the government to borrow in a way that would cripple our freedom.

Children cannot vote, but the Congress of their parents can put our kids into debt. We should fight fiscal child abuse by ending such borrowing that hurts our kids' long-term economic future.

In recent days, we witnessed clear warning signs that the days of big borrowing are ending, not because Congress has changed its free-spending ways but because lenders are increasingly worried that they will never be repaid. This summer, America lost its triple-A credit rating, according to Standard & Poor's. This loss of confidence mirrors a crisis in Europe reflecting a collective judgment that Greece and Ireland and Portugal and Spain and even Italy may not be able to repay the amount of money they have borrowed. As Prime Minister Thatcher reportedly said, "Eventually governments run out of other people's money."

In this environment, it is important to show how we are different from Europe. If we approve the balanced budget amendment and cut spending, we will restore confidence in the Federal debt, in America's economy, but most important, in the ideal of self-government.

America owes \$15 trillion or about \$40,000 for each new American born. For their sake, we need to restrict the ability of the current generation to obligate young Americans to pay their debts.

Should this amendment fail, we will wound the long-term credit of the United States. More deeply, we will hurt the ideal of self-government and self-control that is the foundation of our freedom.

EGYPT

I would like to take this moment to talk about another issue; that is, we as Americans support freedom and democracy and the rights of all peoples. But, as Gaza taught us in 2006, free elections by themselves do not make up a democracy. There are times when people are offered a chance to elect party leaders who offer them only one election to affirm a dictatorship. We can

also learn from the year 1938 that the dangers of ignoring developments abroad are huge. Now, in the wake of the Arab Spring, we turn away from that region at our own peril.

On November 28, the first stage of the Egyptian elections began, which will inaugurate a new electoral system forming a bicameral legislature. This first stage determines about 30 percent of the 498 seats for the government's lower chamber, called the People's Assembly.

Before Egyptians arrived at the polls, protesters filled Tahrir Square in Cairo. As a result, over 40 Egyptians were killed. Many are objecting to the military's interference in the electoral process and the decision to force elections well before secular parties had time to build their capacities. According to public polling and sources on the ground, this will likely hand an electoral victory to the Muslim Brotherhood and more radical Islamist elements within the Egyptian society. Although elections will last until March of 2012, the prediction of a Muslim Brotherhood victory is already becoming a reality. Early data shows an alarming trend of Islamist domination of the Egyptian Parliament.

On December 5, the High Electoral Commission announced that leaders of the Freedom and Justice Party, the political arm of the Muslim Brotherhood, had received a plurality of 36 percent of the vote, while the secular Egyptian Bloc had gained less than 12 percent. When we include the runoff elections, which took place last week, it appears that the Muslim Brotherhood has won 73 out of 150 seats or 49 percent of the currently contested outcomes. This is the same party that led a pre-election rally of 5,000 chanting "one day we shall kill all the Jews" and "Tel Aviv, Tel Aviv, Judgment Day is coming."

While many expected the Brotherhood to do well, there were other surprises. Salafist parties, made up of anti-Western hardliners who follow a particularly radical version of Islam, are also faring particularly well. Surpassing predictions, they received 24 percent of the vote in the first round.

Importantly, these elections also included the so-called liberal districts of Cairo and the Mediterranean port city of Alexandria. The weakness of liberal parties—namely, their inability to reach out to voters effectively with a serious agenda—is now fully exposed. Islamists are taking full advantage of deeply rooted networks that extend from the mosques into Egypt's poor districts. Their grip in the traditionally conservative areas of Alexandria proved particularly tight, and these areas are also home to a majority of the Coptic Christian community.

It is clear that if Islamist parties and candidates continue their currently won gains in other elections, they will capture 60 percent of the national vote

in Egypt. This will situate the new Egyptian Parliament around deep ideological differences between Salafis, the Muslim Brotherhood, and liberal groups, making the Brotherhood the power brokers between Egyptian left and right.

What does this all mean? By January, the United States could face an Egypt defined by a hatred of Israel and many of the freedoms we hold dear—a freedom of expression, of women's rights, and the right to practice any religion. This Egypt counts Iran as a friend and poses a threat to the Camp David Peace Accords, which have served as the cornerstone for Egypt's strategic position for 30 years.

Do we expect that an Islamist-led Egypt will prevent weapons from arriving in the hands of Hamas? Will an Islamist-led Egypt help preserve a free South Sudan? Will an Islamist-led Egypt act to protect Coptic Christians who make up about 10 percent of Egypt? Will we see continued violence, as we saw on October 9 in Maspero, which killed 27 civilians and injured hundreds? Will an Islamist-led Egypt do what we expect with more than \$1 billion of U.S. foreign assistance? Will they continue to share intelligence and to work against terrorism? These are all questions that may become critical issues for the national security of the United States very shortly.

All of this instantly prevents foreign investment and tourism that would help the Egyptian economy. The IMF has forecasted a little over 1 percent growth for the Egyptian economy next year. They said inflation will top 11 percent, while almost 12 percent of Egyptians will be out of work. Recently, the Egyptian pound traded at its lowest level against the dollar in 7 years.

This time last year the region was on the threshold of exciting change, but today Egypt sits instead on the threshold of a very dangerous path.

The United States—and especially our State Department in particular—should do what it can to keep Egypt attached to peace and good relations with the West. The United States is now on the verge of a historic defeat and reversal of American interests in Egypt. Currently, if there is an Obama administration plan for handling a new Islamist Egypt that rejects peace with Israel and allies with Iran, I don't know it, and I don't know if anyone does. We must keep our finger on the pulse of this process. Liberal voices in Egypt must work to preserve the democratic goals of the January revolution.

Recently, I had the privilege of meeting some of Egypt's best and brightest young liberal leaders. They would like to build a free Egypt that respects women's rights and religious minorities and the rule of law. I was encouraged in meeting with them but only hope that the coming election is not

like a 1930s election in Germany, where people in Egypt are given one choice—to affirm a dictatorship—and then that is the end.

If a radical Islamic government arises in Egypt—one that disavows the Camp David Peace Accords and no longer acts as a stable strategic partner in the Middle East—then we will look back on the recent election in Egypt and its successors in December and January as the turning point for a historic reversal of the United States.

My hope is that the State Department watches this very carefully. My hope is that we have a plan to make sure this critical country stays within the U.S. orbit. But my fear, given the recent elections in Egypt, is that we have already lost quite a bit of ground.

If current trends continue, then by the middle of next year we will have a Muslim Brotherhood government in command of the Suez Canal, in charge of Cairo—the second center of learning in the Arab world—along the border of our Israeli allies, friendly to Hamas, friendly to Iran, and hostile to Europe and the United States. My hope is that over the holidays we will work very hard and diligently with our allies—and especially liberal forces in Egypt—to make sure that reversal doesn't happen.

With that, Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. UDALL of Colorado). Without objection, it is so ordered.

#### DEAD ON ARRIVAL

Mr. REID. Mr. President, the bill just passed by House Republicans tonight is a pointless, partisan exercise. The bill is dead on arrival. It was dead before it got to the Senate. The Senate will not pass it. The sooner we demonstrate that, the sooner we can begin serious discussions on how to keep taxes from going up on middle-class Americans. Democrats were ready to vote tonight to prove that the bill was DOA, dead on arrival. But I spoke to Minority Leader MCCONNELL this evening, and he told me he will need more time. He will not be able to make a decision until tomorrow morning on when to vote on the House-passed bill. I cannot set the vote without his approval at this time.

This is a 180-degree change in his position from just a few hours ago. Just this morning, Senator MCCONNELL said we should "take up the House bill, pass it right here in the Senate, and send it to the President for signature without theatrics and without delay." That is a

direct quote. I repeat, he said we should vote on this bill "without delay."

He is correct, and I can only wonder what happened in the last 8 hours to change his position so dramatically, so radically. As I said, we already know this bill is dead. We need to begin real negotiations on how to prevent a \$1,000 tax hike on American families. The sooner we get this vote, the sooner those negotiations can begin in earnest.

I will speak with Senator McCONNELL again tomorrow to determine how soon we can hold this vote—an exercise in futility. Work continues toward finalizing an omnibus to fund the government for the rest of the year. In the meantime we should not hold up this middle-class tax cut.

On January 1, every American worker will have less money. In fact, 160 million American workers will have less money to spend on groceries and gas and rent unless Congress acts on their behalf.

T.S. Eliot said it about as good as I could figure a way to say it, when he said: "Hurry up please, it's time."

#### MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to a period of morning business with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### REMEMBERING FRANK ANDERSON

Mr. BROWN of Ohio. Mr. President, I rise to honor a long-time friend and a hero to veterans and to those who believe in justice in Ohio: Frank Anderson, a long-time leader of paralyzed veterans in Ohio, who passed away last week from complications of an infection.

Frank was a friend and a trusted advocate. He always spoke eloquently about issues facing veterans and people living with disabilities.

Confined to a wheelchair as a paraplegic for the overwhelming majority of his adult life, Frank was soft spoken, yet larger than life, with a commanding presence.

As a leader of the Buckeye Chapter of the Paralyzed Veterans Association, he drove himself to veterans events across Ohio.

He spoke out against inequality in disability pay—and the barriers that face disabled veterans, from health care to transit accessibility, to economic opportunity.

He was a strong advocate for the Americans with Disabilities Act. He fought to ensure housing was affordable and accessible for all Americans.

He testified in front of Congress on issues facing veterans in rural areas

and would return that night to Cleveland to fight for veterans in cities.

He would always do so the right way—prepared in facts and figures, armed with anecdotes and stories.

Born in Cleveland in 1953, Frank Anderson graduated from East Tech High in 1971.

In 1976, he left Bowling Green State University to enlist in the Ohio Army National Guard's 107th Armored Cavalry Regiment.

In 1981, Frank was paralyzed after an 18-wheeler crashed into an Ohio National Guard convoy he was traveling in. He recovered and rehabbed at what is now the Louis Stokes VA Medical Center in Cleveland, meeting other disabled veterans—hearing their stories, learning from them, all becoming advocates charged with helping veterans.

While taking away his ability to walk for the rest of his life, the experience strengthened his will to serve and to live his life on his terms.

He remained active in wheelchair sports—playing tennis, lifting weights, and throwing a discus and a javelin.

He became a longtime leader for all Americans with disabilities and became a trusted leader in the African-American community.

He embraced life's challenges. He made the world better for all of us—even dressing as Santa for children at the Cleveland Clinic's Children's Hospital.

He traveled the country. He cooked his favorite seafood. He listened to his favorite old rhythm and blues music.

Mr. President, I ask unanimous consent to have printed in the RECORD Frank Anderson's obituary from the Cleveland Plain Dealer and a letter about Frank's life from Bill Lawson, president of the Paralyzed Veterans of America.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Cleveland Plain Dealer, Dec. 8, 2011]

(By Grant Segall)

EAST CLEVELAND.—Crashing into an Ohio National Guard convoy, an 18-wheeler paralyzed Frank W. Anderson in 1981 and inspired him to become a statewide leader for disabled veterans.

Anderson, 58, died Tuesday, Dec. 6, at the Stokes Cleveland VA Medical Center from complications of an infection.

"He was a guiding light," said Ray Saikus, president of the Joint Veterans Commission of Cuyahoga County, whose first vice president was Anderson. "He was well-versed, respectful and assertive about issues."

Among many roles, Anderson was government relations director for the Paralyzed Veterans Association's Buckeye Chapter. Buckeye President Carl Harris said, "He was very effective. He did his homework. We didn't just go in and say, 'Do something about this and figure it out.' We always had ideas on, 'You could do it this way and that way.'"

Anderson spoke about many problems, from illegal parking in spaces for the handi-

capped to inequities in disability pay. "There should be a standard rate for all veterans across the U.S.," he told The Plain Dealer in 2008.

Despite paraplegia, he drove himself and wheeled his chair to countless veterans' events. "We do this in remembrance," he said in 1993. "We want our children to be proud of what we did for this country."

Anderson was born in Cleveland and graduated East Tech High in 1971. In 1976, he left Bowling Green State University and enlisted in the Ohio Army National Guard's 107th Armored Cavalry Regiment. He was on active duty in Michigan when paralyzed. He was discharged the next year as a sergeant.

He joined the Paralyzed Veterans' Buckeye board in 1985, then switched to a paid job in 1987 as the group's advocacy director. He was also vice president of the Memorial Day Association of Greater Cleveland and a commissioner of Ohio Rehabilitation Services.

He belonged to the Governor's Council on People with Disabilities, ADA Ohio Network, Maximum Accessible Housing of Ohio, and Greater Cleveland RTA Citizens Advisory Board. As a trustee of the Soldiers and Sailors Monument, he took charge of getting it a wheelchair lift.

Anderson often played Santa at what's now the Cleveland Clinic Children's Hospital. He liked to cook seafood, travel around the country and listen to music, especially old rhythm and blues.

Frank William Anderson, 1953-2011. Survivors: Wife, the former Joe Ann Huff; children, Yolanda Anderson of East Cleveland, Patrice Anderson of Cleveland, Chemenda Wilbourn-Anderson of Cleveland, Tamika Savior-Greer of Cleveland Heights and Franklin Savior of Cleveland; seven grandchildren; a sister and two brothers.

#### PVA BUCKEYE CHAPTER MOURNS THE LOSS OF FRANK ANDERSON

It is with deep sadness that we inform you of the passing of Frank Anderson, long-time Buckeye Chapter Government Relations Director. We were informed by the Buckeye Chapter that Frank passed away in the early morning hours of December 6, 2011.

Frank was the consummate advocate for people with disabilities known throughout the greater Cleveland area and Ohio as a vigorous and articulate spokesman on behalf of disability rights.

For Frank no effort was too small nor challenge too large if it would benefit the greater disability community and he should be remembered as a leader in the fight to secure passage of the Americans with Disabilities Act. A mentor to his fellow Chapter Government Relations Directors and the 2010 recipient of the Richard Fuller Outstanding Achievement in Government Relations Award, Frank exemplified the active member devoted to the goals of Paralyzed Veterans of America.

Frank leaves behind a community that is better for his efforts. On behalf of all of PVA, we extend our deepest sympathies to his many friends, colleagues, and most specifically, his loving wife Joanne and family.

Once PVA executive offices receive pertinent memorial service information from the Buckeye Chapter, we will forward to you. Thank you for sharing this news with those who may not yet be aware and would appreciate knowing.

Sincerely,

BILL LAWSON,  
PVA National President.

HOMER S. TOWNSEND, Jr.,

*PVA Executive Director.*

Mr. BROWN of Ohio. Mr. President, Frank served as director of government relations for the Paralyzed Veterans Association's Buckeye Chapter in my State.

He served as vice president of the Memorial Day Association of Greater Cleveland, as well as a commissioner of the Ohio Rehabilitation Services.

He belonged to the Governor's Council on People with Disabilities, the ADA Ohio Network, the Maximum Accessible Housing of Ohio, and the Greater Cleveland RTA, the transit system's Citizens Advisory Board.

He was a trustee of the Soldiers and Sailors Memorial in downtown Cleveland, responsible for installing its wheelchair lift.

I will miss Frank. I will miss his friendship, his wit, and his humor. But his State and Nation will miss him more—his strong will and his dedication to public service and the lives he helped to improve.

Frank was an inspiration to anyone in or out of a wheelchair—a tireless advocate whom everyone loved and respected.

On Thursday, December 15—a couple days from now—at Mount Sinai Baptist Church, on Woodland Avenue in Cleveland, Frank's family and friends will gather for his funeral—his going home.

I wish I could be there. I will be here. But I wish I could be there to say goodbye—to join his wife Joe Ann, their children Yolanda, Patrice, Chemenda, Tamika, Franklin and seven grandchildren and Frank's sister and two brothers.

For them, I offer my condolences but also reaffirm a commitment to serving Frank's cause on behalf of all disabled Americans, especially those who are disabled and paralyzed in service to our country.

#### TRIBUTE TO LEO F. WEDDLE

Mr. McCONNELL. Mr. President, I stand today to honor an exemplary Kentuckian and patriot, Mr. Leo F. Weddle of Somerset, KY. Mr. Weddle is a veteran of the Korean war; he selflessly served our Nation as a machine-gunner during that conflict.

In 1950, just 3 years after graduating high school, Leo decided to enlist in the Marines, an idea he had already given considerable thought to. Leo was inspired one day by the obvious pride and glamour that was exhibited by a young marine in uniform whom Leo saw from the window of his Greyhound bus as Leo was traveling home to Somerset, KY, from his sister's house in Beaumont, TX. It was at that exact moment, somewhere in a small Arkansas town, that Leo decided to enlist to serve his country.

After his introduction into the Marine Corps, Leo spent the next several

months enduring the rigors of boot camp in Parris Island, SC, and combat training at Camp Pendleton in Oceanside, CA. When combat training concluded, Leo and his unit boarded the troopship USS *General William Weigel*. Leo's unit eventually landed in Yokuska, Japan, after 2 weeks at sea.

On June 5, 1951, the day Leo arrived in Korea, he was immediately transported to the front line for combat, where he joined George Company, 3rd Battalion, 1st Marine Division, later nicknamed "Bloody George." Leo's unit was under heavy fire from the moment he arrived. "They had just lost a machine gunner and were asking for a volunteer," he said. "Fools really do rush in where angels fear to tread, and I volunteered for the position. I served as a machine gunner for the duration of my time in Korea."

On September 21, 1951, Leo was wounded by a mortar that killed two officers and six enlisted men. Ironically, to Leo, the shell exploded closer to him than any other person, but the shrapnel propelled from it that hit him only left small pieces of metal in his legs and head. Those farther away were hit with larger pieces of metal that inflicted more severe, even fatal injuries. Six decades later, Leo still has fragments of the mortar in his legs and forehead.

Today at 77 years of age, Leo feels blessed to be able to look back on his wartime experiences as a veteran who has since lead a healthy and successful life. "I recall vividly many images of the horrors of war," Leo says, "but I also remember my fellow Marines, courageous young men with whom I shared the most intense life-and-death experiences most of us would ever face."

Leo was so inspired by these experiences that he wrote a poem while he was still in Korea to help him share the love and appreciation for America he felt half a world away. Leo believes he may never have had the opportunity to truly express these feelings had he not had the opportunity to serve his country in battle as he did.

Mr. President, I would ask that my Senate colleagues join me in thanking Mr. Leo F. Weddle, a valiant Kentucky veteran, for his courage and selflessness in fighting to preserve our country's freedom. Mr. Weddle is an honorable man whose sacrifice and lifelong success serve as an inspiration to the people of our great Commonwealth. The Commonwealth Journal, a Somerset-area publication, recently published an article written by Mr. Weddle recounting his time as a U.S. marine. I ask unanimous consent that the full article be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Commonwealth Journal, November 11, 2011]

#### A VETERAN REMEMBERS

(By Leo F. Weddle)

In 1950, three years after my high-school graduation, the Korean War was under way and I had given considerable thought to joining the service. One beautiful autumn day I was riding a Greyhound bus from my sister's home in Beaumont, Texas, to my hometown of Somerset, KY.

Somewhere along the way, in a small town in Arkansas, I saw from the window a young Marine, resplendent in his dress blue uniform. The glamour of that uniform and the obvious pride of the man wearing it captivated me. At that moment I decided to volunteer for the Marines, and I did so as soon as I arrived in Somerset.

After my introduction into the Marine Corps, I endured weeks of stress and intimidation in boot camp at Parris Island, South Carolina, followed by combat training at Camp Pendleton in Oceanside, California. After completing my training, my unit boarded a troopship, the USS *General William Weigel*, and after two weeks at sea, we landed in Yokuska, Japan.

On June 5, 1951, I arrived in Korea and became a member of George Company, 3rd Battalion, 1st Marine Division, later nicknamed "Bloody George." The day I arrived, I was transported to the front line and immediately entered combat. My unit was under heavy fire. They had just lost a machine gunner and were asking for a volunteer. Fools really do rush in where angels fear to tread, and I volunteered for the position. I served as a machine gunner for the duration of my time in Korea.

Minutes after I arrived on the line, a mortar shell hit a few feet from me. Luckily, it turned out to be a dud. If it had exploded, I would almost certainly have been killed on my first day of battle. As it was, I was wounded by another mortar a few months later, on September 21, 1951. We were on Hill 751, which came to be known as "Starvation Hill."

For three days and three nights, the fighting was so intense that our Korean supply carriers could only bring ammunition. Food was a lower priority in this situation than the much-needed ammo, so we had to make do with what we had until the shelling diminished.

A friend of mine was hit, and I climbed out of my foxhole to help him. While I was out of the foxhole, a mortar shell came in. It killed two officers and wounded six enlisted men. The irony of the situation was that the mortar landed closer to me than to anyone else, but the explosion propelled shrapnel that embedded only small pieces of metal in my legs and head, while dispersing larger pieces to the men who were killed or more seriously wounded.

The mind is a strange and wonderful thing. If I close my eyes, even to this day, I can still see the dirt, debris and shrapnel exploding as clearly as I could at the moment it happened. Fifty-five years later, I still have small fragments of that mortar in my legs and forehead. During the months that I served in Korea, I saw great acts of courage by my fellow Marines as they dealt with the brutality and mayhem of war. I came to realize that heroism often involves reacting to a situation in a way that seems to be most expedient at a given moment.

I recall many images of the horrors of war, of course, but I also remember my fellow Marines, courageous young men with whom I shared the most intense life-and-death experiences most of us would ever face.

While I was still in combat in Korea, I wrote the following poem. My experiences there gave me a love and appreciation for America that I might never have been able to express had I not had the opportunity to serve my country in this way.

Today I am 77 years old and looking back on my own wartime experiences from the vantage point of a healthy and successful life. I hear the stories of today's young Marines who are risking their bodies and lives for the same principles that motivated me and my comrades in Korea so many years ago. For any soldier or Marine who serves his country in time of any war, I believe this poem expresses the love and pride that he feels for his homeland, the United States.

MR. YOU AND MR. ME

What is America? I ask myself,  
It is happiness, contentment, success and wealth,

With a touch of hardship, dirt and grime,  
Mixed together with work and time,  
Is Mr. You or Mr. Me?

America is a sweetheart, modest and dear,  
It's high school and college, or a cheer-leader's cheer.

It's a bright hello or a sad good-bye,  
It's all these things and much more too,  
That go into making the Red, White and Blue.

America is football, baseball and track,  
Or just a little afternoon snack.  
It's a drive in the country, a walk into town,  
or just a policeman making his round.  
It's a chocolate sundae or a picture show  
That forms the pattern of this land we know.

It's Mom and Dad—Sister too,  
And a little brother, or me and you.  
It's Brooklyn and Jersey, the Dodgers and Phils,

Or a beautiful river with valleys and hills.  
But it takes these things and the heavens above

To make our America, the land we love.

It's barefoot boys who skip school for fishing,  
And pigtailed girls who tag along, wishing.  
It's the old and the young, the brave and the true,

But mostly America is made up of you.  
It's what you believe and what you can see  
That count in this land of democracy.

The names of Washington, Lincoln and Jones,

The Tom Smiths, Dick Phillips, and Harry Malones

Are parts of America we see every day  
As we walk along this crowded highway.  
Yes, all of these things we daily see,  
Until they are a part of you and me.

America is brown, yellow and white,  
With a touch of red, it's quite a sight,  
For we are a mixture from many lands  
Who believe in liberty and freedom's stands,  
And we back up this faith with blood and tears

Shed by patriots throughout the years.

It's soldiers, sailors, pilots, Marines,  
Who make up our nation's fighting machines.

It's "blood and guts" when the time demands,

For freedom's cause we take our stands.

It's all America, just one big show,  
Of the things we do and the things we know.

It's our faith in God to do His will,  
Our belief that we have His protection still,  
That makes America strong and free,  
It's a wonderful place for you and me.

And though many places our feet may roam,  
May they safely return us to our home,

America.

#### TRIBUTE TO TOM BIRCH

Mr. ROCKEFELLER. Mr. President, it is a distinct honor and privilege for me to congratulate Thomas L. Birch, the legislative counsel and founding director, of the National Child Abuse Coalition, for his decades of service to children.

After more than 30 years as head of the coalition, Tom is retiring. Mr. Birch established the National Child Abuse Coalition three decades ago as a way to focus greater attention on the more than 700,000 children who are abused and neglected each year.

From his earliest days, Tom was inspired to make a difference in the lives of some of our most vulnerable children and families. His interest was first peaked as a high school student working at a public housing project in Stamford, CT. He noticed that not all kids had the same opportunity and that not all children had the same start at life. His experiences also demonstrated that with the right kind of support, we could make a difference in these young lives. We could even the playing field.

Tom continued on to college and became an attorney, but when he reached Washington, he brought with him that same passion to make a difference. We all talk about how important children are to this country's future, but Tom felt you had to do more than just say that—he had to act. He began his new job on Capitol Hill working for the chair of what we now call the HELP Committee, under Senator Walter Mondale. In fact, the week Tom Birch started his work for the future Vice President, the Child Abuse Prevention and Treatment Act, or CAPTA, was signed into law. He would continue advocating for children and the prevention of child abuse by working on the staffs of Senator Paul Simon and Congressman John Brademas.

When Tom ended his career as a Capitol Hill staffer he moved on but didn't move away from his main mission in life: to continue to make a difference for the most vulnerable children in the land. He formed a coalition to focus attention on preventing the abuse and neglect of children. In 1981 the National Child Abuse Coalition was created under the leadership of Mr. Birch. His pride and constant inspiration has been to shape the growth of CAPTA, and that, too, would be the mission of the coalition he founded.

Because of Tom Birch's efforts, more than 30 national member organizations, working through the coalition, have been able to coordinate and strengthen their Federal advocacy on behalf of the millions of vulnerable children. Through this time period Tom has contributed to important developments, including the creation of

children's trust funds across the States; the establishment of national child abuse data; greater focus on community-based solutions, including the community-based grants to prevent child abuse and neglect; and more recently he and the coalition were an important voice of support for the new home visitation program enacted by Congress in 2010.

Through his leadership the coalition has also served as an advocate in the appropriations process for CAPTA and similar programs such as the Social Services Block Grant, SSBG, and the Promoting Safe and Stable Families Program, PSSF. When opportunities have arisen he has worked to highlight ways to strengthen programs such as Head Start and childcare to make sure the country took every opportunity to address child neglect and to prevent it.

Others have recognized Mr. Birch's contributions, including the American Psychological Association, which honored him in 2003 with their Award for Distinguished Contribution to Child Advocacy. Later in 2006 Casey Family Programs honored Tom again by giving him their Leadership Award.

I want to join the many others in recognizing Tom Birch. These days we talk a great deal about lobbyists and special interests in Washington, DC, but there are certain groups of people here in Washington you don't hear about. They won't be featured on the evening news or the front page of the newspaper. These are the men and women who patiently and quietly walk these halls to tell the stories of vulnerable children. These people do it not to get rich or to promote the fortunes of the powerful; they work on behalf of our most vulnerable. Tom is one of these people, an unsung hero who has made a true difference for vulnerable children. It has been a job well done for Tom. I hope his retirement is successful and rewarding in every way he wishes it to be, and I thank him very much for all the contributions he has made to the lives of all the most vulnerable children all across this country.

#### VOTE EXPLANATION

Mr. NELSON of Nebraska. Mr. President, I was mistakenly recorded as a "no" on vote No. 227 on December 12, 2011. I would like to state for the record I intended to vote for cloture in relation to the nomination of Mari Carmen Aponte to be Ambassador to the Republic of El Salvador.

#### TRIBUTE TO ROBERT GRIFFIN III

Mrs. HUTCHISON. Mr. President, in Texas, football and team loyalty is a key part of our identity. Today, I know that Baylor University students, alumni, and fans—known as the Baylor Nation—are bursting with pride over the

first Bear to win the Heisman Trophy. Robert Griffin III was named the 2011 Heisman Trophy winner for his incredible accomplishments on the football field. Baylor finished this season ranked No. 15 nationally with a 9 to 3 record which included impressive victories over nationally ranked TCU, Oklahoma, and Texas. While Baylor and Big 12 fans have witnessed Griffin's football prowess, many more American sports fans will have the opportunity to watch him lead the Bears in the Valero Alamo Bowl on December 29, 2011.

But it is not only his football talent that makes Robert such a remarkable young man. RG3, as he is known to his friends and fans, is the consummate student-athlete. An honor roll student at Baylor, he graduated with a degree in political science in only 3 years with a 3.67 GPA. While he was leading the Bears this year on the gridiron, he was studying for his master's degree in communications, and he has indicated that he would like to attend law school as well.

Robert's career at Baylor balances academics and athletics and should serve as a role model for other aspiring young athletes. The discipline to succeed was instilled in him at a very early age by his parents, Robert, Jr., and Jacqueline Griffin, both Army non-commissioned officers, who laid the groundwork for his strong work ethic. A graduate of Copperas Cove High School just outside Ft. Hood, Robert was a three-sport star athlete—he still owns Texas' High School State records for the 110-meter and 300-meter hurdles—and a top student.

Throughout his career at Baylor, Robert set 52 school records in passing, rushing, and total offense. He has thrown for an incredible 10,070 yards, and 77 touchdowns, while rushing for 2,220 yards and 32 touchdowns. During his impressive 2011 Heisman winning season, Robert passed for almost 4,000 yards and 36 touchdowns, while rushing for 655 yards and 7 touchdowns. He also earned the Davey O'Brien Award, presented annually to the best NCAA quarterback.

On Saturday, December 10, 2011, Robert Griffin III was recognized as the greatest college football player of the year. The Heisman Trophy is the most prestigious and coveted award in college sports, and no one is more deserving of this honor than Robert Griffin III.

Congratulations to Robert Griffin III on an incredible season; to his family, who provided the foundation for his abilities; to his teammates and the entire Baylor Nation. This is truly a storybook ending to a tremendous season.

Mr. CORNYN. Mr. President, on December 10, the most prestigious sports fraternity in the country welcomed its newest member, Baylor University's Robert Griffin III, as the 77th winner of

the Heisman Memorial Trophy. Griffin is Baylor's first recipient of the Heisman Trophy and the first player from the school to be named a finalist for the award since quarterback Don Trull finished fourth in 1963. The son of two retired U.S. Army sergeants, Griffin led the 15th ranked Baylor Bears to a 9 to 3 record and their second straight bowl appearance. The Big 12 Offensive Player of the Year has energized the football program and helped to end Baylor's 16-year absence from bowl games.

Hailing from Copperas Cove, TX, Griffin put up spectacular numbers, completing 72 percent of his passes for 3,998 yards with 36 touchdown passes. He also led the Nation in passing efficiency with a rating of 192.3, which broke the single-season Football Bowl Series record. On top of his impressive passing statistics, Griffin averaged 4.0 yards per carry for 644 yards and nine touchdowns on the ground. Although Griffin is only a junior, he holds 46 of Baylor's career offensive records including passing yards, passing touchdowns, and rushing touchdowns by a quarterback. While leading Baylor to one of its greatest seasons in history, he helped accomplish other important firsts for the program. After winning a combined 4 games in November during their first 15 seasons in the Big 12, Griffin guided the Bears to a perfect 4 to 0 record in the same month, with 3 of the wins against rivals Oklahoma, Texas, and Texas Tech. The late-season victory over Oklahoma marked the first time in school history that Baylor was able to defeat the mighty Sooners.

Robert Griffin's skills are not limited to the football field. In addition to being an All-American in the 400-meter hurdles, Griffin is also a model student. He completed his undergraduate work in 3 years with a 3.67 GPA, earning a bachelor's degree in political science, and is currently working on a master's degree in communications. Griffin also plans to earn a law degree. I applaud his commitment to excellence in both academics and athletics.

Today, I join with my colleagues, and Robert's friends and family, including his parents, Robert Jr. and Jacqueline Griffin, in celebrating this fine achievement. Robert Griffin joins a special class of Texas athletes who are also Heisman Trophy winners: TCU's Davey O'Brien, SMU's Doak Walker, Texas A&M's John David Crow, the University of Houston's Andre Ware, and the University of Texas's Earl Campbell and Ricky Williams.

#### ADDITIONAL STATEMENTS

##### TRIBUTE TO THE LONG FAMILY

• Mr. BOOZMAN. Mr. President, I wish to congratulate the Long family for earning the distinction of 2011's Arkansas Farm Family of the Year.

This honor reflects Heath and Betsy Long's dedication to farming and the importance of agriculture as Arkansas's No. 1 industry. As owners of Long Planting Company, a rice, soybean, and wheat operation of more than 2,200 acres of land, the couple has taken advantage of technology and improved farming efficiency while expanding their farm.

Heath has devoted his life to farming, spending his childhood on the farm and earning a degree in agriculture from Arkansas State University. As a fourth-generation farmer, his commitment to the agriculture industry has helped his farm as well as other farms within the State, as he serves as the vice president of the Arkansas County Farm Bureau board of directors and a member of the Arkansas and USA rice councils.

The Arkansas Farm Bureau's program honors farm families across the State for their outstanding work both on their farms and in their communities. This recognition is a reflection of the contribution to agriculture at the community and State level and its implications for improved farm practices and management. The Longs are well deserving of this honor.

I congratulate Heath and Betsy and their daughters, Shelby and Sydney, for their outstanding achievements in agriculture and ask my fellow colleagues to join me in honoring them for this accomplishment. I wish them continued success in their future endeavors and look forward to the contributions they will offer in the future to Arkansas agriculture.●

##### TRIBUTE TO MIKE RISK

• Mr. COONS. Mr. President, I would like to take a moment to reflect on the career of the executive director of the Delaware Nature Society, Michael E. Riska. Mike is retiring this year after serving as executive director for 28 wonderful years spent opening the minds and hearts of Delawareans young and old to the splendor of our natural world.

Mike Riska attended West Chester University and earned a bachelor of science with a double major in biology and physical education. He also earned his master's in education in Natural Science from the University of Delaware. He is a certified teacher in biology, general science, health, and physical education.

Truly devoted to educating students in the natural sciences, Mike began his career as a teacher at the Tatnall School in Greenville, DE. He taught science to students in the first through eighth grades and taught eight 5-week upper-school marine ecology courses based on Sanibel Island, FL.

Mike took his love of science and education to the Delaware Nature Society in 1969, where he started as a part-

time instructor and youth programs director. He was part of the initiative to transform the H.B. DuPont Farm into a learning environment for students across Delaware. For my first job, as a seventh grader, I was hired by Mike to assist other Delaware youngsters in building the trails that would soon become Ashland Nature Center. Every year thousands of students, including my own children, attend summer camps and class field trips at the Ashland Nature Center, where they learn about nature, ecology, and conservation.

Mike Riska was appointed to executive director of the Delaware Nature Society in 1984, just the third person to serve in this capacity. With Mike at the helm, the Delaware Nature Society earned record donations for furthering its mission of fostering understanding, appreciation, and enjoyment of the natural world through education. The society also worked to preserve ecologically significant areas and advocate stewardship and conservation of natural resources.

Mike has been recognized with several awards, including the Nature Conservancy Lifetime Conservation Achievement Award in 1997, an Exceptional Leadership Award from the Association of Nature Center Administrators' Board of Directors in 1999, and the 1999 President's Award of Association of Nature Center Administrators for dedication and service to the nature center profession. The Association of Nature Center Administrators recognized him as the recipient of its 2002 Leadership Award.

Mike has worked closely with several other Delaware nature conservancy organizations and is admired and respected by his peers. Andrew Manus, director of conservation programs of the Delaware Chapter of the Nature Conservancy, said:

Let me add my voice of congratulations to others who have benefitted from the years of dedicated service that Mike Riska has brought to conservation in Delaware. The Delaware Nature Society has been well served by his leadership, as has the greater conservation community in Delaware. Mike's thoughtful advocacy for the natural world in Delaware will be his endearing legacy for us all to enjoy.

Roger L. Jones, State director of the Delaware Chapter of the Nature Conservancy, stated:

Mike Riska's legacy is very simple—he instilled a passion for nature and a boundless commitment for protecting our environment within thousands of people in Delaware.

Lorraine Fleming, 2005 Delaware Audubon Conservation Award recipient, said:

Natural science and environmental education is Mike Riska's first love. It has been the foundation for his visionary leadership of the Delaware Nature Society over 28 years as executive director and before that as assistant director. Recognition and cultivation of staff and volunteers is Mike's natural

strength. While he is always quick to give credit to his staff members and the society's large cadre of volunteers, the overall direction and support for DNS' accomplishments has consistently come from Mike. Mike's legacy is an enduring preeminent Delaware environmental organization that is nationally renowned among nature centers.

Mr. President, today I honor Mike Riska's legacy and accomplishments at the Delaware Nature Society. It is an honor to call him my first boss, a fellow advocate, and my friend.●

#### KATHERINE BOMKAMP AND WVU

● Mr. ROCKEFELLER. Mr. President, I wish to recognize Katherine Bomkamp, a promising sophomore at West Virginia University, WVU, who invented a new prosthesis that reduces phantom pain for amputees, including many returning veterans. Last month, she was in New York City being honored by Glamour magazine as one of its "21 Amazing Young Women of 2011," to celebrate the 21st anniversary of its Women of the Year awards.

At the age of 16, following frequent visits to Walter Reed Army Medical Center while her father was stationed at the Pentagon with the U.S. Air Force, Katherine conceptualized the "pain free socket," a prosthetic device that combats the phantom limb pain experienced by 80 percent of amputees. After two-and-a-half years of research, Katherine is now at West Virginia University, where the WVU Entrepreneurship Center is helping her obtain a patent for the device and find funding to make it available for injured veterans and other patients. The WVU Entrepreneurship Center is playing an important role in helping Katherine commercialize the "pain free socket." It is a great example of how America's research universities are supporting innovative entrepreneurs, whose ideas are vital to economic growth today.

Ms. Bomkamp didn't just sit on the sidelines and feel sorrow for the afflicted men and women she encountered at Walter Reed. She listened to their stories and learned that many amputees experienced phantom pain, the feeling of pain in an absent limb.

By researching the topic, Katherine found that no medications have been approved for specifically treating phantom pain. Instead, many amputees are prescribed antipsychotics and barbiturates, treatments that can be expensive and highly addictive.

For a 10th-grade science project, Katherine decided to leap into action. She created the "Pain Free Socket," incorporating thermal biofeedback into prosthetics to eliminate phantom pain in amputees. Phantom pain is caused by the brain continuing to send signals and commands to the limb. Bomkamp's device would help force the brain to focus on the heat produced through thermal biofeedback, rather than sending signals to the nonexistent limb.

Katherine Bomkamp deserves our praise and educational enrichment. She was the first WVU student to be inducted into the National Museum of Education's National Gallery for America's Young Inventors. Now that she is one of the "21 Amazing Young Women of 2011," the sky is the limit for what she might achieve.

Success stories such as this one show us that academic and student innovation are alive and well at universities such as WVU, and promise a brighter future for all Americans. It is essential that as we in Congress review our budget priorities, even in the midst of today's financial pressures, we continue—or even expand—our support of higher education and students like Katherine Bomkamp.●

#### TRIBUTE TO RICHARD L. COTTA

● Mr. THUNE. Mr. President, today I wish to recognize Richard L. Cotta on the occasion of his retirement from California Dairies, Inc., CDI.

Since 2007 Richard has held the title of president and CEO of California Dairies, Inc., CDI. He has spent his entire career in the dairy industry in virtually all aspects of the business.

Richard Cotta's career at CDI began in 1993, when he joined San Joaquin Valley Dairymen, a dairy processing and marketing cooperative, as its general manager.

In 1999, San Joaquin Valley Dairymen merged with Danish Creamery and California Milk Producers to form CDI. Cotta was named senior vice president of producer affairs and government relations at CDI, a role he held until he was named CEO in 2007. Under his leadership, CDI profits have reached record levels. Today, CDI is California's largest dairy provider and the second largest in the United States.

From 1980 to 1984 Richard was the CEO of United Dairymen of California, a producer trade organization, until it merged to form Western United Dairymen. Then from 1984 to 1993, he served as the CEO of Western United Dairymen, the largest producer trade association in the state.

Previously, Richard worked as a sire analyst for American Breeders Service, a classifier for the Holstein Association of America, and a principle in Genetics, Inc. For several years he was a dairy consultant on feeding, breeding and management systems.

Richard is a graduate, with honors, of California State Polytechnic University, San Luis Obispo, with a degree in dairy husbandry. He also owns and operates Cotta Farms and is a partner in Terra Bella Farms, both almond farming operations.

Richard sits on the following boards: U.C. Davis Deans Advisory Council, California State University Chancellors Ag Advisory Council, Sacred Heart School Foundation, and the

Innovation Center for U.S. Dairy. In addition, he sits on the Globalization Operating Committee for the U.S. Dairy Export Council.

At the request of the Secretary of Agriculture, he has participated in world trade missions to open the U.S. dairy market overseas.

Please join me in congratulating Richard Cotta on his notable career and his retirement from California Dairies, Inc.●

## MESSAGES FROM THE HOUSE

### ENROLLED BILLS AND JOINT RESOLUTION SIGNED

At 10:03 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the Speaker has signed the following enrolled bills and joint resolution:

H.R. 470. An act to further allocate and expand the availability of hydroelectric power generated at Hoover Dam, and for other purposes.

H.R. 2061. An act to authorize the presentation of a United States flag on behalf of Federal civilian employees who die of injuries incurred in connection with their employment.

S.J. Res. 22. Joint resolution to grant the consent of Congress to an amendment to the compact between the States of Missouri and Illinois providing that bonds issued by the Bi-State Development Agency may mature in not to exceed 40 years.

The enrolled bills and joint resolution was subsequently signed by the President pro tempore (Mr. INOUE).

At 1:45 p.m., a message from the House of Representatives, delivered by Mr. Novotny, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2158. An act to designate the facility of the United States Postal Service located at 14901 Adelfa Drive in La Mirada, California, as the "Wayne Grisham Post Office".

H.R. 2845. An act to amend title 49, United States Code, to provide for enhanced safety and environmental protection in pipeline transportation, to provide for enhanced reliability in the transportation of the Nation's energy products by pipeline, and for other purposes.

H.R. 3220. An act to designate the facility of the United States Postal Service located at 170 Evergreen Square SW in Pine City, Minnesota, as the "Master Sergeant Daniel L. Fedder Post Office".

## MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 2158. An act to designate the facility of the United States Postal Service located at 14901 Adelfa Drive in La Mirada, California, as the "Wayne Grisham Post Office"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 3220. An act to designate the facility of the United States Postal Service located

at 170 Evergreen Square SW in Pine City, Minnesota, as the "Master Sergeant Daniel L. Fedder Post Office"; to the Committee on Homeland Security and Governmental Affairs.

## MEASURES DISCHARGED

The following joint resolutions were discharged from the Committee on the Judiciary pursuant to the Budget Control Act of 2011:

S.J. Res. 24. A joint resolution proposing an amendment to the Constitution relative to requiring a balanced budget.

S.J. Res. 10. A joint resolution proposing an amendment to the Constitution of the United States relative to balancing the budget.

## MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

H.R. 1633. An act to establish a temporary prohibition against revising any national ambient air quality standard applicable to coarse particulate matter, to limit Federal regulation of nuisance dust in areas in which such dust is regulated under State, tribal, or local law, and for other purposes.

## MEASURES READ THE FIRST TIME

The following bill was read the first time:

H.R. 3630. An act to provide incentives for the creation of jobs, and for other purposes.

## ENROLLED JOINT RESOLUTION PRESENTED

The Assistant Secretary of the Senate reported that on today, December 13, 2011, she had presented to the President of the United States the following enrolled joint resolution:

S.J. Res. 22. A joint resolution to grant the consent of Congress to an amendment to the compact between the States of Missouri and Illinois providing that bonds issued by the Bi-State Development Agency may mature in not to exceed 40 years.

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-4245. A communication from the Director of Congressional Affairs, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled "Criteria for Preparation and Evaluation of Radiological Emergency Response Plans and Preparedness in Support of Nuclear Power Plants" (RIN3150-AI10) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Environment and Public Works.

EC-4246. A communication from the Director of Congressional Affairs, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled "Interim Staff Guidance: Emergency Planning for Nu-

clear Power Plants" (RIN3150-AI10) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Environment and Public Works.

EC-4247. A communication from the Director of Congressional Affairs, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled "Criteria for Development of Evacuation Time Estimate Studies" (RIN3150-AI10) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Environment and Public Works.

EC-4248. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Revocation of the Significant New Use Rule on a Certain Chemical Substance" (FRL No. 8892-2) received during adjournment of the Senate in the Office of the President of the Senate on December 2, 2011; to the Committee on Environment and Public Works.

EC-4249. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Mandatory Reporting of Greenhouse Gases: Technical Revisions to the Petroleum and Natural Gas Systems Category of the Greenhouse Gas Reporting Rule" (FRL No. 9501-9) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Environment and Public Works.

EC-4250. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Regulation of Fuels and Fuel Additives: Identification of Additional Qualifying Renewable Fuel Pathways Under the Renewable Fuel Standard Program" (FRL No. 9502-2) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Environment and Public Works.

EC-4251. A communication from the Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Virginia; General Conformity Requirements for Federal Agencies Applicable to Federal Actions" (FRL No. 9504-7) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Environment and Public Works.

EC-4252. A communication from the Program Manager, Centers for Medicare and Medicaid Services, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Medicare Program; Availability of Medicare Data for Performance Measurement" (RIN0938-AQ17) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Finance.

EC-4253. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement to include the export of defense articles, including, technical data, and defense services to Hong Kong for the manufacture of transformers, inductors, and coils for power supplies in the amount of \$50,000,000 or more; to the Committee on Foreign Relations.

EC-4254. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant

to law, a report entitled "The President's Emergency Plan for AIDS Relief, Fiscal Years 2009-2010 Report on the Global Fund to Fight AIDS, Tuberculosis and Malaria"; to the Committee on Foreign Relations.

EC-4255. A communication from the Assistant Secretary for the Employment and Training Administration, Department of Labor, transmitting, pursuant to law, the report of a rule entitled "Wage Methodology for the Temporary Non-Agricultural Employment H-2B Program; Delay of Effective Date; Impact on Prevailing Wage Determinations" (RIN1205-AB61) received in the Office of the President of the Senate on December 6, 2011; to the Committee on Health, Education, Labor, and Pensions.

EC-4256. A communication from the Deputy Assistant Administrator, Bureau for Legislative and Public Affairs, U.S. Agency for International Development (USAID), transmitting, pursuant to law, USAID's Agency Financial Report for fiscal year 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4257. A communication from the Secretary of Energy, transmitting, pursuant to law, the Department of Energy's Agency Financial Report for fiscal year 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4258. A communication from the Chairman, Occupational Safety and Health Review Commission, transmitting, pursuant to law, the Commission's Performance and Accountability Report for fiscal year 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4259. A communication from the Board Members, Railroad Retirement Board, transmitting, pursuant to law, a report entitled "Railroad Retirement Board's Performance and Accountability Report for Fiscal Year 2011"; to the Committee on Homeland Security and Governmental Affairs.

EC-4260. A communication from the Deputy Secretary of the Interior, transmitting, pursuant to law, the Department of the Interior's Semiannual Report of the Inspector General for the period from April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4261. A communication from the Deputy Secretary of Defense, transmitting, pursuant to law, the Department of Defense's Semiannual Report of the Inspector General for the period from April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4262. A communication from the Chairman, Federal Maritime Commission, transmitting, pursuant to law, the Commission's Semiannual Report of the Inspector General for the period from April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4263. A joint communication from the Chairman and the Acting General Counsel, National Labor Relations Board, transmitting, pursuant to law, the Office of Inspector General's Semiannual Report for the period of April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4264. A communication from the Secretary of Transportation, transmitting, pursuant to law, the Department of Transportation's Semiannual Report of the Inspector General for the period from April 1, 2011 through September 30, 2011; to the Committee on Homeland Security and Governmental Affairs.

EC-4265. A communication from the Attorney-Advisor, U.S. Coast Guard, Department

of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Regulated Navigation Area; Saugus River, Lynn, MA" ((RIN1625-AA11) (Docket No. USCG-2011-0857)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4266. A communication from the Attorney-Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Regulated Navigation Area; Route 24 Bridge Construction, Tiverton and Portsmouth, RI" ((RIN1625-AA11) (Docket No. USCG-2011-0868)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4267. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; IJSBA World Finals; Lower Colorado River, Lake Havasu, AZ" ((RIN1625-AA00) (Docket No. USCG-2011-0838)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4268. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Monte Foundation Fireworks Extravaganza, Aptos, CA" ((RIN1625-AA00) (Docket No. USCG-2011-0805)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4269. A communication from the Attorney, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Mississippi River, Mile Marker 230 to Mile Marker 234, in the vicinity of Baton Rouge, LA" ((RIN1625-AA00) (Docket No. USCG-2011-0841)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4270. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Waverly Country Club Fireworks Display on the Willamette River, Portland, OR" ((RIN1625-AA00) (Docket No. USCG-2011-0899)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4271. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; The Florida Orchestra Pops in the Park Fireworks Display, Tampa Bay, St. Petersburg, FL" ((RIN1625-AA00) (Docket No. USCG-2011-0834)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4272. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Rotary Club of Fort Lauderdale New River Raft Race, New River, Fort Lauderdale, FL" ((RIN1625-AA00) (Docket No. USCG-2011-0589)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4273. A communication from the Attorney Advisor, U.S. Coast Guard, Department

of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Mainardi/Kinsey Wedding Fireworks, Lake Erie, Lakewood, OH" ((RIN1625-AA00) (Docket No. USCG-2011-0848)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4274. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; 2011 Head of the South Regatta, Savannah River, Augusta, GA" ((RIN1625-AA00) (Docket No. USCG-2011-0861)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4275. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zones; Fireworks Displays in Captain of the Port Long Island Sound Zone" ((RIN1625-AA00) (Docket No. USCG-2011-0870)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4276. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; The Old Club Cannone, Lake St. Clair, Muscamoot Bay, Harsens Island, MI" ((RIN1625-AA00) (Docket No. USCG-2011-0907)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4277. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Truman-Hobbs Alternation of the Elgin Joliet and Eastern Railroad Drawbridge, Morris, IL" ((RIN1625-AA00) (Docket No. USCG-2011-0961)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4278. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; Swim Around Charleston, Charleston, SC" ((RIN1625-AA00) (Docket No. USCG-2011-0575)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4279. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zone; M/V Davy Crockett, Columbia River" ((RIN1625-AA00) (Docket No. USCG-2010-0939)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4280. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Safety Zones; Annual Firework Displays within the Captain of the Port, Puget Sound Area of Responsibility" ((RIN1625-AA00) (Docket No. USCG-2010-0842)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4281. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Security Zones; 2011 Asia-Pacific Economic Cooperation Conference, Oahu, HI" (Docket No. USCG-2011-0800) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4282. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Security Zone; Potomac River, Georgetown Channel, Washington, DC" (Docket No. USCG-2011-0929) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4283. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Security Zones; Captain of the Port Lake Michigan Zone" (Docket No. USCG-2011-0489) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4284. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Security Zone; Columbia and Willamette Rivers, Dredge Vessels Patriot and Liberty" (Docket No. USCG-2011-0939) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4285. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Drawbridge Operation Regulation; Passaic River, Harrison, NJ" ((RIN1625-AA09)(Docket No. USCG-2011-0268)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4286. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Drawbridge Operation Regulation; Bear Creek, Sparrows Point, MD" ((RIN1625-AA09)(Docket No. USCG-2011-0816)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4287. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Drawbridge Operation Regulation; Apponagansett River, Dartmouth, MA" ((RIN1625-AA09)(Docket No. USCG-2011-0335)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4288. A communication from the Attorney-Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Special Local Regulations; Line of Sail Marine Parade, East River and Brunswick River, Brunswick, GA" ((RIN1625-AA08)(Docket No. USCG-2011-0830)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4289. A communication from the Attorney-Advisor, U.S. Coast Guard, Department

of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Special Local Regulations for Marine Events, Wrightsville Channel; Wrightsville Beach, NC" ((RIN1625-AA08)(Docket No. USCG-2011-0885)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

EC-4290. A communication from the Attorney-Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Special Local Regulations for Marine Events; Chesapeake Bay Workboat Race; Back River, Messick Point, Poquoson, Virginia" ((RIN1625-AA08)(Docket No. USCG-2011-0934)) received in the Office of the President of the Senate on December 12, 2011; to the Committee on Commerce, Science, and Transportation.

#### EXECUTIVE REPORTS OF COMMITTEE

The following executive reports of nominations were submitted:

By Mr. JOHNSON, of South Dakota, for the Committee on Banking, Housing, and Urban Affairs.

\*Maurice A. Jones, of Virginia, to be Deputy Secretary of Housing and Urban Development.

\*Carol J. Galante, of California, to be an Assistant Secretary of Housing and Urban Development.

\*Thomas Hoenig, of Missouri, to be Vice Chairperson of the Board of Directors of the Federal Deposit Insurance Corporation.

\*Thomas Hoenig, of Missouri, to be a Member of the Board of Directors of the Federal Deposit Insurance Corporation for a term of six years.

\*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

#### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. HELLER (for himself, Mr. BURR, Mr. VITTER, Mr. BOOZMAN, and Mr. MANCHIN):

S. 1981. A bill to provide that Members of Congress may not receive pay after October 1 of any fiscal year in which Congress has not approved a concurrent resolution on the budget and passed the regular appropriations bills; to the Committee on Homeland Security and Governmental Affairs.

By Mr. CASEY (for himself and Mr. FRANKEN):

S. 1982. A bill to amend the Older Americans Act of 1965 to develop and test an expanded and advanced role for direct care workers who provide long-term services and supports to older individuals in efforts to coordinate care and improve the efficiency of service delivery; to the Committee on Health, Education, Labor, and Pensions.

By Mr. SCHUMER (for himself, Mr. LEAHY, and Mr. DURBIN):

S. 1983. A bill to amend the Immigration and Nationality Act to eliminate the per-

country numerical limitation for employment-based immigrants, to increase the per-country numerical limitation for family-sponsored immigrants, and for other purposes; to the Committee on the Judiciary.

By Mr. KERRY (for himself and Ms. COLLINS):

S. 1984. A bill to establish a commission to develop a national strategy and recommendations for reducing fatalities resulting from child abuse and neglect; to the Committee on Health, Education, Labor, and Pensions.

By Mr. LIEBERMAN (for himself, Mr. CORKER, Mr. ENZI, Mr. KIRK, and Mr. MURKOWSKI):

S. 1985. A bill to allow a bipartisan group of Members of Congress to propose and have an up or down vote on a balanced deficit reduction bill pursuant to this Act, such as proposed by the National Commission on Fiscal Responsibility and Reform report, reducing the deficit by a goal of \$4,000,000,000,000 over 10 years; to the Committee on Homeland Security and Governmental Affairs.

By Mr. BENNET:

S. 1986. A bill to amend the Immigration and Nationality Act to promote innovation, investment, and research in the United States, and for other purposes; to the Committee on the Judiciary.

By Ms. KLOBUCHAR (for herself and Mr. FRANKEN):

S. 1987. A bill to provide for the release of the reversionary interest held by the United States in certain land conveyed by the United States in 1950 for the establishment of an airport in Cook County, Minnesota; to the Committee on Agriculture, Nutrition, and Forestry.

#### SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BROWN of Ohio (for himself, Mr. MORAN, Mr. KERRY, Mrs. FEINSTEIN, Mr. CARDIN, Ms. STABENOW, Mr. LAUTENBERG, Mr. LEVIN, Mr. TESTER, Mr. CASEY, Mr. INOUE, Mrs. MURRAY, Mr. HARKIN, Mrs. MCCASKILL, Mr. BEGICH, Mr. SANDERS, Ms. MIKULSKI, Mr. FRANKEN, Mr. BLUMENTHAL, Mr. DURBIN, Mr. NELSON of Nebraska, Mr. WHITEHOUSE, Mr. MERKLEY, Ms. LANDRIEU, Mr. COONS, Mr. MENENDEZ, Mrs. GILLIBRAND, Mr. JOHNSON of South Dakota, Mrs. BOXER, Mr. REED, Mr. BENNET, Mr. WYDEN, Ms. KLOBUCHAR, Mr. KOHL, Mr. BROWN of Massachusetts, Mr. ROBERTS, Mr. BLUNT, Mr. COCHRAN, Mr. BOOZMAN, Mr. HELLER, Mrs. HUTCHISON, Mr. WICKER, Mr. BURR, and Mr. KIRK):

S. Res. 347. A resolution recognizing the 40th anniversary of the National Cancer Act of 1971 and the more than 12,000,000 survivors of cancer alive today because of the commitment of the United States to cancer research and advances in cancer prevention, detection, diagnosis, and treatment; to the Committee on Health, Education, Labor, and Pensions.

#### ADDITIONAL COSPONSORS

S. 113

At the request of Mrs. HUTCHISON, the name of the Senator from Vermont

(Mr. LEAHY) was added as a cosponsor of S. 113, a bill to amend title II of the Social Security Act to repeal the wind-fall elimination provision and protect the retirement of public servants.

S. 431

At the request of Mr. PRYOR, the names of the Senator from Delaware (Mr. CARPER), the Senator from Indiana (Mr. LUGAR), the Senator from Illinois (Mr. KIRK) and the Senator from Florida (Mr. RUBIO) were added as cosponsors of S. 431, a bill to require the Secretary of the Treasury to mint coins in commemoration of the 225th anniversary of the establishment of the Nation's first Federal law enforcement agency, the United States Marshals Service.

S. 484

At the request of Mr. BENNET, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 484, a bill to direct the Secretary of Education to pay to Fort Lewis College in the State of Colorado an amount equal to the tuition charges for Indian students who are not residents of the State of Colorado.

S. 645

At the request of Mr. SCHUMER, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 645, a bill to amend the National Child Protection Act of 1993 to establish a permanent background check system.

S. 752

At the request of Mrs. FEINSTEIN, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 752, a bill to establish a comprehensive interagency response to reduce lung cancer mortality in a timely manner.

S. 1181

At the request of Mr. GRASSLEY, the name of the Senator from Nebraska (Mr. NELSON) was added as a cosponsor of S. 1181, a bill to require the Secretary of the Treasury to mint coins in commemoration of the National Future Farmers of America Organization and the 85th anniversary of the founding of the National Future Farmers of America Organization.

S. 1265

At the request of Mr. BINGAMAN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1265, a bill to amend the Land and Water Conservation Fund Act of 1965 to provide consistent and reliable authority for, and for the funding of, the land and water conservation fund to maximize the effectiveness of the fund for future generations, and for other purposes.

S. 1523

At the request of Mr. GRAHAM, the name of the Senator from Oklahoma (Mr. COBURN) was added as a cosponsor of S. 1523, a bill to prohibit the National Labor Relations Board from or-

dering any employers to close, relocate, or transfer employment under any circumstance.

S. 1537

At the request of Mr. INOUE, the names of the Senator from Michigan (Mr. LEVIN) and the Senator from Hawaii (Mr. AKAKA) were added as cosponsors of S. 1537, a bill to authorize the Secretary of the Interior to accept from the Board of Directors of the National September 11 Memorial and Museum at the World Trade Center Foundation, Inc., the donation of title to The National September 11 Memorial and Museum at the World Trade Center, and for other purposes.

S. 1571

At the request of Mr. ISAKSON, the name of the Senator from Missouri (Mr. BLUNT) was added as a cosponsor of S. 1571, a bill to amend title I of the Elementary and Secondary Education Act of 1965, and for other purposes.

S. 1610

At the request of Mr. BARRASSO, the names of the Senator from Alabama (Mr. SESSIONS) and the Senator from Oklahoma (Mr. INHOFE) were added as cosponsors of S. 1610, a bill to provide additional time for the Administrator of the Environmental Protection Agency to promulgate achievable standards for cement manufacturing facilities, and for other purposes.

S. 1683

At the request of Mrs. HAGAN, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 1683, a bill to provide the Department of Homeland Security, U.S. Customs and Border Protection, and the Department of the Treasury with authority to more aggressively enforce trade laws relating to textile and apparel articles, and for other purposes.

S. 1749

At the request of Mr. WARNER, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 1749, a bill to establish and operate a National Center for Campus Public Safety.

S. 1756

At the request of Mrs. HAGAN, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 1756, a bill to extend HUBZone designations by 3 years, and for other purposes.

S. 1765

At the request of Mrs. HAGAN, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 1765, a bill to amend the Public Health Service Act to provide grants to strengthen the healthcare system's response to domestic violence, dating violence, sexual assault, and stalking.

S. 1821

At the request of Mr. COONS, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S.

1821, a bill to prevent the termination of the temporary office of bankruptcy judges in certain judicial districts.

S. 1876

At the request of Mr. BROWN of Ohio, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 1876, a bill to require the establishment of a Consumer Price Index for Elderly Consumers to compute cost-of-living increases for Social Security benefits under title II of the Social Security Act.

S. 1880

At the request of Mr. BARRASSO, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 1880, a bill to repeal the health care law's job-killing health insurance tax.

S. 1925

At the request of Mr. LEAHY, the names of the Senator from New Hampshire (Mrs. SHAHEEN), the Senator from Washington (Mrs. MURRAY), the Senator from Iowa (Mr. HARKIN) and the Senator from Michigan (Ms. STABENOW) were added as cosponsors of S. 1925, a bill to reauthorize the Violence Against Women Act of 1994.

S. 1930

At the request of Mr. TOOMEY, the names of the Senator from New Hampshire (Ms. AYOTTE), the Senator from North Carolina (Mr. BURR), the Senator from Georgia (Mr. CHAMBLISS), the Senator from South Carolina (Mr. DEMINT), the Senator from South Dakota (Mr. JOHNSON) and the Senator from South Dakota (Mr. THUNE) were added as cosponsors of S. 1930, a bill to prohibit earmarks.

S. 1935

At the request of Mrs. HAGAN, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 1935, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the 75th anniversary of the establishment of the March of Dimes Foundation.

S. 1956

At the request of Mr. THUNE, the name of the Senator from Mississippi (Mr. WICKER) was added as a cosponsor of S. 1956, a bill to prohibit operators of civil aircraft of the United States from participating in the European Union's emissions trading scheme, and for other purposes.

S. 1963

At the request of Mr. ISAKSON, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 1963, a bill to revoke the charters for the Federal National Mortgage Corporation and the Federal Home Loan Mortgage Corporation upon resolution of their obligations, to create a new Mortgage Finance Agency for the securitization of single family and multifamily mortgages, and for other purposes.

STATEMENTS ON INTRODUCED  
BILLS AND JOINT RESOLUTIONS

By Mr. KERRY (for himself and Ms. COLLINS):

S. 1984. A bill to establish a commission to develop a national strategy and recommendations for reducing fatalities resulting from child abuse and neglect; to the Committee on Health, Education, Labor, and Pensions.

Mr. KERRY. Mr. President, each year more than 6 million children in the United States are reported as victims of child abuse and neglect. Tragically, at least 1,700 of those children lose their lives—most under the age of four. Maltreatment deaths are preventable and it is our duty to fight for those who are too young to defend and speak for themselves.

Currently, the United States does not have a comprehensive strategy for addressing child abuse fatalities. We also lack a national standard for reporting these fatalities, leaving many of these deaths to be largely underreported. That is why today I am introducing the Protect Our Kids Act, which will establish the Commission to Eliminate Child Abuse and Neglect Fatalities.

This commission will be comprised of a variety of professionals with diverse experience and perspectives. They will develop a national strategy for reducing child abuse and neglect fatalities, and provide comprehensive recommendations for all levels of government. They will analyze the effectiveness of existing programs designed to prevent or identify maltreatment deaths and learn more about what works and what doesn't. Child abuse fatalities are not isolated to one part of our country or another.

Once the commission completes their work they will submit a report with their findings to Congress and the report will be publicly available. The loss of just one child to abuse is one child too many. I would like to thank my colleague, Senator COLLINS, for working with me on this bipartisan bill to protect our Nation's children. A number of organizations have been integral to the development of the legislation and have endorsed it, including the National Coalition to End Child Abuse Deaths whose members include the National Association of Social Workers, NASW, the National Center for the Review and Prevention of Child Deaths, NCRPCD, National Children's Alliance, NCA, Every Child Matters Education Fund, ECMEF, and the National District Attorney's Association, NDAA.

I look forward to our continued progress in developing a more effective approach to improving child welfare and ask all of my colleagues to support this important legislation.

Ms. COLLINS. Mr. President, I rise today to join Senator KERRY in introducing the Protect Our Kids Act, to create a commission with the goal of

eliminating child abuse fatalities. The effort to address child abuse transcends ideological and partisan lines. This is not a Democratic or Republican issue. This is an American issue. One that we can't wish away, but that we must face head on and work to eradicate. Earlier this year, Senator KERRY and I introduced a resolution recognizing April as Child Abuse Prevention Month. The Protect Our Kids Act further represents our commitment to put an end to child abuse in the United States.

Child abuse fatalities are preventable; yet, approximately 1,770 children are reported as dying from child abuse each year, and many experts believe the actual number may be significantly higher. This legislation would establish a commission to develop a comprehensive national strategy for reducing child abuse fatalities. The commission will include a variety of professionals with expertise in areas such as child welfare advocacy, child development, pediatrics, medical examining, social work, law enforcement and education.

Through new research, hearings and the use and coordination of existing information, the commission will provide a report with their recommendations. In order to develop a comprehensive strategy, the commission must consider several questions including what is the extent to which incidents of child abuse and neglect fatalities are increasing in number, how to develop a system to track and record incidents, and what models exist for preventing child maltreatment deaths.

Increased understanding of maltreatment deaths can lead to improvement in agency systems and practices to protect children and prevent child abuse and neglect. Therefore, it is imperative that we take action to capitalize on the commission's findings. This legislation requires the commission's report to be submitted to relevant Federal agencies and Congressional committees. All agencies with recommendations that fall under their jurisdiction must then submit their reaction and plans to address such recommendations to Congress within 6 months.

Approximately 6 million kids are reported to be abused or neglected each year. We know this can be prevented. This legislation is an important step that Congress and our Nation should take in order to better protect our kids.

## SUBMITTED RESOLUTIONS

SENATE RESOLUTION 347—RECOGNIZING THE 40TH ANNIVERSARY OF THE NATIONAL CANCER ACT OF 1971 AND THE MORE THAN 12,000,000 SURVIVORS OF CANCER ALIVE TODAY BECAUSE OF THE COMMITMENT OF THE UNITED STATES TO CANCER RESEARCH AND ADVANCES IN CANCER PREVENTION, DETECTION, DIAGNOSIS, AND TREATMENT

Mr. BROWN of Ohio (for himself, Mr. MORAN, Mr. KERRY, Mrs. FEINSTEIN, Mr. CARDIN, Ms. STABENOW, Mr. LAUTENBERG, Mr. LEVIN, Mr. TESTER, Mr. CASEY, Mr. INOUE, Mrs. MURRAY, Mr. HARKIN, Mrs. MCCASKILL, Mr. BEGICH, Mr. SANDERS, Ms. MIKULSKI, Mr. FRANKEN, Mr. BLUMENTHAL, Mr. DURBIN, Mr. NELSON of Nebraska, Mr. WHITEHOUSE, Mr. MERKLEY, Ms. LANDRIEU, Mr. COONS, Mr. MENENDEZ, Mrs. GILLIBRAND, Mr. JOHNSON of South Dakota, Mrs. BOXER, Mr. REED of Rhode Island, Mr. BENNET, Mr. WYDEN, Ms. KLOBUCHAR, Mr. KOHL, Mr. BROWN of Massachusetts, Mr. ROBERTS, Mr. BLUNT, Mr. COCHRAN, Mr. BOOZMAN, Mr. HELLER, Mrs. HUTCHISON, Mr. WICKER, Mr. BURR, and Mr. KIRK) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

## S. RES. 347

Whereas 40 years ago, with the passage of the National Cancer Act of 1971 (Public Law 92-218; 85 Stat. 778), the leaders of the United States came together to set the country on a concerted course to conquer cancer through research;

Whereas the passage of the National Cancer Act of 1971 led to the establishment of the National Cancer Program, which significantly expanded the authorities and responsibilities of the National Cancer Institute, a component of the National Institutes of Health;

Whereas the term "cancer" refers to more than 200 diseases that collectively represent the leading cause of death for people in the United States under the age of 85, and the second leading cause of death for people in the United States overall;

Whereas cancer touches everyone, either through a direct, personal diagnosis or indirectly through the diagnosis of a family member or friend;

Whereas, in 2011, cancer remains one of the most pressing public health concerns in the United States, with more than 1,500,000 people in the United States expected to be diagnosed with cancer each year;

Whereas the National Institutes of Health estimated the overall cost of cancer to be greater than \$260,000,000,000 in 2010 alone;

Whereas approximately 1 out of every 3 women and 1 out of every 2 men will develop cancer in their lifetimes, and more than 570,000 people in the United States will die from cancer this year, which is more than 1 person every minute and nearly 1 out of every 4 deaths;

Whereas the commitment of the United States to cancer research and biomedical science has enabled more than 12,000,000 people in the United States to survive cancer, 15

percent of whom were diagnosed 20 or more years ago, and has resulted in extraordinary progress being made against cancer, including—

(1) an increase in the average 5-year survival rate for all cancers combined to 68 percent for adults and 80 percent for children and adolescents, up from 50 percent and 52 percent, respectively, in 1971;

(2) average 5-year survival rates for breast and prostate cancers exceeding 90 percent;

(3) a decline in mortality due to colorectal cancer and prostate cancer; and

(4) from 1990 to 2007, a decline in the death rate from all cancers combined of 22 percent for men and 14 percent for women, resulting in nearly 900,000 fewer deaths during that period;

Whereas the driving force behind this progress has been support for the National Cancer Institute and its parent agency, the National Institutes of Health, which funds the work of more than 325,000 researchers and research personnel at more than 3,000 universities, medical schools, medical centers, teaching hospitals, small businesses, and research institutions in every State;

Whereas the commitment of the United States to cancer research has yielded substantial returns in both research advances and lives saved, and it is estimated that every 1 percent decline in cancer mortality saves the economy of the United States \$500,000,000,000 annually;

Whereas advancements in understanding the causes and mechanisms of cancer and improvements in the detection, diagnosis, treatment, and prevention of cancer have led to cures for many types of cancers and have converted other types of cancers into manageable chronic conditions;

Whereas continued support for clinical trials to evaluate the efficacy and therapeutic benefit of promising treatments for cancer is essential for translating new knowledge and discoveries into tangible benefits for patients, especially because all standard cancer therapies began as clinical trials;

Whereas, despite the significant progress that has been made in treating many cancers, there remain those cancers for which the mortality rate is extraordinarily high, including pancreatic, liver, lung, multiple myeloma, ovarian, esophageal, stomach, and brain cancers, which have a 5-year survival rate of less than 50 percent;

Whereas research advances concerning uncommon cancers, which pose unique treatment challenges, provide an opportunity for understanding the general properties of human cancers and curing uncommon cancers as well as more common cancers;

Whereas crucial developments have been achieved in cancer research that could provide breakthroughs necessary to address the increasing incidence of, and reduce deaths caused by, many forms of cancer;

Whereas research into the effect of certain forms of cancer on different population groups offers a significant opportunity to lessen the burden of the disease, because many population groups across the country suffer disproportionately from certain forms of cancer; and

Whereas a sustained commitment to the research of the National Institutes of Health and the National Cancer Institute is necessary to improve the entire spectrum of patient care, from cancer prevention, early detection, and diagnosis, to treatment and long-term survivorship, and to prevent research advances from being stalled or delayed: Now, therefore, be it

*Resolved*, That the Senate—

(1) recognizes the 40th anniversary of the National Cancer Act of 1971 (Public Law 92-218; 85 Stat. 778); and

(2) celebrates and reaffirms the commitment embodied in the National Cancer Act of 1971, specifically, that support for cancer research continues to be a national priority to address the scope of this pressing public health concern.

Mr. BROWN of Ohio. Mr. President, I rise to submit a bipartisan resolution recognizing the 40th anniversary of the National Cancer Act of 1971—supported by 33 Democrats and 11 Republicans.

A special thank-you to Massachusetts Senator JOHN KERRY and Kansas Senator JERRY MORAN for their leadership on this issue.

It is unfortunate but likely true that we each know someone who has been affected by cancer. We know a survivor. We remember a victim. We know cancer affects not just the patient but the parents, the family, the friends, and the loved ones.

This year more than 1.5 million Americans are expected to be diagnosed with cancer. One out of every three women, one out of every two men will develop some form of cancer in their lifetimes.

More than half a million Americans die from cancer year after year after year, in any 1 year. More than one person every minute and nearly one out of every four deaths is from cancer.

We also know that behind the statistics there are thousands of people representing thousands of friends, families, and loved ones, with ribbons, donations, and races for the cure.

These are the stories that motivate us to fight harder and to fight with one voice. It is also a story of a nation's commitment to cancer research. There is interest in dealing with environmental causes. There is great interest in dealing with cures and prevention and all that we should as a nation and usually do know what to do.

Forty years ago, Senator Ted Kennedy from Massachusetts, as chairman of the Health Subcommittee, forged a bipartisan consensus and public demand to bolster investments in cancer research.

He held hearings. He worked with leading public health advocates and economists who understood the need for bipartisanship on such an urgent national need. His work, along with Jacob Javits, a Republican Senator from New York, led to the framework of the National Cancer Act.

When it was clear President Nixon would only sign the act into law if Kennedy's name were not on it, Kennedy backed off.

The goal was to put cancer research into a new era of discovery, and that is what the National Cancer Act did. It established a national cancer program, which expanded the authority and the responsibilities of the National Cancer Institute, and its parent agency, the

National Institutes of Health. The National Cancer Institute is, by far, the biggest of the two dozen or so National Institutes of Health.

Today, 12 million cancer survivors are alive because of the advances in the way we prevent, detect, diagnose, and treat cancer. Because of the investments by the NCI, the National Cancer Institute, and the National Institutes of Health, critical cancer research is being conducted in hospitals and foundations and communities and in all kinds of centers everywhere and in our universities.

Mr. President, I ask unanimous consent that a list of more than 100 cancer research institutions, physicians, and researchers who have endorsed this resolution be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL CANCER ACT 40TH ANNIVERSARY  
RESOLUTION ENDORSEMENTS

American Association for Cancer Research; Dana-Farber Cancer Institute; LiveStrong; Duke Cancer Institute; Massachusetts General Hospital Cancer Center; American Cancer Society Cancer Action Network; Gary D. Hammer, M.D., Ph.D., Millie Schembechler Professor of Adrenal Cancer, University of Michigan, Director—Endocrine Oncology Program, Director—Center for Organogenesis; Pancreatic Cancer Action Network; MD Anderson Cancer Center; Memorial Sloan-Kettering Cancer Center; Susan G. Komen for the Cure Advocacy Alliance; University of Kansas Cancer Center; American College of Gastroenterology; Michael A. Choti M.D., M.B.A., Jacob C. Handelsman Professor of Surgery, Chief, Handelsman Division of Surgical Oncology, Johns Hopkins University; The Ohio State University Comprehensive Cancer Center; Mark O. Thornton, M.D., M.P.H., Ph.D., President, Sarcoma Foundation of America; Tito Fojo, M.D.; U.S. Department of Health and Human Services National Cancer Institute Medical Oncology Clinical Research Unit Center for Clinical Research; Cleveland Clinic Taussig Cancer Institute; Mayo Clinic Cancer Center; Kavita Patel, M.D., M.S., Former Director of Policy for the White House of Public Engagement and Intergovernmental Affairs, Former Deputy Staff Director for the Senate Health, Education, Labor and Pensions Committee under the leadership of the late United States Senator Edward M. Kennedy; Richard J. Gilbertson, M.D., Ph.D., Director, Comprehensive Cancer Center, St. Jude Children's Research Hospital; Norris Cotton Cancer Center at Dartmouth; Siteman Cancer Center at Washington University School of Medicine and Barnes-Jewish Hospital; Penn State Hershey Cancer Institute.

Martin A. Makary, M.D., M.P.H., The Mark Ravitch Chair, General Surgery, Associate Professor of Health Policy, Johns Hopkins University; Stand Up to Cancer (SU2C); Vermont Cancer Center; The University of Pittsburgh Cancer Institute; Andrew Schorr, Founder, Host, and Author, PatientPower.Info; University of Chicago Comprehensive Cancer Center; Boston University/Boston Medical Center Cancer Center; Columbia University Medical Center; Anna Raven, Founder and President, Over Come ACC; UCSF Helen Diller Family Comprehensive Cancer Center; Case Comprehensive Cancer Center; University of North

Carolina's Lineberger Comprehensive Cancer Center; Betsey de Parry, Patient, Advocate, & Author; Beverly S. Mitchell, M.D., George E. Becker Professor of Medicine, Director, Stanford Cancer Center; UC Davis Designated Cancer Center; Bruce Shriver, Founder and President, Liddy Shriver Sarcoma Foundation; James P. Wilmot Cancer Center at the University of Rochester Medical Center; Winthrop P. Lurie Cancer Center of Northwestern University; Association of American Cancer Institutes; Gregory J. Gagnon, M.D., Medical Director, Cyberknife Frederick Memorial Hospital, Regional Cancer Therapy Center, Radiation Oncology; Chao Family Comprehensive Cancer Center at UC Irvine.

Claire Verschraegen, M.D., Director, Hematology Oncology Unit, Director, FAHC Cancer Service Line, Director, Vermont Cancer Center; Society of Gynecologic Oncology; University of Colorado Cancer Center; National Brain Tumor Society; National Patient Advocate Foundation; Women Against Prostate Cancer; Intercultural Cancer Council Caucus; Dario Altieri, M.D., Director, Cancer Center, The Wistar Institute Cancer Center; American College of Surgeons Commission on Cancer; CureSearch for Children's Cancer; Fight Colorectal Cancer; Huntsman Cancer Institute at the University of Utah; Oncology Nursing Society; Bill Bell, President, Spencer Bell Legacy Project; National Coalition for Cancer Survivorship; Prevent Cancer Foundation; National Comprehensive Cancer Network; The Leukemia and Lymphoma Society; Ovarian Cancer National Alliance; One Voice Against Cancer Coalition; Deadly Cancer Coalition; Asian and Pacific Islander American Health Forum; Howard Ozer, M.D. PhD., Director, University of Illinois Cancer Center; Cancer Clinics of Excellence; The Adenoid Cystic Carcinoma Research Foundation; The International Myeloma Foundation; Manish Agrawal, M.D., Associates in Oncology/Hematology; Chordoma Foundation; Research!America; Frederick Memorial Hospital Regional Cancer Therapy Center; Prevent Cancer Foundation; National Coalition for Cancer Research; Melanoma Research Alliance; National Association of Chronic Disease Directors; The Lymphoma Research Foundation; American Society of Pediatric Hematology and Oncology; International Cancer Advocacy Network.

Fred Hutchinson Cancer Research Center; Oregon Health and Science University's Knight Cancer Institute; Robert Mannel, M.D., Director, Peggy and Charles Stephenson Cancer Center, University of Oklahoma; The University of Virginia Medical Center; Herbert Irving Comprehensive Cancer Center; City of Hope National Medical Center; Oncology Nursing Society; American Institute for Cancer Research; University of Puerto Rico Comprehensive Cancer Center; Roswell Park Cancer Institute; Moffitt Cancer Center; American Society of Clinical Oncology; Lymphoma Foundation of America; University of Wisconsin Carbone Cancer Center; New York University Cancer Institute; Barbara Ann Karmanos Cancer Institute; Sanford-Burnham Medical Research Institute; Holden Comprehensive Cancer Center; Prostate Cancer Foundation.

Mr. BROWN of Ohio. It includes scientists and physicians working to-

gether on cancer research everywhere from the James in Columbus, to Case and UH and the clinic in Cleveland.

Ohio's universities and medical schools, teaching hospitals, Cincinnati Children's Research, small businesses, and other research institutions help bring cutting-edge cancer research to urban cities and small towns alike.

For the last 40 years, our Nation's commitment to cancer research has seen a tremendous return on investment in the millions of lives and the billions of dollars saved.

We have increased survival rates. We have advanced understanding of the diseases and the tools needed to cure them. We have better understood the connection between environmental factors and public health and diseases. We have realized the importance of prevention. We also know challenges remain—from finding more treatments to learning more and carrying out prevention better than we have, from dealing with environmental factors that we know cause large numbers of cancers and reducing costs for patients, to reducing disease burdens for different population groups.

Today's bipartisan cancer resolution on the 40th anniversary of the National Cancer Act reaffirms a commitment to address this national priority, to make sure cancer is a thing of the past.

Senator Kennedy said in those days, 40 years ago, when his legislation began to move forward:

There are few better investments in our future than the investment we make in health research.

Mr. MORAN. Mr. President, earlier today, I submitted a resolution with my colleagues from Ohio and Massachusetts, Senators BROWN and KERRY, to recognize the 40th anniversary of the signing of the National Cancer Act of 1971 and to reaffirm our Nation's strong, bipartisan commitment to cancer research and the more than 12 million cancer survivors alive today because of that research.

This commitment to cancer research is supported by 40 Senators from both sides of the aisle who cosponsored this resolution. Additionally, this resolution is endorsed by more than 105 cancer institutes and hospitals, medical schools, and patient groups, including the University of Kansas Cancer Center.

Forty years ago this month, President Nixon signed the National Cancer Act into law. The creation of this law marked a turning point in our Nation's efforts to prevent and cure cancer and set in motion a coordinated and focused approach to cancer research.

The return on our commitment to cancer research is measured in lives saved, a better quality of life for cancer survivors, and an enormous economic benefit to our country and world.

Since the National Cancer Act became law in 1971, the 5-year survival

rate for all cancers combined has risen consistently—this rate is now at 68 percent for adults and 80 percent for children and adolescents, up from 50 percent and 52 percent, respectively, in 1971.

It is estimated that every one percent decline in cancer mortality saves the U.S. economy \$500 billion annually.

Our country has made significant progress in combating this devastating disease, but more work remains. This year, more than 1.5 million Americans are expected to be diagnosed with cancer. Of those individuals, many will face a very serious, life-changing diagnosis.

Today, I am proud to help submit a resolution that reaffirms our sustained, strong commitment to cancer research that will help improve the entire spectrum of care for patients, from prevention to early detection and diagnosis, to treatment and long-term survivorship, and most importantly—cures.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 1459. Mr. UDALL, of Colorado proposed an amendment to the joint resolution S.J. Res. 24, proposing a balanced budget amendment to the Constitution of the United States.

SA 1460. Mr. HATCH proposed an amendment to the joint resolution S.J. Res. 10, proposing a balanced budget amendment to the Constitution of the United States.

SA 1461. Mr. REID (for Mr. DURBIN) proposed an amendment to the bill H.R. 2867, to reauthorize the International Religious Freedom Act of 1998, and for other purposes.

#### TEXT OF AMENDMENTS

**SA 1459.** Mr. UDALL of Colorado proposed an amendment to the joint resolution S.J. Res. 24, proposing a balanced budget amendment to the Constitution of the United States; as follows:

To amend the title so as to read:  
"Joint resolution proposing a balanced budget amendment to the Constitution of the United States"

**SA 1460.** Mr. HATCH proposed an amendment to the joint resolution S.J. Res. 10, proposing a balanced budget amendment to the Constitution of the United States; as follows:

To amend the title so as to read:  
"Joint resolution proposing a balanced budget amendment to the Constitution of the United States"

**SA 1461.** Mr. REID (for Mr. DURBIN) proposed an amendment to the bill H.R. 2867, to reauthorize the International Religious Freedom Act of 1998, and for other purposes; as follows:

Beginning on page 2, strike line 6 and all that follows through "(3)" on page 4, line 18, and insert the following:

(a) TERMS.—Section 201(c) of the International Religious Freedom Act of 1998 (22 U.S.C. 6431(c)) is amended—

(1) by striking paragraph (1) and inserting the following:

“(1) IN GENERAL.—The term of office of each member of the Commission shall be 2 years. An individual, including any member appointed to the Commission prior to the date of the enactment of the United States Commission on International Religious Freedom Reform and Reauthorization Act of 2011, shall not serve more than 2 terms as a member of the Commission under any circumstance. For any member serving on the Commission on such date who has completed at least 2 full terms on the Commission, such member's term shall expire 90 days after such date. A member of the Commission may not serve after the expiration of that member's term.”; and

(2)

On page 5, line 3, strike “(c)” and insert “(b)”.

On page 5, strike lines 9 through 19 and insert the following:

(c) APPLICATION OF FEDERAL TRAVEL REGULATION AND DEPARTMENT OF STATE STANDARDIZED REGULATIONS TO THE COMMISSION.—Section 201(i) of the International Religious Freedom Act of 1998 (22 U.S.C. 6431(i)) is amended by adding at the end the following: “Members of the Commission are subject to the requirements set forth in chapters 300 through 304 of title 41, Code of Federal Regulations (commonly known as the ‘Federal Travel Regulation’) and the Department of State Standardized Regulations governing authorized travel at government expense, including regulations concerning the mode of travel, lodging and per diem expenditures, reimbursement payments, and expense reporting and documentation requirements.”.

On page 5, strike line 21 and insert the following:

(a) IN GENERAL.—Section 204 of the International Religious Freedom

On page 6, between lines 16 and 17, insert the following:

(b) PENDING CLAIMS.—Any administrative or judicial claim or action pending on the date of the enactment of this Act may be maintained under section 204(g) of the International Religious Freedom Act of 1998, as added by subsection (a).

On page 6, line 21, strike “and 2013” and insert “through 2014”.

On page 7, line 9, strike “2013” and insert “2014”.

#### AUTHORITY FOR COMMITTEES TO MEET

##### COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be authorized to meet during the session of the Senate on December 13, 2011, at 10 a.m. in room SH-216 of the Hart Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on December 13, 2011, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet, during the session of the Senate, to conduct a hearing entitled “Breaking the Silence on Child Abuse: Protection, Prevention, Intervention, and Deterrence” on December 13, 2011, at 10:15 a.m., in room 106 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### COMMITTEE ON THE JUDICIARY

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate, on December 13, 2011, at 10 a.m., in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled “Nominations.”

The PRESIDING OFFICER. Without objection, it is so ordered.

##### SELECT COMMITTEE ON INTELLIGENCE

Mr. SANDERS. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on December 13, 2011, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

##### SUBCOMMITTEE ON HOUSING, TRANSPORTATION, AND COMMUNITY DEVELOPMENT

Mr. SANDERS. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs' Subcommittee on Housing, Transportation, and Community Development be authorized to meet during the session of the Senate on December 13, 2011, at 2:30 p.m., to conduct a hearing entitled “Helping Homeowners Harmed by Foreclosures: Ensuring Accountability and Transparency in Foreclosure Reviews.”

The PRESIDING OFFICER. Without objection, it is so ordered.

##### SUBCOMMITTEE ON WATER AND WILDLIFE

Mr. SANDERS. Mr. President, I ask unanimous consent that the Subcommittee on Water and Wildlife of the Committee on Environment and Public Works be authorized to meet during the session of the Senate on December 13, 2011, at 10 a.m. in room 406 of the Dirksen Senate Office Building to conduct a hearing entitled, “Our Nation's Water Infrastructure: Challenges and Opportunities.”

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PIPELINE SAFETY, REGULATORY CERTAINTY, AND JOB CREATION ACT OF 2011

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to H.R. 2845.

The PRESIDING OFFICER. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2845) to amend title 49, United States Code, to provide for enhanced safety and environmental protection in pipeline transportation, to provide for enhanced reliability in the transportation of the Nation's energy products by pipeline, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. REID. Mr. President, I ask unanimous consent the bill be read three times, passed, the motion to reconsider be laid upon the table, with no intervening action or debate and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 2845) was ordered to a third reading, was read the third time, and passed.

#### REAUTHORIZING THE INTERNATIONAL RELIGIOUS FREEDOM ACT OF 1998

Mr. REID. I ask unanimous consent the Foreign Relations Committee be discharged from further consideration of H.R. 2867.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2867) to reauthorize the International Religious Freedom Act of 1998, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. REID. Mr. President, I ask unanimous consent that a Durbin amendment which is at the desk be agreed to and the bill, as amended, be read a third time.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 1461) was agreed to, as follows:

(Purpose: To limit appointments to the United States Commission on International Religious Freedom to 2 2-year terms, to authorize employees of the Commission who have filed a discrimination complaint under section 717 of the Civil Rights Act of 1964 to complete such proceedings, and to clarify that travel by members of the United States Commission on International Religious Freedom is subject to the Federal Travel Regulation and the Department of State Standardized Regulations)

Beginning on page 2, strike line 6 and all that follows through “(3)” on page 4, line 18, and insert the following:

(a) TERMS.—Section 201(c) of the International Religious Freedom Act of 1998 (22 U.S.C. 6431(c)) is amended—

(1) by striking paragraph (1) and inserting the following:

“(1) IN GENERAL.—The term of office of each member of the Commission shall be 2 years. An individual, including any member appointed to the Commission prior to the date of the enactment of the United States Commission on International Religious Freedom Reform and Reauthorization Act of 2011,

shall not serve more than 2 terms as a member of the Commission under any circumstance. For any member serving on the Commission on such date who has completed at least 2 full terms on the Commission, such member's term shall expire 90 days after such date. A member of the Commission may not serve after the expiration of that member's term.''; and

(2)

On page 5, line 3, strike "(c)" and insert "(b)".

On page 5, strike lines 9 through 19 and insert the following:

(C) APPLICATION OF FEDERAL TRAVEL REGULATION AND DEPARTMENT OF STATE STANDARDIZED REGULATIONS TO THE COMMISSION.—Section 201(i) of the International Religious Freedom Act of 1998 (22 U.S.C. 6431(i)) is amended by adding at the end the following: "Members of the Commission are subject to the requirements set forth in chapters 300 through 304 of title 41, Code of Federal Regulations (commonly known as the 'Federal Travel Regulation') and the Department of State Standardized Regulations governing authorized travel at government expense, including regulations concerning the mode of travel, lodging and per diem expenditures, reimbursement payments, and expense reporting and documentation requirements.".

On page 5, strike line 21 and insert the following:

(a) IN GENERAL.—Section 204 of the International Religious Freedom

On page 6, between lines 16 and 17, insert the following:

(b) PENDING CLAIMS.—Any administrative or judicial claim or action pending on the date of the enactment of this Act may be maintained under section 204(g) of the International Religious Freedom Act of 1998, as added by subsection (a).

On page 6, line 21, strike "and 2013" and insert "through 2014".

On page 7, line 9, strike "2013" and insert "2014".

The PRESIDING OFFICER. The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

The bill (H.R. 2867), as amended, was passed, as follows:

H.R. 2867

*Resolved*, That the bill from the House of Representatives (H.R. 2867) entitled "An Act to reauthorize the International Religious Freedom Act of 1998, and for other purposes.", do pass with the following

Amendments:

(1) Beginning on page 2, strike line 6 and all that follows through "(3)" on page 4, line 18, and insert the following:

(a) TERMS.—Section 201(c) of the International Religious Freedom Act of 1998 (22 U.S.C. 6431(c)) is amended—

(1) by striking paragraph (1) and inserting the following:

"(1) IN GENERAL.—The term of office of each member of the Commission shall be 2 years. An individual, including any member appointed to the Commission prior to the date of the enactment of the United States Commission on International Religious Freedom Reform and Reauthorization Act of 2011, shall not serve more than 2 terms as a member of the Commission under any circumstance. For any member serving on the Commission on such date who has completed at least 2 full terms on the Commission, such member's term shall expire 90 days after such date. A member of the Commission may not serve after the expiration of that member's term."; and

(2)

(2) On page 5, line 3, strike "(c)" and insert "(b)".

(3) On page 5, strike lines 9 through 19 and insert the following:

(c) APPLICATION OF FEDERAL TRAVEL REGULATION AND DEPARTMENT OF STATE STANDARDIZED REGULATIONS TO THE COMMISSION.—Section 201(i) of the International Religious Freedom Act of 1998 (22 U.S.C. 6431(i)) is amended by adding at the end the following: "Members of the Commission are subject to the requirements set forth in chapters 300 through 304 of title 41, Code of Federal Regulations (commonly known as the 'Federal Travel Regulation') and the Department of State Standardized Regulations governing authorized travel at government expense, including regulations concerning the mode of travel, lodging and per diem expenditures, reimbursement payments, and expense reporting and documentation requirements.".

(4) On page 5, strike line 21 and insert the following:

(a) IN GENERAL.—Section 204 of the International Religious Freedom

(5) On page 6, between lines 16 and 17, insert the following:

(b) PENDING CLAIMS.—Any administrative or judicial claim or action pending on the date of the enactment of this Act may be maintained under section 204(g) of the International Religious Freedom Act of 1998, as added by subsection (a).

(6) On page 6, line 21, strike "and 2013" and insert "through 2014".

(7) On page 7, line 9, strike "2013" and insert "2014".

Mr. REID. I ask unanimous consent the motion to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The majority leader is recognized.

## ORDER OF PROCEDURE—H.R. 3630

Mr. REID. I ask unanimous consent that notwithstanding the lack of receipt from the House with respect to H.R. 3630, it be in order for the bill to be considered read for the first time and placed on the legislative calendar under the heading "Bills and Joint Resolutions Read the First Time."

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

## ORDERS FOR WEDNESDAY, DECEMBER 14, 2011

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m., on Wednesday, December 14, 2011; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, and the time for the two leaders be reserved for their use later in the day; that following any leader remarks, the Senate be in morning business for 1 hour, with Senators permitted to speak for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the majority controlling the first half and the Republicans controlling the final half; and that following morning business, the Senate resume consideration of S.J. Res. 10 and S.J. Res. 24, under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PROGRAM

Mr. REID. There will be two rollcall votes at approximately 10:45 a.m. tomorrow on the balanced budget amendment resolution. We also hope to consider the DOD authorization conference report as well as the House Republican payroll tax bill tomorrow.

## ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. REID. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand adjourned under the previous order.

There being no objection, the Senate, at 7:34 p.m., adjourned until Wednesday, December 14, 2011, at 9:30 a.m.

## HOUSE OF REPRESENTATIVES—Tuesday, December 13, 2011

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. McCLINTOCK).

### DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
December 13, 2011.

I hereby appoint the Honorable TOM McCLINTOCK to act as Speaker pro tempore on this day.

JOHN A. BOEHNER,  
*Speaker of the House of Representatives.*

### MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 5, 2011, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 1 hour and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes each, but in no event shall debate continue beyond 11:50 a.m.

### WATER FOR THE WORLD ACT

The SPEAKER pro tempore. The Chair recognizes the gentleman from Oregon (Mr. BLUMENAUER) for 5 minutes.

Mr. BLUMENAUER. As America prepares for the holiday season and the new year, it is important to pause to reflect on our good fortune and, on this season of goodwill, what we can do for others. I hope that Congress will give the gift of life, hope, and economic prosperity to people around the world, a gift most Americans take for granted: safe water.

Almost a billion people around the globe lack access to safe drinking water, and over 2½ billion don't have access to adequate sanitation. This is why the number one health challenge is water-related disease.

Half the people who are sick today anywhere on this planet are sick unnecessarily from waterborne diseases that are particularly brutal on their impact on children. Ninety percent of the deaths caused are children under 5. The 1.8 million lives that are lost are more than AIDS, TB, and malaria combined.

It's also a major cause of the struggle for economic security. For example, in

India, the estimate is over \$50 billion a year, more than 6 percent of its economy, is lost due to inadequate water and sanitation. How does this happen? Children cannot attend school if they are sick from unsafe drinking water. People with illnesses overwhelm the few hospitals and clinics and they can't go to work. Hours spent looking for and carrying clean water, usually by girls and women, means that they're not adding either to education or the economic well-being of their families.

Historically, water's been a source of conflict, and with over 260 river basins that cross country borders, managing this very finite resource without conflict will be one of the world's greatest security problems.

In this season of good tidings, there is good news about water. The solutions are cheap and easy. We're not required to search for a cure. Helping people understand the need to wash their hands or providing them with simple, commonsense technology is key.

Churches, parishes, and synagogues have already taken up this challenge, and hundreds of thousands of people have benefited. It's time for Congress to act.

In 2005, the bipartisan Paul Simon Water for the Poor Act helped us get our act together. Now we have new legislation, Water for the World, which will be introduced tomorrow with my colleague and friend, Congressman TED POE from Texas, the chief Republican cosponsor. It builds on current United States efforts—not by increasing funds. Make no mistake, I hope some day we do increase the investment around the globe. But right now, this legislation will increase aid effectiveness, transparency, and accountability. Given the strains on Federal resources and the depth of the need, it is essential that we target our efforts as efficiently as possible.

The Water for the World Act gives the State Department and USAID tools to leverage investments. It helps elevate positions within the agency to coordinate diplomatic policy and implement country-specific water strategies.

The House Foreign Operations Appropriations Subcommittee, under the leadership of KAY GRANGER and NITA LOWEY, has done the best it can in this difficult budget climate with resources for poor people with water around the world. Now Congress needs to step up to make sure these precious resources are used as effectively as possible.

I sincerely hope my colleagues will join Congressman POE and me in co-

sponsoring the Water for the World Act and then work to enact it as soon as possible.

### LUKE'S WINGS IS HELPING WOUNDED WARRIORS BE HOME FOR CHRISTMAS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX. Those who serve in our military deserve our constant thanks. Those who become injured while serving deserve all that we can do for them.

Mr. Speaker, I recently learned about a wonderful American organization that is serving wounded servicemembers and their families around the country. The organization is called Luke's Wings, and it has a simple mission: to bring wounded warriors and their families together.

For many families of those wounded in combat, traveling to where their wounded spouse or parent or sibling is can be difficult and cost prohibitive. Luke's Wings was established to help families of these servicemembers travel to be with their loved one during his or her hospitalization or rehabilitation.

Luke's Wings aids families of wounded servicemembers by purchasing airline tickets so that they can help support and care for their family member while they are receiving treatment.

Not only does the assistance that Luke's Wings provides to families of wounded warriors bring these families together, it also helps boost the spirits of and provide additional motivation to recovering servicemembers while their families are at their sides.

Especially during this holiday season as we approach Christmas, the work that Luke's Wings is doing is priceless. Not only does it help families visit recovering troops, but they're also helping these same wounded warriors get home for Christmas. For just the price of a plane ticket, Luke's Wings is able to make this holiday season one that many combat-wounded servicemembers will not soon forget.

It's always inspiring to see the different ways that Americans from so many walks of life find to support our men and women in uniform. Luke's Wings is a volunteer organization that is taking its place in the ranks of compassionate and patriotic groups that are dedicated to giving our troops the best.

During this season of joy and thankfulness when many brave men and

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

women are deployed and apart from their families, Luke's Wings reminds us that we must not forget those who serve, and particularly those who have been injured in that service. Luke's Wings reminds us that even something such as bringing family and service-members together will make a tremendous impact for them.

May God continue to bless those who serve and especially those who have suffered physically and mentally, and may God bless the efforts of Luke's Wings, particularly in this season.

#### ANTI-MUSLIM BIGOTRY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Connecticut (Mr. MURPHY) for 5 minutes.

Mr. MURPHY of Connecticut. Mr. Speaker, last week the giant home improvement chain Lowe's decided to pull their ads from a new show on The Learning Channel called "All-American Muslim."

Now, this show depicts five Muslim American families of Lebanese descent from Dearborn, Michigan, and highlights how their faith affects their lives and their families.

The show is aptly titled because it shows Muslim families to be exactly what they are in this situation, and millions like them around the Nation. They're Americans. They face problems just like the rest of us. The only difference is that they worship at a different church.

□ 1010

Lowe's pulled these ads because one right-wing anti-Muslim group in Florida said that the show hides the "true agenda" of Islam, which, according to this group, is to destroy America.

Now, this kind of anti-Muslim bigotry isn't new. It seems like every month we're being warned by a new radical group about the creep of sharia law or that a peaceful mosque is being run out of a community or that a radical pastor is burning the Koran on television. It's one thing when a fringe group or a radical, unhinged pastor is doing it; but it's quite another when a Fortune 100 company is endorsing this nonsense.

Lowe's defends itself by saying it's pulling these ads because some of their customers had "strong political and social views on this topic." Well, congratulations to Lowe's for acknowledging that there are some really bigoted people in the world, but that doesn't mean that Lowe's or any other company should acquiesce to this kind of behavior. For instance, there are, unfortunately, a lot of people out there who still hold racist views about African Americans, but I don't think that that means Lowe's is going to be pulling its ads from television shows featuring African Americans.

Lowe's also says it's sorry for walking into a "hotly contested debate." Well, what debate are they talking about? Yes, we face threats from a fringe sect of radical, anti-American Islamists; but there is no debate that the millions of patriotic, peace-loving Muslims who live in this country have no connection to that movement and do nothing except strengthen the fabric of our Nation.

Now, maybe you think this is just a minor sideshow and that Congress shouldn't be talking about it on this floor. I submit to you that you're dead wrong. This is a major American company that is rubber-stamping basic, foundational bigotry against a major American religious group. This Nation was founded on the principle of religious freedom, and this body should never remain silent when a group of people is marginalized just because it worships a different God.

Though we've certainly got more important things to worry about, like fixing the economy, it has traditionally been during bad economic times that this kind of social marginalization has been at its worst because people don't speak up against it. Further, this kind of bias endangers our national security. Denis McDonough, the President's deputy National Security Adviser, recently said that al Qaeda's core recruiting argument is that the West is at war with Islam. With this action, extremists can say, Look, we're already being run out of their neighborhoods. Now we're being run off of their television sets.

This kind of anti-Muslim sentiment doesn't just endanger our Nation's soul; it endangers our national security. So here is my message for the folks at Lowe's who made the decision and, frankly, for anybody out there of sound mind who has considered getting behind this growing anti-Muslim bias:

You're better than this. You know that the history of this country and of this world never, ever looks kindly on this kind of marginalization that you've endorsed with your actions. Whether it is against Irish Americans or Jewish Americans or African Americans, the history books make sure that this kind of exclusionary politics becomes a stain on the reputation of anyone who takes part in it.

Today, I'm leading a group of Member of Congress, calling on Lowe's to reconsider its decision. Listen, we do have a lot to fear when it comes to Islamic groups that seek to do harm to America; but we have nothing to fear from a TV program called "All-American Muslim," and we have nothing to fear from the tens of millions of peace-loving, patriotic Muslim Americans who are just like those who are portrayed in that show.

This is America. While we have never been perfect at living up to our founding ideals, we've gotten pretty good at

calling out bigotry when we see it and at stamping it out before its mark becomes indelible. This can be one of those moments.

#### ARIZONA VS. THE FEDS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. POE) for 5 minutes.

Mr. POE of Texas. Mr. Speaker, the Federal Government is at war with the States over illegal entry. There is a real problem in this country: millions of people are living here illegally, and more illegally cross into America every day.

Schools, hospitals, and the justice system are burdened with the cost of supporting illegals, who do not contribute to our system. They reap the benefits and services off the backs of American citizens and legal immigrants. Twenty-seven percent of the people in U.S. prisons are illegals. In the border counties in Texas, according to the border sheriffs, over 30 percent of the people in those jails are foreign nationals.

All of this costs money. The safety of our citizens is also at risk, but the Federal Government chooses not to adequately enforce the law. The Federal Government is focused more on finding reasons why the law of the land should not be enforced. Case in point: the 20-point memo released this summer by ICE listed the criteria for illegal migrants who have been detained but should not be deported. In other words, let them go.

As a result of Washington's inaction, several States have been burdened with the costs of illegal entry, from health care to incarceration costs. Arizona, South Carolina, Utah, Georgia, and Indiana have been forced to do the job the Federal Government just won't do—protect the citizens from the costs of unlawful entry into America.

Arizona implemented a law that requires authorities to check the immigration status of anyone who is already legally detained for some offense and when there is a "reasonable suspicion" the person is in the country illegally. But the administration says not so fast, that immigration enforcement is their job.

They just refuse to do it.

It also seems the government is more interested in smuggling guns to Mexico under the botched Operation Fast and Furious than it is in preventing the smuggling of people and drugs into the United States. Now the Department of Justice has gone into the business of using taxpayer dollars to actually sue States for doing the job the Federal Government won't do. Yesterday, the Supreme Court agreed to hear the case of *Arizona v. The United States*. Governor Brewer of Arizona has said, "Arizona and its people suffer from a serious problem without any realistic tools for addressing it."

The Federal Government leaves States with no other choice than to do the job the Federal Government refuses to do. If Arizona is not allowed to enforce immigration laws and if the Federal Government does not enforce immigration laws, then Arizona and other States will continue on a dangerous path to becoming lawless territories with rampant illegal entry. Ignoring laws and open-door policies will only entice more people to come to this country illegally instead of using the front door.

Now, I fully support legal entry into America, and my staff spends a lot of time helping people come to the United States legally. The immigration model we have is a mess, and it needs to be streamlined and more efficient; but people should come here the right way or not come at all. After all, it is the law.

But the defiant Attorney General has made it clear that he will continue his crusade against the States that try to crack down on illegal entry. Why? Because the States want to uphold the law. Meanwhile, sanctuary cities get a pass from the Federal Government for ignoring the law.

We hear the rhetoric that illegals are here to do the jobs Americans won't do. Now State after State is getting sued for doing a job the American Government won't do—protecting the security of the Nation and enforcing the law. Arizona had to enact this law to protect itself because the Federal Government doesn't adequately secure the border.

It is time for Washington to stop its war on the States and to join with the States in enforcing the law of the land. Hopefully, the Supreme Court will rule the Arizona law to be constitutional.

And that's just the way it is.

#### THE CARIBBEAN BORDER INITIATIVE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Puerto Rico (Mr. PIERLUISI) for 5 minutes.

Mr. PIERLUISI. Mr. Speaker, American citizens in the Caribbean are facing a security crisis. While the national murder rate has declined in recent decades, the number of homicides in Puerto Rico and the U.S. Virgin Islands remains unacceptably high. Since 2008, the murder rate in Puerto Rico and the Virgin Islands has been about five times the national average and about twice as high as that of any State.

Most of the murders committed in Puerto Rico and the USVI are linked to the drug trade. As Attorney General Holder and other officials have acknowledged, the Federal Government's effort to prevent traffickers from transporting drugs across our Nation's southwest border is causing traffickers

to turn increasingly to the Caribbean to ship drugs into the United States. As the National Drug Intelligence Center recently observed, violence by traffickers in the two territories has "become indiscriminate, endangering the lives of . . . innocent bystanders."

In response to questions I posed, Attorney General Holder recently called drug-related violence in Puerto Rico and in the USVI a national security issue that we must confront. At my urging, Congress has also taken notice of the problem, directing Federal law enforcement agencies on three separate occasions to devote more attention to the Caribbean region.

According to briefings provided to my office, 70 to 80 percent of the cocaine that enters Puerto Rico is transported to the U.S. mainland. Because Puerto Rico is a U.S. jurisdiction, once drugs enter the island, they are easily delivered to the States through commercial airlines and container ships, without having to clear customs or having to otherwise undergo heightened scrutiny. Once in the States, these drugs destroy lives and communities in my colleagues' districts. So this is a problem of national, not simply regional, scope.

That said, the primary reason the Federal Government must do more to reduce drug trafficking in Puerto Rico and the Virgin Islands is that U.S. citizens in these two territories are dying in unprecedented numbers. Our Nation has devoted considerable resources in confronting drug gangs that are operating along the southwest border, and rightfully so. Yet Puerto Rico's murder rate is four to five times higher than that of any Southwest border State.

According to a recent piece in *The Washington Post*, since 2008 the island has received less than one-fifth of the funding that the Federal Government has provided to combat the drug trade and associated violence in Mexico and Central American nations.

□ 1020

The number of authorized positions at key Federal law enforcement agencies in Puerto Rico is too low. The number of vacancies is too high. And interdiction assets, like planes and boats, are in short supply.

Since taking office, I have urged the Federal Government to devote resources to Puerto Rico at a level commensurate with the severity of the problem it faces. Specifically, I have asked the White House drug czar to establish a Caribbean border initiative modeled after the successful Southwest Border Initiative.

The time for half measures and piecemeal efforts has passed. What is needed instead is a well-planned, well-funded, well-executed, governmentwide strategy that will encompass all Federal agencies charged with fighting drug trafficking and related violence. To

protect the lives of the U.S. citizens in the Caribbean and to reduce the flow of drugs headed to the States through that region, the Federal Government must make a commitment of resources to Puerto Rico and the USVI that is similar to the commitment it has made to the southwest border.

The challenge we face today is similar to the one we faced back in 1994. I was Puerto Rico's attorney general back then and lobbied successfully for Puerto Rico and the USVI to be federally designated as a high-intensity drug trafficking area, which contributed to a significant reduction in the island's violent crime rate. The problem has evolved over time, and the Federal response must evolve along with it. I will not rest until it does.

#### DIGGING OURSELVES OUT OF THIS RECESSION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Minnesota (Mr. CRAVAACK) for 5 minutes.

Mr. CRAVAACK. Mr. Speaker, my message is simple and direct: Last month, this administration put yet another hold on implementing the Keystone pipeline project and adding tens of thousands of American jobs to our fragile economy. This decision is bad news for laborers in the great State of Minnesota and around the country who were eager to begin working on the project next year. If we do not approve this deal and put people back to work, the jobs and the oil will simply go another direction—such as China—and they will not be coming back to the United States.

What part of this bill just doesn't make sense to the folks in the White House and the Department of State?

We cannot wait. The American worker is the most productive worker in the world, and so many people in my district thirst for good-paying jobs that will come with projects like Keystone.

Some of these regulatory agencies are simply out of control and seem bent on stifling job creation here in the United States. If the government would simply get out of the way, put politics aside, and dedicate to empowering the American worker, we can start digging ourselves out of this recession and get Americans back to work.

#### REMOVE KEYSTONE PIPELINE FROM THE BILL

The SPEAKER pro tempore. The Chair recognizes the gentleman from New York (Mr. RANGEL) for 5 minutes.

Mr. RANGEL. Well, it looks like this august body will continue to work until we find some solutions to the problems facing the millions of Americans who have lost their jobs, their homes, their savings through no fault of their own and have limited income.

It has taken some time for the Democrats in the House to persuade the majority that this is a time when we just can't lay off people and stop spending, even though that has to be a part of the ultimate solution to the problems that we face. But laying off people, especially at this time of the year, is not only an insensitive thing to do, but, in my opinion, the economics of it all is that if people don't have the resources to purchase their needs, then, of course, our small businesses are the ones that suffer financially; and, as a result of that, they may have to lay off workers. It just doesn't make economic sense, nor is it a very sensitive thing to do during this time of year.

Now very soon, this body will be considering what is referred to as the Middle Class Tax Relief and Job Creation Act of 2011, which means that we will now have united—or apparently it appears to be united—this entire Congress, saying that we must continue to have this low-income tax cut that working people enjoy to continue beyond its expiration of December 31, and that even though there are some people who claim that a lot of Americans don't pay any taxes—well, you can't explain that to a person who works hard each and every day and they find out what their pay was supposed to be, but, when they get home and look at their check, it's less. But just because it's not Federal income tax, that doesn't mean that they're not paying into their Social Security and they're not paying for their health benefits. So the President, in his wisdom, and this Congress support that we extend relief of that payroll tax so that these people have this disposable income during this time of the year.

And of course we have this controversy where every year, for whatever reason, Republicans can't grasp the understanding of what unemployment insurance is all about. And I shouldn't say Republicans. I'm talking about those people that belong to the Republican Party that truly believe, if you give someone a hand up at a time when they've lost their job and the Federal Government said that you have paid into this safety fund and you try to help them for what they paid into, that you are convincing them that they should not look for work.

Now, this great country exists because of our working middle class. It's because people don't enjoy work, but they have the dignity of working, the pride in letting their family know that they're providing for food and clothing and investing for the future. So perhaps I shouldn't blame the entire Republican Party. But they have managed every year not to deal with this extended unemployment compensation so at least these people can plan not just for the holidays but plan for their basic needs.

Somehow, with all of this feeling that it is about time that we came to-

gether and have done something, the Republicans have added to this the Keystone energy pipeline. Can you imagine how many people who are expecting relief from their government will be going to sleep tonight wondering whether they are going to continue to get a break on taxes next year, whether or not they are going to get a break on payroll taxes this year, and whether or not they are going to get extended unemployment compensation is all dependent on whether or not the Congress supports the Keystone energy pipeline?

Let's get rid of all the pipeline language. Let's do what the bill is supposed to do, and let's not put in something that could impede the passage.

#### RAISING TAXES ON JOB CREATORS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. DOLD) for 5 minutes.

Mr. DOLD. Mr. Speaker, yesterday it was announced that a small business in my district will be closing two locations in Illinois and transferring those jobs out of State. I believe at this time, they are taking them to Texas. But we have seen this story over and over again, whether it be taking jobs to Wisconsin, whether it's taking jobs to Indiana. I believe this speaks volumes about the economic situation not only in Illinois but in our Nation and the policies that I believe that this body must put in place in order to empower small business owners and job creators all across the land to be able to have confidence, invest in their business, and grow jobs.

□ 1030

You see, the difference in the State of Illinois is that in Illinois we raised taxes on businesses over 45 percent this last year. It put enormous pressure on small businesses throughout the State, and I would argue all job creators throughout the State. What is even worse, Mr. Speaker, is that those companies that have more employees and a little bit higher clout have been able to rattle the saber and call the Governor and say we're going to pick up and leave the State of Illinois and take jobs elsewhere. While we want to make sure that we keep those jobs in Illinois, the unfortunate thing is we have got some crony capitalism going on, so the State is going to bend over backwards to make sure some of the larger employers stay in the State of Illinois.

The problem is that small businesses, the ones that I talk to each and every day, when they call the Governor, they don't get their phone calls returned. It, indeed, puts a greater burden on small businesses. And as you know, Mr. Speaker, two-thirds of all net new jobs are created by small businesses all across the land. This is the economic

engine that we need to make sure that we are supporting, to make sure that we are putting more Americans back to work.

There are 29 million small businesses in our Nation. If we can create an environment right here in Washington, D.C., and you hear me say it's creating an environment, it's not creating jobs because the government doesn't create jobs; it's the private sector that does.

But what the government can do is create an environment, whether it be through regulation, whether it be through comprehensive tax reform, whether it be through a variety of measures that enable those 29 million small businesses in our Nation to create a single job. If half of those businesses created a job, Mr. Speaker, think about where we would be then.

This is why the American people want Congress to act, and I think we've got a responsibility to reach across the aisle and find common ground. We need to get rid of the crony capitalism. We need to create a level playing field where businesses all across the land can compete and can win because this is an opportunity for Republicans and Democrats alike to put forward comprehensive tax reform, something that has been touted by the Simpson-Bowles Commission, touted by the President and touted by others.

Well, it's time for action. We want to make sure that we move forward with this. We want to make sure that businesses can open their doors and create a level playing field. At the end of the day, it's about finding that common ground. It's about having government get out of the way and enabling the private sector to move forward so that we can all see America get back to work.

#### 'Twas THE WEEK BEFORE CHRISTMAS

The SPEAKER pro tempore. The Chair recognizes the gentleman from New York (Mr. TONKO) for 5 minutes.

Mr. TONKO. Mr. Speaker, while my statement mimics a well-known seasonal classic, it is shared in all seriousness and with a sense of greatest urgency.

'Twas the week before Christmas when all through the House,

A cry echoed much louder than a roaring mouse.

Don't raise our taxes, on us please be fair,

or our middle class will be lost in despair.

The majority was plotting a thought in its head,

We should staunchly oppose what from the President was led.

Millionaires should be spared, not a penny we sap,

But Keystone pipeline we will never ever scrap.

When outside the Chamber there arose such a clatter,

The public was disgusted and shout-out: we matter!

Away to offices lawmakers flew in a flash,

A change in this bill or else it will crash.

End of year coming and no jobs plan to show,

They said no regulations was the best way to go.

Then what to our debate should suddenly appear,

But a sentiment from the public those in office should fear.

Come on Congress, be fair and be quick.

Don't be deceiving, and don't be so slick.

More rapid the calls and emails they came,

"No pipeline" said Senator I won't name.

So let's get to work and not be grinch this season,

The economy and middle class are clearly the reason,

We should have a straight vote, not this 400-page show,

And help America's middle class and small business grow.

Let's spring into action and get this bill done.

We have other work; in fact, there's a ton.

Spending bills, doc fix, unemployment and more,

Before the year ends, they must all come to the floor.

We serve our constituents and our Nation first.

For jobs and opportunities, many of us thirst.

Clean air and clean water should not be rolled back.

Deregulatory riders our bills should well lack.

Thus we go forward to end of the year,

Good tidings and joy this Congress must steer.

Working together with all of our might,

Happy Holidays to all, and for fairness let's fight.

#### GENOCIDAL SUDANESE GOVERNMENT HIRES LOBBYIST

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. WOLF) for 5 minutes.

Mr. WOLF. Mr. Speaker, I was appalled and outraged to learn yesterday that the genocidal government of Khartoum has hired a lobbyist to represent its interests here in Washington.

On December 10, a publication called "Africa Intelligence" reported that the Sudanese Government has put a lobbyist on retainer with the express purpose of trying "to lift American sanctions against it."

The article further reported that the law office of Bart S. Fisher would be paid \$20,000 a month plus expenses to

represent this genocidal government, a government which literally has blood on its hands.

I don't know how Mr. Fisher sleeps at night. Consider the following: Sudan's president, Omar Hassan Bashir, is an internationally indicted war criminal. Bashir is accused by the International Criminal Court of five counts of crimes against humanity—including murder, rape, torture, and extermination—and two counts of war crimes.

But Khartoum's crimes are not simply a thing of the past. In a recent hearing before the Tom Lantos Human Rights Commission, a witness with the NGO Human Rights Watch testified about the situation on the ground in Southern Kordofan and Blue Nile states in Sudan, saying: "According to witnesses we interviewed and other sources, government forces shelled civilian areas, shot people in the streets and carried out house-to-house searches and arrests based on lists of names of known Sudan People's Liberation Movement supporters in the first weeks of fighting."

My office has received regular, reliable reports from individuals on the ground echoing these claims. We have learned of ongoing aerial bombardments in Blue Nile and Southern Kordofan states. We have heard of nightmarish accounts of extrajudicial killings, illegal detention, disappearances, and indiscriminate attacks against civilians. Furthermore, evidence gathered through satellite imagery by the Satellite Sentinel Project shows at least eight mass graves found in and around Kadugli, the capital of Southern Kordofan.

Literally thousands have fled the violence, which begs the question, Who is their lobbyist? They are in desperate straits having left behind their entire lives. Who is their lobbyist? They are facing malnutrition and prolonged displacement. Who is their lobbyist?

To put a human face on these questions, consider this picture taken by a Voice of America photographer of a malnourished child with a feeding tube inserted in his nose in an attempt to get him the sustenance he so desperately needs. He is one of roughly 25,000 people in the Yida refugee camp that have fled the fighting in Sudan and crossed the border in South Sudan.

I ask Mr. Fisher, the lobbyist: Where is the child's lobbyist, the lobbyist for this child?

Today I am sending a letter to President Obama, the State Department, the Justice Department, and the Treasury Department seeking immediate clarification on what appears to be an indefensible situation.

According to news report and the Foreign Agents Registration page of the Department of Justice Web site, Mr. Bart Fisher is representing the Government of Sudan. Was he granted a license from the Office of Foreign As-

sets Control at Treasury, as is required to represent the genocidal country of Sudan given the U.S. sanctions which are in place against it? If not, is his representation a violation of law? If so, why would the Obama administration allow this to move forward?

There are many questions which demand answers. But one thing is clear: it appears that Mr. Fisher's contract with the Government of Sudan went into effect in November. If he has received one penny from the Government of Sudan, he should return it immediately; or better yet, he should donate it to one of the NGOs seeking to serve the suffering Sudanese people in Yida refugee camp who have been brutalized by their own government, i.e., Mr. Fisher's client.

[From the Africa Intelligence, Dec. 10, 2011]

KHARTOUM HIRES A LOBBYIST IN U.S.

The Sudanese government has just taken on a lobbyist in Washington, United States to try to lift American sanctions against it. The Law Office of Bart S. Fisher summarised the contract in a letter to the Sudanese embassy in Washington dated November 1, stating that its work would be carried out within the limits of the Sudanese Sanctions Regulations, for a fee of \$20,000 a month plus expenses. Bart Fisher is a longstanding lobbyist for China and for Chinese companies, combining the legal defence of its clients and lobby activity. In the case of Sudan, he will advise Khartoum on how to obtain the reduction or cessation of U.S. sanctions and the removal of the country from the State Department list of State Sponsors of Terror. It will also aid the Sudanese Embassy in Washington in the requisite legal procedures. Fisher will have work to do, since the contract was signed on 10 November just as military tension is growing on the border with Southern Sudan and a coalition of 66 organisations in the United States, Act for Sudan, recently asked President Barack Obama to impose a no fly zone over Darfur, South Kordofan and Blue Nile, to prevent Khartoum from attacking the civilian population.

□ 1040

#### PAYROLL TAX CUTS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. CONNOLLY) for 5 minutes.

Mr. CONNOLLY of Virginia. Mr. Speaker, once again we are presented with a false choice today. In the Alice in Wonderland world of the House, Republicans oppose payroll tax cuts unless they can be used as a vehicle to cut unemployment benefits. According to the majority, it isn't worth passing a simple payroll tax cut without eviscerating Americans' health care. In this warped, parallel universe, payroll tax cut extensions must be accompanied by gratuitous measures to punish Federal employees and civil servants like Border Security agents and FBI agents. And, of course, the majority seems singularly incapable of writing any bill, especially at this time of year, Christmas, that doesn't contain

several special provisions to benefit the Koch Brothers and Big Oil giveaways.

Sadly, this bill is consistent with the Republican pattern of extortion on behalf of an extreme special interest agenda. After almost shutting down the government, furloughing FAA employees, and blocking the appointment of a director to the Consumer Financial Protection Bureau and other agencies, now, believe it or not, they are holding tax cuts hostage.

President Obama sent a simple legislative package to Congress: Extend the payroll tax cuts, saving the average American family \$1,500 a year. Extend unemployment insurance benefits to create 1 million jobs and add 1 full percentage of growth to the economy. This very proposal received a majority vote in the Senate but, of course, was blocked by a Republican filibuster. It did what the Republicans say they want to do—cut taxes and grow the economy. Too bad their actions don't match their words.

Based on their rhetoric, one would think that Republicans would support a simple tax cut. That is, after all, their solution to every economic challenge: Cut taxes, especially for millionaires and large corporations. Yet when presented with a simple tax cut bill targeted to help the middle class in America, Republicans rebel and reject it in favor of a piece of special-interest sausage so laden with lobbyist giveaways and ideological poison pills that it would make the author of "The Jungle," Upton Sinclair's, nose turn blue.

The bill before us today slashes unemployment benefits for Virginians in my home State by 38 percent, and it increases Federal employee pension contributions by 63 percent while reducing total pension payments. Federal employees, in other words, will pay more and get less retirement security after a lifetime of public service. For good measure, it extends public servants' pay freeze for a full 5 years. It contains a costly special interest policy rider that will increase oil exports to China and raise American gas prices. It repeals part of the Clean Air Act, allowing polluters to spew forth mercury, arsenic, and other toxic pollutants from industrial boilers. In fact, repeal of this Clean Air Act public health standard will burden the American economy with \$20 billion to \$52 billion in additional health care costs every year.

We must remember what a perilous state the economy is in. Thanks to the successful Recovery Act and expansionary monetary policy, unemployment has fallen now to 8.6 percent. It would be 8.25 percent except for the fact that Republican policies have led to the loss of over a half-million public sector jobs throughout the United States. The number of underemployed and long-term unemployed Americans

has fallen as people have found steady, full-time jobs, and private-sector job growth has been growing every month for 21 consecutive months. We're not out of the woods, but we are making progress.

The Congressional Budget Office, McCain campaign adviser Mark Zandi, and Barclays Bank all estimate that extending unemployment benefits will increase the economy by a full 1 percent and add 1 million jobs. That's because unemployment benefits have a multiplier effect—they are spent as soon as they are gotten. The payroll tax cut, in addition, will provide Americans with an average of \$1,500 per worker, creating some \$250 billion in economic activity and adding 1 full percentage point to the GDP.

The Speaker controls which bills come to the floor of the House. Let's junk this bill and come up with a clean payroll tax extension and unemployment benefits for all Americans, creating jobs and growing this economy.

#### YUCCA MOUNTAIN

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. SHIMKUS) for 5 minutes.

Mr. SHIMKUS. Mr. Speaker, at the end of last week, I was able to take to the floor with some of my colleagues to talk about high-level nuclear waste in Yucca Mountain. Part of that time, I wanted to make sure, as I have each week, to highlight certain locations around this country where high-level nuclear waste is stored. Because of time constraints, I wasn't able to do that, so I take to the floor this morning to highlight a nuclear power plant in Florida called Turkey Point.

And the way I do this, Mr. Speaker, is I have this poster in front of me, and I compare the location of high-level nuclear waste at Turkey Point to the defined-by-law location for a single repository in this country, Yucca Mountain.

So look at what we have here. At Yucca Mountain, we have currently no nuclear waste on site. At Turkey Point, there's 1,074 metric tons of spent fuel on site. That's quite a lot of fuel. If we had waste stored at Yucca Mountain, the waste would be stored 1,000 feet underground—Yucca Mountain is a mountain. At Turkey Point, waste is stored above ground in pools. Now why is that an important point to consider? The nuclear catastrophe in Japan, the Fukushima Daiichi plant, part of the major disaster was because of high-level nuclear waste stored in pools. The earthquake occurred and either the water that was there boiled out or there were cracks in the containment valve and it spilled out, and then the nuclear waste heated up, and hence you have a very dangerous situation still in Japan.

At Yucca Mountain, the waste would be stored 1,000 feet above the water

table. But here, at Turkey Point, which is in Florida, the waste is on Biscayne Bay at sea level. So it is at sea level, not in a mountain in a desert.

What we've done also is look at if you are at Yucca Mountain how far are you away from really the largest body of water, which would be the Colorado River? Yucca Mountain is 100 miles from the Colorado River. Turkey Point and the nuclear waste stored there is 10 miles from the Everglades—10 miles from the Everglades.

So we passed—I wasn't a Member of this Chamber at this time—a Federal law called the Nuclear Waste Policy Act in 1982. When we passed that law, we defined Yucca Mountain as the national repository—a single repository for not just nuclear waste from our nuclear power fleet, but also the nuclear waste from our Department of Energy locations from around the country.

Obviously, we are very close, but this administration, along with the NRC Commissioner, has delayed, postponed, and tried to stop any movement on Yucca Mountain. And that's why I take the floor. As the subcommittee chairman of the Energy and Environment Subcommittee, part of my jurisdiction is high-level nuclear waste, and that's why I come to the floor weekly to address this issue.

Now, this is very timely this week, as Chairman Jaczko and the NRC Commissioners are up here before our Oversight and Government Reform Committee. Chairman Jaczko, in an article dated December 7, said, "I welcome debate, I welcome discussion, I welcome criticism." But a letter sent to the Chief of Staff of the White House, Mr. Bill Daley, by the other four Commissioners, bipartisan—two Democrats, two Republicans, three appointed by the President—says this about Chairman Jaczko: He's intimidated and bullied senior career staff to the degree that he has created a high level of fear and anxiety resulting in a chilled work environment. They also say he ordered staff to withhold or modify policy information and recommendations intended for transmission to the Commission. He has also ignored the will of the majority of the Commission, contrary to the statutory functions of the Commission. And he has attempted to intimidate the Advisory Committee on Reactor Safeguards.

This is part of the problem of our not having a national policy to move high-level nuclear waste to a centralized location in a desert underneath a mountain, Yucca Mountain. We have Senators who have voted for that in this area. The two senators from Florida, Tennessee, Mississippi, and Alabama all support it.

UNITED STATES  
NUCLEAR REGULATORY COMMISSION,  
Washington, DC, October 13, 2011.  
Hon. WILLIAM L. DALEY,  
Chief of Staff, The White House, Washington,  
DC.

DEAR CHIEF OF STAFF DALEY: As individual members of an independent regulatory commission, we all took oaths to execute this agency's nuclear regulatory mission and to uphold the institution's values, including its Principles of Good Regulation. Our obligation is not only to the agency and its staff, but also to the American people. It is from that foundation that we write to express our grave concerns regarding the leadership and management practices exercised by Nuclear Regulatory Commission (NRC) Chairman Gregory Jaczko. We believe that his actions and behavior are causing serious damage to this institution and are creating a chilled work environment at the NRC. We are concerned that this will adversely affect the NRC's essential mission to protect the health, safety and security of the American people.

In a long series of very troubling actions taken by Chairman Jaczko, he has undermined the ability of the Commission to function as prescribed by law and decades of successful practice. Since this current Commission was formed some 18 months ago, after the President nominated and the Senate confirmed the three newest members, we have observed that Chairman Jaczko has:

Intimidated and bullied senior career staff to the degree that he has created a high level of fear and anxiety resulting in a chilled work environment;

Ordered staff to withhold or modify policy information and recommendations intended for transmission to the Commission;

Attempted to intimidate the Advisory Committee on Reactor Safeguards, a legislatively-chartered independent group of technical advisors, to prevent it from reviewing certain aspects of NRC's analysis of the Fukushima accident;

Ignored the will of the majority of the Commission; contrary to the statutory functions of the Commission; and

Interacted with us, his fellow Commissioners, with such intemperance and disrespect that the Commission no longer functions as effectively as it should.

Recently, on October 5, 2011, Chairman Jaczko appeared as an invited guest at a periodic meeting of the agency's Executive Director for Operations and other senior career executives. According to multiple reports, his comments reflected contempt for the Commission itself and open disdain for the Internal Commission Procedures, a document that embodies governing principles from the NRC's organic legislation—the Energy Reorganization of 1974 and the Reorganization Plan No. 1 of 1980. These procedures guide the conduct of the work of the Commission.

Over the last 18 months, we have shown Chairman Jaczko considerable deference. Moreover, for the sake of the agency, its staff, and public confidence, we have strived to avoid public displays of disharmony. Unfortunately, our efforts have been received only as encouragement for further transgressions.

We are committed to conduct the work of this agency to the best of our ability and despite the items highlighted above and numerous other troubling actions taken by Chairman Jaczko, we have carried out the work before us and will continue to do so. However, Chairman Jaczko's behavior and

management practices have become increasingly problematic and erratic. We believe his conduct as Chairman is inconsistent with the NRC's organizational values and impairs the effective execution of the agency's mission.

We provided Chairman Jaczko our concerns in the attached memorandum.

Sincerely,

Commissioner KRISTINE L.  
SVINICKI.  
Commissioner WILLIAM D.  
MAGWOOD, IV.  
Commissioner GEORGE  
APOSTOLAKIS.  
Commissioner WILLIAM C.  
OSTENDORFF.

UNITED STATES  
NUCLEAR REGULATORY COMMISSION,  
Washington, DC, October 13, 2011.  
Memorandum to: Chairman Jaczko.

From Commissioner Svinicki, Commissioner Apostolakis, Commissioner Magwood, Commissioner Ostendorff.

As you know, many of us have, on occasion, taken issue with your interpretation of the relative role of the Chairman and the Commission, the role of the Chairman and the EDO, and your approach to working with the Commission to lead this agency. Over the past year, these issues, linked with your troubling personal approach to interacting with us and the senior staff, have intensified. This is a matter of serious concern. We have responsibilities relating to the Commission and the NRC staff, and we are accountable to Congress and the American people. It is from this foundation that we write to express our grave concern that your leadership and management practices are causing serious damage to this institution.

First, with respect to your relationship with the Commission, it is not uncommon to have some degree of tension between a Chairman and the members of an independent regulatory commission. But in the present case, your intemperate and disrespectful behavior and conduct towards fellow Commission members is completely unacceptable. A few recent examples include your outburst of temper demonstrated by storming out of an agenda planning meeting while a colleague was speaking, yelling at fellow commissioners on the phone, and termination of an NRC staff detailee's assignment to a Commission office without any advance discussion with the affected Commissioner. Although your relationship with Commissioner colleagues has been a serious problem for some time, it has gotten worse in recent months.

Second, your intimidation and bullying of the NRC staff to do things your way has resulted in a work environment with a chilling effect. While you are a champion of openness in Commission deliberations, you have taken steps to discourage open communication between the staff and the Commission. There are a number of recent examples where you or your office directed the staff to withhold certain views from the Commission or strongly criticized the staff's views. Two recent examples include your direction to the EDO to withdraw the SECY paper on the Fukushima Near Term Task Force Report as well as your strong, ill-tempered criticism of the senior staffs recommendations in the post-Fukushima "21 day" report. While you have communicated to us that your primary motivation in seeking to remove the EDO is based on his lack of communications with you, due diligence with numerous senior staff indicates that your motivation stems

from instances where the EDO did not follow your view on what to present to the Commission as the staff's policy position. This impairs the ability of the Commission to function effectively; furthermore, your view of the role of the EDO is fundamentally contrary to that of the Commission and the way the NRC has functioned over the years.

Third, we are shocked to have received numerous reports from NRC senior staff about your remarks at the October 5 Senior Leadership Meeting. Your comments have been interpreted by those present not only to reflect your disdain for the Internal Commission Procedures, but also your contempt for the Commission. Your remarks to the NRC senior staff undermine the entire Commission. This conduct is of grave concern to us and is absolutely unacceptable.

In response to this persistent situation, we have decided to transmit the attached letter to the White House Chief of Staff to notify him of our serious concerns. We recognize that this is an extraordinary step, but do not believe that you have left us with viable alternatives.

□ 1050

#### THE MIDDLE CLASS TAX RELIEF AND JOB CREATION ACT OF 2011

The SPEAKER pro tempore. The Chair recognizes the gentleman from New Jersey (Mr. PAYNE) for 5 minutes.

Mr. PAYNE. Mr. Speaker, I rise today in opposition of H.R. 3630, the Middle Class Tax Relief and Job Creation Act. This bill is yet another example of Republicans bringing a partisan bill to the floor which has no chance of becoming law.

At this critical time in our economy, Republicans are continuing to pursue their own ideological agenda. Time and again, Republicans continue to choose brinksmanship over constructive engagement with Democrats. Allowing these extensions to expire would have a devastating impact on our economic growth and job creation.

Republicans must put aside partisan differences and work with Democrats so that we can assist millions of Americans who lost their jobs through no fault of their own. Putting money in the pockets of American families should be one of our top priorities. It just seems like common sense.

Although H.R. 3630 extends the Emergency Unemployment Compensation program until January 2013, it also lowers the amount of time benefits are provided from 99 weeks currently to 59 weeks. Furthermore, the bill also would allow States to require a high school diploma or being enrolled in classes for a GED to be eligible for benefits. The bill also offsets the cost by freezing Federal employee pay for another year through 2013.

Although recent data has shown that the national unemployment rate has dropped to 8.6 percent, the African American unemployment rate rose at the same time from 15.1 percent to 15.5 percent. High African American unemployment rates are a direct result of

the high job loss in the public sector. During the past year, while the private sector has added 1.6 million jobs, State and local governments have shed at least 142,000 positions.

Because traditionally there has been racial discrimination in employment, blacks have relied on government jobs in large numbers since the Reconstruction era. As a matter of fact, one of the first job openings for freed enslaved people was the United States Postal Service, which opened their doors and hired qualified ex-slaves during that period.

We will be passing legislation that helps the private sector, but we also need to be concerned about the public sector instead of freezing or limiting their pay. As a matter of fact, the private sector has been very derelict.

During World War II, even though the United States was way behind in our development of a war machine—ships, tanks, and boats—President Roosevelt had to send an Executive order to companies insisting that they hire African Americans because we were losing the effort, but they refused to break down racial discrimination even as we were being outmanned by our enemies. And so we find there is still the difficulty for African Americans to get into the private sector; and we find that, therefore, many are losing their jobs in the public sector.

H.R. 3630 also makes large cuts in health care programs. It cuts over \$21 billion from the Affordable Care Act programs, which will increase the uninsured by 170,000 Americans.

Additionally, H.R. 3630 rolls back the Emergency Unemployment Compensation program substantially, making drastic cuts to Medicare, and contains controversial riders that should not be included in this bill.

We should not risk tax increases on middle class families, dropping unemployment benefits for those out of work, or preventing seniors from accessing their doctors through Medicare by including unrelated and controversial provisions.

The bill is fiscally careless, and it increases the deficit by \$25.3 billion over the next 10 years, according to CBO.

Due to the more than \$21.5 billion in provider cuts, the American Hospital Association is urging Congress to oppose this bill that will harm health care in communities across America.

Important funding for preventive care that was included in the Affordable Care Act is also subject to billions of dollars in cuts. Changes in the bill will result in 170,000 more uninsured Americans.

So, therefore, I urge defeat of this unfair plan, which also throws in the pipeline, which makes no sense.

#### CRISIS OF SEXUAL ABUSE OF CHILDREN IN AMERICA

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Texas (Ms. JACKSON LEE) for 5 minutes.

Ms. JACKSON LEE of Texas. Mr. Speaker, just a few minutes ago I heard one of my colleagues on another matter dealing with children raise the question: Who lobbies for our children?

Frankly, I don't want to live in a country that doesn't hold our children as the precious resources that they are, to be coddled and nurtured, given the opportunities of life irrespective of their ethnic background, religious background, economic background, where they live in this country. I think the greatest testimony of a country's moral values is how they protect and respect their children.

Just an hour or two ago, Mr. Sandusky, in a Pennsylvania courtroom, decided not to listen to numbers of his accusers in this sordid scandal of child sexual abuse. That is his legal privilege. And as someone who adheres to the Constitution of due process and a right to a trial by one's peers, I'm not here to quarrel with a legal system that allows an accused—in this instance, a proposed defendant—to defend themselves. But I am here to challenge the crisis of sexual abuse of children in America and the sordid salaciousness of the coverup that adults have participated in. Shame on us. Shame on us.

As the chair and founder of the Congressional Children's Caucus, I raise my iron and I ask the media around this country to come from underneath the rocks and begin to attack the coverup and quietness of professional or amateur sports, of college sports, of high school and primary and secondary sports, of nonprofits who deal with children who have an inkling or a knowledge of the sordidness and the dastardly actions of sexually abusing children and not saying one word. And so this week I'm going to ask my colleagues to join me in introducing legislation that will cease and desist Federal funding going to colleges and universities and nonprofits who are found to have covered up charges of child sexual abuse.

When is it going to stop?

The heinousness of the alleged acts of Mr. Fine in Syracuse by the State laws suggest that the statute of limitations cannot reach him. The Federal law must speak. The voice of America must speak. And the irony of it is I listened to a commentator this morning say, How long will the coach be able to stay in Syracuse in the prominence of their season this year? As long as he wants. And no one has gotten to the bottom of what happened to those boys at Syracuse University.

Added to that is an ESPN tape that they sat on for how many years and no recrimination, no accusations against

an entity that enjoys the trust and confidence and enjoyment of the American sports fans to have held a tape and denied that tape to at least be vetted to determine the harshness of what happened to a child.

Child sexual abuse cases, 90,000 of them are reported, but the numbers of unreported abuse are far greater, because it is documented that children wait at least 2 years before they're willing to tell even family members. Why? Because we, as adults, have made it so harsh, so accusatory for the child. The child is in fact the defendant, the wronged person. And God forbid, don't accuse a famous adult, for then you are completely maligned, thrown on the trash heap of life.

□ 1100

The boys that Mr. Sandusky was accused of acting against happened to be vulnerable children, vulnerable families, at-risk children, parents, single mothers, who were looking for a male role model. Isn't that allowed in America?

Aren't we familiar with raising that impoverished child up and giving the opportunity to be raised up by their bootstraps, getting some wonderful male role model, in the instance of girls, a woman role model? Isn't that the American way, that everybody has a door open to the greatest country in the world?

But that trust was violated, and those children now, basically grownups, did not survive and will not survive the mental conditions that they will be subjected to.

Mr. Speaker, as I close, let me say that children have died because of child sexual abuse. Join me in supporting this legislation to be able to say zero tolerance for the cover up of sexual abuse of children. It's a pox on our house. Where are the children's lobbyists? We must be that lobbyist.

#### CHILD SEXUAL ABUSE STATISTICS

Although child sexual abuse is reported almost 90,000 times a year, the numbers of unreported abuse greater because the children are afraid to tell anyone what has happened, and the legal procedure for validating an episode is difficult (American Academy of Child & Adolescent Psychiatry, 2004).

It is estimated that 1 in 4 girls and 1 in 6 boys will have experienced an episode of sexual abuse while younger than 18 years. The numbers of boys affected may be falsely low because of reporting techniques (Botash, Ann, MD, Pediatric Annual, May, 1997).

Sixty-seven percent of all victims of sexual assault reported to law enforcement agencies were juveniles (under the age of 18); 34 percent of all victims were under age 12. One of every seven victims of sexual assault reported to law enforcement agencies were under 6. Forty percent of the offenders who victimized children under age 6 were juveniles (under the age of 18). (Bureau of Justice Statistics, 2000).

Most children are abused by someone they know and trust, although boys are more likely

than girls to be abused outside of the family. A study in three states found 96 percent of reported rape survivors under age 12 knew the attacker. Four percent of the offenders were strangers, 20 percent were fathers, 16 percent were relatives and 50 percent were acquaintances or friends (Advocates for Youth, 1995).

#### OVERVIEW

Child sexual abuse has been at the center of unprecedented public attention during the last decade. All fifty states and the District of Columbia have enacted statutes identifying child sexual abuse as criminal behavior (Whitcomb, 1986). This crime encompasses different types of sexual activity, including voyeurism, sexual dialogue, fondling, touching of the genitals, vaginal, anal, or oral rape and forcing children to participate in pornography or prostitution.

#### CHILD SEXUAL ABUSERS

Perpetrators of child sexual abuse come from different age groups, genders, races and socio-economic backgrounds. Women sexually abuse children, although not as frequently as men, and juvenile perpetrators comprise as many as one-third of the offenders (Finkelhor, 1994). One common denominator is that victims frequently know and trust their abusers.

Child abusers coerce children by offering attention or gifts, manipulating or threatening their victims, using aggression or employing a combination of these tactics. "[D]ata indicate that child molesters are frequently aggressive. Of 250 child victims studied by DeFrancis, 50 percent experienced physical force, such as being held down, struck, or shaken violently" (Becker, 1994).

#### CHILD SEXUAL ABUSE VICTIMS

Studies have not found differences in the prevalence of child sexual abuse among different social classes or races. However, parental inadequacy, unavailability, conflict and a poor parent-child relationship are among the characteristics that distinguish children at risk of being sexually abused (Finkelhor, 1994). According to the Third National Incidence Study, girls are sexually abused three times more often than boys, whereas boys are more likely to die or be seriously injured from their abuse (Sedlak & Broadhurst, 1996). Both boys and girls are most vulnerable to abuse between the ages of 7 and 13 (Finkelhor, 1994).

#### INCEST

Incest traditionally describes sexual abuse in which the perpetrator and victim are related by blood. However, incest can also refer to cases where the perpetrator and victim are emotionally connected (Crnich & Crnich, 1992). "[I]ntrafamily perpetrators constitute from one-third to one-half of all perpetrators against girls and only about one-tenth to one-fifth of all perpetrators against boys. There is no question that intrafamily abuse is more likely to go on over a longer period of time and in some of its forms, particularly parent-child abuse, has been shown to have more serious consequences" (Finkelhor, 1994).

#### SYMPTOMS OF CHILD SEXUAL ABUSE

Many sexually abused children exhibit physical, behavioral and emotional symptoms. Some physical signs are pain or irritation to the genital area, vaginal or penile discharge and difficulty with urination. Victims of known assailants may experience less physical trauma

because such injuries might attract suspicion (Hammerschlag, 1996).

Behavioral changes often precede physical symptoms as the first indicators of sexual abuse (American Humane Association Children's Division, 1993). Behavioral signs include nervous or aggressive behavior toward adults, sexual provocativeness before an appropriate age and the use of alcohol and other drugs. Boys "are more likely than girls to act out in aggressive and antisocial ways as a result of abuse" (Finkelhor, 1994). Children may say such things as, "My mother's boyfriend does things to me when she's not there," or "I'm afraid to go home tonight."

#### CONSEQUENCES OF CHILD SEXUAL ABUSE

Consequences of child sexual abuse range "from chronic depression to low self-esteem to sexual dysfunction to multiple personalities. A fifth of all victims develop serious long-term psychological problems, according to the American Medical Association. These may include dissociative responses and other signs of posttraumatic-stress syndrome [sic], chronic states of arousal, nightmares, flashbacks, venereal disease and anxiety over sex or exposure of the body during medical exams" ("Child Sexual Abuse . . .," 1993).

#### CYCLE OF VIOLENCE

Children who are abused or neglected are more likely to become criminal offenders as adults. A National Institute of Justice study found "that childhood abuse increased the odds of future delinquency and adult criminality overall by 40 percent" (Widom, 1992). Child sexual abuse victims are also at risk of becoming ensnared in this cycle of violence. One expert estimates that forty percent of sexual abusers were sexually abused as children (Vanderbilt, 1992). In addition, victims of child sexual abuse are 27.7 times more likely to be arrested for prostitution as adults than non-victims. (Widom, 1995). Some victims become sexual abusers or prostitutes because they have a difficult time relating to others except on sexual terms.

### GOP POLICY RIDERS AND THE KEYSTONE PIPELINE

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Ms. LEE) for 5 minutes.

Ms. LEE of California. Mr. Speaker, I rise with my colleagues today to call for an immediate extension of the emergency unemployment benefits, including those who have hit the 99-week limit.

Also, I want to ask for the extension of the payroll tax holiday for millions of Americans. I also urge my colleagues to reject attempts to attach these urgently needed economic recovery actions with partisan proposals to gut the Clean Air Act and support Big Oil at the expense of middle and low-income individuals.

Republicans in the House have already tried to pass hundreds of anti-environmental bills, amendments, and policy riders. Apparently, this is not enough. Now Republicans want to combine repealing important Clean Air Act

provisions with the extension of the payroll tax cut.

Ironically, Mr. Speaker, repealing these Clean Air Act standards for industrial boilers would cost our economy \$21 billion to \$52 billion per year in higher health care costs resulting from asthma, lung cancer, emergency department visits, hospitalizations, and premature deaths.

Not surprisingly, Republicans have also included expediting approval of the Keystone pipeline in exchange for a payroll tax extension. This is unacceptable. The proposed route for the Keystone pipeline is currently being reviewed and revisited by the State Department. Also, past State Department environmental impact statements have been found to lack key information on the real and potential environmental impacts of the pipeline.

Republican politicians must stop playing games with the American people and holding hostage the recovery of our entire economy just to score political points with their extreme Tea Party base. Instead of wrapping special interest policy riders and polluter giveaways into a tax extender package, Congress should focus on those policies which are demonstrated job creators; that is, the payroll tax cuts, domestic clean energy incentives, and unemployment compensation extension.

We must not fail to do the work of the American people, and we must not fail to extend these critical benefits before they run out. I call on Republicans to quickly bring a clean bill to the floor that extends emergency unemployment benefits for the millions of job seekers who continue to struggle to find a job in the middle of an economic disaster that the careless deregulation of the banks, two wars, and tax cuts for the wealthy created.

Also, it's really unconscionable that, while we're trying to increase the time limit for unemployment compensation past 99 weeks, the Republicans now want to reverse this to 59 weeks. This is just down right mean-spirited.

So let's have an up-or-down vote on a clean bill that extends the temporary reduction of the payroll tax cut for millions of Americans who really cannot afford a tax hike. Let's have an up-or-down vote on a clean bill that isn't filled with special interest policy riders and polluter giveaways. Let's have an up-or-down vote on a clean bill that keeps millions of families out of poverty.

Failing to extend these critical benefits would cripple our recovery, endanger the public health of our communities, and cost the economy over a half million jobs. We can't afford to ignore the needs of the millions of Americans who have run out of time and who are now losing their homes, falling out of the middle class, and relying more and more on government assistance.

We really should be taking actions to implement targeted programs and policies that ensure that we are a Nation that truly will provide ladders of opportunity and the removal of barriers to the American Dream. We should be taking strong action to protect public health and the full implementation of the Clean Air Act as a tool for cleaning up pollution from these power plants and commercial boilers.

We also should be working with other countries to reduce the impacts of climate change and to help poor countries adapt to climate impacts. This is nothing short of a national emergency, and we must do more to support middle and low-income families, protect the health of our communities, and support our hospitals and local businesses and get people back to work. This really should be a moral imperative during this holiday season.

#### THE MIDDLE CLASS TAX RELIEF AND JOB CREATION ACT OF 2011

The SPEAKER pro tempore. The Chair recognizes the gentleman from New York (Mr. REED) for 5 minutes.

Mr. REED. Mr. Speaker, I rise today to express my support for H.R. 3630, the Middle Class Tax Relief and Job Creation Act of 2011.

First and foremost, I was glad to hear my colleague on the other side of the aisle recognize that lowering taxes, be them payroll taxes, income taxes, or whatever taxes you want to refer to, lowering taxes is a job creation policy initiative that should be supported by both sides of the aisle.

Now, I'm concerned about the payroll tax cut that is continued in this payroll tax bill today because these are the revenue sources for Social Security. But I have come to the conclusion that allowing all Americans to keep more money in their pocket, rather than allowing it to come to Washington, D.C. and to fuel the beast that has been created here in Washington and that is causing the national debt crisis that we now face and the out-of-control spending of Washington, I believe allowing Americans to keep more money in their pocket is a better policy position to take once and for all. And so I support the extension of the payroll tax rate where it is at.

This is not the time, in this economic climate, to take money out of hard-working American families and small businesses and their financial resources that they have to work on as they go forward putting people back to work. So I support the extension of the payroll tax cut.

But I would have to be very sensitive and clear with all Americans that this type of tax policy must be offset by a reduction in the spending that is the root cause of the crisis that we now face in Washington, D.C., so we must offset these tax cuts, and we will do and have done that in this bill.

I also am glad to see that our unemployment reform measures that are set forth in this bill have the opportunity to go into law. Right now we are at 99 weeks of unemployment. The President, in his own proposal, says we need to reduce those weeks of unemployment by 20 weeks. We, in this bill, want to go further, and we'll reduce the number of weeks to 59.

Why? Not because we're cold hearted, not because we're mean spirited, but we are being open and honest with the American people and saying that there is a cost to this indefinite unemployment extension policy that is coming from the other side of the aisle. What we have to do is realize that we have to live within our means once and for all.

And so, what this does is it lowers those numbers of weeks, it puts in commonsense reforms by making it a requirement that people are looking for a job. It gives the States the flexibility to implement drug testing and drug screening to make sure that the workforce of America has the ability to go back to work when those jobs are available.

I have been back in my district, and we do town halls all the time. And what I've heard from small business owners across our district is that one of the main reasons that they cannot hire individuals is because they simply cannot pass a drug test.

□ 1110

This commonsense reform that's contained in this bill will allow us to develop the workforce of America in a stronger and a better fashion so that people can be put back to work once and for all.

The other issue in this bill that I've been supportive of is the doc fix. Now, our health providers in America are being faced with major cuts, be it through ObamaCare, the Health Insurance Care Act, the Affordable Care Act, whatever you may call it. We're also seeing it in the possible sequestration that we're going to face next year.

But what we're doing in this bill is we're giving some certainty to our providers that over the next 2 years they'll know what their reimbursement rates will be. That is critical to the future of our health care industry, and therefore we support it. But we cannot be satisfied with this temporary solution. We must come up with a permanent fix to the doc fix so 2 years from now we are not right back in the situation we find ourselves today.

The final point that has caused me to support this bill as vigorously as I will today is that it is a jobs bill. The Keystone pipeline piece of legislation that is attached to this is being used as a political football. The President has said we can't wait to put people back to work. Well, in this bill with a stroke of a pen, the President will be able to put 20,000 families back to work with

one signature—his signature. To me, that's what we should be doing in this Chamber. That's why I ask my colleagues to support this legislation.

#### PAYROLL TAX EXTENSION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. COHEN) for 5 minutes.

Mr. COHEN. Over the last 3 years, much progress has been made in an effort to recover from the economic fallout, the Great Recession that the President inherited from the previous administration. More needs to be done to stabilize our economy and create jobs for the millions of Americans still out of work.

That progress may get derailed this week if the Republican majority refuses to extend tax cuts for 160 million Americans and unemployment benefits for 1.3 million Americans.

You'd think congressional Republicans who routinely label Democrat as the "party of taxes," which is something Oliver Wendell Holmes said was the price we pay for civilization, that's what taxes are, would eagerly support tax cuts for 160 million Americans; but they don't. I'm buffed.

But you listen to the other side, they've got all kinds of reasons. They've got extensions. They've got all kinds of riders. The bottom line is it's a political fight to defeat the President of the United States. It's been their agenda since he was elected.

Every day my Republican colleagues come to the House floor to call for lower taxes, particularly for the millionaires. They call them the job creators. Yet, when the time comes to support a Democratic payroll tax proposal that lowers taxes and creates jobs, Republican support is not found.

Under the Democratic proposal, a family making \$50,000 a year and struggling would save \$1,500 next year.

But this tax cut does more than put money in the pockets of more than 160 million hardworking Americans and ensure they won't see a tax increase. It also creates jobs. Mark Zandi, the previous Republican Presidential candidate JOHN MCCAIN's economic adviser, said that expanding the payroll tax cut for employees would create 750,000 jobs. Conversely, he said the failure to do so would cost a million jobs.

But, apparently, tax breaks for those people, 160 million Americans, and creation of those jobs is not enough for my colleagues on the Republican side. They need more enticement to support a payroll cut.

So what's the red meat that gets them to do this?

They have to break their pledge. They made a pledge to America. They said they wouldn't put extraneous legislation together with other legislation to pass a mass bill. It would circumvent the will of the people. They

promised to advance major legislation one issue at a time, but Republicans violated this pledge this time by stuffing anti-environmental riders into a must-pass payroll tax bill.

While cutting taxes for 160 million Americans seems like something Republicans would unequivocally support, the GOP leadership felt they had to violate that pledge and cram divisive riders into the bill to get support from people who want to put a potentially dangerous line in environmentally sensitive areas of pipeline that has shown repeatedly a failure to be done in an appropriate way, something that has been said would be a carbon bomb being set off and the end of the global warming fight. It would end the game.

Despite their claims that the riders would create jobs and stimulate the economy, reality doesn't align with those arguments. The reality is they would destroy our economy, our environment, and the lives of thousands of Americans.

The Boiler MACT provision in the bill would delay air toxin rules for at least 3½ years. That would result in 28,350 premature deaths, 17,000 heart attacks, nearly 19,000 hospital and emergency room visits, more than 1.2 million days of missed work, and 150,000 cases of asthma attacks.

The health benefits of these regulations are estimated to save up to \$67 billion and save all of those lives. It's astonishing the Republicans would consider delaying a public health rule that would prevent 8,000 premature deaths a year and save up to \$67 billion, the sweetener that was needed to try to get these tax breaks for 160 million Americans.

I urge my colleagues to see the folly of their ways and pull these harmful riders out of the bill, to stop their effort to just defeat President Obama, and do what's right for the American public—to create jobs and to help people out of unemployment, which will stimulate our economy.

In their Pledge to America, they describe what they called "circumventing the will of the American people." That's what they're doing today. The will of the American people is not to have deaths and injuries, health and environmental policies destroyed, but to create jobs and to help people through this difficult recession.

I would ask that we defeat this bill, come back, work together, and do what's right for the American people.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 11 o'clock and 16 minutes a.m.), the House stood in recess until noon.

□ 1200

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker at noon.

#### PRAYER

The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer: Eternal God, we give You thanks for giving us another day.

On this day we ask Your blessing on the men and women, citizens all, whose votes have populated this people's House. Each Member of this House has been given the sacred duty of representing them.

This is a season of hope for many in our Nation—for some religious hope, for some celebratory hope, and for others hope for greater blessings in their lives. We ask that You might listen to the hopes of our Nation.

We ask Your blessing as well on the Members of this House, whose responsibilities are heavy as the first session of this 112th Congress nears its completion. Give each Member the wisdom to represent both local and national interests, a responsibility calling for the wisdom of Solomon. Grant them, if You will, a double portion of such wisdom.

Bless us this day and every day, and may all that is done within the people's House be for Your greater honor and glory.

Amen.

#### THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from California (Ms. HAHN) come forward and lead the House in the Pledge of Allegiance.

Ms. HAHN led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

#### SOUTH CAROLINA WINS THE FIGHT AGAINST THE NLRB

(Mr. WILSON of South Carolina asked and was given permission to ad-

dress the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, last Friday the National Labor Relations Board announced that they had approved the requests by the International Association of Machinists to withdraw its complaint against Boeing. For the past year, the President's National Labor Relations Board has played the role of a Big Labor bully by threatening the jobs of hardworking South Carolinians by stalling the second line of the 787 Dreamliner production in Charleston.

Boeing chose to locate in South Carolina due to its welcoming business climate due in large part to its right-to-work laws. Instead of rewarding unions for their political investments, I urge the current administration to enact policies protecting the rights of workers and allowing for growth of small businesses creating jobs. The lesson of this NLRB intrusion is clear: do not locate your facilities in union States because if you enter, like a roach motel, you cannot leave.

In conclusion, God bless our troops, and we will never forget September 11th in the global war on terrorism.

#### UNEMPLOYMENT INSURANCE EXTENSION

(Ms. CHU asked and was given permission to address the House for 1 minute.)

Ms. CHU. Over 13 million Americans are looking for work. That means for every one job opening in the United States, there are four Americans actively seeking employment. Another 10 million people have given up looking for a full-time job altogether because companies just aren't hiring.

These are real people. They are more than just numbers. Ellen Andrews lost her job last year. She's been supporting herself and her 1-year-old son Henry with her unemployment benefits. They help her keep the lights on and keep food in the house until she can get a job.

But the Republican plan will change all that. It will cut 40 weeks of Federal benefits out from under people like Ellen; and it will force partisan policies, like the controversial Keystone XL pipeline, on to a bill that should be all about helping American families.

With the holidays around the corner, Congress should be about giving America hope and security, not playing partisan politics.

#### JOB CREATION

(Ms. HAYWORTH asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HAYWORTH. Mr. Speaker, on December 10 Pamela from Greenwood Lake, New York, in our beautiful 19th

District, sent the following letter to me: "Stop any more Federal spending. Less is better. Europe is a lesson for us. We live in the greatest Nation on Earth."

And, Pamela, you're absolutely right. If we are going to spread the blessings of the greatest opportunity society in history, then as we enter this holiday season, we need the promise of growth.

Your House of Representatives, Republicans and Democrats alike, have as of today passed 27 bills, job-growing, growth-promoting bills that protect American workers and job creators from tax increases, roll back burdensome regulations, and end the Federal spending that suffocates the economic engine of enterprise. And we keep them listed on a card so everybody knows.

I urge the Senate to act now to put those bills to work and put our people back to work and give every American good reason to look forward to a happy new year in this land of liberty.

#### PAYROLL TAX CUT

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Mr. Speaker, today the House will debate extending the payroll tax cut. I strongly urge extending this tax cut. If we don't, tens of millions of New York families will see an average tax increase of \$1,000 next year, and as many as 400,000 jobs could be lost nationwide.

But, frankly, it is ridiculous that we are considering this legislation on the floor today. With so many unrelated riders attached to the bill, we know it is dead on arrival in the Senate. This charade will create anxiety among middle class Americans that their taxes are about to go up, and it will create economic uncertainty during the holiday season when so much of our economy is based on consumer confidence and spending.

The same Congress that took us to the edge of a government shutdown and defaulting on our debt is again choosing brinksmanship over leadership, regardless of the impact on our economy and the middle class.

I urge the House to reject this bill and pass a clean extension of the payroll tax cut that we know will pass the Senate and become law immediately.

#### STAND WITH ISRAEL

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, the U.N. agency UNESCO sent a message to Israel loud and clear that the U.N. accepts the creation of a Palestinian state whether Israel likes it or not. UNESCO intervened in the peace process and formally recognized the Palestinian state by raising the flag in front

of the whole world. No surprise there, just another day in the U.N.'s position of bigotry against all things Israel. Yet another reason to cut U.N. funding.

Israel is America's loyal ally and the lone free and democratic country in the Middle East. Its people are constantly under attack from the jihadists who wish to remove them from the Earth all in the name of religion. The same radicals who wish to kill innocent Israelis are also sworn enemies of America. Intimidation, terror, and murder are not acceptable and must be rejected by the entire international community, especially the U.N. The United States must make it clear that we stand with Israel in their fight against hate and extremism, whether the U.N. likes it or not.

And that's just the way it is.

#### HELPING SMALL BUSINESSES

(Ms. HOCHUL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HOCHUL. Mr. Speaker, this past weekend, I held a forum for small businesses and teamed them up with experts from the U.S. Government on how to discuss strategies in getting them into the global marketplace. It's also a reminder to me of the vast, untapped potential that lies before us as we address the critical needs for more jobs in this country.

With nearly 96 percent of the world's consumers living outside the U.S. and two-thirds of the world's purchasing power in foreign countries, we must help our small businesses learn how to export their products and services to other nations.

Small businesses I met on Saturday, like the Kean Wind Turbines and Maram's Dress Shop in Williamsville, are looking for a shot at this marketplace; but they need our help. After all, small businesses that export their goods and services are one-third less likely to fail than companies that do not export. Therefore, I'm urging every Member of Congress to work with their local businesses to help expose them to the amazing opportunities that await them if they are willing to leap into the global marketplace. I put our products and our businesses up against any global competitor anytime, anywhere.

□ 1210

#### HONORING CALHOUN YELLOW JACKETS

(Mr. GINGREY of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GINGREY of Georgia. Mr. Speaker, I rise today to recognize the undefeated Calhoun High School football team, the Yellow Jackets, who in

my district won their first-ever Georgia High School Association Class AA State championship with a 27-24 win against the Buford High School Wolves last Friday, and give a special shout-out to Superintendent Dr. Michele Taylor and Principal Greg Green.

For the past 4 years, Calhoun has played Buford in the State championship, and this year, in truly nail-biting fashion, Calhoun prevailed in overtime on a 32-yard field goal by Adam Griffith.

Mr. Speaker, Buford is one of the best teams in the country, led by my friends Coach Jess Simpson and Athletic Director Dexter Wood. And it would have set a record had it won its fifth straight State championship, but Calhoun was finally able to stop them.

My congratulations to head Coach Hal Lamb and his staff, the outstanding young athletes and their families, and the whole high school community on this great victory. You've made us all proud. Go Yellow Jackets.

#### IRAN THREAT REDUCTION ACT

(Mr. QUIGLEY asked and was given permission to address the House for 1 minute.)

Mr. QUIGLEY. Mr. Speaker, this week the House will consider the Iran Threat Reduction Act to bolster sanctions on the Iranian regime. It is time.

As the International Atomic Energy Agency recently reported, Iran could have a bomb within a year and is pursuing the means to trigger and deliver a nuclear weapon. We are out of time and have no choice but to enact the severest of sanctions in order to protect our ally Israel, our troops, and the entire region. And as the Israeli Prime Minister warned, there is nothing to stop Iran from exporting the bomb.

This bill will put in place debilitating sanctions on the Central Bank of Iran, which finances the nuclear program. The sanctions would deny those who do business with Iran Central Bank access to American markets. We are out of time, and we are running out of options. This bill gives us more of both.

I urge my colleagues to pass H.R. 1905, cut off the Central Bank of Iran, and send a message that a nuclear Iran is unacceptable.

#### BLOCK THE IMF FROM BAILING OUT EUROPE

(Mr. BUCHANAN asked and was given permission to address the House for 1 minute.)

Mr. BUCHANAN. Mr. Speaker, America is drowning in a sea of debt. But instead of addressing our own financial problems here at home, there is talk of another bailout—not for America, but for Europe.

Recent reports indicate that the International Monetary Fund, of which

the U.S. is the leading contributor, may intervene to bail out failing European countries.

Washington needs to be focusing on policies that grow the U.S. economy and create jobs here, not shipping hard-earned tax dollars overseas. For this reason, I have cosponsored legislation to block the IMF from sending \$108 billion in U.S. funds for a European bailout. I urge my colleagues in Congress to join me in this effort. Taxpayer dollars should not be used to bail out Europe. We need to take care of America first.

#### LET'S VOTE ON A CLEAN UNEMPLOYMENT BENEFITS BILL

(Ms. HAHN asked and was given permission to address the House for 1 minute.)

Ms. HAHN. Mr. Speaker, we're running out of time. Just in California, where I come from, 356,000 Californians are at risk of losing critical unemployment benefits because this Congress has failed to act. These aren't just 356,000 strangers; these are our friends, these are our neighbors, these are our families. These are proud Americans who through no fault of their own have lost their jobs. They want to work, but because this Congress has failed to act, jobs are hard to find. And instead of just voting on extending these unemployment benefits, my Republican friends have asked us to approve other unrelated controversial items in this bill.

What I'm saying to my Republican friends is, can't we just vote on the unemployment benefits by themselves? Can't we debate the oil pipeline later? Do we have to gut clean air laws to extend benefits? Let's vote on this on its own and give Americans some hope.

#### NATIONAL GUARD'S 375TH BIRTHDAY

(Mr. PALAZZO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PALAZZO. Mr. Speaker, today I rise to wish a very happy birthday to our National Guard. As the only active noncommissioned officer in Congress, this anniversary is a landmark that I am personally very proud of.

Three hundred seventy-five years ago today, on December 13, 1636, the Massachusetts General Court in Salem declared that all able-bodied men between the ages of 16 and 60 were required to join the militia. These men were called upon when needed, and we proudly continue this tradition of citizen service.

Today our National Guard soldiers are called upon to serve both here in our communities and around the world in support of our current overseas operations. Our Nation's citizen soldiers

dedicate themselves to the defense of our Nation both here and abroad. I personally would like to thank all of my fellow Guardsmen for the job they are doing, and thank you to all of our men and women in uniform, and especially their families.

Thank you, happy birthday, and God bless.

#### LIHEAP

(Mr. BASS of New Hampshire asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BASS of New Hampshire. Mr. Speaker, the weather is cold in the Northeast. This year is no exception. In October, we had a huge snowstorm, an emergency declaration. Residents of the northern States—Maine, New Hampshire and Vermont—are over 80 percent dependent on heating oil. And we've depended—in the case of New Hampshire, 47,200 people—on the Low Income Energy Assistance Program. It is imperative that this program be adequately funded this year.

Mr. Speaker, the President, in his budget submission this year, proposed to cut LIHEAP funding by 50 percent. I urge our appropriators to do better than that this year because there are a lot of people in the Northeast that need this funding this year.

I urge support for adequate funding for low income energy assistance.

#### HUMAN RIGHTS DAY

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute.)

Mrs. DAVIS of California. Mr. Speaker, I rise today to speak about Human Rights Day.

This past Saturday, I was honored to speak in commemoration of Human Rights Day, a day chosen to honor the Universal Declaration of Human Rights. The declaration was the world's first bill of rights.

When many from all corners of the globe were fighting for basic freedoms—freedom of speech, freedom of religion, people from fear and repression—the declaration assured them that they were fighting the good fight and they were on the right side of history.

Today I stand to recognize the men and women who are still fighting for these freedoms, including the seven democracy and land rights activists and 15 youth activists who have been illegally detained by the Vietnamese Government.

All individuals deserve the right to peacefully express their concerns. I call on my colleagues to stand side by side with these brave individuals and raise their voice in demanding that the Government of Vietnam release all prisoners of conscience and uphold their commitment to human rights for all.

□ 1220

#### CREATING JOBS

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, today the House will vote to extend critical provisions to help those seeking jobs, and we will do so without hurting job creators or adding to our national debt. Today's Tax Relief and Job Creation Act also extends the payroll tax holiday, preventing a tax increase on millions of Americans. I'm also very glad to see that we extend the doc fix for 2 years, preventing cuts that could lead many doctors to stop seeing Medicare patients. The bill also shows that the government doesn't have to spend money to create jobs; much of the time it just has to get out of the way.

The State Department has already declared that the planned route of the Keystone pipeline is the safest option, that the contractor is taking every safety precaution. We can see more than 120,000 jobs directly and indirectly created without a dime of taxpayer money.

Our bill proves that you don't need to raise taxes on some Americans to create jobs and provide essential benefits. We don't need to hurt job creators or add to future burdens in order to do the right thing.

#### PROTECTING SOCIAL SECURITY AND PROVIDING TAX RELIEF FOR MIDDLE CLASS FAMILIES

(Mr. HOLT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOLT. Mr. Speaker, like so many of my colleagues, I think we should prevent 160 million taxpayers from getting a lump of coal and a tax hike this year, but we should not undermine Social Security.

Last year, it was a mistake to take the 2 percent tax cut from Social Security and say we'll cover the losses from general funds. We should not allow a 1-year mistake to become a permanent attack on Social Security and on the livelihood of its beneficiaries.

Social Security should not be used as a rainy day fund or a political bargaining chip. It should not be like another government agency that some years has a good budget and some years has the budget voted away.

President Roosevelt described it best. He said, "We put these payroll contributions there so as to give the contributors a legal, moral, and political right to collect their pensions. With those taxes in there, no damn politician can ever scrap my Social Security program."

Now, here's a way to handle the problem and to keep the mechanism of Social Security intact: Make the changes

within the existing system. Let's cut the payroll tax for 160 million Americans but make up the lost revenue by temporarily eliminating the cap on wages taxed.

As much as we need economic stimulus now, we need Social Security for generations to come.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. CHAFFETZ). The Chair will remind Members to heed the gavel.

#### THE JOBS BILL

(Mrs. CAPITO asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPITO. Mr. Speaker, Americans have made their lists for the holidays. Drum roll, please.

Number 10, pass the doc fix for doctors who treat Medicare patients;

Number 9, continue the payroll tax holiday for American workers;

Number 8, approve the Keystone pipeline in the name of creating jobs;

Number 7, extend and reform employment benefits;

Number 6, repayment of subsidies and reduce all fraud, waste, and abuse;

Number 5, prevent the EPA from destroying jobs by onerous boiler MACT regulation;

Number 4, allow businesses to expense their costly purchases;

Number 3, include spectrum auctions for more broadband services;

Number 2, do all of this without adding to the deficit; and

Number 1, please create American jobs.

To my colleagues, don't be a grinch. Please help grant America's holiday wishes.

And to the President, make this your list, check it twice. America wants and needs jobs for the holidays.

#### HUNGER IN AMERICA

(Mr. MCGOVERN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MCGOVERN. Mr. Speaker, we're the richest, most prosperous nation in the world, but 49 million Americans went hungry in 2009; 16 million were children. These numbers would be higher if it weren't for programs like SNAP, formerly known as food stamps, and WIC.

We have a hunger crisis in America, and we are not doing enough to prevent this terrible scourge.

During this holiday season, the House and Senate Hunger Caucuses are sponsoring the Hour for Hunger event. Congresswoman JO ANN EMERSON and I are encouraging every Member of this House to volunteer 1 hour to highlight efforts in their districts to fight hun-

ger. Visit a food bank or a food pantry, host a food drive. It's not hard, but it's important and effective.

Finally, I want to urge the White House to host a Conference on Food and Nutrition so we can develop and implement a comprehensive and coordinated national strategy to end hunger in America once and for all.

Hunger is a political condition. All we need now is the political will to end it.

#### APPROVE THE KEYSTONE PIPELINE

(Mr. LANKFORD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANKFORD. Millions of Americans are jobless. In response, the House of Representatives has passed more than 20 jobs bills.

This past July, the North American-Made Energy Security Act urged President Obama to issue a final permitting decision on the Keystone pipeline, which will connect Canada's rich oil sands to the U.S. refineries along the gulf coast.

Our dependence on Middle East oil is a security and economic challenge that we must overcome.

The proposed pipeline would consist of over 1,700 miles capable of delivering more than half a million barrels of crude oil each day. In my home State of Oklahoma, this pipeline project is expected to add \$1.2 billion in economic impact.

This pipeline presents a unique chance for America to truly cull back our precarious dependence on Middle East oil while also adding tremendous economic activity to our stagnant economy.

In early November of this year, the Obama administration made an unacceptable political decision to punt the approval of the Keystone pipeline until after the Presidential election. A few weeks ago, I formally asked the Secretary of State to at least approve the southern route of the pipeline from Cushing, Oklahoma, to the gulf. Our country has waited for Presidential approval for 3 years.

#### VOTE AGAINST H.R. 3630

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Mr. Speaker, the Republican plan to extend the payroll tax is deeply flawed in many ways, but perhaps the most egregious are the fundamental changes it would make to some of our Nation's core institutions without any discussion or debate.

It would cut unemployment insurance benefits for 1 million Americans and impose new restrictive limits on workers who've been laid off. It would

require millions of seniors to pay more for health care by slashing funding designed to lower costs. It would roll back essential EPA rules to keep our air clean, and it would actually increase the deficit by almost \$26 billion over 10 years, according to the CBO.

The vast majority of Americans want the wealthiest to pay their fair share so we can get the country back on track and preserve government institutions. We need a reasonable solution to keep middle class tax cuts in place and maintain funding for Social Security.

Republicans are saying, sure, we'll give you a tax cut, but we're going to slash your husband's unemployment benefits in order to pay for it. That's not a way for families to preserve their standard of living.

Mr. Speaker, the American people want a government that is fair and just, not one that promotes economic imbalance and cynicism.

I urge my colleagues to vote against H.R. 3630.

#### FARMERS CONFRONTED BY OUT-OF-CONTROL REGULATION

(Mr. HULTGREN asked and was given permission to address the House for 1 minute.)

Mr. HULTGREN. Mr. Speaker, last week the Illinois Farm Bureau Federation polled its members about the long-term challenges confronting them. It shouldn't surprise anyone that the number one thing that they named is government regulation. After all, Washington bureaucrats too often know nothing about rural America and challenges confronting our farming families. They've sought to burden them with new regulations on everything from spilt milk to dust.

But while those bureaucrats are trying to generate more regulations, here in the House we're working hard to cut it back. This year, we have passed numerous pieces of legislation to roll back the most egregious rules proposed by the EPA and others to ensure that America's family farmers have the regulatory certainty they need to survive and thrive over the next decade and beyond.

Now it's time for the Senate to act.

#### WE DON'T LEARN FROM HISTORY

(Ms. HIRONO asked and was given permission to address the House for 1 minute.)

Ms. HIRONO. Mr. Speaker, I don't know what's the matter with us when we don't learn from history.

After the Great Depression, we passed the Social Security Act. Two major components: One is to keep our seniors safe in their years of retirement, and the second, to provide for those who may become unemployed through no fault of their own.

The bill that we're being asked to vote on today is going to cut unemployment, cut unemployment, the extended portion, which people have come to rely on for those who are looking for work and can't get it, and we're cutting the emergency portion of it as well by eliminating tiers.

But, Mr. Speaker, more than anything else, the part that just bothers me and forces me to speak is that we are going to make people qualify for unemployment. They've got to have a high school diploma or a GED equivalent.

Mr. Speaker, my father went to the ninth grade. He worked through his whole life. Imagine someone like him, and there are many people like my father, that will not qualify for unemployment, will not qualify because they didn't have a high school diploma.

□ 1230

#### LEFT TURN, BY TIM GROSECLOSE

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, Professor Tim Groseclose of UCLA has recently published a book, "Left Turn, How Liberal Media Bias Distorts the American Mind." He uses clearly defined quantitative measures to evaluate the bias of media outlets.

In "Left Turn," he scientifically measures the political content of media outlets and converts that content into a slant quotient of an outlet. To measure the bias, he compares slant quotients of news outlets to the political quotients of the typical American voter and political leaders.

Groseclose concludes that the great majority of all national media outlets have a liberal bias. He also points out the conservative bias of a very few outlets, but he determined their conservative bias is less than the liberal bias of most national media.

Mr. Speaker, Dr. Groseclose also cites evidence that the media has shifted the political views of Americans and caused them to be more liberal. So media bias is both real and unfortunate.

#### CONSUMER FINANCIAL PROTECTION BUREAU

(Mrs. CAPPS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPPS. Mr. Speaker, I rise today to applaud recent actions taken by the Consumer Financial Protection Bureau to better inform American consumers. Created last year by the Dodd-Frank Wall Street Reform law, the CFPB's mission is to take the tricks and traps out of financial products we

use every day like credit cards and mortgages.

So even though GOP Senators are filibustering the confirmation of the agency's top official, the Bureau is already at work on behalf of consumers. This project, Know Before You Owe, aims to simplify credit card agreements and student loan disclosure forms so consumers know exactly what they're getting into when they borrow.

Importantly, CFPB is asking consumers for their input on this important task. So I encourage all citizens to visit [consumerfinance.gov](http://consumerfinance.gov) to share their experiences about credit cards and loan agreements. Consumers can also file complaints about credit card companies or mortgage services and learn how to protect themselves from financial scams.

For the first time, we have a dedicated watchdog looking out exclusively for the interests of consumers. I urge all American consumers to take advantage of these great new resources.

#### TYPE 1 JUVENILE DIABETES

(Mr. YODER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. YODER. Mr. Speaker, yesterday in Leawood, Kansas, I had the privilege to meet with a bright, energetic young man named Garrett. Garrett is 4 years old and suffers from type 1 juvenile diabetes.

Garrett's story is touching, and it is all too familiar to families across this country who struggle with the stress and strain of juvenile diabetes and the constant concern about the right diet, the right insulin levels, about the highest quality of life for their children.

Last month, I was pleased to hear the Food and Drug Administration issue new guidelines aimed at helping speed up the development of artificial pancreas systems.

Mr. Speaker, it's clear that we as a country need to continue to do all that we can to help bright children like Garrett who need better tools to manage their disease and prevent life threatening and costly complications.

#### A RESPONSIBLE TAX EXTENDER PACKAGE

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Mr. Speaker, 160 million Americans stand on the brink of a tax hike. Republicans in Congress need to get serious about working together on a bipartisan package to extend the payroll taxes for the middle class and renew unemployment benefits.

The Republican extender package reduces eligibility for unemployment benefits by 40 weeks. It would require everyone receiving benefits to have a

GED. My dad, who only had a third-grade education, would not be eligible. And it cuts \$21 billion from affordable health care programs, causing 170,000 Americans to become uninsured.

Republicans are asking seniors to pay more for their Medicare, and they're asking the Federal employees to have serious cuts or salaries frozen until the year 2015. Yet they refuse to ask millionaires and billionaires to pay one more cent. No taxes, no jobs.

Let's pass a responsible plan to extend the payroll tax and unemployment benefits before it's too late.

#### TIME FOR CHANGE ON TAX EXTENDER

(Ms. EDWARDS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. EDWARDS. Mr. Speaker, Joyce Timmons from Suitland, Maryland, called my office to say that the extra money in her paycheck from the soon-to-expire payroll tax cut is important to her and her family.

Joyce and 160 million workers are wondering why my Republican colleagues are now for raising taxes on working people before they were against raising taxes. That's right. The Republicans oppose extending the payroll tax cut except by blackmail.

By extending the tax cut, working people like Joyce Timmons would receive, on average, a thousand dollars next year. It's not a \$10,000 bet; it's real money in the economy.

Republicans go out of their way to block job creation and protect tax cuts for the 1 percenters, but they want to raise taxes for the 99 percenters. And they won't stop there.

More than a million Americans have been out of work for a really long time, including 25,000 Marylanders; yet Republicans want to be the grinch who stole Christmas by denying an unemployment check so that people who want to work but can't find work can buy groceries, pay rent and utilities, and tide their families over.

Republicans want to go home for the holidays, but they want working people to pay more in taxes next year and lose out on an unemployment check.

The Grinch became a good guy; Scrooge found a heart; even Mr. Potter changed his tune. It's time for Republicans to change too.

#### HOW LOW CAN YOU GO?

(Mr. DAVIS of Illinois asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAVIS of Illinois. This weekend I attended a senior citizen party and we had a dance contest, and two people would hold a stick and others would try to go under it. And the disk jockey

would ask the question: How low can you go? Can you go to the floor?

And I submit that if we refuse to provide unemployment tax extensions, I'd have to ask the Congress: How low can you go? Can you go to the floor?

#### COMMUNICATION FROM THE CLERK OF THE HOUSE

The SPEAKER pro tempore laid before the House the following communication from the Clerk of the House of Representatives:

OFFICE OF THE CLERK,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, December 13, 2011.

Hon. JOHN A. BOEHNER,  
The Speaker, House of Representatives,  
Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, the Clerk received the following message from the Secretary of the Senate on December 13, 2011 at 9:48 a.m.:

That the Senate passed with an amendment H.R. 1801.

With best wishes, I am

Sincerely,

KAREN L. HAAS.

#### PROVIDING FOR CONSIDERATION OF H.R. 3630, MIDDLE CLASS TAX RELIEF AND JOB CREATION ACT OF 2011

Mr. DREIER. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 491 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 491

*Resolved*, That upon the adoption of this resolution it shall be in order to consider in the House the bill (H.R. 3630) to provide incentives for the creation of jobs, and for other purposes. All points of order against consideration of the bill are waived. The amendment printed in the report of the Committee on Rules accompanying this resolution shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, to final passage without intervening motion except: (1) 90 minutes of debate equally divided and controlled by the chair and ranking minority member of the Committee on Ways and Means; and (2) one motion to recommit with or without instructions.

#### POINT OF ORDER

Ms. MOORE. Mr. Speaker, I raise a point of order against H. Res. 491 because the resolution violates Section 426(a) of the Congressional Budget Act.

The resolution contains a waiver of all points of order against consideration of the bill, which includes a waiver of section 425 of the Congressional Budget Act, which causes a violation of section 426(a).

The SPEAKER pro tempore. The gentlewoman from Wisconsin makes a point of order that the resolution vio-

lates section 426(a) of the Congressional Budget Act of 1974.

The gentlewoman has met the threshold burden under the rule, and the gentlewoman from Wisconsin and a Member opposed each will control 10 minutes of debate on the question of consideration. Following debate, the Chair will put the question of consideration as the statutory means of disposing of the point of order.

The Chair recognizes the gentlewoman from Wisconsin.

Ms. MOORE. I thank you so much, Mr. Speaker.

Sadly, we're here once again with my Republican colleagues who are trying to ram through this fat-cat tax extenders legislation, providing mere crumbs from the master's table for working people that will neither help the American people weather this economic malaise nor create a single job.

□ 1240

To add insult to injury, the Rules Committee has rejected all attempts to allow any amendments to this horrible piece of legislation. I proposed four amendments, which were not considered, and in fact, the Republican majority rejected a Democratic substitute.

There is a song by the group Cameo—and I know Mr. DREIER will appreciate this—called “Talkin’ Out the Side of Your Neck.” The lyrics are:

So you can see we're back into this same old mess.

Seems like every time we get out of one situation we're back into it all over again.

All you people that watch you talk, you better get it together or we won't get it done.

We sit down while you cuss and fuss. But guess who's suffering. Nobody but us.

That's exactly what the Republicans are doing—talking out of both sides of their necks. They talk and talk and talk, making false claims to the middle class, false promises, when they're really trying to protect the interests of the 1 percent; and like the song suggests, those in the middle class are the ones who are suffering.

Once again, through this sham piece of legislation, the Republicans claim to be creating jobs when the cruel thing is that, when 160 million workers are given a small payroll tax holiday, the cost is they are held hostage with the tax breaks for the fat cats. Additionally, the Congressional Budget Office reports that this legislation adds over \$25 billion to our Nation's deficit.

But those grinchies don't stop there, Mr. Speaker. They're trying to steal the holiday spirit from hardworking Americans. How? With this legislation.

Our overall unemployment rate did drop recently from 9.1 percent to 8.6 percent, and I am happy to be joined this afternoon by some of my colleagues from the Congressional Black Caucus who will talk to you a little bit more about how this pertains to black unemployment.

Briefly, though, while unemployment dropped for white men from 7.9 to 7.3 percent, black men endured a spike from 16.2 percent unemployment to a disturbing 16.5 percent. Of course, according to the Bureau of Labor Statistics, unemployment declined for every demographic group within the white community but increased for every demographic group within the African American community. Further, Mr. Speaker, this bill cuts the Federal unemployment program by more than half in 2012, eliminating 40 weeks of benefits, cutting benefits so drastically for those workers and communities that have been most hurt by this recession.

One of the most egregious aspects of this bill is that it promotes State drug testing for workers in order for them to qualify for unemployment benefits. Mr. Speaker, did the authors of this provision know about the Constitution of the United States? This bill also imposes new limits on unemployment compensation by restricting the benefits that employees have paid for.

This is just outrageous. It is time to stop the doublespeak and to give them real talk, and I urge all of my colleagues to vote against this legislation.

Mr. Speaker, at this time I want to yield to one of my good friends from the Congressional Black Caucus, the gentlelady from Ohio, Ms. MARCIA FUDGE.

Ms. FUDGE. I thank the gentlelady for yielding.

I rise today in strong opposition to this rule and the underlying bill.

How in good conscience can we allow States to fund re-employment programs with money that would otherwise be in the pockets of the unemployed?

My amendment mandates transparency and accountability. It requires States to make public the amount of money taken from the checks of unemployed Americans. It's not that I am against re-employment, Mr. Speaker, but I am against decreasing the amount of money that beneficiaries get every month. I mentioned Karen from Cleveland on the floor last week. Karen was laid off in March. Her unemployment check is allowing her to keep her home and to pay for expensive prescriptions. She relies on every single dollar.

Let's cut the partisan posturing, and let's extend unemployment insurance without unnecessary riders.

Ms. MOORE. At this time, Mr. Speaker, I would like to yield 2 minutes to my colleague from the Virgin Islands, Dr. DONNA CHRISTENSEN.

Mrs. CHRISTENSEN. I thank the gentlelady for yielding.

Mr. Speaker, I rise in support of this point of order on H. Res. 491.

Here we go again with another misnamed bill that is designed not for middle class tax relief or for job creation but to hold a “must pass” vehicle hostage through some misguided Republican pet projects and policy initiatives

that harm the environment and threaten public health. It is also a bill that is wasting time, time that could really be used to create jobs and help the middle class because, with these poison pills, it is going nowhere. Unfortunately, the good things in the bill are threatened because of these other provisions.

The payroll tax deduction, the 2-year SGR fix, as well as one or two other health care provisions are good parts of the bill that are needed by our Nation's families, our doctors and Medicare beneficiaries, but they should not be weighed down by the provisions that allow the Keystone pipeline to bypass regulations, that allow industrial boilers and incinerators to pollute, and that cut billions of dollars and, therefore, important services that are in the Affordable Care Act. With millions of our fellow Americans out of work, it also fails to provide the full extension of unemployment that is needed in this time of improved but still slow job creation—something the Republican leadership has talked a lot about but has done nothing to help.

This bill is pure politics. And what is it that my colleagues on the other side of the aisle do not understand about drug addiction being an illness?

One of the Republican Governors tried a similar proposal for food stamps in Florida. Not only was it bad policy, it yielded nothing. It unfairly targeted and branded poor people, and it wasted taxpayer dollars. All of this is designed to deny unemployment benefits that they have resisted and are still not fully funding. I hear a lot about class warfare, but real class warfare is protecting everything for the rich and punishing the poor, the middle class, the elderly, and the unemployed. It has got to stop.

I urge my colleagues to support this point of order and to vote against the rule and the bill. We need a clean extension of the payroll tax, 99 weeks of unemployment, and a 2-year SGR fix. Yet it should not be paid for by taking funds from programs that are needed to protect public health and safety.

Ms. MOORE. Mr. Speaker, I would inquire of the remaining time on this side.

The SPEAKER pro tempore. The gentlewoman has 3 minutes remaining.

Mr. DREIER. Mr. Speaker, will the gentlewoman yield?

Ms. MOORE. I yield to the gentleman from California.

Mr. DREIER. Mr. Speaker, I would just like to say that I am going to be claiming time in opposition to the point of order that my friend has raised, and I'm not going to consume the entire amount of time. So, when I do that, I would like to yield 1 minute to my friend in the spirit of the season and in the spirit of bipartisanship.

I would just like to state that for the record.

Ms. MOORE. That is very kind of you, Mr. DREIER.

I would now yield 1 minute to my good friend from Oakland, California, Representative BARBARA LEE.

Ms. LEE of California. I want to thank the gentlelady for yielding time and for her leadership on an issue so critical to extending a safety net to those who are desperately looking for jobs and who need this bridge over troubled waters at this point.

Mr. Speaker, the Republican bill would gut unemployment benefits to the millions of Americans who are looking for work when there are, roughly, four people for every one job. It would reduce unemployment benefits down to 59 weeks from 99 weeks at a time when we are facing a serious crisis among our long-term unemployed. It makes no economic sense, and quite frankly, it is heartless.

The Lee-Scott amendment would have replaced these Republican Christmastime cuts with real extensions of unemployment benefits, and it would have added an additional 14 weeks of unemployment insurance for the millions of Americans who have already exhausted their benefits, but the Republicans did not make any amendments in order—no fixes allowed to the heartless and senseless cuts that this contains.

This bill is really a sham. It's a shame, and it's a disgrace. It will cost our Nation jobs, and it is a slap in the face to job seekers. We should really be about the work of reigniting the American Dream, not making it more of a nightmare for people as this bill would do.

Ms. MOORE. I would now yield 1 minute to my good friend from Illinois (Mr. DAVIS).

Mr. DAVIS of Illinois. I want to thank the gentlewoman from Wisconsin for yielding.

I rise in strong support of her opposition to this amendment. I rise in strong support of the passage of the underlying bill.

This resolution fails to recognize that there are disproportionate opportunities and a lack of opportunities for members of some groups, such as minority groups who are African American and who are Hispanics. There is no consideration given to these facts. Therefore, I must be in opposition to the rule and to the bill.

□ 1250

Ms. MOORE. How much time do I have remaining, Mr. Speaker?

The SPEAKER pro tempore. The gentlewoman from Wisconsin has 1½ minutes remaining.

Ms. MOORE. I would yield 1 minute to my good friend from Texas, SHEILA JACKSON LEE.

Mr. DREIER. Mr. Speaker, if the gentlewoman will yield, I will just remind her that when I claim my time, I will be yielding an additional minute to my friend. So she certainly can feel free to yield any of that time once I do that.

Ms. MOORE. That is quite generous of the gentleman. And so I will yield a minute and a half to my very eloquent colleague, the gentlelady from Texas, Representative SHEILA JACKSON LEE.

Ms. JACKSON LEE of Texas. Mr. Speaker, I join with my colleague from Wisconsin in thanking the gentleman from California for his generosity, but I also thank my colleague from Wisconsin for her astute assessment that causes me to pause.

Her point of order is whether or not this is what we call "an unfunded mandate," this bill that we will be discussing on the floor of the House. And even though the rule says that the points of order or the issues of being an unfunded mandate have been waived, please understand that that is an action that can be taken. It doesn't mean that it eliminates the truth.

And I raise a question, whether this humongous bill that we are going to discuss, that does not answer the crisis of what we are facing—which is 6 million people without unemployment insurance who will not be able to pay mortgage, rent, food, to be able to have a quality of life, to create income, to create some 700,000 jobs on the unemployment end, and to pull 3.2 million people out of poverty—is now going by the wayside. And the payroll tax cut now is shackled with unwanted baggage.

So I rise to argue the point of order as to unfunded mandates and argue to support the position of Mr. LEVIN from the Ways and Means Committee, which is to declare the unemployment issue an emergency, to do the payroll tax and a surtax on 1 percent of the American population for 10 years starting in 2013, and adopt a fix, used and paid for with Medicare savings. This is an unfunded mandate. This is not a bill that should pass, and we should support the unemployed and those who need a payroll tax cut.

The SPEAKER pro tempore. The time of the gentlewoman from Wisconsin has expired.

Mr. DREIER. Mr. Speaker, I rise to claim time in opposition to the point of order and in support of proceeding with the resolution.

The SPEAKER pro tempore. The gentleman from California is recognized for 10 minutes.

Mr. DREIER. With that, as I said, in the spirit of bipartisanship, which is the basis of the underlying legislation and the spirit of the Christmas season, I am happy to yield not just a minute, Mr. Speaker, but I would like to yield a minute and a half to my good friend from Milwaukee, with whom I share an affection for our great, fine music.

Ms. MOORE. Again, I want to thank the gentleman for allowing our side to have some voice in this matter. He yielded me time in the name of the season; so I will frame my remaining remarks in that frame.

The season is the reason;

'Tis almost treason to extend full benefits to corporations, who are people.

And leave those who are unemployed feeble.

The season is the reason to extend full benefits to the unemployed. It is almost a ploy to provide tax breaks to corporations and to leave the people with no resources.

I ask my colleagues to support my point of order. It would be egregious if we were to move forward on this bill, on this resolution, without considering the plight that we would put the unemployed in.

Mr. DREIER. Mr. Speaker, I yield myself the balance of my time, as I have said, to speak in opposition to the point of order and in support of our moving ahead with the resolution.

My friend is a very, very thoughtful poet herself, and I've been the beneficiary of much of her fine work. She and I share an affection for R&B music. She quoted Cameo and "Talkin' Out The Side Of Your Neck." I don't really know that song, I have to admit, Mr. Speaker; but I'll have to check it out.

But what I would like to do is, since we've heard of the eloquence of Cameo and the eloquence of GWEN MOORE, the great poet, I would like to quote William Shakespeare. William Shakespeare said, "In such business, action is eloquence."

Now we have before us a measure that is designed to do one thing and one thing only, and that is to focus on getting our economy growing and generating job opportunities for the American people. The American people are hurting. We know that. There are people across this country hurting. And as my friends have just outlined, there are individuals who have suffered greatly. It is absolutely imperative that we do everything that we can to ensure that they have job opportunities and that those who are unable to find job opportunities have the assistance that they and their families need to proceed, especially during this time of year. Any action that my colleagues are proposing on the other side will simply delay our effort that will ensure that we extend the payroll tax holiday for an additional year, and it will prevent us from providing those benefits to people who are unable to find work today.

So I will be discussing the underlying legislation when we proceed with consideration of this rule, but I urge my colleagues to oppose this point of order and allow us to proceed with consideration of the resolution so that we can put into place a legislative package that will get the American people back to work and ensure opportunity for all.

With that, Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired.

The question is, Will the House now consider the resolution?

The question was taken; and the Speaker pro tempore announced that the yeas appeared to have it.

Ms. MOORE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 227, nays 174, not voting 32, as follows:

[Roll No. 917]

Messrs. CARNEY, GRIJALVA, BERMAN, RICHMOND, Ms. RICHARDSON, and Mrs. MCCARTHY of New York changed their vote from "yea" to "nay."

Mr. WALDEN changed his vote from "nay" to "yea."

So the question of consideration was decided in the affirmative.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. RIVERA. Mr. Speaker, on rollcall No. 917 I was unavoidably delayed. Had I been present, I would have voted "yea."

Stated against:

Mr. FILNER. Mr. Speaker, on rollcall 917, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "nay."

Mrs. NAPOLITANO. Mr. Speaker, on Tuesday, December 13, 2011, I was absent during rollcall vote No. 917. Had I been present, I would have voted "nay" on the question of consideration of the resolution, H. Res. 491, providing for consideration of H.R. 3630, to provide incentives for the creation of jobs, and for other purposes.

The SPEAKER pro tempore (Mr. DOLD). The gentleman from California is recognized for 1 hour.

Mr. DREIER. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to my good friend from Worcester, Mr. MCGOVERN, pending which I yield myself such time as I may consume. During consideration of this resolution, all time will be yielded for debate purposes only.

#### GENERAL LEAVE

Mr. DREIER. I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. DREIER. Mr. Speaker, I yield myself such time as I may consume.

House Resolution 491 is a closed rule, which, as we all know, is customary under both Democrats and Republicans for a measure that has emerged from the Ways and Means Committee. But we have chosen in this rule to expand the debate time so that both Democrats and Republicans will have an opportunity to be heard. So we have expanded the debate from 60 to 90 minutes, a 50 percent increase in the amount of time, because of the gravity of this measure, because there are Members who want to be heard. We will have this hour debate on the rule itself, which clearly will get at the substance of the legislation, and then we will have an additional hour and a half, so a total of 2½ hours.

Mr. Speaker, we all know what our job is here. Right now our job is jobs. Our job is jobs. We have a responsibility to put into place policies which will encourage job creation and economic growth, and that's exactly what this legislation is designed to do.

Our fellow Americans across this country are hurting. Part of the area that I represent in southern California has a 14 percent unemployment rate, substantially larger than the national average. We have people in my State of California and across this Nation who have lost their jobs, who have lost their homes, who have lost their businesses.

We, today, are dealing, very sadly, with a chronic unemployment rate. It has been sustained for a longer period of time than has been the case since the Great Depression. And it seems to

me that, as we look at where we're going on this, we have to recognize what it is that gave us this positive number of a reduced unemployment rate from 9 percent to 8.6 percent. It was because, very sadly, hundreds of thousands of Americans decided to give up looking for work, and that's what allowed the unemployment rate to drop. But we know that it is not acceptable; and especially as we go into this holiday season, Mr. Speaker, to have so many Americans who are suffering is not acceptable.

And that's why we are here today, to take steps to ensure that we, first and foremost, put into place job opportunities and, second, address the needs of middle-income working Americans and those who are struggling to make ends meet and don't have jobs. And that's why we have chosen to not only extend unemployment benefits—and we're doing so, I'm happy to say, with very important reforms, very important reforms that deal with things ranging from drug testing to encouraging people to qualify for their GEDs. It doesn't mandate it. It gives States an opportunity to in fact waive it if they choose, but it encourages people to move in the direction of seeking opportunities. Our goal, as we extend unemployment benefits, is to encourage reemployment of our fellow Americans who are having a difficult time trying to make ends meet.

This measure also, as we know, Mr. Speaker, puts into place a policy that will allow for the extension of the so-called holiday for the payroll tax. Now, I will admit that I am a supply-side, growth-oriented guy. I came here over three decades ago with Ronald Reagan, believing very strongly that we need to put into place pro-growth economic policies. The extension of the payroll tax holiday, based on analyses from economists from both the left and the right, is that it's not necessarily a pro-growth measure. But, Mr. Speaker, as we look at where we're headed today, during difficult times, it's important for us to realize that anyone who opposes what we are doing here today is standing in the way and preventing us from moving ahead with providing that payroll tax holiday for our fellow Americans.

□ 1330

I know that there are a lot of people who will say—and as I look at my friend from Worcester, I recall last night in the Rules Committee when he said we've been doing everything under the sun here except for focusing on job creation and economic growth.

Well, Mr. Speaker, as I think everyone knows, Democrats and Republicans alike, our fellow Americans know, there are 27 pieces of legislation that have passed the House of Representatives, which happens to be for the Republican majority. And at this mo-

ment, all 27 of those measures sit in the United States Senate, and they have not passed. And the Senate, of course, has a Democratic majority.

Bipartisanship is what we want. That's what the American people want, and I'm happy to say that this measure is a bipartisan bill. One of the things that makes it a bipartisan measure, beyond extending unemployment benefits, beyond extending the payroll tax holiday, is this thrust towards creating jobs by proceeding with the Keystone XL pipeline.

Now, Mr. Speaker, we know that there has been some controversy around this earlier, but while we look at the imperative of expanding the payroll tax holiday and ensuring that the American people, who are struggling, have the benefits that they desperately need, we need to get at the root cause of the problem. And the root cause of the problem is that we have not put into place policies, we've not been able to pass out of both houses of Congress and get to the President's desk policies that can immediately jump-start and get our economy growing.

I'm looking at my friend from New Jersey (Mr. ANDREWS) over here. He and I have talked on numerous occasions over the past several years about our shared goal of putting into place tax reform, reducing the top rate on job creators from 35 to 25 percent, while closing loopholes.

I know my friend from Worcester regularly talks about subsidies and loopholes that exist for the oil industry and a wide range of other areas. We want to do this in the context of overall tax reform, and I hope very much that we can get to the point where, in a bipartisan way, we can do that. That's a policy that both President Obama and former President Clinton have talked about, this dealing, as Mr. ANDREWS and I have discussed in the past, with this tax issue. These are the kinds of policies that can enjoy bipartisan support, Democrats and Republicans working together to ensure that we can get this economy growing.

And I will say that this Keystone XL pipeline is one of those items, as we all know, that enjoys bipartisan support. It would immediately create jobs based on the projection of that construction. And while we look at our quest, I don't think we're going to gain total energy self-sufficiency in this global economy, but we would have greater energy self-sufficiency working very closely with one of our closest allies, our ally to the north, Canada, in ensuring that we can proceed with this. We know that the question mark over whether or not we're going to proceed with the pipeline has raised an understandable quest of the Canadians to deal with the Chinese.

And so, Mr. Speaker, as we look at these challenges, this is a bipartisan measure. Let anyone stand up and

start pointing the finger of blame at Republicans. But I will tell you that we have—90 percent of the items in this measure have enjoyed bipartisan support. Many of these are proposals that President Obama has made within his jobs package. So that's why we've got an opportunity to do this. I believe, Mr. Speaker, that we can do it.

Unfortunately, we can't simply legislate full employment in the United States. Legislating full employment is not an option. I know that some of my friends on the other side of the aisle might like to figure that we could legislate full employment. If we could do that, we wouldn't be faced with the difficulty that we have today.

What we can do is we can encourage America's innovators and entrepreneurs with pro-growth policies, and that's what we have repeatedly sent to the Senate. I hope that our colleagues in the other body will report those out.

And so, Mr. Speaker, I'm going to encourage my colleagues to support this very, very important, bipartisan legislation, get it to the other body so that our Senate colleagues can consider this, and get it to the President's desk so that the American people, who want to have a degree of confidence that they're not going to see a tax increase take place, and that they're going to, in fact, if they're struggling and don't have a job opportunity, have their benefits continue, and to ensure that we get at the root cause of the problem by putting into place opportunities for private sector jobs to be created. I urge an "aye" vote.

With that, Mr. Speaker, I reserve the balance of my time.

#### PARLIAMENTARY INQUIRY

Mr. MCGOVERN. Mr. Speaker, before I begin, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his inquiry.

Mr. MCGOVERN. Mr. Speaker, can you tell us how many Democrats have cosponsored H.R. 3630?

The SPEAKER pro tempore. The gentleman has not stated a parliamentary inquiry but may engage that point in debate.

Mr. MCGOVERN. I raised the issue, Mr. Speaker, because the gentleman said this was a bipartisan bill and I don't know of any Democrats that are cosponsors of the bill.

First of all, let me thank the distinguished chairman of the Rules Committee, my good friend, Mr. DREIER, for yielding me the customary 30 minutes, and I yield myself such time as I may consume.

Mr. Speaker, I rise in strong opposition to this closed rule and to the underlying bill. This bill and this process is so lousy, I barely know where to begin today.

Let's start with the process. The bill, the way this bill was conceived, drafted and brought up may be the worst yet

under this Republican-controlled Congress. Simply, this process is shameful. It's an embarrassment. This 369-page monstrosity was presented on Friday afternoon.

The gentleman says that this was reported by the Ways and Means Committee. It was presented by the chairman of the Ways and Means Committee. It was not reported out of that committee. I use the word presented because it was introduced on a day when no committees met and we had no votes in the House.

It was referred to 12 committees, 12 different committees. That's more than half the committees in the House of Representatives. But not a single committee held a hearing or a markup on this bill. It never saw the light of day in any of these committees.

There are 348 Members who sit on the committees that have jurisdiction over this bill. That's 348 Members of the House who should have had an opportunity to offer amendments and question witnesses about this bill in committee hearings or markups. Not one of these Members had an opportunity.

And last night in the Rules Committee, Members came up, 12 amendments were offered. Every single one of them was rejected.

Mr. LEVIN, the ranking member on the Ways and Means Committee, asked for a Democratic substitute to be made in order. That was rejected too.

The gentleman from California says that it's traditional, when Ways and Means bills are presented, that they be done so under a closed rule. That's when it's a tax bill. This is a tax bill plus 1,000 other things that have nothing to do with tax issues.

And this lousy process, I will say to my colleagues, leads to bad legislating. Just look at this bill. It's long, and it's sloppy. The Republicans who rushed to put this bill together have already found an error which we're trying to correct in the rule. Who knows how many other errors there are?

Last year Speaker BOEHNER and Majority Leader CANTOR, Whip MCCARTHY and other members of the Republican leadership rolled out their Pledge to America, their campaign pledge to run this House in a more open way. Yet all year long they have been chipping away at their pledge, and now we have this bill that flat out breaks their pledge.

In their pledge, the House Republicans promised to, and I quote, "end the practice of packaging unpopular bills with 'must-pass' legislation to circumvent the will of the American people. Instead, we will advance major legislation one issue at a time." That's what they said.

Yet we have three provisions—extension of the payroll tax cut, extension of unemployment insurance, and SGR, or doc fix—that are must pass by the end of this year. And do we have a clean

bill that is free from unrelated provisions? Of course not. That would be logical and make too much sense.

No, Mr. Speaker, the bill we have before us is loaded up with goodies to mollify the extreme right wing that is in charge of this House. Along with the extension of the payroll tax cut and doc fix, this bill includes the following: Requires the approval of the controversial Keystone pipeline; requires millions of seniors to pay more for health care; increases taxes on working families by forcing large, end-of-the-year health care payments; slashes prevention funding that actually reduces Medicare and Medicaid costs; undermines air quality, endangering the health of children and families by blocking mercury pollution reduction; cuts retirement programs for Federal workers; and extends the pay freeze for Federal workers.

Each of these provisions are different. They have nothing to do with one another. Why are they all bunched together in this one bill?

And these policies are bad for America. They are bad for the American people. Yet the Republican leadership continues to push these extreme and harmful policies.

And even though the unemployment insurance program needs to be extended, this bill actually erodes the support program by cutting unemployment insurance benefits for 1 million Americans who lost their jobs through no fault of their own. And it imposes new limits on unemployment compensation by restricting benefits employees have paid for.

□ 1340

Why is it so difficult for this Republican-controlled House to help the middle class and those struggling to get into the middle class? Why do they throw roadblock after roadblock in front of middle class Americans who are trying to make their lives better? Why do they continue to make it virtually impossible for us to help average people, while at the same time they do everything in their power to protect subsidies for big oil companies and tax cuts for the Donald Trumps of the world?

Extension of the payroll tax cut, extension of the unemployment insurance program, and the doc fix should not be controversial. And these extensions should have been done a long, long time ago.

My friends on the other side of the aisle are playing a very risky game. We know this failure to extend the payroll tax cut will mean a \$1,500 tax increase on middle class Americans. We know that 160 million Americans will see their taxes go up if we don't act before the end of the year. So why are Republicans bringing a bill to the floor that we know will not pass the Senate?

We know, by the way, the President will not sign it. I have a Statement of

Administration Policy, which I would like to place in the RECORD, which basically makes it very clear that the President would veto this bill.

EXECUTIVE OFFICE OF THE PRESIDENT  
OFFICE OF MANAGEMENT,  
AND BUDGET,  
Washington, DC, December 13, 2011.

STATEMENT OF ADMINISTRATION POLICY

H.R. 3630—MIDDLE CLASS TAX CUT ACT OF 2011  
(Rep. Camp, R-Michigan, and 5 others)

The Administration strongly opposes H.R. 3630. With only days left before taxes go up for 160 million hardworking Americans, H.R. 3630 plays politics at the expense of middle-class families. H.R. 3630 breaks the bipartisan agreement on spending cuts that was reached just a few months ago and would inevitably lead to pressure to cut investments in areas like education and clean energy. Furthermore, H.R. 3630 seeks to put the burden of paying for the bill on working families, while giving a free pass to the wealthiest and to big corporations by protecting their loopholes and subsidies.

Instead of working together to find a balanced approach that will actually pass both Houses of the Congress, H.R. 3630 instead represents a choice to reflight old political battles over health care and introduce ideological issues into what should be a simple debate about cutting taxes for the middle class.

This debate should not be about scoring political points. This debate should be about cutting taxes for the middle class.

If the President were presented with H.R. 3630, he would veto the bill.

So why are we wasting precious time?

The Republican leadership insists on playing chicken with the American people just to score cheap political points. This is not a time for political theater. This is the time for responsible leadership. It's time to do the right thing for the American people and drop these controversial provisions from this bill.

This is not the time to increase taxes on middle class Americans. It's time to extend the payroll tax cut and unemployment insurance and the doc fix.

Mr. Speaker, this House needs to get back to doing the people's business, and the people's business is jobs. It would be nice if my Republican friends would allow the President's jobs bill to come to the floor for a vote rather than bills that reaffirm our national motto or make it easier for unsafe people to carry concealed weapons from one State to another.

I say to my Republican friends, the American people are outraged. They're outraged at Republican indifference to the middle class. They're outraged by Republicans' callous attitude to the most vulnerable in this country. They're outraged that Republicans are playing politics with their lives.

Mr. Speaker, I urge my Republican colleagues to do the right thing, to pass a clean extension of the payroll tax cut, properly extend unemployment insurance and the doc fix. Do the right thing, and do it the right way. That's all the American people are asking for.

I reserve the balance of my time.

Mr. DREIER. Mr. Speaker, I yield myself 30 seconds to say to my colleague that he has performed just as I had expected, pointing the finger of blame when we're trying to work in a bipartisan way to make sure that we get this done. We want the doc fix. We want to ensure that people who can't make ends meet and are looking for work have access to those benefits. We want to extend the payroll tax holiday.

We also feel it imperative that we get at the root cause of exactly what my friend just said, Mr. Speaker, and that is creating jobs. And everyone knows, Democrat and Republican alike, many leaders in organized labor focus on the fact that the Keystone XL pipeline is a job creator and can go a long way towards doing exactly what my friend and I share in common as a goal.

With that, Mr. Speaker, I am happy to yield 2 minutes to a hardworking new member of your class, Mr. Speaker, the gentleman from Lawrence, South Carolina (Mr. DUNCAN).

Mr. DUNCAN of South Carolina. There are but two points I want to bring up in support of the bill before us today.

Thomas Jefferson said this: "A wise and frugal Government, which shall restrain men from injuring one another, which shall leave them otherwise free to regulate their own pursuits of industry and improvement, and shall not take from the mouth of labor the bread it has earned. This is the sum of good government."

I believe that America works better when hardworking Americans keep more of the money that they earn, keep more of their paycheck. That's why I support the payroll tax cut provision in this bill.

The second point, Mr. Speaker, is this: the administration can be for jobs, or the administration can support a radical environmentalist policy. Mr. Speaker, I believe that they are mutually exclusive and you cannot support both.

The Keystone pipeline is a segue to job creation in this Nation. You remember the jobs created in the 1970s with the Alaskan pipeline? I do. The Keystone pipeline will create both construction jobs and long-term jobs as our Nation refines the hydrocarbons into energy products here in American refineries. Failure not to do this means the possibility that this Canadian oil will be refined in and used by China.

Today, we can pursue North American energy independence by partnering with our closest ally and largest trading partner, Canada. Or we can continue the same failed policies of this administration which lead to higher prices at the pump for Americans and the continuation of sending dollars overseas for Middle Eastern oil.

This bill cuts taxes, it reduces spending, it ends the regulatory quagmire

for American businesses and provides a path forward for American energy security.

I support its passage, and I ask that God will continue to bless America.

Mr. MCGOVERN. Mr. Speaker, at this time I am very proud to yield 1 minute to the gentlewoman from California, the Democratic leader, Ms. PELOSI.

Ms. PELOSI. I thank the gentleman for yielding and appreciate his presentation on why we are here today and why the rule that is being brought to the floor is not the right one, because it does not allow for us to have options for the American people to be considered.

One of those options I want to talk about has been described by the President.

President Obama last week in Kansas made a glorious speech harking back to President Roosevelt's speech about the middle class and its importance to America's democracy, how it is the backbone of our democracy. President Obama said last week we are greater together when everyone engages in fair play, where everyone gets a fair shot and everyone does their fair share. This isn't about one percentage and another percentage. It's about all Americans working together.

President Obama put those words into legislative action with his proposal for a payroll tax cut for middle income families, as well as unemployment insurance for those who have lost their jobs through no fault of their own.

Democrats have a proposal today which we cannot take up on the floor because the Republican rule is perhaps afraid of the vote we might get because it does so much for America's working families.

I want to remind our colleagues that for a long time the Republican leadership did not support a payroll tax cut at all. Rhetoric coming from the Republicans was, We don't believe in extending the payroll tax cut; however, we do want to make permanent the tax cut for the wealthiest people in America—those making over \$1 million a year.

So the President taking this to the public and the reinforcement of that message by our Democratic colleagues in the House and in the Senate has made the payroll tax cut an issue too hot for the Republicans to handle.

So they're bringing a bill to the floor today which says they're for a payroll tax cut, but has within it the seeds of its own destruction because it has poison pills, which they know are not acceptable to the President and do not do the best effort for the American people.

Mr. DREIER. Mr. Speaker, will the gentlewoman yield?

Ms. PELOSI. You have plenty of time, Mr. Chairman. You're the chairman of the committee; I'm not.

Mr. DREIER. I just wanted to ask a question.

Ms. PELOSI. I'm not going to yield to you because you make your points all day. I'm making mine now.

And one of the points I would like to make is about the Democratic substitute which the chairman of the committee said we could not bring to the floor. But it's important for the American people to know that it mirrors what the President has proposed.

The bill would cut taxes by \$1,500 for the typical American family. It would secure a critical lifeline for those who have lost their jobs through no fault of their own. It would ensure that seniors still get to see the doctor of their choice with a permanent doc fix that is contained in the bill. Our proposal would protect and extend the tax cut for 160 million Americans while asking 300,000 people, those making over a million dollars a year, to pay their fair share.

□ 1350

The Republicans not only said no to the bill; they said, no, your substitute cannot even be considered on the floor.

The President has said—and the Democrats in Congress agree with him—that we cannot go home unless we pass a tax cut for the middle class, that we cannot go home unless we pass the unemployment benefits for America's working families.

Across the country, families are sitting at their tables. Christmas is coming. I say it over and over that Christmas is coming. For some, the goose is getting fat, and for others, it's very slim pickings. Families are sitting around their tables, having to make difficult choices: Can we put gas in the car and still afford to put food on the table? As the holiday season comes upon us, can we buy toys for our children during the holidays and be able to pay the bills when they come due in January?

As families gather around those tables, making those decisions, Democrats have put our ideas on the table. We are willing and ready to reach across the aisle in order to complete our work and give 160 million Americans the gift of greater opportunity and security, of hope and optimism during the holiday season and the New Year. You cannot do this by saying, We're going to put something in the bill that the President says he will not sign.

It's hard to understand how you can say you're for something except you're going to put up obstacles to its passage. The macroeconomic advisers have said that the proposal the President has put forward will make a difference of 600,000 jobs to our economy. If we fail to do this, we are, again, risking those jobs and we're missing the opportunity. As the previous speaker said, let's put the money in the pockets of America's workers.

Welcome to the payroll tax cut, I say to our Republican colleagues—what

you have long resisted but what the President has demonstrated there is public support for.

Let's reject this rule so that we can have a fair debate on the President's proposal, which is fair to America's workers and stronger in terms of the macroeconomic impact it will have to inject demand into the economy, which will create more jobs and make the holiday season a brighter one for many more Americans.

Let us put the Republican proposal on the table and the President's proposal on the table, which has the full support of Democrats and Republicans in the House and Senate, as opposed to the Republican proposal they put forth in the Senate, which didn't even win the support of a majority of the Republicans. Let's come together; let's find our common ground; let's get the job done; but let's understand that we cannot leave Congress—that we cannot go home—until we meet the needs of the American people.

I urge my colleagues to vote “no” on the previous question and to fully support the best possible payroll tax cut for the middle class, unemployment benefits for our workers, as well as for our seniors to have the ability to have the doctors of their choice.

I thank the gentleman from Michigan (Mr. LEVIN) for his leadership on this important legislation.

Mr. DREIER. Mr. Speaker, I yield myself 1 minute.

I'd be happy to yield to my dear California colleague, Ms. PELOSI, if she would want to respond to anything I'm about to say here as I was looking forward to getting to debate.

First of all, my colleague from California began by saying that there was no opportunity for Democrats to have a proposal that is considered. Members of the minority, the Democrats, are entitled to a motion to recommit. That is provided in this measure, although we often were denied that when we were in the minority.

Second, the gentleman from Massachusetts (Mr. MCGOVERN) did, in fact, propose that we have a substitute made in order; but, Mr. Speaker, since last Friday, when this bill was made available, the gentleman from Michigan (Mr. LEVIN), the ranking member of the committee, never came forward with a substitute for us in the Rules Committee. We only received one just a few minutes ago.

Then to the important point about the so-called “poison pills” that my California colleague mentioned, the distinguished minority leader: The idea of saying that we want to encourage those who are unemployed to move towards GED qualification does not seem to me to be a poison pill.

Mr. Speaker, the idea of saying that we should have drug testing—and that's, again, optional drug testing—so that people who are receiving these un-

employment benefits are not using those resources to purchase drugs is obviously not a poison pill. Then the idea of having millionaires benefit from the program, which we eliminate in this proposal, should not be a poison pill.

So, Mr. Speaker, with that, I am very happy to yield 2½ minutes to another hardworking member of the freshman class, the gentleman from Bryan, Texas (Mr. FLORES).

Mr. FLORES. Mr. Speaker, I rise today to talk about options for American middle class jobs and American energy security. In this regard, I want to talk about two real-world examples that highlight the differences between President Obama's plan and the GOP plan for America's job creators.

Option A is Obama's plan. Option B is the GOP plan. Here are the examples: Under option A, Solyndra. Under option B, the Keystone XL pipeline.

How many part-time jobs were created under option A? One thousand. They have come and gone. Under the Keystone XL pipeline, there were over 20,000.

How many full-time jobs from Solyndra? None. They're gone. How many full-time jobs from option B, the Keystone XL pipeline? Thousands.

What did option A do for America's improved energy security? Nothing. How about for option B? Yes, we get improved American energy security.

In reducing the demand for Middle Eastern oil, Solyndra provided none. The Keystone XL pipeline will offset Middle Eastern demand by 700,000 barrels per day.

The cost to American taxpayers for Solyndra? Over \$1.5 billion wasted. For the Keystone XL pipeline? Nothing. Nada.

What was the taxpayer return on Solyndra? There was none. What is the taxpayer return on the Keystone XL pipeline? It's infinite.

Who benefited from Solyndra? The President's political contributors. Who benefits from the Keystone XL pipeline? The American middle class.

How do you get more information? Go to jobs.GOP.gov for more information about the GOP plan for America's job creators.

Mr. Speaker, we can't wait for more middle class, Main Street jobs, so I urge my colleagues to vote for both the rule and the underlying bill. H.R. 3630, the Middle Class Tax Relief and Job Creation Act of 2011, is just the answer that we need at this critical time.

I also wish all Americans a very Merry Christmas.

Mr. MCGOVERN. Mr. Speaker, I am proud to yield 2 minutes to the gentlewoman from New York, the ranking member of the Rules Committee, Ms. SLAUGHTER.

Ms. SLAUGHTER. I thank the gentleman for yielding to me.

Mr. Speaker, there are no Democrats on this bill. I don't know what all this

bipartisan talk is about. The gentleman from Michigan (Mr. LEVIN) didn't even see it. None of us knew.

Mr. DREIER. Will the gentlelady yield?

Ms. SLAUGHTER. No. If you don't mind, I'd like to get through my speech. We've heard this all day.

I understand that there is great hope for a number of Democrat votes—and I don't know how that will turn out—but, frankly, I don't think that this bill will ever see the light of day anyway. There is not much support for it in the Senate, and the President said he won't sign it. So what I am hopeful for is that, when we really get down to business here, we can have a bipartisan bill. It is possible to do that. Just invite the Democrats to take part in it.

Let me make it clear that you cannot call anything "bipartisan" when there is not a single Democrat on it. Also, a motion to recommit is nowhere near a substitute bill, which we were not allowed to do.

Instead of extending tax cuts to the middle class and giving assistance to the unemployed, this majority is holding the middle class hostage in order to extract concessions for their friends in Big Oil. Furthermore, instead of asking those with the most to help those with the least, which is what we are supposed to do, today's bill asks millions of seniors to pay more for health care. In exchange, the majority will graciously continue the Federal unemployment insurance programs, although they are grievously cut; and 10 States will get waivers not to have to pay unemployment insurance at all. So that's a sort of Russian roulette idea.

They cut the maximum number of weeks as Christmas approaches, which is the time of goodwill toward men, women, and children who are out of work through no fault of their own. In a country where there are four persons applying for each and every available job, that gives us some idea of how dire it is to face this Christmas and the rest of this year without jobs.

□ 1400

Why can't the Grand Old Party help the middle class without demanding a quid pro quo?

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. MCGOVERN. I yield the gentlelady 1 additional minute.

Ms. SLAUGHTER. Why can't they serve the middle class without playing Secret Santa for special interests like the Keystone XL?

In addition to the misguided brinksmanship of the majority, today's bill flies in the face of regular order and makes a mockery of the majority's CutGo rules for all bills. We've seen in the Rules Committee the fact that it has been waived many times today. It is waived yet again. And it says to the Office of Management and Budget and

the Congressional Budget Office that they count the savings in this bill but not the cost. If only middle class families could use that kind of accounting.

This is hardly the deliberate and thoughtful legislative process that the majority promised us when they assumed office almost 12 months ago. So because of the rushed process and the legislative acrobatics used to mask the true cost of the bill, I strongly oppose today's rule and the underlying legislation and urge my colleagues to vote "no."

Mr. DREIER. I reserve the balance of my time.

Mr. MCGOVERN. I yield 3 minutes to the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. I thank my friend for yielding.

Ninety-eight days ago, the President of the United States came to this Chamber and proposed to create jobs by cutting taxes for middle class families by about \$1,500 per year. For 98 days, the majority refused to take up legislation that would enact that jobs plan. So finally today we have their version of it, which unfortunately does not cut taxes for middle class people the way we proposed but at least avoids a tax increase on those families which is looming on January 1.

But I can't support this bill because of how it pays for that middle class tax relief. First let me say this: I agree as a general rule when we cut taxes here on anyone, we ought to pay for it, not increase the deficit. But the majority has never subscribed to that principle until today.

So when the wealthiest people in America got an enormous tax reduction in their tax rates in 2001 and again in 2003, there was no requirement that we offset that in order to pay for it. But now that middle class families are getting some relief, all of a sudden, there has to be.

Let's talk about what that offset is. One major portion of it essentially reduces unemployment benefits for Americans down the line. And as I understand this, there are some reforms that really ought to take place. When I hear about GEDs and drug testing, I think that is fairly sensible. But it isn't sensible to say to someone, If you've been looking for work day after day and week after week and trying your best to find your next job, it's your fault if you didn't find it. But that is essentially what this bill says. If you are unemployed, look in the mirror. It's your fault.

I don't think the authors of this bill know many unemployed people. I know they don't know that for every four unemployed people in America today, there is one job. For every one job that's listed as being open, there are four unemployed people for that job. I don't think they understand that even though there is a law against age dis-

crimination in this country, age discrimination in this country is an everyday painful fact of life for a lot of people over about 40 years old in this country.

So I would say to all those who are about to vote to extend middle class tax relief by blaming the unemployed for their own plight that they ought to walk for just a day or a week or a month in the shoes of a 50-year-old man or woman who has been out of work for a year and a half, who has circled every want ad, gone to every Web site, taken every job interview he or she could get, and still cannot find a job. We should vote against this bill.

Mr. DREIER. Mr. Speaker, I continue to reserve the balance of my time.

Mr. MCGOVERN. At this time I would like to yield 2 minutes to the gentleman from Michigan, the ranking member of the Ways and Means Committee who was denied his right to have a substitute when he was at the Rules Committee, Mr. LEVIN.

Mr. LEVIN. You know, when there is an issue as serious as this, you would think that the majority would let us introduce a substitute. Instead, the answer is a stone wall. So I am going to explain what is in my substitute. I want the American public to know what would be in it.

A 1-year extension and expansion of the employee payroll tax cut to 3.1 percent, as the President proposed; a 1-year extension on the bonus depreciation; and a 1-year extension on unemployment insurance is in the bill that Mr. DOGGETT and a lot of us introduced, H.R. 3346—and a 10-year SGR fix.

I want the American public to understand what's at stake here and how we pay for it. This chart shows very vividly what the Republicans essentially are doing. I want everybody to look at it. Under their proposal, seniors sacrifice \$31 billion. Under their proposal, Federal employees sacrifice \$40 billion. Under their proposal, unemployed Americans—unemployed, looking for work—sacrifice \$11 billion. And under their proposal, essentially people earning over \$1 million sacrifice nothing, nothing. They don't pay for this bill, while seniors and everybody else indicated here, Federal workers and the unemployed, do.

The SPEAKER pro tempore (Mr. LATOURETTE). The time of the gentleman has expired.

Mr. MCGOVERN. I yield the gentleman an additional 30 seconds.

Mr. LEVIN. I will just say to the majority, get in the shoes of the unemployed. If you don't, I think those who deny it deserve their unemployment.

Mr. DREIER. Mr. Speaker, I am happy to yield 3 minutes to my distinguished colleague from the Committee on Financial Services, the gentleman from Fullerton, California (Mr. ROYCE).

Mr. ROYCE. Mr. Speaker, I rise in support of this rule. This is a question,

as it relates to this Keystone pipeline project, of whether we're serious about an economic recovery in this country. And frankly, it's a question about whether or not we're serious about our national security.

Now, we have a shovel-ready project here, the Keystone pipeline, that will create tens of thousands of jobs. By the Chamber's estimate and by the estimate of the unions involved in supporting this, it's actually hundreds of thousands in terms of the consequences of developing this resource and bringing it down from Alberta, Canada. These are good jobs, good jobs for men and women in this country that are involved in manufacturing pipe and earth movers.

And frankly, when you think about it, why, why do we keep delaying this at a time when unemployment is as high as it is? Because I can tell you, the Canadians aren't waiting. The Chinese are not waiting. Make no mistake about it, the Canadians will develop and export the oil they're developing in western Canada. The Prime Minister met with Hu Jintao of China, and the deal that they're talking about striking is one that accrues to the benefit of China at the expense of the United States. If this energy does not transit the United States and go to refineries here, it will go to China, and it will fuel their manufacturing sector.

□ 1410

That is what we are concerned about. We are concerned about throwing away this opportunity. I don't know about you, but it sure bothers me to see China playing in our hemisphere and the administration does not seem to care.

Americans have been told about the importance of energy independence. We have been on the hook, my friends, to Middle East producers for decades now; and we're sending billions every year to that cartel. And these countries in that cartel are unstable. They all collude to control prices, and we have a chance instead to get this oil from our allies, and we're being told by this administration and by the other side of the aisle that despite the jobs that this would create, that this is going to be stopped.

Well, today we have a chance to develop an energy resource in the Americas, working with our Canadian allies, creating good jobs, creating access to cheaper energy here. Energy in China is 20 percent higher than energy here in the United States. Why would we want to invert that? Why don't we want the cheaper source of energy here? Yet the administration stalls and gives the advantage to China.

I just want to tell you, colleagues, support this rule, support the underlying legislation. Take a stand for jobs. Take a stand for American security and consider the fact that China has al-

ready advantaged itself in Africa and Latin America and elsewhere at our expense.

Mr. MCGOVERN. Mr. Speaker, I yield 1½ minutes to the gentleman from New York (Mr. ENGEL).

Mr. ENGEL. Mr. Speaker, I thank the gentleman for yielding to me.

I rise today in strong opposition to this act and in opposition to the rule. It's a shame that the majority is playing legislative chicken with middle class tax cuts on a bill that will never be signed into law.

I'm open-minded on the Keystone pipeline, but it has no place in this bill. It's mixing apples with oranges. It's a poison pill. It's designed to kill it. The President has already said that he won't sign a bill like this. So what do my Republican colleagues do? They give us more so they can score some political points with their base.

The American people want us to meet in the middle. The American people want us to approve things to move the country forward. We need to pass a simple extension of middle class tax relief. We need to pass a simple extension of unemployment insurance. This is what we should do. This is what the American people want us to do. Unemployment is hovering around 9 percent. People need help, and we're not helping them.

This bill also forces millions of seniors to pay more for health care while giving the 300,000 wealthiest Americans another free pass. That's not right. This is unacceptable. We cannot solve our debt problem on the backs of working families.

Mr. Speaker, I have always prided myself as a moderate and someone who wants to work across the aisle. The chairman knows that. We have spoken many, many times. I plead with my colleagues on the other side of the aisle, I think the American people want us to do some good work in the closing days of this session. We need unemployment extension. We need a middle class tax cut extension. Let's not mix apples with oranges. Let's pass a clean bill and go home and say we did something good for the country.

Mr. DREIER. Mr. Speaker, I yield myself 1 minute, and I would be happy to engage my friend if he'd like to. Let me make a couple of comments.

First, I think that as we look at the issue of the Keystone XL pipeline, the notion of saying that somehow we're trying to appeal to our base when we know the most outspoken and enthusiastic supporters of the Keystone XL pipeline happen to be the labor unions, organized labor in this country. We know because they want to create jobs, and they are supportive of this so that we can create jobs.

People throw around terms like "poison pill," why are we using this issue. Because as we extend unemployment benefits to people who are unable to

find jobs, and as we extend the payroll tax holiday, we feel that it's absolutely essential that we get at the root cause of the problem. We have protracted unemployment in this country. Very, very sadly. We know it has gone on for an extended period of time—the end of the last administration into this administration. We all know that we were promised that if we passed the stimulus bill that the unemployment rate would not exceed 8 percent. Now it's at 8.6 percent. I'm gratified that it went from 9 percent to 8.6 percent. But why did it do that?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DREIER. I yield myself an additional 30 seconds, Mr. Speaker.

Because hundreds of thousands of Americans have chosen to give up even looking for work. And so we're saying, yes, we will agree to extend unemployment benefits; yes, we will agree to extending for another year the payroll tax holiday. But let's get at the root cause of the problem. So that's why we see these as being very closely intertwined.

It's true the President did say that he would reject this; but I believe if we can pass it through this House with bipartisan support, pass it through the United States Senate and get it to the President's desk, that extending unemployment benefits at this time of year especially, and that payroll tax holiday, with a measure that the President has indicated support for, dealing with the XL pipeline, that the President will, in fact, sign it.

With that, I reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I would like to insert in the RECORD a letter from William Samuel, the director of the government affairs department at the AFL-CIO, in strong opposition to H.R. 3630.

AMERICAN FEDERATION OF LABOR  
AND CONGRESS OF INDUSTRIAL OR-  
GANIZATIONS,

Washington, DC, December 13, 2011.

DEAR REPRESENTATIVE: On behalf of the AFL-CIO, I am writing to urge you to oppose the Middle Class Tax Relief and Job Creation Act of 2011 (H.R. 3630), which would replace a modest surtax on income over \$1 million with drastic benefit reductions for jobless workers, pay cuts for public employees, reduced premium assistance for low- and middle-income individuals buying health insurance, cutbacks in preventive health services, and higher premiums for many Medicare beneficiaries.

H.R. 3630 would cut the federal unemployment insurance (UI) program by more than half in 2012, reducing benefit eligibility by 14 weeks in every state and by 40 weeks in states with the highest unemployment rates. These benefit cuts would reduce economic activity by \$22 billion and cost 140,000 jobs.

Even more troubling, H.R. 3630 would fundamentally change the nature of unemployment insurance and erode the unemployment safety net for the future. Unemployment insurance (UI) is a social insurance program, to which workers make contributions in the

form of reduced wages. H.R. 3630 would change the nature of UI by allowing states to require jobless workers to “work off” their benefits, in effect allowing UI to be transformed into a workfare program. H.R. 3630 would further undermine social insurance by introducing means testing, which would surely be used to restrict UI eligibility to fewer and fewer workers over time.

The authors of this legislation do not seem to understand that America faces a continuing jobs crisis, and they seem to think that jobless workers—rather than Wall Street—are to blame for high unemployment and the lack of jobs. In addition to cutting unemployment benefits, H.R. 3630 would allow drug testing of all workers before they can receive benefits; require workers without a high school degree to be enrolled in classes before they can receive benefits; and make jobless workers pay out of their own pockets for reemployment services offered by the government.

In order to spare millionaires from having to pay one more penny in taxes, H.R. 3630 would also require federal employees to sacrifice even more than they have already. Not only would H.R. 3630 extend the current pay freeze for federal employees, but it would also raise \$37 billion in revenues by increasing federal employee pension contributions and reducing their retirement income.

H.R. 3630 would also have a substantial negative impact on the health care of working families. It would impose daunting subsidy repayment requirements on families whose economic circumstances improve, which would deter 170,000 people from accepting premium assistance under the Affordable Care Act, according to the Joint Tax Committee. As a result, thousands of middle- and lower-income families would be unable to afford health insurance. In addition, H.R. 3630 would increase Medicare premiums for at least 25 percent of all beneficiaries, requiring many in the middle class to pay substantially more, and would reduce federal support for new preventive services.

H.R. 3630 would protect the most privileged one percent of all Americans from having to pay one more penny in taxes, and it would do so by demanding still more sacrifice and pain from jobless workers, federal employees, and low- and middle-income families. The authors of H.R. 3630 obviously have more sympathy for millionaires than for the victims of the economic crisis caused by Wall Street. We urge you to vote against this cruel and selfish piece of legislation.

Sincerely,

WILLIAM SAMUEL,

*Director, Government Affairs Department.*

At this time I would like to yield 2 minutes to the gentleman from Virginia (Mr. CONNOLLY).

Mr. CONNOLLY of Virginia. Mr. Speaker, unrelated, partisan riders often have received scorn in the past. In 2008, for example, now-Speaker BOEHNER mentioned his strong distaste, stating: “Attaching these riders is the sort of stunt that has made Americans extremely cynical about Washington.” But when finally agreeing to vote on a payroll tax cut for 160 million Americans, this bill is riddled with riders.

Preventative health care, for example, improves wellness and lowers costs. When provided the opportunity for free preventative services, 70 percent of Medicare recipients enrolled.

But this bill cuts that care. Why? It's a rider.

What do payroll tax cuts and shipping more gasoline to China have in common? Republican Senator LINDSEY GRAHAM acknowledged this political gamesmanship saying: “I think we should debate the Keystone pipeline, and we should debate tax policy separately.” Sadly, it's another rider in this bill.

Finally, Republicans included a poison pill with actual poison—mercury, arsenic, and other toxins. What does gutting the Clean Air Act have to do with payroll tax cuts? Nothing. It's a rider.

I strongly support extending the payroll tax cut to help 160 million Americans; but first we need to cut the partisan riders.

Mr. DREIER. Mr. Speaker, I continue to reserve the balance of my time.

Mr. McGOVERN. I yield 2 minutes to the gentleman from Illinois (Mr. DAVIS).

Mr. DAVIS of Illinois. I thank the gentleman from Massachusetts for yielding.

Mr. Speaker, I rise in strong opposition to the rule and to the underlying bill. This rule rejected all attempts to amend the bill, limits the general debate time, and contains egregious provisions which allow States to apply measures such as drug testing; you've got to have a high school diploma or be enrolled in a GED program. Well, I can tell you, Mr. Speaker, that people who are addicted to drugs don't need testing. What they need is treatment. People who are sick need health care. People who are unemployed need a job and the opportunity to work, or they need benefits until such time as they can receive it.

This bill goes in the wrong direction. I strongly oppose it.

Mr. DREIER. Mr. Speaker, I am happy to yield 2 minutes to my very good friend from Omaha, Nebraska (Mr. TERRY).

Mr. TERRY. Thank you, Mr. Chairman.

I think coupling—putting the unemployment extension, the tax holiday, the doc fix, and a real jobs bill together—which is what the American people have been telling Congress for the entire year, that they want to see tangible job creation. There's no better job creator in the pipeline—pun intended—than Keystone XL.

□ 1420

It's a 1,700-mile, \$7 billion, shovel-ready project—not the fake shovel-ready in the stimulus, but real, ready, earnestly ready to start digging right now. The only holdup for Keystone pipeline's permit is the politics of the 2012 election. The process sits in the State Department.

So what we say is in this bill, State Department, use the information that

has been sitting on your desk collecting dust. You said you would make a decision by December 31. We just want you to make it 60 days after the permit's again requested, with the carve-out for the Nebraska exemption.

Why is it so important? Well, it really does displace 700,000 barrels of imported oil, almost the entire amount from Venezuela or about half from Saudi Arabia. It creates 20,000 jobs nearly instantaneously, 20,000 new jobs.

It seems to me that as we're talking about putting food on the table and Christmastime that this is meat and potatoes. The potatoes will sustain you like the unemployment insurance, but what people really want is the red meat of good, high-paying jobs, labor that they can go to. And I bet you that the AFL-CIO wants this Keystone pipeline built.

Mr. McGOVERN. Mr. Speaker, again, the AFL-CIO still opposes this bill.

At this time I would like to yield 2 minutes to the gentleman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE of Texas. I thank the gentleman from Massachusetts. I don't think anyone disagrees with my good friend who discussed the Keystone pipeline that it would create jobs. There's nothing that has been said that would suggest that at the appropriate time of review that that project would not go forward.

But what we're talking about today is a crisis in the American public dealing with two major issues: continuing a tax relief and tax cut for working and middle class Americans, number one; and, number two, to keep 6 million Americans from rolling into the street and falling on their own spear for lack of unemployment insurance being extended, disallowing them to pay their mortgage, disallowing them to pay their rent, and, in essence, saying to them there is no light at the end.

It is also about Republicans and their commitment to the American people. In their pledge to America, the GOP leadership indicated in September that they would end the practice of packaging unpopular bills with must-pass legislation. This is must-pass legislation. And look what they're doing besides the pipeline provision that has been supported in a bipartisan manner yet this in the wrong process; they have got broadband spectrum; they are ending jobless benefits to the extent that they are requiring burdensome drug testing on college persons who can't find a job; they are suggesting that if you can't find a job, it's your own fault; changes to Medicare that are burdening senior citizens; and, on top of that, we've got an appropriations bill to deal with.

My friends, there is a simple way of doing this. The Payroll tax can be increased by the surtax on just the 300,000 top 1% of America for 10 years, allowing 160 million Americans to get payroll tax relief.

How do we help the 6 million persons who need unemployment insurance? We call it an emergency. It is an emergency.

How do we fix Medicare reimbursement for our doctors? We use the savings from the ending of the Iraq war. It's a simple, clean process, a simple vote to help Americans.

How can they violate their pledge, Mr. Speaker, of not putting everything under the Christmas tree on a bill that must pass on behalf of the American people? That's the challenge today.

I'm against the rule and the underlying bill.

Mr. DREIER. Mr. Speaker, may I inquire of my friend how many speakers he has on his side?

Mr. MCGOVERN. I have at least two more speakers.

Mr. DREIER. In light of that, Mr. Speaker, I will reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, I would like to yield 1 minute to the gentlewoman from New York (Mrs. MALONEY).

Mrs. MALONEY. I thank the gentleman for yielding.

The President has announced that we cannot leave Congress without passing an extension of the middle class tax cut and an extension of unemployment benefits.

Now, originally, the "no new taxes" folks in the GOP Republican Senate said that they couldn't do that, that they were going to let the middle class tax increase expire, they were going to let the taxes increase on the middle class, but they were going to refuse to raise taxes on the superrich. Now, if you were not superrich, this was bad news for 99 percent of all Americans; and they spoke out, and they said they would like this tax cut.

Now the Republicans have come back with all types of riders that the President does not support. We need a clean bill.

The payroll tax cut that the Democrats are supporting would mean that a typical middle class family would have 1,000 extra dollars to spend.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. MCGOVERN. I yield the gentlewoman an additional 30 seconds.

Mrs. MALONEY. The nonpartisan Congressional Budget Office found that the payroll tax cut is one of the most powerful tools that we could use to increase the number of full-time jobs. The other policy option that they supported for stimulating the economy was extending the unemployment benefits.

So it's time for our colleagues across the aisle to get with the spirit of this season. Pass the tax cut without the harmful riders; pass the extension of unemployment benefits; and—excuse my Dickens—stop with all the humbug and let's get forward with helping the

economy and helping the American people.

Mr. DREIER. I continue to reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, at this time I would like to yield 1½ minutes to the gentleman from Pennsylvania (Mr. FATTAH).

Mr. FATTAH. I thank the gentleman and I thank the House.

There is a time, a place, and a season for everything. I would argue to the House that this is not the time for us to be playing around with the financial fortunes of 160 million Americans that are enjoying a tax cut today that we'd like to extend and the President would like to extend going forward over the next year.

Now we've had some 21 consecutive months of private sector job growth in this country. Now, I know that the President has almost had to lift this economy single-handedly since the GOP has decided they don't want to do anything to help move the American economy forward; but the idea that you would actually stand in the way of, at a minimum, keeping this tax cut in place, and to do it in the holiday season—as we prepare our Christmas tree at home and my wife and daughters have been decorating it—we all need to understand that in this Christmas season that it is wrong for us to approach the holidays and to create this uncertainty.

We've got so much concern about uncertainty in the business community but no concern about uncertainty in the homes of 160 million Americans.

Now, if we want to pass any bill on any day, you have a majority, you can do it. You don't have to merge the pipeline with this tax cut. You don't have to tie the fortunes of 160 million Americans' economic fortune together with the pipeline.

We could move this today. The President is prepared to sign it. I would urge my colleagues, let's do this in the appropriate way.

Mr. MCGOVERN. I advise the gentleman from California that I am the last speaker.

Mr. DREIER. Then, Mr. Speaker, I will close after the gentleman does.

Mr. MCGOVERN. I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 4½ minutes.

Mr. MCGOVERN. Mr. Speaker, I would like to place in the RECORD an article from Politico entitled, "GOP takes packaging path," talking about how my Republican friends have broken their Pledge to America.

[From Politico, Dec. 11, 2011]

GOP TAKES PACKAGING PATH

(By Jake Sherman)

The year-end rush to extend the payroll tax holiday has House Republicans struggling to keep up with a key promise from last year's election as they bundle together a

hodgepodge of issues before skipping town for Christmas.

In the Pledge to America, released by GOP leadership under much fanfare in September 2010, Republicans said they would "end the practice of packaging unpopular bills with 'must-pass' legislation to circumvent the will of the American people. Instead, we will advance major legislation one issue at a time," they said.

They'll be doing the exact opposite this week.

The year-end legislative package centered on extending the payroll tax has turned into a holiday tree filled with legislative ornaments ranging from the Keystone XL oil pipeline, the sale of broadband spectrum, an extension of jobless benefits, changes to Medicare and easing of certain environmental standards. On top of that, the House will also try to clear a nearly \$1 trillion catch-all year-end spending bill—the type of appropriations package that Speaker John Boehner (R-Ohio) himself has decried as inadequate.

Republicans bristle at the comparison, insisting they're in full compliance with their election-season promises, but the manner with which they're passing the legislation underscores larger issues Congress has to contend with as a winter chill settles on Washington: Republicans want to score political points from Democrats; the Senate is split; President Barack Obama is in reelection mode; and tax provisions are slated to expire as the Christmas recess looms.

A GOP leadership aide said the comparison is "a half-assed attempt at a 'gotcha' story—and it's weak even for POLITICO on a quiet Friday afternoon."

Michael Steel, a spokesman for Boehner, said the extension bill "does not fit the definition of 'must-pass' legislation—which generally refers to funding bills, or an increase in the debt limit—nor does it contain any 'unpopular' provisions. Therefore, it is entirely consistent with the Pledge to America."

Any number of Republicans, though, have said that the tax holiday must be extended, saying its expiration would amount a tax increase when it's least needed.

Whether it's a "must pass" or not, the package of bills is seen as critical for both parties: If Congress doesn't act, taxes will go up on more than 100 million families, jobless benefits will expire and doctors who treat Medicare patients will have their fees slashed.

Over the past week, the narrative has shifted significantly. Both Republicans and Democrats now say they want to extend the provisions, recognizing both the political and economic peril that would come from allowing the measures to run out.

The argument is now over how the government will pay for it and what will ride alongside it for Republicans to say they tried to create jobs.

It's all pretty familiar to Capitol Hill on-lookers and could help explain Congress's 9 percent approval rating. The year-end dash—Boehner says he wants the House to be done by Friday—mirrors Congress's work during the previous 10 months. There's political posturing on both sides and panicked legislating, all set against the backdrop of a looming holiday deadline.

Here's where things stand: Top GOP aides say the Republicans' Middle Class Tax Relief and Job Creation Act represents their last offer. The legislation extends the payroll tax holiday, jobless benefits and the "doc fix," in addition to other sweeteners. To blunt conservative angst about the bill and to offset

its cost, GOP leaders tacked on language to force President Barack Obama to restart the Keystone XL pipeline project, in addition to easing environmental standards on boilers and slashing money from the Democrats' health care law.

It will hit the House floor this week. Senate Republican leaders say it has enough steam to sail through the upper chamber. Senate Minority Leader Mitch McConnell (R-Ky.) said on "Fox News Sunday" that Democrats such as Sens. Barbara Mikulski of Maryland and Ron Wyden of Oregon support rolling back the boiler regulation. Some Democrats, including lawmakers from labor-friendly districts, support the pipeline construction.

But Senate Majority Leader Harry Reid (D-Nev.) said flatly that the House bill with the pipeline won't pass—and Democrats are weighing what bill to put on the floor this week.

"It's the highest priority of the president and the Democrats in Congress," Senate Majority Whip Dick Durbin of Illinois said of the payroll tax extension on NBC's "Meet the Press."

But there's still blowback on the pipeline issue.

Sen. Lindsey Graham (R-S.C.), also appearing on NBC, said flatly that the "pipeline is probably not gonna sell."

"At the end of the day, the payroll tax will get extended as it is now," Graham said. "It won't get expanded; it'll get extended. And we'll find a way to pay for it in a bipartisan fashion."

Senate Democrats say that's what they're trying to do. Democratic sources suggest the party might abandon its plan to institute a surtax on millionaires, eyeing instead a package with more palatable spending cuts to attract Republican support.

There are a few question marks on the House side. When the package was rolled out, the conference rallied behind Boehner. But should it fray, so might its support. Boehner told members in a closed meeting he wants all 242 House Republicans to support the bill.

If the Republican support does not stay intact, House Democrats will again be necessary for passage. It's an open question what they would support to offset the cost of the bill.

On Friday, House Minority Leader Nancy Pelosi (D-Calif.) was cool on changes to Medicare—including means testing for millionaires—and cutting unemployment benefits from 99 to 59 weeks.

"Some things [that] might be acceptable in terms of a big, bold and balanced plan are unacceptable if we're not only not going to the place where President Obama wants to go on the payroll tax cut, have a more modest proposal and on top of that, have consumers of Medicare pay the price," Pelosi said.

She minced no words when talking about the Keystone pipeline.

"This is not about the Keystone pipeline," she said. "The Keystone pipeline is a completely separate issue. People on both sides of the issue agree that this shouldn't be on this package. It's just not polite; it's a poison pill designed to sink the payroll tax cut."

Mr. Speaker, the House Republicans have designed a bill to fail, and it contains poison pills which will result in tax hikes for 160 million workers and the loss of hundreds of thousands of existing jobs. They say they're for extending the payroll tax cut for middle

class Americans, they say they want to help the unemployed, but yet they demand a ransom in order for us to get this passed. And the ransom that they are demanding is quite high.

You've heard from Members on our side of all the poison pills that are in this bill. I have introduced into the RECORD the statement from the administration saying that they would veto this bill, because it is so awful, if it comes to the desk of the President. We know that the United States Senate will not move on this bill.

So why are we wasting our time with precious few days left in the session? Why aren't we doing what most Americans want us to do, and that is to extend the payroll tax cut for middle class Americans and extend unemployment insurance for the millions of people who are out of work, through no fault of their own, because it's the right thing to do?

My friends on the other side of the aisle have no problem with bailing out big banks on Wall Street, but when it comes to helping middle class families and working people, they squawk.

□ 1430

You've heard over and over that this is the Christmas season; we're supposed to be generous in our hearts. I don't feel the generosity on the other side. I don't feel the compassion. I'm not sure if my colleagues understand how Americans are struggling, what it feels like to be out of work. People who are in their 50s and 60s who have lost their job and can't find another job, and my colleagues are trying to make it more difficult for them to be able to get benefits so they can keep their homes and put food on the table.

My friend from California talks about, well, Mr. LEVIN, the ranking member of the Ways and Means Committee, didn't submit a substitute, he only asked for one. Well, this bill, I will again remind everybody, was presented to us on Friday when Members were home. And we had an emergency Rules Committee—which bypasses the normal procedures and the normal time given for Members to be able to offer amendments. So, I mean, everything was stacked against anybody offering an amendment in advance.

Mr. Speaker, if we defeat the previous question, I will offer an amendment to the rule to make in order Mr. LEVIN's amendment in the nature of a substitute, which extends middle class tax relief, unemployment benefits, and the doc fix the right way.

I ask unanimous consent to insert the text of the amendment in the RECORD along with extraneous material immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. MCGOVERN. Mr. Speaker, I will just close again by urging my colleagues to stand with working people in this country, to stand with those who have lost their jobs through no fault of their own. I mean, it's so easy for the other side to stand with big oil companies and protect tax breaks for the wealthiest in this country. Let's have a little justice in our tax system, a little fairness.

I urge my colleagues to vote "no" and defeat the previous question so we can amend this bill and make it actually address these urgent issues in a thoughtful and reasonable way, I urge a "no" vote on the rule, and I yield back the balance of my time.

Mr. WAXMAN. Mr. Speaker, I oppose this closed rule, particularly because it does not allow for a Democratic substitute for critical year end legislation.

In a Democratic substitute we would have included a permanent repeal of the flawed physician payment formula in Medicare replacing it with a ten-year freeze. Each year members promise to look into this formula and address it—to provide certainty and stability for America's seniors in accessing their doctors. The House passed health reform bill did exactly that. Unfortunately it did not become law, but the Republicans did not even try to solve this problem. They did not offer legislation or have markups. The Republican bill punts the question for another 2 years.

In a Democratic substitute we would have included the Wireless Innovation and Public Safety Broadband Act that Representatives ESHOO and I sponsored. It keeps many of the same policy goals as the Republican legislation, but it would not undermine public safety by erecting a faulty governance model for a public safety broadband network, nor would it mandate the premature return of spectrum utilized for mission critical voice communications. The substitute also would have allowed the FCC necessary discretion to preserve unlicensed spectrum uses that preserve innovation and benefit consumers as well as protect consumers from monopolies.

In a Democratic substitute, we would not have included the poison pill of the Keystone XL tar sands pipeline provision.

In a Democratic substitute, we would not be asking modest income seniors and individuals with disabilities to foot the bill for tax relief—that's just robbing Peter to pay Paul. Seniors making over \$85,000 a year are already paying more for Medicare. High income earners already pay more all their lives for Medicare through the Medicare payroll tax which has no cap. The changes in the Republican bill restructure the Medicare program in problematic ways to pay for short term extensions.

In a Democratic substitute, we would not be creating an additional 170,000 uninsured people by increasing costs on working class individuals through the health care tax credit and subsidies in the Affordable Care Act.

In a Democratic substitute, we would not be taking the shortsighted step of reducing our commitment to public health and prevention activities. These activities help to prevent diseases like diabetes, heart disease, cancer, and obesity and can lower healthcare costs over the long run.

The Democratic substitute would be a fair extension of important programs and would be paid for by the withdrawal and downsizing of troops overseas through the overseas contingency fund.

Mr. DREIER. I yield myself the balance of my time.

The SPEAKER pro tempore. The gentleman from California is recognized for 8½ minutes.

Mr. DREIER. Mr. Speaker, I rise in strong support of the rule and the underlying legislation.

There is a way to ensure that President Obama will sign this legislation. There is a way to ensure that he will sign this legislation, and that way is if we have Democrats join with Republicans in an overwhelming bipartisan vote.

Now, the message that we've gotten is that they're poison pills—"hostage" is the term that both the President and my colleague have just used in trying to move forward the important provisions of expanding the payroll tax so that working Americans can keep more of their own money, and the doc fix to ensure that doctors are reimbursed and that Medicare beneficiaries are able to have access to the health care that they need. And of course for those at this time of year who are struggling and need their unemployment benefits expanded, there is a way to get that done. Our goal is to get at the root cause of the problem.

As I said in the opening, Mr. Speaker, right now our job is jobs. Our job is jobs. And that's exactly what we're trying to do. Tragically, tragically we are dealing with a protracted unemployment problem in this country. You know it's been going on for an extended period of time. The only reason that we saw the unemployment rate drop from 9 percent to 8.6 percent is that hundreds of thousands of Americans have given up looking for work.

Now, as we listen to people say that at this time of year we need to make sure that we create jobs, we have to make sure that there are opportunities out there. My friend from New Jersey (Mr. ANDREWS) was talking about the fact that there are four people looking for one job. Let's put into place the kinds of policies that will allow us to see the private sector create jobs. We cannot legislate full employment. We cannot legislate full employment, but what we can do is we can pass legislation that will lay the groundwork for America's entrepreneurs, for America's innovators to have success by creating job opportunities.

There are 27 pieces of legislation that we have passed from this House that is in the Republican majority that are now sitting in the Democratic-controlled Senate. Those measures—increasing access to capital for small business men and women to create opportunities, making sure that we decrease the regulatory burden, which we

all know has undermined job creation and economic growth in this country—these are the kinds of measures that are out there that we hope very much will be considered in the Senate.

Now, as we look at the issue of so-called "poison pills," which my California colleague, Ms. PELOSI, the distinguished minority leader, talked about—and I tried to engage in a discussion with her on the House floor. I yielded to her and she chose to walk off the floor rather than engaging in a discussion. I guess the reason is that it's sort of hard to claim that encouraging an individual to move towards GED qualification is a poison pill. Isn't it kind of hard to claim that saying that we should allow States to engage in drug testing for people who are on unemployment is a poison pill? Making sure we reimburse for overpayments to recapture those hard-earned tax dollars, how can that be a poison pill? These are commonsense proposals to deal with the fact that we have a \$15 trillion national debt.

And the American people know that Big Government is a problem. Just this morning I read the Gallup poll which shows that we are at near-record levels with Democrats, Republicans, and Independents being suspicious of Big Government. What we need to do is we need to unleash this potential that is out there, and this measure will do that.

Now, we keep hearing that politics is being played with this. Well, Mr. Speaker, we've gotten the word today that the majority leader of the United States Senate, Mr. REID, has chosen to prevent Members from signing the conference report for the absolutely essential spending bill that is out there, the minibus spending bill, because of this issue that's before us right now. If that isn't playing politics, I don't know what is.

Right now we're faced with the threat of a government shutdown on Friday. If the Democrats don't sign that appropriations conference report—which has been negotiated in good faith again between both Democrats and Republicans with the House and the Senate—we're going to be faced with a government shutdown that Leader REID will in fact have created by preventing Members from signing that conference report.

We need to come together and do that, sign that conference report, get that work done. This measure, this measure, once again, Mr. Speaker, will get at the core problem that we face, and that is the lack of jobs that exist.

The Keystone XL pipeline will create, as has been said, 20,000 to 25,000 jobs, if not more, immediately—immediately—and it will allow us to decrease our dependence on overseas oil. And it will allow us to work closely, as my friend Mr. ROYCE said, with our close ally to the north, Canada, rather

than see them—understandably—engage in a stronger relationship with China.

There are so many benefits to this, so many benefits all the way across the board that I believe that, since roughly 80 to 90 percent of the provisions in here have been proposed by President Obama—many of which were discussed in his jobs bill that 98 days ago he proposed here in his address to the Joint Session of Congress. We are bringing these items up. We keep being told, bring up the jobs bill, bring up the jobs bill. This measure does just that.

Mr. Speaker, I urge my Democratic colleagues to join with Republican colleagues so that we can do what the American people want us to do, especially at this time of year. As we go into the holiday season dealing with these issues, it would be a very important message to send around the United States of America and throughout the world.

I began, as we were debating the point of order, by raising the famous quote of William Shakespeare, and I'll close with that, Mr. Speaker: "In such business, action is eloquence."

The material previously referred to by Mr. MCGOVERN is as follows:

AN AMENDMENT TO H. RES. 491 OFFERED BY MR. MCGOVERN OF MASSACHUSETTS

(1) Strike "The previous question shall be considered as ordered on the bill, as amended, to final passage without intervening motion except:" and insert the following:

The previous question shall be considered as ordered on the bill, as amended, and on any amendment thereto, to final passage without intervening motion except:

(2) Strike "and (2)" and insert the following:

(2) the amendment in the nature of a substitute printed in the Congressional Record pursuant to clause 8 of rule XVIII and numbered 1, if offered by Representative Levin of Michigan or his designee, which shall be in order without intervention of any point of order, shall be considered as read, and which shall be separately debatable for 30 minutes equally divided and controlled by the proponent and an opponent; and (3)

(The information contained herein was provided by the Republican Minority on multiple occasions throughout the 110th and 111th Congresses.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Republican majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives (VI, 308-311), describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's

ruling of January 13, 1920, to the effect that “the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition” in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: “The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition.”

Because the vote today may look bad for the Republican majority they will say “the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever.” But that is not what they have always said. Listen to the Republican Leadership Manual on the Legislative Process in the United States House of Representatives, (6th edition, page 135). Here’s how the Republicans describe the previous question vote in their own manual: “Although it is generally not possible to amend the rule because the majority Member controlling the time will not yield for the purpose of offering an amendment, the same result may be achieved by voting down the previous question on the rule. . . . When the motion for the previous question is defeated, control of the time passes to the Member who led the opposition to ordering the previous question. That Member, because he then controls the time, may offer an amendment to the rule, or yield for the purpose of amendment.”

In Deschler’s Procedure in the U.S. House of Representatives, the subchapter titled “Amending Special Rules” states: “a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate.” (Chapter 21, section 21.2) Section 21.3 continues: “Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon.”

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Republican majority’s agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. DREIER. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. MCGOVERN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on ordering the previous question will be followed by 5-minute votes on adoption of House Res-

olution 491, if ordered; and motions to suspend the rules with regard to H.R. 3246, if ordered, and S. 384, if ordered.

The vote was taken by electronic device, and there were—yeas 236, nays 182, not voting 15, as follows:

NOT VOTING—15

□ 1504

Mr. LUJÁN, Ms. RICHARDSON, Mr. BERMAN, Ms. CLARKE of New York, and Mr. BECERRA changed their vote from “yea” to “nay.”

Mr. ROGERS of Alabama changed his vote from “nay” to “yea.”

So the previous question was ordered.

The result of the vote was announced as above recorded.

Stated against:

Mr. FILNER. Mr. Speaker, on rollcall 918, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “nay.”

Mrs. NAPOLITANO. Mr. Speaker, on Tuesday, December 13, 2011, I was absent during rollcall vote No. 918. Had I been present, I

would have voted “nay” on ordering the previous question of the rule, H. Res. 491, providing for consideration of H.R. 3630, to provide incentives for the creation of jobs, and for other purposes.

Mr. LARSON of Connecticut. Mr. Speaker, on Tuesday, December 13, 2011, I missed rollcall 918. Had I present, I would have voted “no.”

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

## RECORDED VOTE

Mr. McGOVERN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 236, noes 180, not voting 17, as follows:

[Roll No. 919]

□ 1512

So the resolution was agreed to.  
The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. GRIFFIN of Arkansas. Mr. Speaker, on rollcall No. 919, my battery went out on my beeper, and so it never went off. As a result, I missed the vote. Had I been present, I would have voted “aye.”

Stated against:

Mr. FILNER. Mr. Speaker, on rollcall 919, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted “no.”

Mrs. NAPOLITANO. Mr. Speaker, on Tuesday, December 13, 2011, I was absent during rollcall vote No. 919. Had I been present, I would have voted “no” on agreeing to the resolution, H. Res. 491, providing for consideration of H.R. 3630, to provide incentives for the creation of jobs, and for other purposes.

SPECIALIST PETER J. NAVARRO  
POST OFFICE BUILDING

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill (H.R. 3246) to designate the facility of the United States Postal Service located at 15455 Manchester Road in Ballwin, Missouri, as the “Specialist Peter J. Navarro Post Office Building”.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. ISSA) that the House suspend the rules and pass the bill.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

## RECORDED VOTE

Mr. CICILLINE. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This is a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 415, not voting 18, as follows:

[Roll No. 920]

□ 1526

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. FILNER. Mr. Speaker, on rollcall 921, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "aye."

Mrs. NAPOLITANO. Mr. Speaker, on Tuesday, December 13, 2011, I was absent during rollcall vote No. 921. Had I been present, I would have voted "aye" on the motion to suspend the rules and pass S. 384, to amend title 39, United States Code, to extend the authority of the United States Postal Service to issue a semipostal to raise funds for breast cancer research.

#### RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. DAVIS of Illinois. Mr. Speaker, pursuant to clause 2(a), paragraph 1 of rule IX, I rise to give notice of my in-

tention to offer a resolution to raise a question of the privileges of the House.

The form of the resolution is as follows:

Whereas although our Nation's economy is gradually improving after one of the worst economic crises in our Nation's history, the economic crisis remains a daily reality for the 13.3 million unemployed workers and for the millions of Americans experiencing record levels of food insecurity, poverty, and foreclosure;

Whereas the national unemployment rate is 8.6 percent, with over 42.8 percent of all unemployed workers, more than 5.7 million people, having been out of work for more than 6 months;

Whereas while there were 1.8 unemployed Americans for every job opening in December 2007, when the Great Recession began, data recently released by the Department of Labor show that, as of October 2011, there were over 4.3 unemployed Americans for every job opening;

Whereas data recently released by the Department of Labor show that, as of October 2011, there were 3.3 million job openings, which is well below the 4.8 million job openings in March 2007, when job openings were at their highest point during the most recent business cycle;

Whereas recent data demonstrate that most unemployed Americans no longer receive unemployment insurance benefits, reflecting the crisis that exists for the millions of Americans who have exhausted their benefits and still cannot find work, including the 100,000 Illinoisans estimated to have exhausted their benefits in 2010 and the additional 100,000 Illinoisans who, it is estimated, would exhaust their benefits in 2012 if current law were extended;

Whereas unemployment benefits are a critical lifeline for our citizens and our economy, including by keeping 3.2 million Americans (including nearly 1 million children) from falling into poverty in 2010 alone; generating \$2 in economic stimulus for every \$1 the Federal Government spent during this recession; and saving or creating 1.1 million jobs as of the fourth quarter of 2009 alone;

Whereas all Members of the House of Representatives have a responsibility to protect Americans and our country from physical and economic harm, especially during times of national crisis;

Whereas the recently-introduced Republican proposal to address the unemployment crisis facing our Nation fails to protect Americans by drastically cutting 40 weeks of unemployment assistance and imposing new restrictions that would make it more difficult and costly for employees to receive the benefits for which they have paid;

Whereas the Republican proposal fails to protect Americans by cutting the number of Federally-funded weeks of unemployment benefits from 73 to 33 in high unemployment States, abandoning over 1 million Americans in 2012 by slashing their benefits;

Whereas the Republican proposal would likely result in the following States, with elevated unemployment rates, losing 40 weeks of unemployment benefits in 2012: Alabama, California, Connecticut, the District of Columbia, Florida, Georgia, Illinois, Idaho, Indiana, Kentucky, Michigan, Missouri, Nevada, New Jersey, North Carolina, Ohio, Oregon, Rhode Island, South Carolina, Tennessee, Texas, and Washington;

Whereas the Republican proposal would cause all other States to lose between 14 and 34 weeks of Federal unemployment benefits;

Whereas the Republican proposal would erode the unemployment safety net by undermining the requirement that unemployment dollars fund unemployment benefits to help individual workers cover basic necessities, such as food and housing;

Whereas the Republican proposal would further erode the unemployment safety net by undermining the eligibility standard that unemployment benefits be determined solely on the basis of a claimant's unemployment;

Whereas the Republican proposal demands untested, punitive measures that hurt unemployed workers, including deducting money from one's unemployment check to pay for required reemployment assessments and delayed or prohibited benefits depending on educational attainment;

Whereas the Republican proposal would disproportionately harm groups of Americans who are hardest hit by unemployment and long-term unemployment, including older Americans, low-income Americans, Americans from racial and ethnic minority groups, and Americans without a high school diploma;

Whereas now that emergency assistance is about to expire, the Republican proposal reflects comfort with \$180 billion in tax breaks for the wealthiest 3 percent of Americans for 2012, but not the \$50 billion needed to help millions of the neediest Americans who still cannot find a job;

Whereas the Economic Policy Institute estimates that the Republican proposal would result in as much as \$22 billion in lost economic growth, and the Center for American Progress estimates that the Republican proposal would lead to a loss of approximately 275,000 jobs in 2012;

Whereas it will tarnish the dignity and integrity of the House proceedings if the House considers a bill that cuts critical emergency assistance to millions of Americans, hinders economic recovery, and disproportionately harms older Americans, Americans from racial and ethnic minority groups, low-income Americans, and Americans without a high school degree;

Whereas it will tarnish the dignity and integrity of the House proceedings if the Republican Leadership holds hostage the 2.5 million Americans who, the Department of Labor estimates, will lose their benefits by March 2012 if Congress fails to act, in order to push a radical agenda the American people have already rejected; and

Whereas failure to allow consideration of amendments to protect vulnerable Americans during consideration of a bill that substantially and permanently changes Federal unemployment benefits tarnishes the integrity of the legislative process: Now, therefore, be it

*Resolved*, That the House of Representatives—

(1) recognizes the immediate need to extend current emergency unemployment benefits to promote our Nation's economic recovery by stimulating purchases, creating jobs, and preventing the loss of jobs;

(2) recognizes the immediate need to extend current emergency unemployment benefits to help the approximately 6 million unemployed Americans who will lose benefits if current emergency unemployment benefits are not extended through 2012;

(3) disapproves of drastically limiting Federal unemployment benefits until economic growth is robust and the Nation is in a period of full employment; and

(4) calls on the Leadership of the House to bring to a vote a clean extension of all current emergency unemployment benefits for a

full year to protect the millions of Americans who will lose benefits if the current statute sunsets at the end of December 2011 or if H.R. 3630, as posted by the Committee on Rules on December 9, 2011, is enacted.

The SPEAKER pro tempore. The Chair would now entertain the resolution.

Does the gentleman from Illinois wish to offer it at this point?

Mr. DAVIS of Illinois. Yes, I do.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read as follows:

Whereas although our Nation's economy is gradually improving after one of the worst economic crises in our Nation's history, the economic crisis remains a daily reality for the 13.3 million unemployed workers and for the millions of Americans experiencing record levels of food insecurity, poverty, and foreclosure;

Whereas the national unemployment rate is 8.6 percent, with over 42.8 percent of all unemployed workers, more than 5.7 million people, having been out of work for more than 6 months;

Whereas while there were 1.8 unemployed Americans for every job opening in December 2007, when the Great Recession began, data recently released by the Department of Labor show that, as of October 2011, there were over 4.3 unemployed Americans for every job opening;

Whereas data recently released by the Department of Labor show that, as of October 2011, there were 3.3 million job openings, which is well below the 4.8 million job openings in March 2007, when job openings were at their highest point during the most recent business cycle;

Whereas recent data demonstrate that most unemployed Americans no longer receive unemployment insurance benefits, reflecting the crisis that exists for the millions of Americans who have exhausted their benefits and still cannot find work, including the 100,000 Illinoisans estimated to have exhausted their benefits in 2010 and the additional 100,000 Illinoisans who, it is estimated, would exhaust their benefits in 2012 if current law were extended;

Whereas unemployment benefits are a critical lifeline for our citizens and our economy, including by keeping 3.2 million Americans (including nearly 1 million children) from falling into poverty in 2010 alone; generating \$2 in economic stimulus for every \$1 the Federal Government spent during this recession; and saving or creating 1.1 million jobs as of the fourth quarter of 2009 alone;

Whereas all Members of the House of Representatives have a responsibility to protect Americans and our country from physical and economic harm, especially during times of national crisis;

Whereas the recently-introduced Republican proposal to address the unemployment crisis facing our Nation fails to protect Americans by drastically cutting 40 weeks of unemployment assistance and imposing new restrictions that would make it more difficult and costly for employees to receive the benefits for which they have paid;

Whereas the Republican proposal fails to protect Americans by cutting the number of Federally-funded weeks of unemployment benefits from 73 to 33 in high unemployment States, abandoning over 1 million Americans in 2012 by slashing their benefits;

Whereas the Republican proposal would likely result in the following States, with elevated unemployment rates, losing 40

weeks of unemployment benefits in 2012: Alabama, California, Connecticut, the District of Columbia, Florida, Georgia, Illinois, Idaho, Indiana, Kentucky, Michigan, Missouri, Nevada, New Jersey, North Carolina, Ohio, Oregon, Rhode Island, South Carolina, Tennessee, Texas, and Washington;

Whereas the Republican proposal would cause all other States to lose between 14 and 34 weeks of Federal unemployment benefits;

Whereas the Republican proposal would erode the unemployment safety net by undermining the requirement that unemployment dollars fund unemployment benefits to help individual workers cover basic necessities, such as food and housing;

Whereas the Republican proposal would further erode the unemployment safety net by undermining the eligibility standard that unemployment benefits be determined solely on the basis of a claimant's unemployment;

Whereas the Republican proposal demands untested, punitive measures that hurt unemployed workers, including deducting money from one's unemployment check to pay for required reemployment assessments and delayed or prohibited benefits depending on educational attainment;
